
The article follows:

MEDICAL CARE'S NEXT REVOLUTION

(By Edmund Faltermayer)

Consider what doctors, to say nothing of patients, don't know about the value of just one procedure. Each year about 80,000 Americans get a carotid endarterectomy, a kind of Roto-Rooter job on clogged neck arteries. Typically costing $9,000, counting the bill for a hospital stay, the operation is designed to prevent strokes. Another triumph of modern medicine? Or an overly risky, overdone alternative to cheaper drug therapy? Incredibly, no one knows for sure, and no one is tracking the patients on a systematic basis to find out.

The same holds true for scores of other medical ministrations. Food companies know the impact of a redesigned ketchup bottle on sales. But the virtuosos performing hysterectomies, installing pacemakers, and bypassing diseased coronary arteries have only patchy information about the real payoffs. "Half of what the medical profession does is of unverified effectiveness," asserts Dr. Paul M. Ellwood Jr. of Minneapolis, in a phalanx of physicians who want to cut down on the guesswork.

Half of something as stupendous as the U.S. health bill—now 11.4% of GNP, or nearly twice what the military gets—implies a huge ore body that could be mined for savings. That should be of special interest to business, which picks up the biggest chunk of medical expenditures. Health insurance premiums have jumped anew in 1988, following several years in which companies successfully slowed the rise.

Abetting the persistent upward trend is what one consultant calls "MD-ification." Corporations, for all their new cost-containment mechanisms, don't know enough to go eyeball to eyeball when professionals are determined to do an operation. Yet business executives would be shocked if they knew of the doctors' own uncertainties. The problem is rare in the cut-and-dried matter of treating acute afflictions—prescribing penicillin for pneumonia or setting a broken bone. But doctors increasingly toil in the murky area of chronic ailments: arthritis, angina chest pain, impaired vision. Here the question of which treatment is best can be settled only with data.

The need for much more of it has never been so urgent. The new law liberalizing Medicare payments for catastrophic illness promises to boost demand for health services still further. So could the extension of health insurance to the uninsured (Fortune, September 26). A rollback of ignorance would bring huge benefits. With better data, business could effectively challenge proposed treatments. Many doctors might enjoy better protection against malpractice suits. Patients could be the biggest gainers. If the pros and cons of alternative treatments were better known and conveyed in lay language—a rarity now—patients could have a real say in how they are scanned and sliced.

The growth of health maintenance organizations, whose membership has tripled to 31 million in the past six years, was supposed to supply much of the missing knowledge. Operating on a fixed "subscription" payment set annually for their members, HMOs have strong reasons to study their centralized patient files for ways to weed out wasteful procedures. Alas, such studies have not been extensive. Until recently, HMOs have managed to save plenty of money just by cutting down on hospital stays.

That's particularly disappointing to Ellwood, 62, a witty, searingly insightful visionary who heads a medical think tank called InterStudy. He led the proselytizers when the concept of prepaid care was barely known in the early 1970s, and the very term HMO is his. But the rates at which HMO doctors perform various procedures, it turns out, are not so different than elsewhere. Caesareans and other debatable operations, moreover, are way up, just as they are in the country at large. "What HMOs haven't done, which I had hoped, is manage the content of medical care," Ellwood says. Why not? "HMO doctors are ignorant, just like all doctors."

Having shaken up the medical system once, Ellwood seeks to do it again. He wants the records of millions of encounters between doctor and patient, whether in HMOs or in the traditional fee-for-service system, recorded in computers and the results of treatment routinely monitored through follow-up questionnairs to patients. "When we're spending a half trillion dollars a year on health care," Ellwood says, "we ought to know what works." Dr. Arnold S. Relman, editor of the influential New England Journal of Medicine, says that "assessments" and the general concern about quality are "the third revolution in medical care," the first being the spread of health insurance and the second the revolt of the payers. Physicians must be in charge of the third revolution, Relman says, for only they have the training.

Though better information could put an end to some fat fees, doctors are starting to rally behind the idea. Many fear a loathsome alternative: another round of heavy-handed cost controls imposed by nondoctors. Dr. William L. Roper, a pediatrician who runs the federal government's Medicare and Medicaid programs, adds that "those on the firing line want better information so they can do a better job for their patients."

Medical research is hardly in short supply. Teams of doctors report all the time on the success of this new operation or that diagnostic device. But the studies often leave important questions unanswered because the number of patients is small, the scope of inquiry narrow, or the methodology faulty.

Take the controversy on how to treat hardening of the leg arteries, which can turn walking to agony and lead to amputation. Doctors have four main alternatives: Do nothing, prescribe physical therapy and exercise, perform bypass surgery, or use a newer procedure called percutaneous transluminal angioplasty, or PTA—inserting a balloon and inflating it to clear the arteries. During a 1987 visit to Duke University's Center for Health Policy Research and Education, Dr Raphael Adar, a prominent Israeli surgeon, pored over 39 papers on the use of PTA for the leg. As disclosed in a recent issue of Health Affairs magazine, Adar found all the studies deficient. Not even the better ones reported on the outcome of greatest concern to patients: the relief of pain and the continued ability to walk.

"For people who read this kind of information, it's very frustrating," says Dr. David Eddy, a professor of health policy at Duke and a critic of much medical research. Meaningful numbers on the cost effectiveness of tests can also be hard to come by. When left in the dark, Eddy says, panels of doctors charged with evaluating the tests' usefulness fall back on their own best clinical impressions. One panel was asked to estimate the effect of a particular testing regimen—annual sigmoidoscopy and stool specimens—in reducing cancers of the colon and rectum, which annually take the lives of about 60,000 Americans. The answers ranged all the way from a 5% reduction in deaths to 95%.

Elsewhere, shafts of knowledge have begun to pierce the darkness. Financed primarily by foundation funds, Rand Corp., a research organization in Santa Monica, California, has looked into those carotid endarterectomies. First the researchers studies the literature and listed the hundreds of situations in which the treatment might help. Then they asked a panel of nine doctors to rate its appropriateness in each situation and reviewed the records of 1,302 Medicare patients in three areas who got the operation in 1981.

The conclusion, published earlier this year: Just over a third of the carotid endarterectomies were appropriate, while 32% were borderline. The other 32% should not have been performed, mainly because the symptoms did not seem serious enough to warrant the considerable risks. During the hospital stay, 3.4% of all the patients who got carotid endarterectomies died because of complications from the operation. Another 6.4% had strokes—just what they had hoped to avoid. The researchers recommended that the operation be curtailed.

Three other procedures have come under Rand's scrutiny. As the table on page 127 shows, the researchers found two diagnostic tests much in vogue to be overdone, though not as greatly as some critics assert. But Rand recently came down hard on coronary artery bypass surgery.

More than 230,000 Americans had coronary bypass operations last year, twice as many as in 1980. Few are life-and-death affairs performed on patients who have just had heart attacks. The aim generally is to relieve chest pain. Two alternatives—drugs and clearing the coronary arteries with an inserted balloon—are less costly and sometimes just as effective. Reviewing 386 bypass operations done in three hospitals in 1979, 1980, and 1982, Rand concluded that only 56% were clearly appropriate.

"Appropriateness" studies are a giant step forward, but they have limitations. They are based on what committees of specialists believe is the right time to test or operate. To know what works requires surveys of how patients made out later on—typically at least a year later. Contact with patients often ends when they walk out of the hospital or the doctor's office. Dr. John E. Wennberg, an epidemiologist at Dartmouth Medical School, made some fascinating discoveries in a follow-up study of men who underwent prostate operations.

Wennberg, 54, has a quietly earnest manner that befits one with a sense of mission. Because doctors don't know the probable outcomes of one treatment vs. another, he says, medicine is in an "intellectual crisis." When studying health care patterns in rural New England in the 1970s, Wennberg was struck by significant variations in the rate at which doctors performed tonsillectomies, hysterectomies, and other operations. Later he found sharp differences in medical spending in Boston and New Haven, Connecticut. Though the health characteristics of both cities' populations are similar, Boston was spending the equivalent of 16% of GNP on medical care to New Haven's 9%.

Prostate operations, which varied from place to place by a factor of four in the earlier New England study, provided an opportunity for Wennberg and his colleagues to pioneer. Few are performed to save a man's life; even cancer of the prostate is rarely fatal. But many physicians have long advised preventive surgery to avoid a greater risk when the man is older. More than 300,000 operations on benignly enlarged prostates were performed in the U.S. last year at a cost of about $3,500 each.

Two-thirds of Maine's practicing urologists agreed to participate in Wennberg's survey of patients getting prostatectomy operations, starting in mid-1983. Most of the patients were 65 and older. An initial interview detailing each man's symptoms was followed by another three months after surgery and telephone interviews after six and 12 months. The findings, based on 263 men who completed all three postoperative interviews, were published last spring in the Journal of the American Medical Association. The researchers found that the "preventive" argument for surgery is wrong, for the operation caused a slight decrease in life expectancy. It is justified solely, they concluded, for what physicians call quality-of-life reasons: The patient is having problems urinating.

For most of the men, the quality of life improved over a year: 78% reported mild or no symptoms and 16% moderate problems, leaving only 6% with serious symptoms. The results of the survey have been incorporated into a videodisc that will be tested before focus groups of doctors and patients this fall. Running 28 minutes, not counting additional information the viewer can select at the press of a button, the disc is a breakthrough in medical consumer information.

To background music, the title comes on screen: CHOOSING—Prostatectomy or Watchful Waiting. Dr. Charles Culver, a psychiatrist who serves as narrator, says the operation brings "improvement at a price. We'll tell you the harms and benefits, but then you must decide." Four patients appear. One of two who agreed to the operation can scarcely contain his enthusiasm: "Now I can put my initial in the snow!" One who chose "watchful waiting" is asked whether his condition interferes with daily activities. His mildly jovial reply: "All tickets at the theater or the airlines had better be on the aisle."

While pointing out the advantages of the operation, the narrator cautions that the negatives must not be overlooked. Within three months of the operation, 8% of the men were back in the hospital with serious complications. Others encountered new difficulties: 4% of those who never had the problem became incontinent to some degree, and 5% of those who previously had erections became impotent. If the videodisc were generally available, many men would probably turn down the operation, particularly those who don't have severe problems.

Not too many years hence, Wennberg hopes, a typical doctor's office will have perhaps a score of videodiscs covering as many illnesses. To those accustomed to the dictatorial style of medicine, it might seem utopian to expect doctors to furnish information enabling patients to argue with them. But many doctors, particularly family physicians, might welcome the chance to help patients make up their minds. It's a safe bet, too, that payers would encourage the practice.

Wennberg favors a big increase in funding for a little-known federal agency called the National Center for Health Services Research and Health Care Technology Assessment. Despite the impressive name, its budget has declined since the 1970s, to $47 million. Wennberg and others want the figure boosted to at least $200 million. That would finance more studies like the one on prostatectomies. Says Wennberg, who notes that the drug industry spends billions evaluating its products: "The fundamental assessments of whether procedure A or B works better just haven't been done."

Ellwood has something far more ambitious in mind, which he calls "outcomes management." The health system would keep track of all patients and their progress after treatment. Initially the goal would be to track chronic illnesses whose treatment is of uncertain value. Doctors would constantly adjust their procedures in response to feedback on what works best, much as a retail chain adjusts its buying according to on-line data that show what is selling.

The beginnings of such a system can already be discerned. Medicare boss Roper's outfit, the Health Care Financing Administration, has agreed to pay for pilot studies of outcomes management at ten Midwestern HMOs. Quality Quest, a subsidiary of Ellwood's InterStudy, will be in charge. One of the first tasks is to select a short, standardized "quality of life" questionnaire in which patients would describe their condition before treatment and later on. Such questionnaires, developed in the past few years by Boston psychometrician John E. Ware and others, include general queries on the patient's well-being and ability to function as well as some related to his specific illness. Sample question for a victim of heart disease: "Do you need to sleep sitting up at night?"

Ten other organizations are interested in financing pilot studies, among them the state of Massachusetts and the Blue Cross and Blue Shield Association in Chicago. When asked what he thinks of Ellwood's idea, the association's president, Bernard R. Tresnowski, responds, "Right on!"

"The health care system," Ellwood declares, "has become an organism desperately in need of a central nervous system that can help it cope with the complexities of modern medicine." Until a single national databank can be created, he would settle for a sharing of information among the institutions and health organizations.

One of the biggest databanks is Health Information Servicing Co., set up three years ago by nine of the largest Blue Cross and Blue Shield units and the national association to analyze payment and utilization trends among 15 million members. Another is the federal government, which has years of claims data covering 32 million Medicare recipients. In neither case are patients surveyed later on to gauge the effectiveness of treatments, though the Blues and Medicare are both interested in the idea. Data on patient's fates are already gathered, however, for some major illnesses. For example, the National Cancer Institute has access to data on more than a million patients, and a pool of data banks called Aramis tracks 28,000 arthritis victims. Some of the findings are available to the public.

Doctors' offices, which long ago turned to computers for billing, are still paper holdouts when it comes to maintaining patients' medical records. Many hospitals and health care organizations, on the other hand, have gone heavily electronic. Inter-mountain Health Care of Salt Lake City, which in 1975 took over hospitals formerly owned by the Mormon church, has created what may be the best computerized clinical database in the U.S. At some bedsides, doctors can call up a patient's history on terminals, including past test results and even recommended procedures. Dr. Brent James, who is director of medical research at Intermountain, plans to add follow-up surveys of discharged patients.

Computers already influence what doctors do. At Wishard Memorial Hospital in Indiana University's Indianapolis medical center, at least 400 doctors have access to computerized patient records. In an experiment at reducing blood tests in the mid-1980s, terminals began flashing information on the odds that each of eight common tests would reveal a suspected abnormality. Result: Billing for the eight tests dropped 9%.

United HealthCare, a Minneapolis firm that owns seven HMOs and provides contractual services to 16 others, maintains prescriptions records for two million people. About 500,000 live in the Twin Cities area, where pharmacies are tied into a computer network. When the computers spotted excessive use of diet pills a few years ago, the HMOs stopped paying for them and doctors cut down on prescribing them.

The next medical revolution will quickly sputter if it merely amasses information that doctors ignore. It's unlikely insurers will let that happen. Willis Goldbeck, president of the Washington Business Group on Health, a national organization of large companies with employee medical plans, says that "physicians will change their behavior if the new knowledge it tied to reimbursement."

Such ties are already being forged. Citing Rand Corp.'s studies, California Blue Shield has decided to require a second opinion on carotid endarfterectomies. One of Rand's senior researchers on the medical studies. Dr. Mark Chassin, has become senior vice president of a new company called Value Health Sciences, which is turning the Rand findings into a computer software program that insurers will be able to use as a cheaper alternative to a second doctor's opinion.

Thus the payers are using doctor-generated information to control what doctors receive. The implications cause a few shivers among physicians. Will medicine become a "cookbook" affair, with the treatment for each set of symptoms limited to what shows up on a computer screen? No two patients are alike, after all, and doctoring has always been a subtle blend of feel and fact. Roper, for one, doubts that cold science will eliminate the need for healing art. Airline pilots are required to follow all sorts of standard checkout procedures, he says, but flying the big ship still calls for experience. By putting as much uncertainty as possible behind them, doctors should find their calling more satisfying than ever.●

OMNIBUS McKINNEY HOMELESS ASSISTANCE ACT OF 1988

Mr. BYRD. Mr. President, I ask unanimous consent that the Committee on Labor and Human Resources be discharged from further consideration of H.R. 4352, the homeless bill, passed by the House, and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 3297

Mr. BYRD. Mr. President, I call up a substitute amendment at the desk.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from West Virginia (Mr. BYRD) proposes an amendment numbered 3297.

Mr. BYRD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment appears in today's RECORD under Amendments Submitted.)

The PRESIDING OFFICER. The question is on agreeing to the substitute amendment.

The substitute amendment (No. 3297) was agreed to.

Mr. BYRD. Mr. President, today the Senate is considering a bill to reauthorize the Steward B. McKinney Homeless Assistance Act. Year by year, the numbers of the homeless have grown. Families with children have become the latest wave of Americans seeking shelter and sustenance and not finding it.

Indeed, in my own State of West Virginia, more than one-third of the homeless individuals are members of homeless family units. Nearly one third of the State's homeless once owned their own homes. Forty percent of the West Virginia homeless have completed the 12th grade.

West Virginia's growing number of homeless is a symptom of a much deeper problem. This administration's economic policies have not helped rural States like West Virginia. Many of our industries have closed, leaving thousands without jobs and little chance of obtaining jobs without some retraining.

West Virginia emphasizes how much the problem of the homeless varies from one State to another. In many States, a third or more of the homeless come from mental health facilities. In others, the homeless population may have fled hard times in another part of the country. That is not the case in West Virginia. Our homeless are looking for jobs. And their average length of residency in West Virginia is 20 years. Mr. President, it is clear that the highly touted economic recovery is raising only some boats. It is swamping others.

These sad facts are repeated in the mail and meetings of all our colleagues to one degree or another, because this is an American problem, Mr. President, and we have, accordingly, crafted a bipartisan measure. Three committees—Governmental Affairs, Banking, Housing and Urban Affairs, and Labor and Human Resources—have worked on different parts of the homeless bill. Dozens of my colleagues collaborated in crafting a thorough and thoughtful approach to bringing help to the homeless, especially Senators CRANSTON, KENNEDY, and GLENN.

Mr. President, we do not seem able to house the homeless, but we cannot hide from them either. The problem has become so widespread that homeless shelters can be found everywhere from small-town Oregon to the big cities of the East. We find it here, Mr. President, on the doorstep of the White House. Washington, DC, prosperous and powerful, is home to thousands of the homeless. Even the smug and self-satisfied can not ignore the homeless sleeping on the subway grates or begging warmth from burning trash in a discarded barrel.

There was a time, Mr. President, when we romanticized the homeless. We thought in terms of a runaway Huck Finn or a turn of the century hobo riding the rails, seeing the country, drinking deep of a uniquely American freedom.

Whatever yesterday's truth, it has little to do with today's homeless. Some have drifted away from mental hospitals, others are victims of drugs or dependence on alcohol, and still others have looked for work but cannot find it. Some, Mr. President, are working but do not earn enough to put a roof over their heads. An old definition of the American dream, Mr. President, was summed up as "a car in every garage and two chickens in every pot." For too many Americans, there is no house, let alone a garage, and little more than a McNothing for dinner. The American dream of owning your own home has been downsized to a downsized American car.

What is most striking, Mr. President, is the growing number of families; the growing number of children that have joined the ranks of the homeless. The lack of sanitation, poor food, cold streets or a cramped car for a bed—we are putting these children at risk. And the worst risk is not just poverty. In America, with the basics of education, an inner discipline, and hope that comes with opportunity, a young American can pursue virtually any dream. I know, Mr. President. I have walked that steep hill myself with little more than pockets filled with determination and dreams. What I fear, Mr. President, is that homelessness may impoverish the spirit of the young and leave us all a little poorer.

No one has a clear count of the homeless. What we do know is that the number is large, it is getting larger and our attempts to deal with the problem fall far short of the need. Just as the West Virginia Department of Human Services advises that the number of homeless has increased dramatically in my State and is continuing to increase, on an national level we learn that:

The Department of Housing and Urban Development reports that the number of homeless increased 10 percent annually between 1980 and 1983;

The National Bureau of Economic Research reports a 23- to 30-percent increase in the number of homeless between 1983 and 1985;

The National Coalition for the Homeless reports an average national increase of 15 percent;

In their latest report, the National Conference of Mayors found that applications for homeless programs vastly outdistance the available funds. They found that 17 of 26 cities had to turn away the homeless from emergency shelters.

The legislation we are introducing today recognizes the complexity and the urgency of the problem. It continues our effort to meet the very different needs of different kinds of homeless Americans.

It authorizes funding of about $645.9 million for fiscal year 1989 and $659.8 million for fiscal year 1990. I am sure that there will be those who find this level to be less than they would prefer, and there well may be others who find that it is more than they believe we can afford, given the enormous deficits facing our Nation. But I am persuaded that we have struck a good balance in this bipartisan bill.

This is an important bill. And I am pleased that the Senate can act on it today. I thank all Members on both sides of the aisle, and their staffs, for their efforts in crafting this bill.

Mr. CRANSTON. Mr. President, I am pleased that the Senate is about to act on amendments to the Stewart B. McKinney Homeless Assistance Act of 1987. This legislation will extend assistance to homeless Americans and make that assistance more effective.

I deeply appreciate the strong leadership provided on this issue by Senate majority leader, Senator BYRD. Many other Senators of both parties, including Senators KENNEDY, GLENN, and DOMENICI, have worked long and hard to shape the bill now before us. They all deserve credit for a job well done.

Mr. President, 1 year ago, Congress enacted the Stewart B. McKinney Homeless Assistance Act, which was the first comprehensive legislative effort to address the rising number of homeless individuals and families in this Nation. Since then, many States, localities, and private organizations have been able to help homeless people with funds authorized under the McKinney Act. They have established emergency shelters. They have created supportive housing facilities that help individuals and families make the transition to independent living. They have provided health care, job training and adult literacy services to improve the quality of the lives of homeless individuals and help them to achieve self-sufficiency.

Passage of the McKinney Act marked only the beginning of the Federal response to homelessness. The first year of program operation shows that much progress has been made, but we still have a long way to go.

Demand greatly exceeds the funds authorized for the homeless housing programs, and appropriations were far below the authorization levels for both fiscal years 1987 and 1988. In that time, HUD was able to fund only 19 of 141 applications received for the Section 8 Single Room Occupancy Program, and only 39 of the 250 applications received for the Supplemental Assistance Program.

This funding shortfall occurs at a time when key indicators show that need is increasing. Last December, the U.S. Conference of Mayors reported that 65 percent of 26 cities surveyed are routinely turning away homeless people from emergency shelter programs because of a lack of beds or space. Demand for emergency shelter has increased by an average of 21 percent, with an increase up to 40 percent in some cities.

Clearly homelessness, like the absence of affordable housing in general, is a national problem demanding a sustained Federal response. This bill to reauthorize the McKinney Act is a vital step in that response. It concentrates on delivering assistance to needy people as quickly as possible. Let me briefly outline the bill.

First, the bill would reauthorize the Interagency Council for the Homeless and specify the council's duties in detail. Coordinators would be assigned to the 10 standard Federal regions to interpret regulations, assist States and homeless providers in the application process for Federal assistance, and organize regional workshops.

Second, the bill would reauthorize the Emergency Food and Shelter Program administered by FEMA.

Third, the bill would encourage States to establish State Interagency Councils on the Homeless.

Fourth, the bill would encourage Federal agencies to identify "underutilized" Federal facilities that can be used to shelter the homeless on a temporary basis.

Fifth, the bill would reauthorize and streamline the four McKinney homeless housing programs: the Emergency Shelter Grant Program, the Supporting Housing Program, the Supplemental Assistance for Facilities to Assist the Homeless Program, and the section 8 Single Room Occupancy Program. The refinements would make the programs more flexible and effective at the local level.

Sixth, the bill would make several technical amendments to the Housing and Community Development Act of 1987. These are explained further in an exhibit which follows my remarks.

Seventh, the bill would reauthorize programs that provide primary health care and mental health services to the homeless.

Eighth, the bill would reauthorize demonstration programs which provide alcoholism and substance abuse treatment services for homeless individuals.

Ninth, the bill would reauthorize a variety of programs which provide literacy training and education to homeless adults and children.

Tenth, the bill would reauthorize programs which provide job training for homeless youth, and allow States to target job training funds to the welfare youth population.

Eleventh, the bill would reauthorize a community services program to provide emergency management for homeless individuals, making homelessness prevention an eligible use under the program.

Twelfth, the bill would authorize the Jobs for Employable Dependent Individuals program, known as JEDI, to enhance the provision of Job Training Partnership Act services to long-term recipients of AFDC and SSI by paying bonuses to States that succeed in training and employing this population.

Thirteenth, the bill would authorize transitional living grants under the Juvenile Justice and Delinquency Prevention Act of 1974 to provide shelter and teach independent living skills to homeless youth between the ages of 16 and 21.

Finally, I am delighted, as chairman of the Committee on Veterans' Affairs, that the bill includes provisions that would reauthorize two programs that provide medical care to veterans. These programs would convert underused space in VA facilities to domiciliary care beds and furnish medical care, treatment, and rehabilitative services to homeless veterans who are chronically mentally ill. The programs are explained further in an exhibit which follows my remarks.

Mr. President, the fact that this bill is moving by unanimous consent shows our commitment to the plight of the homeless in this country, and I urge my colleagues to follow through on this commitment.

I ask unanimous consent that descriptions of the housing and veterans sections of the bill be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection it is so ordered.

(See Exhibit 1.)

Mr. CRANSTON. Mr. President, it is with great pleasure that, as chairman of the Committee on Veterans' Affairs, I note that the bill as it is before the Senate includes a two-part provision that I proposed along with the committee's ranking minority member [Mr. MURKOWSKI] authorizing an appropriation of $30 million in each of fiscal years 1989 and 1990 to provide aid to homeless veterans. The first part would authorize the VA to use up to 40 percent of the funds appropriated under this authorization to convert to domiciliary beds underused space located in facilities under the jurisdiction of the VA in urban areas in which there are significant numbers of homeless veterans. The second part would authorize the VA to use up to 60 percent of the funds for furnishing care, treatment, and rehabilitative services to homeless veterans who have chronic mental illness disabilities.

The conversion of underused space to domiciliary beds was first authorized in S. 533, the Senate-passed version of the first McKinney Homeless Assistance Act. Although this provision did not survive the conference with the House, $15 million was appropriated for the program in 1987 and it was fully authorized in Public Law 100-322, the Veterans' Benefits and Services Act of 1988. Such a provision is in H.R. 4352, the House-passed version of the new McKinney Act. The creation of these domiciliary beds from underused space not only provides a place off of the street for these homeless veterans to sleep but also provides the opportunity for the veterans to receive much needed medical and mental health assessments and appropriate care and rehabilitative services to meet their needs. According to VA statistics, in utilizing these provisions the VA, through September 1, 1988, has converted underused space in 10 new domiciliary facilities to accommodate 509 beds, with an additional 25 beds planned, and in 10 existing domiciliaries the VA has added 306 beds, for a total of 815 domiciliary beds now operating for homeless veterans. Over 2,800 veterans have used this program, and preliminary reports indicate it has been a great success. Currently, there is a waiting list of almost 200 veterans which is sure to grow with the coming of winter.

For fiscal year 1988, approximately $4.5 million has been expended for conversions and $10.4 million for operation of the converted beds.

The program for chronically mentally ill [CMI] veterans was first authorized in 1987 under Public Law 100-6 and in 1988 was authorized as a 2-year pilot program under Public Law 100-322. Preliminary reports on the program, which is a community-based program combining aggressive outreach to veterans with intensive case management and time-limited care in non-VA residential treatment centers, have been very encouraging. In the first 14 months of the program, over 13,500 homeless veterans were contacted through programs operated at 43 VA sites—5 in California. Of those contacted, an estimated 10,500 received formal intake assessments. The assessments clearly show that the program is reaching those it was intended to reach: Profoundly homeless (over 50 percent had spent 2 or more years homeless), extremely poor (average total income for the 30 days prior to assessment was $207), chronically mentally ill (86 percent had symptoms of mental illness, 9.4 percent had combated-related post-traumatic stress disorder, 20 percent reported psychotic symptoms, and 3.8 percent reported suicide attempts during the 30 days before being contacted) veterans. Of those veterans assessed, approximately 1,350 have been placed in psychiatric residential treatment.

For fiscal year 1987, $5 million was appropriated for the CMI program, with an additional $5 million appropriated in 1987 to be available for expenditure through fiscal year 1988. In fiscal year 1988, it is estimated that the VA will spend approximately $12.5 million for this program. For fiscal year 1989, $13.25 million has been appropriated.

Both the creation of VA domiciliary beds and the program of care for chronically mentally ill veterans are important pieces in our Nation's struggle to aid the tremendous number of homeless veterans and other Americans.

VETERAN'S PROVISIONS

Authorizes appropriations (a total of $30 million) for two purposes: Conversion of underutilized space in VA facilities to domiciliary care beds, primarily for use by homeless veterans (40 percent of the $30M) and to provide for care for chronically mentally ill [CMI] homeless veterans (60 percent of the $30M). These funds would be in addition to any funds appropriated pursuant to other authorizations.

EXHIBIT 1

EXPLANATION OF THE TECHNICAL CORRECTIONS TO THE HOUSING AND CD ACT OF 1987

On May 24, 1988, the Committee on Banking, Housing and Urban Affairs reported favorably S. 2554, which would reauthorize the housing programs contained in the McKinney Homeless Assistance Act. Descriptions of the housing provisions in that Act are provided in Committee Report No. 100-393. Sections 205 and 603 of S. 2554, concerning religious providers and a New York HODAG project, have been elininated from the final bill.

Several technical amendments to the Housing and Community Development Act of 1987 were incorporated after the markup of the original bill. Those technical amendments would:

Direct the Secretary to issue regulations which implement the program for Project-Based Section 8 Assistance, as authorized in the Housing and Community Development Act of 1987. That provision requires HUD to permit public housing authorities contracts to an existing structure where the owner agrees to rehabilitate the structure. PHAs could use no more than 15 percent of their rental assistance in this way.

Direct the Secretary to make such allocation of certificates and vouchers as is necessary to ensure that sufficient resources are available to address physical or economic displacement of tenants of rental rehabilitation projects. The 1987 Act mandated that certificates or vouchers be used to assist tenants who are physically displaced from such projects. The Act also gave local administering agencies the discretion to use certificates or vouchers to assist economically displaced tenants—that is, tenants "who would have to pay more than 30 percent of their adjusted income for rent after rehabilitation whether they choose to remain in, or move from, the project." The amendment reflects the Committee's concern that some localities do not receive a sufficient number of certificates and vouchers under HUD's current method of allocation to carry out their statutory responsibilities.

Amend section 17(h) of the 1937 Act to permit all grantees in the Rental Rehabilitation Program to use up to 10 percent of their initial grant obligations to cover administrative expenses. The 1987 Act mistakenly omitted reference to units of local government in states that choose not to administer the program.

Amend Sec. 223 of the 1987 Act to clarify that HUD must provide an owner with information necessary to prepare a plan of action, including information within the Department's possession that relates to local market conditions. HUD's regulations and other internal memoranda require that an owner's plan of action include extensive market area and demographic information. Those regulatory requirements are more burdensome and costly to owners than Congress intended.

Amend Sec. 223 of the 1987 Act to clarify that different levels of detail are required depending on whether a plan of action proposes termination of low income affordability restrictions or requests incentives to continue that affordability. The Conference Report clearly envisioned that HUD would require different levels of detail. HUD's regulations and internal memoranda require the same level of detailed information irrespective of what administrative action an owner seeks.

Amend Sec. 225 of the 1987 Act to clarify that the Secretary may not use the availability of vouchers or certificates as a reason for finding that a plan of action does not create a hardship for tenants. Under Section 225, the Secretary may approve such a plan of action only if the plan will not "materially increase the economic hardship of low-income tenants or involuntarily displace current tenants . . . where comparable and affordable housing is not available." Congressional intent was that the Secretary could not claim that current tenants would not be harmed so long as they were given a voucher or certificate.

Amend Sec. 311 of the 1987 Act to permit units of local government that receive rent rehab grants directly from HUD to use rent rehab grants in rural areas. HUD provides grants directly to localities in states that elect not to participate in the Rent Rehab Program. The 1987 Act inadvertently omitted reference to HUD-administered states.

Make a series of amendments to Sec. 566 of the 1987 Act, the provision establishing guidelines and schedules for the detection and abatement of lead-based paint in public housing, to ensure that detection and abatement proceed in accordance with the most reliable, safe, and effective techniques currently available.

Amend Sec. 122 of the 1987 Act, a provision that established a program of resident management of public housing projects. The amendment would ensure that any management contract between a public housing authority and a resident management corporation that is entered into after the date of enactment of this Act shall be subject to the provisions of Sec. 20 of the 1937 Act and any regulations promulgated thereunder.

Attach S. 1994, legislation addressing fraud and abuse in HUD programs that was passed separately by the Senate on December 21, 1987 as part of the final agreement on the Housing and Community Development Act of 1987. The provision would allow HUD to obtain the Social Security number or employer identification number and a signed consent form from program participants to determine their eligibility. This information would permit HUD to verify current wage and benefit information and avoid fraud and abuse.

Amend Sec. 126 of the 1987 Act, a provision that established a 7-year demonstration program to demonstrate the effectiveness of providing comprehensive services to public housing tenants to ensure their transition to private housing. The section required that any increase in income resulting from participation in the program not be considered as income for purpose of determining initial or continued eligibility for other federal benefits. This amendment would ensure that this requirement apply to the portion of the demonstration program being carried out by the public housing authority in Charlotte, North Carolina; for the remainder of the demonstration program, a federal agency would have discretion over how to count increases in income when determining eligibility for benefits under the particular agency's jurisdiction.

Extend flood insurance coverage for Sacramento, California for up to three years. The extension will allow the completion of a feasibility study on new flood control provisions and the implementation of new flood control measures.

Mr. KENNEDY. Mr. President, I support the Stewart B. McKinney Homeless Assistance Reauthorization Act. The tragedy of homelessness in America is among the most serious challenges facing our Nation. I am pleased that both sides of the aisle in the Senate have been able to work together to craft a bipartisan reauthorization package and I urge all of my colleagues to support the bill before us.

I want to take a moment to commend my colleagues for their tireless work on this legislation. We are all grateful to Senator BYRD for his leadership in bringing this bill to the floor. In addition, Senators CRANSTON and GLENN have also provided invaluable leadership in drafting this legislation. Finally, my Republican colleagues, Senators HATCH, WEICKER, and DOMENICI have also worked hard to bring this bill before the Senate.

Almost 80 years ago, the White House Conference on Children declared that a "home life is the brightest and finest product of civilization." It is a national tragedy and disgrace that so many of our fellow citizens are homeless today. Estimates of their numbers are as high as 2,000,000. Moreover, the number of Americans with no place to call home is increasing at an alarming rate, and the homeless population is changing significantly—with children under 18 representing the fastest growing subpopulation among the homeless.

Last year, the Congress passed, and President Reagan signed, a landmark bill: the Stewart B. McKinney Homeless Assistance Act, which provides needed housing, health care, education and job training services to the homeless. The bill before us reauthorizes those critical programs.

The Senate Committee on Labor and Human Resources has contributed important measures to this package, including primary health care grants to community-based organizations, a demonstration project for treating homeless individuals for drug or alcohol abuse, a community-based mental health services demonstration project, comprehensive mental health services, adult and youth educational assistance grants, a job training demonstration project, and emergency community services grants for case management.

In addition, the committee made a number of improvements in the original bill. The first change adds the so-called JEDI bill, which passed the Senate by a vote of 99 to 0 in April 1987, and which can be effective in providing increased job-training services to the long-term poor. The addition of JEDI to this bill was unanimously approved by the Labor and Human Resources Committee.

In addition, the Labor Committee approved an amendment by Senator SIMON to create "Transitional Living Centers" for homeless youth.

On Monday, September 12, I had the opportunity to visit the Shattuck Shelter in the Jamaica Plain area of Boston, MA, where I saw firsthand the important work being done to care for the homeless. Each one of the dedicated staff and volunteers at the Shattuck Shelter has helped to make the lives of homeless men and women a little less difficult, a little less lonely, and a great deal more healthy.

Men and women with health problems ranging from influenza to AIDS are given treatment at the Shattuck Respite Care facility. During the past several years, hundreds of homeless men, women, and children with serious health problems have been saved from the streets and from a future of life-threatening health problems—I am very proud of the Shattuck Shelter, and of the tireless efforts of the men and women who work there.

The important work at the Shattuck Respite Care Program and hundreds of other creative programs cannot continue without the full support of the Homeless Assistance Act. Homelessness is a tragic reality for far too many Americans today, and Congress must respond. To refuse to act in the face of this tragic situation would be tantamount to negligence or even complicity. I urge my colleagues to support the measure before us.

Mr. GLENN. Mr. President, I rise in support of the Omnibus Stewart B. McKinney Homeless Assistance Amendments of 1988. This legislation reauthorizes the homeless assistance programs established by the Stewart B. McKinney Homeless Assistance Act of 1987.

By enacting the McKinney Act last year, Congress crafted the Federal Government's first comprehensive policy directed toward the homeless. That measure provided vitally needed emergency relief to the growing numbers of homeless through grants for shelter and housing, health care, and community services and education programs.

The bill we are considering today reauthorizes McKinney programs for fiscal years 1989 and 1990. It embellishes and refines certain provisions of the act. As we consider this legislation, we must remember that neither the severity nor the magnitude of the problem has disappeared. We still see homeless people sleeping in the parks, seeking shelter from the elements in subway stations, and lining up at soup kitchens with palms outstretched.

The McKinney Act, it must be remembered, was neither devised to attack the underlying causes of homelessness in America nor to eliminate this scourge in one fell swoop. Its objectives were more narrow: to address the acute and immediate needs of the homeless. And the programs, by and large, have been successful in meeting these focused goals.

I am proud and pleased to note that the Committee on Governmental Affairs, which I chair, contributed to this omnibus package with three important programs. Specifically, the committee created the Interagency Council on the Homeless, authorized the Federal Emergency Management Agency's [FEMA] Emergency Food and Shelter Program, and facilitated the transfer of underutilized Federal property to homeless service providers.

Title I of this year's omnibus McKinney homeless assistance amendments represents the efforts of the Governmental Affairs Committee. The committee extends the Interagency Council through fiscal year 1990, reauthorizes FEMA's Emergency Food and Shelter Program, and makes technical changes in the categorization of property available for distribution to service providers.

In addition, the committee makes some changes to the structure and organization of the Federal Interagency Council. These modifications are intended to ensure that the Council fulfills its mission of coordinating homeless activities on the Federal and intergovernmental levels.

Presently, State agencies and local providers lack necessary information about McKinney Act programs, application procedures, and deadlines. These crucial links in our assistance chain are confused, if not overwhelmed, by the maze of Federal regulations for each McKinney Act program. In fact, some State officials and local providers do not even know where to turn on the Federal level for answers to these questions. Moreover, many States agencies have expressed an interest in learning about innovative programs developed in other parts of the country. Yet, there is no established channel of communication to exchange these ideas and insights.

The Interagency Council on the Homeless must adopt mechanisms to meet these needs. Our proposed changes should lay a foundation which addresses these problems.

For example, the committee requires the Council to designate regional coordinators to be responsible for the provision of technical assistance. In this manner, State agencies and local organizations will receive the assistance they need to interpret Federal regulations, understand application procedures, and track the deadlines of the panoply of Federal homeless programs available.

The committee attempts to increase the Council's effectiveness not only by mandating specific duties, but also through enhanced State initiative and activity. Specifically, the committee encourages States to establish their own interagency councils on the homeless. Just as many States are unsure of which Federal official to contact, the Interagency Council as well as local providers are frequently unaware of whom to turn to on the State level to answer their questions. A central statewide entity would fulfill this function. Moreover, these State interagency councils will be responsible for distributing the bimonthly bulletin, prepared by the Federal Interagency Council, which will contain timelines for all Federal homeless assistance programs.

The objective of these new wrinkles is to provide that whatever resources we make available to assist the homeless, will, in fact, be effectively used. Because of the aforementioned problems of communication and coordination on the intergovernmental levels, the full potential of the McKinney Act programs has not been realized. Instead, some programs and services have fallen through cracks in the bureaucratic chain. The committee's emphasis on mechanisms of coordination and communication should ensure that such mishaps are minimized and that Federal assistance effectively reaches those who need it most.

While the McKinney Act programs are an admirable start, it is imperative that we also begin to consider and create long-term plans to combat this social blight. Shaping this effort requires a solid familiarity with the nature, extent, and causes of homelessness in the United States. Until recently, this data has not been available. Now, for the first time, we are beginning to receive answers to these questions from the General Accounting Office's [GAO] report on FEMA's Emergency Food and Shelter Program.

This report, mandated by the Governmental Affairs Committee in last year's McKinney Act, surveyed organizations which received FEMA emergency food and shelter grants in fiscal year 1987 about the populations they serve and the programs they operate. The preliminary results provide insight into the types of homeless and needy people receiving assistance from these programs. For example, over half of the service providers responding to the survey consider unemployment as an "extremely important" factor in causing homelessness in their city or town. Almost half of the service providers also rate a decrease in subsidized housing, the general increase in housing costs, and low wages as "extremely important" elements.

When considering the particular populations their programs serve, about 40 percent of the providers report that the inability to find work and loss of a job are "major contributors to homelessness" for most of their clients.

If the perceptions of the providers are correct, it means that contrary to many assumptions, economic and social factors have contributed substantially to the rapid increase in our homeless population. We can no longer "brush off" the homeless merely as byproducts of ill-advised deinstitutionalization programs, or as people who voluntarily choose to live on the streets. Many are homeless because of a combination of circumstances beyond their control. These results suggest that we need to examine the direction and acclaimed success of Fedeal social and economic policies in this decade.

Although these numbers only reflect the best estimates of service providers, it must be remembered that gathering objective data about the homeless is an inherently difficult—and almost impossible—task. These findings will help in sketching an accurate picture of the types of individuals being assisted by FEMA-supported agencies across this Nation. This glimpse, in turn, should help us gain a broader and more general understanding of homelessness in our country.

This knowledge should not be left only to the academicians, but instead should be used to achieve the goal of eradicating the causes of homelessness. When this goal is achieved, we will no longer need to apply such an extensive program like the McKinney Act to a problem that scars individuals, families and society. But until we develop these long-term solutions, it behooves us to offer as much short-term assistance to the homeless as we can.

Finally, I would like to acknowledge and thank the efforts of my distinguished colleagues on the committee, Senators **ROTH**, **HEINZ**, **LEVIN**, **NUNN**, **PRYOR**, and **SASSER** who have cosponsored the committee's substitute to S. 2607, ultimately incorporated into the Omnibus McKinney Act as title I.

Mr. President, I urge the adoption of this bill, and urge all my colleagues to join me.

HELP FOR THE HOMELESS—A REDEDICATION

Mr. RIEGLE. Mr. President, I rise today to express my support for the homeless package now before us.

Mr. President, we are faced today with an ever-mounting crisis of homelessness in our country. Despite the current economic expansion, the number of homeless men, women, and children is increasing in cities across America.

Most surveys suggest that the homeless population can be broken into three groups: the mentally ill, poor families, and single men. However, no matter which group you consider, the statistics are alarming.

One-third of all homeless are reported in fair or poor health. A recent survey of major cities states that 16 to 28 percent of the homeless have health problems that keep them from working. Unless something is done to improve the health of the homeless, the crisis will continue.

Families with children constitute the most alarming rise in the homeless population. A 1986 survey of 25 major cities by the U.S. Conference of Mayors showed 80 percent of the cities reporting an increase in the number of homeless families with children seeking emergency shelter. In addition, a Los Angeles study shows that 130,000 households in that city commit more than 50 percent of their income to housing. These families are a paycheck away from joining the ranks of the homeless. Unemployment and rising housing costs are conspiring to fill the streets with more homeless. Unless something is done to provide shelter for these families, the crisis will continue to grow.

Mr. President, a year ago we passed the Stewart B. McKinney Homeless Assistance Act to begin to address the needs of the homeless. With that act the Congress authorized more than $1 billion in funds over 2 years for programs which would provide health care, food, and shelter to these people who so desperately need our help. We sent a meassage to the people in the streets that we were going to fight to get them back on their feet and to provide them with a decent place to live. Now that promise is about to expire.

I believe that a reauthorization of the McKinney Act funds is imperative. This reauthorization together with proposed amendments to help those not covered by the original act will send a message of renewed faith back into the streets of America. While it does not provide for a permanent end to this crisis, the act will help ease the misery of our friends on the street. Then we can all work together to eliminate this national crisis. With the plight of hundreds of thousands of Americans in mind, I strongly urge my colleagues to give their support to this legislation.

Mr. SIMON. Mr. President, I commend the Senate today on its passage of the Stewart B. McKinney Homeless Assistance Act. By passing this important legislation, the Senate is reaffirming its commitment to meet the growing homeless problem. I wish to extend particular thanks to the chairman of the Labor and Human Resources Committee, Senator KENNEDY, and his staff, who assisted in my efforts to address the specific problems of homeless youths.

The high level of homelessness in America is a national disgrace. For one of the richest nations in the world, this is an unacceptable situation. I am encouraged, however, by the passage of this legislation. Past Congresses responded to the problem of homelessness with quick fixes. The reauthorization of the McKinney Act shows our Government's desire to work for long term solutions. The McKinney Act accomplishes this through its provisions for emergency services, housing assistance, medical services, and, most importantly, education and job training.

Through the McKinney Act attempts to be comprehensive, it became evident that the needs of homeless youth were not being met. Homeless youth between the ages of 16 and 21 face special problems. They are in a legal no-man's land. They are not old enough to live independently, and often lack education or vocational skills which would enable them to get off the street. They are too young for adult shelters, but too old for the foster care system.

The goal of the homeless youth transitional living provision, which passed the Senate today as part of the Stewart McKinney Act, is to fill this void and create a safety net for homeless youth between the ages of 16 and 21. The provisions allocates $5 million in grants for community-based programs which have previously been successful in providing services and training to enable homeless youth to become independent adults. Through this new grant programs, community groups will provide not only shelter but a variety of services such as remedial education, vocational counseling, and job training, as well as training in basic life skills such as balancing a checkbook. Programs funded under the provisions will give homeless youth an alternative to the street by teaching them the basic skills they need to survive on their own.

Without successful intervention, youth who do not get help may become mentally ill, part of the adult criminal network, dependents of our public welfare system, or may become involved in drugs. The programs provided by this legislation will help homeless youth make the transition to self-sufficient adulthood so that they can live productive lives.

Several years ago when we first passed the Stewart B. McKinney Act, we addressed the most visible and immediate problems of the homeless. Since that time, we have had the commitment and flexibility to broaden and change the provisions of our homeless programs as needs changed. I am pleased that the Senate recognizes the unique and immediate need of all of our homeless citizens and, in this legislation, particularly the needs of homeless youth.

Mr. CONRAD. Mr. President, I rise today in strong support of the Omnibus McKinney Homeless Act. This legislation reauthorizes a variety of programs to deal with the critical problem of homelessness in the United States. I have a deep concern for the problem of homelessness, Mr. President. It is a national tragedy that a land with surplus housing and a surplus of food cannot provide all of its people with these essentials.

The bill before us today, Mr. President, provides $645.9 million in budget authority for fiscal year 1989 and $659.8 million in budget authority in fiscal year 1990. It is a 2-year reauthorization of homeless assistance programs, and also contains several refinements to existing law to make homeless housing programs more flexible and effective at the local level. The money is authorized for a wide array of programs including emergency shelter and food, medical and mental health care, housing, educational programs for adults and children, job training and other community services for homeless and those "at risk" of being homeless.

Mr. President, this emergency funding only begins to chip away at the awesome problem of homelessness in America. Obviously, emergency programs are not an answer to the underlying reason for homelessness: the lack of affordable housing for all Americans. But we must authorize emergency relief as a matter of survival for those without any homes—those who, tonight, Mr. President, will have to depend on emergency shelters.

While many who focus on the problem of homelessness evoke the specter of urban blight, homelessness in rural areas like my own State of North Dakota is a critical and growing problem. A recent Newsweek article has highlighted the escalating problem of rural poverty: 9.7 million rural Americans are impoverished—nearly one-fifth of all rural residents. The Population Reference Bureau has estimated that one in four rural children live in poverty. So you can see, Mr. President, that poverty and homelessness are not issues which only touch the lives of urban dwellers.

In the year since the original McKinney legislation was passed, many States, localities, and private organizations have been able to help homeless people with funds authorized under this law. My State has received $1.3 million under the McKinney Act, enabling a wide variety of organizations and local efforts to comfort those who are homeless. Places like the New Life Center in Fargo, which provides meals and shelter for up to 102 people, and the YWCA, which shelters women and their children who are in need, are prime examples of the resourcefulness of North Dakotans who are dealing with the problem of homelessness.

Demand for this money, however, has far exceeded available funds. Mr. President, we must do more. The McKinney Act is important because it is a signal of Federal commitment to improving the housing situation in this country and because it infuses much-needed funds to emergency programs. It is, however, not a solution to the housing crisis our country is facing. We must craft a new, broad-based housing act which will begin to compensate for the last 8 years, in which we have witnessed a virtual dismantling of Federal housing programs. In 1979 this country spent enough money to build over 300,000 units of affordable housing, and last year we built some 11,000 units. Over this period of time, we have lost some 2½ million units of affordable housing. That is roughly the number of homeless people in America. Supporting this legislation, then, is a step—a critical one—but only a step in dealing with the entire housing problem.

I realize that the House and Senate Banking Committee's are currently in the process of drafting comprehensive housing legislation. I commend my distinguished colleagues for their work, and I look forward to the introduction of this legislation.

Mr. President, I strongly support this legislation. We must take action now to help alleviate the plight of homeless Americans. I urge my colleagues to act quickly to pass the Omnibus McKinney Homeless Act of 1988.

Mr. DASCHLE. Mr. President, I rise today to express my continued support for the provisions of the Stewart B. McKinney Homeless Assistance Act. The broad range of assistance to the homeless provided by this bill includes programs for shelter, food, education, and jobs training.

Last year I offered, and the Senate adopted, an amendment which provided a 1.5-percent set-aside of all program funds appropriated for the McKinney Homeless Assistance Act to Indian tribes. Last years' conference committee retained the 1.5-percent set-aside for Native American in title VII of the bill which provides assistance to homeless individuals for education, training, and community services programs. While the set-aside was dropped from remaining portions of the bill, the conferees made Indian tribes eligible recipients in the Supportive Housing Demonstration Program and the Supplemental Assistance Program. In addition, the Stewart B. McKinney Act incorporated Native Americans among those population groups; that should be targeted for assistance.

The conferees specifically intended "that homeless Native Americans be eligible for and served by all the programs established and authorized by this act."

Since passage of the homeless assistance bill, I have monitored the implementation of the bill to make certain that the interests of Native Americans are addressed through the programs authorized. Happily, it appears that the set-asides and attempts to incorporate Native populations in programs has been successful.

It heartens me to see that provision recognizing the relationship between the Federal Government and Indian tribes have been retained in the reauthorization. Past history unfortunately reminds us that unless Congress specifically provides for participation of Indian tribes they will probably not be included.

It also pleases me to see that Federal agencies like the Federal Emergency Management Agency [FEMA] are taking action to include Native Americans in their programs. FEMA has circulated among its funded organizations, a memo which encourages recipients on or near Indian reservations to directly serve Native American populations. Specifically, FEMA has encouraged its participants to: [and I quote]

> First, assess the needs of Native Americans in your counties, along with other demonstrable needs that can be addressed by the EFSP [Emergency Food and Shelter Program], prior to making allocations;
>
> Second, assess the composition of your local board to provide where possible for the inclusion of Indian representation;
>
> Third, advertise the availability of your countries' award via Indian newsletters or papers; and
>
> Fourth, if reservations are in remote, hard-to-access geographic areas, then consider funding service agencies on the reservation.

I thank the Senator and staffs of the Housing, Labor and Governmental Affairs Committees for their continued commitment to the pressing needs of homelessness through urban and rural America, as well as into the Indian reservations. I urge the adoption of this important reauthorization legislation.

I ask unanimous consent that the entire text of the FEMA directive be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

EMERGENCY FOOD AND SHELTER NATIONAL BOARD PROGRAM

Memorandum for: All Emergency Food and Shelter Program (EFSP) Funded Counties Residing on or Near Reservations.
From: EFSP National Board.
Subject: Native American Representation and Service.

The purpose of this memorandum is to talk with you about Native American representation in the EFSP.

This past year, staff of the National Board researched the degree of funding made available to Native Americans living on reservations. A survey of approximately 155 local EFSP boards in 26 states and a meeting with Congressional staff members and representatives from a variety of national Indian organizations showed minimal involvement of Native American tribes in the EFSP.

In addition to the concern of the National Board in addressing the special needs of Native Americans, Congress as well has encouraged special sensitivity under Title I, Section 102(b)3, of the 1987 Stewart B. McKinney Homeless Assistance Act. "It is the purpose of this Act to provide funds for programs to assist the homeless, with special emphasis on elderly persons, handicapped persons, families with children, Native Americans, and veterans."

In an attempt to increase the participation of tribal groups on reservations in the EFSP, the National Board would like to suggest a few ideas to local boards to bring about positive change and growth in the direction of the EFSP.

The National Board therefore encourages local boards to:

(1) Assess the needs of Native Americans in your counties, along with other demonstrable needs that can be addressed by the EFSP, prior to making allocations;

(2) Assess the composition of your local board to provide where possible for the inclusion of Indian representation;

(3) Advertise the availability of your counties' award via Indian newsletters or papers; and

(4) If reservations are in remote, hard-to-access geographic areas, then consider funding service agencies on the reservation.

The findings of the National Board's research has prompted these suggestions in the hope that local communities would have some success in addressing the needs of special groups eligible to receive EFSP services. The National Board in its own attempts to provide outreach has advertised the EFSP via the Housing Assistance Council and National Congress of American Indians newsletters. This avenue generated calls from Alaska, Arizona, Idaho, Michigan, Montana, New York, and Virginia. We are certainly pleased with this response and are confident that local advertising efforts and local participation will bring about greater results. This is not to say that we have not recognized the efforts and contributions of some localities already addressing this issue. To the contrary, we are delighted that EFSP local boards have shown some initiative and energy in their individual outreach efforts.

Should your local board have any information, suggestions, or comments, please call us at (202) 646-3883, or drop us a few lines. We are anxious to hear your thoughts on this and all program matters.

Thank you.

Mr. BIDEN. Mr. President, lead-based paints pose one of the most serious health threats facing the children of our Nation. Hundreds of thousands of American children have dangerously high levels of lead in their blood, and most experts agree that lead paint in housing is the single greatest source of lead exposure. Lead poisoning can cause brain damage and even death, and elevated lead levels short of lead poisoning can lead to learning disabilities and other health damage.

The Congress took an important step toward eliminating this hazard in the 1987 amendments to the Lead-Based Paint Poisoning Prevention Act of 1971. The 1987 amendments were necessary because the Department of Housing and Urban Development had interpreted the 1971 Act in a callous and inhumane way. Under HUD's so-called health approach, public housing authorities were only expected to abate lead paint in a given unit if a child living in that unit became ill due to elevated lead blood levels.

The 1987 amendments prohibited HUD from continuing to use this health approach, and instead required HUD to test all public housing units over a 5-year period and abate any lead paint discovered. The 1987 amendments also ordered HUD to conduct a demonstration program, to investigate new techniques and technologies for lead paint testing and abatement. After the demonstration program is completed, the 1987 amendments require HUD to develop a comprehensive plan for abating lead paint in nonpublic housing as well.

Since the 1987 amendments were passed, however, important new evidence has come to light indicating that some traditional methods of abating lead paint are actually counterproductive. One study found that traditional methods of abatement actually increased lead dust levels 10 to 20 fold immediately after abatement. As a result, the study found, a large number of children living in abated units suffered elevated lead counts in their blood—as many as 40 percent of these children. Our national experience with asbestos removal should teach us that good intentions without well-conceived solutions can produce disastrous results.

It is important to note that these studies did not say that it was impossible to safely test and abate lead paint. They merely found that certain methods of abatement actually made the situation worse. In fact, several other studies have demonstrated that successful and cost-effective testing and abatement is possible, when the right techniques are used and when the workers are properly trained. The Environmental Protection Agency's Baltimore Integrated Environmental Management Project report on reducing the hazards from abatement of lead paint is a good example of such a study.

In short, we can identify lead paint in housing units and get rid of it if we put into place comprehensive, understandable and workable standards which ensure that the best abatement technologies are used and that workers are adequately trained. A timely, well-conceived response can avoid much preventable illness and suffering. If abatement is poorly done, however, then we will do more than just waste money. We will actually threaten the health of more children than if we did not act at all.

Unfortunately, HUD promulgated rules that were unrealistic and unreasonable last June. Instead of taking advantage of the flexibility built into the 1987 amendments, HUD ordered Public Housing Authorities to immediately test and abate on a massive scale. Unfortunately, HUD did not give PHA's any guidelines or standards for testing and abatement. As a result, many PHA's, acting without the benefit of the best information or technologies, would probably rely on outdated and counterproductive approaches.

The 1988 appropriations bill for HUD and independent agencies contained an additional amendment to the Lead Paint Poisoning Prevention Act. This amendment served to stop these HUD regulations by providing that no funds may be used to implement or enforce the HUD regulations until the Department developed comprehensive technical guidelines on testing and abatement. The amendment also required the Department to spend $1.2 million on lead paint studies.

The amendment contained in the appropriations bill was necessary to keep HUD from implementing the act in a harmful way, but it threatens to go too far the other way. While the conference report blasted HUD for its inexcusable delays, the language of the amendment in the appropriations bill did not specify any deadline or time period in which the Department was required to act. It also required no interim testing or abatement while final standards are being completed.

In most cases, it would seem natural to trust the Department to develop standards in a timely manner. In the case of lead paint, however, HUD has a long history of delay and foot-dragging. In the 1971 Lead-Based Paint Poisoning Prevention Act, Congress declared that it was a violation of the sanitary code for there to be lead paint in housing units with children younger than 6 years old. HUD has done frighteningly little since that time, however, and in 1988 we have yet to get started on a large scale. In light of this history, we must go beyond the amendment to the appropriations bill and require action within a definite timetable.

The lead paint provisions in this bill help correct some of the shortcomings of the lead paint amendment in the appropriations bill. At the least, this bill would ensure that HUD is not idle while it waits for the end of the demonstration program. Under this bill, HUD would be required to proceed with testing and abatement (under interim guidelines and standards) in public housing units undergoing comprehensive modification under the Comprehensive Improvement Assistance Program. At the same time, units not undergoing comprehensive modification will not be inspected or abated until after the demonstration program is completed.

I am concerned that we break through these delays and get on with the job of testing and abatement, but I am also concerned that we do so effectively. This bill represents a careful compromise, and attempts to balance these two concerns. On the one hand, the bill should produce a more effective policy than the HUD regulations by ensuring that abatement and testing of all units only take place after standards have been carefully considered and adopted. On the other hand, the bill ensures that HUD not remain idle indefinitely, requiring that testing and abatement proceed in units undergoing comprehensive modification.

By testing and abating first in those units undergoing comprehensive modification, the bill spends our limited resources where they can do the most good. First, public housing authorities usually begin comprehensive modification on their oldest units first, and lead paint is more likely to be present in older units. Second, it is more efficient to test and abate a large number of units at one time, which can be done during comprehensive modification. Third, many if not most units undergoing comprehensive modification are vacant during the repairs, so tenants do not face any health risks created by dislodged and aerosolized lead dust.

While I support the bill's commitment to pausing and thinking before rushing ahead with testing and abatement, I am not sure that we need to pause for a full 18 months. Instead of delaying all testing and abatement in public housing—with the exception of those units undergoing comprehensive modification—until after the completion of the demonstration program, I would have preferred to adopt a shorter deadline. I would suggest that a better target date might be the release of the study recently begun by the National Institute of Building Standards and called for by this Congress. The NIBS study should produce useful technical guidelines for testing and abating lead paint, and will be completed next February. As the conferees work on this bill, I hope they will carefully consider advancing the starting date for public housing units not undergoing comprehensive modification from the end of the demonstration project to the end of the NIBS study.

If the conferees decline to advance the start-up date for testing and abatement in these units, however, the bill gives HUD plenty of leeway to speed up the pace of testing and abatement if they choose. When the NIBS study comes out, I hope that the Department will carefully evaluate its conclusions and consider if it is really necessary to wait an additional 9 months to move ahead in most units.

In sum, this bill attempts to steer a course between a forced and rushed policy, on the one hand, and continued bureaucratic footdragging on the other. While I believe the bill can be improved, and I urge the Conferees to do so, I think it does a better job of balancing the needs for speed and effectiveness than the current statutory structure.

Mr. CHILES. Mr. President, on August 30, the U.S. District Court for the District of Columbia issued a nationwide temporary restraining order which prevented the Department of Housing and Urban Development from making contracts to sell single family properties from its inventory, except for the benefit of the homeless and low income persons.

With the FHA inventory currently at all-time highs, any such action which causes the FHA fund to lose capital represents a severe threat to both the Federal budget and to the integrity of FHA programs. The temporary restraining order has recently been lifted, but I wanted to make my views clear as we consider extending the authorization for the various homeless programs.

As chairman of the Senate Budget Committee, I am very concerned about any actions which could have the effect of increasing costs or decreasing income to the FHA fund. In a very immediate sense, any legislative action seeking to impose new restrictions on FHA could have this effect in 1989. Costs associated with this action would be scored and would increase the Gramm-Rudman deficit. Since we barely have enough room to complete anticipated legislation, any such unanticipated cost could very well trigger sequestration. With current 1989 estimates projecting around $3 billion in offsetting collections from sale of FHA properties, affecting even a minor portion of the inventory could have major and disastrous budgetary consequences.

Even if legislative action is not taken, the threat to the FHA fund presented by this case is very real. Requiring the entire FHA inventory to the subject to potential diversion from its intended use is a major policy shift in a very successful program. I am supportive of doing all we can to adequately fund programs for the homeless. However, I think it is utterly irresponsible to allow a major change in FHA to occur through a court case premised on an intent which Congress never had. Not only would this completely abdicate congressional responsibility for making policy; such a change could have far-reaching consequences for the stability and health of the FHA insurance fund.

The Mutual Mortgage Insurance Fund, the main target of the court suit, is supported solely by its assets and premium income. The MMI Fund is not authorized by law to receive congressional appropriations or to use Treasury borrowing authority, as are the other three FHA funds. These funds must comply with congressionally imposed mandates which do not allow the funds to completely recover costs. Therefore, Congress provides Treasury borrowing authority and, ultimately, an appropriations for the three funds' past losses. In contrast, the MMI Fund is intended to recover its costs through premium income from borrowers and proper management of its assets.

Allowing such a major policy change in the purpose of FHA would begin a potentially serious drain on the MMI Fund's resources, which are currently in reasonably healthy condition. Turning the FHA MMI Fund into a homeless program would result in one of two possible outcomes. Congress would have to start appropriating funds to replace lost fund income, or the fund's financial condition would start to deteriorate, necessitating a premium increase. The latter alternative has been a regular administration budget proposal which Congress has consistently rejected.

The temporary restraining order has just recently been lifted, and there is every indication that the judge will rule expenditously on the merits of the lawsuit. I continue to believe that a correct reading of congressional intent and existing law will resolve this case correctly. I therefore see no need at this junctive to seek resolution to this issue, particularly given the possibility of legislative mischief with serious spending consequences. However, should the ruling be unfavorable, I will pursue a legislative remedy ensuring the integrity of the FHA fund.

Mr. DOLE. Mr. President, last year as subfreezing temperatures and snow swept across this country, I joined the distinguished majority leader and many colleagues on both sides of the aisle in introducing the Urgent Relief for the Homeless Act to provide additional shelters and housing along with needed social services for the homeless.

NEED FOR REAUTHORIZATION

The first chill of fall reminds us that another winter is not far away and time is running out on the Stewart McKinney Homeless Assistance Act. That act authorized a package of programs to provide emergency food, shelter, basic health and mental health services, education and job training assistance to the homeless population of our cities and rural areas.

The crisis of homelessness in America is a tragedy but it is also a challenge. I believe we will rise to this challenge as we have in the past to problems confronting our Nation.

The central issue of homelessness is not numbers, whether there are 300,000 or 3 million without homes. We all know, or should know, that there is a problem and something needs to be done about it.

A measure of the quality of a society is how it takes care of its less fortunate members. The Homeless Assistance Act of 1987 did not do all that is necessary or all that many of us would like to do to provide long-term solutions to the problem of homelessness, but it was a good start. The job is not done. The challenge is still before us.

In the long run, we would like to have decent homes for all Americans. This bill does not achieve that objective, nor does the Housing Act of 1987, which the Senate passed last December. But significant progress is being made and we need to build on that progress and continue to pursue the best ways of helping those among us who are least fortunate.

FHA ASSET SALES

I would like to thank Congressman DeLay of Texas and others for calling to our attention the confusion surrounding the issue of whether title V of the McKinney Act requires HUD to use its inventory of FHA properties to house the homeless. While a request for preliminary injunction to prevent HUD from selling foreclosed FHA properties has been denied in U.S. district court, HUD should nevertheless strive in concert with others to find suitable properties that could be made available to the homeless.

A CLEAN BILL

I know that special efforts were made to keep this bill as clean and straightforward as possible. Accordingly, I would like to express my sincere appreciation to the Senators and staff of the Committees on Governmental Affairs, Banking, Housing, and Urban Affairs, Labor and Human Resources, and Veterans Affairs for preparing a clean reauthorization bill with support from both sides of the aisle. Their efforts have enabled the Senate to get on with this urgent business without delay. I commend them for a job well done.

CONCLUSION

George Bernard Shaw said that, "The worst sin toward our fellow creatures is not to hate them, but to be indifferent to them: that's the essence of inhumanity."

In reauthorizing homeless assistance legislation, we are acknowledging that the problem of homelessness has not gone away, that continued diligence is necessary to deal with this challenge to our society and our humanity.

Mr. GARN. Mr. President, I rise at this time, while we are discussing the reauthorization of the McKinney Homeless Assistance Act, to address an issue of critical importance: The sale of foreclosed FHA single-family homes.

Some people are currently claiming that these foreclosed FHA properties are to be considered "Federal public buildings" under McKinney, and instead of being sold, they should be opened to the homeless. To give the Department of Housing and Urban Development their due, HUD has given over many vacant properties for use of the homeless nationwide, for as little as $1 annually. Other properties have been made available by HUD to local public housing authorities and other governmental entities through the supportive Housing Demonstration Program. While the problem of homelessness still persists, using single family FHA properties that would otherwise be sold is clearly not the answer.

HUD's sale of these properties is expected to bring in around $3.2 billion in fiscal 1989. The proceeds from the FHA sales finances HUD's insurance operations. Right now, the insurance fund functions in an actuarily sound manner, as was the intent of Congress. If the FHA properties are not sold off promptly and cost-effectively, the solvency of the Mutual Mortgage Insurance Fund will be in jeopardy. A complete halt to single family sales is estimated to deplete all fund reserves by 1990. This fund cannot borrow from Treasury and has no authorization for congressional appropriations.

If the Mutual Mortgage Insurance Fund became insolvent, it would have to have funds appropriated to it. If the FHA single family auctions are halted, fewer moderate- and low-income families will be able to purchase homes; (70 percent of the auctioned homes are sold to first-time homebuyers at a price of between $40,000 and $50,000).

The homeless then would be the ultimate losers. If funds have to be appropriated to the Mortgage Insurance Fund, there are proportionately fewer moneys to aid other programs. If affordable homes for first-time homebuyers are no longer available as in the FHA sales, these buyers would be frozen out of the market, rents would go higher, and more homeless people would be out on our Nation's streets.

There are those who contend that the intent of Congress when crafting the McKinney bill was to include the defaulted FHA mortgaged properties as "Federal public buildings." That is just not true. Any donation of those FHA properties to any group would have been scored as direct spending and would have raised a point of order against the budget act. Second, staff and legislative counsel are very able, and it is rare that a bill doesn't say what it is meant to say.

Mr. President, the chairman of the Housing Subcommittee made it clear to Senator GLENN in their colloquy that "the Housing Subcommittee never discussed whether the term [underutilized] Federal public buildings and other Federal properties included HUD's inventory of foreclosed FHA properties."

I commend the Housing Subcommittee for working with the administration and the housing industry in making changes to the McKinney Act which will simplify procedures and provide more local flexibility in homeless housing programs. However, I am disturbed, as I was early last year when we first considered the McKinney Act, that over the years we've spent a great deal of money and still have not solved the problem of homelessness. The McKinney Act authorized another $475 million for specific housing programs for fiscal years 1987 and 1988. This reauthorization allocates another $560 million for fiscal years 1989 and 1990. We are no closer to solving this problem at the end of fiscal year 1988 and I doubt we will be at the end of 1990. Authorizing more funds simply to provide more units through these particularly expensive housing programs is not a compassionate or permanent way of solving this problem. Again, only when we look at the real reasons for homelessness and deal with them realistically will there be any real solutions.

Mr. HEINZ. Mr. President, I rise in strong support of the Stewart B. McKinney Homeless Assistance Amendments of 1988. This bill addresses a pressing need in our Nation—assisting the homeless. The bill before the Senate today reauthorizes programs to provide a variety of services to the homeless, including emergency food and shelter, housing assistance, health care, mental health care, job training, and education.

Since the President signed the McKinney Act into law last July, it has become clear that, although the programs are operating well, homelessness continues to be a very serious problem in this Nation. Indeed, the staggering number of applications filed by local and State governments and nonprofit organizations for the Federal homeless money—large percentage of which HUD found meritorious but simply did not have the budget authority to fund—is a testament to how grave our homeless problem is.

The bill before us extends the McKinney Act housing programs for an additional 2 years, and makes certain rather technical program changes that have arisen during the first year of the programs. For example, based on feedback from providers of homeless services at the local level, the Housing Subcommittee increased the flexibility for administering homeless programs. In particular, this bill amends the Emergency Shelter Grant Program to allow complementary funding for social services provided at emergency shelters. This amendment will allow facilities such as the Whale's Tail and the Light of Life Mission, both successful mixed-use facilities in Pittsburgh, PA, to use emergency shelter grants to provide bridge housing and alcohol abuse and employment counseling, as well as other social services aimed at breaking the vicious cycle of shelter living.

This bill also increases the authorization for the section 8 Single Room Occupancy [SRO] Program. The section 8 SRO Program has proven to be an effective and popular means by which to provide permanent housing to homeless people. During the first year, applications outnumbered awards by a factor of more than 10. HUD awarded 19 grants for approximately 1,000 units for the $35 million in budget authority, from among 141 applications totaling $419 million in budget authority to rehabilitate 11,500 units.

The programs authorized by the McKinney Homeless Assistance Act are badly needed. Funding for the programs is extended at the level authorized for this fiscal year, and I understand both the Senate and House budget resolutions can accommodate these spending levels.

In addition to the provisions reported by the Senate Banking, Housing, and Urban Affairs Committee, I am pleased to have worked with my colleagues on the Governmental Affairs Committee to reauthorize programs in their jurisdiction. The committee's provisions provide for small but needed increases in the Emergency Food and Shelter Program, and enhance the process by which Federal surplus property is provided to the homeless.

Overall, the committee's provisions will strengthen existing programs, and enhance the range of services, and the quality of services, available to the homeless. To be specific, the committee would enhance cooperation among State agencies and local service providers through designated lead agencies, and through coordination of Federal, State, and local programs. The proposal would require Federal agencies to identify Federal facilities that can be used to temporarily shelter the homeless. The Interagency Council on the Homeless, which I have in the past referred to as the "home" for homeless assistance programs, is reauthorized for an additional 2 years.

I am particularly pleased that the committee has included an amendment which Senator GLENN and I developed to improve the administration of the Emergency Food and Shelter Program, operated by the Federal Emergency Management Agency. At present, FEMA uses unemployment rates to distribute food and shelter grants. This formula is not statutory, and could be changed through administrative action at almost any time. Moreover, we are well aware that the number of unemployment insurance beneficiaries is not an adequate indicator of need. Those who are on unemployment insurance are generally not the category of individuals we seek to assist through this program. Rather, it is those who are uninsured, or who have exhausted all eligibility for unemployment assistance, who are most in need of FEMA's help. Sadly, these individuals are not accounted for in the formula now in use.

The committee provisions require FEMA to propose alternative means of creating, in statute, a formula which will effectively target those in need. The shortcomings of the existing formula are all too apparent. Countless communities across the Nation, with varying degrees of homelessness, find their ability to respond rising or falling with fluctuations in their unemployment rate. Our amendment will help to provide assistance where it is most needed.

Mr. SANFORD. Mr. President, as a member of the Senate Banking Committee, I am pleased to join my distinguished colleagues in a bipartisan effort to attack the deepening crisis of homelessness. The American Government cannot stand by idly while millions of Americans are denied the basic necessities of life. With the passage of the McKinney Homeless Assistance Amendments of 1988, the Senate will take a crucial step toward meeting the housing needs of the less fortunate.

The Senate took the first step in that direction in 1987, by enacting the Stewart B. McKinney Homeless Assistance Act. This legislation served as the first comprehensive legislative effort to attack the problems of the homeless. It established emergency shelters and support facilities while providing money for housing rehabilitation. The McKinney Amendments of 1988 expand and improve upon this act, but do not provide an overall solution for the growing problem of homelessness.

THE SCOPE OF THE PROBLEM

The ever increasing, heterogeneous population of the homeless is difficult to quantify. I have heard population estimates ranging from 250,000 people to 3 million. A variety of factors have contributed to the spiraling numbers of the homeless, including the breakdown of the American family, the displacement of the urban poor, the deinstitutionalization of the mentally ill, the rampant spread of drug abuse, and the loss of manufacturing jobs.

Because of these complex factors, families, children, and employed workers are quickly joining the mentally ill, the alcoholics, and the drug abusers on the streets. I am deeply distressed by the recent statistics showing that families are the fastest growing segment of the homeless population. Over one-quarter of the Nation's homeless are families with children. Another 20 percent of the homeless work in jobs which cannot support decent shelter.

This highly diverse class of unsheltered people exist in cardboard boxes and abandoned freight cars—anything they can get their hands on. One man in my home State of North Carolina was discovered sleeping in an abandoned refrigerator.

And this is not just an inner-city problem. As I drive through the streets of Washinton or walk the avenues of a small town in North Carolina, I am continually confronted by the failure of this great nation to provide the fundamental need of shelter to its citizens. This state of affairs must be drastically altered.

ADMINISTRATION RECORD

While America possesses the material and mental resources to help the homeless, it lacks the leadership initiative to deal with the problem. The administration dealt with the growing numbers of homeless by cutting Federal Housing Program budgets by 75 percent over the last 8 years. These cuts, combined with massive reductions to other support programs, have forced the poverty-stricken out into the streets.

I first support the McKinney Amendments of 1988 because they take one small but significant step toward reaffirming the Federal commitment to the homeless.

AMENDMENT PROVISIONS

Of course, Federal solutions to the problem must intelligently and efficiently deal with the complex roots of homelessness. The McKinney amendments accomplish this task by providing both housing and support systems to get people back on their feet and into permanent shelter. Besides providing material support to the homeless, the amendments authorize mental health care, job training, and education. Short term support goes hand in hand with long-term training to get people off the streets.

The amendments also seek to improve the efficiency of the housing programs in several ways. They reauthorize the Interagency Council for the homeless which coordinates Federal homeless efforts. They mandate the annual submission of a comprehensive plan from each program and allow for plan sharing. They incorporate greater flexibility into the local programs by allowing for the involvement of nonprofit groups. And the amendments also seek to limit fraud and to ensure that all housing programs are free from alcohol and drug use.

CHARLOTTE DEMONSTRATION PROGRAM

Finally, the amendments support an important demonstration project in Charlotte, NC, which provides transitional aid to homeless and low-income individuals. After a period of remediation, which includes education, job training, substance abuse treatment and counseling, along with training in parenting and money management, this program requires full-time employment. However, it continues to provide low-cost housing and counseling while the resident gains economic self-sufficiency.

I regret that the Senate will be adopting language in the amendments which incorporates needs-testing into similar demonstration projects. These tests would effectively destroy the transition phase which is crucial to the success of the projects. Fortunately, the Charlotte program was spared from this language and can continue to provide a successful example of comprehensive, transitional public housing.

FHA SALES

I would also like to address an issue that has serious implications for the solvency of the Federal Housing Administration Mutual Mortgage Insurance Fund. In late August, a temporary restraining order was issued in Federal District Court barring HUD from selling any homes unless those homes were sold for the benefit of the homeless or low-income individuals or families. In that suit, the plaintiffs alleged that HUD must review each home that has been foreclosed upon and is awaiting disposition in order to determine whether the property is underutilized and suitable for use to shelter the homeless. On September 21, the plaintiffs motion for a preliminary injunction was denied, but I am afraid the issue remains unsettled.

I am concerned about the implications of this lawsuit. We simply cannot tolerate any threat to the FHA's Mutual Mortgage Insurance Fund. The FHA Homeownership Program has been a fiscally sound program, where premiums paid by users of the program—home borrowers—have covered the administrative expenses of operating the program as well as any losses that have occurred as a result of defaults. Through responsible administration of this program and strong efforts by the Congress to support the FHA, the FHA Fund has remained in good fiscal condition for 50 years.

Now however, HUD must do all it can to avoid any delays in the sale of FHA properties. HUD cannot be allowed to shirk its responsibilities under the McKinney Act. HUD can and should put in place procedures for notifying homeless agencies at the State and local level of the availability and price of FHA properties. If the properties are priced affordably and are suitable properties, they would be ideal for acquisition by homeless providers.

Unless FHA can dispose of it properties, however, the Mutual Mortgage Insurance Fund will face an immediate and potentially disastrous decrease in revenues. The Fund is already facing a difficult year because of increased claims in areas of the country experiencing economic distress. At this time, income from property sales is the No. 1 cash flow item for FHA. Revenues from upfront mortgage insurance premiums are down because new mortgage origination business has leveled off. Before the restraining order was issued, HUD was receiving $2 in income from asset sales for every $1 it received in premium income. In fiscal year 1988, HUD received approximately $3 billion in income from sales, while mortgage insurance premiums brought in $1.5 billion and the reserves accumulated $500 million in interest. There is the potential for significant losses if this issue cannot be resolved. FHA must be authorized to dispose of these properties in a businesslike, responsible fashion and HUD must do all it can to avoid any further delays.

I appreciate the efforts of my colleagues, Senator CRANSTON and Senator GLENN and others to seek a solution to this problem. I strongly urge the conferees to find a responsible solution as quickly as possible.

CONCLUSION

The McKinney Amendments of 1988 are an important step forward, but only a single step. The Congress must build upon this effort by developing a comprehensive plan for the homeless. We must work to inspire State and local efforts to abate the general housing shortage. We must encourage the involvement of the private and nonprofit sectors in the eradication of homelessness.

In our hands rests the responsibility to shelter all homeless Americans. I hope that we live up to that responsibility.

Mr. MITCHELL. Mr. President, I rise in support of this legislation to reauthorize the programs under the McKinney Act.

It has been over 1 year since we enacted the Stewart B. McKinney homeless assistance bill. That legislation, a carefully crafted bipartisan measure, enacted 18 programs to reach the homeless.

The legislation we are considering today would reauthorize those programs, provide some much needed fine tuning, and in some areas, enhance our ability to address our Nation's homeless.

Throughout the country, the demand for emergency food and shelter is steadily increasing. In many cases, people are turned away as existing shelters are overcrowded and the food supply is inadequate. Despite enactment of McKinney last year, in a survey of 26 major cities, the U.S. Conference of Mayors found that demand for emergency shelter increased during 1987 by an average of 21 percent.

More troublesome, the U.S. Conference of Mayors found that 96 percent of the cities cited families with children as the fastest growing group among the homeless.

While on average families with children comprised 33 percent of the homeless, in some cities, the number of homeless families with children was simply astounding. In Providence, 65 percent of the homeless are families with children, in New York City, 63 percent; in Portsmouth and Trenton more than 50 percent; in Kansas City 43 percent; in Chicago and Detroit, 40 percent.

Estimates of the total number of homeless people nationwide vary tremendously—from 250,000 to 3 million. Although experts disagree on the number of homeless people, there is almost universal agreement that it is rising.

And, unlike the familiar anecdote, the problem of homelessness is not confined to inner cities. The number of homeless people in the suburbs and rural areas is rising dramatically. In the suburbs, the homeless are often part of the "new poor," including families whose primary breadwinner recently has become unemployed and who cannot find or maintain affordable housing.

Since 1979, the number of families in poverty has grown and the income of poor families has dropped. The Census Bureau estimated in 1979 that 11.7 percent of the population fell below the official poverty line for that year—$7,386 for a family of four. Three weeks ago, the Commerce Department estimated that 13.5 percent of the population—32.5 million Americans—fell below the poverty line of $11,611 for a family of four. These and other poor families are routinely forced to choose between paying for food and shelter, clothing and heat, or medical care, and electricity.

In my own home State, a task force was appointed by the Governor in 1985 to study the extent of homelessness in Maine and to make recommendations on appropriate methods of assistance. The task force found that on any given night, between 250 and 350 people in Maine are in need of shelter. Over the course of a year, some 3,500 individuals actually experience at least a night of homelessness. While these numbers may not seem as critical as the homeless population in New York City, for a State the size of Maine homelessness has become a serious problem.

Increasingly, many working families in Maine are among the ranks of the homeless. Maine census data indicates that 13 percent of the population, or 141,000 individuals are below the poverty level. Of these, 52,000 households—118,000 people—may be considered to be "at risk" of homelessness.

Four-fifths of these households pay more than one-half of their total income for rent or mortgage or heat. One-fifth of the at-risk group live in substandard or overcrowded housing and have poverty level incomes.

For people who are homeless, emergency shelter is the most basic and critical need. And, yet there are many communities in Maine without shelters, and many of the existing shelters are completely full.

Whether its Main Street in Portland, ME or Pennsylvania Avenue right here in DC, the homeless all have at least one attribute in common: they don't have housing.

And, while others may disagree, I believe there is a strong correlation between the increase in homelessness and the reductions this administration has made in low-income housing during this decade.

It doesn't take someone from Wharton's School of Economics to figure the statistical significance of an 80-percent reduction in Federal funds for low-income housing and an ever rising rate of people without homes.

Yes, some of the homeless have other problems which lead to homelessness possibly without regard to the availability of housing. According to the U.S. Conference of Mayors, 23 percent of the homeless are mentally ill and 35 percent are alcoholics or drug addicts or both.

But, the fact remains that homeless people are people without housing.

The gap between rich and poor families in 1987 hit its widest point since the Census Bureau first began collecting data in 1947. The significance of this gap becomes particularly apparent with housing issues.

We have a situation where, despite 5 years of economic recovery, the income growth of the Nation's renters continues to lag substantially behind the income growth of the Nation's homeowners.

And, as increasing rents comprise a larger and larger share of the income of renter households, saving for a mortgage downpayment becomes an impossibility for all but a few.

With homeownership such a distant possibility, the portion of low-and moderate-income households competing for a limited supply of low-cost housing has several deleterious effects. First, it raises the cost of rental housing, making the transition from renter to owner even more difficult. Second, it restricts the availability of rental housing because fewer units are vacated by individuals becoming new howeowners. And, third, it nearly ensures that those renters at the bottom of the scale will be paying ever larger portions of their incomes for rent, if they can find a place to rent.

The availability of affordable housing becomes even more serious when viewed in the context of the wholesale dismantling of programs run by the Department of Housing and Urban Development during the last 8 years.

HUD programs have been slashed by nearly 80 percent. Millions of low-income units have been removed from the low-income housing stock through demolitions, defaults, structural conversions, and repayment. Waiting list for low-income housing average 2½ years, which as I understand it, must be an understatement of time since many of these lists are closed.

Therefore, since 1980, on one end of the scale, we are left with a situation in which the rate of homeownership, despite a hefty decline in interest rates, is at its lowest point in 15 years. And, on the other end of the scale, we have lost substantial amounts of low-income housing and have dramatically cut back on existing programs.

The facts are that we have a serious shortage of rental housing for our poorest of families. And, as one result, we have an ever increasing population of homeless people.

During Sunday evening's debate, I heard the Vice President endorse the McKinney Act. While glad to hear of his support, I wish we had it last year as we began drafting the original McKinney bill. As one of the initial coauthors of the Senate measure and a conferee, I remember only too well the administration's obstinance at each step of the way.

And, it was only a few short months ago when the administration sent up its new budget for next year which recommended a 32-percent reduction in homeless program funding levels.

While I was also glad to hear of his support for homeownership and affordable rental housing, I wish he had voiced that support during the last 8 years as the administration sent up budget after budget decimating housing programs.

I support the McKinney Act. But, the necessity of this act did not occur in isolation. It is a direct result of this administration's policies toward housing programs.

And within that context, reauthorization of the McKinney Act itself is not enough. I hope that during the next administration we can enact a comprehensive measure that will address the long-term policy this country should implement concerning the availability of affordable housing. Only by looking at housing policy in general, can we really address those who are homeless.

Mr. HATFIELD. Mr. President, I rise in strong support of the Stewart B. McKinney Homeless Assistance Reauthorization Act. Last year Congress initiated emergency relief measures to address the needs of thousands—and possibly millions—of homeless Americans. We now have before us a bill to reaffirm our commitment to these programs. The homeless crisis is still here, some 16 months after we first took action to lessen it, and I urge all of my colleagues to continue support for these programs.

I am very pleased by the bipartisan spirit in which this legislation was drafted. The cooperation and hard work exhibited are credits to the Senate and underscores the seriousness of the issue we are addressing. The leadership of Senators DOLE and BYRD should be recognized for their diligent work to bring the legislation to the floor. In addition, Senators DOMENICI, HATCH, WEICKER, D'AMATO, CRANSTON, and KENNEDY were all invaluable because they led the drafting efforts.

Again I am compelled to express my concern that Congress is not fully committing itself to this effort because it has not provided adequate appropriations for these programs. For example, appropriations for the housing and community service portions of this legislation fall far short of the House and Senate authorizations. Attempts in both the House and Senate to add homeless appropriations have failed miserably. I have said it before: to authorize these programs but refuse to adequately fund them is a cruel hoax played upon a group of people in desperate need of help. If there is any way to provide additional appropriations, we must do it.

It has been said, "There is no place like home." For as many as 3 million Americans that phrase is ironic. For America's homeless men, women, and children there really is "no place like home." The reauthorization of the Homeless Assistance Act will insure that urgently needed shelter, health care, education, job training, and case management will continue. Homelessness is a national problem and we must not allow the needs of these people to be forgotten as our collective attention turns to other problems. I hope that the Senate responds favorably by giving its overwhelming support to this bill.

Mr. SARBANES. Mr. President, I rise to indicate my strong support for the pending legislation to extend the Steward B. McKinney Homeless Assistance Act.

In 1987, the McKinney Act was enacted as the first comprehensive legislative effort to address the serious problems of the rising number of homeless in our country. That act has provided vital assistance that has been used by State and local governments and private organizations to establish emergency shelters, as well as supportive housing facilities and services. It also provides support for a variety of services for the homeless including food programs, health services, job training, education, and other activities that are needed to address in a very comprehensive way the devastating problem of homelessness that has faced many of our citizens and families in recent years.

Many of the programs established by the McKinney Act are only authorized through this fiscal year, and enactment of the legislation before us today is needed to extend these essential programs. The McKinney Homeless Assistance Amendments of 1988 combines legislation reported from four Senate committees: Governmental Affairs, Labor, Banking, and Veterans. It would extend McKinney Act programs for 2 years. The Senate Banking Committee, of which I am a member, reported out legislation last summer to extend the homeless assistance portions of the McKinney Act and to refine these programs so that they can be more flexible and effective. These provisions are included as title II of the comprehensive bill before us.

Mr. President, I was pleased to hear the Vice President, during the candidate debate, indicate he supports fully funding the McKinney Act programs. As welcome as his support is, however, we should not forget that the Reagan-Bush administration has had an opportunity to address the homeless problems and has fallen far short. The administration has never submitted proposals to Congress to deal with the homeless problem and the President, according to press reports, only reluctantly signed the McKinney Act last year. When it came time to fund the McKinney Act programs for fiscal year 1989, the President's budget proposed cuts of over 60 percent for the housing portion of the McKinney Act programs and cuts of over 50 percent for all McKinney Act programs, according to the Senate Budget Committee. This is not even close to the full funding the Vice President says he now favors.

There are many causes of homelessness, but I can't help noting the devastating impact resulting from severe cuts in Federal housing programs that assist low- and moderate-income families. Since 1980 the Federal budget for low and moderate housing has been cut by over 80 percent.

Reauthorization of the McKinney Act is an essential step to address the national homeless problem, but Congress and the next administration will need to develop comprehensive housing legislation to provide decent, affordable housing for all Americans—so as to give full meaning to the national housing goals established in the National Housing Act of 1949.

Mr. DOMENICI. Mr. President, a little more than 14 months ago, on July 22, 1987, President Reagan signed the Stewart B. McKinney Homeless Assistance Act of 1987. This act authorized important housing and social assistance programs for America's most needy population—the homeless. Today, I rise in support of extending this important Federal policy for the homeless people of America. Extension of this act will give us the framework we need to channel Federal assistance to the homeless people of America.

Since the passage of this new Federal Assistance Act, more than $700 million in new Federal funding has gone to provide more emergency and transitional housing, food and shelter, health and mental health services, literacy and job training, and other local efforts to help the homeless. With local matching of 25 and 50 percent for various service and housing programs, a total of more than $900 million in Federal, State, and local program efforts have been targeted to the homeless as a result of the McKinney Act.

In the first nationally televised Presidential debate this year, Vice President GEORGE BUSH clearly stated his support for the McKinney Homeless Assistance Act. He stated that, if elected, he would "fully fund" the McKinney Act.

I have been working hard toward this goal, Mr. President. I have personally sponsored amendments to the two appropriations bills that funded the housing programs for the homeless. In the first year, I was successful in adding $190 million for housing for the homeless in the Senate bill. The conference settled on $180 million in the fiscal year 1987 supplemental appropriations bill.

In the fiscal year 1988 appropriations bill, neither the House nor the Senate had any funding for housing the homeless. My amendment added $65 million, and the conference agreed to keep that full amount.

As I will explain in more detail later in my statement, the fiscal year 1989 appropriations for the homeless are seriously deficient in health and mental health services particularly. We stand to lose over three-quarters of all health services and over two-thirds of all mental health services now funded through the McKinney Act.

As I told my colleagues on the Senate floor in late July, when we debated the fiscal year 1989 Labor/HHS appropriations bill, it is important that we do our best to continue these vital health and mental health programs at least at their current levels. These programs will require about $50 million more for health and $20 million more for mental health.

A little historical perspective might be helpful for my colleagues while we are on the topic of funding the McKinney Act. Even though there were only 2 months remaining in fiscal year 1987 when we passed this act, we authorized $422.7 million for fiscal year 1987 and $601 million for fiscal year 1988 or $1.024 billion total. Our total appropriations for these two fiscal years were about $720 million—$355 million in fiscal year 1987 and $365 million in fiscal year 1988.

The bill before us would increase the authorization levels for a full 2 years of funding. By providing $645.9 million in fiscal year 1989 and $659.8 million in fiscal year 1990, the total authorization before the Senate is $1.306 billion.

I believe, Mr. President, that this $282 million increase in authorization for the homeless is justified for several reasons. The primary reason to continue the McKinney Act is the reported increase in homelessness we are hearing about from several sources including the U.S. Conference of Mayors. There is also more demand than available Federal assistance to improve and enhance local assistance programs for the homeless. An articulated Federal policy also gives us a national focus for monitoring our national progress as we strive to eliminate homelessness in America.

If this act were fully funded, we in the Congress, with the support of the administration would have to raise our appropriations for McKinney Act programs by more then $500 million over the next 2 years.

In spite of our growing national role in helping the homeless, I remind my colleagues that the Federal Government is not the biggest financial player in funding homeless programs in America. In fact, our first 2 years of Federal funding were exceeded by the combined efforts of the States of California and New York.

The most important reason for continuing our Federal support is that we are addressing these areas where nonprofits, churches, and State and local government have the most difficult time raising local resources and funds—housing and related services.

Local efforts since the early 1980's have succeeded in making shelter and emergency food supplies available to many homeless people. These valiant efforts on the part of local providers, however, did not stretch to include important housing, health, mental health, drug and alcohol abuse, education, and job training services.

The McKinney Act became our national policy on homelessness. The Federal Government, for the first time, acknowledged a responsibility for a new leadership role in expanding and improving existing service networks for the homeless.

Yet, at the same time, the McKinney Act relies heavily on existing local networks for providing hope and real assistance to the homeless. I believe this is the right kind of marriage. Federal assistance improves the quality and quantity of needed local services for the homeless.

A CONFUSING SYSTEM OF GRANTS FOR THE HOMELESS

While I have some reservations about the odd mix of block grants, categorical grants, and pilot programs in the McKinney Act, I believe it is more important to continue the basic Federal policy of strengthening the local homeless networks with needed Federal assistance. I also hesitate to promote major changes at this juncture because many local providers have struggled to master the grantsmanship necessary to make McKinney work at the local level. To reshuffle this mix of programs at this time could add confusion to the existing maze now in place under the McKinney Act.

The fundamental problem for a local nonprofit homeless shelter seeking Federal assistance is to master the sources of McKinney Act funds. Some of these funds go to Governors, some to mayors, and yet other funds are only available directly from Federal agencies.

If a shelter, for example, is hoping to provide some mental health outreach services along with some transitional housing, there are two distinct sources for funding. The mental health block grant funds go directly from the National Institute for Mental Health in the U.S. Department of Health and Human Services to the 50 Governors. Most Governors assign this responsibility to their mental health authority.

The needed transitional housing, on the other hand, is available only in a national competition run by the U.S. Department of Housing and Urban Development. There is, therefore, a lot of uncertainty for a local shelter operator about whether both grants will come through to create an expansion of local mental health services based in transitional housing.

Similar examples apply to providers of health, drug and alcohol abuse, emergency food and shelter, and other housing programs.

The mix of block grants, categorical grants, and demonstration programs is confusing to local providers and Federal administrators alike. My hope is that we will be able to greatly simplify the grant process for local providers. This simplification will make more sense after we have more data to document the successes and weaknesses under the current system of McKinney Act funding programs.

THE MENTALLY ILL HOMELESS

During the debate on our first McKinney Act, Mr. President, I focused my attention on the homeless who are mentally ill. The Washington Post published my article on this subject, "Street People Who Are Mentally Ill" on March 26, 1987.

The focus of my concern and my bill was to enact a five-point program for this very difficult to reach and difficult to treat target group. My legislation was incorporated into the McKinney thanks to the many concerned supporters in the House and in the Senate. The McKinney Act now authorizes a block grant to States for helping this very needy group, and I believe it is important to continue this block grant. The major services in need of reauthorization for the homeless mentally ill are:

OUTREACH

There is a great need to seek out the mentally ill homeless in parks, bus stations, and alleys. We need to go to them. We cannot expect them to come to us.

SHELTER

The need to stabilize this population in some form of transitional housing has been well-documented. If we do not do so, nothing else we do will make much difference in their lives. The housing provisions of the McKinney Act are in a separate section, but this reauthorization bill is careful to include the coordination of services and housing wherever possible.

TREATMENT

The many advances in diagnosis and treatment for the mentally ill must be made available to the homeless who suffer from schizophrenia, manic depression, psychosis, and other forms of serious mental illness. This bill would continue to provide funds for such treatment.

CASE MANAGEMENT

Once the process of recovery begins, the need to oversee the daily lives of this population is important. Case managers are friends who can help to budget, find sources of support, and keep the psychiatric treatment going.

STAFF TRAINING

Volunteers and other individuals who work directly with the homeless are often our first contact them. Those who work in shelters, mental health clinics, and other sites where the homeless receive services need to be trained to recognize the symptoms of serious mental illnesses. Only then can proper referrals be made for available treatment. As with the other key services, this reauthorization bill would continue to provide funds—with a 25-percent local match required—to help the homeless who are mentally ill.

The Rand Corp. in February 1988, published a "Review of California's Program for the Homeless Mentally Disabled." I have reviewed this study and found it to be very relevant to New Mexico and other States.

Chapter IV of the Executive Summary clearly points out the continuing need for outreach, housing, case management, treatment, and staff training. There is also a richness of detail in this chapter about many of the characteristics of the mental health treatment system for the homeless.

Chapter V points out some of the reasons leading to the lack of service for the homeless mentally disabled [HMD]. More than two out of three have a history of drug or alcohol abuse, and California legislation for the HMD "prohibits using funds for serving substance abusers unless the diagnosis is secondary, and does not provide funding for treatment of substance abuse." Further, "Substance abuse may exacerbate a psychiatric disorder, making the individual more resistant to treatment."

In other words, the confusion continues. Mental health programs generally do not or cannot take substance abusers and substance abuse programs do not provide mental health treatment. While the overlap of mental illness and substance abuse is an every day reality for many homeless mentally ill persons, their very poor state of health and mind gets them rejected from both kinds of programs rather than helped by either.

In the interviews with the HMD, the Rand study found that:

> Only about one out of five has had any outpatient visits for mental health or substance abuse reasons or has used medications for mental health problems in the past six months. Fewer than one in ten were hospitalized for mental health problems in the past year.

In describing the "gaps in continuity of care," this Rand study reports that county officials and service providers emphasized several reasons for the gaps. The first major concern in California is the limited ability of existing programs to respond to the homeless due to "capacity restraints." Lack of housing, difficulty in maintaining entitlement benefits, and the limited effectiveness of case managers are also cited.

As we learn more about the problems of helping the homeless, our ability to improve our national policies will increase. I was impressed with the insights of the Rand study, and I hope my colleagues who are concerned about the homeless mentally ill will find the time to review it. For the convenience of my colleagues, Mr. President, I ask unanimous consent that chapters IV and V of the Rand study Executive Summary be printed in the Record at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

NEW MEXICO AND THE MCKINNEY ACT

Mr. DOMENICI. Mr. President, new Federal funds to New Mexico under the McKinney Act have so far totaled slightly more than $2.5 million. The McKinney Act programs active in New Mexico are:

Emergency food and shelter	$1,001,780
Emergency shelter grants	189,000
Transitional housing for Barrett House	208,258
Primary health care for St. Joseph's Alliance	225,000
Mental health block grant	275,000
Emergency community services	275,000
Homeless youth education	50,000
Homeless adult education	150,000
Homeless job training at St. Martin's Center	152,764
Total	2,526,802

The local matching funds required for several of these programs total about $400,000. Thus, the Federal McKinney Act funds plus local matching funds bring the New Mexico McKinney activity up to about $2.9 million to date. If we add in money for the food stamp changes we made in the McKinney Act, the total to New Mexico's homeless service providers and homeless people would be just over $3 million as a direct result of this act.

FUNDING FOR PRIMARY HEALTH CARE AND MENTAL HEALTH CARE

In conclusion, Mr. President, I would simply like to alert my colleagues to the importance of continuing the funding for McKinney Act programs in fiscal year 1989. Our appropriations efforts in general are fairly good, with a couple of important exceptions. If we include $60 million for the food stamp changes in the McKinney Act—an estimate for the U.S. Department of Agriculture—then our total Senate effort for next fiscal year is $430 million.

As I explained to my colleagues on July 27, 1988, the total of $430 million still leaves a serious shortfall for the primary health care and mental health care programs in the McKinney Act. In fiscal year 1987 we allocated $46 million for primary health care. In fiscal year 1988, however, we only added $14.3 million. My statement in July explains this situation in detail. In summary, we were reluctant to add much in fiscal year 1988 because the fiscal year 1987 money had not yet been allocated through the competitive grant mechanism. Having recently appropriated $46 million, we hesitated to add more before the first round of funding reached the intended providers.

The problem remains, however, that we will face serious shortfalls in this important McKinney Act program this winter unless we significantly add to the available pool of funds. If we fail to do so, about three-quarters of the McKinney Act primary health care grants will run out of funds in the middle of winter.

A similar situation exists for the mental health block grant. In fiscal year 1987 we appropriated $32.2 million; in fiscal year 1988 the amount we allocated was $11.5 million. Unless we add to these programs before winter comes, the hope of our McKinney Act policies will be seriously impaired.

By reauthorizing the Stewart B. McKinney Homeless Assistance Act, Mr. President, we will be continuing an important new Federal policy for the homeless people of America. We will also be providing an important mechanism for channeling Federal dollars to the local service providers who are doing the most good.

Without this bill, Mr. President, it will be nearly impossible for the Federal Government to fully fund most direct assistance programs for the homeless. I want to give Vice President George Bush a solid opportunity to keep his promise of full funding for the McKinney Act, and I want the homeless people of America to reap every possible benefit from the act.

I thank my colleagues for this attention, and I urge approval of the McKinney reauthorization bill before us today.

EXHIBIT 1

REVIEW OF CALIFORNIA'S PROGRAM FOR THE HOMELESS MENTALLY DISABLED

(EXECUTIVE SUMMARY)

(Georges Vernez, M. Audrey Burnam, Elizabeth A. McGlynn, Sally Trude, Brian S. Mittman)

IV. SELECTED RESEARCH RESULTS

This study was not designed to determine which of the service delivery strategies and institutional arrangements are most effective. Answering this question would require following a sample of individual HMD over time in a number of counties that vary in service delivery and case management practices. However, we did seek to determine the extent that the counties' programs, in the aggregate, were successful in providing engaged clients with (1) subsistence services—i.e., food, clothing, and shelter; (2) entitlement benefits; (3) mental health treatment services; and (4) assisted or independent permanent housing arrangements. Data limitations hampered our efforts: Some counties do not keep the necessary data, others cannot easily retrieve them. When data are available, they are often not readily comparable across agencies or counties. Thus, our assessment should be viewed as preliminary.

Service use

Subsistence Services

County programs appeared to be most effective at providing basic necessities including food, clothing, and shelter. Overall, 60 to 70 percent of the units of service provided to the HMD were for subsistence services, reflecting the priority that nearly all counties placed on them. Of the surveyed HMD who reported receiving some help from any service staff, more than 80 percent said that the help had been with subsistence services.

Entitlements

Outreach workers and case managers assigned high priority to helping the HMD obtain General Assistance or Supplemental Security Income (SSI) because a steady income is often a prerequisite for obtaining some form of permanent housing and because a majority of the HMD do not receive any of these benefits. Nearly all our service staff respondents noted how time-consuming the application process is for both SSI and General Assistance, how high the rejection rate is for first-time applications, and how high the likelihood is that clients might not be able to secure continuing benefits because of periodic verification requirements. For clients unable to manage on their own, inadequate funding for or unavailability of representative payees presents additional barriers to entitlements. Staff told us that dual diagnosed clients are particularly susceptible to this constraint because of their history of "mismanaging" funds through excessive expenditure on drugs and/or alcohol. To alleviate this problem, a number of counties have developed a modest capacity for managing money and/or functioning as representative payee.

Mental Health Services

Although counties are authorized to use HMD funds to provide certain mental health treatment services—including day, outpatient, and specific 24-hour services[2]—very few used HMD funds to provide mental health services to the HMD.

Table 5 shows the number of mental health service units provided with HMD funds during a one-week period in March and another in June 1987. Los Angeles County accounts for the majority of services. It provided about 80 percent of the HMD-funded medication and 50 percent of the 24-hour care units. A handful of counties accounts for the remainder. For day services, primarily socialization services, the next five largest counties account for most of the remaining service units. For mental health outpatient services, the main counties using HMD funds were Santa Clara and San Francisco. For 24-hour care, they were Sacramento and San Mateo.

TABLE 5.—HMD-FUNDED MENTAL HEALTH SERVICE UNITS BY SIZE OF COUNTIES, MARCH AND JUNE 1987

Population of counties (number of counties)	Medication		Day services [1]		Outpatient services [2]		24-hour care [3]		Involuntary hospitalization	
	March	June	March	June	March	June	March	June	March	June
3+ million (1)	672	622	606	866	222	256	222	153	24	12
1 to 3 million (5)	60	24	603	387	65	28	6	59	3	3
0.5 to 1 million (7)	67	69	7	6	87	13	110	45	3	4
All others (43)	82	60	117	65	79	22	56	14	33	1
Total	881	775	1333	1324	453	319	394	271	63	20

[1] Day services consist primarily of socialization services, but may also include vocational services and day care intentive and rehabilitatve services.
[2] Includes assessment and crisis intervention. Excludes individual and group therapy.
[3] Excludes hospitals, pyschiatric health faiclites, SNF intensive services, and jail inpatient services.

Note.—Figures in this table are or the weeks of March 23–29, 1987, and June 22–28, 1987. The counties—representing $600,000 in HMD funds—did not file a report in March, whereas 22 counties—representing $4,000,000 in HMD funds—failed to report in June. Thus comparisons over time should not be made.

Source: Counties' reports to the State Department of Mental Health.

The county departments of mental health could provide little or no information regarding the extent to which they used other funds (including Medi-Cal, Medicare, or Short-Doyle[1]) to provide mental health services to clients referred to them through HMD program activities. Nearly all counties indicated some capacity constraints in their mental health system, stressing that more beds were needed for inpatient, crisis, and transitional residential facilities. The estimated number of inpatient beds needed ranged from three in the smaller counties to 300 in the larger counties; the estimates for transtional beds ranged from two in smaller counties to 400 in larger counties.

Long-Term Housing

Permanent placement of the HMD in assisted or independent living arrangements is the state's ultimate program goal. Counties reported one placement in board and care for every 50 persons served during a given week, but they could provide neither actual figures nor estimates of placements in independent or other types of housing. Most indicated that few of these placements were made. Reasons given were the lack of low-income housing, particularly in the larger counties, and the need for additional long-term beds, from 20 in smaller counties to 500 in larger counties.

Engaging the HMD

For the HMD, outreach is often the door to services. Fifteen of the 17 counties surveyed engage in some form of outreach to the HMD and allocate 10 to 70 percent of their HMD funds for that activity. The major outreach activities, in roughly decreasing order of importance, are:

Responses to referrals from service agencies, entitlement program eligibility workers, discharge planners at jails, hospitals, mental health residential facilities, board-and-care operators, and the community.

Active agency outreach—approaching an individual at facilities providing unconditional services to the homeless.

Active street outreach—engaging individuals in public or accessible areas. The approach is made without knowing the individual's living arrangements or mental health status.

Outstationing at offices, primarily SSI and General Assistance, to help mentally disabled clients complete forms and to link them to other services.

Crisis intervention—responding to calls about crisis situations from service agencies or individuals. This approach may be closely linked with the involuntary hospitalization process.

All of the counties providing outreach services employ some combination of street outreach, agency referrals, and self-referral. With few exceptions, street, outreach constitutes from 10 to 25 percent of the outreach contacts made. The remainder of the outreach effort consists of seeking HMD individuals at other service providers or through referrals from other agencies. Nearly half of the counties operate their outreach efforts from drop-in centers.

The process of engaging HMD was described in similar terms by many of the outreach workers interviewed. A typical scenario:

"I might encounter someone on the streets in a doorway, or in the line of a soup kitchen. If he/she seems receptive I try and build rapport, first trying to find out what his/her situation is. I give them something they might need, such as some food or toiletries. Sometimes, we might go someplace together to eat so we can be alone to talk. If they're still receptive, and depending on their needs, I might transport them to a drop-in center, clinic, or shelter and work out shelter arrangements. If an individual is not receptive, it might be a matter of just saying "hi" and bringing them something (I'll try different things), until I become familiar. What services I provide depends on what they want or need. After regular contact is established, the next step might be getting them on General Assistance, and into some kind of housing arrangement. They almost always will accept food and shelter, but are less willing to accept mental health services."

A typical outreach contact involves engaging the client, offering a range of services without requiring acceptance of mental health services, and working with the client until the living situation is stabilized. All of the counties use their outreach effort to link the HMD to a range of providers. After engaging an individual, these outreach teams help him/her to obtain basic services such as food, clothing, and shelter. Many transport the individual directly to other service providers; other furnish bus tokens. The outreach team also helps the individual to obtain General Assistance and Social Security benefits.

---

[1] The State of California Short-Doyle Act was passed in 1957. It and its subsequent amendments define the mental health services that qualify for state reimbursement, the matching formula for reimbursement, and the administrative requirements for county delivery of mental health services. The Act emphasizes early, close-to-home, nonhospital treatment services and provides the means for prevention of psychiatric disorder through education and consultation to caregiving agencies in the community.

[2] The following services are not fundable by the HMD program: state and local hospitals, psychiatric health facilities, skilled nursing facility (SNF) intensive services, jail inpatient services, collateral services, and individual and group therapy. Most of these services focus on inpatient treatment. All other mental health services are fundable by the HMD program.

County officials and outreach staff identified a variety of factors that contribute to successful outreach and continuity of service. In general, they attributed success to the outreach worker's ability to "beat" the streets and to build trust and rapport with clients by being aggressive but not threatening, sensitive yet assertive. The factors cited by our respondents include:

Staffing:

Personal experience with street life and/or homelessness

Strong clinical skills

Training i.e., in engagement techniques and how to respond to hostility

Education of staff in other agencies

Dedicated and resourceful personalities

Experience with drug or alcohol abuse counseling and/or treatment

Supportive supervisory staff

Approach:

Nonthreatening, low profile

Minimizing association with involuntary commitment process

Minimizing reporting requirements

Service availability:

Access/availability of drop-in/socialization center

Access to transportation

Proximity of service providers

Ability to assist in obtaining General Assistance or SSI benefits

All of the counties minimize the use of involuntary commitment. Evidence suggests that most HMD can be engaged effectively by outreach activities, and that a majority will voluntarily accept services. However, an estimated few to 30 percent of the HMD refuse services even after repeated attempts to engage them.[3] Factors associated with the hard-to-reach include severity of mental illness, substance abuse, length of homelessness, transience, and types of services being offered—especially mental health services.

Targeting the HMD

County programs focus primarily on the currently homeless, rather than on the at-risk population. A majority of the mentally disabled served are also substance abusers, that is, dual diagnosed (see Table 6).

TABLE 6.—CHARACTERISTICS OF POPULATION SERVED BY HMD PROGRAMS, BY TYPE OF SERVICE

Characteristics of population served	Services			
	Outreach	Drop-in	Shelter	Transitional Residential
Percent homeless:				
Average	86	82	95	64
Range	75–100	80–90	90–100	25–100
Percent severly mentally disabled:				
Average	84	45	42	90
Range	30–100	10–70	15–80	75–100
Percent dual diagnosed:				
Average	54	57	55	70
Range	15–95	30–70	10–85	45–100

Outreach services focus on the severely mentally disabled. In contrast, less than half of those receiving shelter and drop-in services are described as severely mentally disabled. This may reflect in part the higher level of functioning of the moderately mentally disabled, who may access these services more readily on their own. It may also reflect the difficulties that shelter and drop-in operators say they have in serving a concentration of severely mentally disabled, some of whom have unusual behavior and may be disruptive.

Shelter, drop-in, and outreach services assist fewer of the dual diagnosed (about 50 percent) than is found among the HMD population (70 percent). Service providers, most particularly those with a social services background, indicate that they find it extremely difficult to serve this subgroup because they lack experience in dealing with substance abuse and because rehabilitation services are difficult for this population to access.

Service coordination and linkages

The state HMD funding has improved coordination among counties and among service providers. For example, the Homeless Fairs held across the state provide informal occasions for representatives of mental health facilities, homeless programs, private agencies, and homeless activist organizations to exchange information. Workshops and seminars have also helped county representatives meet and exchange information on specific programs and approaches. Within counties, the activities of the Homeless Coordinator, regular meetings of the providers with the Homeless Coordinator, and case referrals among providers have improved interagency coordination. However, the state program has generally not encouraged the development of new ways to serve this population. Rather, it has expanded existing services and helped the HMD to access them.

DISCUSSION

Overall, we found that the HMD-funded programs implemented by the counties meet the intent of the State Legislature by providing new or expanded services to the homeless mentally disabled. Each county uses the flexibility provided by the legislation to set service priorities and to implement service delivery systems that best fit its own circumstances—in particular, its level of funding, its pre-existing service network, and its basic philosophy about how much help the HMD need to access services. Although the mix of services varies across the counties, the programs emphasize the provision of subsistence services (e.g., food, clothing, shelter), drop-in or socialization services, and assistance in obtaining entitlement benefits.

Despite these achievements, significant gaps remain in the amount and types of services available to the HMD:

The most severely mentally disabled and the mentally disabled who are currently abusing alcohol or drugs are underserved.

The hard-to-reach HMD and the mentally disabled at risk of homelessness are underserved.

A complete continuum of services is not available; the most important gap is the lack of appropriate alternative housing arrangements.

Underserved groups of HMD

Severely Mentally Disabled HMD

Table 7, drawn from our three-county survey of homeless individuals, shows that the gap between needs and service use is substantial for the severely mentally disordered homeless.

More than one in three of the severely mentally disordered say that they usually or sometimes do not get enough to eat on a daily basis.

More than half have had to sleep outdoors at least once in the past month, and almost half have no one to go to for help in obtaining services.

More than two out of three have a history of drug or alcohol abuse.

TABLE 7.—GAPS BETWEEN NEEDS AND SERVICES FOR SEVERELY MENTALLY DISORDERED HOMELESS

Service category	SMD (percent)
Needs as indicated by:	
Trouble getting enough to eat usually/sometimes	39
Fair or poor health	48
Abuse of substances	73
Sleeping outdoors in the past month	62
No one to go to for help in obtaining services	47
Entitlements, benefits:	
SSI/SSDI	12
General assistance/welfare	25
Veterans' benefits	3
Medi-Cal/Medicare	22
Occurred in last 6 mo:	
Mental health visit	20
Mental health medication use	15
Substance abuse visit	18
Mental health hospitalization in last 12 mo	7

Nearly half rate themselves to be in only fair or poor health.

About one out of eight receives SSI and one out of four receives state welfare income.

Only about one out of five currently participates in Medi-Cal or Medicare programs.

Only about one out of five has had any outpatient visits for mental health or substance abuse reasons or has used medications for mental health problems in the past six months.

---

[3] Generally, outreach staff defined "refusal" to mean their own inability, after several attempts, to convince an individual to accept a managed appoach to service delivery. Under this definition, refusal does not imply that the hard-to-reach refuse all services. As one outreach worker noted. "Almost no one refuses a sandwich." Nor does it imply that the HMD might not use soup kitchens or shelter services on their own.

Fewer than one in ten were hospitalized for mental health problems in the past year.

This gap between needs and services does not appear to be the result of ineffective service targeting. HMD service providers in the counties we surveyed do target and serve the HMD and those "at risk." On average, from 64 to 85 percent of the clients served are homeless, and from 67 to 100 percent (depending on the service) are mentally disabled. Clearly, services are being provided to the intended population.

It appears that many HMD are not being served because needs exceed capacity. Numerous services providers, especially in the larger counties, reported that they were currently operating at or near capacity. Outreach workers estimated that they could not reach from 5 to 60 percent of the HMD because of constraints in outreach capacity. From 40 to 45 percent of the HMD we surveyed reported that they had no contact with any outreach activities and/or had received no help from service delivery staff, either for subsistence services or for entitlements. A somewhat larger proportion, 60 to 70 percent, of the homeless who were not mentally disabled had also received no such help.

Dual Diagnosed HMD

A majority of the severely mentally disabled are also substance abusers. Program staff gave four reasons why they are unable to serve this population.

The HMD program legislation prohibits using funds for serving substance abusers unless the diagnosis is secondary, and does not provide funding for treatment of substance abuse.

The dual diagnosed HMD Have limited access to county mental health and substance abuse treatment services because these providers have limited capacity and weak interagency relationships.

Substance abuse may exacerbate a psychiatric disorder, making the individual more resistant to treatment.

Neither substance abuse nor mental health treatment programs are currently designed to provide the special treatment needed by the dual diagnosed.

In view of the importance of this issue, we suggest that the state establish a task force to review the problem and recommend ways to address it.

Hard-to-Reach HMD

A third subpopulation not being served is the small group of HMD who will not accept a managed approach to service delivery. These individuals were often characterized as the "most severely mentally disabled" and those who had been homeless for long periods.

We asked program staff what should be done to engage this resistant subgroup. Some respondents expressed the belief that with patience and repeated contacts over an extended period—six months or more—even these individuals could be convinced to accept services voluntarily. Others indicated that the HMD who resist placement in the generally restricted residential settings offered by mental health and board-and-care homes might be more responsive to placement in less restricted residential accommodations.

Most program staff, often reluctantly, suggested that making involuntary commitment easier is both desirable and necessary. They cautioned, however, that such a measure must be accompanied (1) by an extension of the initial maximum period of commitment to allow for full stabilization of the individual before release and (2) by an increase in the available number of hospital, crisis, or transitional beds. In addition, staff also noted the need to establish or expand the temporary conservatorship program to help individuals discharged from hospitals or transitional facilities manage their affairs while in the community.

The At-Risk

A fourth underserved group consists of the mentally disabled at risk of homelessness. With few exceptions, HMD-funded programs have focused their resources on serving the currently homeless. In part, this de-emphasis on prevention derives from the difficulties in identifying and tracking the at-risk population. Large and diversified, this population includes:

Individuals living with relatives, who may eventually expend their reserve of tolerance;

Those living in board-and-care homes who may be on the verge of eviction for not paying the rent or for being disruptive, or who may simply yearn for the sense of mastery that accompanies living independently;

Those living independently, but vulnerable to the sometimes demanding recertification or other administrative requirements for SSI, General Assistance, and Medi-Cal; and

Those about to be discharged from jails; state, county, or private hospitals; or crisis or transitional residential facilities.

The Los Angeles Skid Row data suggest that approximately 70 percent of the homeless are *episodically* homeless. Thus, the formerly homeless are an important subgroup of the at-risk population that can be targeted to break the cycle of homelessness. But identification of and ongoing case management for this at-risk population are expensive because they require regular contact with the clients and those surrounding them, whether or not there is a current problem.

Computer technology may help case managers monitor the status of those at risk and coordinate the services a client receives from different agencies. On-line exchanges of information about a client's service needs, level of functioning, medications, social and financial resources, and living arrangements could enable a case manager to track that client; if circumstances or requirements appeared to threaten financial resources or the stability of a living situation, the case manager could intervene appropriately to prevent a crisis that might result in homelessness. With appropriate procedures to protect privacy, counties could experiment with information technology to evaluate its feasibility and costs and to assess its potential usefulness.

Gaps in continuity of care

Most of the severely mentally disabled require a lifetime of wide-ranging treatment and supportive services. County officials and service providers identified four basic reasons why the counties cannot provide individual HMD with the continuum of services they need.

Limited ability of programs to link the HMD with ongoing mental health services because of capacity constraints.

Lack of appropriate alternative housing arrangements.

Ongoing difficulties in obtaining and maintaining entitlement benefits, which are critical for supporting a permanent residence in the community.

Limited ability of case managers to follow cases.

Mental Health Services: Capacity constraints limit the ability of programs to link the HMD with ongoing mental health services. In response, counties have either implemented HMD programs parallel to the existing mental health system, or they have tried to integrate the two systems. In the former case, providers in the two systems interact only in a crisis—for example, a suicide attempt. In the latter, staff are increasingly aware that they must make a trade-off between the numbers of clients served and the level of service provided and/or among differently diagnosed groups of the mentally disabled.

Alternative Housing Arrangements: The counties lack appropriate alternative housing arrangements. The nature of chronic mental illness limits the ability of those afflicts to live completely independently. Also, their housing needs may change, and board-and-care facilities that are acceptable during some periods of their lives may become unacceptable at other times. The available residential alternatives offer a stark choice between entirely independent living and group residential facilities that typically require abiding by many rules. Staff in many counties suggested a need for additional housing arrangements—in most cases, independent apartment-style living with a built-in support system designed to provide assistance in times of crisis. Although still largely untested, these residential arrangements may offer greater capacity for self-reliance and privacy as well as more intensive support than board-and-care facilities do.

Entitlement Benefits. The severely mentally ill homeless find it difficult to obtain and maintain the entitlement benefits they need to support a permanent residence in the community. Our study shows that of all the SMD:

Only 12 percent were receiving SSI or SSDI,

25 percent were receiving General Assistance benefits,

3 percent were receiving Veterans' Administration benefits,

22 percent were receiving Medicare or Medi-Cal.

Obtaining eligibility for most of the programs is both complex and time-consuming, and maintaining it requires frequent recertification. Several of the counties have used innovative approaches to help individuals obtain and maintain entitlement benefits—for example, educating agency staff to identify and work with the mentally disabled, funding advocacy groups to help individuals navigate the complex application process, and providing money management.

Case Management: The amount and type of assistance that individuals with chronic and severe disorders may require will vary and will depend on the severity of the disorder, the history of treatment, and the adaption of the individual to the disorder. Most persons will require more intensive services during crisis periods, which can be stimulated either by the disorder itself (e.g., an acute psychotic episode) or by problems in daily living (e.g., recertification hearing by SSI, threatened eviction.) These crises may precipitate an episode of homelessness unless the individual is linked with a support system that can mediate the crisis.

At best, the county HMD programs provided limited continuity in case management because of the difficulties inherent in serving a mobile, unstable, and chronically ill population, and because of resource constraints. County staff indicated that if additional funds were available, expanding case management would have priority second only to housing. We believe that expanding case management might have limited impact if several complementary issues are not simultaneously addressed: the low pay and high attrition rate for outreach/case management staff; limited training and experience of the staff; and the need to develop better techniques for client tracking and follow-up.

Improving service delivery

Perhaps the most important step in improving delivery of services to the HMD is to clarify the program's goals and redefine the reporting requirements that derive from them. In addition, we suggest some changes to program activities in the areas of outreach, training, and community education and involvement.

Clarifying Program Goals: Common goals are essential for evaluating program outcomes. If state and county officials do not reach consensus about program goals, they will eventually see the HMD program judged a failure when in fact it successfully achieved a variety of disparate goals, none of which was given priority.

Common goals are also essential for designing appropriate reporting requirements, because reporting is most useful to management when it derives logically from the goals. Current requirements emphasizes subsistence and mental health services provided with HMD funds. The absence of other measures—for example, engagement rates by outreach teams or obtaining and maintaining entitlement benefits for HMD clients—may suggest to provider staff that these services are not important to the program.

In thinking about revising its reporting requirements while keeping them at a minimum, the state should (1) focus the indicators on measures of outcomes related to *individuals* rather than on *units of service*, many of which may have been provided to the same individuals, and (2) clearly link the requirements to the goals of the program.

Reporting needs to be continuous—possibly monthly—rather than quarterly for a one-week period. One week is so short that it leads to broad data variations that may not accurately represent the continuing level of program activity.

Outreach: Some of the HMD not now in programs might be engaged if outreach efforts were more responsive to their routines and patterns.

Street outreach represents a relatively small proportion of most counties' total outreach efforts, in part because street outreach is more time-consuming—and thus more expensive—than referrals or the outstationing of workers at facilities where the HMD congregate. This raises issues of whether the more independent HMD and the more severely mentally disabled are being reached.

A related issue is outreach schedule flexibility. Many outreach programs operate only during business hours, although some have an on-call system for emergencies. Counties should be encouraged to experiment with service hours, perhaps rotating times and days to ensure access.

Agency-to-agency outreach is the most important source of referrals for many of the HMD-funded programs. This includes various mechanisms by which the agency staff who are likely to come in contact with the HMD are sensitized to the special needs of that population, made aware of the programs available to them, and trained in effective referral techniques.

In many counties physical health clinics do not appear to have been involved in the agency-to-agency referral network. Our survey showed that more than half of the HMD had visited such providers in the previous six months. We recommend including such providers in the referral networks that counties are building.

Training: Neither the state nor, generally, the counties or their contractors offer training to the HMD program staff. However, the need for training has been identified in provider meetings called by Homeless Coordinators, some of whom have moved to fill the gap by means of information-sharing or newsletters. Areas identified for training include:

Dual diagnosed clients,

Aggressive and potentially violent clients,

Eligibility requirements and applications for entitlement benefits,

Behavioral issues (e.g., schizophrenia),

Assessment of client needs.

Community Education and Involvement: The counties' ability to serve the homeless continues to be limited by difficulties in obtaining local approval for property licensing. Indeed, the siting problem is the single most important reason why funds allocated to the counties were not fully spent in the last fiscal year. Staff reported that the counties' MHD-funded programs had a positive effect on the community at large, and that elected officials were now more aware of the homeless problem and more supportive of programs that serve this population. However, these activities have had little effect thus far in overcoming the strong community/neighborhood feelings of "yes, but not in my backyard."

There is no ready solution to this problem. Continuing public education in understanding the special problems and nature of mental illness may help in the long run. In the meantime, comprehensive county planning efforts that emphasize community participation and equitable distribution of facilities might help to refocus the debate on the broader issues and lessen the concerns of individual communities.

Issues for further research

This evaluation of the current HMD program raises important programmatic and organizational issues that can only be addressed by conducting further detailed research. The research should focus on four areas, each of which has potential for resolving these issues.

Allocation of HMD Funds Across Counties

In their program applications to the state, counties provided number estimates of their HMD, which were not based on thorough enumerations of the homeless populations. Consequently, to allocate the HMD funds to the counties, the State Department of Mental Health used a formula based on five factors:

Population in households with income at or below 125 percent of poverty,

Number of disabled SSI/State Supplementary Payment recipients, excluding the blind and elderly,

Number of General Assistance recipients,

Number of unemployed,

County population.

We can perform a limited test of the reasonableness of this formula by comparing the funds actually allocated with our study's estimates of the number of HMD in Alameda, Orange, and Yolo counties. The allocation of HMD funds to these counties, 4.9, 5.0, and 0.5 percent, respectively, is roughly proportional to our estimates of the number of HMD in these counties.

However, this finding does not imply that the remaining allocations would also be proportional to the number of HMD in the remaining counties. To fully test the validity of the formula, it would be necessary (1) to systematically enumerate the HMD in a larger sample of counties, using methods and definitions similar to those used in this study, and (2) to examine the correlation of the funds allocated to the sizes of the HMD populations found. We believe that the enumeration method used in this study could be used in other counties, at a reasonable cost (approximately $7,000 to $15,000 per county).

Effectiveness of Alternative Service Organizations

Our study was not designed to determine which of these or any other service delivery strategies and institutional arrangements are most effective in engaging, stabilizing, and maintaining the HMD in the community. Answering this question would require explicitly defining the desired program outcomes and following selected HMD over time in counties that vary in institutional arrangements and service delivery and in outreach and case management practices. Such studies could help us (1) assess which outreach and case management practices, or which combinations of social and mental health services, are most effective; (2) determine whether different subgroups of the mentally disabled (e.g., schizophrenics, dual diagnosed, severely depressed) respond differently to similar intervention strategies; (3) develop appropriate intervention strategies for the hard-to-reach mentally disabled; and (4) fully identify the gaps and limitations of the service approaches developed by the current HMD-funded programs.

Fluidity and Growth of Homelessness

Our study has raised some important questions about both the fluidity and the potential growth of the homeless population.

One of the striking findings from our enumeration study is that persons who become homeless at some time during a year may outnumber by something like 9 to 1 those who are continuously homeless during that year. We suspect that most of those who become homeless during that time have been homeless before. It appears that the barrier between the homeless and those at risk of homelessness is very permeable—many individuals experience repeated cycles of being "permanently housed," then homeless.

But is the total homeless population growing? We do not really know. It is possible that the number of "first-time" homeless is growing, thus leading generally to an expanding need for services.

We need studies, focused on fluidity and growth, to answer the following kinds of questions:

Is the number of mentally disabled individuals who are becoming homeless for the first time increasing over time? And if so, what factors are driving the increase?

Can preventive programs be designed to reduce first episodes of homelessness?

What percentage of the HMD population is episodically homeless, and what can programs do to break this cycle?

Answering these and related questions will require complex study designs: multiple cross-sectional surveys of homeless populations over time, as well as longitudinal studies of a single group of homeless individuals.

Family Involvement with HMD-Funded Programs

Our study found that service providers seldom involved families in service plans. Providers noted that many HMD had no family contacts and that those who did were presumably reluctant to involve relatives. However, our survey of the homeless found that two out of three of the mentally disordered reported ongoing contact with relatives, and 30 percent reported having stayed with a friend or relative in the past month.

Families can potentially play an important role in the treatment of the HMD. For example, one approach to treating schizophrenia is to involve the family in therapy designed (1) to help them with the difficulties they face in coping with a mentally ill family member and (2) to reduce stress for the individual with schizophrenia. Further research on the family's role should address the following questions: How can families contribute to the care provided to the HMD? How can the burden and stress of having a mentally disabled family member be alleviated for these families? How can HMD-funded programs more effectively involve family members in managing and treating their clients?

Mr. GLENN. Mr. President, I want to take this opportunity to engage the distinguished chairman of the Housing Subcommittee, Senator CRANSTON, in a colloquy on the question of the McKinney Act's Title V—Identification and Use of Underutilized Public Buildings and Property.

Mr. CRANSTON. I would be happy to discuss this matter with my good friend from Ohio.

Mr. GLENN. I was concerned to learn that a potentially serious problem for FHA has been created by a recent lawsuit challenging HUD's implementation of title V of the McKinney Act. The lawsuit is Lee versus Pierce.

Mr. CRANSTON. The Senator is correct and I share his concern.

We cannot tolerate any threat to the soundness of the FHA fund. The effective operation of FHA is simply too important to American homeowners and home buyers. A responsible solution must be found before any damage is done.

On August 30, 1988, the Federal District Court in Washington. DC issued a temporary restraining order [TRO] blocking all HUD sales of single family foreclosed homes unless the sales would benefit the homeless or low-income people. On September 21, 1988, the District Court denied the plaintiff's motion for preliminary injunction, enabling HUD to resume sales of FHA foreclosed properties. The court must eventually rule on the merits of the case.

The plaintiffs are homeless persons and organizations working on behalf of the homeless. They allege that the FHA sales would violate section 501 of the McKinney Homeless Assistance Act. That provision directs HUD to orchestrate a Federal effort to identify "underutilized" properties held by Federal agencies that "are suitable for use for facilities to assist the homeless." The plaintiffs claim that HUD has violated the McKinney Act by failing to survey its single-family inventory and identify which homes could serve the homeless.

Mr. GLENN. As Chairman of the Senate Committee on Governmental Affairs, I have a special interest in section 501 of the McKinney Act, since that provision originated in my committee.

I want to make it clear that our primary objective in crafting section 501 of the McKinney Act was to require Federal agencies to survey their buildings and real property to determine which were underutilized and might be made available for the temporary shelter of homeless persons. Since the enactment of the McKinney Act last year, only four Federal properties have been identified and used to assist the homeless, none of which is owned by HUD. Clearly, the Federal Government can improve on that performance.

Regarding the issues raised in the Lee v. Pierce litigation, neither the Senate Committee on Governmental Affairs nor the conference committee ever discussed whether the term "[underutilized] Federal public buildings and other Federal real properties" included HUD's inventory of foreclosed FHA properties.

Mr. CRANSTON. I might add that the Subcommittee on Housing and Urban Affairs never discussed whether the term "[underutilized] Federal public buildings and other Federal real properties" included HUD's inventory of foreclosed FHA properties. Am I correct that section 501 of the McKinney Act does not require any Federal agency to use a portion of their inventory for the homeless?

Mr. GLENN. That is correct. Section 501 requires each Federal agency, including HUD, to survey its buildings and other real properties to determine which are underutilized. The Secretary of HUD is then directed to collect information about those "Federal public buildings and other Federal real properties" and to identify which of those buildings and properties are suitable for use as facilities to assist the homeless. Each agency is then required to transmit either a statement of its intention to declare that the property is excess to the agency's need or a statement of reasons for not doing so.

Mr. CRANSTON. It appears, then, that HUD would have complied with title V of the McKinney Act if the Department had surveyed its FHA inventory and determined which properties were suitable for use by the homeless.

Mr. GLENN. That is correct. Again, I want to emphasize that our original intent was that the utilization surveys would specifically examine properties on the basis of their suitability for use as homeless shelters.

Mr. CRANSTON. As you know, HUD vehemently opposed the court's imposition of a temporary restraining order, arguing that a permanent injunction on future sales would mean the loss of $3 billion in sales receipts annually. From our discussion, it would appear that the threat to the FHA fund is caused primarily by the

Department's own failure to act in a reasonable and orderly manner to carry out these provisions.

Mr. GLENN. I would have to concur in that assessment.

Mr. CRANSTON. HUD also asserts that it has a number of programs that make foreclosed properties available for the homeless. HUD reports that it has provided 362 homes to homeless providers nationwide since 1985. Of course, 362 homes over a 3-year period is not much when compared to an inventory substantially in excess of 100,000 units. HUD can and should do better—regardless of how Lee versus Pierce is decided.

Congress has had to fight continually in recent years to keep FHA strong to serve the needs of American home buyers.

For 7 years, the administration has tried repeatedly to weaken FHA, to sell it off, and to impose debilitating fees on its activities. Congress firmly rejected each of these hostile proposals. The administration stood idly by while FHA mortgage insurance expired over and over again—for an outrageous total of six times in 1986. Tens of thousands of home buyers were hurt. A shining achievement of last year's House Act was to eliminate that problem once and for all by providing permanent authorityfor FHA insurance.

Now, once again, this administration—through its action and inaction—is jeopardizing FHA. FHA is under pressure because the administration failed to perform a reasonable survey of its foreclosed single-family inventory and to identify properties that are suitable for temporary use by the homeless.

The time has come to find a responsible solution.

If a legislative solution is possible, I believe we should address it in the conference on the McKinney homeless assistance amendments, the bill which is now before us. Unfortunately, our options are limited. HUD has proposed an amendment that would simply vitiate the lawsuit. It is generally recognized that Senate adoption of that amendment would spark such intense controversy this late in the legislative year that enactment is out of the question. Furthermore, budget analysts tell me that any legislation including a compromise solution would be subject to a point of order under the Budget Act if it involves even one dollar of direct spending.

I am convinced that a fair and reasonable solution to this problem can be found. Conferees on the McKinney Act amendments should work to ensure that the solution is reached very soon. All interested parties will have to be involved, and HUD will have to cooperate.

Noncompliance with section 501 of the McKinney Act is only one concern that has been raised about the administration's practices in disposing of foreclosed property. One objection is that HUD's actions have been undercutting home values in Texas, Colorado, Oklahoma and other areas severely hit by the downturn in the oil industry. The administration has been trying single mindedly to unload tens of thousands of foreclosed homes in these areas as quickly as possible and at fire-sale prices. Those who know the housing markets in these areas say the administration practices have tended to increase foreclosures and have inflicted harm on homeowners and businesses engaged in building, selling and financing new homes.

Another concern is that HUD has made little effort to make sure that its foreclosed properties are sold to moderate income families who would own and occupy the homes. Too many homes have been sold to speculators and others who are out to make a quick buck rather than to families who badly need affordable housing.

FHA has a vitally important service to provide. And not enough is being done to make sure FHA is strong and working in the best interests of American homebuyers. This administration still has 4 months remaining. That is too long to delay action to strengthen FHA.

Mr. GLENN. I will assist my distinguished colleague from California in any way I can.

Mr. CRANSTON. I thank my distinguished colleague. We will need his help.

Mr. HEINZ. Mr. President, I rise today to express my deep concern over the interpretation of the McKinney Act that would threaten to bankrupt the Federal Home Administration's Insurance Program. While I agree that the homeless need to be provided for, and I support the programs to do so, I do not believe that additional shelter for the homeless should be provided at the expense of the successful 40-year old program that has provided the opportunity of homeownership to millions of low- and middle-income families. A freeze on the sale of FHA-insured property would end the cash flow into HUD's primary single-family insurance fund, the mutual mortgage insurance fund and, thereby, place the fund into jeopardy of bankruptcy or dependence on appropriations. Programs to provide shelter to the homeless must be and should be funded directly.

Mr. LAUTENBERG. Mr. President, I have a brief question for the distinguished Chairman of the Housing Subcommittee. According to information I received recently, the Department of Housing and Urban Development has issued threshold eligibility criteria for the Supportive Housing Demonstration Program which prohibit award of any funds to projects located within the so-called 100-year floodplain.

HUD's apparent intent in issuing this regulation was to discourage localities from locating such facilities in undesirable or unsafe areas, rather than concerns about flooding per se. The requirement is a much stiffer standard than is currently applied to other HUD housing and community development programs, such as CDBG, UDAG and the Rental Rehabilitation Program.

It seems that rigid application of the 100 year floodplain standard to the Supportive Housing Demonstration Program may seriously hamper a community's ability to locate suitable sites for housing for the homeless. In Jersey City, NJ, for example, almost 45 percent of the city's land, and over 80 percent of the city's downtown section, is located within a 100-year floodplain. Unless the restriction on use of funds can be waived, the city's efforts to provide adequate housing for the homeless could be seriously hampered.

I wonder if the Senator from California would be willing to look into this situation.

Mr. CRANSTON. I would be glad to look into the matter raised by the Senator from New Jersey. It may well be that HUD's regulations in this area need more flexibility. If so, I would be happy to consider seeking inclusion of appropriate language in the conference report to direct HUD to make any necessary changes.

Mr. LAUTENBERG. I thank the Senator.

Mr. HEINZ. Mr. President, I strongly support the Emergency Community Services Homeless Grant Program, established by the McKinney Act. This program allows existing community action agencies and programs to provide critically needed assistance to homeless individuals and families. Funds under this program support comprehensive services to the homeless to provide followup and long-term services that enable them to make the transition out of poverty.

In allocating the fiscal year 1988 funds, the Office of Community Services advised all States that Emergency Homeless Grant Program [EHP] funds could not be used to prevent homelessness. The legislation before us, reauthorizing the McKinney Act, allows up to 25 percent of EHP grants to support homeless prevention. The Office of Community Services takes the position that this provision will only apply to grants made in fiscal years 1989 and 1990—and those grants will not be available to grantees until months or even years from now.

Worthy programs and policies, which might prevent Americans from ever becoming homeless, will not be undertaken until some time far in the future. The cost to return these individuals to independent living could be far higher than would otherwise be in the case. Moreover, the cost in terms of human suffering should not be tolerated.

I want to ask the manager of the pending measure whether he intends to delay the effective date of the homeless prevention provisions until fiscal year 1989 grants are made, or whether these provisions will govern all EHP activities undertaken in fiscal years 1989 and 1990, regardless of whether the funds were appropriated in fiscal year 1988 or fiscal year 1989?

Mr. KENNEDY. The Senator is quite right to raise this concern. It is our intention that not more than 25 percent of EHP grants be used by grantees for homeless prevention programs during fiscal years 1989 and 1990. This requirement is effective on October 1 and will govern all EHP activities undertaken in those fiscal years. Homeless prevention should be encouraged and all EHP activities undertaken in fiscal year 1989 can take advantage of the 25-percent provision. The fiscal year in which the appropriation was enacted is not relevant.

The intent of the legislation is to permit a specific level of homeless prevention activities in fiscal year 1989. It is not our intent to put homeless prevention on hold until the fiscal year 1989 grants are awarded.

Mr. HEINZ. I am very grateful for my colleague's assurance. I have discussed this question with Senators HATFIELD and DOMENICI, who were instrumental in the enactment of the EHP Program, and they also share my concern for homeless prevention. I look forward to working with them, and with Senator KENNEDY, to prevent homelessness whenever possible.

Mr. BAUCUS. Mr. President, I want to take this opportunity to engage the chairman of the Subcommittee on Housing and Urban Affairs, Senator CRANSTON, in a colloquy concerning HUD's administration of the section 8 Loan Management Set Aside Program.

Mr. CRANSTON. I would be happy to discuss this matter with my distinguished colleague from Montana.

Mr. BAUCUS. Under the LMSA Program, HUD provides additional section 8 rental assistance to financially troubled FHA projects. LMSA increases the project's rent stream and avoids a default.

HUD has refused to extend LMSA assistance to three financially troubled projects located in my State on the grounds that a new OMB policy gives first priority for LMSA use to subsidized projects. Two of the projects—the Elkhorn located in Anaconda and the Tower Hill located in Helena—were developed under the section 221(d)(4) program. One project—the Pintler in Anaconda—was developed under the section 220 program. Since the section 221(d)(4) and 220 programs only provided mortgage insurance to project developers, all three Montana projects are considered unsubsidized projects under HUD terminology.

I believe the OMB policy is inappropriate. First, OMB policy will result in increased costs to taxpayers. Denial of LMSA will cause FHA insured projects to default, which would lead to greater Federal intervention, not less. A default would require HUD to pay off the insurance claim, creating a loss on the FHA Insurance Fund.

If the default leads eventually to a foreclosure or property disposition sale, the costs could be even greater. For foreclosures or sales involving formerly unsubsidized projects, HUD is required to attach rental assistance to any vacant units as well as any units currently occupied by low-income and moderate-income tenants. The question posed by this situation, therefore, is whether HUD pays a little now or a lot later.

Mr. CRANSTON. The Senator's description of the requirements governing HUD's disposition of troubled multifamily projects is entirely correct. The requirements originated in the Housing and Community Development Act of 1987 and are critical to the preservation of the Nation's low and moderate income housing stock.

Mr. BAUCUS. I thank the Senator from California for that confirmation. Mr. President, the second problem with OMB's policy is that it simplistically identifies projects as subsidized or unsubsidized based on the section of the National Housing Act under which they are insured rather than on the degree of low-income assistance they now receive. Despite their status as unsubsidized projects, all three of the Montana projects receive substantial section 8 assistance—30 percent of the apartments in the Elkhorn and Pintler and over 70 percent of the apartments in Tower Hill. These Montana projects reveal the fact that substantial section 8 assistance has traditionally been provided to unsubsidized projects.

The third problem with OMB's policy is that it is inconsistent with existing law. HUD regulations define projects eligible for LMSA assistance as including "an existing * * * unsubsidized multifamily residential project which is subject to a mortgage insured pursuant to any section of the National Housing Act" 24 CFR. 886.101(a). Yet OMB's policy of giving blanket priority to subsidized projects, regardless of the facts of a particular application, would essentially make unsubsidized projects ineligible for LMSA assistance given the limited amount of assistance available.

Finally, OMB has a flawed rationale for its policy. OMB staff opposes the use of 15-year contracts for LMSA which were required by the Housing and Community Development Act of 1987. OMB, apparently wants to use 15-year assistance only for projects already receiving long-term subsidies. However, the only LMSA assistance now available is in the form of shorter term, 5-year contracts. OMB's concern, therefore, about transforming LMSA into a long-term subsidy—a concern which this Senator does not share—is moot for the upcoming fiscal year.

I have been unable to resolve this problem through correspondence with OMB. I request that the Senator examine this issue thoroughly in conference with the House and, if justified, take legislative action to amend OMB policy.

Mr. CRANSTON. I thank the Senator from Montana for his thoughtful analysis of the administration of LMSA funds. To the best of my knowledge, the OMB policy was developed without consultation with congressional authorization committees. I can assure him that I will ask the administration to give a full accounting of this policy as soon as possible and keep the Senator informed of any negotiations with the administration as conference on the McKinney bill progresses.

Mr. BRADLEY. Mr. President, earlier this week my colleague from New Jersey, Senator LAUTENBERG, and I learned of a serious problem confronting the city of Newark's homeless housing grant.

Newark applied, through its health and human services office, for an award for transitional housing through HUD for fiscal year 1988 funds. The Newark application was approved and city officials were notified a few months ago. The total award was for an amount just over $800,000. It included plans and a site location for a new transitional homeless housing project, and for expansion of other emergency networking efforts.

At the time of submission, a site for the project was selected. The HUD competition required that a site be specifically selected and that a specific construction plan be included—all to help ensure that there would be expeditious implementation of projects once funds were awarded. Mr. President, serious problems have now developed with that particular site. The city of Newark has been forced to submit an alternative site to HUD.

HUD has indicated that it will not consider any substitution of the site, and insists that unless the original site is implemented, Newark will lose its funding.

The main criterion on which the competition was based was a demonstration of need, and a cogent plan to alleviate the problem. Newark scored high and well in both these cases. The individual sites were not rated, ranked, or scored in that sense. HUD's general counsel apparently took a narrow interpretation of this requirement in the regulations, and determined that a change of site altered the nature of the competition, and he refuses to allow HUD program officials to accept any change of site.

I realize, Mr. President, that it is too late to seek an amendment in the Senate version of the bill to fix this problem. But we need to help Newark in any way that is possible. I would urge the conferees to explore ways to enable Newark to move forward on an alternative site. I would like to hear whether the Senator from California, Mr. CRANSTON, would be able to speak on this issue.

Mr. LAUTENBERG. Mr. President, I want to identify myself with the comments of my colleague from New Jersey, Mr. BRADLEY, and underline the seriousness of this situation.

Mr. President, the problem of homelessness in Newark has reached crisis proportions. According to a recent survey of homeless service providers, there are an estimated 12,500 homeless individuals in the city. Homelessness reportedly is increasing at the rate of 10 percent per year.

The development of a transitional housing program is an important component of Newark's efforts to address the problem. Transitional housing will enable the city to meet the needs of many homeless people who, with appropriate assistance, are capable of independent living. In addition to providing temporary housing, such a program would include much-needed services, such as medical care, counseling, day care services and employment and training.

Given the severity of the need, I would hope we could prevent the loss of this funding for Newark. Although I appreciate the lateness of the hour, I would join with my colleague from New Jersey in asking the Senator from California, Mr. CRANSTON, whether the problem might be addressed in conference or through any other mechanism.

Mr. CRANSTON. The Senators from New Jersey have raised some very legitimate questions about this matter and I appreciate the seriousness of their concern. I want to assure them that I will do everything I can to resolve this problem in conference.

Mr. BIDEN. Mr. President, I would like to take this opportunity to engage the distinguished chairman of the Housing Subcommittee, Senator CRANSTON, in a colloquy concerning the lead-based paint provision in the McKinney Homeless Assistance Amendments of 1988.

Mr. CRANSTON. I would be happy to discuss this matter with my good friend from Delaware.

Mr. BIDEN. The lead-based paint provision of this bill amends, in part, section 302(d)(2) of the Lead-Based Paint Poisoning Prevention Act. That section, originated in the Housing and Community Development Act of 1987, requires the Secretary to carry out an 18-month abatement demonstration program to develop the most practical and cost-effective procedures for the testing and abatement of lead-based paint. The 1987 act specified that the 18-month period was to start from the effective date of the HUD regulations. While HUD promulgated regulations on June 6, 1988, a subsequent act of Congress prevented HUD from expending any funds under those regulations. For the purposes of this bill, what is the effective date of the HUD regulations, from which the 18-month period begins to toll?

Mr. CRANSTON. For the purposes of this bill, the effective date of the HUD regulations is June 6, 1988. The Secretary is, thereby, mandated to transmit the report detailing and recommendations of the abatement demonstration program by December 6, 1989.

Mr. BIDEN. Thank you very much, Senator CRANSTON. I appreciate the Senator clarifying this important point in the bill.

Mr. WIRTH. Mr. President, I would first like to commend the chairman and his staff for pulling together this important legislation to allow the continuation and strengthening of Federal efforts to provide shelter and related services to our Nation's homeless population. This measure will also improve and expand our Nation's sorely depleted stock of low-income housing. Both of these objectives are critical pieces of our national housing policy.

A third component of our housing strategy, related to single family home ownership, has been relatively neglected in recent years and, as a result, is reaching crisis proportions in some sections of the country—notably in Energy Belt States like Colorado and Texas.

In areas such as these where the local economy has suffered significant setbacks, many newly and first-time unemployed individuals have fallen behind on their mortgages and have ended up sacrificing their homes. Lending institutions have been forced to pursue costly and damaging foreclosure procedures. The FHA single family insurance program, which is responsible for putting more families into homes than any other private or government program, will lose money this year for the first time in its history. And HUD, forced to take over the title to thousands of vacant homes across the country, has been hit with ongoing maintenance and disposition costs that drains resources from other more productive programs.

In Colorado, which has seen one of the highest foreclosure rates in the country, HUD has been left holding more than 10,000 family homes in the past year. The aggressive sales program that HUD subsequently embarked upon as a means of reducing its maintenance costs and replenishing the FHA insurance fund—which included auctions, deep discounts and $500 down payments—has had a ripple effect across all aspects of the private real estate market.

Families who have struggled valiantly to meet their mortgage payments each month have watched as the value of their equity sinks with each neighbor's foreclosure. Homeowners have found themselves unable to sell their property for a price even close to their initial investment. The demand for new homes has dropped off the scale completely, leading to layoffs and bankruptcies in the home construction and related industries.

While this unwieldy set of circumstances has stubbornly defied resolution or improvement for months, one promising proposal has been developed that, I believe, deserves our enthusiastic support. This provision, which has also been included in the House version of this bill, addresses the issue of mounting foreclosures and burgeoning HUD inventories at the front end by allowing the preforeclosure sale of properties in default and by providing for the partial payment of FHA claims to lenders.

As a result, foreclosure and damage to credit ratings are avoided, HUD eludes any maintenance or disposition costs—currently estimated by HUD to be in excess of $5,000 per home per year—and FHA is out only the amount needed to make up the difference between the sale price and the balance owed on the mortgage.

Mr. President, this proposal deserves to be included in the final version of this important legislation. While I do not wish to delay approval of the Senate version by moving to amend it in this fashion, I would appreciate your assistance to ensure that the Senate will embrace this provision from the House measure during the conference. It is by no means a panacea for the complicated economic conditions that have flattened the real estate industry in States like Colorado and turned so many thousands of previously stable homeowners out into the streets. But, it does represent one very powerful tool that HUD and the FHA insurance program may employ to slow the erosion in home ownership that threatens to further swell the ranks of this Nation's homeless families and individuals.

Mr. CRANSTON. I thank the Senator from Colorado for his suggestion. Serious questions have been raised about the administration's property disposition practices in those States severely hit by the downturn in the oil industry. The House provision supported by the Senator could provide a cost-effective and productive approach to this critical problem.

Mr. President, I can assure the Senator from Colorado that I will give serious consideration to this provision when it comes before the Senate conferees and I will keep him informed of negotiation on the provision as the conference progresses.

Mr. SHELBY. Mr. President, the section 515 program has been vital to the development of low-income housing in rural areas. This program, which allows owners to borrow money at an effective interest rate of 1 percent and pass through these savings to the tenant, has sponsored the construction of more than 400,000 units of low-income housing.

In order to maintain low rents, section 515 projects operate on very tight budgets. A provision added to the section 515 program by the Housing and Urban-Rural Recovery Act of 1983 requires that rent increases in section 515 rural rental housing projects be no greater than the lesser of actual costs incurred or actual costs incurred by comparable projects.

This provision went into effect in October 1986. Since that time, it has caused substantial difficulty for developers and managers. Tight budgets often mean that section 515 projects must incur operating deficits before a rent increase can be requested of the Farmers Home Administration. FmHA may only approve higher rents to the extent they reflect actual cost increases. Consequently, any losses realized between the time costs were incurred and the rent increase is approved are unlikey to be recouped.

The Department of Agriculture has stated of this regulation that, "The imposition of the new requirements has only added a new burden to the borrower with no factual justification." Managers and developers of section 515 projects have cooperated fully with FmHA in measures of cost control. Current FmHA regulations include tested rent change procedures which provide a fair and legitimate process to approve rent increases.

Mr. President, I would like to incorporate a provision in the Stewart B. McKinney Homeless Assistance Act that would amend the Housing Act of 1949 (42 U.S.C. 1471), by repealing subsection (h) of section 515. This change is supported by both administrators of the program and the program participants. The Office of Management and Budget also supports the repeal of this provision.

Mr. CRANSTON. The House of Representatives has included this same provision in its version of the Stewart B. McKinney Homeless Assistance Act. I share the Senator's belief that this provision should be repealed and I will recommend to my fellow conferees that the Senate recede to the House in this matter.

Mr. SHELBY. I thank the distinguished Senator from California for his assistance and commend him for his leadership in this legislation.

Mr. DIXON. Mr. President, I respect the request from the chairman of the Subcommittee on Housing and Urban Affairs, Senator CRANSTON, for unanimous-consent agreement that no amendments be offered to this bill. Therefore, I will not offer my amendment. Instead, I would like to enter into a colloquy with the Senator from California.

As we know, during consideration of H.R. 4352, the Omnibus Steward B. McKinney Homeless Assistance Act, Congressman PHILIP CRANE, of Illinois, offered an amendment which was agree to in the House. The amendment provides grants under the Supportive Demonstration Program to nonprofit organizations, local, and State governments for the development of employment for residents of transitional housing.

Additionally, the amendment provides financial assistance to these organizations for the costs of transporting residents to places of employment. It also allows the organizations to use each dollar spent on employing the homeless as a credit toward receiving matching funds from the Federal Government.

I would like to request that during the House-Senate conference negotiations on the McKinney homeless bill, the Senator from California gives serious consideration to the Crane amendment.

Mr. CRANSTON. Mr. President, I can assure the Senator from Illinois that I will give serious consideration to his request, and that I will share it with the conferees at the appropriate time. Senator DIXON has shown great leadership in our attempt to alleviate the problems of homelessness and hunger, and he deserves great credit for it.

Mr. LAUTENBERG. Mr. President, as many of us are aware, radon contamination in American homes has become a national crisis. The Environmental Protection Agency and the Surgeon General have recommended that every house in the United States be tested for radon. I believe that if a Government agency is telling Americans to test for radon in their private homes, then the Government should test for radon in HUD-owned and HUD-assisted housing including public housing, Indian housing, elderly housing, multifamily housing and handicapped housing. After all why should those living in HUD-owned and HUD-assisted properties be exposed to higher levels of radon and be subjected to higher rates of lung cancer?

Earlier this year, the GAO released a report I requested on the efforts of the Department of Housing and Urban Development to address radon. The GAO concluded that: First, HUD does not have a radon policy; second, HUD has not asked for any funding for radon; third, HUD has not implemented the existing authority to provide safe housing, housing which is safe from the threats of radon; and fourth, HUD is not likely to act to address radon without a congressional mandate. These conclusions were confirmed in a hearing that the Superfund and Environmental Oversight Subcommittee, which I chair, held on May 18.

I had planned to offer an amendment to the McKinney bill which would implement a recommendation from the GAO of providing HUD with the mandate to address the radon crisis. It would require HUD to work with EPA to develop and implement programs for radon testing, mitigation, education and research. In view of the importance of the McKinney bill, I am willing to withhold my amendment provided I have the assurance of the subcommittee chairman that he will make every effort to see that this amendment is included in the conference report on the McKinney bill.

Mr. CRANSTON. The problem of radon contamination of which the Senator from New Jersey speaks of is indeed quite serious. Federal studies have sampled the air in more than 20,000 houses in 17 States. Over one-quarter of those sample houses have been found to have radon levels hazardous enough that corrective action probably needs to be taken. Unfortunately, at this point we do not know what percentage of HUD-owned and HUD-assisted properties contain hazardous levels of radon. I agree that HUD must adopt a radon program which includes testing its own properties to determine if residents are being exposed to radon. I appreciate the Senator's willingness not to offer his amendment and I pledge that I will make every attempt to have the amendment included in the conference agreement.

Mr. HEINZ. EPA and the Surgeon General alerted the American public to test their homes for radon contamination. The amendment that Senator LAUTENBERG and I intended to introduce gives HUD the same alert. This amendment is a mandate for HUD to take the first step toward determining the extent of and remedying the problem of radon contamination in public housing. I believe that the Congress must give HUD further direction on how to address radon in public housing and must provide sufficient resources to assess and mitigate the radon problem.

The PRESIDING OFFICER. The question is on the engrossment of the committee amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (H.R. 4352), as amended, was passed.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the bill, as amended, was passed.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CALENDAR ORDERS NOS. 904, 895, AND 752 INDEFINITELY POSTPONED

Mr. BYRD. Mr. President, I ask unanimous consent that Calendar Orders No. 904, 895, and 752 be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, I yield the floor.

The PRESIDING OFFICER. The majority leader yields the floor.

The Senator from Kansas.

POSITION ON VOTE

Mrs. KASSEBAUM. Mr. President, I ask unanimous consent to be recorded that if I had been able to be here on the vote on the defense authorization bill conference report I would be recorded as voting "aye" in favor of that authorization measure.

The PRESIDING OFFICER. Without objection, it is so ordered.

INDIAN HEALTH CARE IMPROVEMENT ACT AMENDMENTS

Mr. BYRD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar Order No. 947, H.R. 5261, a bill amending the Indian Health Care Improvement Act.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 5261) to reauthorize and amend the Indian Health Care Improvement Act, and or other purposes.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 3298

Mr. BYRD. Mr. President, I send a substitute amendment to the desk on behalf of Mr. INOUYE.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from West Virginia [Mr. BYRD], for Mr. INOUYE proposes an amendment numbered 3298.

Mr. BYRD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment appears in today's RECORD under Amendments Submitted.)

Mr. INOUYE. Mr. President, I offer an amendment in the nature of a substitute to H.R. 5261, which generally consists of the provisions of S. 129, the Senate companion to H.R. 5261, and amendments to S. 129 by my colleague on the committee, Senator BURDICK, and by my colleague from Alaska, Senator STEVENS. The committee report on S. 129 was filed on September 14, 1988.

Mr. President, as you know, this bill which is so critical to the health status of this country's native people, has been pending in the Congress for nearly 6 years, having been vetoed by the President following the adjournment of the 98th Congress, and having failed to achieve final passage in the House on the last day of the 99th session of the Congress.

American Indian and Alaska Native people suffer the lowest health status of all Americans, with alarmingly high rates of postneonatal mortality, diabetes, hypertension, renal disease, alcoholism, and suicide. This bill, which reauthorizes the programs that were first initiated in the Indian Health Care Improvement Act of 1976, is vital to the ongoing efforts of the Indian Health Service and the Indian community to reduce these shocking rates of disease and death.

I urge my colleagues to support the committee substitute.

AMENDMENT NO. 3299

(Purpose: To delay the implementation of an IHS regulation relating to eligibility for the health care service, provide for a study of the impact of such rule, and for other purposes)

Mr. MELCHER. Mr. President, I have an amendment at the desk, and I ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Montana [Mr. MELCHER] proposes an amendment numbered 3299.

Mr. MELCHER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill insert the following new section:

"SEC.   . The final rule published in the Federal Register on September 16, 1987, by the Health Resources and Services Administration of the Public Health Service of the Department of Health and Human Services, to eligibility for the health care services of the Indian Health Service, shall not take effect before the day that is one year after the date of enactment of this Act, and no action may be taken before such day to implement or administer such rule or to prescribe any other rule or regulation that has a similar effect.

SEC.   . During the 1-year period described in sec.   , the Indian Health Service shall provide services pursuant to the criteria for eligibility for Indian Health Service in effect prior to September 15, 1987.

SEC.   . The Office of Technology Assessment, acting in consultation with the Indian Health Service, shall conduct a study to determine the impact of the final rule described in sec.   and of any other proposed rules which would change the eligibility criteria for medical services provided by the Indian Health Service.

(b) The study conducted under this section shall include:

(1) full participation and consultation with Indian and Alaskan Native tribal governments and representatives of urban Indian health care programs;

(2) statistic for each of the service areas of the Indian Health Service on the number of Indians who are currently eligible for the services of the Indian Health Service.

(3) statistics for each of the service areas of the Indian Health Service on the number of Indians who would be eligible for such services if the final rule described in section or any alternative rule changing eligibility were implemented;

(4) consideration of the financial impact of such final rule or any other proposed rule on the contract health care budget and on the clinical services budget of the Indian Health Service;

(5) consideration of the health status, cultural, social, and economic impact on Indian reservations and urban Indian populations of such final rule or any other rule changing the eligibility criteria;

(6) consideration of the alternatives, if any, that would be available to those Indians who would not be eligible for such services by reason of any such final rule; and

(7) consideration of the program changes that the Indian Health Service would be required to make if the eligibility requirements for such services that were in effect on September 15, 1987, were modified.

(c) The Office of Technology Assessment shall submit to the Congress a report on the study required under sec.   .

(d) Before submitting to Congress the report on the study required under this section, the Office of Technology Assessment shall provide Indian tribes, Alaska Native villages and urban Indian health care programs an opportunity to comment on the report and shall incorporate the comments of such Indian groups into the report.

SEC.   . There are hereby authorized to be appropriated such sums as are necessary to carry out the purposes of this Act."

Mr. MELCHER. Mr. President, I am offering an amendment to H.R. 5261 which will require the Office of Technology Assessment to conduct a study on the effects of a proposed change in eligibility criteria for IHS medical care. My amendment would also prevent IHS from implementing the proposed regulatory change for 1 year following enactment of the Indian Health Care Improvement Act, a provision also contained in the Interior appropriations bill for fiscal year 1989.

Mr. President, the amendment is almost identical to S. 2382 which passed the Senate unanimously on September 9, 1988. I have made one modification in that the amendment calls for a 1-year moratorium on any change in eligibility criteria while S. 2382 required a 3-year moratorium.

During hearings which the Select Committee on Indian Affairs conducted on S. 2382, the Indian Health Service acknowledged that the regulation was prepared without the benefit of any study or analysis of the impacts. In addition there was little, if any, consultation with the tribes.

IHS estimates that 125,000 Indians could be cut off from IHS care as a result of the proposed regulation change. Tribes across the country are gravely concerned that many of their members would lose eligibility for IHS medical care. The hospital associations and State governments have also expressed concern because of many of the Indians who would be cut off from service in all probability would have no other means of obtaining health care.

Therefore, I believe it absolutely essential that the proposed regulatory change be completely studied and the effects of any change fully evaluated before the rules are changed. Any changes made in IHS eligibility criteria should be initiated by Congress. At a bare minimum Congress must approve of any change in IHS eligibility—a challenging task which gets right to the heart of the question of who is an Indian for the purposes of Federal services. Congress has already expressed its dissatisfaction with the proposal developed by IHS and determined that more time is necessary to study the issue. The information which will result from the study proposed in my amendment will aid Congress in wrestling with this issue.

I would hope that the study can be completed in a timely fashion. However, the committees will also need time to digest the study, develop legislation on eligibility, hold hearings and so forth. The 1-year delay I have agreed to in the amendment probably will not be adequate. Therefore I would like to clarify if an additional time is needed, it is my intent to seek additional delays in the implementation of the proposed IHS rule.

On September 9, 1988 the Director of the Indian Health Service notified all of the IHS area directors of the 1-year delay which has been imposed by Congress. He also noted that "we do not believe that the committees oppose the substance of the eligibility regulations but rather the manner in which they were being implemented." The memorandum directs agency staff to continue planning to implement the regulation in fiscal year 1990.

This is inaccurate. The Select Committee on Indian Affairs is very concerned about the substance of the proposed regulation as well as the lack of consultation with the affected tribes. Although the committee has been reluctant to wrestle with this issue, I believe that any change made in eligibility for Federal services must originate with legislation handled by the authorizing committees rather than leaving this up to the agency.

I understand that the amendment has been accepted by both sides. However, I would like to inquire as to the views of the chairman of the committee on the IHS eligibility issue.

Mr. INOUYE. Mr. President, during the past year the Select Committee on Indian Affairs held extensive hearings on the issue of eligibility for medical care provided by the Indian Health Service. Tribes across the country have advised the committee that the proposed change in the regulation governing eligibility for IHS services is of urgent concern to them.

I believe that the committee concurs with the observations which Senator MELCHER has raised about the eligibility issue. The study proposed in the amendment will be most helpful to the committee as we develop legislation to resolve the question of who is an Indian for purposes of IHS services. I believe that this fundamental issue should be handled by the authorizing committee as opposed to a regulatory change. The Senator from Montana can be assured that I will support further delays in the implementation of the proposed regulation until such time as the committee has had adequate opportunity to consider this issue.

Congress is committed to raising the health status of the American Indian, who currently suffer one of the lowest health care status of any ethnic group in the country. The health status of the native American people is directly linked to the issue of who is eligible for services. I believe that the fundamental question of who is eligible to receive services will require the deliberation of the committee and the identified in the study proposed by Senator MELCHER will be very helpful.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Montana.

The amendment (No. 3299) was agreed to.

AMENDMENT NO. 3300

(Purpose: To ensure certain demonstration projects involving the treatment of child sexual abuse are continued)

Mr. MELCHER. Mr. President, I have a second amendment at the desk and I ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Montana [Mr. MELCHER] proposes an amendment numbered 3300.

Mr. MELCHER. Mr. President, I ask unanimous cosnent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of title VII of the matter proposed to be inserted, add the following:

CHILD SEXUAL ABUSE TREATMENT PROGRAMS

SEC. 716. Title VII, as amended by section 714 of this Act, is amended by adding at the end thereof the following new section:

"CHILD SEXUAL ABUSE TREATMENT PROGRAMS

SEC. 718. (a) the Secretary and the Secretary of the Interior shall, for each of the fiscal years 1989, 1990 and 1991, continue to provide through the Hopi Tribe and the Assiniboine and Sioux Tribes of the Fort Peck Reservation the demonstration programs involving treatment for child sexual abuse that were conducted during fiscal year 1988 through such Tribes.

"(b) There are authorized to be appropriated for each of the fiscal years 1989, 1990, and 1991 sums as may be necessary to carry out the provisions of this section.".

Mr. MELCHER. Mr. President, I am proposing an amendment to H.R. 5261 on behalf of myself, to direct the Secretary of Health and Human Services, and the Secretary of the Interior, working through the Indian Health Service, to provide funding to the Fort Peck Tribe in Montana and the Hopi Tribe in Arizona to continue a demonstration project started in fiscal year 1988 to combat and treat child sexual abuse.

It is a terrible tradegy that many children in both of these tribes have been victimized by sexual abuse over the past few years. Assistance must be provided to the victims. The tribes are working to develop strategies or working with offenders to try and break the vicious cycle of sexual abuse.

Last year, HHS provided $100,000 grants to each tribe to develop demonstration projects on how to combat this terrible problem and assist the victims. These two demonstration projects were to be used as models which could be duplicated by other tribes.

The funding was provided to the tribes via a memorandum of understanding with the Bureau of Indian Affairs. The tribes were lead to believe that the projects would be funded for 3 years. Unfortunately, both tribes were recently informed that no additional funding will be provided in fiscal year 89 which means that the projects would discontinued. It does not make sense to fund a demonstration project for 1 year because that is simply not enough time for the tribes to develop and test their programs. The bottom line is that these projects are critical to the children who are victimized by the henious crime of sexual abuse and I fully support the tribal efforts to develop effective assistance.

My amendment authorizes these two projects to be continued for 3 years. Unfortunately, this problem did not surface in time to earmark funds for the projects in the fiscal year 1989 Interior Appropriations Act, and that shall have to wait until next year.

I understand that the amendment is cleared and I thank the committee for accepting the amendment.

Mr. McCAIN. Mr. President, I rise in strong support of the amendment offered by Senator MELCHER which would continue two demonstration projects on the treatment of child sexual abuse on the Hopi and Ft. Peck Indian reservations.

Mr. President, this amendment is a small but important step in assisting these two tribes in providing treatment to those victims of this most reprehensible crime. In the case of the Hopi tribe located in Arizona, one teacher was responsbile for molesting over 43 school aged children. The devastating impact on the victims, their families and the tribe could not adequately be addressed in 1 year demonstration project previously authorized. I am hopeful that the additional 3 years provided in this amendment will assist in the treatment and care of those involved in this matter.

Obviously, more than just these two reservations have been affected by the problem of child abuse. And more than developing treatment programs for past abuses is needed. A comprehensive review must take place on the issues of prevention, treatment, and prosecution. Toward this end, I have requested, and Senator INOUYE has agreed, to schedule an oversight hearing of the Select Committee on Indian Affairs in Arizona on the problem of sexual abuse of Indian children. The hearing is scheduled for November 22. A time and location will be announced in the near future.

Mr. President, I thank the Senator from Montana for offering this important amendment, and I urge its adoption.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Montana.

The amendment (No. 3300) was agreed to.

AMENDMENT NO. 3301

(Purpose: To establish an effective clinical staffing recruitment and retention program, and for other purposes)

Mr. MELCHER. Mr. President, I have a third amendment at the desk and I ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Montana (Mr. MELCHER) proposes an amemndment numbered 3301.

Mr. MELCHER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amemdent is as follows:

AMENDMENT NO. 3301

At the end of title VII of the matter proposed to be inserted, add the following:

TITLE —LOAN REPAYMENT PROGRAM

INDIAN HEALTH SERVICE LOAN REPAYMENT PROGRAM

SEC. . (A) The Secretary, acting through the Service, shall establish a program to be known as the Indian Health Service Loan Repayment Program (hereafter in this Act referred to as the "Loan Repayment Program") in order to assure an adequate supply of trained physicians, dentists, and nurses for the Service (and for health facilities and health programs maintained by any Indian tribe, tribal organization, or urban Indian organization under a contract entered into with the Secretary) and, if needed by the Service or by such Indian tribe, tribal organization, or urban Indian organization, podiatrists, optometrists, pharmacists, clinical and counseling psychologists, graduates of schools of public health, graduates of schools of social work, graduates of programs in health administration, graduates of programs for the training of physicians assistants, expanded function dental auxiliaries, nurse practitioner (within the meaning of section 822 of the Public Health Service Act (42 U.S.C. 296m)), and other health professionals.

(b) To be eligible to participate in the Loan Repayment Program, an individual must—

(1) be enrolled as a full-time student and in the final year of a course of study or program in an accredited (as determined by the Secretary) educational institution in a State which is approved by the Secretary pursuant to the provisions of this title; or

(2) in a graduate training program in a course of study approved by the Secretary pursuant to the provisions of this title;

(3) have a degree in medicine or other health profession which is approved by the Secretary pursuant to the provisions of this title; or

(4) be employed by the Service on a voluntary basis without a service obligation in a position which qualifies for the purpose of this title.

(c) An individual applying for the Loan Repayment Program must be eligible for, or hold, an appointment as a commissioned officer in the Regular or Reserve Corps of the Public Health Service or be eligible for selection for civilian employment by the Service.

(d) An applicant for the Loan Repayment Program must submit an application to participate in the Loan Repayment Program, and must sign and submit to the Secretary, at the time of the submission of such application, a written contact (described in subsection (h)) to accept repayment of educational loans and to serve (in accordance with this title) for the applicable period of obligated service in the Indian Health Service.

(e) In disseminating application forms and contract forms to individuals deserving to participate in the Loan Repayment Program, the Secretary shall include with such forms a fair summary of the rights and liabilities of an individual whose application is approved (and whose contract is accepted) by the Secretary, including in the summary a clear explanation of the damages to which the United States is entitled under section in the case of the individual's breach of the contract.

(f)(1) The Secretary shall only approve applications under the the Loan Repayment Program that are made by individuals whose training is in a health profession or specialty determined by the Secretary to be needed by the Service. In approving applications for the the Loan Repayment Program, the Secretary shall ensure that nurses and other non-physician applicants have equitable access to the loan repayment program.

(2) In determining which applications under the Loan Repayment Program to approve, the Secretary shall extend a preference to Indians.

(g)(1) An individual becomes a participant in the Loan Repayment Program only upon the Secretary's approval of the individual's application submitted under subsection (d) and the Secretary's approval of the contract submitted by the individual under subsection (d).

(2) The Secretary shall provide written notice to an individual promptly upon the Secretary's approving, under paragraph (1), of the individual's participation in the Loan Repayment Program.

(h) The written contract referred to in this title between the Secretary and an individual shall contain—

(1) an agreement under which—

(A) the Secretary agrees—

(i) to pay loans on behalf of the individual in accordance with the provisions of this title, and

(ii) to accept the individual into the Service; and

(B) the individual agrees—

(i) to accept loan payments;

(ii) in the case of an individual described in paragrpah (1) or (2) of subsection (b)—

(I) to maintain enrollment in a course of study or training described in paragraph (1) or (2) of subsection (b) until the individual completes the course of study or training, and

(II) while enrolled in such course of study or training, to maintain an acceptable level of academic standing (as determined by the educational institution offering such course of study or training in accordance with regulations prescribed by the Secretary);

(iii) to provide certification to the Secretary of the degree or diploma awarded to the individual in the health profession; and

(iv) to serve for a time period (hereafter in this title referred to as the "period of obligated service") equal to 2 years or such longer period as the individual may agree to serve in a health program maintained by—

(I) the Service, or

(II) any Indian tribe, tribal organization, or urban Indian organization under a contract entered into with the Secretary,

to which the individual is assigned by the Secretary;

(2) a provision that any financial obligation of the United States arising out of a contract entered into under this title and any obligation of the individual which is conditioned thereon, is contingent upon funds being appropriated for loan repayments under this title and to carry out the purposes of this title;

(3) a statement of the damages to which the United States is entitled, under section for the individual's breach of the contract; and

(4) such other statements of the rights and liabilities of the Secretary and of the individual consistent with the provisions of this title as the Secretary considers appropriate to specify in the contract.

(i) No payment shall be made on behalf of an individual who has entered into a contract under the Loan Repayment Program unless or until such individual is a full-time employee of the Service.

(j)(1) A loan repayment provided for an individual under a written contract under the Loan Repayment Program shall consist of payment, in accordance with paragraph (2), on behalf of the individual of the principal, interest, and related expenses on government and commercial loans received by the individual for—

(A) tuition expenses;

(B) all other reasonable educational expenses, including fees, books, and laboratory expenses, incurred by the individual; or

(C) reasonable living expenses as determined by the Secretary.

(2) For each year of obligated service that an individual contracts under subsection (h) to serve, the Secretary may pay up to $25,000 on behalf of the individual for loans described in paragraph (1).

(k) Notwithstanding any other provision of law, individuals who have entered into written contracts with the Secretary under this section, while undergoing academic training, shall not be counted against any employment ceiling affecting the Department.

(l) The Secretary shall, by not later than March 1 of each year, submit to the Congress a report providing—

(1) the number, and type of health profession training, of individuals receiving loan payments under the Loan Repayment Program;

(2) the educational institution at which such individuals are receiving their training or have completed their training;

(3) the total number of applications filed under this section during the preceding year;

(4) the number of such applicants filed with respect to each type of health profession;

(5) the total number of contracts described in subsection (h) that are entered into during the preceding year;

(6) the number of such contracts entered into during the preceding year with respect to each type of health profession; and

(7) the amount of loan payments made in the preceding year.

RECRUITMENT

SEC. . (a) The Secretary may conduct at schools of medicine, osteopathy, dentistry, and, as appropriate, nursing and other schools of the health professions and at entities which train allied health personnel, recruiting programs for the Loan Repayment Program.

(d) Section 214 of the Public Health Service Act (42 U.S.C. 215) shall not apply to individuals during their period of obligated service under the Loan Repayment Program.

OBLIGATED SERVICE UNDER CONTRACT

SEC. . (a) Each individual who has entered into a written contract with the Secretary under section 101 shall provide service in the full-time clinical practice of such individual's profession in the Indian Health Service for the period of obligated service provided in such contract.

(b)(1) If an individual is required under subsection (a) of this section to provide obligated service, the Secretary shall, not later than 90 days before the date described in paragraph (4), determine if the individual shall provide such service as a commissioned officer in the Regular or Reserve Corps of the Public Health Service or as a civilian employee of the Indian Health Service, and shall notify such individual of such determination.

(2) If the Secretary determines that an individual shall provide obligated service to the Indian Health Service as a commissioned officer in the Regular or Reserve Corps of the Public Health Service or a civilian employee of the Indian Health Service, the Secretary shall, not later than 60 days before the date described in paragraph (4), provide such individual with sufficient information regarding the advantages and disadvantages of service as such a commissioned officer or civilian employee to enable the individual to make a decision on an informed basis. To be eligible to provide such obligated service as a commissioned officer in the Public Health Service, an individual shall notify the Secretary, not later than 30 days before the date described in paragraph (4), of the individual's desire to provide such service as such an officer. If an individual qualifies for an appointment as such as officer, the Secretary shall, as soon as possible after the date described in paragraph (4), appoint the individual as a commissioned officer in the Regular or Reserve Corps of the Public Health Service.

(3) If an individual provided notice by the Secretary under paragraph (2) does not qualify for appointment as a commissioned officer in the Public Health Service, the Secretary shall, as soon as possible after the date described in paragraph (4), appoint such individual as a civilian employee of the Indian Health Service.

(4)(A) With respect to an individual receiving a degree from a school of medicine, osteopathy, psychology, or dentistry and an individual who is completing advanced clinical education or training to specialize in nurse midwifery or community or public health nursing or as a nurse practitioner or clinical nurse specialist, the date referred to in paragraphs (1) through (3) shall be the date upon which the individual completes the training required for such degree, advanced clinical education or training, or certification in nursing, except that the Secretary shall, at the request of such individual, defer such date until the end of the period of time (not to exceed 3 years or such greater period as the Secretary, consistent with the needs of the Service, may authorize) required for the individual to complete an internship, residency, or other advanced clinical education or training. With respect to an individual receiving a degree from a school of optometry, podiatry, or pharmacy, the date referred to in paragraphs (1) through (3) shall be the date upon which the individual completes the training required for such degree, except that the Secretary shall, at the request of such individual, defer such date until the end of the period of time (not to exceed 1 year or such greater period as the Secretary, consistent with the needs of the Service, may authorize) required for the individual to complete an internship, residency, or other advanced clinical training. No period of internship, residency, or other advanced clinical training shall be counted toward satisfying a period of obligated service under this title.

(B) With respect to an individual receiving a degree from an institution other than a school referred to in subparagraph (A), the date referred to in paragraphs (1) through (3) shall be the date upon which the individual completes his academic training leading to such degree.

(C) With respect to an individual who has received a degree in medicine, osteopathy, psychology, dentistry, or other health profession and has completed graduate training, the date referred to in paragraphs (1) and (3) shall be the date on which the individual enters into a contract with the Secretary under section 101.

(c) An individual shall be considered to have begun serving the period of obligated service on the date such individual is appointed as an officer in a Regular or Reserve Corps of the Public Health Service under subsection (b)(2) or is appointed as a civilian employee of the Indian Health Service under subsection (b)(3).

BREACH OF CONTRACT

SEC. . (a) An individual who has entered into a written contract with the Secretary under section —— and who—

(1) is enrolled in the final year of a course of study and fails to maintain an acceptable level of academic standing in the educational institution in which the individual is enrolled (such level determined by the educational institution under regulations of the Secretary) or voluntarily terminates such enrollment or is dismissed from such educational institution before completion of such course of study, or

(B) is enrolled in a graduate training program, fails to complete such training program,

in lieu of any service obligation arising under such contract shall be liable to the United States for the amount which has been paid on his behalf under the contract.

(b) If (for any reason not specified in subsection (a)) an individual breaches his written contract under section —— by failing either to begin such individual's period of obligated service in accordance with section —— or to complete such period of obligated service, the United States shall be entitled to recover from the individual an amount determined in accordance with the following formula:

$$A=2z\left(\frac{t-s}{t}\right)$$

in which 'A' is the amount the United States is entitled to recover, 'z' is the sum of the amounts paid under this title to, or on behalf of, the individual and the interest on such amounts which would be payable if at the time the amounts were paid they were loans bearing interest at the maximum legal prevailing rate, as determined by the Treasurer of the United States, 't' is the total number of months in the individual's period of obligated service, and 's' is the number of months of such period served by him in accordance with section ——— of this title. Any amount of damages which the United States is entitled to recover under this subsection shall, within the 1-year period beginning on the date of the breach of the written contract (or such longer period beginning on such date as specified by the Secretary for good cause shown), be paid to the United States.

(c)(1) Any obligation of an individual under the Loan Repayment Program (or a contract thereunder) for service or payment of damages shall be canceled upon the death of the individual.

(2) The Secretary shall by regulation provide for the partial or total waiver or suspension of any obligation of service or payment by an individual under the Loan Repayment Program (or a contract thereunder) whenever compliance by the individual is impossible or would involve extreme hardship to the individual and if enforcement of such obligation with respect to any individual would be unconscionable.

(3) Any obligation of an individual under the Loan Repayment Program (or a contract thereunder) for payment of damages may be released by a discharge in bankruptcy only if such discharge is granted after the expiration of the 5-year period beginning on the first date that payment of such damages is required.

REPORTS

SEC. . The Secretary shall submit to the Congress on July 1 of 1988, and of each succeeding year, a report on the number of providers of health care who will be needed for the Indian Health Service during the 3 fiscal years beginning after the date the report is filed and—

(1) the number of scholarships, if any, the Secretary proposes to provide under the National Health Service Corps Scholarship Program during such 3 fiscal years, and

(2) the number of individuals for whom the Secretary proposes to make loan repayments under the Loan Repayment Program during such 3 fiscal years.

AUTHORIZATION FOR APPROPRIATIONS

SEC. . There are authorized to be appropriated for each fiscal year such sums as may be necessary to carry out the provisions of this title.

TITLE II—OTHER RECRUITMENT AND RETENTION PROVISIONS

TRAVEL EXPENSES FOR RECRUITMENT

SEC. . (a) The Secretary may reimburse health professionals seeking positions in the Service (including individuals considering entering into a contract under section ———) and their spouses for actual and reasonable expenses incurred in traveling to and from their places of residence to an area in which they may be assigned for the purpose of evaluating such area with regard to being assigned in such area.

(b) There are authorized to be appropriated for each fiscal year $100,000 for the purpose of carrying out the provisions of this section.

TRIBAL DEMONSTRATION RECRUITMENT AND RETENTION PROGRAM

SEC. . (a) The Secretary, acting through the Service, shall award grants to Indian tribes and tribal organizations for the purpose of enabling the Indian tribes and tribal organizations to develop and test, in cooperation with the Service, innovative techniques to recruit, place, and retain health professionals.

(b) The Secretary shall prescribe such regulations as are necessary to carry out the provisions of this section.

(c) There are authorized to be appropriated for each fiscal year $600,000 for the purpose of carrying out the provisions of this section.

TRIBAL CULTURE AND HISTORY

SEC. . (a) The Secretary, acting through the Service, shall establish a program under which all employees of the Service who serve particular Indian tribes shall receive educational instruction in the history and culture of such tribes and in the history of the Service.

(b) To the extent feasible, the program established under subsection (a) shall—

(1) be carried out through tribally-controlled community colleges, and

(2) be developed in consulation with the affected tribal government, and

(3) include instruction in Native American studies.

(c) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section.

INMED PROGRAM

SEC. . (a) The Secretary is authorized to provide grants to colleges and universities for the purpose of maintaining and expanding the Native American health careers recruitment program known as the "Indian into Medicine Program" (hereinafter in this section referred to as "INMED") as a means of encouraging Indians to enter the health professions.

(b) In addition to maintaining the INMED program at the University of North Dakota, unless the Secretary makes a determination, based upon program reviews, that the program is not meeting the purposes of this section, the Secretary shall provide grants to at least two additional universities or colleges for the purpose of expanding the INMED program model.

(c) The Secretary shall develop regulations for the competitive awarding of the grants established in this section provided that the universities applying for such funds agree to provide a program which—

(1) provides outreach and recruitment for health professions to Native American communities including elementary, secondary and community colleges located on Indian reservations which will be served by the program,

(2) incorporates a program advisory board comprised of representatives from the tribes and communities which will be served by the program,

(3) provides summer preparatory programs for Native American students who need enrichment in the subjects of math and science in order to pursue training in the health professions,

(4) provides tutoring, counseling and support to students who are enrolled in a health career program of study at the respective college or university, and

(5) to the maximum extent feasible agree to employ qualified Native American staff for the program.

(d) By no later than the date that is 3 years after the date of enactment of this Act, the Secretary shall submit a report to Congress on the program including recommendations for expansion or changes to the program.

(e) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section.

HEALTH TRAINING PROGRAMS OF COMMUNITY COLLEGES

SEC. . (a)(1) The Secretary, acting through the Service, shall award grants to community colleges for the purpose of assisting the community college in the establishment of programs which provide education in a health profession leading to a degree or diploma in a health profession for individuals who desire to practice such profession on an Indian reservation or in a tribal clinic.

(2) The amount of any grant awarded to a community college under paragraph (1) for the first year in which such a grant is provided to the community college shall not exceed $100,000.

(b)(1) The Secretary, acting through the Service, shall award grants to community colleges that have established a program described in subsection (a)(1) for the purpose of maintaining the program and recruiting students for the program.

(2) Grants may only be made under this section to a community college which—

(A) is accredited,

(B) has access to a hospital facility, Service facility, or hospital that could provide training of nurses or health professionals,

(C) has entered into an agreement with an accredited college or university medical school, the terms of which—

(i) provide a program that enhances the transition and recruitment of students into advanced baccalaureate or graduate programs which train health professionals, and

(ii) stipulate sanctions or certifications necessary to approve internship and field placement opportunities at service unit facilities of the Service or at tribal health facilities,

(D) has a qualified staff which has the appropriate certifications, and

(E) is capable of obtaining State or regional accreditation of the program described in subsection (a)(1).

(c) The Secretary shall encourage community colleges described in subsection (b)(2) to establish and maintain programs described in subsection (a)(1) by—

(1) entering into agreements with such colleges for the provision of qualified personnel of the Service to teach courses of study in such programs, and

(2) providing technical assistance and support to such colleges.

(d) Any program receiving assistance under this section that is conducted with respect to a health profession shall also offer courses of study which provide advanced training for any health professional who—

(1) has already received a degree or diploma in such health profession, and

(2) provides clinical services on an Indian reservation, at a Service facility, or at a tribal clinic. Such courses of study may be offered in conjunction with the college or university with which the community college has entered into the agreement required under subsection (b)(2)(C).

(e) For purposes of this section—

(1) The term "community college" means—

(A) a tribally controlled community college, or

(B) a junior or community college.

(2) The term "tribally controlled community college" has the meaning given to such term by section 2(4) of the Tribally Controlled Community College Assistance Act of 1978 (25 U.S.C. 1801(4)).

(3) The term "junior or community college" has the meaning given to such term by

section 312(e) of the Higher Education Act of 1965 (20 U.S.C. 1058(e)).

(f) There are authorized to be appropriated for each fiscal year such sums as may be necessary to carry out the provisions of this section.

ADVANCED TRAINING AND RESEARCH

Sec. . (a) The Secretary, acting through the Service, shall establish a program to enable health professionals who have worked for the Service for a substantial period of time to pursue advanced training or research at medical schools, or other professional schools or facilities.

(b) The Secretary shall prescribe such regulations as may be necessary to carry out the provisions of this section.

ADDITIONAL INCENTIVES FOR HEALTH PROFESSIONALS

Sec. . (a) The Secretary shall provide the incentive special pay authorized under section 302(b) of title 37, United States Code, by reason of section 208(a) of the Public Health Service Act (42 U.S.C. 210(a)), to—

(1) commissioned medical officers of the Regular and Reserve Corps of the Public Health Service who are assigned to positions for which recruitment or retention of personnel is difficult in the Indian Health Service, and

(2) civilian medical officers of the Service who are assigned to positions for which recruitment or retention of personnel is difficult.

(b)(1) The Secretary shall establish and update on an annual basis a list of positions (other than medical officers) of health care professionals employed by or assigned to the Service for which recruitment or retention is difficult.

(2)(A) The Secretary shall pay a bonus to any person who is employed in or assigned to, a position in the Service included in the list established by the Secretary under paragraph (1).

(B) The total amount of bonus payments made by the Secretary under this section to any employee during any 1-year period shall not exceed $2,000.

(c) The Secretary shall establish programs to allow the use of flexible work schedules, and compressed work schedules, in accordance with the provisions of subchapter II of chapter 61 of title 5, United States Code, for health professionals employed by, or assigned to, the Service.

(d) By no later than the date that is 6 months after the date of enactment of this Act, the Secretary shall submit a report to the Congress on the limitation imposed on amounts of premium pay for overtime to any individual employed by, or assigned to, the Service. The report shall include an explanation of existing overtime pay policy, an estimate of the budget impact of removing limitations on overtime pay, a summary of problems associated with overtime pay limitations, and recommendations for changes to the overtime pay policy.

RETENTION BONUS

Sec. . (a) The Secretary shall pay a retention bonus to medical officers employed by, or assigned to, the Service either as a civilian employee or as a commissioned officer in the Regular or Reserve Corps of the Public Health Service who—

(1) has—

(A) completed three years of employment with the Service, or

(B) completed any service obligation incurred as a result of—

(i) acceptance of any Federal scholarship program, or

(ii) any Federal education loan repayment program, and

(2) enters into an agreement with the Service for continued employment for a period of not less than 1 year.

(b) The Secretary shall establish specific rates for the retention bonus which shall provide for a higher annual rate for multiyear agreements than for single year agreements, but in no event shall the annual rate be less than $12,000 per annum nor shall the annual rate be more than $25,000 per annum.

(c) The retention bonus for the entire period covered by the agreement described in subsection (a)(2) shall be paid at the beginning of the agreed upon term of service.

(d) Any physician failing to complete the agreed upon term of service, except where such failure is through no fault of the individual, shall be obligated to refund to the government the full amount of the retention bonus for the period covered by the agreement plus interest as determinded by the Secretary after consultation with the Secretary of the Treasury.

FOREIGN MEDICAL GRADUATE DEMONSTRATION PROJECT

Sec. . (a) The Secretary shall establish a 3-year demonstration project in the Indian Health Service which utilizes foreign medical graduates to assist in the delivery of health care in hospital facilities of the Indian Health Service.

(b) The Secretary shall conduct the demonstration project at not less than 2 hospitals of the Indian Health Service which have the staff capability to provide orientation, training, and supervision to the foreign medical graduates selected to participate in the demonstration project.

(c) The Secretary shall develop a program which provides orientation, training, and supervision to the participants in the demonstration project which—

(1) assesses the abilities of each foreign medical graduate participating in the demonstration project,

(2) provides individualized orientation and training to each participant,

(3) provides individualized work assignments based upon the individual's training, experience and capabilities, and which are under the supervision of a medical officer of the Indian Health Service, and

(4) prepares each participant to obtain a license as a physician assistant.

(d) The Secretary shall select at least 10 individuals to participate in the demonstration project who—

(1) were licensed to practice medicine in their country of origin;

(2) practiced medicine in their country of origin for at least 5 continuous years;

(3) are proficient in the oral and written use of the English language;

(4) have obtaind citizenship or status of permanent residents of the United States; and

(5) originate from countries which are friendly with, or allied with, the United States.

(e) By the date that is no later than 3 years after enactment of this Act, the Secretary shall submit a report to Congress on the demonstration project which shall include recommendations for maintaining and expanding the demonstration project as a means of enabling the Service to more effectively deliver health care.

(f) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section.

REPORT ON RECRUITMENT AND RETENTION

Sec. . The Secretary shall establish an advisory panel composed of—

(1) 10 physicians or other health professionals who are employees of, or assigned to, the Indian Health Service, and

(2) 3 representatives of tribal health boards, and

(3) 1 representative of an urban health care organization.

(b) The advisory panel established under subsection (a) shall conduct an investigation of—

(1) the administrative policies and regulatory procedures which impede the recruitment or retention of physicians and other health professionals by the Indian Health Service, and

(2) the regulatory changes necessary to establish pay grades for health professionals employed by, or assigned to, the Service that correspond to the pay grades established for positions provided under section 4103 and 4104 of title 38, United States Code, and the costs associated with establishing such pay grades.

(c) By no later than the date that is 18 months after the date of enactment of this Act, the advisory panel established under subsection (a) shall submit to the Congress a report on the investigation conducted under subsection (b), together with any recommendations for administrative or legislative changes in existing law, practices, or procedures.

Mr. MELCHER. Mr. President, I am offering an amendment to H.R. 5261 which will add a new title on Indian Health Service clinical staffing recruitment and retention. The amendment is identical to S. 1475 which passed the Senate by unanimous consent on November 18, 1987, except that I have dropped the provision on Federal tort claims, an issue since resolved in other legislation. S. 1475 was introduced in the House as an amendment to the Indian Health Care Improvement Act, but during committee consideration, several key provisions, which are critical to the tribes and IHS health care professionals, were dropped.

The Indian Health Service is plagued by clinical staffing problems because of low pay, rural isolation, and inadequate facilities. Because of these factors, the agency finds it difficult to recruit and retain clinical staff, particularly on those reservations which are the most isolated. The situation is so critical in some areas that the ability of Indian Health Service to effectively deliver medical care services is being adversely affected. The provisions of S. 1475 will address these problems by improving salaries and other areas which are critical if the IHS is to effectively recruit and retain clinical staff.

My amendment simply adds S. 1475 as a separate title to H.R. 5261 so that the Senate conferees can conference this portion of the bill on even footing with the House conferees. I understand that this is acceptable to the committee and since the bill passed the Senate by unanimous consent earlier this year, I trust that the amendment will be acceptable to the full Senate.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Montana.

The amendment (No. 3301) was agreed to.

AMENDMENT NO. 3302

(Purpose: To limit use of funds appropriated to the Indian Health Service)

Mr. DOLE. Mr. President, I send an amendment to the desk to the substitute on behalf of Senator NICKLES and Senator HELMS.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Kansas [Mr. DOLE], for Mr. NICKLES (for himself and Mr. HELMS) proposes an amendment numbered 3302.

Mr. DOLE. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

After Sec. 901 at the end of the bill add a new section:

SEC. . LIMITATION ON USE OF FUNDS APPROPRIATED TO THE INDIAN HEALTH SERVICE.

Any limitation on the use of funds contained in an Act providing appropriations for the Department of Health and Human Services for a period with respect to the performance of abortions shall apply for that period with respect to the performance of abortions using funds contained in an Act providing appropriations for the Indian Health Service.

Mr. NICKLES. Mr. President, this bill is essential to the health care of our Nation's native American citizens. It has taken far too long to have this measure passed, and I am pleased that this measure will become law in the very near future.

I am offering an important amendment that will clarify the intent of the legislation as it relates to the use of Federal funds for abortion. The Indian Health Service, unlike other Federal agencies, it not subject to provisions limiting the use of Federal funds for abortion. My amendment would simply subject the Indian Health Service to the same limitations on the use of funds for abortion as the Department of Health and Human Services is restricted.

On behalf of my native American constituents in Oklahoma and myself, I thank the chairman, Mr. INOUYE, and the other members of the Senate Select Committee on Indian Affairs for all their hard work on this important legislation. Hopefully, we can move forward from here to help ensure that the quality of the health care available to our Indian citizenry is at least equal to that available to the rest of the populace.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 3302) was agreed to.

AMENDMENT NO. 3303

(Purpose: To strike an amendment to the Medicare provisions of the Social Security Act to assure that spending limits for programs under the jurisdiction of the Finance Committee under section 302 of the Budget Act are not exceeded, and for other purposes)

Mr. BYRD. Mr. President, I send an amendment to the committee substitute amendment to the desk on behalf of Mr. INOUYE.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from West Virginia (Mr. BYRD), for Mr. INOUYE, proposes an amendment numbered 3303.

Mr. BYRD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Beginning on page 56, line 17, of the amendment in the nature of a substitute to H.R. 5261, strike "MEDICARE PROVISIONS" and all of section 402.

On page 107, line 25, of the amendment in the nature of a substitute to H.R. 5261, strike the word "Terry" and insert in lieu thereof the word "Perry".

Mr. INOUYE. Mr. President, I am offering a modification to the committee amendment. This modification would delete section 402 of the committee reported amendment. Section 402 expands the types of health care facilities of the Indian Health Service that will be eligible for reimbursement under the Medicare Program. The Congressional Budget Office has estimated that this section will cost $0.8 million per year from the Medicare trust funds. Any increase in Medicare expenditures enacted at this time would exceed the spending limits for programs under the jurisdiction of the Finance Committee under section 302 of the Budget Act, and would make the bill subject to a point of order. While I support the policy of section 402, I offer the modification because of this budget problem. I hope that the Committee on Finance will consider the issue of expanding the types of Indian Health Service facilities eligible for Medicare reimbursement in the next Congress.

Mr. BENTSEN. I thank the chairman of the Committee on Indian Affairs, and I assure him that the Committee on Finance will consider this issue next year in the context of a Medicare bill.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 3303) was agreed to.

AMENDMENT NO. 3304

(Purpose: To make technical corrections)

Mr. BYRD. Mr. President, I send an amendment to the committee substitute to the desk on behalf of Mr. BURDICK.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from West Virginia [Mr. BYRD] for Mr. BURDICK proposes an amendment numbered 3304.

Mr. BYRD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Section 715(c) of the bill is amended by inserting "osteopathy," after "dentistry,".

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 3304) was agreed to.

AMENDMENT NO 3305

(Purpose: To provide for the designation of an administrative entity to administer the scholarship program for Native Hawaiians).

Mr. BYRD. Mr. President, on behalf of Mr. INOUYE, I sent an amendment to the committee substitute to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from West Virginia [Mr. BYRD] for Mr. INOUYE proposes an amendment numbered 3305.

Mr. BYRD. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 7 line 18 of the amendment in the nature of a substitute to H.R. 5261, following the word "assistance", insert a comma and the words "pursuant to a contract with the Kamehameha Schools Bishop Estate,"

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 3305) was agreed to.

Mr. BURDICK. Mr. President, I urge my colleagues to support this important health initiative.

The substitute amendment before us includes a rural health provision authored by the distinguished chairman of the Indian Affairs Committee, along with myself and the Senator from Iowa, Mr. GRASSLEY.

The provision authorizes $5 million a year through fiscal year 1991 for grants to demonstrate and evaluate innovative interdisciplinary methods and models designed to provide access to cost-effective, comprehensive health care in rural areas. All health professions training programs—not just medical schools, as under the AHEC Programs—would be eligible for grants.

As cochairman of the Senate Rural Health Caucus, I know that there are severe and growing shortages of health professionals. The nursing shortage has been documented in numerous newspaper articles and in graphic accounts from hospital administrators and other health care providers. In addition, we also have the physician shortage, and critical shortages of health professionals such as psychologists, physical therapists, and physician assistants in rural areas. In my home State of North Dakota, and rural areas across the country, the shortages of health professionals are threatening access to health care.

This provision offers two sure-fire methods to address rural areas' shortages of health professionals: first, it promotes "team" training by requiring two or more training programs to work together. This novel approach promotes training of health professionals as part of a team—students trained under this interdisciplinary approach will be best equipped to meet the needs of rural areas. Health professionals trained through this program will be able to be part of a team, and not have to practice in isolation. This will help keep them practicing in rural areas, where retention of professionals is as much of a problem as recruitment.

Equally important, the training program requires that students get clinical experience in a rural health setting—a hospital, rural health clinic, community or migrant health center, a site operated by the Indian Health Service, or others. Giving students a clinical experience in a rural setting has been shown to be a most effective method of persuading those students to return to a rural setting when they have finished school.

Mr. President, the interdisciplinary training program contained in this substitute amendment before us has been endorsed by the National Rural Health Association. It contains a unique combination of team training and rural clinical experience. These methods work. The need for action is clear, and I urge my colleagues to support this effective action plan.

In addition, Mr. President, the substitute amendment also authorizes special grants for recruiting and training nurses, nurse midwives, and nurse practitioners to deliver health care services to Indians. Grants may be made to schools of nursing, tribally controlled community colleges, or nurse-midwife or nurse-practitioner programs. Preference is given to programs that provide a preference to Indians.

The grants authorized by this part of the substitute amendment are designed to increase the number of these nurses, and to enhance the ability of facilities to recruit and retain nurses to provide health care to Indians.

The national nursing shortage has become so acute that some hospitals have been forced to turn patients away for lack of nurses to staff the beds. Betty Maher, the executive director of the North Dakota State Nurses' Association, has spoken to me many times about the nursing shortage in North Dakota. She has identified clearly the need to address the growing problem of shortages of professional nurses on Indian reservations and in other rural areas.

Mr. SIMON. Mr. President, I rise to recognize the concerted and dedicated efforts of my distinguished colleagues from Hawaii and North Dakota for their interdisciplinary training grant amendment. As chairman of the Senate Rural Health Caucus, Senator BURDICK's leadership in rural health care has been critical in focusing our attention on the serious challenges facing us in rural health care delivery. Declining access to quality medical care is becoming commonplace as more and more rural hospitals close, fewer nurses are being recruited and less physicians are practicing in rural areas. With his leadership, we have taken some sound steps in the right direction and I thank him for that leadership.

I also would like to commend Senators INOUYE, GRASSLEY, and BAUCUS for their support of this worthwhile amendment. All have recognized the severe problems that plague that 25 percent of our population living in rural America. By accepting this amendment, this body can address the great need for young talented physicians and nurses to practice in rural areas.

In my great State of Illinois we are suffering from hospital closures and certain health professions shortages. Over the past 2 years, 15 hospitals have closed removing 1,600 beds from patient access and also eliminating 4,000 full-time jobs. Unfortunately, the situation is becoming worse.

Northwestern University has made the decision to close its nursing school as the enrollment drops too low for it to continue. I receive more and more letters from small rural hospitals telling me of their inability to keep up with expenses, compete for nurses and maintain existing services. This should not be happening in America. The technology we have should be serving all of our population and should not be limited by geographic location.

I am proud to support the Interdisciplinary Training Grant Program because it provides the incentives needed to promote practicing in rural and frontier areas where quality health care and medical expertise is needed and not provided. This grant provides training and education to health care providers and an opportunity to practice in rural areas. Through this grant program we are offering the chance to work in settings that one normally wouldn't opt for and in turn we are increasing the opportunity for many health care professionals to practice and serve the rural areas in our country.

I encourage my colleagues to join me in supporting this program. It will help alleviate the growing health care crisis in rural America and provide the necessary tools to improve the training and educational needs of qualified physicians and nurses to practice in rural areas.

Mr. CRANSTON. Mr. President, I rise in strong support of H.R. 5261, the "Indian Health Care Amendments of 1988." As a cosponsor of this measure, I am very pleased that the Senate is about to vote on this important legislation.

The Indian Health Care Improvement Act was first enacted in 1976 in order to bring the health status of American Indians and Alaska Natives to a level equal to that of the general population in the United States. Although there has been improvement in the last 10 years, an April 1986 Office of Technology Assessment [OTA] report found that Indians still suffer from mortality rates that are higher than the national average.

Mr. President, of particular interest to me, the OTA found that information about the health status of Indians in California is practically nonexistent, primarily because of the loss of reservation lands as a consequence of the changing and diverse Federal policies applied to California Indians and the difficulty in identifying Indians in California.

The California Indian population is unique in this country and must be understood in historical context. In the 1850's, Congress failed to ratify treaties that the Federal Government had entered into with Indian tribes in California. Thus, although they were eventually recognized in Federal law as individual "Indians of California," many California Indians are not members of federally recognized tribes. Since, under current policies, Indian Health Services [IHS] eligibility is based primarily on tribal membership, fairness required the development of policies—that are currently in force—providing specifically for California Indians' eligibility for IHS care. Today, of California's 210,000 Indians, about 75,000 are currently eligible for IHS care. More than 70 percent of those who are currently eligible—53,000—are not members of federally recognized tribes.

Thus, Mr. President, I am particularly pleased that the pending legislation includes a provision that would preserve the eligibility of California Indians for IHS care. When the Select Committee on Indian Affairs considered this legislation last year, the Senator from Arizona, Senator McCAIN, raised some concerns about section 704 of S. 129 as introduced, which specified four categories of California Indians as being expressly eligible for health services. This provision was consistent with current practice and policy.

As a result of lengthy discussions between our staffs, Senator McCAIN and I agreed to a modified provision that addresses those concerns, and I believe that H.R. 5261 represents a very reasonable compromise. First, as in S. 129, the Senate companion as introduced, section 704 of the reported bill would codify current Indian Health Service practice and policy with regard to determining California Indian eligibility for IHS services. Thus, the following categories would expressly be eligible for IHS-provided care: members of federally recognized tribes; descendents of Indians who lived in California on June 1, 1852, who are members of the Indian community now served by the IHS and who are regarded as Indians by their communities; Indians holding certain trust interests; and Indians listed on certain plans for distribution of California rancherias and reservations and their dependents.

This provision would ensure that all California Indians who are currently eligible would continue to receive IHS health services and would not expand eligibility for California Indians.

Second, in order to gather important information regarding the health of California Indians—information which is currently lacking according to the OTA—section 704 would require the Secretary of Health and Human Services, in consultation with the Secretary of the Interior and with the assistance of tribal health programs or their designees providing health services to California Indians, to conduct a study in order to determine the number of Indians who are not members of federally recognized tribes, the names of the nonfederally recognized tribes of which the Indians are members, and the general localities of where the Indians live. The study would also include an assessment of the current health status of those Indians and an assessment of the actual availability and accessibility of alternative resources of health care on which those Indians would have to rely if IHS did not provide for their health care. I believe that this study could be very helpful as future decisions about Indian health care are made.

Mr. President, H.R. 5261 is a much-needed bill. I congratulate the chairman of the Indian Affairs Committee, the Senator from Hawaii [Mr. INOUYE], for bringing this legislation before the Senate. I thank him for his support for the California Indian provisions, and I urge all of my colleagues to support the bill as reported.

Mr. BINGAMAN. Mr. President, I rise today to commend my good friend and colleagues, the chairman of the Senate Select Committee on Indian Affairs, Mr. INOUYE, and his staff for their diligent efforts in bringing this vital piece of legislation to the Senate floor. I urge my colleagues to support the Indian Health Care Improvement Act.

The act before us today is similar to that offered in the last Congress, which was reported by the Senate Select Committee on Indian Affairs, but never fully considered or voted on in its final form by the Senate. Companion legislation was passed by the House and the Senate with amendments. Unfortunately, the two Houses never resolved their differences and, as a result, the Indian Health Care Amendments Act did not become law.

I believe one of the most important goals we as national leaders can work toward is to help all Americans lead healthier lives. Improvement in the health care of our Indian population is particularly critical. It is time we make a serious effort to improve the quality of health care it receives. I sincerely hope this legislation becomes law quickly.

I am happy to report that a bill I introduced in the last Congress, and again in this Congress, is in line with that goal, and, I hope, will complement broader Federal health promotion and disease prevention strategies. I am pleased that provisions of my legislation, the Indian Health Promotion and Disease Prevention Act, have been incorporated into S. 129. I would like to say a few words about my legislation, which focuses on an obvious but neglected aspect of health care: Preventive services.

My provisions will realize many objectives. They will create new health promotion and disease prevention services for Indians within the Department of Health and Human Services' Indian Health Service [IHS]. They will establish at least one demonstration project to find the most effective and cost-efficient means of promoting good health programs for Indians. They will continue and improve the Community Health Representative Program as a means for implementing our health promotion activities. They will require the Secretaries of the Interior and Health and Human Services to establish health education programs for Indian youths. And, most importantly, they will create a health promotion and disease prevention policy for Native Americans.

The need for these kinds of provisions became apparent to me during a field hearing held in Gallup, NM, a few years ago by the Select Committee on Indian Affairs and chaired by my colleague from Arizona Mr. [DECONCINI]. At the hearing, Indian leaders, health care professionals, health educators, and local and State providers discussed the critical need for better health care and voiced their strong support for preventive action to combat contagious and chronic, degenerative diseases.

Many of our most serious health problems have been found to be directly related to unhealthy activity—smoking, overeating, lack of exercise, and abuse of alcohol and drugs. The U.S. Surgeon General, in his 1979 report entitled "Healthy People", called for a national commitment to disease prevention and health promotion. Eight years later many of the problems remain, and the Surgeon General is once again urging a national commitment to better health—this time in his landmark "Report on Nutrition and Health". It is time for a renewed commitment to better health.

An important part of that commitment is community intervention through local outreach. Community health representatives, health educators and health promoters perform this vital function and H.R. 5261 continues and expands the program of quality training and rigorous curriculum for these paraprofessionals. I believe the community health representative's role in health promotion and disease prevention will be reinforced by passage of this legislation.

The legislation also establishes a community-wide health promotion project to determine the most effective and cost-efficient means of providing health promotion services. According to IHS, the leading causes of hospital admissions among Indians are injuries and poisonings, digestive and respiratory system diseases, and pregnancy complications. It is my hope that this project will be a model that will be replicated in other Indian communities as a way to promote community health.

The establishment of a health promotion and disease prevention service within the Indian Health Service would require IHS to develop a comprehensive plan outlining how and when these goals will be reached. Such a plan would be extremely useful as a benchmark for measuring IHS progress.

Finally, this bill provides for prevention and control of diabetes, so chronic among Native Americans. Indeed, we are facing a diabetes epidemic in our Indian communities. Studies indicate that one Indian in every four will develop diabetes, compared with 1 in 20 in the U.S. population at large. Treatment of diabetes is the second leading reason for outpatient visits by Indians to health service facilities nationwide. These distressing statistics emphasize the urgent need to strengthen our attack against this problem.

I am pleased that, with this legislation, our efforts will be significantly expanded. The act requires the Secretary of Health and Human Resources to undertake a study of the diabetes problem and, within 18 months of enactment, establish a program to strengthen and expand the IHS' existing programs and services. The existing IHS model diabetes control program would continue and be expanded to four new clinics. Currently, the program's seven project sites serve only approximately 10 percent of the IHS patient population in need.

This legislation is long overdue. I urge my colleagues to vote in favor of its passage.

Thank you, Mr. President.

Mr. INOUYE. Mr. President, I am most pleased to accept the amendment offered by my colleague, Senator BURDICK, which would provide $5 million to initiate a series of innovative nurse training programs targeted toward the truly pressing health care needs of American Indians and Alaskan Natives. This amendment is modeled after the impressive accomplishments of Dr. Clay Simpson, Administrator of the Health Careers Opportunity Program [HCOP] of the Health Services and Resources Administration, in recruiting minorities into the various health professions.

The funds provided will be able to be used for a wide range of nurse recruitment and training initiatives, including providing necessary scholarships as well as allowing nurses to upgrade their clinical and administrative skills. I feel that an especially important aspect of this program will be the requirement that those nursing programs which decide to apply for support already have established a close collaborative relationship with a health delivery system that possesses a track record in serving American Indians and/or Alaskan Natives.

I would further point out that my colleague has also proposed that priority be given to those applications which actively recruit these Native Americans into their programs which provide interdisciplinary training experiences, and which work with the newly established American Indian Gifted and Talented Centers we authorized earlier this congressional session.

Finally, I was especially pleased that my colleague has recommended that of the funds authorized, that at least $1 million shall be targeted for nurse midwifery programs.

Mr. STEVENS. Mr. President, this is an amendment to authorize the payment of incentive special pay for nurses in the Commissioned Corps of the U.S. Public Health Service.

Presently, medical and dental officers, veterinarians, and optometrists in the Armed Services and the Public Health Service Commissioned Corps receive various forms of incentive pay in recognition of the fact that their services are in short supply and that Federal salaries for these positions are not competitive with what they would receive in the private sector.

Outside of the uniformed services, nurses under the General Schedule of the Civil Service were accorded special pay rates in January 1988 which have raised their pay from $2,400 to $6,000 per year above pay for other comparable positions in the General Schedule. Also, Civil Service nurses at the Clinical Center of the National Institutes of Health are now paid in accordance with the VA nurse pay system set up under section 4107 of title 38, United States Code, which is slightly higher than the pay of nurses paid under title 5.

The Defense authorization bill for fiscal year 1989 provided a 4.1-percent raise for military personnel, and increased incentive pays for military physicians and other health professionals. Furthermore, under title VI, section 613, the Secretary will be able to approve special pay of up to $10,000 per year for critically short wartime health specialists including nurses. If passed again and signed by the President this will leave the nurses in the PHS Commissioned Corps, including those in the Indian Health Service, as the only Federal nurse group not receiving any form of special pay. The Public Health Service Commissioned Corps, of course, is having the same problems recruiting nurses as the rest of the Government, and is just as affected as the rest of the country by the nursing shortage.

This amendment is necessary as a matter of pure equity. It simply says that commissioned nurse officers in the Public Health Service shall be paid incentive special pay in the same amounts as, and under the same terms and conditions as, nurses in the Armed Forces. A similar provision was passed earlier this year by the Senate as part of another bill, S. 2530, which is unlikely to be considered by the House this session. Mr. President, I urge the adoption of this amendment.

Mr. GRASSLEY. Mr. President, I am pleased to see that S. 2597, of which I am an original cosponsor, will be included today in H.R. 5261, "A Bill To Reauthorize, and Amend, the Indian Health Care Act."

I believe that S. 2597 will make a contribution to alleviating the shortage of health and allied health professionals in rural areas. I am under no illusion that this bill provides a definitive solution to this problem. Obviously, many things contribute to this problem, not all of which are remediable through Federal legislation. Nevertheless, we must make progress as best we can, and I think the program this bill will authorize will help.

When this bill was introduced on June 29, I discussed it at some length. Among other things, I tried to provide some perspective on the health personnel situation as it manifests itself in Iowa. I will not repeat myself here.

Suffice it to say that the bill we are passing today is the same in virtually all respects as the bill we introduced on June 29. A few changes have been made in order to clarify certain provisions of the bill. I think the most important of these deserve some comment.

The provision which permitted funds to be used for "the enhancement of the faculty of an eligible applicant;" has been struck and replaced with provisions which would allow funds to be used for "the enhancement and training of rural educators" and "the training of faculty in the economic and logistical problems confronting rural and frontier health care delivery systems." This change was made because it was felt that the original provision was too vague and needed to be stated so as to assure us that more direct benefits would flow to rural areas. We wished to avoid a situation in which money goes into universities with no discernible and relatively direct payoff for rural communities.

A second change has been to include a provision stating that "not more than 10 percent of the individuals receiving training with funds made available to an applicant under this section shall be trained as allopathic and osteopathic physicians." Inclusion of this provision should not be construed to mean that the bill's sponsors think physician distribution is not a problem, or that physicians do not make an absolutely vital contribution to rural health care. This is most assuredly not the case, as I noted in my earlier statement on this bill. But there are already programs designed to help with this problem. Furthermore, and this is the most important point, we are mindful of the fact that rural areas face serious problems in recruiting all health and allied health professions, and we wish to avoid a situation in which the resources made available by this legislation focus mainly on physicians.

Finally, we have included a provision stipulating that the Secretary shall give priority to applications that "have the highest proportion of health related programs participating in projects of the type authorized under this act." With this provision we wish to insure that we end up with truly interdisciplinary projects.

I need to make one additional point. Since S. 2597 was introduced in June, I have had some calls from nurses in Iowa, concerned that the bill is designed to, or will lead to, support for the training and placement in rural areas of registered care technologists. Registered care technologists are a new type of health care worker that the American Medical Society proposes be developed to help alleviate the shortage of nurses.

I can remember no mention of this concept during any of the discussions we have had on this legislation. Furthermore, I can say for this Senator that I do not wish to use the program established by this bill to support development of this new category of health care worker. In my view, more discussion of this concept is needed across the country before we in the Congress contemplate any support for it.

In conclusion, Mr. President, I think that passage of this legislation will represent a small, but very useful, step forward toward the solution of the shortage of health care workers in rural areas.

Mr. STEVENS. Will the distinguished floor manager yield for a question concerning the use of funds authorized under this bill for Public Health Service construction in Alaska?

Mr. INOUYE. I am happy to yield.

Mr. STEVENS. In Alaska, most of the land on which Public Health Service facilities are built is owned by Alaska Native corporations created pursuant to the Alaska Native Claims Settlement Act [ANCSA]. Under ANCSA, the ownership of the surface estate and the subsurface estate is divided. Typically, lcoal "village corporations" own the surface while larger "regional corporations" hold title to the subsurface including sand, gravel, and silt. The Ninth Circuit Court of Appeals in Chugach Natives, Inc. versus Doyon Ltd. confirmed that the subsurface estate is a real property interest subject to the rights relating to real property. 588 F.2d 723 (9th Cir. 1978).

During a meeting with Native leaders during the August recess, I was informed that the Public Health Service is requiring Bristol Bay Native Corp. and other regional Native corporations to permit the use of their subsurface resources without payment as a condition of construction of public health facilities in rural Alaska.

In Bristol Bay's case, an easement to lay the building foundation in the subsurface has been donated to the Public Health Service as part of the local contribution to the project. However, the Service is insisting that it should be permitted to use 12,000 dollars' worth of excavated sand, gravel, and silt from the construction site without paying the corporation for it. In fact, the agency specifically prohibited the Egegik village corporation from using Federal funds budgeted for a joint State-Federal sewage treatment system to purchase these building materials from the Bristol Bay regional corporation.

The Public Health Service has the authority to acquire land and materials for use in facility construction. Under 42 U.S.C. 2004a "the Surgeon General is authorized to acquire land, or rights or interests therein * * *." He may not acquire land or interests therein from an "Indian tribe, band, group, community, or individual other than by gift or for nominal consideration if the facility for which such lands or rights therein are acquired is for the exclusive benefit of such tribe, band, group, community, or individual respecitvely." However, this exception does not apply to Alaska Native corporations for two reasons.

First, an Alaska Native corporation is not an "Indian tribe, band, group, community or individual." And second, PHS facilities constructed in Alaska villages are not for "the exclusive benefit" of the corporations. Many persons who are not shareholders—both Native and non-Native—regularly utilize PHS facilities in rural Alaska. Therefore, there is no statutory bar prohibiting PHS to purchase sand and gravel from Alaska Native corporations.

With regard to the subsurface estate owned by Alaska Native regional corporations, under 42 U.S.C. 2004a the Public Health Service should be required to purchase the sand, gravel, and silt for construction purposes. It is unreasonable to require a Native corporation to give away thousands of dollars in building materials as a condition to receiving public health care, particularly when its members are not the only ones which will benefit from a PHS project.

On December 21, 1987, the House and Senate concurred in amendments to the Alaska Native Claims Settlement Act which the President signed into law on February 3, 1988. These amendments make two points which are relevant to this matter. First, Congress provided protections for Native lands conveyed under ANCSA so that land and resources could not be taken by private or governmental action unless the owners voluntarily place the land or resources contractually or otherwise at risk.

Second, section 9070(e) of the amendments specifically deal with condemnation as follows:

> Condemnation of * * * land and interests in land, conveyed * * * pursuant to the Alaska Native Claims Settlement Act to a * * * Native corporation * * * shall be subject to condemnation for public purposes * * *."

This provision makes clear that a federal agency cannot utilize privately owned Native corporation land or resources without first initiating condemnation proceedings including payment of fair market value, or reaching some other arrangement with the corporation for the use of its land or resources by paying fair market value for whatever interest it acquires, fee or otherwise. In other words, the Government cannot simply demand the use of Native corporation property or resources, including the subsurface estate, without proper payment to the corporations.

I again point out that the local village corporation has acquired at no expense to the Government all necessary easements and land required for the project from the Bristol Bay regional corporation. I have no dispute that the local sponsor for a project should acquire the property rights and easements for general use. But the corporations should be compensated for the use of their sand, gravel, an silt, and Federal funds should be available for that purpose.

Does the distinguished chairman agree that the Public Health Service should be required to compensate Alaska regional corporations for the use of their sand, gravel, and silt which it uses for construction of public health facilities in Alaska?

Mr. INOUYE. Yes, I agree with the analysis of the senior Senator from Alaska. The Public Health Service should not require Alaska Native corporations to give away their resources without compensation as a condition of construction of public health facilities. It should not discriminate against Alaska Natives by imposing such a policy as a condition to receiving vital public health facilities in rural areas where they are so desperately needed. The subsurface owner's property rights to sand, gravel, and silt must be respected and acquired for fair market value in Alaska.

Mr. MURKOWSKI. Mr. President, I have an inquiry of the committee chairman regarding reimbursement for health care services provided to Alaska Natives and Indians by the IHS. It is my understanding that the intent of section 204(b) is to limit such reimbursement from States and State political subdivisions to services provided for injury or illness covered by workers' compensation or no-fault insurance programs and not to seek reimbursement of IHS medical expenses for injury or illness when the State or political subdivision otherwise insures the individual receiving the care.

Mr. INOUYE. That is correct. Subsection (b) of section 204 of the bill limits the authority of the IHS to recover from a State or any political subdivision thereof only medical expenses incurred by Alaska Natives and Indians which are covered by no-fault auto insurance and workers' compensation programs. The Federal Government cannot otherwise seek reimbursement if that individual receives IHS medical care. Thus, if a State or political subdivision of a State self-insures its employees for health care, the Federal Government is not authorized under this bill to seek reimbursement for the services rendered.

Mr. MURKOWSKI. I thank the chairman for his succinct explanation of the intent of section 204(b) of the Indian health care amendments.

The PRESIDING OFFICER. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute, as amended.

The committee amendment, as amended, was agreed to.

The PRESIDING OFFICER. The question is on the engrossment of the committee amendment, as amended, and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (H.R. 5261), as amended, was passed.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the bill, as amended, was passed.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BYRD. Mr. President, I move that the Senate insist on its amendments, request a conference with the House on the disagreeing votes of the two Houses, and that the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to; and the Presiding Officer appointed Mr. INOUYE, Mr. MELCHER, Mr. DECONCINI, Mr. BURDICK, Mr. DASCHLE, Mr. EVANS, Mr. MURKOWSKI, and Mr. MCCAIN conferees on the part of the Senate.

Mr. BYRD. Mr. President, I ask unanimous consent that Calendar Order No. 937, S. 129, be indefinitely postponed. That is the Senate companion bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER TO PLACE S. 2843 ON THE CALENDAR

Mr. BYRD. Mr. President, I ask unanimous consent that S. 2843, introduced today by Senators HATCH and KENNEDY, dealing with animal drugs be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROVIDING FOR THE HAND ENROLLMENT OF APPROPRIATIONS BILLS FOR FISCAL YEAR 1989

Mr. BYRD. Mr. President, I send to the desk a House joint resolution and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A joint resolution (H.J. Res. 665) authorizing the hand enrollment of appropriations bills for fiscal year 1989 and authorizing the subsequent, postenactment preparation of printed enrollments of those bills.

The PRESIDING OFFICER. Is there an objection to the request of the Senator from West Virginia?

There being no objection, the Senate proceeded to considered the joint resolution.

The PRESIDING OFFICER. The joint resolution is before the Senate and open to amendment. If there be no amendment to be offered, the question is on the third reading and passage of the joint resolution.

The joint resolution (H.J. Res. 665) was ordered to a third reading, was read the third time, and passed.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

THE CALENDAR

Mr. BYRD. Mr. President, I inquire of the able Republican leader as to whether or not the following calendar orders on the Calendar of Business are ready to be taken up and acted upon: Calendar orders numbered 943, 962, 966, and 967.

Mr. DOLE. If the majority leader will yield, each of those have been cleared on this side.

Mr. BYRD. Mr. Speaker, I thank my friend.

I ask unanimous consent that the Senate proceed to the consideration of the aforegoing measures seriatim.

The PRESIDING OFFICER. Without objection, it is so ordered.

TARGHEE NATIONAL FOREST LANDS EXCHANGE

The Senate proceeded to consider the bill (H.R. 4028) to authorize the Secretary of Agriculture to exchange certain National Forest System lands in the Targhee National Forest, which had been reported from the Committee on Energy and Natural Resources, with an amendment to strike all after the enacting clause and insert in lieu thereof, the following:

EXCHANGE AUTHORITY

SECTION 1. Notwithstanding the requirements contained in section 1 of the Act of March 20, 1922, and that portion of section 206(b) of the Act of October 21, 1976, which provides that when the Secretary of Agriculture exchanges lands, the lands exchanged must be located in the same State, and must be included within the exterior boundaries of a National Forest—

(a) The Secretary of Agriculture (hereinafter referred to as "the Secretary") is authorized to exchange those federally owned lands within the Targhee National Forest depicted on the map entitled "Targhee Exchange, Wyoming—Proposed", dated April 15, 1988, comprising approximately two hundred and seventy acres, for nonfederally owned lands within, adjacent, or in close proximity to the Targhee National Forest, including lands outside the exterior boundary of the forest;

(b) the values of lands exchanged by the Secretary under this Act shall be equal, or if they are not equal, the values shall be equalized by the payment of money to the grantor or to the Secretary as the circumstances require so long as payment does not exceed 25 per centum of the total values of the lands or interests transferred out of Federal ownership. The Secretary shall try to reduce the amount of payment of money to as small an amount as possible;

(c) the map described in subsection (a) and a legal description of such lands depicted therein, shall be on file and available for public inspection in the office of the Chief of the Forest Service, Department of Agriculture, Washington, District of Columbia. Such map and legal description shall have the same force and effect as if included in this Act: *Provided*, That actual acreage and boundaries may be adjusted to equalize values and the correction of clerical and typographical errors in such legal description may be made by the Secretary; and

(d) any lands acquired by the Secretary under this Act shall become part of the Targhee National Forest and the exterior boundary of the Targhee National Forest shall be revised to include such lands.

SAVINGS CLAUSE

SEC. 2. Except as specified in section 1, this Act shall not be construed as modifying any other requirements of existing law or regulations.

TIME LIMIT

SEC. 3. As soon as practicable, but not later than nine months after the date of enactment of this Act, the Secretary shall carry out the exchange authorized by section 1.

The amendment was agreed to.

The amendment was ordered to be engrossed, the bill was read the third time, and passed.

RELIEF OF CONWELL F. AND GERALD R. ROBINSON

The Senate proceeded to consider the bill (S. 1849) for the relief of Mr. Conwell F. Robinson and Mr. Gerald R. Robinson.

Mr. MELCHER. Mr. President, a number of landowners in Montana owned property within the boundaries of land that became Glacier National Park.

For the two Robinson brothers in Great Falls, MT, passage of this bill brings for them fairness and equity in a regrettable happening affecting their former property within the boundaries of Glacier National Park.

This land was homesteaded by their grandparents and later became part of Glacier Park. The land and the buildings was later condemned and acquired by the United States. Contrary to most arrangements, and obviously against the Robinson's will, they were denied life occupancy of the cabin and a few acres of their former property.

To correct this inequity this bill will give them the right of life occupancy. They have reached threescore years and ten.

They deserve this consideration as so many others have had where their land was acquired within Glacier National Park.

I believe that the Senate is justified in passage of this bill, and I regret the long delay in granting this consideration to the Robinsons.

Mr. BAUCUS. Mr. President, I rise in support of S. 1849, legislation to allow Conwell F. Robinson and Gerald R. Robinson to live on their family's homestead for the remaining years of their life.

This legislation will solve an unfair Federal action against a private citizen once and for all. Senator MELCHER and I agree that it is necessary to legislate. I don't often see reason enough to take action by private relief legislation, but the facts are plain enough. The Robinson brothers have been unfairly treated. The Park Service will not act. I am convinced that Congress must act.

Let me highlight what has happened here. During 1965, an assistant park superintendent began a series of steps to condemn the Robinson, or more correctly, the McCarthy homestead. The Robinsons had requested life use of the property. Life use was denied them in 1967.

Just 1 year later, it became official policy of Glacier National Park that inholders would not be pushed off their land. Retention of life estates became official policy of the park. Condemnation is used only in extreme cases. Specifically, the policy states:

> No condemnation of privately owned land (would be allowed) except where the property is needed for development of public use facilities or where the owners proposed to change the use of their property in a manner that is incompatible with the purposes for which the park was established.

In the more than 20 years that has elapsed, the Park Service hasn't developed a public use facility on Mr. Robinson's property. No change in the property's use has been planned by Park Service or Mr. Robinson. Yet, the Park Service has refused life tenancy.

I believe the actions of the Park Service are a contravention of park policy. Over-zealous management pursuing the old policy of ridding Glacier National Park of inholdings allowed Mr. Robinson's interests to be trampled.

Reducing inholdings in the park over time is a correct policy and I support it. More people visit Glacier Park every year than live in all of Montana. People come from all over the Nation and around the world to enjoy the majestic peaks, the splendid vistas and the abundant wildlife of Glacier National Park. Montanans are proud to share this jewel of the big sky country with visitors from around the globe.

But Glacier was not carved out of pure wilderness. By the time its beauty was recognized, homesteading and development around its edges had already begun. In fact, the first oil exploration in Montana occurred a short distance from the site of the Robinson homestead, in what today is considered pristine parkland. Our early settlers worked this land. They invested themselves in it.

I think life tenancy is a modest thing to ask of our country in exchange for condemnation.

The enabling legislation creating Glacier Park and current policy provides a basis for the Park Service to address this wrong without legislation, but the park won't act. Those who argue that allowing Mr. Robinson to have life tenancy would set a bad precedent are ignoring equity and fairness. The real bad precedent is the Park Service's unwillingness to grant a reasonable request to let these people live in their historic home for the duration of their lives.

I am pleased that the Senate has the chance to set this straight today. I urge my colleagues to support S. 1849.

The PRESIDING OFFICER. The question is on the engrossment and the third reading of the bill.

The bill (S. 1849) was ordered to be engrossed for a third reading, was read the third time, and passed as follows:

S. 1849

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a)(1) the Secretary of the Interior shall grant a life estate special use permit to Mr. Conwell F. Robinson and Mr. Gerald R. Robinson to use the property in Glacier National Park described in paragraph (2)

(2) The property referred to in paragraph (1) is Tract 3998 which is property formerly owned by the Robinson brothers. The property was originally homesteaded by maternal grandparents of the Robinson brothers prior to the creation, of Glacier National Park and was deeded to their grandmother, Margaret McCarthy, by President Woodrow Wilson on April 23, 1915. Tract 398 was taken from the Robinson brothers by condemnation through an eminent domain action brought by the United States Government in 1967.

(b)(1) The special use permit granted by this Act shall be extended for a period coincident with the lives of Conwell F. Robinson and Gerald R. Robinson.

(2) The special use permit granted by this Act shall grant to Conwell F. Robinson and Gerald R. Robinson reasonable use of the property.

(c) Any fee collected for the special use permit required by this Act shall be fair and reasonable and in an amount necessary to cover the administrative costs associated with granting the permit, except that in no event shall the fee collected exceed $10 per annum.

(d) The Secretary shall promulgate such regulations as the Secretary deems are necessary to insure that the life estate special use permit granted by this Act does not unreasonably diminish the scenic, historic, and other values for which the Glacier National Park was established.

MANAGEMENT OF CERTAIN FEDERAL LANDS IN ALASKA

The Senate proceeded to consider the bill (H.R. 2596) to improve Federal management of lands on Admiralty Island, AK, which had been reported from the Committee on Energy and Natural Resources, with an amendment to strike all after the enacting clause and insert in lieu thereof, the following:

SECTION 1. SHORT TITLE AND PURPOSE.

(a) SHORT TITLE.—This Act may be cited as the "Admiralty Island National Monument Land Management Act of 1988".

(b) PURPOSE.—The purpose of this Act is to improve Federal management of lands on Admiralty Island, Alaska, as provided herein.

SEC. 2. FINDINGS.

The Congress hereby finds that—

(a) Admiralty Island National Monument, Alaska, is an area of unparalleled natural beauty containing multiple values including, but not limited to, fish, wildlife, forestry, recreational, subsistence, educational, wilderness, historical, cultural, and scenic values of enduring benefit to the Nation and the Native peoples residing therein; and

(b) land management and Federal administration of Admiralty Island National Monument may be enhanced by Federal land acquisitions, through land exchanges or otherwise, and by cooperative agreements between the Federal Government and the indigenous residents of the Island, the people of the City of Angoon and the Native Village Corporation, Kootznoowoo, Incorporated.

SEC. 3. LAND ACQUISITION AND EXCHANGE.

(a) Section 506(a) of the Alaska National Interest Lands Conservation Act (Public Law 96-487, as amended) is hereby amended by adding at the end thereof the following new paragraph:

"(9)(A) The Secretary is authorized and directed to: Enter into such cooperative agreements and agreements for land acquisition, through exchange or otherwise, with Kootznoowoo as are deemed necessary by the Secretary to carry out the purposes specified in sections 101 and 503 of this Act and to improve the management of Federal lands on Admiralty Island.

"(B) The Secretary shall make every effort to complete agreements within eighteen months of the date of enactment of this paragraph.

"(C) The Secretary shall report to Congress before the end of such eighteen-month period on the status and results of negotiations with Kootznoowoo. The report shall include, but not be limited to, any Kootznoowoo properties proposed to be acquired by the United States, any Federal lands or other compensation to be offered in exchange, and the text of any proposed or executed agreements.

"(D) Any lands on Admiralty Island acquired by the United States pursuant to this paragraph shall be added to and incorporated within the Admiralty Island National Monument.

"(E) The inability of the Secretary and Kootznoowoo to reach agreement shall not preclude subsequent negotiations at any time for the purposes of land exchanges or other matters.

"(F) Enactment of this paragraph shall not create any right or cause of action by Kootznoowoo, Incorporated, or any other party against the United States.".

SEC. 4. LAND SELECTION CONSOLIDATION.

(a) Section 506(a)(5) of the Alaska National Interest Lands Conservation Act (Public Law 96-487, as amended) is hereby amended by adding at the end thereof the following new subparagraphs:

"(C) In order to consolidate Federal land ownership and improve management of land and timber resources in the area, lands within the sale area and lands between such sale area and lands lying to the east of such sale area which have been or may be conveyed to Kootznoowoo pursuant to this paragraph (5), and not otherwise committed by contract, shall be specifically considered by the Secretary for exchange with Kootznoowoo, Incorporated. Nothing in this section shall affect valid land selections which the State of Alaska has filed with the Federal Government under Public Law 85-508.

"(D) The Secretary of Agriculture may require as a condition precedent to any exchange of lands with Kootznoowoo, Incorporated, pursuant to this Act that any party (other than the United States) owning the subsurface estate in lands proposed to be transferred to the United States by Kootznoowoo, Incorporated, in furtherance of such exchange agree to transfer such subsurface estate to the United States in exchange for the subsurface estate in the lands proposed to be transferred to Kootznoowoo, Incorporated, in furtherance of such exchange.

"(E) Any transfer pursuant to subparagraphs (C) and (D) of this paragraph shall be subject to valid existing rights.

"Nothing in subparagraphs (C) and (D) shall create a right or cause of action by Kootznoowoo, Incorporated, or any other party against the United States.".

SEC. 6. ADMINISTRATIVE PROVISIONS.

(a) Section 703(a)(1) of the Act is amended by deleting the words "Admiralty Island National Monument Wilderness" and inserting in lieu thereof "Kootznoowoo Wilderness".

(b) Lands transferred, exchanged, or granted pursuant to provisions of section 506(a) of the Act shall be deemed to have been transferred, exchanged, or granted as of January 9, 1981: *Provided,* That this effective date not be construed in any way so as to obligate any payments by the United States, or as to require the escrow of any funds which may have been generated on such lands prior to December 2, 1980.

(c)(1) All rights, title, and interests to that portion of the approximately 17.34 acres comprising the Angoon Administrative Site which, pursuant to paragraph (c)(2) of this section, the Secretary dictates for uses related to the administration of the Tongass National Forest, are hereby confirmed in the United States, said parcel being a valid existing Federal administrative site as referred in section 506(a)(3)(A) of the Alaska National Interest Lands Conservation Act (Public Law 96-487, as amended). Said administrative site is located on Admiralty Island in township 50 south, range 68 east, section 31, Copper River Meridian and township 50 south, range 67 east, section 36, Copper River Meridian.

(2) Within one year of enactment of this paragraph, the Secretary of Agriculture shall adjust, and resurvey as necessary, the boundaries of the Angoon Administrative Site to include only that portion of the site described as follows:

(A) those lands which lie within the following described boundaries, comprising 4.68 acres more or less:

Beginning at corner 1, also corner 9 of United States survey number 3756;

Thence north 45 degrees 30 minutes west 540.79 feet to corner 2,

Thence north 45 degrees 00 minutes east 376.60 feet to corner 3,

Thence south 45 degrees 30 minutes east 540.79 feet to corner 4,

Thence south 45 degrees 00 minutes west 376.60 feet to corner 1, also corner 9 of United States survey number 3756, the point of beginning.

(B) those lands which lie within that area adjoining the northeastern boundary of the 4.68 acre tract and the mean high tide line of Kootznahoo Inlet, subject to a perpetual public easement for the existing Angoon-Killisnoo Road; and

(C) an easement for road and utility access to the 4.68 acre tract from the western or southern boundary of the 17.34 acre site. To the maximum extent feasible, the Secretary shall locate said easement to connect to and follow the existing right of way for Relay Road, which lies between lots 1 and 6 of the Samuel G. Johnson subdivision. Said easement shall be at a precise location and of dimensions which the Secretary determines is reasonably necessary for present and projected Federal uses of the site related to administration of Tongass National Forest. Said easement shall be subject to any valid existing rights except those of Kootznoowoo, Incorporated: *Provided,* That the easement shall not be located on any lands conveyed by Kootznoowoo, Incorporated to a third party prior to June 1, 1988, without the express consent of such party: *Provided further,* That the Secretary shall exclude from the lands so retained those lands which were occupied on June 1, 1988, by structures and improvements that were not contructed by or for the United States including easements related thereto, or which were constructed by or for the United States but which the Secretary determines are not reasonably necessary for present or projected Federal uses related to the administration of the Tongass National Forest: *And provided further,* that the Secretary shall not exclude from the 4.68 acre tract any lands occupied by existing power utility lines or poles, and the lands so occupied shall be subject to an easement to allow for their continued use, maintenance, and repair.

(3) Title to all lands within the 17.34 acre administrative site which are not included by the Secretary in the adjusted area provided by paragraph (c)(2) shall be conveyed by the Secretary of Agriculture by quitclaim deed to Kootznoowoo, Incorporated.

(4) The provisions of paragraphs (c)(2) and (c)(3) are subject to the condition precedent that Kootznoowoo, Incorporated executes an appropriate written agreement acceptable to the United States Attorney for the District of Alaska to dismiss, with prejudice, the pending litigation entitled Kootznoowoo, Inc. v. United States Department of Agriculture, Forest Service, Civil number A84-575, in the United States District Court for the District of Alaska, and agrees therein that Kootznoowoo, Incorporated and the United States shall each bear their own costs of said litigation, including attorney's fees.

The **PRESIDING OFFICER.** The question is on agreeing to the committee substitute.

The committee substitute was agreed to.

Mr. **MURKOWSKI.** Mr. President, H.R. 2596 is a bill to improve the Federal management of Admiralty Island National Monument in Alaska. This monument is an important part of the Tongass National Forest, an area of more than 17 million acres that contains some of the most spectacular scenery and natural resource values in the world. Admiralty Island is the ancestral home of the Tlingit Indians who reside in Angoon, the only permanent settlement on the island. The monument also is the home of abundant wildlife populations, including the densest populations of brown bears and bald eagles in North America. Much of the monument has been designated as wilderness, and the valuable resources of the island are vital to the people of Angoon for subsistence purposes.

Admiralty Island signifies, in many respects, the management issues that confront the Tongass National Forest itself. Both contain superlative scenic, wildlife and subsistence values. Both provide a resource base that is essential to the residents who live within, or close by, their boundaries. And both are the subject of difficult questions involving how to best use, manage and protect their valuable resources in a manner that is consistent with the purposes for which the monument and the national forest were established. The bill before us, Mr. President, would address one aspect of these management concerns by fostering a constructive long-term working relationship between the U.S. Forest Service, the Federal land manager of the monument and Kootznoowoo, Inc., the Alaska Native Village Corporation for Angoon.

H.R. 2596 is intended to put the management of the national monument on a track where the land use issues and concerns that have arisen between the Forest Service and Kootznoowoo can be resolved in a spirit of cooperation. It authorizes and directs the Secretary of Agriculture to negotiate with Kootznoowoo, pursuant to existing authority, for voluntary land acquisitions and management agreements that would consolidate the corporation's inholdings and incorporate into the monument some of Kootznoowoo's private lands that have high natural resource value.

Every reasonable effort should be made to complete these agreements within 18 months. Once finalized, the agreements should assist the corporation in making better use of its resources and help the Forest Service manage and protect monument values more effectively. While the nature of such agreements is not specified in this act, nor is any agreement made mandatory, the intent and desire of the Congress that agreements be reached is indicated by the requirement of a report to Congress on the results of these negotiations. In the meantime, Kootznoowoo should receive its conveyances under the Alaska Native Claims Settlement Act expeditiously.

Mr. President, the bill also provides for the consolidation of some of Kootznoowoo's land holdings and selections on Prince of Wales Island. The area involved is now subject to a Federal timber sale, and nothing in this legislation is intended to interfere with that legal obligation or the operations thereunder. Instead, H.R. 2596 requires the Secretary to consider for exchange with Kootznoowoo lands on Prince of Wales Island that are not committed by contract. Kootznoowoo already holds timberlands in this area; by acquiring nearby lands through exchange the corporation will be able to make the most efficient use of existing roads and log transfer facilities. Such a result not only assists Kootznoowoo, but should result in better management of Tongass timber resources.

Mr. President, section 5 of H.R. 2596 contains miscellaneous provisions that are of considerable importance to the people of Angoon. For example, it provides a legislative settlement to litigation between Kootznoowoo and the Forest Service over the ownership of the Angoon administrative site. It confirms U.S. ownership of a 4.68-acre parcel to be used by the Forest Service as an administrative site for the monument, with the remainder of the disputed 17.34-acre parcel to be conveyed to Kootznoowoo after its lawsuit has been withdrawn.

In addition, Mr. President, it changes the name of the "Admiralty Island National Monument Wilderness" to the "Kootznoowoo Wilderness." This change signifies the long history of the Tlingits on Admiralty Island. In Tlingit, "Kootznoowoo" means "fortress of the bears." By making this change, we will recognize both the remarkable population of brown bears found on Admiralty Island and the traditional heritage of the ancestral home of the people of Angoon.

I am pleased that this bill, related to the interests of Kootznoowoo and Angoon, will be passed by this Congress. Many of us have hoped to resolve more comprehensively the land tenure and resource development issues on Admiralty Island, and perhaps acquire other surface and subsurface interests there. These issues remain on the agenda for the future.

The PRESIDING OFFICER. The question is on the engrossment of the committee amendment and third reading of the bill.

The amendment was ordered to be engrossed, and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (H.R. 2596) was passed.

ACQUISITIONS AT THE WOMEN'S RIGHTS NATIONAL HISTORICAL PARK

The bill (H.R. 2952) to increase the amount authorized to be appropriated for acquisition at the Women's Rights National Historical Park, was considered, ordered to a third reading, read the third time, and passed.

Mr. BYRD. Mr. President, I ask unanimous consent that the motion to reconsider en bloc be laid on the table with reference to the aforementioned calendar orders.

The PRESIDING OFFICER. Without objection, it is so ordered.

APPOINTMENT OF CAMPAIGN FINANCE TASK FORCE

Mr. DOLE. Mr. President, as my colleagues are only too aware, the issue of campaign finance reform was before this body for a great deal of time earlier this year. Unfortunately, while there was interest on the part of a great many in putting into place some long overdue changes in our current system, we were unable to reach any consensus.

In large part, this lack of agreement is not difficult to understand given the tremendous difference of opinion between the two parties. One of those areas where this disagreement was evident was in the treatment of individual and PAC contributions. Republicans were and still are willing to try to bring campaign spending under control. But in opposing the aggregate spending caps proposed, we believe we lean in the direction of increasing the role of the individual contributor and decreasing the importance of PAC's.

Some suggested that in opposing aggregate spending limits, Republicans were acting as obstructionists—but thats not truth in advertising. Look at the record—S. 1672, introduced last year by the Senator from Kansas and 11 of his colleagues is an indication of our seriousness. In doing so, we presented our plan for real reform—not incumbent protection.

And that is really what this is all about Mr. President. Those in the majority have proposed so-called reform measures that will keep them here. Let us face facts and look at the numbers: The Democrats enjoy a majority in both the Senate and the House. It follows that an incumbent protection bill favors the Democrats.

This is one Republican who insists on a two-party system. I have worked to help broaden the party, the Republican Party. But the fact is, that we are out numbered in many parts of the country. In the South, for example, registered Democrats out number Republicans by a 4-to-1 margin, or more.

I ask my colleagues, how in the world are we supposed to compete—or even hope to get our message out—if we are not allowed to wage an aggressive, fair and square fight? I would ask to have included in the RECORD an article which appeared in last Sunday's New York Times. The article which is entitled "It's a House of the Same Representatives."

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. DOLE. Mr. President, the article describes in some detail the uphill fight Republicans have to wage—which is made that much worse by our current campaign financing laws.

However, we are not going to be able to resolve this issue this year. So, I have asked six of my colleagues, five of whom have served as chairman of the Republican Senatorial Campaign Committee, to work together as a task force and put together a suggested package of reforms that we can consider next year.

Senators STEVENS, PACKWOOD, LUGAR, HEINZ, BOSCHWITZ, have been chairmen or are chairmen, Senator BOSCHWITZ, chairman of the Senatorial Committee, and I have asked Senator MCCONNELL, who has been the leader on this side on campaign finance reform if he would chair this working group.

So I would say to my colleagues on both sides who are concerned about campaign finance reform, we are, too. We are willing to work with our colleagues maybe it can be bipartisan, nonpartisan, but reform is long overdue. And we believe that we can come to grips with this issue next year.

I yield for a comment to the Senator from Kentucky.

EXHIBIT 1

IT'S A HOUSE OF THE SAME REPRESENTATIVES—THE INCUMBENTS ALMOST ALWAYS WIN

(By David E. Rosenbaum)

WASHINGTON.—The Founding Fathers intended the House of Representatives to be the part of the Federal Government closest to the electorate and thus most responsive to shifts in political winds. Describing the function of the House under the Constitution, Alexander Hamilton declared: "Here, sir, the people govern. Here they act by their immediate representatives."

In the early years of the Republic, that was the case. But in the last generation, the House has become almost immune to change despite political upheavals elsewhere, through liberal and conservative Presidents, Democratic and Republican Senates.

This year, not only is the Presidency up for grabs, but possibly a dozen or more of the 33 Senate seats at stake in the November election will change hands. Twenty-seven Senators are running for re-election, and a half dozen are in very close races. Six Senators are retiring and a seventh seat will be vacated by the next Vice President. Yet in the House the Democrats are sure to stay in control, as they have been for the last 34 years, and the chamber's membership, its leadership and its committees will remain almost identical to what they are this year.

All but 24 of the 432 representatives (there are three vacancies) are running again, leaving even fewer open seats than the 40 or so that have been the rule in recent elections. About 70 incumbents are unopposed, and most of the rest are not threatened. Republicans and Democrats alike say they will be surprised if as many as a dozen incumbents lose in November.

A PERMANENT MINORITY

That will merely continue the trend of the last several decades. In 1986, 90 percent of the incumbents won. In more than seven-eighths of all House races in 1984 and 1986, the victor received more than 55 percent of the vote, the dividing line between what politicians consider competitive and one-sided elections.

"With so little turnover, you end up having a permanent majority party and a permanent minority party," said Thomas E. Mann, director of governmental studies at the Brookings Institution. "It would be healthy if periodically national political tides could sweep through the House and change party control."

Fred Wertheimer, president of Common Cause, a public affairs lobby, added: "When you eliminate competitive elections, you eliminate accountability from our representative system."

This year, some incumbents who might be expected to be vulnerable seem likely to win anyway. They include Representatives Roy P. Dyson of Maryland and Bill Chappell Jr. of Florida, both Democrats, whose dealings with military contractors are being examined in the Federal investigation of Pentagon procurement practices. They have weak, underfinanced opponents.

Even Representative Pat Swindall, a Georgia Republican, is an even bet for re-election, despite his embarrassing acknowledgment that he had negotiated an $850,000 personal loan after having been warned that the loan was part of a scheme to launder drug dealers' money.

The few other incumbent representatives who are in serious trouble this year mostly come from rare swing districts and have not been in Congress very long. An example is James McClure Clarke, a Democrat, whose district in western North Carolina has changed hands in every election in this decade.

Why does the Senate normally have much more turnover? Senators tend to be older and a larger proportion of them retire every two years when a third of the 100 seats are at stake. Candidates in statewide races get more free coverage and thus incumbency does not carry as big an advantage as in the House. Twenty-one incumbents and 13 freshmen were elected to the Senate in 1986, about average for the last 40 years. Six of the new senators filled seats of those who had retired; seven had defeated incumbents.

But House members are protected from competition in large part because, as the Dyson and Chappel cases illustrate, neither party is able to field top-notch candidates regularly to run against long odds and challenge incumbents. "Money is the first, second and third reason you have such lousy challengers," said Norman J. Ornstein, a specialist on Congress at the American Enterprise Institute.

Through last June, challengers running in this year's election had raised a total of $20 million; incumbents, $109 million. "They are able to get money because they are unlikely to lose, and they are unlikely to lose because they have so much money," David R. Mayhew, a professor of government at Yale, said of the incumbents.

In addition, many represenatives spend more time and resources acting as ombudsmen for their constituents than they spend on legislation, and that makes them popular at home. Lawmakers are generally in a favorable position, regardless of their voting records, if they have strong records of winning Federal contracts for their districts and intervening for constituents who have problems with Federal agencies.

The emphasis House members are placing on serving constituents can be seen in the way they organize their staffs. As recently as 15 years ago, fewer than one-quarter of representatives' staff members were based in their district offices. Today, more than 40 percent are, and many congressmen have larger staffs at home than they do in Washington.

The representatives are also taking greater advantage of their postage privileges. The cost to the Government of mail from the House of Representatives rose to $96 million in 1986 from $11 million in 1971. "I see challengers who spend months planning their direct-mail campaigns and raising the money for it," said Rich Galen, a spokesman for the National Republican Congressional Committee. "Congressmen have whole staffs that put out thousands of pieces of mail free every year."

ATTRACTIVE ALTERNATIVES

Robert D. McClure, a political scientists at Syracuse University who has recently completed a book, "Political Ambition," on why people do and do not run for Congress, said the problem of finding worthy challengers was heightened by the fact that state legislatures, as they become more professional operations, are not the farm system for Congress they once were.

The legislatures are no longer backwaters, he noted, and politicians can reach positions of authority in them rather quickly. The issues may not be of the magnitude of those in the Capitol, but lawmakers with a modest amount of seniority in the New York legislature can have more influence on policy than a backbencher in the House, where only a few senior members have real influence on matters like arms control and taxation.

"It requires a person of extraordinary foresight and enormous ambition to mount a challenge for a seat in Congress," Mr. McClure said. "Few people are like that."

Mr. McCONNELL. I thank the Republican leader. Just a couple of brief observations. There are a number of things that could and should be done that would benefit either side. We could lower the cost of television, and I have a bill to do that. Senator INOUYE had hearings on that subject. It is bipartisan support for that.

I think a lot of us think we ought to limit the influence, if not eliminate altogether the influence of political action committees. We could do that.

We ought to do something about the millionaire problem in politics and we ought to do something about the Presidential election system which has certainly been the disgrace out there in the country.

So I thank the leader for his expression of confidence and will look forward to reporting back to you prior to next year with the kind of package that, hopefully, both sides can agree to because we do not want to try to write the rules in a way that benefit the Republicans or Democrats. We need some real campaign finance reform that is across the board and will endeavor to do that, I think.

Mr. DOLE. I thank the Senator from Kentucky. One thing, from personal experience, we might want to review the operations of the Federal Elections Commission.

On a personal note, when I was a Presidential candidate, I dropped out in March and they are still working on my campaign and will be at work for another year. We are supposed to staff it and keep our campaign alive even though it died in the spring. It costs money to do that. Maybe we can even look into the FEC as to how we can streamline that.

Mr. McCONNELL. I might say, the Republican leader is lucky. I am not certain, but as of a couple months ago, Walter Mondale's campaign was not concluded.

Mr. DOLE. Maybe it is necessary. I do not want to quarrel about it since it involves this Senator. The Senator is right. Former Senator Mondale is still being reviewed by the FEC and others who have been out of the race for years.

My view is there ought to be some way they can bring this in because of the costs. In any event, that is another area we can get into.

RECONSIDERING MINIMUM WAGE

Mr. DOLE. Mr. President, I told the majority leader on yesterday that I intended to enter a motion to reconsider the cloture vote on minimum wage which the Senate held last Friday. The majority leader made the decision to recess indicating that it was not his wish to return to consideration of the minimum wage bill, having discussed that bill last week. It is the belief of this Senator that an opportunity to achieve a compromise on the minimum wage was lost by that action. We were open to proposals to modify the bill so we might achieve real bipartisan agreement but we were told that changes were out of the question.

The Senate never got to vote on the issue of a training wage. The Senate never got to vote on the modest raise in the minimum wage that could have achieved true bipartisan support.

As I indicated in my comments yesterday, I had hoped that we might at least maintain the ability to return to this issue by reconsidering the cloture vote.

The PRESIDING OFFICER. The Senator from Florida, Senator GRAHAM.

Mr. BYRD. Mr. President, will the distinguished Senator yield?

"SENATE BICENTENNIAL MINUTES"

Mr. BYRD. Mr. President, I send to the desk a concurrent resolution and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 146) to authorize the printing of Senator BOB DOLE's series of "Senate Bicentennial Minutes."

The PRESIDING OFFICER. Is there objection to the present consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

The PRESIDING OFFICER. If there be no further debate, the question is on agreement to the concurrent resolution.

The concurrent resolution (S. Con. Res. 146) was agreed to, as follows:

Whereas the Senate of the United States in 1989 will commemorate its two hundredth anniversary; and

Whereas the Senate has determined that the series of "Senate Bicentennial Minutes", which Senator Bob Dole began on January 6, 1987, is worthy of separate publication and wide distribution: Now therefore, be it

Resolved by the Senate (the House of Representatives concurring), That there be printed as a Senate document "The United States Senate Historical Almanac" by Senator Bob Dole to be published under the supervision of the Secretary of the Senate with the editorial assistance of the Senate Historical Office.

SEC. 2. Such document shall include illustrations, and shall be in such style, form, manner, and binding as directed by the Joint Committee on Printing after consultation with the Secretary of the Senate.

SEC. 3. In addition to the usual number of copies, there shall be printed with suitable binding 5,000 additional copies, for use by the Secretary of the Senate.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the concurrent resolution was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BYRD. I thank the distinguished Senator.

Mr. DOLE. I thank the majority leader.

The PRESIDING OFFICER. The Senator from Florida.

(The remarks of Mr. GRAHAM pertaining to the introduction of legislation appear in today's RECORD under Statements on Introduced Bills and Joint Resolutions.)

The PRESIDING OFFICER. The Senator from Alaska.

GIRL SCOUTS OF AMERICA "FIGHT DRUGS" INITIATIVE

Mr. STEVENS. Mr. President, today Senators KASSEBAUM and MIKULSKI joined me for a luncheon meeting with the Girl Scouts of America to learn about its new "Fight Drugs" initiative. Today the Girl Scouts kicked off this program which is targeted at girls 5 to 11 years old and is designed to prevent substance abuse.

I might say that there is a copy of this program in the office of every Member of Congress tonight and each Governor of the 50 States and it has been sent to the leader of every one of the Brownie Scout troops in the country.

Girl Scouts of the USA, with more than 3 million members, is in a unique position to mobilize American young people in the war on drugs. Because one in four girls ages 6 to 8 is currently a Girl Scout, "Fight Drugs" is expected to have a nationwide impact.

"Fight Drugs" activities will help girls establish a support network of peers and adults. Each time a girl completes a "Fight Drugs" learning activity, she will receive a "Fight Drugs" sticker. Each time she shares what she has learned with a family member or friend, she will give that person two stickers—one to keep and one to share. I have one on me today. This learning network, symbolized by "Fight Drugs" stickers, is central to the Girl Scouts' war on drug abuse.

The campaign was initiated by Girl Scout National President Betty F. Pilsbury, who served as a 1988 Presidential appointee to the White House Conference for a Drug Free America. I want to commend Mrs. Pilsbury and the Girl Scouts for their efforts to fight what I believe is one of the most critical problems facing our Nation today. Mr. John Coleman has worked with Mrs. Pilsbury on this initiative.

Although the Federal Government must play an active role in the war against drugs, Government action alone will not achieve our goal of a drug-free America. It will only be through a partnership of Federal, State, and local government in unison with the private sector and the nonprofit institutions of this country that can win this war.

The Girl Scouts began substance abuse education activities in 1985 with the publication "Tune Into Well-Being, Say 'No' to Drugs." They really started the "Say no" concept, I think. Since then Girl Scout Councils have implemented successful drug education projects designed to build self-esteem, decisionmaking skills, and teach the facts about drug abuse. Today they begin yet another initiative. As a father of three girls, one of whom is just about Brownie age, I am delighted to join my colleagues in commending this effort.

Mr. President, I ask unanimous consent that the press release announcing this new program be printed in the RECORD. I also ask unanimous consent that the Girl Scout Promise and the Girl Scout Law be printed in the RECORD as a reminder of the traditional values upon which this Nation was built. As Senator MIKULSKI, a former Scout, said today, "If the Girl Scout Promise and the Girl Scout Law were good enough for me as a Girl Scout, then they are good enough for me as a United States Senator."

There being no objection, the material was ordered to be printed in the RECORD, as follows:

GIRL SCOUTS TAKE THE LEAD IN FIGHTING DRUGS

More than three million Girl Scouts nationwide are joining forces in a campaign to fight drugs. The Fight Drugs campaign was initiated by Girl Scout National President Betty F. Pilsbury who was a Presidential appointee to the White House Conference for a Drug Free America. Fight Drugs focuses on mobilizing Daisy and Brownie Girl Scouts, ages 5 to 8, to take the lead among their peers in the war against drugs.

"One of the best ways to learn something is to teach someone else. When girls, even as young as Daisy and Brownie Girl Scouts, announce that they are going to participate in "Fight Drugs" and they ask their friends to join them, they become effective warriors in the battle," says Mrs. Pilsbury.

Girl Scouts began drug education activities in 1985 with the publication of Tune Into Well-Being, Say "No" to Drugs. Since then, Girl Scout councils have successfully implemented drug education projects designed to build self-esteem, develop decision-making skills and teach the facts about drug use.

"We Girl Scouts have earned high recognition and fine credibility. Who is better equipped to spread an anti-drug warning? Now we will mobilize all our members to fight drugs in the broader community," says Mrs. Pilsbury.

Fight Drugs is expected to have a widespread impact on children nationwide, since one of every four girls ages 6 to 8 is a Brownie Girl Scout. Daisy and Brownie Girl Scouts will be talking with their friends, schoolmates and neighbors about the dangers of drugs. Children who join the Girl Scouts in Fight Drugs will receive an official Fight Drugs sticker from their Girl Scout friends.

On September 28, Mrs. Pilsbury will kick-off the Fight Drugs initiative at a luncheon in Washington, DC. Senator Ted Stevens (R-AK) is hosting the luncheon for members of the United States House and Senate. That same day, Girl Scouts will deliver Fight Drugs messages to every United States Representative and Senator.

GSUSA is the world's largest voluntary organization for girls. Headquarters are in New York City.

THE GIRL SCOUT PROMISE

On my honor, I will try:
To serve God and my country,
To help people at all times,
And to live by the Girl Scout Law.

THE GIRL SCOUT LAW

I will do my best:
to be honest
to be fair
to help where I am needed
to be cheerful
to be friendly and considerate
to be a sister to every Girl Scout
to respect authority
to use resources wisely
to protect and improve the world around me
to show respect for myself and others through my words and actions.

ORDERS FOR THURSDAY

RECESS UNTIL 11 A.M.

Mr. BYRD. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in recess until the hour of 11 a.m. tomorrow morning.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. BYRD. Mr. President, I ask unanimous consent that on tomorrow, after the two leaders have been recognized under the standing order, there be a period for morning business not to extend beyond the hour of 11:30 a.m. and that Senators may speak during that period for not to exceed 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS UNTIL 11 A.M. TOMORROW

Mr. BYRD. Mr. President, if there be no further business to come before the Senate, I move in accordance with the order previously entered that the Senate stand in recess until the hour of 11 o'clock a.m. tomorrow.

The motion was agreed to, and the Senate, at 7:02 p.m., recessed until Thursday, September 29, 1988, at 11 a.m.

NOMINATIONS

Executive nominations received by the Senate September 28, 1988:

IN THE COAST GUARD

THE FOLLOWING REGULAR OFFICERS OF THE U.S. COAST GUARD FOR PROMOTION TO THE GRADE OF CAPTAIN:

LAWRENCE F. COX, JR.
FRANCIS J. AUBE
RICHARD J. ASARO
ARTHUR W. MCGRATH, JR.
ALEXANDER T. POLASKY
JOHN A. BASTEK
LEIGHTON T. ANDERSON
JOHN R. TAYLOR
DENNIS L. BRYANT
JAMES T. PASKEWICH
WILLIAM R. JOHANEK
THEODORE J. SAMPSON
RONALD S. MATTHEW
EDMUND I. KILEY
JAMES T. DOHERTY, JR.
JOHN F. STUMPFF
JAMES L. HESTED
EDWARD C. KARNIS
GEORGE H. MERCIER
JAMES A. SMITH
JUAN T. SALAS
THOMAS E. THOMPSON
RONALD L. EDMISTON
RICHARD R. CLARK
ARTHUR F. SHIRES
KEVIN V. FEENEY
WILLIAM J. THEROUX
ROBERT E. GRONBERG
ROGER D. MOWERY
JACK W. SCARBOROUGH
RICHARD L. CASHDOLLAR

JOHN R. AITKEN

HOUSE OF REPRESENTATIVES—*Wednesday, September 28, 1988*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Help us to be worthy, O God, of the heritage given to us, for the marks of history and liberty for which we are custodians. May we be rightful survivors of those whose vision and noble purpose gave us the good opportunities in this new land. We pray, O God, that we will be so filled with the works of justice in our time and place that every person who follows will enjoy the fruits of our diligence and faithfulness. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Michigan [Mr. PURSELL] be kind enough to lead us in the Pledge of Allegiance to the Flag.

Mr. PURSELL. Let us stand and face the flag.

Mr. PURSELL led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation, under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate has passed without amendment a bill and a concurrent resolution of the House of the following titles:

H.R. 4457. An act to create a national park at Natchez, MS; and

H. Con. Res. 357. Concurrent resolution expressing the sense of the Congress that the historic restoration and commercial development of a self sustaining Union Station will provide enormous historic and social benefit to the District of Columbia and to all the Nation as a great transportation center, a grand and magnificent monument to American architecture, and a model commercial development.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4782) "An act making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1989, and for other purposes."

The message also announced that the Senate agrees to the amendments of the House to the amendments of the Senate numbered 1, 4, 7, 8, 9, 10, 12, 13, 16, 17, 18, 20, 21, 29, 31, 32, 33, 34, 36, 38, 39, 42, 43, 44, 46, 47, 48, 49, 50, 51, 60, 62, 69, 78, 85, 87, 88, 91, 92, 93, 96, 99, 107, 109, 112, 116, 117, 118, 119, 120, 121, 131, 133, 136, 139, 140, 141, 142, 143, 145, 146, 147, 149, 151, 154, 156, 158, 160, 163, 164, 168, 170, 171, 174, 176, and 177 to the above-entitled bill.

MILITARY EDUCATION

(Mr. SKELTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SKELTON. Mr. Speaker, since last November the House Armed Services Committee panel on military education has been reviewing, for the first time in the history of the Congress, how the services and Department of Defense educate professional military officers. Late last year I outlined in five speeches on the floor of this House my concern for the lack of competent military strategists and proposed that we study this issue and formulate solutions. The panel has that charge.

We also undertook a review of how the education provisions of the Goldwater-Nichols Act are being implemented to develop officers competent in the employment of joint military forces.

The panel is nearing completion of its study. We have held 28 hearings both here in Washington and at each of the 10 war colleges and command and staff colleges throughout the United States. Forty-eight current and retired military leaders and civilian officials of the Defense Department and well-known educators and defense experts have testified. The panel, as well, conducted nearly 100 interviews.

Panel members visited professional military educational facilities comparable to our own in Great Britain, France, and West Germany. We came away with many new ideas and concerns that have been very helpful.

Mr. Speaker, on November 18 our panel will release the findings and recommendations concerning the professional military education for our armed services.

DEFENSE DOLLARS COULD BE BETTER SPENT

(Mr. BEVILL asked and was given permission to address the House for 1 minute and to revise and extend his remark.)

Mr. BEVILL. Mr. Speaker, during the debate Sunday night, I was very surprised to hear GEROGE BUSH say that he would save defense dollars by canceling three weapon systems which, in fact, have all been canceled for quite some time.

He named the A-6F Navy attack aircraft, the Divad air defense system and the penetration aids for Minuteman missiles.

I would like to point out that Congress had to pressure the Reagan-Bush administration to cancel the Divad after the administration wasted $4 billion on it.

The Divad was a tracking gun which was supposed to search out enemy helicopters.

To my knowledge, the only thing the Divad spotted on the test range was the exhaust fan on an outhouse.

It seems to me that our defense dollars could be better spent. For one thing, the Pentagon could improve health care for our military personnel. National public radio recently reported that the military is losing more and more doctors because of inadequate facilities.

Instead of wasting the taxpayer's money on fraudulent defense contractors who jack up their prices and deliver weapon systems that don't work, the White House ought to put a priority on the people who have to defend our Nation. They need adequate facilities, adequate health care and weapons that will work.

I believe Governor Dukakis and LLOYD BENTSEN will give the taxpayers a full return on their investment in America's defense.

DAN QUAYLE DOES NOT SHARE CONCERNS OF WOMEN IN AMERICA

(Mr. FAZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FAZIO. Mr. Speaker, when GEORGE BUSH picked DAN QUAYLE to be his running mate, it was widely speculated that Senator QUAYLE was chosen to attract the women's vote, which for good reason has alluded GEORGE BUSH.

☐ This symbol represents the time of day during the House proceedings, e.g., ☐ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

But anyone who looks at Dan Quayle's record knows that he does not share the concerns of the majority of women in America. Throughout his congressional career Dan Quayle has not been a friend to women; he has consistently voted against their interests.

Dan Quayle has repeatedly voted to deny women the right to choose whether or not to have an abortion. He wants to take a decision which is very personal and private and make a Federal case out of it.

Dan Quayle voted against setting up a program for victims of domestic violence. He apparently does not think victims of domestic violence need assistance.

Dan Quayle opposed the Civil Rights Restoration Act which we enacted after the Grove City decision. Does he not believe women deserve equal protection under the law?

Dan Quayle also voted against funding for services to rape victims. If a rape victim is not deserving of special attention, who is?

We need a President who understands that there is a severe shortage of adequate child care services and that women still earn significantly less than men performing similar jobs. We need a strong President and Vice President who will work for the interests of women and not against them. Clearly the Bush-Quayle ticket does not measure up.

AUTHORIZING SECRETARY OF THE SENATE TO MAKE CORRECTION IN ENROLLEMENT OF SENATE JOINT RESOLUTION 317 COMMEMORATING BICENTENNIAL OF THE FRENCH REVOLUTION

Mr. FASCELL. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate concurrent resolution (S. Con. Res. 144) authorizing the Secretary of the Senate to make corrections in the enrollment of the Senate joint resolution (S.J. Res. 317) commemorating the bicentennial of the French Revolution and the Declaration of the Rights of Man and of the Citizen, and ask for its immediate consideration.

The Clerk read the title of the Senate concurrent resolution.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

Mr. WALKER. Reserving the right to object, Mr. Speaker, I would like to find out just what it is we are doing here. As the gentleman well knows, this gentleman is vitally concerned about the fact that there is certain major legislation that evidently we cannot get scheduled on this floor, and yet it seems as though we can bring items up by unanimous consent and move them through on things that are of lesser importance than, for instance, doing something about clean air.

I would like to understand what the gentleman is attempting to achieve here.

Mr. FASCELL. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Florida.

Mr. FASCELL. Evidently, Mr. Speaker, there was an error in the enrollment on this matter with regard to the French Revolution Declaration that the Senate had some problems with; so they passed a technical correction resolution and we are just trying to extend the comity to make the correction.

Mr. WALKER. Can the gentleman tell me what the effect of the resolution asking for the technical correction will be?

Mr. FASCELL. It will allow us to go forward with the commemorative ceremony that is scheduled for tomorrow by a high distinguished visitor from our friend who is French, and it allows us to go forward with the printing of the commemorative program. Otherwise, we would look rather foolish.

Mr. WALKER. I certainly understand what the gentleman is trying to achieve.

Mr. FASCELL. We are not taking much time with this.

Mr. WALKER. I want to be reasonable about this. If I understand correctly, there is no real legislative movement here.

Mr. FASCELL. None.

Mr. WALKER. All we are doing is simply making a technical correction. We are not getting any kind of legislative agenda moved forward as a result of this action?

Mr. FASCELL. The gentleman is absolutely correct.

Mr. WALKER. Mr. Speaker, my intent here is to make certain that we do not move legislation on this floor until we move on clean air.

Therefore, Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Florida [Mr. Fascell]?

There was no objection.

The Clerk read the Senate concurrent resolution, as follows:

S. Con. Res. 144

Resolved by the Senate (the House of Representatives concurring), That in the enrollment of the joint resolution (S.J. Res. 317) commemorating the bicentennial of the French Revolution and the Declaration of the Rights of Man and of the Citizen, the Secretary of the Senate shall make the following correction:

Strike out subsection (c) and insert in lieu thereof:

"(c)(1) There shall be printed as a Senate document during the bicentennial year 1989 the Declaration of the Rights of Man and of the Citizen, and the Bill of Rights, with accompanying historical notes.

"(2) Bound volumes suitable for presentation to the President of the French Republic, the President of the Senate of France, and the President of the National Assembly of France.".

The SPEAKER. The question is on the Senate concurrent resolution.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 4781, DEPARTMENT OF DEFENSE APPROPRIATIONS, 1989

Mr. FAZIO. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight, September 28, 1988, to file a conference report on the bill (H.R. 4781) making appropriations for the Department of Defense for the fiscal year ending September 30, 1989.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. WALKER. Reserving the right to object, Mr. Speaker, let me understand what the gentleman is doing. I yield to the gentleman from California for an explanation.

Mr. FAZIO. We are simply attempting, Mr. Speaker, to get unanimous consent so we can file a conference report for the defense appropriations bill.

Mr. WALKER. By midnight tonight?

Mr. FAZIO. That is correct.

Mr. WALKER. If this were objected to, what would the result be?

Mr. FAZIO. It would simply slow our process down and make it more difficult for us all to gain that goal we have been seeking, which is to get all our appropriation bills to the President by the end of the fiscal year.

Mr. WALKER. The gentleman could get a rule, however, for this particular action, rather than a midnight filing, is that right?

Mr. FAZIO. We certainly would not want to reduce the availability of the report to Members. This certainly is a service to those Members who wish to review what is a very extensive report.

Mr. WALKER. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from California [Mr. Fazio]?

There was no objection.

INTRODUCTION OF THE CIVIL RIGHTS ENFORCEMENT ACT OF 1988

(Mr. COURTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COURTER. Mr. Speaker, this week I introduced the Civil Rights Enforcement Act of 1988. This is one of the most important civil rights measures Congress has been asked to consider in years.

It has always been surprising to me to realize that despite the antidiscrimination laws we have passed in modern times, individuals who were victims of racial discrimination never had a right in positive law to sue for damages. It took the Supreme Court to create such a right, 13 years ago in a case called Runyon versus McCrary. The legislative history supporting the Court's decision unfortunately was never very persuasive, and judges expressed doubts about Congress' intention. And so the new Court majority has announced that it is reconsidering that decision. They may even reverse it.

The Civil Rights Enforcement Act seeks to fill the gap in our system of civil rights protection by guaranteeing that individuals who have been the victims of wilful discrimination on racial grounds have the right to collect damages in education, in employment, in every area of our society involving the making of contracts. It is time for Congress to give the Supreme Court guidance in this area before the Court decides to overturn an essential guarantee against race discrimination, and I urge my colleagues to contact my office and cosponsor this bill.

PROBLEMS OF FINANCING NEW SEWER TREATMENT CENTER IN SAN DIEGO, CA

(Mr. BATES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BATES. Mr. Speaker, San Diego, like other major cities in this country, faces many problems, but one that may cost San Diegoans $1.5 billion to $2.4 billion is the financing of a new sewer treatment center and upgrading to secondary treatment.

The Clean Water Act is mandating this compliance, and while it took San Diego 7 years to get an answer on a waiver from the EPA, they now are in a position where they must move forward. They have agreed to do that, but I think the Congress should assist while the grants are being phased out.

I think a 55-percent Federal support would be fair in helping San Diego meet this requirement. I urge my colleagues to support this legislation.

REPUBLICANS OUT OF TOUCH ON MINIMUM WAGE

(Mr. WILLIAMS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILLIAMS. Mr. Speaker, 80 percent of the American people believe that this Congress, this administration, should raise the minimum wage. We had a bill to give 40 cents, four dimes of increase, in the minimum wage to current workers and to those who would be taking a job at minimum wage. Republicans have defeated that bill.

GEORGE BUSH and DAN QUAYLE are against that raise in the minimum wage, even though 80 percent of the American people see the value in it.

A father with two children going to work everyday, never missing a shift, but working at the minimum wage, now makes less than a third of the poverty level; yet the Republicans have killed an increase in the minimum wage bill, and GEORGE BUSH and DAN QUAYLE are also against it.

Today the minimum wage has slipped to less than 40 percent of the average hourly wage in this country. That is the worst it has been since Harry Truman was President, yet the Republicans have killed the minimum wage bill, and GEORGE BUSH and DAN QUAYLE applauded the killing of the minimum wage bill.

Millions of working Americans, working every day, make the minimum wage and they are still in poverty. By increasing the minimum wage just four dimes, just 40 cents, we can pull hundreds of thousands of Americans out of poverty. The Republicans are against it, and so is GEORGE BUSH and so is DAN QUAYLE, and now the bill has been defeated.

□ 1015

DEFEAT OF THE MINIMUM WAGE BILL

(Mrs. COLLINS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. COLLINS. Mr. Speaker, one thing is almost as certain as death and taxes: that the cost of almost everything will gradually rise. Many workers are fortunate enough to have jobs that include regular salary adjustments to help compensate for the rising costs of food, housing, clothing, and most other consumer goods. However, one segment of the American work force does not have this cushion: I speak, of course, of persons who work for the minimum wage. Today, a person who works full-time at the minimum wage, 52 weeks a year—without a vacation—cannot even keep a family of two above the poverty line.

The chances for addressing this economic injustice in the 100th Congress were effectively killed when the Senate failed on two attempts to close off debate and call for a vote on a minimum wage proposal that would have gone a long way toward helping these workers keep pace with the rising cost of living. Don't these Americans deserve our help as much as persons in El Salvador and Pakistan? Shouldn't their plight be as much of a priority as funding an illusory space defense system? I think so. It is a sad indictment of this Congress that too many of our Republican colleagues have no understanding and even less compassion for the plight of those who are working desperately to sustain themselves and their families on meager incomes.

The events in the Senate are even more distressing because the Vice President, in his quest for the White House, had expressed something only approximating support for an increase in the minimum wage. I was hopeful that this less-than-lukewarm endorsement would be the impetus necessary to carry the proposal forward. This issue will not go away; with the passage of each legislative session, minimum-wage earners are falling farther and farther behind in their quest to keep pace with rising costs.

I hope my colleagues will pledge their support for an increase in the minimum wage in the 101st Congress.

MOTION TO DISCHARGE COMMITTEE ON ARMED SERVICES FROM FURTHER CONSIDERATION OF H.R. 4264, NATIONAL DEFENSE AUTHORIZATION ACT, FISCAL YEAR 1989

Mr. WALKER. Mr. Speaker, I offer a privileged motion.

The SPEAKER. The Clerk will report the motion.

The Clerk read as follows:

Mr. WALKER moves to discharge the Committee on Armed Services from further consideration of H.R. 4264.

MOTION TO TABLE OFFERED BY MR. MOAKLEY

Mr. MOAKLEY. Mr. Speaker, I offer a motion.

The SPEAKER. The Clerk will report the motion.

The Clerk read as follows:

Mr. MOAKLEY moves to lay on the table the motion to discharge.

The SPEAKER. The question is on the motion offered by the gentleman from Massachusetts [Mr. MOAKLEY] to lay on the table the motion offered by the gentleman from Pennsylvania [Mr. WALKER].

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. WALKER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 237, nays 168, not voting 26, as follows:

□ 1036

Mr. COBLE and Mrs. JOHNSON of Connecticut changed their vote from "yea" to "nay."

So the motion to lay the motion on the table was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair desires to announce that we will postpone 1-minute speeches until we have transacted some business.

APPOINTMENT OF CONFEREES ON H.R. 4481, DEFENSE SAVINGS ACT OF 1988

Mr. ASPIN. Mr. Speaker, pursuant to clause 1 of rule XX, and by direction of the Committee on Armed Services, I move to take from the Speaker's table the bill (H.R. 4481) to provide for the closing and realigning of certain military installations during a certain period with Senate amendments thereto, disagree to the Senate amendments, and agree to the conference asked by the Senate.

Mr. SPEAKER. The question is on the motion offered by the gentleman from Wisconsin [Mr. ASPIN].

The motion was agreed to.

The SPEAKER. The Chair appoints the following conferees; Messrs. ASPIN, FOLEY, and DICKINSON.

WAIVING CERTAIN POINTS OF ORDER AGAINST CERTAIN CONFERENCE REPORTS ON GENERAL APPROPRIATION BILLS FOR FISCAL YEAR 1989 AND PROVIDING FOR CONSIDERATION OF A JOINT RESOLUTION

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 548 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 548

Resolved, That upon the adoption of this resolution it shall be in order to consider at any time conference reports on general appropriation bills for fiscal year 1989, and all points of order against consideration of the conference reports for failure to comply with the provisions of clause 2 of rule XXVIII are hereby waived, subject to the two hour availability requirements of that clause. The conference reports and amendments in disagreement shall be considered as having been read when called up for consideration.

SEC. 2. Upon adoption of this resolution it shall be in order to consider in the House a joint resolution consisting of the text printed in the report of the Committee on Rules accompanying this resolution, if offered by the Majority Leader, or his designee. The joint resolution shall be debatable for not to exceed one hour, to be equally divided and controlled by the proponent and a Member opposed thereto, and the previous question shall be considered as ordered to final passage without intervening motion except one motion to commit.

SEC. 3. H. Res. 314, 316, 333, 342, and 523 are hereby laid on the table.

The SPEAKER. The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Missouri [Mr. TAYLOR], pending which I yield myself such time as I may use.

Mr. Speaker, House Resolution 548 waives clause 2 of rule 28 against the consideration of the remaining conference reports on general appropriations bills for fiscal year 1989, subject to the 2-hour availability requirements of that clause. Clause 2 of rule 28 Mr. Speaker, is the rule that requires that all conference reports and accompanying statements are to be printed in the

CONGRESSIONAL RECORD for at least 3 days prior to their consideration.

The rule further provides that the conference reports and any amendments in disagreement are to be considered as having been read when called up for consideration.

The rule also provides for the consideration of a joint resolution printed in the report accompanying this rule if offered by the majority leader or his designee. This joint resolution would allow for the hand enrollment of the appropriations bills in order for the House to finish action on all remaining appropriations bills before the October 1 deadline. The joint resolution will be debatable for 1 hour with 30 minutes to the proponent and 30 minutes to a Member opposed thereto. The rule provides for one motion to recommit the joint resolution.

Finally, Mr. Speaker, the rule provides that several rules that were previously reported from the Rules Committee are to be laid on the table. These rules are for legislation that the House is not anticipated to take any action on for the remaining time that is left in the session. For my colleagues information the rules are House Resolutions 314, 316, 333, 342, and 523.

Mr. Speaker, all of us are aware that the beginning of the new fiscal year is almost upon us. This resolution allows for the House to expedite the remaining appropriation bills in order that we may hopefully avoid the need for a continuing resolution. I urge my colleagues to support the resolution.

Mr. TAYLOR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 548 is a rule which will enable the House to meet its obligation by sending all 13 appropriation bills to the President by October 1.

I strongly support this rule because it sets the stage for historic change in the way the Congress has operated since 1948. It has been 40 years since Congress enacted the individual appropriation bills into law before the fiscal year began.

Mr. Speaker, this rule waives the provisions of clause 2, rule XXVIII against consideration of conference reports on the four remaining appropriation bills. Clause 2 of rule XXVIII requires conference reports to be printed in the RECORD and to be available to Members for 3 days prior to consideration in the House.

The provisions of this rule apply to the four conference reports and amendments in disagreement on the four bills. The four bills are:

H.R. 4781, Department of Defense appropriations;

H.R. 4784, Rural Development and Agriculture appropriations;

H.R. 4776, District of Columbia appropriations; and

H.R. 4587, legislative branch appropriations.

In addition, the rule provides that the four conference reports and the amendments reported in disagreement will be considered as having been read when called up for consideration.

Because of the time constraints involved in enrollment after the bill's passage by the House and Senate, this rule provides an enrollment for these reports rather than the customary printed enrollment.

Mr. Speaker, under the provisions of this rule the four conference reports will be subject to the 2-hour availability requirements of rule XXVIII. This rule guarantees that Members will have an ample amount of time to review the conference reports when they are filed before we take final action in the House.

Some may argue that the 3-day layover requirements should be adhered to religiously because we are appropriating huge sums of taxpayers funds and because we cannot change a conference agreement. Some honestly believe we should delay final consideration until the past possible minute.

□ 1045

The major problem with that line of reasoning in my opinion is the calendar and the President's often stated pledge to veto any resolution that continues appropriations until fiscal year 1989.

We all remember the President's State of the Union Address last January. Most of us applauded his pledge to veto an omnibus appropriations bill. This is the week we find out if we have the ability and the courage to do our job.

Mr. Speaker, the new fiscal year begins at midnight Friday. There is simply not enough time for the Committee on Appropriations conferees to reach agreement with the Senate on the four remaining bills, file conference agreements, wait the required days and still send them to the President's desk by October 1.

After 16 years as a Representative from Missouri, my service in the Congress is drawing to a close. In each and every 1 of those 16 years, the budget and appropriation process has prevented us from being able to consider and vote on each of the individual appropriations conference reports.

For 8 years President Reagan has been trying to get Congress to produce all 13 regular appropriation bills on time rather than lump them into a single measure.

During my 16 years and during my 8 years as a member of the Committee on Rules I have often seen the distinguished gentleman from Mississippi [Mr. WHITTEN], the chairman of the Committee on Appropriations, and the ranking member, the gentleman from Massachusetts [Mr. CONTE], work together to produce appropriations bill in a timely fashion.

They both have been steadfast in their loyalty to the House, they both have been good shephreds of funds they appropriate, they both have been supportive of following the Rules of the House and for proper process being followed in the House.

Unfortunately, the gentleman from Mississippi and the gentleman from Massachusetts are not always able to control every single event that surrounds the appropriations process. Unfortuntely, the two gentlemen do not always have enough impact on the Senate, the various executive agencies, as well as Members who use the regular appropriations bills for other purposes.

The gentleman from Mississippi [Mr. WHITTEN], deserves a large measure of credit for the way in which he managed his committee during the past year. The chairman's efforts along with those of the Republican leadership have brought us to this stage. After 8 years of exercising his authority, President Reagan is about to receive something the country deserves and that is the 13 separate individual appropriation bills.

The President's leadership in helping Congress understand the need for proper procedure will be one of his lasting contributions to our Government.

Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts [Mr. CONTE], the ranking member of the Committee on Appropriations.

Mr. CONTE. Mr. Speaker, I rise in support of this rule.

I'm supporting this rule because we are at the end of a long marathon—a marathon that began with 30 days of negotiations last fall and that produced the budget summit agreement. Since then, we passed the regular appropriation bills in record time. Five bills are already law. Another will be signed today. Three more are on the way to the President's desk, and the rest are near the end of the process.

This rule will help expedite that process, and for that reason I support it.

But I also appreciate the underlying motivation for presenting this rule in the first place. Earlier this week, the gentleman from Pennsylvania made an important statement about a pressing environmental problem that remains on the back burner of the House legislative calendar. Congressman WALKER has expressed what I have been advocating for years: we need acid rain control program—now. The damage is mounting every day we wait. Our lakes and streams are dying and dead; our forests are severely damaged, and human health is threatened by this silent killer.

Acid rain is hitting my region, and it's hitting hard. In Massachusetts over 200 lakes and streams are already dead. They're gone, with no aquatic life left. In the Quabbin Reservoir, for example, the water is so acidic the fish stocking was halted, and the city of Boston is forced to spend $1 million a year to make the water drinkable. And the reason is clear. A recent study documented that the rain falling in Massachusetts was the most acidic in the Nation. It's a disgrace, and this Congress has an obligation to take some positive action.

Over the years, it's been an uphill fight to convince Members of Congress, the administration, and others that acid rain is a problem. But the endless studies and visible damage have documented a problem which demands a strong national solution. And we've seen some progress. Several independent acknowledgments of the problem are encouraged and should not be dismissed.

The Governor of Ohio—the largest polluting State and the Governor of New York—the largest receptor State agree that acid rain must be controlled. That's encouráging.

The President, an opponent of controls for many years, is negotiating an emissions reduction treaty with Canada, and that's encouraging.

This week, Senate leaders on this issue have reached a tentative agreement on a control program, and that's certainly encouraging.

But I'm discouraged—as many Members of this House are—that no significant action has taken place in this body to address the problem of acid rain.

The Energy and Commerce Committee is a graveyard for clean air legislation, and it's time that the House is given an opportunity to address this issue. Just give us a vote, that's all we're asking.

The foot dragging must stop. The excuses are old, and we owe it to the Nation, to the next generation to deal with this scourge before it's too late. I sincerely hope that the House is given a chance to consider acid rain legislation in this Congress.

Again, Mr. Speaker, I support this rule, but I urge the leadership to make time for consideration of acid rain bill.

We can't afford the delay. The price is just too high.

Mr. GREGG. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to my good friend, the Governor of New Hampshire.

Mr. GREGG. I am still working on it.

I thank my good friend from Massachusetts for yielding.

Mr. Speaker, I want to congratulate the gentleman on his statement which is appropriate and timely. The fact is that the Senate has begun to move on the issue of acid rain legislation. It is only the House of Representatives which stands in the way of this critical environmental concern. We know, we know now beyond any doubt that acid rain is not only having a massive negative impact on New England and New York, but it is significantly impacting our ozone layer and impacting and affecting and causing a greenhouse effect, which may in the long term not be reversible.

This is not an issue upon which we can any longer dilly-dally. We have to take action.

The fact that the gentleman from Massachusetts [Mr. CONTE] has spoken so eloquently on this is to be congratulated and I certainly hope his words will be listened to by the committees of jurisdiction.

Mr. CONTE. I think the gentleman from New Hampshire will make a darned good Governor with that kind of a stand.

Mr. GREGG. I thank the gentleman.

Mr. TAYLOR. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. I thank the gentleman for yielding.

Let me begin by thanking the gentleman from Massachusetts for his statement and for his support of the effort here on the floor to make certain we get acid rain legislation out here for consideration.

I think he made the points most eloquently of why that has to be done and why there are a number of things that would otherwise be done by unanimous consent that should be delayed until we are assured we are going to get acid rain out here on the floor for a vote. There is no need for this House to be proceeding on lesser items while we are refusing to act on important items like acid rain.

What we now know is that we can move ahead with important items.

The rule we now have before us in an indication that instead of proceeding by unanimous consent we can go to the Rules Committee, we can get a rule, we can bring it down here and we can take up matters of importance. That is how we ought to proceed.

We ought not be doing things by unanimous consent here in the latter days of the session, particularly if we are not going to act on the acid rain legislation.

So I happen to support this rule. But the one thing I do want to check with the gentleman from Missouri [Mr. TAYLOR] or the gentleman from Massachusetts [Mr. MOAKLEY] about: As I understand it, the only thing we are waiving in this rule with regard to points of order is on the 3-day rule, is that correct?

Mr. TAYLOR. That is true.

Mr. MOAKLEY. We are waiving that and we are waiving the hand enrollment by the Speaker or his designee and five rules that are inoperable. We still have the 2-hour rule before the——

Mr. WALKER. With regard to the appropriation bills that will come before us, we would have hand enrollment by the Speaker instead of parchment?

Mr. MOAKLEY. That is correct.

Mr. WALKER. But in terms of points of order that can be raised on those bills, the only thing we are waiving is the 3-day rule?

Mr. MOAKLEY. The gentleman is correct.

Mr. WALKER. It seems to me that is exactly the way that we ought to proceed in the last days of the session.

Again, I say to the gentleman from Massachusetts I appreciate what he said, because he eloquently summed up the need for this Congress to act on acid rain before we leave here. If we have not acted on acid rain, we have not done our job.

Mr. TAYLOR. Mr. Speaker, behold how good and how pleasant it is for brethren to dwell together in unity.

Mr. Speaker, I would just like once again to express my appreciation to you and to your leadership in moving these appropriations bills along. The Members on our side have been working toward this day for as long as I can remember, and I am grateful that the Speaker has been able to exercise his powers of persuasion.

The gentleman from Mississippi [Mr. WHITTEN], chairman of the Committee on Appropriations, and the gentleman from Massachusetts [Mr. CONTE], also deserve our congratulations for working together to bring about a breakthrough in something that has needed to be done for a long time, and that is the complete evaluation of our process, and by moving 13 of these appropriations bills individually to the President.

I think it is a great day for the Congress. I want to congratulate the leadership on both sides of the aisle, both the committee and you, Mr. Speaker, and our minority leader for the leadership that you have shown in bringing about this new day.

Thank you very much.

Mr. Speaker, I strongly support this rule and hope that we can unanimously approve it.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING HAND ENROLLMENT OF GENERAL APPROPRIATIONS BILLS FOR FISCAL YEAR 1989 AND SUBSEQUENT PREPARATION AND CERTIFICATION OF PRINTED ENROLLMENTS OF SAME

Mr. FOLEY. Mr. Speaker, pursuant to House Resolution 548, I call up the joint resolution (H.J. Res. 665) authorizing the hand enrollment of appropriations bills for fiscal year 1989 and authorizing the subsequent postenactment preparation for printed enrollments of those bills.

The Clerk read the joint resolution, as follows:

H.J. Res. 665

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. HAND ENROLLMENT AUTHORIZED FOR GENERAL APPROPRIATIONS BILLS.

(a) Waiver of Certain Laws With Respect to Printing of Enrolled Bills.—During the remainder of the second session of the One Hundred Congress, the provisions of sections 106 and 107 of title 1, United States Code, are waived with respect to the printing (on parchment or otherwise) of the enrollment of any general appropriations bill making appropriations for the fiscal year ending September 30, 1989.

(b) Certification by Committee on House Administration.—The enrollment of any such bill shall be in such form as the Committee on House Administration of the House of Representatives certifies to be a true enrollment.

SEC. 2. SUBSEQUENT PREPARATION AND CERTIFICATION OF PRINTED ENROLLMENTS.

(a) Preparation.—

(1) In general.—Upon the enactment of a bill following presentment of such bill to the President in the form of a hand enrollment pursuant to the authority of section 1 of this resolution, the Clerk of the House of Representatives shall prepare a printed enrollment of that bill as in the case of a bill to which sections 106 and 107 of title 1, United States Code, apply.

(2) Limited stylistic corrections.—A printed enrollment prepared pursuant to paragraph (1) may, in order to conform to customary style for printed laws, include corrections in spelling, punctuation, indentation, type face, and type size and other necessary stylistic corrections to the hand enrollment. Such a printed enrollment shall include notations (in the margins or as otherwise appropriate) of all such corrections.

(b) Transmittal to President.—A printed enrollment prepared pursuant to subsection (a) shall be signed by the presiding officer of each House of Congress as a correct printing of the hand enrollment and shall be transmitted to the President.

(c) Certification by President; Legal Effect.—Upon certification by the President that a printed enrollment transmitted pursuant to subsection (b) is a correct printing of the hand enrollment, such printed enrollment shall be considered for all purposes as the original enrollment of the bill concerned and as valid evidence of the enactment of that bill.

(d) Archives.—A printed enrollment certified by the President under subsection (c) shall be transmitted to the Archivist of the United States, who shall preserve it with the hand enrollment. In preparing the bill concerned for publication in slip form and in the United States Statutes at Large pursuant to section 112 of title 1, United States Code, the Archivist of the United States shall use the printed enrollment certified by the President under subsection (c) in lieu of the hand enrollment.

(e) Hand Enrollment Defined.—As used in this section, the term "hand enrollment" means the enrollment, as authorized by section 1, of a bill for presentment to the President in a form other than the printed form required by sections 106 and 107 of title 1, United States Code.

The SPEAKER. The gentleman from Washington [Mr. Foley] is recognized for 1 hour.

Mr. FOLEY. Mr. Speaker, I yield myself such time as I may consume. Mr. Speaker, this resolution authorizes hand enrollment and otherwise sets aside the statutory requirement for parchment printing of general appropriations bills and it will facilitate the meeting of our schedule of completing appropriations legislation, referring them to the President for his review prior to the end of the fiscal year.

My Speaker, I yield back the balance of my time.

The SPEAKER. The question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

The SPEAKER. Pursuant to section 3 of House Resolution 548, House Resolutions 314, 316, 333, 342, and 523 are laid on the table.

CONFERENCE REPORT ON H.R. 4637, FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS ACT, 1989

Mr. OBEY. Mr. Speaker, pursuant to the provisions of House Resolution 548, I call up the conference report on the bill (H.R. 4637) making appropriations for foreign operations, export financing, and related programs for the fiscal year ending September 30, 1989, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER. Pursuant to the order of the House of Tuesday, September 27, 1988, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of September 26, 1988.)

The SPEAKER. The gentleman from Wisconsin [Mr. Obey] will be recognized for 30 minutes and the gentleman from Oklahoma [Mr. Edwards] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Wisconsin [Mr. Obey].

GENERAL LEAVE

Mr. OBEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report, and that I may include tabular and extraneous material.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

□ 1100

Mr. OBEY. Mr. Speaker, I yield myself 10 minutes.

Mr. Speaker, the conference report which the committee brings to the House today is approximately $14,290,000,000. It continues the pattern of holding down spending in the area of foreign aid which we have seen for quite sometime.

I think I ought to give the House some history. Four years ago we were spending about $18.1 billion on foreign aid. Two years ago the administration asked for a $15 billion appropriation. We cut their appropriation request by $1.6 billion. We cut last year's appropriation request by $2.3 billion. On both of those occasions those cuts represented the largest percentage cuts made by any committee on Capitol Hill. The administration on both of those occasions threatened a veto because in its judgment we did not spend enough money.

This year, as everyone understands, the summit agreement reached between the White House and the leadership of both parties set the overall limit of spending. This bill is about $17 million below that request. It is below both the House bill and the Senate bill as the bills left their respective Chambers.

Members should not be deceived, however, into thinking that because of that small difference in numbers, there were not major dollar differences involved in the two bills as we went into conference. There were. I think the major difference in the two bills was in the area of military assistance.

This country has a military assistance program which is a combination of grant assistance and loan assistance. This loan assistance has traditionally been carried in the foreign military sales part of the bill. The history of that program has been that it started out as loans to Third World countries at market rates. Through the years it was then changed to a combination of loans at market rates and loans at concession rates. Later it was changed to virtually all concessional. Later it was changed again so that we had a combination of loans and grants, and finally this year the administration sought to make all remaining loans in fact grants. That would have meant we would have provided $562 million in additional foreign military gifts around the world.

There are two problems with that. No. 1, when we remove the loan component from our military aid program, we remove all remaining restraints on the appetites of Third World countries for arms, because if a defense minister can go to the President of that country and say, "Look, let's ask for these weapons, because we are never going to have to pay any of the cost back," there is no restraining influence on that country.

We do not believe we ought to provide those kinds of incentives for Third World countries purchasing military weapons which they then never have to pay back.

The second problem, if we convert to an all grant program, is that the taxpayer gets socked with the result. In this instance the taxpayer would have been socked with an additional $553 million which he would have had to pay out of his own pocket because we would not have received the return on the principal. We also would not have received the interest on that principal. So that means that on an annual basis the taxpayer would have been hit with about an extra billion and a half dollars. That is not going to happen under this bill because we insisted that $410 million of those loans remain loans rather than being converted to grants. We did that in the context of a miliary aid proposal which is $188 million lower than the amount provided in the administration's request.

Second, the Senate had proposed that we in effect eliminate Pentagon oversight on all contracts between U.S. military suppliers and Third World countries. The Justice Department, to its credit, indicated that were we to do that, it would be an open invitation to fraud and abuse and theft. So we resisted that proposal and we did not provide for that in this conference report.

The third item which I think Members would be interested in is the question of fair pricing. We were asked to approve a proposal in the Senate bill which would have transferred an additional $280 million in costs from military aid recipients to U.S. taxpayers. We declined to do that. We did provide for the adjustments in cases which we thought were specifically justified, such as in the case of Israel because of its cancellation of the Lavi. We tried to respond to that, recognizing that they would have additional strains and costs.

We also provided a similar relief for Egypt which I personally did not think was justified, but the committee's judgment was otherwise.

On the economic side, we reached a compromise on the general capital increase at the World Bank. For children's programs, we provided high priority funding. We provided $100 million for child survival, $60.4 million for UNICEF, in contrast to the administration's request to cut that program 40 percent.

We have a new program in the bill to provide assistance to street children and orphans. We provide $695 million in export assistance to the Export-Import Bank. We provide $40 million to attack the international problems associated with AIDS. Twenty-five million dollars of that will go to the World Health Organization. We provide $2 million for Solidarity.

The bill is in full compliance with Gramm-Rudman and our 302 allocations.

Mr. Speaker, that is all I would like to say at this time on the bill, except to note that we have on the floor a member of the subcommittee who will no longer be with us at the end of this session. The gentleman from New York, Mr. Jack Kemp, came to Congress 18 years ago. He came to the Appropriations Committee. I remember the first day he walked into the committee, and I remember the first amendment to the committee rules that he and I cooperated on.

We, believe it or not, on occasion have agreed with each other on an occasional issue. I think it is frank to say that we have primarily disagreed.

He is leaving to go to the Heritage Foundation, where I assume he will be pushing a few "bad" ideas over there and, I hope, an occasional good one. We have, as I said, disagreed strongly through the years, but I do think it is fair to say that he has served this country with imagination, with vigor, and with conviction. I also think it is fair to say that if every citizen cared as much about the direction in which this country moved, we would not today see a Presidential campaign reduced to 30-second sound bites on the network news. I think we would really see a dialog in which conflicting ideas and approaches were fairly and roundly debated.

Mr. Speaker, I simply want to pay tribute to the gentleman from New York and thank him for his service on this committee and for his service on the subcommittee on which he formerly served as ranking Republican, and I wish him well.

Mr. EDWARDS of Oklahoma. Mr. Speaker, will the gentleman yield?

Mr. OBEY. I yield to the gentleman from Oklahoma.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I thank my friend, the gentleman from Wisconsin, for yielding, and I would like to join him in the comments he has made about the gentleman from New York, Mr. Jack Kemp.

The gentleman from New York and I have sat side by side and served together on this Foreign Operations Subcommittee for the last 8 years. I have had an opportunity in working with him, first while he was the vice chairman of the subcommittee and then when I succeeded him in that position, to watch Jack's leadership and his commitment to what a foreign assistance program must really do to help promote democracy throughout the world.

I would say the only place where I disagree with my friend, the gentleman from Wisconsin, is that I wish that my friend, Jack Kemp, instead of going to the Heritage Foundation, was going to the White House. But I remain supremely confident that that will someday happen.

Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I yield myself such time as I may consume.

Mr. KEMP. Mr. Speaker, will the gentleman yield?

Mr. EDWARDS of Oklahoma. I yield to the gentleman from New York.

Mr. KEMP. Mr. Speaker, I want to rise and thank my colleague, my good friend from Oklahoma for his very generous comments and my colleague, and friend, the gentleman from Wisconsin [Mr. Obey], for his very generous thoughts and comments and for his contributions to the many fine debates we have had in this Chamber over the years on this and so many issues.

I wish that all the committees of the Congress could enjoy the bipartisan exchange we have experienced in the Foreign Operations Subcommittee. It is not without passion or dissent, and it is not without raucous debate at times. But nonetheless I think this committee has come to the floor with a bill representing a bipartisan consensus with regard to the necessity of this country operating in the world economy, especially in those parts of the world in which this Nation has a vital security interest.

I am very proud to have worked on the committee with both the gentleman from Wisconsin [Mr. Obey], and the gentleman from Oklahoma [Mr. Edwards], and all my colleagues, including the gentleman from New York [Mr. McHugh], and the gentleman from Massachusetts [Mr. Conte], as well as Jerry Lewis of California and John Porter of Illinois, and Bill Gray of Pennsylvania, who have contributed in our attempt to bring to the floor bipartisan bills that are in the interest of this country's foreign policy. In my opinion, foreign aid must be viewed as a contribution to our defense and security as well as economic and humanitarian efforts.

I have enjoyed the many debates with the gentleman from Wisconsin [Mr. Obey], and I am very proud of my colleague, the gentleman from Oklahoma [Mr. Edwards], for taking over the ranking position on the subcommittee. While foreign aid has been opposed by many on the right, I think in the last few years we have begun to recognize that the biggest mistake in history was made in the 1930's when this country turned its back on the rest of the world and became isolated, neutral, and passive. Today, as we recognize the 50th anniversary of the Munich Conference, I would just say that I believe with all my heart that the mistakes of the 1930's were not just in appeasement of Hitler, but also in isolationism, the Neutrality Act, and the protectionism of the Congress in the late 1920's and early 1930's. I would like to think that if I have contributed anything to this committee or to the House, it is the idea that we live in an integrated world economy.

As columnist Warren Brookes has very astutely pointed out, we live in a global economy in which information and capital transcend national boundaries at blinding speed. I agree with Mr. Brookes when he states that Congress cannot control this uncontrollable.

In his speech at Moscow University last May, President Reagan talked about an information revolution in which "there are no bounds on human imagination, and the freedom to create is the most precious natural resource." President Reagan went on to envision a world in which man creates his own destiny.

In my opinion, both Mr. Brookes and the President are talking about a crucial point. With the telecommunications revolution pushing us toward universal markets, democracy and freedom are vital to survival. Information is synonymous with wealth, and, as Warren Brookes stated, the key to economic growth is economic and political freedom, including the freedom to trade.

Of course, this idea is not new to any of us. Adam Smith in "The Wealth of Nations" argued that a nation's wealth is the combination of the wealth-creating activity of individuals. The freer individuals are, the greater the wealth of their country. This revolutionary idea helped turn Britain and America into the world's greatest economic powers and is working today in Asia, Africa, and Latin America to create prosperity in Third World nations.

We need open markets and open trade as well as sound money and low tax policies, but we also need foreign assistance to help in bilateral relationships with other nations and allies. And, we desperately need to help boost economic growth in the Third World. We must reach out and provide help to countries like Jamaica, Haiti, or Bangladesh, the African Sahel, and other Third World nations that come to us for assistance under very desperate conditions of poverty, disease, and tragedies of natural disaster.

So, Mr. Speaker, I thank the gentleman from Wisconsin [Mr. OBEY] and the gentleman from Oklahoma [Mr. EDWARDS] for their friendship and kind words. While I do not support every element of the bill, I think it is a consensus bill.

Specifically, Mr. Speaker, I am opposed to the general capital increase for the World Bank. After years of talking about mending its ways, the World Bank is still in disarray. It still does not have an effective strategy for encouraging growth in debtor nations. Until it devises such a strategy and stops merely adding to the debt burden, the World Bank should not get another increase. I am also disappointed by the statements of World Bank President Barber Conable regarding population control. Mr. Speaker, as Julian Simon has said, "The ultimate resource is people—skillful, spirited, and hopeful people." People are not a drain on developing economies—they are their ultimate resource.

But, overall, it is a bipartisan bill, and it represents the best compromise that we could develop to help ameliorate economic problems and promote crucial security programs that are in the vital interests of the United States of America from Israel and Egypt to the Philippines and from Africa to Central America. So again I thank the gentlemen for their very generous comments and say what a pleasure it's been to work with this dedicated committee, despite our differences and disagreements.

I'm certainly glad Mr. EDWARDS is carrying on the fight with Senator KASTEN to bring further reforms to our foreign assistance programs.

Mr. EDWARDS of Oklahoma. Mr. Chairman, I rise, along with my colleague and my good friend, the gentleman from Wisconsin [Mr. OBEY], to urge support for this conference report.

In my 12 years in the Congress, as most of the Members know, I have only very rarely voted for a foreign aid appropriation. Voting for foreign aid is usually not easy, but this bill is in our clear national interest, and I believe it deserves our support.

I think that we have shown during this past year that it is even possible to reach a bipartisan consensus on an issue as contentious as foreign aid. We have deliberately tried to avoid disagreement by not putting into this bill any major policy changes or any new commitments of U.S. resources. We have paid careful attention to budget authority, outlay, and credit limitations.

This conference agreement is nearly $10 million under the House-passed bill, and it fully complies with the budget agreement.

We have had to make many tough choices in this bill, and what we have come up with is a conference report that is supported by every Democrat on the subcommittee and by every Republican on the subcommittee. And it is very strongly supported by the administration. This bill strikes a balance between our economic and military assistance programs around the world. It meets the most important security need of our best friends and allies.

□ 1115

We are a global power, and what that means is that we must be willing to put up the resources to maintain our commitments throughout the world. We cannot hide from our responsibilities. Our economy, our national security, are increasingly affected by what goes on outside this country. We should make sure we are there to protect America's interests.

The Foreign Assistance Program is an important part of our overall global policy. It helps promote peace in the Middle East through our support for Israel and Egypt. It helps our best friends and allies defend themselves—friends and allies like Greece, Turkey, Portugal, Pakistan, and the Philippines, who often provide America's first line of defense.

Our foreign assistance programs help us secure the interests of the United States. They help us to support fragile new democracies in Central America, democracies that face threats from both the left and the right, and which depend on our support to fight both.

What is more, this bill sends a clear message to countries like Nicaragua and Poland that we are prepared to lend our financial and moral support to those individuals who are struggling for freedom and democracy inside their countries.

U.S. foreign assistance is the basic tool we have to help interdict and slow the flow of drugs entering this country. It helps us deal with enormous refugee problems in Africa and Asia.

Foreign aid programs, Mr. Speaker, used correctly, responsibly, can do much to further the interests of the United States, and this is a responsible foreign aid bill. It does not commit us to new programs that we cannot afford or cannot justify. It helps us to pursue our economic and military interests in base rights countries and military access countries. It helps us promote democracy by moving our allies away from dependence on Communist insurgencies.

This bill is the first bill in many years that moves us toward a better set of foreign aid priorities. By passing this conference report, under-budget, outside any continuing resolution, and in the spirit of bipartisan and executive-legislative cooperation, we will be sending a very strong bipartisan signal about America's commitment to freedom throughout the world, and I urge all Members to support it.

Mr. OBEY. Mr. Speaker, I ask unanimous consent for permission to insert in the Record at this point a number of corrections and omissions that were made in the "Statement of Managers" accompanying the conference report on H.R. 4637.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

CORRECTIONS AND ADDITIONS TO STATEMENT OF MANAGERS ACCOMPANYING CONFERENCE REPORT ON H.R. 4637

The following report language concerning amendment No. 135 relating to relatively least developed countries was inadvertently left out of the joint explanatory statement:

At any time after September 30, 1989, if certain conditions are met, section 572 would permit the President to allow relatively least developed countries and countries in sub-Saharan Africa to repay in local currencies the aggregate of outstanding principal and interest owed on loans made under chapter 1 of Part I and chapter 4 of Part II of the Foreign Assistance Act of 1961 or any predecessor legislation. This authority may be used in any fiscal year beginning with fiscal year 1990 for loan arrearages or payments owed in such fiscal year, or for any payments that may be owed in future fiscal years. The provision also permits the President to forgo the repayment of aggregate outstanding principal and interest entirely in some cases. The committees expect to be kept informed regarding plans to implement this provision.

The following statement on the Cooperative Development Project was printed in the joint explanatory statement, but several words were deleted in the printing. The correct statement follows:

The conferees strongly support the Cooperative Development Project and urge consideration of significant increases in funding for this program undertaken by U.S. cooperatives from the additional resources made available for the direct PVO Program on the West Bank and Gaza.

Under the environmental concerns provision, amendment No. 108, the printed text refers to the Governor of Brazil, and it should say the Government of Brazil.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the gentleman from New Mexico [Mr. Richardson].

Mr. RICHARDSON. Mr. Speaker, I would just like to ask the chairman of the subcommittee a question. The action the conference committee took on Kenya, my understanding is that the Senate had higher figures for economic support funds and military assistance. If there was a reduction, I would like the gentleman to explain the reasoning the conference committee took for such a reduction.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. RICHARDSON. I yield to the gentleman from Wisconsin.

Mr. OBEY. Let me simply say, Mr. Speaker, that the Senate provided $10 million earmarked for ESF. It provided $20 million earmarked for military.

It was my personal position that there should be no funds earmarked whatsoever for Kenya. Let me explain my personal view. I had been asked early in the year to insert in the Record language indicating that we were pleased with the fact that Kenya was making some progress in terms of human rights and in terms of opening up their political system. I did that and after that happened we then had the Kenyan Parliament taking action which in essence eliminated the independence of the courts and gave the executive additional authority to toss people in jail without any charge for a period up to 15 days.

It was my view that we should not reward that kind of conduct by an earmark of any kind. In the end I was outvoted by the subcommittee. If I had my way, there would have been zero earmarked for Kenya, but I think this exchange is good. We argued about it a long time in conference. This ought to send a clear message to Kenya that we do not expect them to continue down the road which they appeared to be going down when the Parliament passed that legislation earlier in the year. If they would like to meet with continued favor on the part of the Congress, I think they need, frankly, to clean up their act.

Mr. RICHARDSON. I recognize the gentleman's concern for human rights and the very strong record the subcommittee has on it.

I just want to stress the fact that there are positive sides to the relationship. Kenya is a strategic friend. It has been a good friend over the years. President Moi has been a long-standing ally.

I would hope that naturally the situation on human rights will improve, but that it be recognized that we are talking about a friend.

I just wanted to make that point with my colleague.

Mr. OBEY. I think that is correct, but sometimes you have to send messages, even to your friends.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield such time as he may consume to the gentleman from Massachusetts [Mr. Conte].

Mr. CONTE. Mr. Speaker, I rise in support of the conference report on the foreign assistance and export financing appropriations bill for fiscal year 1989.

Before I get on with my remarks here, I want to join the chairman, the gentleman from Wisconsin [Mr. Obey], and our ranking minority member, the gentleman from Oklahoma [Mr. Edwards], in commending and bidding farewell to our good friend, the gentleman from New York [Mr. Kemp]. It was my honor as the ranking member of the Appropriations Committee to name the Members on our side to their subcommittees. It was my privilege to name the gentleman from New York [Mr. Kemp] to the Foreign Operations Subcommittee, and I never regretted it. He did a great job as a member of that subcommittee and later as the ranking member of that committee. He always showed great leadership. He stuck by his convictions. You had to admire him, whether you agreed with him or not on an issue, because he was a man of great tenacity. He would never give up when he believed in a certain cause or a certain issue. He is a man of impeccable integrity. We are going to miss him on the committee and we are going to miss him here in the Congress.

I want to take this opportunity to commend our subcommittee chairman, the gentleman, the gentleman from Wisconsin [Mr. Obey], and the ranking minority member, the gentleman from Oklahoma [Mr. Edwards], and all of the conferees for bringing us a conference report that is not only below the budget request and both the House and Senate bills, but one that enjoys the rare but strong support of the administration and both sides of the aisle.

Mr. Speaker, this is a historic day.

No, it is not Pearl Harbor Day—again, but it is historic because this is the first free-standing foreign aid appropriations bill that will become law since 1981, and I commend again my good friends, the gentleman from Wisconsin [Mr. Obey] and the gentleman from Oklahoma [Mr. Edwards] for doing this.

Some of us were afraid that we might never see one again, but here it is today.

First, credit must be given to the budget summit agreement of last year which set both a ceiling and a floor for International Affairs funding, including foreign aid. We should keep that in mind as we look at the whole budget process in the next Congress.

And then credit must be paid to our heroic subcommittee, the members of which have battled foreign aid friends and foes alike over the years. They went to conference last Thursday at 3 p.m. and kept at it until they finished at 5 a.m. Friday morning.

The people out there, the taxpayers who see the Congress at work, do not see that kind of loyalty, that kind of hard work and dedication.

They labored hard, and they labored well. They have brought back a conference report that all of us here in the House can support.

This bill provides funding for our troubled friends in the Middle East. It includes funding for base rights and base access countries which are important to our national interests. Basic humanitarian, disaster and refugee assistance is continued through a variety of agencies. The bill will bring us up to date on several debts that we owe as members of international financial institutions. We are finally getting on board along with all of the responsible nations of the free world with an initial contribution to the general capital increase of the World Bank, where we only have to pay in 3 percent of our total commitment.

There are funds in here to continue our strong support of the Child Survival Program and the worldwide battle against AIDS. United States support will also continue for the embattled but surviving American University of Beirut. There is important economic support for the democracies of Central America and the Caribbean, as well as emergency assistance for Jamaica, which was just ravaged by Hurricane Gilbert.

I urge all of you to support this conference report. It is within the subcommittee's 302(b) allocations for budget authority and new outlays. It is below the President's request. It is below the House bill and the Senate bill.

Most important, the bill provides our next President with critical foreign policy resources in both security and humanitarian areas. It warrants your support.

Again, I want to commend the gentleman from Wisconsin [Mr. OBEY] and my friend, the gentleman from Oklahoma [Mr. EDWARDS] for the leadership and the great job they did here, together with the other committee members.

Mr. OBEY. Mr. Speaker, I yield 4 minutes to the gentleman from New York [Mr. McHUGH], who as I have said many times, really serves almost as an unofficial vice chairman of this committee. He devotes a great deal of his time to it, very constructively.

Mr. McHUGH. Mr. Speaker, I thank my friend, the gentleman from Wisconsin, for yielding me this time and for his very kind remarks.

Mr. Speaker, I rise in support of the conference report and urge its adoption by the House. As others have said, this is the first time in 7 years that we have brought a freestanding foreign aid appropriations conference report to the floor. It is the product of many months of hard work, it enjoys bipartisan support, including the support of the President, and I hope our colleagues will join us in endorsing this effort.

I also want to take a moment to join with my colleagues in commending my friend and colleague, the gentleman from New York [Mr. KEMP] for his contributions to this committee. We have not always agreed on issues or priorities on foreign aid or elsewhere, but we have always worked closely together. We have had respect for one another's views, and it has been a pleasure for me to see how JACK KEMP has put the interests of our country always in the forefront in dealing with the issues before our committee and the House. We will miss him for many reasons, and we certainly wish him well in the future.

I want to join with others as well in commending the chairman of the Foreign Operations Subcommittee, the gentleman from Wisconsin [Mr. OBEY], for shepherding this bill through conference, through the initial stages of the legislative process, including passage on the House floor. We had many difficult issues to be resolved and it would not have been possible without the very special qualities of leadership that he always shows.

I also want to commend the gentleman from Oklahoma [Mr. EDWARDS], the ranking minority member of our subcommittee. He has played a very constructive role in helping to move this bill through all stages of the legislative process.

The bill itself contains $14.3 billion in new budget authority, including $980 million in mandatory spending. If one excludes those items that are mandatory, the bill provides for a modest 2-percent increase over last year in discretionary foreign assistance funding. This increase was agreed to in the budget summit agreement negotiated last December between Congress and the administration, and I believe it is important that we honor that commitment.

We should also note that this modest increase follows substantial reductions that were made in foreign aid in the previous 3 years.

In fiscal year 1985, for example, the United States spent approximately $20.9 billion on the various programs and activities funded in this bill, as compared to a total of $14.3 billion that we are recommending here. If this conference report is approved, therefore, we will have cut foreign aid by more than 30 percent since fiscal year 1985. Indeed, using comparable accounting methods, we are spending less on foreign assistance today than we did in fiscal year 1981, the last year of the Carter administration.

Of the $262 million in discretionary spending increases recommended in the conference report, $109 million is for U.S. contributions to the multilateral development banks. Even if this increase is approved, however, the United States will still remain more than $400 million in arrears on prior commitments to those institutions.

The conference report also increases development assistance by $36 million over last year. Those funds are largely set aside to provide assistance for relief, reconstruction, and rehabilitation in Jamaica, which suffered such devastation in the recent hurricane.

Refugee assistance will increase by approximately $50 million under the conference report. Those additional funds are needed to meet a variety of emergency problems that have arisen in recent months in such places as Afghanistan.

The Economic Support Fund will also increase by about $58 million, while the remaining small increases are in accounts that have broad bipartisan support, such as the Peace Corps and the African and Inter-American Development Foundations.

In short, Mr. Speaker, most of the discretionary spending increases recommended in this bill are for important development and humanitarian aid programs. For that reason, I feel very comfortable in advising my colleagues that this is a good bill, one that they can and should support.

Finally, Mr. Speaker, I have been informed by staff that the statement of managers accompanying the conference report inadvertently left out the joint explanatory statement of the managers regarding Amendment No. 135 relating to relatively least developed countries. As the author of that provision, I am therefore inserting the text of the statement agreed to by the managers at this point in the RECORD:

RELATIVELY LEAST DEVELOPED COUNTRIES

At any time after September 30, 1989, if certain conditions are met, section 572 would permit the President to allow relatively least developed countries and countries in sub-Saharan Africa to repay in local currencies the aggregate of outstanding principal and interest owed on loans made under chapter 1 of Part I and chapter 4 of Part II of the Foreign Assistance Act of 1961 or any predecessor legislation. This authority may be used in any fiscal year beginning with fiscal year 1990 for loan arrearages or payments owed in such fiscal year, or for any payments that may be owed in future fiscal years. The provision also permits the President to forego the repayment of aggregate outstanding principal and interest entirely in some cases. The committees expect to be kept informed regarding plans to implement this provision.

□ 1130

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. PORTER].

Mr. PORTER. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in strong support of the foreign operations conference report for fiscal year 1989.

This conference report is the product of an unprecedented amount of bipartisan cooperation. The House version of the bill passed last May by a vote of 328 to 90 and the conference report deserves an even better vote.

This report is also the product of the excellent work of a number of members and staff, especially our chairman, Mr. OBEY, our vice chairman, Mr. EDWARDS and all the hard-working staff, but especially Terry Peel, Bill Schuerch, and Jeff Pierson.

The bill provides funding for a number of foreign policy priorities that deserve our special attention. Most importantly, we provide funding for a number of allies and democracies in key locations including aid to Israel and Egypt, Turkey, Greece, El Salvador, and the Philippines.

I regret that we were not able to strengthen the private sector through the IFC this year. I was happy to have the help of the committee in moving toward a solution to the IFC's funding problem, in the future.

I also regret not fully committing ourselves to family planning in Africa. Africa has the fastest growing population in the world and at some point we will have to respond more effectively. This of course will also have to include revisiting the issue of funding the UNFPA, once they reorder their program in China.

We did dramatically increase our funding for programs in response to the spread of AIDS. I was pleased to see that we made the WHO Program under our own Dr. Jonathan Mann the lead program in this area.

Mr. Speaker, let me, before I close, commend our extremely able colleague, the gentleman from New York [Mr. KEMP], always a leader, always strong for the things he believes in, always hard working and caring and committed. We will miss the gentleman from New York [Mr. KEMP] in the Congress, and we wish him well in all that he undertakes in the future.

In all, this is a good bill and deserves all Members' support. Is it not amazing when we want to we can work together, produce a reasonably good bill and garner support from a broad coalition of the Congress? Let us do it again next year and the year after that and every year. Once every 7 years simply is not good enough. Let us make this year's work the model for our work in the future.

Mr. Speaker, I commend the subcommittee for its hard work and urge the conference report's adoption.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. DYMALLY].

Mr. DYMALLY. Mr. Speaker, would the gentleman from Wisconsin engage in a colloquy?

Mr. OBEY. Mr. Speaker, I am happy to engage in a colloquy with the gentleman from California.

Mr. DYMALLY. Mr. Speaker, as the gentleman knew, I visited Jamaica last week. The one issue which the Prime Minister, the opposition leader, the Governor-General, the Ambassador asked is: Is this money which we have so generously put into the budget in the Operations Subcommittee earmarked for Jamaica?

Mr. OBEY. Mr. Speaker, if the gentleman will yield, yes, there is $35 million earmarked for Jamaica in addition to which Jamaica will receive a significant amount of funding from other sources which were already planned before the hurricane hit.

Mr. DYMALLY. These funds will go directly to Jamaica for the disaster which they have just experienced?

Mr. OBEY. Mr. Speaker, that is correct.

Mr. DYMALLY. Mr. Speaker, I will be putting my entire statement into the RECORD.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. OBEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me simply say that we have letters in support of this bill from both the Secretary of the Treasury and the Secretary of State which I would like to enter into the RECORD at this time.

THE SECRETARY OF STATE,
Washington, September 28, 1988.

Hon. DAVID R. OBEY,
Chairman, Subcommittee on Foreign Operations, Export Financing, and Related Programs, Committee on Appropriations, House of Representatives.

DEAR MR. CHAIRMAN: I want to state my strong support for the Conference Report to H.R. 4637, Foreign Operations, Export Financing and Related Programs Appropriations Act, 1989. It is the first conference on a free-standing Foreign Operations bill since 1981, and is the result of a great deal of bipartisan, Executive—Congressional cooperation.

The Conference Report provides the Administration with the resources necessary to address our national security concerns as well as to capitalize on opportunities for peace, economic development and export promotion at a time when U.S. leadership is more critical then ever. It does not provide all that the Administration sought, and I remain concerned with the lack of resource flexibility in the management of our foreign policy programs. Nevertheless, it is essential that this Conference Report be adopted by the Congress and signed by the President.

I congratulate you on your leadership in managing this legislation.

Sincerely yours,

GEORGE P. SHULTZ.

THE SECRETARY OF THE TREASURY,
Washington, September 28, 1988.

Hon. THOMAS S. FOLEY,
Majority Leader, House of Representatives, Washington, DC.

DEAR TOM: The Foreign Operations Appropriations Conference Report is scheduled to come before the House as early as today. Included in the Conference Report is funding for the World Bank General Capital Increase (GCI). As you are aware from the President's letter of June 10 (enclosed), this is an important Administration priority.

The World Bank and the regional development banks play an important role in helping finance viable economic development in the world's less developed countries. They also encourage the pursuit of sound economic policy, promoting greater stability, and higher rates of growth over the longer term. U.S. support for multilateral development bank lending is a vital element of our foreign economic policy, and we will benefit through increases in trade with less developed countries and greater growth in our economy.

Out of the 151 member countries of the World Bank, the only remaining members who have not yet ratified the GCI are the U.S., Kampuchea, Libya, Romania, Rwanda, United Arab Emirates, Vietnam, and Yemen PDR. Certainly, this is not the kind of company we should be keeping. Failure to pass the GCI would damage our national economic interests and cause us to lose substantial leadership on the priority of World Bank policy objectives in its lending program, including environmental issues and greater reliance on market incentives.

I urge your support for the GCI and for swift passage of the Foreign Operations Appropriations Conference Report.

Sincerely,

NICK BRADY.

THE WHITE HOUSE,
Washington, June 10, 1988.

Hon. THOMAS S. FOLEY,
Majority Leader, House of Representatives, Washington, DC.

DEAR MR. FOLEY: As you are aware, the Administration in February of this year reached agreement on a General Capital Increase (GCI) for the World Bank. This would require an annual paid-in appropriation of $70.1 million for the 6-year period 1989–1994, substantially less than the appropriation required for the previous capital increase. Recently the Department of the Treasury submitted legislation to the Congress authorizing U.S. participation in the GCI.

The General Capital Increase is in our national economic and strategic interests. The World Bank remains the single largest source of development assistance. The Bank commits the vast majority of its funds in support of specific investment projects in the middle income developing nations. These are mostly nations (such as the Philippines, Egypt, Pakistan, Turkey, Morocco, Tunisia, Mexico, Argentina, Indonesia, and Brazil) that are strategically and economically important to the United States.

The Bank's General Capital Increase will provide new development funding for these countries at a level far beyond that which we could accomplish bilaterally. This is because in the World Bank the cost of assisting these nations is shared with the other major non-communist industrial nations, and the Bank raises most of its funds by borrowing in the international capital markets.

The U.S. contribution of $70.1 million annually (plus repayment reflows from earlier loans) will make available an average of $18.8 billion in new annual World Bank loan commitments over the next 6 years, a multiple 268 times the U.S appropriation.

The substantial increase in the Bank's resources will enable it to expand its vital role in promoting structural adjustment and market-oriented economic reforms. The Bank plays a key role in the major Latin American debtor nations that are pursuing significant economic reforms. Such reforms often include privatization, freezing prices from official controls, and reducing trade barriers, which would benefit U.S exports. Turkey is an example of a major ally that has successfully implemented structural adjustment, in conjunction with active World Bank involvement.

World Bank project and sector lending will benefit U.S. business. American exports of equipment, agricultural products, and consulting services will increase from the growth in developing nations promoted by World Bank lending. Many U.S. firms profit directly from export sales financed by World Bank loans. United States companies received $1.6 billion (or 22 percent) of World Bank disbursements for foreign procurement in World Bank fiscal year 1987. American firms also received additional sums from World Bank project-related procurement contracts that are financed by borrowing countries.

United States participation in the GCI will also accomplish other important foreign economic policy goals. The GCI commits the Bank to increase its support for the private sector in developing countries. The GCI resolution also calls on the Bank to take specific steps to make environmental protection a higher priority. Finally, our humanitarian goals are served by the Bank's emphasis upon alleviating mass poverty.

I ask you to support quick and unencumbered passage of authorizing legislation for the GCI. It is in everyone's interest to ensure that this significant legislation is passed without distorting amendments. I urge you to support this important effort.

Sincerely,

RONALD REAGAN.

I would simply say that the bill is $17 million below the President's request. It is 20 percent below 1985. It is supported by the President. It defends our national interest, and it protects the taxpayers from the additional $500 millon whammy they would have gotten had we not resisted the provision in the bill of the other body.

Mr. Speaker, I would urge its adoption.

Mrs. KENNELLY. Mr. Speaker, I rise in support of the foreign operations appropriations bill, and applaud the conference committee on this bill for including $35 million in emergency aid to Jamaica.

It will take years for the people of Jamaica to recover from the death and destruction the island suffered from Hurricane Gilbert; and many people will never recover from their personal and financial losses.

Jamaica was hit by the brunt of Hurricane Gilbert. Hours of heavy winds caused years of damage. Twenty-nine people lost their lives, half a million people were left homeless, crops were severly damaged, water supplies were contaminated and electrical and telephone wires were downed. This island which depends on tourism as its main source of income, has become an extremely hard place to live, let alone visit.

Jamaica needs our support. By providing this aid package, we will begin to make Jamaica a safe place to live and visit again. There are many local efforts to get supplies and goods to the island, including a number of efforts in my hometown of Hartford, CT, which has the second highest Jamaican population in the country.

We in Congress need to do our part also in order to ease the pain and suffering of the people in Jamaica, and their relatives in the United States. I urge you to support this measure.

Mr. DORGAN of North Dakota. Mr. Speaker, I rise in support of the conference report on H.R. 4637, foreign aid appropriations for fiscal year 1989. I commend Chairman OBEY for his diligence and leadership in hammering out this conference agreement with the Senate.

When the House considered this bill, I was constrained to vote against it. One of my objections was the increased funding level in the bill compared with fiscal year 1988. I am pleased to see that the conferees have trimmed a modest amount from total spending in the bill.

I was also troubled by the continuing trend toward dramatic increase in security aid, which have come at the expense of development aid and food aid. Since 1980, the ratio of security aid to development aid has jumped from 1:1 to 2:1, while food aid actually declined by 1.7 percent. Therefore, I applaud the conference decision to reduce security aid by $36 million.

Particularly troublesome in recent years has been the soaring growth of the Military Assistance Program [MAP]. Virtually phased out in 1980, MAP has enjoyed a 700-percent increase in the last 8 years. The conference report reduces MAP by over $400 million, which leaves it a level of $467 million—about where it should be. Although this reduction is offset somewhat by hefty increases in grant military financing in the new Foreign Military Financing Program, the net result still moves us in the right direction.

Given these improvements, I am prepared to support the conference report, which contains several vital foreign aid programs already included in the House bill.

I speak of aid to friends in the Middle East, Israel, and Egypt, who have taken painful and necessary steps to build a durable peace in the region. The conference agreement adopts the House levels of $3 billion for Israel and $2.1 billion for Egypt.

The conference report also retains sturdy funding for UNICEF and child survival programs. These two programs have pioneered innovative ways to reduce child mortality in half in developing countries with health interventions which may cost as little as a few pennies per treatment. For this reason I support language directing the administration to make a timely payment for UNICEF next year. In general, the report increases development aid by $21 million.

In a word, the conference report realigns foreign aid priorities in favor of human resources and away from security aid. Seeking the right balance between these two necessary parts of foreign aid is precisely the improvement which this agreement makes. And that is why I intend to vote in favor of the conference report.

Mr. WILSON. Mr. Speaker, the drug war is being fought on many fronts in this country and abroad. But nowhere is the battle more fierce than in the jungles and high mountain plains of South America. In Bolivia, for instance, narco traffickers have had virtually free rein. But things are changing.

Under President Paz Estonsorro, Bolivia has decided to put an end to the cocaine trade operating within the country.

Consider these facts:

The United States and Bolivia in 1987 formed a partnership to combat the narco traffickers. Earlier this year Bolivia enacted a tough new comprehensive antidrug law that carries stiff civil and criminal penalties for producing or trafficking in illicit narcotics. Earlier this summer one of the world's drug kingpins, Robert Suarez, was arrested and sentenced to jail.

It is evident that Bolivia is striking at the very heart of the drug cartel—and will continue to do so until their country is rid of the narco traffickers.

Sustaining this effort requires the political support and financial assistance of our Government. The Bolivians simply do not have the resources to go it alone.

That is why I am pleased to note that the conference report on H.R. 4637 contains funding for Bolivia's war on drugs. I also note that Bolivia may receive up to $25 million in ESF and $5 million in MAP funds which are in addition to the $15 million INM funds earmarked for Bolivia in the bill.

Mr. Speaker, there is no question that Bolivia is making progress.

The funds provided in this legislation will ensure that the antinarcotics program in Bolivia will continue.

Mr. DYMALLY. Mr. Speaker, I rise today before this distinguished body to discuss the very pressing issue of assistance to Jamaica to help that country recover from the devastation wrought by Hurricane Gilbert. I am pleased to say that my dear colleague, the Honorable DAVID OBEY, chairman of the Subcommittee on Foreign Operations, has given me his assurance that the conference report on appropriations earmarks not less than $35 million for relief, rehabilitation, and reconstruction assistance for Jamaica.

The report specifies that this earmarked assistance is to be in addition to development assistance funds otherwise made available to that country. Chairman OBEY has also informed me that these specified funds should be used to restore power distribution and communication, to distribute food and other needed supplies, to provide materials for temporary shelters, to contribute to the process of redevelopment, and for other emergency needs. It is also my understanding that more than $23 million in relief, rehabilitation and food will be obligated for Jamaica by the end of this week that would constitute fiscal year 1988 funds.

For fiscal year 1989, in addition to the $35 million Foreign Operations has earmarked, Jamaica is scheduled to receive $17.6 million in regular development assistance, and $30 million in Public Law 480, which is already signed up. In addition, I am informed that $10 million in new Public Law 480 is in the works to provide needed lumber for the reconstruction effort. Jamaica will also receive $15 million in Housing Investment Guarantees. And finally, Jamaica is eligible to receive up to $25 million in ESF to support narcotics control activities in that country. According to Chairman OBEY, there is also authority, subject to the discretion of the administration, to provide funds from the regular disaster assistance accounts and from the special de-ob re-ob authority we provide for Jamaica and Bangladesh for any additional relief and reconstruction needs that may arise.

I would like to commend my colleague from Wisconsin for the crucial role he has played to provide sufficient funding to the relief and reconstruction activities in Jamaica and to assure that United States assistance is sufficient to meet the extraordinary needs that country will be facing. I would like to take this time to thank Congressman OBEY for his time, effort, and assurances on this issue and look forward to working with him and other members of the Subcommittee on Foreign Operations, as well as with the chairman and members of the Committee on Foreign Affairs on this effort to assist our good and close neighbor.

Mr. KYL. Mr. Speaker, today, I reluctantly cast my vote for the motion by the gentleman from Wisconsin, [Mr. OBEY], under which the House recedes from its disagreement and concurs with the Senate amendments to waive the standard requirements for authorization of foreign aid programs and to enact, as part of the bill, authorizing legislation for the World Bank, the African Development Fund, and the Overseas Private Investment Corporation.

I reluctantly support this motion because I support a foreign aid program that furthers the interests of the United States. For example, if our military aid helps a country in its fight against communism, or other threats, then we have also helped in the defense of our country, without having to commit our forces. Similarly, if our economic aid helps the economies of our friends in other parts of the world, and, in the process, provides stability to that country, we have then made a good investment in our political and economic well-being.

On whole, H.R. 4637 is a foreign aid bill consistent with our interests. This measure increases economic and military assistance targeted to our best friends and allies. Of particular interest, the bill provides economic aid at or above fiscal year 1989 requested levels for the Central American democracies, provides $2 million to the National Endowment for Democracy for use in Nicaragua to help the internal democratic opposition to the Communist Sandinista regime, and provides important aid to critical friends like Israel and others.

However, there is one provision of the bill to which I strongly object, providing $50 million for the general capital increase [GCI] for the World Bank. If there is one area where the United States acts in ways contrary to its interests, it is in the area of U.S. loans, through international lending institutions, to countries which support anti-American interests and policies. Over the past years, the World Bank has provided loans, over U.S. objections, to countries that violate human rights, support terrorism, and default on debt payments. What's more, loans have been provided to Communist countries, which, in effect, subsidizes communism with American taxpayer dollars. This is an intolerable situation and must be changed.

An effort has been made to split out the authorization of funds for the World Bank from H.R. 4637, and I supported this effort, specifically by voting against the rule for consideration of the bill, a rule which waived all points of order. However, this effort has failed and I feel compelled to vote for the authorization of foreign aid progrms because of the overall benefit of H.R. 4637 to our foreign policy interests. This is not an easy vote. We must stop the unjustifiable provision of loans to countries which do not share our values and do not act in ways consistent with our foreignpolicy interests. It is most unfortunate when the leadership of the Democratic Party has so little confidence in its positions—like funding for the World Bank—that it can't allow the measure to stand or fall on its own merits.

Mr. OBEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were— yeas 327, nays 92, answered "present" 1, not voting 11, as follows:

The Clerk announced the following pair:

On this vote:

Mr. Lafalce for, with Mr. Boulter against.

Mr. VOLKMER and Mr. KOLTER changed their vote from "yea" to "nay".

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2642, COLORADO UTE INDIAN WATER RIGHTS SETTLEMENT ACT OF 1988

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 100-986) on the resolution (H. Res. 550) providing for the consideration of the bill (H.R. 2642) to facilitate and implement the settlement of Colorado Ute Indian reserved water rights claims in southwest Colorado, and for other purposes, which was referred to the House Calendar and ordered to be printed.

WAIVING CERTAIN POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 4481, DEFENSE SAVINGS ACT OF 1988, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 100-987) on the resolution (H.R. 551) waiving certain points of order against the conference report on the bill (H.R. 4481) to provide for the closing and realigning of certain military installations during a certain period, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

CONFERENCE REPORT H. REPT. 100-990

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4784) "making appropriations for the Rural Development, Agriculture, and Related Agencies programs for the fiscal year ending September 30, 1989, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective House as follows:

That the Senate recede from its amendments numbered 6, 11, 13, 15, 16, 17, 18, 24, 29, 33, 35, 36, 47, 48, 49, 50, 52, 53, 54, 57, 58, 59, 62, 63, 64, 69, 72, 73, 76, 79, 80, 81, 83, 85, 98, 103, 104 108, 111, 112, 123, 132, 133, 135, 136, 137, 138, 139, 143, 144, 145, and 146.

That the House recede from its disagreement to the amendments of the Senate numbered 2, 3, 4, 7, 37, 40, 51, 65, 66, 67, 70, 77, 84, 88, 92, 93, 95, 96, 97, 101, 105, 106, 107, 124, and 125, and agree to the same.

Amendment numbered 5:

That the House recede from its disagreement to the amendment of the Senate numbered 5, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$7,883,000*; and the Senate agree to the same.

Amendment numbered 8:

That the House recede from its disagreement to the amendment of the Senate numbered 8 and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$50,491,000*; and the Senate agree to the same.

Amendment numbered 9:

That the House recede from its disagreement to the amendment of the Senate numbered 9, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$20,836,000*; and the Senate agree to the same.

Amendment numbered 10:

That the House recede from its disagreement to the amendment of the Senate numbered 10, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$63,588,000*; and the Senate agree to the same.

Amendment numbered 14:

That the House recede from its disagreement to the amendment of the Senate numbered 14, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert: *: Provided further,* That the foregoing limitations on purchase of land shall not apply to the purchase of land at the Grand Forks Human Nutrition Center, Grand Forks, North Dakota; and the Senate agree to the same.

Amendment numbered 19:

That the House recede from its disagreement to the amendment of the Senate numbered 19, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$28,350,000*; and the Senate agree to the same.

Amendment numbered 21:

That the House recede from its disagreement to the amendment of the Senate numbered 21, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$17,500,000*; and the Senate agree to the same.

Amendment numbered 23:

That the House recede from its disagreement to the amendment of the Senate numbered 23, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$39,716,000*; and the Senate agree to the same.

Amendment numbered 25:

That the House recede from its disagreement to the amendment of the Senate numbered 25, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,025,000*; and the Senate agree to the same.

Amendment numbered 26:

That the House recede from its disagreement to the amendment of the Senate numbered 26, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$3,668,000*; and the Senate agree to the same.

Amendment numbered 27:

That the House recede from its disagreement to the amendment of the Senate numbered 27, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$3,000,000*; and the Senate agree to the same.

Amendment numbered 28:

That the House recede from its disagreement to the amendment of the Senate numbered 28, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$3,152,000*; and the Senate agree to the same.

Amendment numbered 30:

That the House recede from its disagreement to the amendment of the Senate numbered 30, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$4,450,000*; and the Senate agree to the same.

Amendment numbered 31:

That the House recede from its disagreement to the amendment of the Senate numbered 31, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$6,377,000*; and the Senate agree to the same.

Amendment numbered 32:

That the House recede from its disagreement to the amendment of the Senate numbered 32, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$315,107,000*; and the Senate agree to the same.

Amendment numbered 34:

That the House recede from its disagreement to the amendment of the Senate numbered 34, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to read as follows: *; payments for the urban gardening program under section 3(d) of the Act, $3,500,000*; and the Senate agree to the same.

Amendment numbered 38:

That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$953,000*; and the Senate agree to the same.

Amendment numbered 39:

That the House recede from its disagreement to the amendment of the Senate numbered 39, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,500,000*; and the Senate agree to the same.

Amendment numbered 41:

That the House recede from its disagreement to the amendment of the Senate numbered 41, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *payments for carrying out the provisions of the Renewable Resource Extension Act of 1978 under 3(d) of the Act, $2,765,000*; and the Senate agree to the same.

Amendment numbered 42:

That the House recede from its disagreement to the amendment of the Senate numbered 42, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$352,287,000*; and the Senate agree to the same.

Amendment numbered 44:

That the House recede from its disagreement to the amendment of the Senate numbered 44, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$14,268,000*; and the Senate agree to the same.

Amendment numbered 45:

That the House recede from its disagreement to the amendment of the Senate numbered 45, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$370,000*; and the Senate agree to the same.

Amendment numbered 55:

That the House recede from its disagreement to the amendment of the Senate numbered 55, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$201,992,000*; and the Senate agree to the same.

Amendment numbered 61:

That the House recede from its disagreement to the amendment of the Senate numbered 61, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$474,000,000*; and the Senate agree to the same.

Amendment numbered 74:

That the House recede from its disagreement to the amendment of the Senate numbered 74, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$2,868,000*; and the Senate agree to the same.

Amendment numbered 86:

That the House recede from its disagreement to the amendment of the Senate numbered 86, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$12,446,000*; and the Senate agree to the same.

Amendment numbered 87:

That the House recede from its disagreement to the amendment of the Senate numbered 87, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$9,000,000*; and the Senate agree to the same.

Amendment numbered 89:

That the House recede from its disagreement to the amendment of the Senate numbered 89, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$5,452,000*; and the Senate agree to the same.

Amendment numbered 94:

That the House recede from its disagreement to the amendment of the Senate numbered 94, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and the matter inserted by said amendment insert the following: *, $1,929,362,000, to remain available through September 30, 1990, of which $2,000,000 may be used to carry out the farmers' market coupon demonstration project*; and the Senate agree to the same.

Amendment numbered 99:

That the House recede from its disagreement to the amendment of the Senate numbered 99, and agree to the same with an amendment, as follows:

In lieu of the sum named in said amendment insert *$120,000,000*; and the Senate agree to the same.

Amendment numbered 100:

That the House recede from its disagreement to the amendment of the Senate numbered 100, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$89,223,000*; and the Senate agree to the same.

Amendment numbered 102:

That the House recede from its disagreement to the amendment of the Senate numbered 102, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$95,017,000*; and the Senate agree to the same.

Amendment numbered 113:

That the House recede from its disagreement to the amendment of the Senate numbered 113, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$2,000,000*; and the Senate agree to the same.

Amendment numbered 114:

That the House recede from its disagreement to the amendment of the Senate numbered 114, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$34,723,000*; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 1, 12, 20, 22, 43, 46, 56, 60, 68, 71, 75, 78, 82, 90, 91, 109, 110, 115, 116, 117, 118, 119, 120, 121, 122, 126, 127, 128, 129, 130, 131, 134, 140, 141, and 142.

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4784) making appropriations for Rural Development, Agriculture, and Related Agencies programs for the fiscal year ending September 30, 1989, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

Congressional Directives

The conferees agree that Executive Branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intentions—that is, the official reports of the Congress. The conferees further point our that funds in this Act must be used for the purposes for which appropriated as required by section 1301 of title 31 of the United States Code which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

Report language included by the House which is not changed by the report of the Senate, and Senate report language which is not changed by the conference are approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

TITLE I—AGRICULTURAL PROGRAMS

Production, Processing and Marketing

OFFICE OF THE SECRETARY

The conferees agree that in procuring energy systems, the Secretary shall procure systems that use solar energy or other renewable forms of energy whenever the Secretary determines that such procurement is possible and will be cost effective, reliable, and otherwise suited to supplying the energy needs of the Department.

The conferees expect that not less than $3,000,000 of the total resources available to the Department will be used for research, management, control, and eradication of leafy spurge and spotted knapweed on both private and public lands.

From within funds available, the Animal and Plant Health Inspection Service, the Agricultural Marketing Service, and the Food and Drug Administration should cooperate in solving the problem *salmonella enteritidis,* which endangers human as well as the egg industry. The conferees are particularly concerned about the apparent inaction of the Department of Agriculture in addressing this crisis in the egg industry. Existing law is clear. It provides the Department of Argiculture with the primary authority and responsibility of insuring animal health and safety through APHIS and the Agriculture Marketing Service, and it provides the Food and Drug Administration with the primary authority and responsibility of insuring human health and safety. The conferees expect the agencies to investigate, identify and eradicate the problem in poultry intended for egg production. Where an outbreak of *salmonella enteritidis* exists or when an outbreak occurs, the conferees expect the agencies to utilize all appropriate methods, such as mandatory testing and inspection where such methods are deemed appropriate, to resolve this problem and prevent it in the future.

OFFICE OF THE ASSISTANT TO THE SECRETARY FOR SPECIAL SERVICES

Amendment No. 1: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

OFFICE OF THE ASSISTANT TO THE SECRETARY FOR SPECIAL SERVICES

For necessary salaries and expenses to continue the Office of the Assistant to the Secretary for purposes of providing special services to the Department, $150,000: Provided, That none of these funds shall be available for the supervision or management of Natural Resources and Environmental activities, the Soil Conservation Services, or the Forest Service, or any other activities or functions associated therewith.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement restores House language providing for an Office of the Assistant Secretary for Special Services, and amends the language to make the office an assistant to the Secretary. The conference agreement further provides that the office shall not be involved in the supervision of Natural Resources and Environmental activities, the Soil Conservation Service, or the Forest Service, or any other activities or functions associated therewith. Supervision or management of the Soil Conversation Service and Forest Service is provided for under the Assistant to the Secretary for Natural Resources and Environment.

DEPARTMENTAL ADMINISTRATION

Amendment No. 2: Provides $21,271,000 for Personnel, Finance and Management, Operations, Information Resources Management, Advocacy and Enterprise, and Administrative Law Judges and Judicial Officer as proposed by the Senate instead of $21,211,000 as proposed by the House.

Amendment No. 3: Appropriates $25,922,000 for Departmental Administration as proposed by the Senate instead of $25,862,000 as proposed by the House.

WORKING CAPITAL FUND

Amendment No. 4: Appropriates $4,708,000 for the Working Capital Fund as proposed by the Senate instead of $5,708,000 as proposed by the House.

PUBLIC AFFAIRS

Amendment No. 5: Appropriates $7,883,000 for public affairs instead of $7,826,000 as proposed by the House and $7,940,000 as proposed by the Senate.

CONGRESSIONAL RELATIONS

Amendment No. 6: Appropriates $497,000 for congressional relations as proposed by the House instead of $500,000 as proposed by the Senate.

INTERGOVERNMENTAL AFFAIRS

Amendment No. 7: Appropriates $479,000 for intergovernmental affairs as proposed by the Senate instead of $476,000 as proposed by the House.

OFFICE OF THE INSPECTOR GENERAL

Amendment No. 8: Appropriates $50,491,000 for the Office of the Inspector General instead of $49,541,000 as proposed by the House and $51,442,000 as proposed by the Senate. Because of the limited resources available, the conferees expect the Office of the Inspector General to concentrate its efforts in those areas that offer the greatest payback to the government.

OFFICE OF THE GENERAL COUNSEL

Amendment No. 9: Appropriates $20,836,000 for the Office of the General Counsel instead of $20,594,000 as proposed by the House and $21,079,000 as proposed by the Senate.

NATIONAL AGRICULTURAL STATISTICS SERVICE

Amendment No. 10: Appropriates $63,588,000 for the National Agricultural Statistics Service instead of $63,091,000 as proposed by the House and $64,086,000 as proposed by the Senate.

The conferees expect the National Agricultural Statistics Service to continue the compilation for and the production of its current publications, including the "Catfish Processors and Growers Survey," the "Aquaculture Situation Outlook" report, the barley stocks and productions reports, the dry pea and lentil annual crop report and the annual report on white wheat.

WORLD AGRICULTURAL OUTLOOK BOARD

Amendment No. 11: Appropriates $1,820,000 for the World Agricultural Outlook Board as proposed by the House instead of $1,836,000 as proposed by the Senate.

AGRICULTURAL RESEARCH SERVICE

Amendment No. 12: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *"$561,581,000"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $561,581,000 for the Agricultural Research Service instead of $555,755,000 as proposed by the House and $551,657,000 as proposed by the Senate.

The conference agreement is based on the following changes to the budget request:

	House bill	Senate bill	Conference agreement
1. Human Nutrition Research:			
Tufts (MA)	$500,000		$500,000
Baylor (TX)	1,500,000		1,500,000
2. Low-imput research at Morris (MN)	50,000		50,000
3. Agriculture film (NY)	50,000		(¹)
4. Meat Animal Research Center at Clay Center (NE)	335,000		335,000
5. Renovation at Woodward (OK)	300,000		300,000
6. Renovation at Beltsville (MD)	5,000,000	5,000,000	5,000,000
7. National Arboretum (MD)	750,000		750,000
8. Beltsville Security (MD)		110,000	110,000
9. Sugarcane research (HI)	218,000		218,000
10. Renovation at Cornell (NY)	200,000		200,000
11. Medfly/fruit fly (HI)	350,000		350,000
12. National Soil Tilth Center (IA)	1,000,000	1,750,000	1,375,000
13. Blueberry/cranberry (NJ)	250,000	500,000	375,000
14. Kenaf (MS)	75,000	75,000	75,000
15. Tropical and Subtropical (FL) (HI)		500,000	(²)
16. Formosan termite (HI)	143,000	143,000	143,000
17. Institute for Technical Development application of satellite data (MS)		450,000	300,000
18. National Sedimentation Lab (MS) Center for Computational Hydroscience (Univ. of MS)		1,500,000	1,000,000
19. Peach research, Appalachian		400,000	400,000
20. Appalachian Soil and Water Lab, Beckley, WV		400,000	400,000
21. U.S. Sheep Experiment Station Dubois, ID		135,000	135,000
22. Barley research:			
Aberdeen, ID		150,000	150,000
Fargo, ND		150,000	150,000
23. Grasshopper research at ND State University		−69,000	−69,000
24. Potato research:			
Marketing		500,000	250,000
Aphids		250,000	200,000
Beetles		250,000	200,000
25. Pea and lentil research Washington State Univ		150,000	150,000
26. Water quality research	−2,000,000	1,000,000	
27. General reductions	−12,123,000	−20,844,000	−12,123,000
Change to request	−3,402,000	−7,500,000	+2,424,000

¹ Funded under Federal Administration, Extension Service.
² Funded under Special Grants, Cooperative State Research Service.

Dry peas and lentils. The conference agreement provides an increase of $150,000 to expand ongoing research at Washington State University. The additional funds will allow ARS to maintain a full-time geneticist at Washington State University who will continue the critical genetic mapping on dry peas and lentils in conjunction with industry guidance.

National Sedimentation Laboratory. The conference agreement provides an increase of $1,000,000 for the National Sedimentation Laboratory for work in association with the Center for Computational Hydroscience and Engineering at the University of Mississippi in support of the Soil Conservation Service and the Corps of Engineers erosion control demonstration program with state-of-the-art methodology of numerical-empirical modeling.

Water quality. The conferees understand that the state agricultural experiment stations and the Cooperative Extension Services within the land-grant colleges have developed a water quality and quantity strategy entitled "Groundwater Quality and Management: A Plan for Action." ARS is expected to use this plan for action in its strategic plan for reducing water contamination. The conferees will expect a report of water quality progress by September 30, 1989.

Included in the total for water quality research is $654,000 for the second year of groundwater research at the Spring and Groundwater Institute in West Virginia.

Develop a Beltsville Honor Roll. The conferees agree it would be well for the Beltsville Agricultural Research Center to establish and display an honor roll of those American scientists who have contributed so much to the human race through their research efforts on food and fiber plants such as corn, wheat, cotton and others.

On such a list, the name of Henry A. Wallace ranks high.

Henry Wallace will be long remembered as a great scientist for his contribution to the people of the world in his development and promotion of hybrid corn—which he made available to the world. This act will rank along with the greatest achievements of history. His works bring to mind what was best set forth by Jonathan Swift:

"And he gave it as his opinion that whoever could make two ears of corn or two blades of grass to grow upon a spot of ground where only one grew before, would deserve better of mankind and do more essential service to his country than the whole race of politicians put together."

"It is not known where he who invented the plough was born or where he died, yet he has affected more the happiness of the world than the whole race of heroes and conquerors who have drenched it with tears and manured it with blood."

This year, which marks the 100th anniversary of the birth of Henry A. Wallace of Iowa, would be a fitting time to begin such an honor roll by honoring this great researcher and promoter of use of his discovery.

Amendment No. 13: Deletes Senate language which earmarked funds for a feasibility study of a plant growth center at Montana State University. This feasibility study has been funded under Agricultural Research Service, Buildings and Facilities.

Amendment No. 14: Amends language proposed by the Senate, which exempts the Grand Forks Human Nutrition Research Center from the limitations on the purchase of land, to clarify that the exemption applies only to limitations in this Act.

Amendment No. 15: Deletes Senate language which earmarked not less than $15,000,000 for research on non-food uses of agricultural commodities. The conferees expect the Department to submit, before

December 31, 1989, a full report to the appropriate committees of Congress detailing the amounts spent on research on non-food uses of agricultural commodities.

Amendment No. 16: Deletes Senate language earmarking $300,000 for a water management research grant. This grant has been addressed under Special Research Grants, Cooperative State Research Service.

Amendment No. 17: Deletes Senate language earmarking $2,500,000 for the Israel-United States Binational Agricultural Research and Development Fund.

Amendment No. 18: Deletes Senate language which directed the Secretary of Agriculture to follow directives in the Senate report regarding research.

BUILDINGS AND FACILITIES

Amendment No. 19: Appropriates $28,350,000 for Buildings and Facilities of the Agricultural Research Service instead of $11,000,000 as proposed by the House and $57,385,000 as proposed by the Senate. The following table reflects the conference agreement:

	House bill	Senate bill	Conference agreement
1. Montana State University Bioscience Center (feasibility)	$50,000	(1)	$50,000
2. Center for Tropical and Subtropical (HI) (feasibility)	50,000	$50,000	50,000
3. Virginia and Maryland Regional College of Veterinary Medicine (feasibility)	50,000		50,000
4. University of Nebraska Center for Advanced Technology (feasibility)		50,000	
(preliminary planning)	250,000		250,000
5. University of Wisconsin, Agriculture biotechnology and genetics building (feasibility)		50,000	50,000
6. Plant Science Center at Kansas State University (preliminary planning)	125,000		
(construction)		1,350,000	1,350,000
7. University of Texas Southwestern Bio-Medical Center (preliminary planning)	950,000		950,000
8. Iowa State University Nutrition Research Center (preliminary planning)	290,000	290,000	290,000
9. Texas A&M (Houston) Institute of Bioscience and Technology (preliminary planning)	625,000		
(construction)		6,275,000	1,250,000
10. Center for Molecular Biology, Rutgers U. (preliminary planning)	250,000	250,000	250,000
11. South Central Agriculture Research Center, Lane, Oklahoma: (feasibility)		50,000	
(preliminary planning)	140,000		140,000
12. Agriculture Biotech Facility at Virginia Tech (preliminary planning)	100,000		100,000
13. National Soybean Lab at Univ. of Illinois (feasibility)		50,000	
(preliminary planning)	250,000		250,000
14. Food Toxicology Center at Michigan State (preliminary planning)	1,250,000		1,250,000
15. University of Arkansas, poultry and isolation facility (construction)		400,000	200,000
16. University of Vermont, Stafford-Aiken Center for Microbiology (construction)		3,800,000	1,400,000
17. University of Vermont, Maple Research Lab (construction)		500,000	
(feasibility)			50,000
18. University of Georgia, Biocontainment Facility (construction)		3,250,000	467,000
19. University of Mississippi Natural Products (planning)		1,600,000	400,000
20. Washington State University Food and Human Nutrition Center (under construction)	2,270,000	5,540,000	3,405,000
21. Gonzaga University Center for Information and Technology Transfer (under construction)	1,250,000	2,500,000	1,875,000
22. National Center for Food and Industrial Agriculture Products (IA) (under construction)	1,000,000	2,800,000	1,700,000
23. U.S. Fruit and Vegetable Lab at Yakima, Washington (construction)	900,000	900,000	900,000
24. U.S. Salinity Lab at Riverside, California (construction)	900,000		900,000
25. Poultry Research Center at West Virginia University (construction)	300,000	3,475,000	1,888,000
26. Plant Gene Expression Center, Albany, CA (greenhouse)		1,000,000	700,000
27. University of Florida Biotech Institute (planning and construction)		6,000,000	600,000
28. South Dakota State University, Northern Plains Biostress Lab: (feasibility and planning)			100,000
(planning and construction)		630,000	
29. University of North Dakota, Earth Systems Science (planning & construction)		8,400,000	4,200,000
30. North Dakota State University Industrial Agriculture and Communications Center: (feasibility and planning)			535,000
(planning and construction)		2,675,000	
31. National Seed Storage Lab (CO) (construction)		5,500,000	2,750,000
	11,000,000	57,385,000	28,350,000

[1] Senate funded under ARS as Amendment No. 13.

U.S. Vegetable Laboratory (SC). The conferees will expect the Department to use funds appropriated for this facility in fiscal year 1988 to develop preliminary design criteria and the estimated cost for planning and construction of a replacement facility.

National Soil Tilth Laboratory (IA). The conferees will expect the Department to use unobligated balances of construction funds at the National Soil Tilth Laboratory, Ames, Iowa, for purchase of moveable equipment.

Center for the Development of Natural Products (MS). The conference agreement provides $400,000 for the Center for the Development of Natural Products at the University of Mississippi instead of $1,600,000 as proposed by the Senate for the development of a program under existing law.

Plant Gene Expression Center (CA). The conferees will expect the Department to use available funds to construct a headhouse for the greenhouses.

Amendment No. 20: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that funds recovered in satisfaction of judgment at Plum Island Animal Disease Center shall be available for use at the Center and the Beltsville Agricultural Research Center.

COOPERATIVE STATE RESEARCH SERVICE

Amendment No. 21: Provides $17,500,000 for grants for cooperative forestry research instead of $12,975,000 as proposed by the House and $20,000,000 as proposed by the Senate.

Amendment No. 22: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *$41,886,000 for contracts and grants for agricultural research under the Act of August 4, 1965, as amended (7 U.S.C. 450i)*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $41,886,000 for special research grants instead of $30,937,000 as proposed by the House and $32,506,000 as proposed by the Senate and deletes Senate language earmarking four specific special research grants. The following table reflects the conference agreement:

[In thousands of dollars]

	House bill	Senate bill	Conference agreement
Special Research Grants (P.L. 89-106):			
Acid precipitation	661	661	661
Agricultural diversification (HI)	156	156	156
Agriculture Policy Institute (IA and MO)	425	500	463
Agricultural trade (ND)		600	600
Agriculture utilization research (MN)	200		200
Alternative cropping systems (Southeast)	285	285	285

Total, Special Research Grants	30,937	32,506	41,886

[1] Senate provided $100,000 to be transferred from the Working Capital Fund (Amendment No. 146).

[2] House provided $50,000 under alternative crops.

[3] Senate provided $500,000 under SCS.

[4] House report specifies to be continued at FY 1988 level.

[5] Senate provided increase of $500,000 under ARS.

[6] Senate provided $300,000 under ARS (Amendment No. 16).

[7] House provided $2,500,000 under competitive grants.

Aquaculture (general). For the aquaculture (general) account the conferees provide a total of $520,000, which includes $175,000 for hybrid striped bass and $200,000 to continue the research at Louisiana State University on the development of commercial crawfish and redfish production.

Livestock and dairy policy research. The conference agreement provides $450,000 for the livestock and dairy policy research project. This program will encourage cooperation on research and extension education projects and will seek to establish working relationships with researchers at other institutions, including other academic institutions (for example, the University of Wisconsin), industry groups and government agencies.

Milk consumption research. The conferees agree that the $285,000 available for a milk consumption study (PA) is to be limited to research and not to be used for promotional purposes.

Potato research. The conference agreement increases the special grant for potato research by $180,000. Of this increase, $100,000 is for the Tri-State Potato Breeding Program in Oregon, Washington, and Idaho, and an $80,000 increase is provided for the Maine program.

Amendment No. 23: Provides $39,716,000 for competitive research grants instead of $29,428,000 as proposed by the House and $41,842,000 as proposed by the Senate. The following table reflects the conference agreement:

[In thousands of dollars]

	House bill	Senate bill	Conference agreement
Competitive research grants:			
Plant Science	1,007	12,126	8,000
Soybean research	(493)	(493)	(493)
Alcohol fuels	(514)	(514)	(514)
Plant science centers		(3,358)	
Animal Science	2,852	6,000	6,000
Brucellosis	(475)	(475)	(475)
Reproductive efficiency	(2,377)		
Pest Science	2,853		2,000
Gypsy moths	(951)		
Boll weevil/Bollworm	(951)		
Pine bark beetle	(951)		
Human Nutrition		2,000	1,000
Biotechnology	19,016	19,016	19,016
Michigan institute [1]	(2,500)		
Midwest consortium [1]	(2,500)	(2,500)	
Stratospheric ozone	3,700	3,700	3,700
Unassigned reduction		−1,000	
Total, competitive research grants	29,428	41,842	39,716

[1] Funded under special research grants.

Pest science. The conference agreement deletes the House earmarking of specific amounts for specific pests. The conferees expect these funds to be devoted to research on the gypsy moth, boll weevil/bollworm and pine bark beetle, but have provided flexibility to shift funds between these pests.

Amendment No. 24: Deletes Senate language earmarking $2,000,000 of competitive research grants for human nutrition research. Funding for this program is provided under Amendment No. 23.

Amendment No. 25: Provides $1,025,000 for research on supplemental and alternative crops and products instead of $641,000 as proposed by the House and $1,050,000 as proposed by the Senate. The following table reflects the conference agreement:

ALTERNATIVE CROPS

	House bill	Senate bill	Conference agreement
Crambe/Winter rapeseed	$200,000	$450,000	$325,000
Mesquite research (TX)	100,000		100,000
Oil from jojoba (NM)	100,000	100,000	100,000
Oilseed (ND)		500,000	500,000
Hybrid striped bass (MD)	191,000		(1)
Milkweed reserach (NE)	50,000		(1)
Total	641,000	1,050,000	1,025,000

[1] Funded under Special Research Grants, Cooperative State Research Service.

Amendment No. 26: Provides $3,668,000 for research under the Critical Agricultural Materials Act instead of $2,168,000 as proposed by the House and $6,368,000 as proposed by the Senate. The conference agreement includes $668,000 for research on guayule and $500,000 for the National Center for Physical Acoustics. For additional funding at the Polymer Institute at the University of Southern Mississippi the conference agreement provides $2,500,000 instead of $1,000,000 as proposed by the House and $5,200,000 as proposed by the Senate.

Amendment No. 27: Provides $3,000,000 for groundwater quality research instead of $2,000,000 as proposed by the House and $4,000,000 as proposed by the Senate. The conference agreement earmarks $168,000 of these funds for a grant to Iowa State University and $1,000,000 for a grant to the University of North Dakota.

Amendment No. 28: Provides $3,152,000 for the establishment and operation of international trade development centers instead of $2,050,000 as proposed by the House and $3,412,000 as proposed by the Senate. The conference agreement includes $1,000,000 for CINTRAFOR and IMPACT in the State of Washington; $1,000,000 for the Center at Iowa State University; $50,000 for the Idaho Trade Center; $227,000 for the University of Kentucky; $575,000 for West Virginia University; and $300,000 for the Wheat Marketing Center in Oregon.

Amendment No. 29: Deletes Senate language earmarking $2,500,000 appropriated in 1988 for the Mid-America World Trade Center. The conferees have been advised that the Department is funding this project.

Amendment No. 30: Provides $4,450,000 for low-input agricultural research instead of $3,900,000 as proposed by the House and $5,000,000 as proposed by the Senate.

Amendment No. 31: Provides $6,377,000 for Federal Administration of the Cooperative State Research Service instead of $5,844,000 as proposed by the House and $6,909,000 as proposed by the Senate. For the shrimp aquaculture research project the conference agreement includes $2,736,000 instead of $2,236,000 as proposed by the House and $3,236,000 as proposed by the Senate. The conference agreement includes funds for initiating shrimp research in Arizona. For the Ag in the Classroom project the agreement includes, $87,000 instead of $174,000 as proposed by the House. For the Office of Grants the agreement includes $529,000 instead of $659,000 as proposed by the House and 398,000 as proposed by the Senate. For peer panels the agreement includes $200,000 instead of $400,000 as proposed by the Senate. For the Iowa Center for Food and Agricultural Products the agreement includes $950,000 instead of $900,000 as proposed by the House and $1,000,000 as proposed by the Senate.

The conference agreement also includes the following amounts as proposed by the House and by the Senate: support for the U.S. Trade Representative at the Iowa Center (750,000); curriculum development at Mississippi Valley State University ($625,000); Office of Biotechnology ($250,000); and for increased pay costs ($250,000).

Amendment No. 32: Appropriates a total of $315,107,000 to the Cooperative State Research Service instead of $284,276,000 as proposed by the House and $315,420,000 as proposed by the Senate.

Amendment No. 33: Deletes Senate language which provided that earmarkings for competitive grants in the Senate report are not binding.

EXTENSION SERVICE

Amendment No. 34: Deletes House language which provided for the transfer of $39,627,000 from the food stamp program to EFNEP and restores House language providing $3,500,000 for the urban gardening program. The conferees agree to a direct appropriation for EFNEP because of a concern that the budget request for food stamps may be underestimated. The conferees expect the Department to provide a report on the successes of the urban gardening program.

Amendment No. 35: Restores House language providing $970,000 for the farm sefety program.

Amendment No. 36: Restores House language providing $47,000 for the integrated reproductive management program.

Amendment No. 37: Provides $950,000 for the rural development centers as proposed by the Senate instead of $903,00 as proposed by the House.

Amendment No. 38: Provides $953,000 for extension work in the District of Columbia instead of $935,000 as proposed by the House and $970,000 as proposed by the Senate.

Amendment No. 39: Provides $1,500,000 for a groundwater quality program instead of $1,000,000 as proposed by the House and $2,000,000 as proposed by the Senate.

Amendment No. 40: Deletes House language referencing a section number. For grants for financially stressed farmers and dislocated farmers the conference agreement includes $3,350,000. These grants are available for pilot programs now underway in the States of Nebraska, Iowa, Missouri, North Dakota, Kansas, Oklahoma, Mississippi, and Vermont.

Amendment No. 41: Amends Senate language providing $7,733,000 for a number of specific projects, to provide $2,765,000 for renewable resources extension work. The other projects have been considered under Federal Administration.

Amendment No. 42: Appropriates $352,287,000 for the Extension Service, excluding Federal Administration, instead of $348,957,000 as proposed by the House and $353,255,000 as proposed by the Senate.

Amendment No. 43: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *"$9,083,000"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement appropriates $9,083,000 for Federal Administration of the Extension Service instead of $7,550,000 as proposed by the House and $5,757,000 as proposed by the Senate.

The following table reflects the conference agreement for Federal Administration and recommends not to exceed the following amounts:

	House bill	Senate bill	Conference agreement
General administration	$4,866,000	$4,991,000	$4,866,000
Pilot tech. transfer (OK, MS)	333,000	(1)	333,000
Rural development (NE)	190,000		190,000
Rural development (OK)	433,000		433,000
ATTRA (TN)	750,000	(2)	900,000
Crambe/rapeseed (NE)	65,000		65,000
Ag. development Pacific	650,000	650,000	650,000
Pay costs	58,000	116,000	116,000
New England vertebrate (MA)	80,000		80,000
Interpretive center (WI)	50,000		50,000
Project future (MN)	75,000		75,000
Rural rehabilitation (GA)		(3)	129,000
Agricultural film (NY)		(4)	175,000
Plant materials center (AR)		(5)	
Pilot tech. transfer (FL)		(6)	167,000
Rural education pilot (ND)		(7)	854,000
Total	7,550,000	5,757,000	9,083,000

[1] Senate provided $330,000 as a 3(d) grant.
[2] Senate provided $1,500,000 as a 3(d) grant.
[3] Senate provided $258,000 as a 3(d) grant.
[4] Senate provided $250,000 as a 3(d) grant.
[5] Senate provided $100,000 as a 3(d) grant.
[6] Senate provided $250,000 as a 3(d) grant.
[7] Senate provided $1,138,000 as a 3(d) grant.

Agricultural Film. The conferees provide funds for a film on agriculture in order that the public will have a true picture of American agriculture.

Plant Materials Center. The conferees expect the Extension Service to provide assistance in disseminating research information in connection with the ARS Small Farms Research Center and the Plant Materials Center at Booneville, Arkansas.

NATIONAL AGRICULTURAL LIBRARY

Amendment No. 44: Appropriates $14,268,000 for the National Agricultural Library instead of $13,446,000 as proposed by the House and $14,682,000 as proposed by the Senate.

Animal Welfare. The conference agreement provides funding for the information service in conjunction with the Animal Welfare Act.

Amendment No. 45: Provides $370,000 for the National Center for Agricultural Law Research and Information at the Leflar School of Law in Fayetteville, Arkansas, instead of $583,000 as proposed by the Senate. The House had no similar provision. The conferees direct that no more than 10 percent of these funds will be retained by the National Agricultural Library for administrative expenses.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

Amendment No. 46: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *"$331,207,000"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement appropriates $331,207,000 for Salaries and Expenses of the Animal and Plant Health Inspection Service instead of $329,273,000 as proposed by the House and $328,170,000 as proposed by the Senate.

The following table sets forth the conference agreement by program:

[In thousands of dollars]

	House bill	Senate bill	Conference agreement
1. Plant disease and pest control:			
(a) Plant protection programs:			
(1) Africanized bee	1,950	1,950	1,950
(2) Bio control	3,318	4,318	4,318
(3) Boll weevil	9,600	9,677	9,600
(4) Golden nematode	1,018	950	950
(5) Grasshopper and Mormon cricket	3,850	3,850	3,850
Reserve fund	5,000	5,000	5,000
(6) Gypsy moth	5,442	5,442	5,442
(7) Imported fire ant	5,000	5,000	5,000
(8) International programs	2,526	2,110	2,318
(9) Mediterranean fruit fly	9,706	10,006	9,856
(10) Mexican fruit fly	1,553	1,553	1,553
(11) Miscellaneous plant pests	1,124	1,124	1,124
(12) Noxious weeds	443	590	597
(13) Pest detection	4,466	3,928	4,197
(14) Pink bollworm	1,700	1,087	1,700
(15) Witchweed	5,281	5,281	5,281
Total, Plant protection	61,977	61,866	62,736
(b) Agricultural quarantine inspection	66,468	66,468	66,468
Total, Plant disease and pest control	128,445	128,334	129,204
2. Animal disease and pest control:			
(a) Animal health programs:			
(1) Animal welfare	6,197	6,197	6,197
(2) Brucellosis erdication	55,841	55,841	55,841
(3) Cattle ticks	6,258	6,258	6,258
(4) Animal disease detection	4,800	3,052	4,800
(5) Foot-and-mouth disease (Darien Gap)	3,053	3,053	3,053
(6) Horse protection	161	161	161
(7) Import-export inspection	8,604	8,604	8,604
(8) International programs	2,330	2,034	2,034
(9) Animal health compliance and enforcement	14,694	14,694	14,694
(10) National poultry improvement plan	219	219	219
(11) Poultry disease	643	643	643
(12) Pseudorabies	2,400	2,944	2,672
(13) Screwworm	32,045	32,045	32,045
(14) Swine health protection	3,265	3,265	3,265
(15) Tuberculosis eradication	3,889	3,889	3,889
(16) Veterinary diagnostics	12,371	10,867	12,371
(17) Miscellaneous animal diseases	1,998	1,998	1,998
Total, Animal health	158,768	155,764	158,744
(b) Veterinary biologics	8,641	8,641	8,641
(c) Animal damage control	24,419	26,431	25,618
Total, Animal disease and pest control	191,828	190,836	193,003
3. Biotechnology	4,500	4,500	4,500
4. Contingencies:			
(a) Plant disease and pest control	2,250	2,250	2,250
(b) Animal disease and pest control	2,250	2,250	2,250
Total, Contingencies	4,500	4,500	4,500
Total, Salaries and expenses	329,273	328,170	331,207

The conferees agree that reductions made in the brucellosis program shall not result in reduced funding for the six high-incidence states.

For the Mediterranean fruit fly program the conference agreement provides $9,856,000 instead of $9,706,000 as proposed by the House and $10,006,000 as proposed by the Senate. The amount includes funds for the Caribbean Fruit Fly Protocol.

For the noxious weeds program the conference agreement provides $597,000 instead of $443,000 as proposed by the House and $590,000 as proposed by the Senate. Included in the conference agreement are $150,000 for common crupina in Idaho; $51,000 for hydrilla work in Florida; $100,000 for hydrilla control in the Imperial Valley, California; $175,000 for control of goatsrue in Utah; and $121,000 for weed identification work.

The conferees are concerned by reports that 15 percent of the 1988 funds for pseudorabies were used for administrative overhead and direct that not more than 5.15 percent of this account be deducted for administrative support.

For the animal damage control program the conference agreement provides $25,618,000 instead of $24,419,000 as proposed by the House and $26,431,000 as proposed by the Senate.

In addition to the programs shown on the following table, the conference agreement provides for all programs operated in 1988 at the 1988 level, as well as a $385,000 increase for equipment needs related to the nationwide program and a $500,000 increase to restore predator control in the West to not less than the fiscal year 1987 program level.

Taste aversion (AZ, CA, NV, TX)	$100,000
Grackle control (TX)	300,000
Rat control (HI)	240,000
Guarding dog (OR, WA, WY, ID, MN, MT)	250,000
Maple sap pipelines (VT)	52,000
Beaver damage (WI)	100,000
Mountain beaver (Western States)	100,000
Delta States (MS, AR, LA)	275,000
Deer damage to seedlings (Northeast)	150,000
Blackbird-resistant sunflower research (ND)	200,000
Arkansas program	207,000
Blackbird control (ND, SD)	368,000

The conferees are aware of increased problems relating to animal damage in the Eastern States and expect APHIS to provide additional technical assistance to the area.

The conferees are concerned about the possible effect that the Animal and Plant Health Inspection Service's planned reorganization may have on program delivery units of the animal welfare program. The conferees expect APHIS to continue to consult with animal welfare groups during and after the implementation of the reorganization to ensure that a more effective animal care program is established. The conferees will expect not only an improvement in the quality of the animal welfare inspections, but an increase in the frequency of those inspections.

Also, the conferees are extremely concerned about the length of time involved in issuing parts I and II of the final regulations of the Animal Welfare Act, as amended by the Food Security Act of 1985, and direct the Department to issue the final regulations without delay.

BUILDINGS AND FACILITIES

Amendment No. 47: Appropriates $2,546,000 for Buildings and Facilities of the Animal and Plant Health Inspection Service as proposed by the House instead of $2,847,000 as proposed by the Senate.

FOOD SAFETY AND INSPECTION SERVICE

Amendment No. 48: Appropriates $404,954,000 for the Food Safety and Inspection Service as proposed by the House instead of $405,680,000 as proposed by the Senate.

FEDERAL GRAIN INSPECTION SERVICE

Amendment No. 49: Appropriates $8,115,000 for the Federal Grain Inspection Service as proposed by the House instead of $8,255,000 as proposed by the Senate.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

Amendment No. 50: Appropriates $33,373,000 for the Agricultural Marketing Service, Marketing Services, as proposed by the House instead of $33,541,000 as proposed by the Senate. The amount provided restores funding for the Federal Seed Act and Wholesale Market Development Program.

On August 22, 1988, USDA announced it would pay storage charges under certain market conditions in order to stimulate increased sales of U.S. cotton at competitive prices and followed with an administrative decision which adversely affects warehousemen. The conferees believe the effect of this policy is unfair to warehousemen and should be reviewed and corrected.

LIMITATION ON ADMINISTRATIVE EXPENSES

Amendment No. 51: Provides $34,000,000 for administrative expenses as proposed by the Senate instead of $31,701,000 as proposed by the House.

Amendment No. 52: Deletes Senate language that allowed the Agricultural Marketing Service to exceed the limitation on administrative expenses by 10 percent if the crop size is understated and/or other uncontrollable factors occur.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

Amendment No. 53: Provides $7,811,000 for the Strengthening Markets, Income, and Supply account as proposed by the House instead of $7,911,000 as proposed by the Senate.

OFFICE OF TRANSPORTATION

Amendment No. 54: Appropriates $2,397,000 for the Office of Transportation as proposed by the House instead of $2,419,000 as proposed by the Senate.

FEDERAL CROP INSURANCE CORPORATION

ADMINISTRATIVE AND OPERATING EXPENSES

Amendment No. 55: Appropriates $201,992,000 for administrative and operating expenses of the Federal Crop Insurance Corporation instead of $200,426,000 as proposed by the House and $203,571,000 as proposed by the Senate.

COMMODITY CREDIT CORPORATION

REIMBURSEMENT FOR NET REALIZED LOSSES

Amendment No. 56: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows: *but not to exceed $8,828,286,000,*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides not to exceed $8,828,286,000 for reimbursement for net realized losses of the Commodity Credit Corporation instead of not to exceed $6,828,286,000 as proposed by the House and an indefinite amount (estimated to be $9,828,286,000) as proposed by the Senate.

GENERAL SALES MANAGER

Amendment No. 57: Provides $7,200,000 for the Office of the General Sales Manager as proposed by the House instead of $7,268,000 as proposed by the Senate.

TITLE II—RURAL DEVELOPMENT PROGRAMS

RURAL DEVELOPMENT ASSISTANCE

FARMERS HOME ADMINISTRATION

RURAL HOUSING INSURANCE FUND

Amendment No. 58: Provides $1,844,990,000 for loans from the Rural Housing Insurance Fund as proposed by the House instead of $1,694,424,000 as proposed by the Senate. The conference agreement includes the following loan levels:

Low-income housing (502)	$1,266,710,000
Site development (524)	570,000
Rental housing (515)	554,900,000
Housing repair (504)	11,330,000
Farm labor (514)	11,480,000
Total	1,844,990,000

Amendment No. 59: Provides that $1,794,420,000 of the loans from the Rural Housing Insurance Fund shall be for subsidized interest loans to low-income borrowers as proposed by the House instead of $1,643,854,000 as proposed by the Senate.

Amendment No. 60: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides for the continuance of rural housing programs in Lincoln, North Dakota. The conference agreement continues a proviso in the 1988 Act which is amended to be permanent law.

AGRICULTURAL CREDIT INSURANCE FUND

Amendment No. 61: Provides $95,000,000 for direct and insured farm ownership loans and $474,000,000 for guaranteed farm ownership loans instead of $115,000,000 and $454,000,000, respectively, as proposed by the House and $75,000,000 and $494,000,000, respectively, as proposed by the Senate.

Amendment No. 62: Provides $14,000,000 for water development, use, and conservation loans as proposed by the House instead of $9,000,000 as proposed by the Senate.

Amendments No. 63 and 64: Provide $900,000,000 for direct and insured operating loans, the same level as proposed by both the House and Senate. The agreement provides $2,300,000,000 for guaranteed operating loans as proposed by the House instead of $3,100,000,000 as proposed by the Senate. The House level for guaranteed loans is the maximum allowable under the credit allocation for new guarantee commitments. In total, direct and guaranteed operating loans are $3,200,000,000 as proposed by the House instead of $4,000,000,000 as proposed by the Senate. The conferees agree that should demand for guaranteed operating loans exceed $2,300,000,000, Congress will review the situation during fiscal year 1989.

Amendments No. 65 and 66: Provide $3,000,000 for matching grants for a state mediation program as proposed by the Senate. The House bill contained no similar provision. The conferees will expect the Department to keep the appropriate committees of Congress advised of the accomplishments of this program.

RURAL DEVELOPMENT LOAN FUND

(INCLUDING TRANSFERS OF FUNDS)

Amendment No. 67: Provides for total direct loans from the Rural Development Loan Fund of $14,000,000 as proposed by the Senate instead of $6,500,000 as proposed by the House.

Amendment No. 68: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *$3,000,000 and from funds transferred from the Rural Development Insurance Fund, $11,000,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement transfers $11,000,000 to the Rural Development Loan Fund from the Rural Development Insurance Fund as proposed by the Senate. The House bill contained no similar provision. The conference agreement deletes Senate language requiring that the funds be made available within six months of enactment.

RURAL WATER AND WASTE DISPOSAL GRANTS

The conferees request that the Farmers Home Administration fund the high-priority Kimzey Regional Water District proposal with the unused rural water and sewer grant and loan funds returned from other states into the national pool.

COMPENSATION FOR CONSTRUCTION DEFECTS

Amendment No. 69: Appropriates $500,000 for compensation for construction defects as proposed by the House instead of $713,000 as proposed by the Senate.

RURAL DEVELOPMENT GRANTS

Amendment No. 70: Appropriates $6,500,000 for rural development grants as proposed by the Senate instead of $540,000 as proposed by the House. Within the funds available are $90,000 for planning of industrial development strategies in Bryan and Hughes Counties, Oklahoma; $300,000 for preliminary planning associated with the University of Kentucky's Somerset Community College program; $150,000 for planning the East Central Agriplex in Ada, Oklahoma; $100,000 for sheep production enterprises in North Dakota; and $400,000 for planning the Advanced Technology Center at Indian Hills Community College, Iowa.

The conferees expect the Farmers Home Administration to review and consider the proposal for a grant to further develop the horticulture demonstration project at the Pee Dee Farmer's Market Center in Florence, South Carolina.

Amendment No. 71: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which has the effect of earmarking $500,000 for grants to qualified nonprofit organizations to provide technical assistance for rural communities for improving transportation systems and facilities.

OFFICE OF THE ADMINISTRATOR

Amendment No. 72: Restores House language establishing a separate account for the Office of the Administrator of the Farmers Home Administration and appropriates $600,000 for that office. The Senate proposed to fund this office under FmHA salaries and expenses.

The conferees will expect the Administrator of the Farmers Home Administration to submit monthly reports on vacant positions and lending activity of the agency to the appropriate committees of Congress.

SALARIES AND EXPENSES

Amendment No. 73: Provides $414,734,000 for salaries and expenses for the Farmers Home Administration as proposed by the House instead of $415,334,000 as proposed by the Senate.

Amendment No. 74: Earmarks $2,868,000 for the circuit rider program instead of $2,675,000 as proposed by the House and $3,000,000 as proposed by the Senate.

Amendment No. 75: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That notwithstanding any other provision of law, $2,000,000 of this appropriation shall be available solely to carry out H.R. 5378 and S. 2836, the Lower Missis-*

sippi Delta Development Act, as introduced in the House of Representatives on September 26, 1988, and in the Senate on September 27, 1988, and the provisions of such bills are hereby incorporated by reference and made a part of this Act

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $2,000,000 to fund the Lower Mississippi Delta Development Commission as proposed by the Senate. The agreement amends Senate language so as to reference H.R. 5378 and S. 2836 rather than S. 2246 since these bills represent a compromise position developed by the appropriate legislative committees.

The conferees agree that any action beyond the development of the required plan will be referred to the appropriate legislative committees for any further action. No action will be taken to fund any aspect of any plan or portion thereof until the appropriate authorizing legislation has been enacted into law.

RURAL ELECTRIFICATION ADMINISTRATION

RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND LOAN AUTHORIZATIONS

Amendment No. 76: Deletes Senate language requiring REA to make full use, during fiscal year 1989, of funds which were made available during previous years but were not expended. Such funds were to be made available without regard to quotas or other restrictions imposed within the Executive Branch.

REIMBURSEMENT TO THE RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND

Amendment No. 77: Appropriates $341,000,000 for reimbursement to the Rural Electrification and Telephone Revolving Fund as proposed by the Senate instead of $327,675,000 as proposed by the House.

RURAL ECONOMIC DEVELOPMENT SUBACCOUNT

Amendment No. 78: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $540,000 for grants and loans under the Rural Economic Development Subaccount.

OFFICE OF THE ADMINISTRATOR

Amendment No. 79: restores House language establishing a separate account for the Office of the Administrator, Rural Electrification Administration and appropriates $160,000 for that office. The Senate proposed to fund this office under the salaries and expenses account for REA.

The conferees agree that the Administrator of the Rural Electrification Administration shall submit monthly reports on vacant positions and lending activity of the agency to the appropriate committees of Congress.

The Rural Electrification Administration, in view of its expanded authority and new activities, is expected to report to the appropriate committees of Congress on its overall operations each year in order to assure that its primary obligation of providing electric and telephone service, including area coverage to rural people at reasonable rates, is not being limited or endangered.

The conferees are concerned that REA has failed to implement section 313 of the Rural Electrification Act of 1936, which was established by the Reconciliation Act of December 1987 (P.L. 99-203). REA has not issued regulations or disbursed any of the funds from the Rural Economic Development Subaccount as directed by the law. The conferees direct REA to publish such regulations immediately and to implement section 313 and other sections of the legislation that would enhance economic and job creation in rural areas.

SALARIES AND EXPENSES

Amendment No. 80: Appropriates $31,124,000 for salaries and expenses of the Rural Electrification Administration as proposed by the House instead of $31,284,000 as proposed by the Senate.

Amendment No. 81: Deletes Senate language which provided that not less than two percent of the full-time employees of REA shall be used to establish a rural economic development unit.

The conferees will expect the Rural Electrification Administration to establish such a unit within REA to provide professional economic development assistance to rural electric and telephone systems on specific economic and community development projects and activities.

CONSERVATION

OFFICE OF THE ASSISTANT TO THE SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

Amendment No. 82: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

CONSERVATION

OFFICE OF THE ASSISTANT TO THE SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

For necessary salaries and expenses of the Office of the Assistant to the Secretary for Natural Resources and Environment to administer the laws enacted by the Congress for the Forest Service and the Soil Conservation Service, $266,000: Provided, That the position of the Assistant to the Secretary for Natural Resources and Environment, for maximum results, should be filled by an experienced employee of the Soil Conservation Service or the Forest Service.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes Senate language regarding an Office of the Assistant Secretary for Natural Resources and Environment, and amends the language to make the office an assistant to the Secretary. The conference agreement further provides that the position of the Assistant to the Secretary, for maximum results, should be filled by an experienced employee of the Soil Conservation Service or the Forest Service.

SOIL CONSERVATION SERVICE

CONSERVATION OPERATIONS

Amendment No. 83: Appropriates $403,262,000 for conservation operations of the Soil Conservation Service as proposed by the House instead of $406,846,000 as proposed by the Senate. Within the amount provided, the conference agreement includes $250,000 for development of a multipurpose cadastre or land information system in cooperation with the City of Northport, Alabama; $250,000 to continue the Michigan sub-irrigation project; $176,000 for a joint effort by Alcorn State University and SCS to conduct a study of alternative conservation practices on small farms where traditional measures are not practicable; and $429,000 for a tree windbreak project in North Dakota, to be carried out in cooperation with the North Dakota Extension Service.

The conference agreement also includes $250,000 for the third and final year of the lands records information project at the University of Wisconsin.

The conferees are pleased with the progress being made on the Chesapeake Bay cleanup project and direct that in fiscal year 1989 the Department support this effort at a level of not less than 41 SCS staff positions.

The conferees are aware of the heavy sedimentation that is occurring at Red Rock Reservoir in Iowa and expect SCS to make available $100,000 to continue to work towards a solution to the problem.

The conference agreement includes $150,000 for start-up costs to establish a Soil Conservation Service plant materials center at Golden Meadow, LA and $150,000 for the East Texas plant materials center currently operated by the local conservation districts.

The conferees direct the SCS to continue to provide $150,000 in technical assistance to soil conservation districts in Idaho, for measures under the agricultural abatement plan which was completed in 1979 in response to the Clean Water Act (P.L. 92-500).

Amendment No. 84: Deletes House language which provided that the Chief of the Soil Conservation Service shall report directly to the Secretary of Agriculture.

Amendment No. 85: Deletes Senate language earmarking $500,000 for a grant to the University of Oklahoma for drought and weather assessment. This grant was addressed under the special grants program of the Cooperative State Research Service.

WATERSHED AND FLOOD PREVENTION OPERATIONS

The conference agreement deletes an earmark in the Senate report for emergency watershed protection measures in Arkansas. Funds for that purpose were provided in the Dire Emergency Supplemental Appropriations Act for fiscal year 1988 (P.L. 100-393). Also, the conference agreement deletes the earmark for North Deer Creek, Oklahoma, and the conferees expect SCS to support this ongoing project.

The conferees recommend up to $2,000,000 to complete repair work on the Soak Creek watershed project in Sophia, West Virginia, and up to $3,500,000 to complete repair work resulting from the 1983 storm in the Jackson, Mississippi, area.

The conference agreement also includes $466,000 which is to be combined with any funds remaining from the amount provided in fiscal year 1988, to complete work on the "Smokey" or north section of Charleston, Mississippi, including part of the Town Creek watershed project.

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

FORESTRY INCENTIVES PROGRAM

Amendment No. 86: Appropriates $12,446,000 for the forestry incentives program instead of $11,891,000 as proposed by the House and $13,000,000 as proposed by the Senate.

WATER BANK PROGRAM

Amendment No. 87: Appropriates $9,000,000 for the water bank program instead of $5,000,000 as proposed by the House and $12,000,000 as proposed by the Senate.

EMERGENCY CONSERVATION PROGRAM

Amendment No. 88: Appropriates $5,000,000 for the emergency conservation program as proposed by the Senate instead of $3,000,000 as proposed by the House. The conferees expect ASCS to make emergency conservation program funds available to farmers experiencing drought conditions in areas where irrigation of crops is a normal farming practice. Measures included will be the extension and drilling of wells, the use of temporary watering systems and other temporary measures necessary to avoid drought losses of commercially produced agricultural crops. Drought will be measured by snowpack, precipitation history and reservoir capacity.

COLORADO RIVER BASIN SALINITY CONTROL PROGRAM

Amendment No. 89: Appropriates $5,452,000 for the Colorado River Basin salinity control program instead of $4,904,000 as proposed by the House and $6,000,000 as proposed by the Senate.

CONSERVATION RESERVE PROGRAM

Amendment No. 90: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *, but not to exceed $61,461,000, shall be available for payment to technicians of the Soil Conservation Service for services*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement restores House language but amends the limitation to $61,461,000. The House bill provided that four percent of the Conservation Reserve Program funds, not to exceed $48,362,000, would be available for payment of SCS technicians. The Senate amendment struck the House language and provided for a transfer of four percent of CRP funds to SCS for payment of its technicians.

Amendment No. 91: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows: *: Provided further, That not to exceed $385,000,000 of the funds in this Act, or otherwise made available by this Act, shall be available to provide cost share assistance on crop year 1989 acreage during fiscal year 1989; for the purposes of section 202 of the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119, September 29, 1987), to the extent that this proviso has the effect of transferring an outlay of the United States from one fiscal year to an adjacent fiscal year, such transfer is a necessary (but secondary) result of a significant policy change*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement restores House language and adds a tehnical amendment related to budget procedures.

TITLE III—DOMESTIC FOOD PROGRAMS

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

Amendments No. 92 and 93: Provide a total of $4,590,816,000 for the child nutrition programs as proposed by the Senate instead of $4,624,127,000 as proposed by the House. Within this total, the agreement provides for an appropriation of $497,544,000 as proposed by the Senate instead of $530,855,000 as proposed by the House.

The conference agreement provides up to $5,200,000 to develop a system for independent verification of school food service claims. The Food and Nutrition Service recently disclosed a major change in the operation of this system from the presentation of the original budget request. The Committees on Appropriations expect to be notified of any changes from the budget justification.

The conferees direct that $2,600,000 of the funds provided for the independent verification system be used to conduct training programs for state and local school food service authorities in the implementation of new accurate meal counting and claim procedures. The conferees further direct the Department to select and coordinate school food service operations for review in cooperation with the states to avoid duplication within the state agency review cycle; to conduct its reviews consistent with new uniform standards for state-conducted reviews; and to share the results with the states. In conducting the pilot verification project the Department should use statistically representative samples of school food service operations. The conferees expect the Food and Nutrition Service to provide a report to the appropriate committees of Congress on its plans for the independent verification system. No additional funds will be provided until the appropriate committees of Congress have evaluated the effectiveness of the project.

The conferees agree to provide $50,000 to continue to study the Mississippi School Food Service Institute.

SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS AND CHILDREN (WIC)

Amendment No. 94: Appropriates $1,929,362,000 for the special supplemental food program for women, infants and children (WIC) as proposed by the Senate instead of $1,927,362,000 as proposed by the House. The conference agreement amends Senate language which required $2,000,000 for the farmers' market coupon demonstration project. The agreement provides that $2,000,000 may be used for the farmers' market coupon demonstration project.

COMMODITY SUPPLEMENTAL FOOD PROGRAM

Amendment No. 95: Appropriates $50,000,000 for the commodity supplemental food program as proposed by the Senate instead of $53,500,000 as proposed by the House.

FOOD STAMP PROGRAM

Amendment No. 96: Appropriates $13,598,955,000 for the food stamp program as proposed by the Senate instead of $13,427,955,000 as proposed by the House. The total includes funding for the provisions of the Hunger Prevention Act of 1988.

FOOD DONATIONS PROGRAMS FOR SELECTED GROUPS

Amendment No. 97: Appropriates $40,000,000 for the purchase of additional commodities for soup kitchens and food banks as authorized by the Hunger Prevention Act of 1988 as proposed by the Senate. The House had no similar provision. The conference agreement provides a total of $239,147,000 for food donations programs for selected groups as proposed by the Senate instead of $199,147,000 as proposed by the House. The amount includes $141,293,000 for the elderly feeding program and $57,854,000 for the needy family program.

TEMPORARY EMERGENCY FOOD ASSISTANCE PROGRAM

Amendment No. 98: Appropriates $50,000,000 for the temporary emergency food assistance program as proposed by the House instead of $47,280,000 as proposed by the Senate. The conference agreement deletes Senate language regarding the allocation of TEFAP funding.

Amendment No. 99: Appropriates $120,000,000 for the purchase of commodities as authorized by section 104 of the Hunger Prevention Act of 1988 instead of $145,000,000 as proposed by the Senate. The House bill contained no similar provision.

FOOD PROGRAM ADMINISTRATION

Amendment No. 100: Appropriates $89,223,000 for food program administration instead of $86,494,000 as proposed by the House and $91,952,000 as proposed by the Senate.

HUMAN NUTRITION INFORMATION SERVICE

Amendment No. 101: Appropriates $8,823,000 for the Human Nutrition Information Service as proposed by the Senate instead of $9,013,000 as proposed by the House.

The conferees agree and reaffirm that there shall be no change in the respective roles of the USDA and the Department of Health and Human Services with respect to nutrition information services and research. These roles are based on current law (Public Law 95-113, as amended) which indicates that the USDA is the lead agency for human nutrition research and dissemination except for biomedical aspects of human nutrition concerned with diagnosis or treatment of disease.

TITLE IV—INTERNATIONAL PROGRAMS

FOREIGN AGRICULTURAL SERVICE

Amendment No. 102: Appropriates $95,017,000 for the Foreign Agricultural Service instead of $92,017,000 as proposed by the House and $100,900,000 as proposed by the Senate.

Amendment No. 103: Deletes Senate language earmarking $900,000 for agricultural aid and trade missions.

AGRICULTURAL TRADE MISSIONS

Amendment No. 104: Restores House language appropriating $400,000 for agricultural aid and trade missions.

PUBLIC LAW 480

Amendment No. 105 and 106: Provide $851,900,000 for the titles I and III programs of Public Law 480 as proposed by the Senate instead of $817,000,000 as proposed by the House. Within the above total, the conference agreement appropriates $468,100,000 as proposed by the Senate instead of $428,200,000 as proposed by the House. Considering the reduced level of supplies on hand and higher commodity prices, the conferees have agreed to higher levels as proposed by the Senate.

Recognizing the recent urgent demands for food assistance in various regions throughout the world, the conferees direct the Department to meet statutory requirements and minimum tonnage levels under P.L. 480 through flexible administration and timely use of discretionary authority. In addition, the conferees recommend that section 416(b) commodities be made available for emergencies and to maintain ongoing projects in the Third World.

OFFICE OF INTERNATIONAL COOPERATION AND DEVELOPMENT

Amendment No. 107: Appropriates $5,319,000 for the Office of International Cooperation and Development as proposed by the Senate instead of $3,827,000 as proposed by the House.

SCIENTIFIC ACTIVITIES OVERSEAS

(FOREIGN CURRENCY PROGRAM)

Amendment No. 108: Appropriates $1,000,000 for scientific activities overseas as proposed by the House instead of $1,500,000 as proposed by the Senate.

TITLE V—RELATED AGENCIES

DEPARTMENT OF HEALTH AND HUMAN SERVICES

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

Amendment No. 109: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following: *without regard to chapter 51 and subchapter III of chapter 53, and section 2105(a) of chapter 21 of title 5, United States Code.*

For purposes of establishing and implementing a demonstration project that authorizes the Secretary to use the facilities of any public or private cooperative, with the permission of any such cooperative, up to $3,000,000 may be made available.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides the FDA with authority to allow temporary clerical and technical employees to be hired by contract. This authority is similar to that which is provided to other agencies in the bill and is not intended to be used to hire full-time professional or scientific assistants.

The conference agreement also provides that up to $3,000,000 may be made available to establish and implement a biotechnology demonstration project at the National Center for Toxicological Research. The conferees will expect the Department to keep the appropriate committees of Congress fully informed as to this project.

The conference agreement deletes, without prejudice, Senate statutory language concerning scientific peer review groups.

The conference agreement deletes Senate statutory language providing up to $4,000,000 be made available to carry out the provisions of section 10 of the Medical Device Amendments of 1976. Within the funds available, the conferees direct FDA to provide up to $4,000,000 to assist small manufacturers of devices in complying with FDA regulations provided no ongoing program is adversely affected.

The conference agreeement deletes, without prejudice, Senate statutory language for training grants and contracts in the field of regulatory review medicine. The conferees expect the FDA to provide a report to the appropriate committees of Congress by January 15, 1989, on the difficulties it is having in recruiting medical officers and other scientists with skills necessary in the FDA review process and make recommendations to assist recruitment and training efforts.

From within funds available, the Animal and Plant Health Inspection Service, the Agricultural Marketing Service, and the Food and Drug Administration should cooperate in solving the problem *salmonella enterititis,* which endangers humans as well as the egg industry. The conferees are particularly concerned about the apparent inaction of the Department of Agriculture in addressing this crisis in the egg industry. Existing law is clear. It provides the Department of Agriculture with the primary authority and responsibility of insuring animal health and safety through APHIS and the Agricultural Marketing Service, and it provides the Food and Drug Administration with the primary authority and responsibility of insuring human health and safety. The conferees expect the agencies to investigate, identify and eradicate the problem in poultry intended for egg production. Where an outbreak of *salmonella enterititis* exists or when an outbreak occurs, the conferees expect the agencies to utilize all appropriate methods, such as mandatory testing and inspection where such methods are deemed appropriate, to resolve this problem and prevent it in the future.

No funds are included in this Act for the Food and Drug Administration to promulgate rules and regulations that require changes in fruit juice labeling.

Amendment No. 110: Reported in true disagreement.

Amendment No. 111: Deletes Senate language which provided additional funds for orphan drug work by transferring such funds from other programs. Within the amount provided for the Food and Drug Administration, the conference agreement includes $7,000,000 for orphan drug work, of which not less than $4,900,000 shall be available only for orphan products grants and contracts.

BUILDINGS AND FACILITIES

Amendment No. 112: Appropriates $23,950,000 for Buildings and Facilities of the Food And Drug Administration as proposed by the House instead of $26,450,000 as proposed by the Senate. The conference agreement provides full funding for the AIDs building, since $2,500,000 of prior-year unobligated balances will be used to begin work on the planning and design of this building. The conferees expect FDA to retain full title to the building.

DEPARTMENT OF THE TREASURY

PAYMENTS TO THE FARM CREDIT SYSTEM FINANCIAL ASSISTANCE CORPORATION

Amendment No. 113: Limits funds available to the Farm Credit System Assistance Board to $2,000,000 instead of $1,352,000 as proposed by the House and $2,235,000 as proposed by the Senate.

The conferees are disappointed in the actions and operation of the Farm Credit System Financial Assistance Corporation. The conferees expect the Corporation to be more efficient in the operation of its day-to-day activities and more cognizant of the impact of the timeliness of its decisions on the farmer and the Farm Credit System institutions. The conferees expect the Corporation to keep the appropriate committees of Congress advised as to its operation and its expenditures.

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

Amendment No. 114: Appropriates $34,723,000 for the Commodity Futures Trading Commission instead of $33,898,000 as proposed by the House and $35,547,000 as proposed by the Senate.

FARM CREDIT ADMINISTRATION

LIMITATION ON REVOLVING FUND FOR ADMINISTRATIVE EXPENSES

Amendment No. 115: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which has the effect of making the limitation on expenses include both expenses incurred in the course of regulating the banks and associations of the Farm Credit System and those incurred in the regulation of the new Federal Agricultural Mortgage Corporation.

TITLE VI—GENERAL PROVISIONS

Amendment No. 116: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that the limitation in Sec. 621 on reimbursement to the General Services Administration shall also apply to user fee and other nonappropriated accounts.

Amendment No. 117: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds language to Sec. 626 which has the effect of setting a minimum employment ceiling of 7,350 for the Food and Drug Administration.

Amendments Nos. 118 and 119: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendments of the Senate which make the provision regarding normalized prices permanent law and extend the provision to apply to any other Act.

Amendment No. 120: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following: *Also, none of the funds in this Act, or otherwise made available by this Act, shall be used to sell or offer for borrower prepayment more loans from the Rural Development Insurance Fund than needed to realize net proceeds of $584,000,000, the total level authorized by the Omnibus Reconciliation Act of 1986, Public Law 99-509, and the Continuing Appropriations Act of 1987, Public Law 99-591. Further, Rural Development Insurance Fund loans offered for sale in fiscal year 1989 shall be first offered to the borrowers for prepayment. Borrowers who rejected prepayment offers in fiscal year 1988 shall remain eligible for prepayment in fiscal year 1989.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 121: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 634. (a) Effective beginning with the 1989 crop year for honey, section 405 of the Agricultural Act of 1949 (7 U.S.C. 1425) is amended, in the text of subsection (a) (as to designated by section 1004(1) of the Food Security Act of 1985 effective for the 1986 through 1990 crops), by striking out "No producer" and inserting in lieu thereof "Except as otherwise provided in section 405A, no producer".

(b) The Agricultural Act of 1949 is amended by inserting after section 405 the following new section:

"SEC. 405A. (a) A producer of honey may satisfy the producer's obligation to repay a loan, or a portion of a loan, made to the pro-

ducer under section 201(b) of this Act by forfeiting the collateral for the loan, or portion of the loan, only if the value of the collateral forfeited, when taken together with the value of the collateral forfeited on any other loan or loans of the producer for such crop of honey under section 201(b), does not exceed $250,000: Provided, however, that the loan forfeiture limitation by this section shall not be applicable for any crop year for which the Secretary does not permit producers of honey to repay the price support loans at a level determined under section 201(b)(2)(B).

"(b) The producer of honey shall be personally liable for the repayment of a loan or loans made to the producer under the program for the crop of honey involved, with respect to that portion of the loan or loans for which satisfaction of the loan by forfeiture, as provided in subsection (a), is prohibited.

"(c) The loan contracts of the Commodity Corporation entered into with producers of honey shall clearly indicate the extent to which a producer of honey may be personally liable for repayment of a loan under this section.

"(d) The Commodity Credit Corporation may issue such regulations as the Corporation deems to carry out this section.".

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement amends House language on the honey program to incorporate language developed in cooperation with the legislative committee. The agreement would establish a limit on the amount of forfeitures a producer could make with respect to loans made to the producer on a crop of honey. The forfeiture limit would be $250,000 per crop of honey. The producer would be personally liable for complete repayment of the loans once the forfeiture cap is reached. The language would replace House language which placed a cap of $250,000 on honey loans.

Amendment No. 122: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 635. None of the funds appropriated or otherwise made available by this Act shall be used to pay the salaries of personnel who carry out a targeted export assistance program under section 1124 of the Food Security Act of 1985 if the aggregate amount of funds and/or commodities under such program exceeds $200,000,000: Provided, That $30,000 shall be held in reserve to be released by the Secretary of Agriculture only if required.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement limits the targeted export assistance program to $200,000,000 instead of $110,000,000 as proposed by the House and no limit as proposed by the Senate. In addition, the agreement places $30,000,000 in reserve to be released by the Secretary only if required.

Amendment No. 123: Restores House language limiting the export enhancement program in fiscal year 1989 to $770,000,000. The Senate amendment deleted the House language. The conferees expect the Department to initiate and carry out exports of U.S. barley using the export enhancement program, if necessary to remain competitive.

Amendment No. 124: Deletes House language requiring a one-percent reduction in certain accounts in the bill.

Amendment No. 125: Deletes House language stricken by the Senate dealing with the funding of a workplace free of illegal controlled substances. This issue has been addressed on a government-wide basis in the fiscal year 1989 Treasury, Postal Service, and General Government Appropriations Act.

Amendment No. 126: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the first section number named in said amendment, insert: *"637"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adds language proposed by the Senate which specifies the amount of loan prepayments to be applied to the electric and telephone programs, respectively. The agreement also changes the section number.

The conferees expect that the new rules governing prepayments which must be adopted in connection with this section will not require refinancing by the borrower and a transfer of the Federal guarantee. The law requires only that "private capital" be utilized in making such prepayments and assures that the Federal guarantee if fully transferable or assignable, but does not require a transfer or assignment.

Amendment No. 127: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

SEC. 638. None of the funds in this Act, or otherwise made available by this Act, shall be used to regulate the order or sequence of advances of funds to a borrower under any combination of approved telephone loans from the Rural Electrification Administration, the Rural Telephone Bank or the Federal Financing Bank.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement amends Senate language to retain language prohibiting the use of funds to regulate the order or sequence of advances of funds to a borrower, and deletes Senate language concerning a Rural Telephone Bank borrower's ability to rescind the unadvanced portion of approved loans.

Amendment No. 128: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

SEC. 639. In fiscal years 1989 and 1990, $20,000,000 of section 32 funds shall be used to purchase sunflower and cottonseed oil, as authorized by law, such purchases to facilitate additional sales of such oils in world markets at competitive prices, so as to compete with other countries: Provided, That these funds shall be in addition to funds made available for this purpose by the Rural Development, Agriculture, and Related Agencies Appropriations Act, 1988 (Public Law 100-202).

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement amends language proposed by the Senate providing for a sunflower oil export program of not less than $10,000,000 nor more than $20,000,000. The agreement expands the language to provide for a $20,000,000 program for sunflower and cottonseed oil, as authorized by law.

Amendment No. 129: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the first section number named in said amendment, insert: *"640"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adds language proposed by the Senate which provides for a sugar re-export program. The agreement also changes the section number.

Amendment No. 130: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the first section number named in said amendment, insert: *"641"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement clarifies congressional intent with respect to the Older Americans Act Amendments of 1987. The conferees expect the Department to publish proposed regulations for public comment within 60 days of enactment of this bill. The provision was added at the request of the legislative committees.

Amendment No. 131: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *"642"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adds language proposed by the Senate dealing with the funding of any fiscal year 1989 pay raise.

Amendment No. 132: Deletes Senate language requiring the Director of the Office of Management and Budget and the head of each agency covered by the Act to comply with provisions of the joint statement of the managers. The conferees have addressed this matter in the beginning of the statement of the managers.

Amendment No. 133: Deletes Senate language regarding the Senate's intention to enact drought assistance. This provision is superseded by the enactment of the Drought Assistance Act of 1988 (P.L. 100-387).

Amendment No. 134: Reported in true disagreement.

Amendment No. 135: Deletes Senate language providing for a two-percent reduction in certain accounts.

Amendment No. 136: Deletes Senate language providing limits on the funds that may be expended in fiscal year 1989 for consulting services. The conferees are supportive of the concept set forth in the amendment but feel that further review is required. The conferees agree to address the subject during the hearings on the fiscal year 1990 appropriations bill.

Amendment No. 137: Deletes Senate language providing for the establishment of an escrow account for the proceeds from the sale of land in Orlando, Florida, owned by the Agricultural Research Service. The conferees have deleted this amendment without prejudice and agree that this matter should be considered by the Department and the appropriate committees of Congress to determine whether this transaction should occur. If the sale and use of the assets is determined to be advisable, and if there is no authority to implement the change, Congress will revisit the issue.

Amendment No. 138: Deletes Senate language regarding the increased inspection of blood banks. Funds for this purpose were provided in the Dire Emergency Supplemental Appropriations Act (P.L. 100-393).

Amendment No. 139: Deletes Senate language transferring clear title to two parcels of land in Alaska to the University of Alaska.

Amendment No. 140: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *"644"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adds language proposed by the Senate which requires grantees of Federal funds to disclose the percentage of the total project cost that is Federally funded and the amount of Federal funds involved. The agreement also changes the section number.

Amendment No. 141: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

SEC. 645. Effective August 30, 1989, none of the funds available in this Act for the Special Supplemental Food Program for Women, Infants, and Children (WIC) may be used by a state if that state has not examined the feasibility of implementing cost containment procedures described in section 3 of the Commodity Distribution Reform Act and WIC Amendments of 1988 (7 U.S.C. 612c note) (including infant formula rebates) for acquiring infant formula and, where practicable, other foods that are necessary to carry out such program, and if the state has determined that such a procedure would lower costs and enable more eligible persons to be served (without interference with the delivery of nutritious foods to recipients) and has not initiated action to implement such procedures. The Secretary may extend the effective date of implementation on a case-by-case basis where necessary.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement deletes Senate language adding funds for the WIC program and providing a 0.7 percent reduction in a number of discretionary accounts in the bill.

The conference agreement amends Senate language to provide for a limitation on the use of funds rather than a change in the basic law with respect to implementing cost-containment procedures for acquiring WIC foods. Such changes could result in annual savings to the WIC program of up to $300,000,000.

The agreement also changes the section number.

Amendment No. 142: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

SEC. 646. Effective October 1, 1989, section 6.29 of the Farm Credit Act of 1971 (12 U.S.C. 2278b-9) is amended by—

(1) subsection (a)(1), striking out "Except as provided in paragraph (2)," and inserting in lieu thereof "Except as provided in paragraphs (2) and (3),",

(2) adding at the end of subsection (a) the following new paragraph:

"(3) PERIODIC PURCHASES.—(A) Notwithstanding any other provision of this section, the Financial Assistance Corporation shall establish a program under which System institutions shall purchase, as debt obligations are issued under section 6.26(a), stock of the Corporation in amounts described in this paragraph.

"(B) The program shall provide, with respect to each issuance of debt obligations under section 6.26(a), that each System institution originally required to purchase stock under paragraph (1), or the successor thereto, shall purchase Corporation stock in an amount determined by multiplying the amount of stock such institution was originally required to purchase under that paragraph by a percentage equal to the percentage which the amount of the issuance bears to $4,000,000,000.

"(C) The Financial Assistance Corporation shall promptly rescind purchases of stock of the Corporation made under paragraph (1) or (2) by System institutions and refund to such institutions, or their successors, the purchase price for the stock, except that, with respect to each issuance of debt obligations that occurs before October 1, 1988, the Corporation shall deduct from any refund due any System institution, and retain, the amount payable by such institution.

(3) in subsection (c)—

(a) striking out "Within" and inserting in lieu thereof "(1) Within",

(b) striking out "(1) the" and inserting in lieu thereof "(A) the", and

(c) striking out "(2) in the case" and inserting in lieu thereof "(B) in the case", and

(4) adding at the end thereof the following new paragraph:

"(2) Not later than 15 days before each issuance of debt obligations under section 6.26(a) occurring after September 30, 1988, the Financial Assistance Corporation shall notify each System institution required to purchase Corporation stock under subsection (a)(3) of the amount of the stock it is required to purchase.".

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are concerned that the trust fund assessment procedure provided for in the Agricultural Credit Act of 1987 placed an unintended burden on many Production Credit Associations and Federal Land Bank Association sin eight Farm Credit Districts across the country, threatening the viability of several once-healthy institutions. The conferees accept the Senate bill language and establish the implementation date as October 1, 1989.

Amendment No. 143: Deletes Senate language which required the Secretary to issue regulations regarding how states manage vendor participation in the WIC program and prohibiting the use of WIC funds in states not complying with the regulations.

The conferees agree that efforts should be undertaken to improve the performance of states in the management of vendor participation in the Special Supplemental Food Program for Women, Infants, and Children (WIC). The conferees expect the Department to issue regulations on management improvements during fiscal year 1989.

Amendment No. 144: Deletes Senate language which provided that none of the funds in the Act shall be used to implement the sugar quota increase announced by the Secretary on July 22, 1988, until the Secretary certifies that such action will not result in forfeiture of domestically produced sugar to CCC.

The conferees agree to delete the Senate language because the law requires the Secretary to operate the program in such a manner that will not result in forfeiture of domestically produced sugar to CCC.

Amendment No. 145: Deletes Senate language which authorized the making of grants for the establishment and operation of international trade development centers and provided that such grants may be made to accredited private sector world trade centers organized on a regional basis.

Amendment No. 146: Deletes Senate language which provided for the transfer of $100,000 from the Working Capital Fund to support the International Livestock Program at Kansas State University. The conference agreement addresses this amendment under Special Research Grants, Cooperative State Research Service.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1989 recommended by the Committee of Conference, with comparisons to the fiscal year 1988 amount, the 1989 budget estimates, and the House and Senate bills for 1989 follow:

New budget (obligational) authority, fiscal year 1988	$52,361,202,000
Budget estimates of new (obligational) authority, fiscal year 1989	42,539,915,000
House bill, fiscal year 1989	40,038,072,000
Senate bill, fiscal year 1989	43,605,071,000
Conference agreement, fiscal year 1989	42,512,839,000
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1988	−9,848,363,000
Budget estimates of new (obligational) authority, fiscal year 1989	−27,076,000
House bill, fiscal year 1989	+2,474,767,000
Senate bill, fiscal year 1989	−1,092,232,000

CONFERENCE REPORT (H. REPT. 100-1000)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4587) "making appropriations for the Legislative Branch for the fiscal year ending September 30, 1989, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 6, 7, 15, 16, 17, 18, 19, 22, and 25.

That the House recede from its disagreement to the amendments of the Senate numbered 1, 2, 10, 11, 13, 14, and 23, and agree to the same.

Amendment numbered 3:

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment, insert:

SEC. 7. Section 117 of Public Law 97-51 (2 U.S.C. 61f-8) is amended by striking out "from the contingent fund of the Senate an amount not to exceed $210,000 for:" and inserting in lieu thereof "from the account for the Sergeant at Arms and Doorkeeper of the Senate, within the contingent fund of the Senate, an amount not to exceed $300,000:".

SEC. 8. (a) Section 506(a)(9) of the Supplemental Appropriations Act, 1973 (2 U.S.C. 58(a)(9)) is amended by striking out "necessary" and all that follows, and inserting in lieu thereof "necessary.".

(b) The amendment made by subsection (a) shall be effective only in the case of expenses incurred on or after October 1, 1988.

SEC. 9. Section 101 of the Supplemental Appropriations Act, 1977 (2 U.S.C. 61h-6) is amended—

(1) in the first sentence thereof, by striking out "Minority Leader", and

(2) by inserting immediately after the first sentence thereof the following new sentence: "The Minority Leader of the Senate is authorized to appoint and fix the compensation of not more than four individual consultants, on a temporary or intermittent basis, at a daily rate of compensation not in excess of that specified in the preceding sentence.".

SEC. 10. (a) The Sergeant at Arms and Doorkeeper of the Senate is authorized to employ, and fix the compensation of such employees as he determines necessary to operate the Senate Beauty Shop.

(b)(1) Section 106(a) of the Legislative Branch Appropriations Act, 1977 (2 U.S.C. 121a) is amended by deleting "Senate Barber Shops Revolving Fund" and inserting in lieu thereof "Senate Barber and Beauty Shops Revolving Fund".

(2) Section 106(b) of the Legislative Branch Appropriations Act, 1977 (2 U.S.C. 121a) is amended to read as follows:

"(b) All moneys received by the Senate Barber Shop and the Senate Beauty Shop from fees for services or from any other source shall be deposited to the credit of the revolving fund. Moneys in the revolving fund shall be available without fiscal year limitation for disbursement by the Secretary of the Senate for necessary equipment supplies, and expenses of the Senate Barber and Beauty Shops.".

(c) Any individual who, on the date of the enactment of this section, is an employee of the Senate Building Beauty Shop and who, after having been employed by the Sergeant at Arms and Doorkeeper pursuant to subsection (a) of this section, attains 5 years of civilian service creditable under section 8411 of title 5, United States Code, other than service credited pursuant to subsection (d) of this section, may be credited under such section for any service as an employee of the Senate Building Beauty Shop prior to such date of enactment if such employee makes a payment of the amount, determined by the Office of Personnel Management, that would have been deducted and withheld from the basic pay of such employee under section 8422 of title 5, United States Code, for such period so credited, together with interest thereon.

(d) Notwithstanding any other provision of this section, any service performed by an individual in the Senate Building Beauty Shop prior to the date of the enactment of this section is deemed to be civilian service creditable under section 8411 of title 5, United States Code, for purposes of qualifying for survivor annuities and disability benefits under subchapters IV and V of chapter 84 of title 5, United States Code, if such individual—

(1) on the date of the enactment of this Act, is an employee of the Senate Building Beauty Shop;

(2) on or after the date of such enactment is employed by the Sergeant at Arms and Doorkeeper pursuant to subsection (a) of this section; and

(3) payment is made of an amount, determined by the Office of Personnel Management, which would have been deducted and withheld from the basic pay of such employee under section 8422 of title 5, United States Code, for such period so credited together with interest thereon.

(e) The Office of Personnel Management shall accept the certification of the Secretary of the Senate concerning creditable service for the purpose of this section.

(f) The foregoing provisions of this section shall take effect on October 1, 1988.

SEC. 11. Of the funds available under the head "Contingent Expenses of the Senate" for the Sergeant at Arms and Doorkeeper of the Senate, for fiscal year 1988, $3,600,000 shall remain available until September 30, 1989.

SEC. 12. No part of the funds appropriated in this Act shall be used for the maintenance or care of private vehicles, except for emergency assistance and cleaning as may be provided under regulations relating to paring facilities for the Senate issued by the Committee on Rules and Administration.

SEC. 13. Section 506(a)(3) of the Supplemental Appropriations Act, 1973, (2 U.S.C. 58(a)(3)) is amended by inserting "postage on, and fees and charges in connection with, mail matter sent through the mail under the franking privilege in excess of amounts provided from the appropriation for official mail costs, upon certification by the Senate Sergeant at Arms and subject to such regulations as may be promulgated by the Committee on Rules and Administration of the Senate, and" before "reimbursement".

SEC. 14. (a) Section 506(a)(9) of the Supplemental Appropriations Act, 1973 (2 U.S.C. 58(a)(9)) is amended by striking out "necessary" and all that follows, and inserting in lieu thereof "necessary.".

(b) The amendment made by subsection (a) shall be effective only in the case of expenses incurred on or after October 1, 1988.; and the Senate agree to the same.

Amendment numbered 4:

That the House recede from its disagreement to the amendment of the Senate numbered 4, and agree to the same with an amendment, as follows:

In lieu of the sum named by said amendment insert *$775,000*; and the Senate agree to the same.

Amendment numbered 5:

That the House recede from its disagreement to the amendment of the Senate numbered 5, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert the following: *$52,922,000, of which $25,673,000 is appropriated to the Sergeant at Arms of the House of Representatives, to be disbursed by the Clerk of the House, and $27,249,000 is appropriated to the Sergeant at Arms and Doorkeeper of the Senate, to be disbursed by the Secretary of the Senate, the remainder*; and the Senate agree to the same.

Amendment numbered 8:

That the House recede from its disagreement to the amendment of the Senate numberd 8, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$17,937,000*; and the Senate agree the same.

Amendment numbered 9:

That the House recede from its disagreement to the amendment of the Senate numbered 9, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

BIOMEDICAL ETHICS BOARD

SALARIES AND EXPENSES

For the Biomedical Ethics Board and the Biomedical Ethics Advisory Committee, subject to reauthorization of section 381 of the Public Health Service Act (Public Law 99-158) or similar legislation, the amounts appropriated under this head in the Legislature Branch Appropriations Act, 1988 (as enacted by Public Law 100-202), shall remain available for obligation until September 30, 1989: Provided, That effective October 1, 1988, the Disbursing Officer of the Library of Congress is authorized to—

(1) disburse funds appropriated for the Biomedical Ethics Board;

(2) compute and disburse the basic pay of all personnel of the Biomedical Ethics Board; and

(3) provide financial management services and support to the Biomedical Ethics Board,

in the same manner as provided with respect to the Office of Technology Assessment under section 101(c) of Public Law 97-51 (2 U.S.C. 142f). ; and the Senate agree to the same.

Amendment numbered 12:

That the House recede from its disagreement to the amendment of the Senate numbered 12, and agree to the same with an amendment, as follows:

In lieu of the sum named in Section 121 of said amendment insert *$7,500,000;* and the Senate agree to the same.

Amendment numbered 21:

That the House recede from its disagreement to the amendment of the Senate numbered 21, and agree to the same with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert the following:

Sec. 307. Notwithstanding any other provision of this Act, the including the joint item for the Capitol Police Board in the undesignated paragraph under the subheading "GENERAL EXPENSES", amounts for general expenses of the Capitol Police shall be disbursed by the Clerk of the House of Representatives.

Sec. 307A. For payment to Ruby M. Daniel, widow of Dan Daniel, late a Representative from the State of Virginia, $89,500. For payment to Marlene V. Howard, widow of James J. Howard, late a Representative from the State of New Jersey, $89,500. For payment to Geraldine M. Price, widow of Charles Melvin Price, late a Representative from the State of Illinois, $89,500. For payment to Lois S. Duncan, widow of John J. Duncan, late a Representative from the State of Tennessee, $89,500.

Sec. 307B. (a) Notwithstanding the applicable statutes described in subsection (b), an agency of the legislative branch to which those statutes apply is authorized to use telecommunications systems and services provided by the Architect of the Capitol or the House of Representatives or the Senate under the approved plan required by section 305 of Public Law 100-202 (101 Stat. 1329-308) if such systems and services—

(1) have been acquired competitively; and

(2) have been determined by the Architect of the Capitol to be at least equal in quality to, and not greater in cost than, the systems and services available under the procurement conducted by the Administrator of General Services known as "FTS2000".

(b) The applicable statutes described in this subsection are—

(1) section 111 of the Federal Property and Administrative Services Act of 1949; and

(2) section 627 of the Treasury, Postal Service and General Government Appropriations Act of 1989.

(c) As used in this section, the term "agency of the legislative branch" means the office of the Architect of the Capitol, the Botanic Garden, the General Accounting Office, the Government Printing Office, the Library of Congress, the Office of Technology Assessment, and the Congressional Budget Office.

Sec. 307C. There is established in the office of the Attending Physician one additional position of technical assistant to be appointed by the Attending Physician, subject to the approval of the Speaker of the House of Representatives.

Sec. 307D. For an additional amount for "Expenses, Presidential Transition, General Services Administration", not to exceed $2,000,000: Provided, That the availability of these funds shall be in accordance with sections 3(b) and 4 of the Presidential Transition Act of 1963, as amended (3 U.S.C. 102, note).

Sec. 307E. The Architect of the Capitol, subject to the direction of the Joint Committee on the Library, is authorized to—

(1) construct a National Garden demonstrating the diversity of plants, including the rose, our national flower, to be located between Maryland and Independence Avenues, SW., and extending from the United States Botanic Garden Conservatory to Third Street, S.W., in the District of Columbia; and

(2) accept gifts, including money, plants, volunteer time, planning, construction and installation expenses, assistance and implements, and garden structures, on behalf of the United States Botanic Garden for the purpose of constructing the National Garden described in paragraph (1). ; and the Senate agree to the same.

Amendment numbered 20:

That the House recede from its disagreement to the amendment of the Senate numbered 20, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$347,339,000*; and the Senate agree to the same.

Amendment numbered 24:

That the House recede from its disagreement to the amendment of the Senate numbered 24, and agree to the same with an amendment, as follows:

In lieu of the matter stricken by said amendment insert:

Sec. 311. None of the funds appropriated or otherwise made available by this Act shall be used by the Congressional Budget Office to add to, delete, or alter any information such Office has provided to any Member or committee of the House of Representatives or the Senate or any joint committee of the Congress, except to correct errors or to provide new or updated information. ; and the Senate agree to the same.

Amendment numbered 26:

That the House recede from its disagreement to the amendment of the Senate numbered 26, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert:

Sec. 312. Section 202(i)(1) of the Legislative Reorganization Act of 1946 (2 U.S.C. 72a(i)(1)) is amended by inserting immediately before the period the following: "or with respect to the administration of the affairs of the committee".

Sec. 313. Such sums as may be necessary for fiscal year 1989 pay raises for programs funded by this Act shall be absorbed within the levels appropriated in this Act. ; and the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4587) making appropriations for the Legislative Branch for the fiscal year ending September 30, 1989, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

TITLE I—CONGRESSIONAL OPERATIONS

SENATE

Amendment Nos. 1-2: Appropriate funds and authorize housekeeping provisions as provided in the Senate bill. Inasmuch as these amendments relate solely to the Senate and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the House will move to concur in Senate amendments 1 and 2.

Amendment No. 3: Provides authority as contained in the Senate bill, as this amendment relates solely to the Senate. In accord with a request from the managers on the part of the Senate, several additional provisions have been added concerning Senators' office allowances, the hire of consultants, the Senate Beauty Shop, the Senate Computer Center, care and maintenance of vehicles, and Senate mail regulations.

JOINT ITEMS

JOINT COMMITTEE ON INAUGURAL CEREMONIES OF 1989

Amendment No. 4: Provides $775,000 for the Joint Committee on Inaugural Ceremonies instead of $700,000 as provided by the Senate. The amendment is necessary because of a recent reestimate of the funding necessary for the construction of the platform and stands and other expenses of conducting the inaugural ceremonies of the President and Vice President on January 20, 1989.

CAPITOL POLICE BOARD

CAPITOL POLICE

Salaries

Amendment No. 5: The conferees have agreed to appropriate $25,673,000 to the Sergeant at Arms of the House, to be disbursed by the Clerk of the House, and $27,249,000 to the Sergeant at Arms and Doorkeeper of the Senate, to be disbursed by the Secretary of the Senate, for salaries, overtime, and employer contributions to employee benefits of officers, members, and employees of the Capitol Police, instead of $25,673,000 as proposed by the House and $52,922,000 as proposed by the Senate. Funds disbursed by the Clerk of the House will continue to be subject to routine oversight and review by the appropriate committees, and the traditional procedures will apply in the Senate as well. However, the police salary budget henceforth will be a joint item account and the Capitol Police Board and the Capitol Police are directed to present the budget and their budget request for the entire force to the Appropriations Committees beginning with the fiscal year 1990 budget.

TECHNICAL SECURITY COUNTERMEASURES OFFICE

Amendment No. 6: Deletes language proposed by the Senate establishing a separate technical security countermeasures office.

The conferees are extremely concerned about the ability of the legislative branch to protect against the electronic interception of highly classified information. A similar concern has been expressed by the intelligence community. Currently, responsibility for these activities rests with the U.S. Capitol Police and the Architect of the Capitol for (1) installation and operation of the Within Building Emitter Detection System (WBEDS); (2) physical inspection of Congressional offices for the presence of electronic surveillance devices; (3) using portable equipment to monitor certain rooms not covered by WBEDS; and (4) contract negotiation for the procurement of hardware, software and services related to technical security. Until recently this function had no permanent staff. The conferees understand that there are now two full-time operator-technicians within the Capitol Police force and other support is provided by part-time operators on an as needed basis. There is a question as to whether or not this is an adequate commitment. The conferees direct that a proposal for the establishment of an office to direct technical security countermeasures be included in the Capitol Police Board's plan for consolidation of the Capitol Police salary accounts, to be submitted to the appropriate committees of the Senate and the House of Representatives no later than January 1, 1989. This proposal when implemented is designed to provide consolidated direction, adequate staffing with qualified professionals, a central point where the Congress can concentrate its resources for this function, and an entity that can be held accountable.

OFFICIAL MAIL COSTS

Amendment No. 7: Appropriates $53,926,000 for official mail costs as proposed by the House instead of $26,000,000 as proposed by the Senate. The Conferees urge the committees with jurisdiction in this matter to determine the feasibility of providing separate allocations for the official mail costs of each body.

OFFICE OF TECHNOLOGY ASSESSMENT

Amendment No. 8: Appropriates $17,937,000 for salaries and expenses, Office of Technology Assessment, instead of $17,505,000 as proposed by the House and $18,203,000 as proposed by the Senate. The additional funds over the House bill include $100,000 for ongoing work on health and adolescent behavior and $332,000 for work on climate modification.

BIOMEDICAL ETHICS BOARD

SALARIES AND EXPENSES

Amendment No. 9: Provides that amounts appropriated to the Biomedical Ethics Board for fiscal year 1988 shall remain available until September 30, 1989, as proposed by the Senate, amended to make the authority subject to reauthorization and to provide authority to the Library of Congress to perform financial management services for the Board.

ARCHITECT OF THE CAPITOL

SENATE OFFICE BUILDINGS

Amendment No. 10: Provides funds for the operation of Senate office buildings as proposed by the Senate.

CAPITOL POWER PLANT

The conferees agree that emission measuring devices should be installed at the Capitol Power Plant, within available resources.

ADMINISTRATIVE PROVISIONS

Amendment No. 11: Adds the Russell and Dirksen Senate office buildings to the priority list for the installation of alarm systems as proposed by the Senate.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

Amendment No. 12: Provides $7,500,000 for a public service training center instead of $10,000,000 as proposed by the Senate.

TITLE II—OTHER AGENCIES

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

Amendment No. 13: Makes a technical correction to the title of a program as proposed by the Senate.

Amendment No. 14: Provides $153,042,000 as proposed by the Senate for salaries and expenses, Library of Congress, instead of $152,647,000 as proposed by the House. The additional funds over the House bill are for five positions and expenses associated with the accelerated microfilming project. The Library of Congress is directed to consult with the House and Senate Bicentennial Commissions concerning the proposal for an "Encyclopedia of Congress" in connection with the bicentennial anniversary of the establishment of Congress under the Constitution. The Committees on Appropriations will consider a suitable reprogramming request if other sources are not able to undertake the project.

ADMINISTRATIVE PROVISIONS

Amendment No. 15: Deletes language proposed by the Senate regarding a retirement benefit option.

GOVERNMENT PRINTING OFFICE

REVOLVING FUND

Amendment No. 16: Provides a limitation of 5,117 workyears as proposed by the House for full-time equivalent employment at the Government Printing Office instead of 5,177 as proposed by the Senate.

Amendment No. 17: Deletes language proposed by the Senate that amends section 6121(1) and 6133(c) of Title 5, United States Code. The Committees on Appropriations have reservations concerning the impact on the congressional printing workload and the policy with respect to senior managers in GPO administrative positions.

ADMINISTRATIVE PROVISIONS

Amendment Nos. 18-19: Restore section numbers as proposed by the House.

GENERAL ACCOUNTING OFFICE

SALARIES AND EXPENSES

Amendment No. 20: Appropriates $347,339,000 for the General Accounting Office instead of $346,339,000 as proposed by the House and $348,139,000 as proposed by the Senate. The $1,000,000 above the House bill is for travel expenses. The $800,000 for microcomputers is not provided, and GAO is reminded that a comprehensive ADP plan, including schedules, costs, usage, and workload impact has not been presented to the Committees. This material should allow a straightforward crosswalk to be made to budget requirements and the budget documents. Generalized requirements are not sufficient. After such plan is received, the Committees on Appropriations will consider a reprogramming request from GAO for microcomputers. The comparison between adding staff and contracting out for evaluation work, as directed in the House bill, should be made within available resources.

TITLE III—GENERAL PROVISIONS

Amendment No. 21: Amends House language stricken by the Senate to restore the status quo in regard to the disbursement of funds for police expenses.

The conferees agree that the police salaries and expense budgets will be treated as joint items. For fiscal year 1989, the general expenses expenditures will continue to be disbursed by the Clerk of the House, the historical arrangement, and subject to the customary oversight and controls over those disbursements. The conferees have also added several additional provisions. One provides the traditional death gratuities to the widows of recently deceased members of the House of Representatives; the second clarifies the intent of Congress in directing the development of a telecommunications system for the legislative branch that will be subject to the approval of the appropriate committees of Congress; the third establishes a position in the office of the Attending Physician; the fourth provides an additional $2,000,000 for the presidential transition; and finally, authority is provided for the establishment of a national garden at the Botanic Garden.

Amendment No. 22: Deletes language proposed by the Senate establishing and amending the jurisdiction and procedures of the Capitol Police Board and the Capitol Police. The conferees agree that a consolidation of this authority, together with appropriate oversight by the Committees of Congress with jurisdiction in this matter, is desirable. Since this proposal is complex and far reaching, however, the conferees believe that this matter deserves proper deliberation by the authorizing committees. Consequently, the Committee of Conference directs the Capitol Police Board to refer this proposal together with necessary and sufficient background material and justifications to the authorizing committees as soon as practicable, but in no event later than January 1, 1989, with a request that hearings be held for the purpose of developing a suitable legislative proposal that may be considered by the House and Senate.

Amendment No. 23: Deletes language proposed by the House and stricken by the Senate regarding a drug free workplace. The conferees strongly agree with the intent of the provision included by the House. However, this issue has been satisfactorily dealt with in section 628 of the Treasury, Postal Service, and General Government Appropriations Act, 1989 (H.R. 4775; conference report 100-881). Section 628 of that Act covers all Federal entities, including the House of Representatives, the Senate, and all other legislative branch agencies.

Amendment No. 24:

Section 311 was added on the House floor for the evident purpose of protecting CBO from pressure and intimidation respecting the content of its reports. The managers fully support this purpose but wish to make clear that the section is not intended to, and does not, change or in any way affect any of the duties and responsibilities imposed on CBO by the Congressional Budget Act of 1974, as amended.

Furthermore, Section 311 is limited in its reach to those cases in which a bipartisan request of a committee or a Member has specifically requested information from CBO, and on receiving that information there is a one-party request for CBO to add to, delete, or alter it, except to correct errors or provide new or updated information. In those circumstances, Section 311 prohibits CBO funds from being used to comply with the later request.

Finally, Section 311 does not change CBO's present authority to correct any error or to revise or update any information previously furnished.

Amendment No. 25: Deletes language proposed by the Senate amending the Federal Salary Act of 1967.

Amendment No. 26: Makes two technical corrections in the Senate language and adds a provision to require absorption of pay raises within levels appropriated.

PROGRAMS, PROJECTS AND ACTIVITIES

Under the principle established in section 306 of the Legislative Branch Appropriations Act for 1988, for purposes of the definition required by section 252 (a) (1) (B) (i) of the Balanced Budget and Emergency Deficit Control Act of 1985 (P. L. 99-177, as amended), the conferees agree that the accounts under the general heading "House of Representatives" shall be considered one combined appropriation account and the accounts under the general heading "Senate" shall be considered one combined appropriation account, and the term "program, project, and activity" shall apply to each combined account.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1989 recommended by the Committee of Conference, with comparisons to the fiscal year 1988 amount, the 1989 budget estimates, and the House and Senate bills for 1989 follow:

New budget (obligational) authority, fiscal year 1988	$1,745,501,500
Budget estimates of new (obligational) authority fiscal year 1989	1,966,329,200
House bill, fiscal year 1989	1,400,152,000
Senate bill, fiscal year 1989	1,778,331,200
Conference agreement, fiscal year 1989	1,804,624,200
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1988	+59,122,700
Budget estimates of new (obligational) authority, fiscal year 1989	−161,705,000
House bill, fiscal year 1989	+404,472,200
Senate bill, fiscal year 1989	+26,293,000

CONFERENCE REPORT ON H.R. 4781

Mr. CHAPPELL submitted the following conference report and statement on the bill (H.R., 4781) making appropriations for the Department of Defense for the fiscal year ending September 30, 1989, and for other purposes:

CONFERENCE REPORT (H. REPT. 100-1002)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4781) making appropriations for the Department of Defense for the fiscal year ending September 30, 1989, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 16, 17, 20, 24, 26, 27, 30, 32, 33, 39, 59, 68, 74, 76, 82, 86, 101, 109, 110, 111, 114, 115, 116, 117, 118, 121, 122, 123, 124, 125, 126, 127, 130, 132, 133, 134, 135, 136, 137, 174, 175, 176, 215, 224, 231, 246, 251, 255, 262, 265, 266, 267, and 268.

That the House recede from its disagreement to the amendments of the Senate numbered 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 15, 18, 28, 29, 31, 34, 41, 43, 46, 47, 48, 51, 52, 54, 56, 62, 64, 66, 70, 75, 79, 94, 95, 96, 97, 98, 99, 100, 107, 120, 129, 140, 145, 165, 200, 201, 202, 204, 216, 222, and 226, and agree to the same.

Amendment numbered 2:

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$18,962,456,000*; and the Senate agree to the same.

Amendment numbered 6:

That the House recede from its disagreement to the amendment of the Senate numbered 6, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$36,200,000*; and the Senate agree to the same.

Amendment numbered 14:

That the House recede from its disagreement to the amendment of the Senate numbered 14, and agree to the same with an amendment, as follows:

In lieu of the sum deleted by said amendment insert *$22,083,496,000*; and the Senate agree to the same.

Amendment numbered 22:

That the House recede from its disagreement to the amendment of the Senate numbered 22, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert *$1,817,000,000*; and the Senate agree to the same.

Amendment numbered 25:

That the House recede from its disagreement to the amendment of the Senate numbered 25, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$7,635,973,000*; and the Senate agree to the same.

Amendment numbered 37:

That the House recede from its disagreement to the amendment of the Senate numbered 37, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$2,830,921,000*; and the Senate agree to the same.

Amendment numbered 38:

That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$2,012,970,000*; and the Senate agree to the same.

Amendment numbered 40:

That the House recede from its disagreement to the amendment of the Senate numbered 40, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert *$4,568,011,000*; and the Senate agree to the same.

Amendment numbered 53:

That the House recede from its disagreement to the amendment of the Senate numbered 53, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$9,055,543,000*; and the Senate agree to the same.

Amendment numbered 55:

That the House recede from its disagreement to the amendment of the Senate numbered 55, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert *; $4,813,969,000*; and the Senate agree to the same.

Amendment numbered 57:

That the House recede from its disagreement to the amendment of the Senate numbered 57, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,297,265,000*; and the Senate agree to the same.

Amendment numbered 58:

That the House recede from its disagreement to the amendment of the Senate numbered 58, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$15,922,499,000*; and the Senate agree to the same.

Amendment numbered 63:

That the House recede from its disagreement to the amendment of the Senate numbered 63, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert *; $1,138,900,000*; and the Senate agree to the same.

Amendment numbered 65:

That the House recede from its disagreement to the amendment of the Senate numbered 65, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,186,100,000*; and the Senate agree to the same.

Amendment numbered 67:

That the House recede from its disagreement to the amendment of the Senate numbered 67, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$33,500,000*; and the Senate agree to the same.

Amendment numbered 69:

That the House recede from its disagreement to the amendment of the Senate numbered 69, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to change $12,000,000 as follows *$6,000,000*; and the Senate agree to the same.

Amendment numbered 90:

That the House recede from its disagreement to the amendment of the Senate numbered 90, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$149,900,000*; and the Senate agree to the same.

Amendment numbered 91:

That the House recede from its disagreement to the amendment of the Senate numbered 91, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$71,234,000*; and the Senate agree to the same.

Amendment numbered 92:

That the House recede from its disagreement to the amendment of the Senate numbered 92, and agree to the same with an amendment, as follows:

In lieu of the the matter stricken and inserted by said amendment insert *$291,900,000*; and the Senate agree to the same.

Amendment numbered 119:

That the House recede from its disagreement to the amendment of the Senate numbered 119, and agree to the same with an amendment, as follows:

In lieu of the number proposed by said amendment insert *6,113*; and the Senate agree to the same.

Amendment numbered 139:

That the House recede from its disagreement to the amendment of the Senate numbered 139, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to change subsection (b) to read as follows:

(b) During fiscal year 1989, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

And the Senate agree to the same.

Amendment numbered 141:

That the House recede from its disagreement to the amendment of the Senate numbered 141, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8040*; and the Senate agree to the same.

Amendment numbered 142:

That the House recede from its disagreement to the amendment of the Senate numbered 142, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8041*; and the Senate agree to the same.

Amendment numbered 143:

That the House recede from its disagreement to the amendment of the Senate numbered 143, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8042*; and the Senate agree to the same.

Amendment numbered 144:

That the House recede from its disagreement to the amendment of the Senate numbered 144, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8043*; and the Senate agree to the same.

Amendment numbered 146:

That the House recede from its disagreement to the amendment of the Senate numbered 146, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8044*; and the Senate agree to the same.

Amendment numbered 147:

That the House recede from its disagreement to the amendment of the Senate numbered 147, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8045*; and the Senate agree to the same.

Amendment numbered 148:

That the House recede from its disagreement to the amendment of the Senate numbered 148, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8046*; and the Senate agree to the same.

Amendment numbered 149:

That the House recede from its disagreement to the amendment of the Senate numbered 149, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8047*; and the Senate agree to the same.

Amendment numbered 150:

That the House recede from its disagreement to the amendment of the Senate numbered 150, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8048*; and the Senate agree to the same.

Amendment numbered 151:

That the House recede from its disagreement to the amendment of the Senate numbered 151, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8049*; and the Senate agree to the same.

Amendment numbered 152:

That the House recede from its disagreement to the amendment of the Senate numbered 152, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8050*; and the Senate agree to the same.

Amendment numbered 153:

That the House recede from its disagreement to the amendment of the Senate numbered 153, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8051*; and the Senate agree to the same.

Amendment numbered 154:

That the House recede from its disagreement to the amendment of the Senate numbered 154, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8052*; and the Senate agree to the same.

Amendment numbered 155:

That the House recede from its disagreement to the amendment of the Senate numbered 155, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8053*; and the Senate agree to the same.

Amendment numbered 156:

That the House recede from its disagreement to the amendment of the Senate numbered 156, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8054*; and the Senate agree to the same.

Amendment numbered 157:

That the House recede from its disagreement to the amendment of the Senate numbered 157, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8055*; and the Senate agree to the same.

Amendment numbered 158:

That the House recede from its disagreement to the amendment of the Senate numbered 158, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8056*; and the Senate agree to the same.

Amendment numbered 159:

That the House recede from its disagreement to the amendment of the Senate numbered 159, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8057*; and the Senate agree to the same.

Amendment numbered 160:

That the House recede from its disagreement to the amendment of the Senate numbered 160, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8058*; and the Senate agree to the same.

Amendment numbered 161:

That the House recede from its disagreement to the amendment of the Senate numbered 161, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8059*; and the Senate agree to the same.

Amendment numbered 162:

That the House recede from its disagreement to the amendment of the Senate numbered 162, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8060*; and the Senate agree to the same.

Amendment numbered 163:

That the House recede from its disagreement to the amendment of the Senate numbered 163, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8061*; and the Senate agree to the same.

Amendment numbered 164:

That the House recede from its disagreement to the amendment of the Senate numbered 164, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8062*; and the Senate agree to the same.

Amendment numbered 166:

That the House recede from its disagreement to the amendment of the Senate numbered 166, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8063*; and the Senate agree to the same.

Amendment numbered 167:

That the House recede from its disagreement to the amendment of the Senate numbered 167, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8064*; and the Senate agree to the same.

Amendment numbered 168:

That the House recede from its disagreement to the amendment of the Senate numbered 168, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8065*; and the Senate agree to the same.

Amendment numbered 169:

That the House recede from its disagreement to the amendment of the Senate numbered 169, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8066*; and the Senate agree to the same.

Amendment numbered 170:

That the House recede from its disagreement to the amendment of the Senate numbered 170, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8067*; and the Senate agree to the same.

Amendment numbered 172:

That the House recede from its disagreement to the amendment of the Senate numbered 172, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to change section number as follows *8068*; and the Senate agree to the same.

Amendment numbered 173:

That the House recede from its disagreement to the amendment of the Senate numbered 173, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8069*; and the Senate agree to the same.

Amendment numbered 177:

That the House recede from its disagreement to the amendment of the Senate numbered 177, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8070*; and the Senate agree to the same.

Amendment numbered 178:

That the House recede from its disagreement to the amendment of the Senate numbered 178, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8071*; and the Senate agree to the same.

Amendment numbered 180:

That the House recede from its disagreement to the amendment of the Senate numbered 180, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8073*; and the Senate agreed to the same.

Amendment numbered 181:

That the House recede from its disagreement to the amendment of the Senate numbered 181, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8074*; and the Senate agree to the same.

Amendment numbered 182:

That the House recede from its disagreement to the amendment of the Senate numbered 182, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8075*; and the Senate agree to the same.

Amendment numbered 183:

That the House recede from its disagreement to the amendment of the Senate numbered 183, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8076*; and the Senate agree to the same.

Amendment numbered 184:

That the House recede from its disagreement to the amendment of the Senate numbered 184, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8077*; and the Senate agree to the same.

Amendment numbered 185:

That the House recede from its disagreement to the amendment of the Senate numbered 185, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8078*; and the Senate agree to the same.

Amendment numbered 188:

That the House recede from its disagreement to the amendment of the Senate numbered 188, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8079*; and the Senate agree to the same.

Amendment numbered 189:

That the House recede from its disagreement to the amendment of the Senate numbered 189, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8080*; and the Senate agree to the same.

Amendment numbered 190:

That the House recede from its disagreement to the amendment of the Senate numbered 190, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8081*; and the Senate agree to the same.

Amendment numbered 191:

That the House recede from its disagreement to the amendment of the Senate numbered 191, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8082*; and the Senate agree to the same.

Amendment numbered 193:

That the House recede from its disagreement to the amendment of the Senate numbered 193, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8083*; and the Senate agree to the same.

Amendment numbered 194:

That the House recede from its disagreement to the amendment of the Senate numbered 194, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8084*; and the Senate agree to the same.

Amendment numbered 196:

That the House recede from its disagreement to the amendment of the Senate numbered 196, and agree to the same with an amendment, as follows:

Restore the matter strickened by said amendment amended to change section number as follows *8085*; and the Senate agree to the same.

Amendment numbered 197:

That the House recede from its disagreement to the amendment of the Senate numbered 197, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8086*; and the Senate agree to the same.

Amendment numbered 198:

That the House recede from its disagreement to the amendment of the Senate numbered 198, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8087*; and the Senate agree to the same.

Amendment numbered 199:

That the House recede from its disagreement to the amendment of the Senate numbered 199, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8088*; and the Senate agree to the same.

Amendment numbered 203:

That the House recede from its disagreement to the amendment of the Senate numbered 203, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8089*; and the Senate agree to the same.

Amendment numbered 205:

That the House recede from its disagreement to the amendment of the Senate numbered 205, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8090*; and the Senate agree to the same.

Amendment numbered 207:

That the House recede from its disagreement to the amendment of the Senate numbered 207, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8091*; and the Senate agree to the same.

Amendment numbered 211:

That the House recede from its disagreement to the amendment of the Senate numbered 211, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to change section number as follows: *8094*; and the Senate agree to the same.

Amendment numbered 212:

That the House recede from its disagreement to the amendment of the Senate numbered 212, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8095*; and the Senate agree to the same.

Amendment numbered 213:

That the House recede from its disagreement to the amendment of the Senate numbered 213, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to change section number as follows *8096*; and the Senate agree to the same.

Amendment numbered 214:

That the House recede from its disagreement to the amendment of the Senate numbered 214, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8097*; and the Senate agree to the same.

Amendment numbered 217:

That the House recede from its disagreement to the amendment of the Senate numbered 217, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8098*; and the Senate agree to the same.

Amendment numbered 218:

That the House recede from its disagreement to the amendment of the Senate numbered 218, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8099*; and the Senate agree to the same.

Amendment numbered 219:

That the House recede from its disagreement to the amendment of the Senate numbered 219, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to change section number as follows *8100*; and the Senate agree to the same.

Amendment numbered 221:

That the House recede from its disagreement to the amendment of the Senate numbered 221, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8102*; and the Senate agree to the same.

Amendment numbered 223:

That the House recede from its disagreement to the amendment of the Senate numbered 223, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8103*; and the Senate agree to the same.

Amendment numbered 225:

That the House recede from its disagreement to the amendment of the Senate numbered 225, and agree to the same with an amendment, as follows:

In lieu of the section number proposed by said amendment insert *8104*; and the Senate agree to the same.

Amendment numbered 276:

That the House recede from its disagreement to the amendment of the Senate numbered 276, and agree to the same with an amendment, as follows:

In lieu of Section 9014(b) of said amendment, insert the following:

(b) Congressional Oversight.—Oversight within the House of Representatives and the Senate with respect to activities under this title shall be—

(1) with respect to nonlethal assistance, within the jurisdiction of the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate;

(2) with respect to lethal assistance, the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate; and

(3) with respect to both lethal and nonlethal assistance, the Committees on Appropriations of the House and Senate.

And the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 1, 19, 21, 23, 35, 36, 42, 44, 45, 49, 50, 60, 61, 71, 72, 73, 77, 78, 80, 81, 83, 84, 85, 87, 88, 89, 93, 102, 103, 104, 105, 106, 108, 112, 113, 128, 131, 138, 171, 179, 186, 187, 192, 195, 206, 208, 209, 210, 220, 227, 228, 229, 230, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 247, 248, 249, 250, 252, 253, 254, 256, 257, 258, 259, 260, 261, 263, 264, 269, 270, 271, 272, 273, 274, 275, and 277.

For all Senate amendments, except Senate Amendment No. 276, and modifications thereto committed to conference:

Bill Chappell,
John P. Murtha,
Norman D. Dicks,
Charles Wilson,
W.G. Bill Hefner,
Les AuCoin,
Martin Olav Sabo,
Jamie L. Whitten,

As exclusive conferees only for consideration of Senate Amendment No. 276 and modifications thereto committed to conference:

David R. Obey,
Charles Wilson,
Jamie L. Whitten,
Mickey Edwards,
Managers on the Part of the House.

John C. Stennis,
Bill Proxmire,
Daniel K. Inouye,
Ernest F. Hollings,
Lawton Chiles,
J. Bennett Johnston,
Robert C. Byrd,
Patrick Leahy,
Jim Sasser,
Dennis DeConcini,
Lowell P. Weicker, Jr.,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4781), making appropriations for the Department of Defense for the fiscal year ending September 30, 1989, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Department of Defense Appropriations Act, 1989 incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 100-681 and Senate Report 100-402 should be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary.

TITLE I—MILITARY PERSONNEL

FISCAL YEAR 1989 PAY RAISE

The conferees agree to provide for a military pay raise of 4.1% for basic pay and basic allowance for subsistence and 7% for basic allowance for quarters.

AVIATION CONTINUATION PAY (ACP)

The House provided $54,000,000 to fund the Air Force ACP program and $34,000,000 for the Navy ACP program. The House further fenced these funds until a report is submitted to the Committees on Appropriations of the House of Representatives and the Senate setting forth a Department of Defense plan to implement a service integrated pilot retention program. The Senate provided $30,000,000 for the Air Force and directed the Navy to absorb additional costs above the $17,130,000 submitted in its budget.

The conferees have agreed to provide $36,200,000 to the Air Force ACP program and expect the Navy to absorb the additional costs to fund its ACP program. Furthermore, the conferees agree not to fence the funds, though the Secretary of Defense is still required to submit a report by December 1, 1988, as proposed by the House.

VARIABLE HOUSING ALLOWANCE (VHA)

The conferees are distressed over the way the Department of Defense (DoD) has managed the VHA program. Thousands of servicemen and women were threatened with the loss of VHA payments in fiscal year 1988 because of DoD's poor administration of the progam and inability to project VHA requirements adequately.

The conferees agee that budget discipline in managing the VHA program must be maintained and have continued the policy of capping VHA payments. The $1,220,000,000 cap agreed to is $105,000,000 above the fiscal year 1988 level and $73,000,000 above the budget request. The conferees further agree that, in the event the DoD again fails to manage its budgetary resources appropriately, priority shall be given to VHA payments for enlisted personnel.

The conferees further agree that the VHA accounts shall not be used as a source for reprogrammings.

MILITARY PERSONNEL, ARMY

Amendment No. 1: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: ***$24,484,745,000***

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	679,901	632,466	679,901	679,901
Enlisted pay and allowances		+100,000	+75,000	+100,000
Officer reduction		0	−20,383	−20,583
Combat field feeding system		0	−10,000	−10,000
Permanent change of station travel		−3,172	−3,172	−3,172
All other items	23,378,599	23,732,255	23,671,089	23,672,276
Total, military personnel, Army	24,418,500	24,467,893	24,459,745	24,484,745

MILITARY PERSONNEL, NAVY

Amendment No. 2: Appropriates $18,962,456,000 instead of $18,909,103,000 as proposed by the House and $18,965,300,000 as proposed by the Senate.

Amendment No. 3: Deletes House language fencing $34,000,000 for Aviation Continuation Pay until a report on Aviation Continuation Pay is submitted to the Congress.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	519,200	482,977	519,200	513,200
Reenlistment bonus		−2,844	0	−2,844
Aviation continuation pay	17,130	34,000	17,130	17,130
All other items	18,428,970	18,423,282	18,428,970	18,423,282
Total, military personnel, Navy	18,965,300	18,943,103	18,965,300	18,962,456

MILITARY PERSONNEL, MARINE CORPS

Amendment No. 4: Appropriates $5,716,200,000 as proposed by the Senate instead of $5,704,953,000 as proposed by the House.

The conference agreement on the item addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	161,200	149,953	161,200	161,200
All other items	5,555,000	5,555,000	5,555,000	5,555,000
Total, military personnel, Marine Corps	5,716,200	5,704,953	5,716,200	5,716,200

MILITARY PERSONNEL, AIR FORCE

Amendment No. 5: Appropriates $20,066,403,000 as proposed by the Senate instead of $20,038,052,000 as proposed by the House.

Amendment No. 6: Appropriates $36,200,000 instead of $54,000,000 as proposed by the House and $30,000,000 as proposed by the Senate for Aviation Continuation Pay.

Amendment No. 7: Deletes House language fencing funds for Aviation Continuation Pay until a report on Aviation Continuation Pay is submitted to the Congress.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	573,900	533,860	573,900	573,900
Officer reduction		0	−11,689	−11,689
Permanent change of station travel		−16,108	−16,108	−16,108
Aviation continuation pay		54,000	30,000	36,200
All other items	19,520,300	19,488,084	19,464,706	19,464,706
Total, military personnel, air force	20,094,200	20,092,052	20,096,403	20,102,603

National Guard and Reserve Forces

FORCE STRUCTURE AND PERSONNEL

The conferees agree to provide $9,223,950,000 in Reserve personnel appropriations, $6,657,700,000 in Operation and maintenance appropriations, and $180,000,000 in cash from fuel savings in section 8115 for the National Guard and Reserves. These funds support a Selected Reserve strength of 1,172,900, an AGR ceiling of 71,900, and a Technician floor of 70,325, broken out as follows:

	Budget	Conference	Conference versus Budget
Selected Reserve:			
Army Reserve	320,600	320,600	0
Navy Reserve	152,600	152,600	0
Marine Corps Reserve	43,600	43,600	0
Air Force Reserve	83,600	83,600	0
Army National Guard	457,300	457,300	0
Air National Guard	115,200	115,200	0
Total	1,172,900	1,172,900	0
Full-time support:			
Army Reserve	13,329	13,344	15
Navy Reserve	21,991	21,991	0
Marine Corps Reserve	1,945	1,945	0
Air Force Reserve	657	672	15
Army National Guard	25,725	25,914	189
Air National Guard	7,948	8,034	86
Total	71,595	71,900	305
Technicians:			
Army Reserve	8,032	8,429	397
Air Force Reserve	10,004	10,090	86
Army National Guard	28,120	28,120	0
Air National Guard	23,613	23,686	73
Total	69,769	70,325	556

The conferees support the increased funding and positions for the force structure restoration for the Air Force Reserve and Air National Guard, the overseas equipment maintenance center for the Army Reserve and Army National Guard, and the full-time support for the Army National Guard and Air National Guard, as addressed by the House and Senate Committees.

The conferees have increased the AGR and technician strength over the budget request to support the above missions of the Army and Air Force components. The increased AGR levels are in no way to be construed as a lessening of Congressional support for the technician program. The conferees expect the Reserve components to honor the floor provided in section 8038. A detailed explanation should be submitted to the Committee on Appropriations if any of the Army and Air Force components do not meet this requirement. In addition, the conferees are adamant that the Army and Air Force components do not use the increased AGR level to convert existing technician spaces.

HURRICANE RECONNAISSANCE

The conferees agree with House language that supports the weather and hurricane reconnaissance missions of the 815th Reserve Squadron and the 53rd Active Squadron. The conferees further agree that these units, the only remaining squadrons with this capability, are critical to the protection of Defense installations and the entire population living in the east and Gulf coast areas of the United States. The conferees commend the dedication and expertise of these squadrons during this year's intense hurricane season in the Gulf of Mexico and the Atlantic.

Since the Improved Weather Reconnaissance System (IWRS) has been programmed for the four weather reconnaissance aircraft and the integration of both tactical and weather reconnaissance missions into the 815th Reserve Squadron appears to be progressing well, the conferees direct the Air Force to fully man both the Reserve and Active squadrons.

The conferees regard the weather and hurricane reconnaissance missions of these two squadrons as a matter of special Congressional interest. The conferees direct that the Committees on Appropriations be notified immediately of any future decisions to change, decrease, or eliminate the mission capabilities of these squadrons. In addition, the conferees expect the Air Force and the Defense Department to budget the full amount required to preserve this vital mission in its fiscal year 1990 request.

C-130 AIRCRAFT

The conferees agree with House language which directs the Air Force to assign one C-130 aircraft, scheduled to fall out of the Air National Guard inventory due to the fiscal year 1988 dedicated buy of 8 C-130H aircraft, to replace an old C-131 for operational support aircraft to Louisiana.

INDIAN SPRINGS AAF

The conferees direct the Air Force to undertake a feasibility study to determine the cost of modifying Indian Springs AAf, Nevada, into a suitable base for a ground support or transportation unit of the Air National Guard. The Air Force should submit its findings to the Committees on Appropriations by February 15, 1989.

Reserve Personnel, Army

Amendment No. 8: Appropriates $2,261,200,000 as proposed by the Senate instead of $2,255,870,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	59,200	55,070	59,200	59,200
IRR screen/training		17,000		
Full-time support (AGR) personnel	17,000		17,000	17,000
Overseas maintenance center			1,200	1,200
All other items	2,183,800	2,183,800	2,183,800	2,183,800
Total	2,260,000	2,225,870	2,261,200	2,261,200

Reserve Personnel, Navy

Amendment No. 9: Appropriates $1,621,400,000 as proposed by the Senate instead of $1,617,185,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	42,100	39,163	42,100	42,100
Training	14,139	12,861	14,139	14,139
All other items	1,565,161	1,565,161	1,565,161	1,565,161
Total	1,621,400	1,617,185	1,621,400	1,621,400

Reserve Personnel, Marine Corps

Amendment No. 10: Appropriates $315,700,000 as proposed by the Senate instead of $315,149,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	7,900	7,349	7,900	7,900
All other items	307,800	307,800	307,800	307,800
Total	315,700	315,149	315,700	315,700

Reserve Personnel, Air Force

Amendment No. 11: Appropriates $657,964,000 as proposed by the Senate instead of $656,771,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	17,100	15,907	17,100	17,100
Force structure		2,664	2,664	2,664
All other items	638,200	638,200	638,200	638,200
Total	655,300	656,771	657,964	657,964

National Guard Personnel, Army

Amendment No. 12: Appropriates $3,334,000,000 as proposed by the Senate instead of $3,319,049,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	89,600	83,349	89,600	89,600
Full-time support personnel (AGR)			7,000	7,000
Overseas maintenance Center			1,700	1,700
All other items	3,235,700	3,235,700	3,235,700	3,235,700
Total	3,325,300	3,319,049	3,334,000	3,334,000

National Guard Personnel, Air Force

Amendment No. 13: Appropriates $1,033,686,000 as proposed by the Senate instead of $1,027,497,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Pay raise	28,367	26,387	28,367	28,367
Force structure		2,077	3,286	3,286
Full-time support (AGR) personnel			3,000	3,000
All other items	999,033	999,033	999,033	99,033
Total	1,027,400	1,027,400	1,033,686	1,033,686

TITLE II—OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

Amendment No. 14: Appropriates $22,083,496,000 instead of $22,094,277,000 as proposed by the House.

Amendment No. 15: Deletes House language which directed that $18,998,000 could not be obligated or expended until authorized.

Amendment No. 16: Restores House language which makes available $900,000 for the 1989 World Ski Championships.

Amendment No. 17: Deletes Senate language which appropriated $22,065,900,000 and directed that $2,228,079,000 could not be obligated until July 1, 1989.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Budget request	22,085,200	22,085,200	22,085,200

ARMY ADP

The conferees agree to a general reduction of $18,000,000 in automatic data processing resources. The Army may finance the Computer Aided Logistics System (CALS) from within available funds to the extent authorized by the Defense Department's Major Automated Information Systems Review Council (MAISRC). The conferees are also pleased with the Army's recent decision to restructure the Military Pay Redesign Project in favor of the existing Air Force military pay system.

EXTENDED COLD WEATHER CLOTHING SYSTEM (ECWCS)

The Senate report language required the Defense Stock Fund to acquire $90,000,000 in ECWCS stocks and directed the Army to procure not less than $50,000,000 of ECWCS in 1989 from the Defense Logistics Agency (DLA). The conferees agree that the Army should procure not less than $50,000,000 of ECWCS stocks in fiscal year 1989. However, the conferees agree to require the Defense Stock Fund to acquire only $40,000,000 in ECWCS stocks in fiscal year 1950 since DLA has already procured $50,000,000 of ECWCS for delivery in fiscal year 1989. Additionally, the conferees direct the Army to procure $40,000,000 of ECWCS stocks in fiscal year 1990.

CRITICAL LANGUAGES

The conferees are concerned about the status of our national pool of linguists with proficiency in such important language and cultural areas as Chinese, Japanese, Korean, Arabic, and Russian. Several studies have shown that the United States is far below an acceptable level in this important area. Therefore the conferees direct the Department to evaluate the feasibility of funding a program to conduct planning and feasibility studies by the Critical Languages and Areas Studies Consortium. These studies should include examination of a plan to bring the recipients of these critical language skills into the military education system both at the Defense Language Institute and in the Department of Defense education system.

OPERATION AND MAINTENANCE, NAVY

Amendment No. 18: Deletes House title providing for transfer of funds.

Amendment No. 19: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *$24,852,100,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment appropriates $24,852,100,000 instead of the $24,992,800,000 as proposed by the House and $24,916,901,000 as proposed by the Senate, deletes House language which directed a transfer of $60,000,000 to the Coast Guard and deletes Senate language which directed that $1,915,171,000 could not be obligated until July 1, 1989.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Budget request	24,945,800	24,945,800	24,945,800

Amendment No. 20: Restores House language which directs that facilities, activities and personnel levels at the Memphis Naval Complex in Millington, Tennessee, be maintained at fiscal year 1984 levels.

Amendment No. 21: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further,* That of the amount appropriated, $40,000,000 shall be available after August 15, 1989, for repair of blister modification of the USS MIDWAY: Provided further, That blister modification of the USS MIDWAY may be accomplished at a shipyard in Japan only if such costs are assumed by the Government of Japan, or if the Government of Japan agrees to increase its share of U.S. labor costs or operational costs in the Japanese fiscal year by an amount equal to or greater than $40,000,000, and that such increase will be in addition to any increase already agreed to by the Governments of the United States and Japan at the time of enactment of this Act: Provided further, Notwithstanding section 2805 of title 10, of the funds appropriated herein, $3,500,000 shall be available for a grant to the Naval Undersea Museum Foundation for the completion of the Naval Undersea Museum at Keyport, Washington. These funds shall be available solely for project costs and none of the funds are for remuneration of any entity or individual associated with fund raising for the project: Provided further, That of the funds appropriated herein, not to exceed $980,000 shall be available to pay Ukpeavic Inupiat Corporation for expenses related to the conveyance of the Navy Arctic Research

Laboratory: Provided further, That, notwithstanding any other provision of law, the lease of the U.S. Navy repair ship HECTOR is hereby authorized in accordance with Chapter 6 of the Arms Export Control Act and subject to the reporting requirements of Section 62 of the Arms Export Control Act, as provided for in Executive Communication 4362, subject to a separate authorization bill being enacted on or after October 18, 1988, whichever comes first

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

E-2C MAINTENANCE

The conferees agree that of the $63,000,000 added for Navy aircraft rework and maintenance, the Navy should allocate $25,400,000 for E-2C wing modification installations, and move expeditiously to complete these urgent repairs.

FLEET MODERNIZATION AND MAINTENANCE/NEW THREAT UPGRADE

The House increased funding for ship modernization and maintenance by $40,000,000 for the New Threat Upgrade (NTU) program. The Senate increased the funding by $240,000,000 for the NTU program and for other modernization and maintenance activities. Furthermore, the Senate directed that $155,000,000 of the $240,000,000 addition, was for East Coast fleet modernization and repair, including installation of two Vertical Launch System (VLS) packages and four selected restricted availabilities.

The conferees agree to increase funding for ship modernization and maintenance by $240,000,000, to be shared equally between Atlantic and Pacific fleets. Priority should be given to initiating the VLS upgrades referenced in the Senate report, if feasible, on the East Coast and $60,000,000 shall be made available for the NTU Program on the West Coast. Any remaining West Coast funding should be used to the greatest extent practicable, for enhancements of current work packages.

Due to funding shortfalls, the Navy was required to change scheduled NTU projects on the USS WORDEN (CG 18) and the USS HORNE (CG 30), from fiscal year 1988 to fiscal year 1989. The conferees agree that the Navy should complete these two NTU overhauls at the originally scheduled shipyards. The remaining four NTU overhauls shall be competed between public and private yards. Finally, while ship deployment schedules require all fiscal year 1989 NTU overhauls to be performed on Pacific Fleet vessels, the conferees expect that future NTU workload should take into account Atlantic Fleet ships.

The conferees concur with the Senate report language which requests the General Accounting Office to provide the committees with quarterly reports on the Navy ship maintenance, repair, and modernization schedules. It is not necessary to obtain agency comments on these reports.

AIR COMBAT FLYING HOURS

The conferees concur with the House report language which directs the Navy to submit a report by June 1, 1989, concerning the flying hour program for TACAIR/ASW.

PERSIAN GULF OPERATIONS

The conferees agree to provide a total of $60,000,000 for operations in the Persian Gulf. The fact that the conferees did not provide the $120,000,000 as recommended by the Senate should not reflect on the commitment of the conferees to the actions of the United States in the Persian Gulf. The $60,000,000 which the conferees have provided in this bill, is the best estimate of costs at this time.

To the extent that this total funding level is not required to meet the operational needs in the Persian Gulf, the Navy should use remaining funds for real property maintenance requirements, especially those of the Navy Training Command and aviation rework.

MEMPHIS NAVAL AIR STATION

The conferees concur with the House report language concerning the importance of the Memphis Naval Air Station and the necessity of maintaining fiscal year 1984 funding and staffing levels.

O&M SUBSIDIES FOR PLANTS AND SHIPYARDS

The conferees agree that in the future, industrial fund rates for shipyards and plants should accurately reflect all costs, including wartime mobilization requirement costs. The mobilization costs may however, be excluded when comparing public to private competitive bids.

NAVY ADP

The conferees agree to a general reduction of $93,100,000 in automatic data processing resources which may be distributed between the categories of management issues: uneconomically leased ADP, contract maintenance audit findings, or SPAR installation costs as discussed in the House report. The Secretary of the Navy should report to the Appropriations Committees as required by the House within six months of receipt of the final Surveys and Investigations staff report. The Navy may proceed with the Bases and Stations Information System (BASIS) project to the extent authorized by the Defense Department's Major Automated Information Systems Review Council (MAISRC) as long as its use at all installations is mandatory as recommended by the Naval Audit Service. The conferees also agree that the Navy should implement a standardized financial accounting system that conforms to GAO/Joint Financial Management Improvement Program (JFMIP) requirements throughout the Navy's industrial facilities. The Navy should proceed with the deployment of the Standard Financial Accounting System (STAFS) after successful completion of the MAISRC by the Office of the Secretary of Defense and should report to the Appropriations Committees within ninety days thereafter on its plan for successful and cost-effective deployment. The report should address the specific actions taken to remove those barriers that would otherwise prevent a more rapid deployment of the system throughout the Navy Industrial Fund, as well as an explanation of how issues raised in GAO report IMTEC 88-47 have been resolved.

ASSET CAPITALIZATION

The conferees agree to a reduction of $80,000,000 of which $53,200,000 is to be applied to acquisition of computer aided design/computer aided manufacturing equipment as discussed in the House report.

MOLDED CASE CIRCUIT BREAKERS

The conferees agree that the Navy should review the requirement for molded case circuit breakers and submit a plan for addressing any requirement within the fiscal year 1990 budget request.

NAVAL UNDERSEA MUSEUM

The conferees are aware that the Naval Undersea Museum Foundation is constructing a museum to show the public pertinent facts about undersea warfare. The planned Naval Undersea Museum in Keyport, Washington, will exhibit undersea naval weapons, sensors and platforms that represent the innovation, development, growth and historic heritage of undersea technology.

The Naval Undersea Museum Foundation has raised $3,300,000 thus far, with another $300,000 anticipated by January 1, 1989. The conferees have agreed to provide $3,500,000 in funds appropriated for Operation and maintenance, Navy to complete the facility.

NAVY ARCTIC RESEARCH LABORATORY

The conferees understand that several years ago, the Navy elected to close the Navy Arctic Research Laboratory and transfer the property to an Alaska native interest—the Ukpeavic Inupiat Corporation.

During the preparations for this transfer, the Navy conducted environmental clean up operations and removal of equipment. The Ukpeavic Inupiat Corporation was retained for security and caretaker services. Not that the transfer is complete, the Navy has no contractual mechanism to reimburse the Ukpeavic Inupiat Corporation for the costs of the security and caretaker services.

Therefore, the conferees have included language which provides $980,000 to pay the Ukpeavic Inupiat Corporation for security and caretaker expenses incurred as part of the conveyance of the Navy Arctic Research Laboratory.

OPERATION AND MAINTENANCE, MARINE CORPS

Amendment No. 22: Appropriates $1,817,000,000 instead of $1,842,000,000 as proposed by the House and $1,799,600,000 as proposed by the Senate and deletes Senate language which directed that $154,317,000 could not be obligated until July 1, 1989.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Budget request	1,792,000	1,792,000	1,792,000
Foreign currency	+50,000		
Japanese defense contribution		−17,400	
Readiness items		+25,000	+25,000
Total reduction	+50,000	+7,600	+25,000
Total appropriated	1,842,000	1,799,600	1,817,000

OPERATION AND MAINTENANCE, AIR FORCE

Amendment No. 23: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *$21,721,673,000 of which $1,500,000 shall be available only for repair and maintenance of Decker Field, Utah: Provided, That $26,000,000 shall be available only for the operation of the SR-71 Base in the Pacific area and, notwithstanding any other provision of law, these funds shall be available for obligation and expenditure for this purpose: Provided further, That none of the funds appropriated in this or any other Act may be obligated or expended for the purpose of disestablishing or reducing the Air Force SR-71 survivable airborne reconnaissance capability for the Far East and Middle East Theatres from the level of such capability available on October 1, 1987*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Budget request	21,950,000	21,950,000	21,950,000

Total appropriated	21,890,400	21,817,327	21,721,673

JAPANESE BEETLE SUPPRESSION

The conferees agree that within the total funding provided for Operation and maintenance, Air Force, $1,000,000 shall be used by the Air Force to suppress a Japanese bettle infestation on Terceira Island in the Azores.

READINESS ISSUES

The Senate included $69,000,000 for a civilian pay reserve. The conferees agree that this funding could better be utilized on readiness items rather than a reserve for civilian pay costs. The conferees direct the Air Force to use $69,000,000 for repair of damage caused by Hurricane Gilbert, medical programs designed to increase productivity, and increased claims costs.

HAMILTON AIR FORCE BASE

The conferees concur with the House report language describing the manner in which the Air Force shall expeditiously pursue the cleanup of uncontrolled hazardous waste contamination in the landfill at the former Hamilton Air Force Base, Novato, California. The conferees emphasize that the Administrator of General Services shall not abrogate or permit the assignment of the contract of sale entitled "Invitation for Bids: No. GSA-09-D(R)-85-1, Bid and Acceptance for Sale of U.S. Government Property" without the consent of the buyer.

AIR FORCE ADP

The conferees agree to a reduction of $15,000,000 for uneconomically leased ADP. No change should be made in the management or accounting for funds under the Logistics Management System (LMS) as suggested by the House report. Instead, the Comptroller of the Defense Department should provide alternatives for managing the costs of logistics upgrades that are unique to the Air Force Logistics Command which have evolved after the LMS baseline was established.

MILITARY FAMILY SERVICES

The conferees agree that the Department of Defense should address the need to enhance the utilization and effectiveness of programs designed to train individuals involved with counseling military members, their families, and retirees for substance abuse, family violence and stress-related factors which threaten their careers and health. The conferees believe that a Department-wide program to deal with these problems offers much promise. The conferees direct the Air Force, as the lead Service, to use $2,000,000 to conduct a study and further address the need for a Department-wide training program for personnel who specialize in counseling and referral for treatment of individuals and families affected by these conditions.

The conferees agree that the Air Force, in conducting the study, should focus on the use of an academic institution which offers an existing base for such a training program, with entry through graduate level programs in social work and counseling, nursing, and health administration. The training program should provide interdisciplinary approaches to community and family health services and counseling.

The Department should report to the Appropiations Committees by June 1, 1989, on the study described above and provide a timetable to establish a training program during fiscal year 1989.

DECKER FIELD, UTAH

In fiscal year 1988, the conferees on the Department of Defense Appropriations Act, provided an additional $500,000 in operation and maintenance funds for the Air Force to repair facilities and the runway at Decker Field in Wendover, Utah.

The conferees understand that the Air Force unilaterally made a decision to withhold these funds from obligation in fiscal year 1988. This is in direct contradiction to the direction of the fiscal year 1988 conferees. Therefore, the conferees have little choice but to legislatively require the Air Force to spend $1,500,000 to repair and maintain Decker Field, Utah.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

Amendment No. 24: Deletes Senate language which earmarks not to exceed $11,691,000 for emergencies and extraordinary expenses.

Amendment No. 25: Appropriates $7,635,973,000 instead of $7,721,100,000 as proposed by the House and $7,547,463,000 as proposed by the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
DIS	152,219	162,219	152,219	162,219

Total	7,710,600	7,721,100	7,547,463	7,635,973

DEFENSE LOGISTICS AGENCY (DLA)

The conferees agree to reduce the Automatic Data Processing program by $11,000,000 based on "ADP baseline growth."

OFFICE, SECRETARY OF DEFENSE (OSD)

The conferees agree to a general reduction of $5,000,000, consistent with authorization. The conferees also agree to the Senate position that OSD must develop the capacity to accurately track force structure and the impact on the balance of payments of stationing troops overseas.

CASE STUDY

This program is addressed within amendment no. 79.

MEALS, READY-TO-EAT

The conferees agree to the Senate language which requires the Department of Defense to conduct a test program of the actual procuring of Meals, Ready-to-Eat (MREs) under the total system acquisition approach process. In its report on the findings of this test program, the Department should not only address cost, but also the potential impact of this approach on small business concerns. The Department should report the results of this procurement test by April 1, 1990.

ENVIRONMENTAL PROGRAMS

The conferees understand that environmental contamination and restoration information was not provided by the Department of Defense, to Army and Navy communities surrounding both the New Cumberland Army Depot, and the Navy Ship Parts Control Center in Mechanicsburg, Pennsylvania.

The conferees believe that as a matter of policy the Secretary of Defense should ensure that all information relating to environmental contamination and restoration activities at Department of Defense facilities should be provided to appropriate State and local authorities as well as to regional offices of the U.S. Environmental Protection Agency.

Further, the Secretary should ensure that all the environmental restoration activities conducted at New Cumberland and Mechanicsburg depots are carried out under the review of EPA and the Pennsylvania Department of Environmental Restoration. This clean-up effort should be taken promptly and should take no longer to complete than a comparable EPA restoration project. Finally, the Secretary of Defense should ensure that systems are promptly installed at these two depots to monitor air, surface water, and ground water affected by the contamination from hazardous waste.

The conferees are aware that the Department of Energy (DOE) is conducting an environmental review and analysis of sites in New York State in the Formerly Utilized Sites Remedial Action Program (FUSRAP). The conferees agree that the DOE should not move or study the move of any FUSRAP waste within the State of New York to the town of Tonawanda, New York.

Amendment No. 26: Restores House language which earmarks not to exceed $11,691,000 for emergencies and extraordinary expenses.

Amendment No. 27: Deletes Senate language which withholds $843,966,000 from obligation until July 1, 1989.

Amendment No. 28: Earmarks $1,400,000 to the Office of Economic Adjustment for making community planning assistance grants pursuant to 10 USC 2391 as proposed by the Senate instead of $900,000 as proposed by the House.

OPERATION AND MAINTENANCE, ARMY RESERVE

The conferees agree to restore 397 technicians as proposed by the House and agree to an offsetting reduction in the Operation and Maintenance, Army Reserve appropriation to stay within the authorized level.

OPERATION AND MAINTENANCE, NAVY RESERVE

Amendment No. 29: Appropriates $979,200,000 as proposed by the Senate instead of $977,548,000 as proposed by the House. The conferees agree to restore the $1,652,000 reduced by the House based on the delievery delays of the MCM ships. The conferees understand that these funds will be required to extend the current MSO operations until the MCM ships are delivered.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

Amendment No. 30: Appropriates $1,033,900,000 as proposed by the House instead of $1,028,500,000 as proposed by the Senate. The conferees agree to restore the fuel savings reduction proposed by the Senate.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Amendment No. 31: Appropriates $1,801,200,000 as proposed by the Senate instead of $1,797,000,000 as proposed by the House. The conferees agree to provide $4,200,000 for additional flying hours required to support Army National Guard missions.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

Amendment No. 32: Appropriates $1,971,000,000 as proposed by the House instead of $1,965,400,000 as proposed by the Senate. The conferees agree to restore the fuel savings reduction made by the Senate.

GOODWILL GAMES

Amendment No. 33: Appropriates $5,000,000 and restores the appropriation paragraph for the Goodwill Games as proposed by the House and deleted by the Senate.

OPERATION AND MAINTENANCE ISSUES

CIVILIAN PAY RESERVE/FURLOUGHS

The Senate proposed bill language in Army, Navy, Marine Corps, Air Force, and Defense Agencies operation and maintenance accounts to withhold 25 percent of civilian pay obligations until the fourth quarter of fiscal year 1989. The Senate proposal was intended to prevent a repeat of Department of Defense proposals to furlough civilian employees because of over-obligation of budgetary resources in the first quarter. The House did not include any similar restriction on civilian pay.

The conferees agree to the House position and have not included the Senate proposed language. The conferees agree that taking such action to pervent furloughs would be unduly restrictive and may prevent legitimate downward adjustments in civilian end strength through normal attrition or workforce management.

The conferees, however, concur with the Senate position regarding civilian furloughs in fiscal year 1988. The announced proposal to furlough 84,000 Air Force civilian employees was premature and proved unnecessary. This proposal had a negative impact on morale and productivity of the workforce. The Department's first choice to meet funding shortfalls in operation and maintenance should not be to intentionally shortchange its civilian payroll. The conferees agree that if the Department of Defense proposes similar furlough action in fiscal year 1989 without first exhausting all other alternatives, the House and Senate may be required to revisit restrictions on civilian pay, which may ultimately result in less flexibility in the use of operation and maintenance resources.

DEPOT MAINTENANCE/SUPPLY OPERATIONS

The House identified depot maintenance, modernization, and supply operations as special interest items, and required that these budgetary resources be shown as such in the Base for Reprogramming Action (DD Form 1414). The Senate did not address this issue.

In fiscal year 1988, the conferees agreed that depot maintenance should be a Congressional interest item. However, during execution of the 1988 budget, the Services significantly reduced depot maintenance from the levels appropriated, prior to submission of the DD 1414. The conferees reaffirm their support for depot maintenance and note its importance to maintaining readiness. Without modification to the process described in last year's conference report, the conferees have little confidence that the increases provided for fiscal year 1989 will actually be expended for depot maintenance.

Therefore, the conferees agree, that the following amounts shall constitute the depot maintenance 1414 Base for Reprogramming:

Army	$1,709,200,000
Navy	4,523,207,000
Marine Corps	80,000,000
Air Force	2,914,931,000
Total	9,227,338,000

The conferees reiterate that this process will establish better discipline in executing the depot maintenance program approved by Congress. This process allows for changing priorities and circumstances by allowing reprogramming into and out of the depot maintenance program, but assures that the appropriate congressional committees concur with such changes.

The conferees concur with the Senate report language concerning reporting and certification requirements on depot maintenance backlogs. The conferees agree that the reports on depot maintenance backlogs should include data beginning in the late 1970's.

MEDICAL PROGRAMS

Funding

The conferees have included the following funding levels for Department of Defense medical programs. These funding levels are consistent with the medical requirements for fiscal year 1989 and should not be reprogrammed for other than high priority uses. The conferees acknowledge the Department's responsibility to reduce funding, on a fair and equitable basis, for nonprogrammatic reductions which specifically affect medical programs such as any general reduction to ADP systems.

Additionally, the conferees agree that the Department of Defense should fully fund CHAMPUS and DEPMEDS requirements in the fiscal year 1990 and 1991 budget requests.

[In thousands of dollars]

	Request	House	Senate	Conference
Army:				
Direct care	1,592,309	1,733,309	1,733,309	1,733,309
CHAMPUS	826,600	826,600	813,800	813,800
Total	2,418,909	2,559,909	2,547,109	2,547,109
Navy:				
Direct care	792,940	880,440	865,440	880,440
CHAMPUS	1,002,400	1,002,400	986,100	986,100
Total	1,795,340	1,882,840	1,851,540	1,866,540
Air Force:				
Direct care	1,057,701	1,057,701	1,059,901	1,057,701
CHAMPUS	681,287	681,287	670,487	670,487
Total	1,738,988	1,738,988	1,730,388	1,730,388
Total:				
Direct care	3,442,950	3,671,450	3,658,650	3,673,650
CHAMPUS	2,510,287	2,510,287	2,470,387	2,470,387

As noted in the Operation and Maintenance, Air Force, section of this statement, an additional $25,000,000 shall be available for Air Force medical programs and projects which provide more effective and cost efficient operations. Of the $25,000,000 in additional funding, $2,000,000 is for the study and implementation of the military family services project as described in the Operation and Maintenance, Air Force, section of this statement.

Use of CHAMPUS funds

The House included report language limiting 10 percent of CHAMPUS funds for demonstration projects. The Senate included report language limiting 25 percent. The conferees agree that each service may use up to $50,000,000 of the funding designed for CHAMPUS claims for demonstration projects, excluding Catchment Area Demonstration Projects, designed to produce more cost effective medical care.

The conferees concur with the House report language concerning the development and management of these projects.

Mental health benefits

The House included report language supporting a prospective payment system for mental health. The Senate included report language supporting hospital-specific payments and geographical cost factors. The conferees agree with the Senate position.

Additionally, the conferees concur with the Senate report language which directs the Department to utilize its demonstration authority to establish a major managed care mental health initiative.

Philadelphia Naval Hospital

The Senate included report language urging quick action on the Navy's study of hospital alternatives in Philadelphia and the maintenance of staffing and hospital services at the March 1987 level. The House did not address this issue. The conferees agree with the Senate position.

VA/DOD sharing agreements

The House included report language requiring the establishment of criteria before implementation of the House Armed Services Committee direction on this subject. The Senate included report language opposing the House position. The conferees agree that the Department should not implement any new VA/DoD sharing agreements until 45 legislative days after a report is submitted to the committees resolving the House concerns.

CHAMPUS Reform Initiative

The House included report language prohibiting contractual arrangements in California and Hawaii without contractor approval and establishing guidance for resource sharing agreements. The Senate did not address this issue. The conferees agree that the CRI contractor should provide consultation to the Services concerning health care contractual arrangements made in California and Hawaii. Additionally, the conferees agree that resource sharing is an important aspect of CRI and encourage the Department and the CRI contractor to resolve this issue.

Non-Physician Health Care Providers

The Senate included report language encouraging greater utilization of clinical and administrative expertise of non-physician health care providers. The House did not address this issue. The conferees agree with the Senate position that the Department should more aggressively utilize the clinical and administrative expertise of non-physician health care providers. The conferees further agree that the Department should expand the development of administratively separate psychology departments/services to include those treatment facilities in each of the Services providing psychology training programs. Similarly, each military service should establish a separate service of optometry, similar to that established by the Army last year. Given the importance of addresssing "battle fatigue," the conferees agree that the Department should establish a demonstration pilot training program under which military psychologists may be trained and authorized to issue appropriate psychotropic medications under certain circumstances. The conferees also agree that CHAMPUS should begin a physicians assistant direct reimbursement demonstration project.

Peer Review

The Senate included report language addressing the Department's peer review organization (PRO). The House did not address this issue. The conferees agree that as part of the PRO implementation, the Department should issue directives/regulations governing cases in which the PRO determines that medically unnecessary or inappropriate care has been provided. In these cases, the Department should provide a waiver of liability, especially for beneficiaries, similar to that provided under the Medicare program.

LACKAWANNA PENNSYLVANIA RIVER SYSTEM

The conferees are aware of the serious threat of flooding in the Lackawanna Pennsylvania River system, and therefore urge the Corps of Engineers, within available funds, to utilize existing authority to alleviate this threat through emergency control action.

TITLE III—PROCUREMENT

General Conference Issues

REPROGRAMMING PROCEDURES

The House report expressed dissatisfaction with current reprogramming procedures and directed that no more than one below-threshold reprogramming decrease may be made for any procurement or RDT&E program at the R-1/P-1 level in a single fiscal year. The Senate report did not address this issue. The conferees agree on the following:

1. The conferees wish to reaffirm the status of "special interest" programs. The conferees agree that the Department of Defense shall consult with the Committees before issuing the Form 1414 "Base for Reprogramming," so that there is common agreement on items of special interest. All reprogramming into or out of these special interest lines, including footnoted projects within RDT&E program elements, shall be subject to prior approval reprogramming actions. In no case shall the Department transfer funds from "Items of Special Interest" through the below-threshold process.

2. Reprogramming threshold amounts for reductions to investment accounts are set at 20 percent of the appropriated level of the P-1/R-1 line, or $10.0 million for procurement or $4.0 milion for RDT&E, whichever is greater. These thresholds may not be exceeded, within a single fiscal year, without submission of a notification reprogramming (Form 1415).

3. The House and Senate Committees on Appropriations shall be notified of any program termination which results in the elimination of P-1 or R-1 line, or a subprogram or project $10.0 million or greater within such a line item, prior to any reprogramming action.

4. Established policies concerning below threshold new starts, including those in modification lines, shall remain in force. These policies require advance notification to the House and Senate Appropriations Committees on below threshold reprogrammings for new programs or line items not otherwise requiring prior approval or notification action. For new starts in modification programs, advance notification is also required where the program costs exceed $10 million over three years.

ACCOUNT LEVEL APPROPRIATIONS

The conferees have agreed to the Senate position of appropriating funds for procurement at the account level, with the exception of Shipbuilding and Construction, Navy and Weapons Procurement, Navy. The above statement of the procedures for reprogramming addresses some of the concerns which caused the House to appropriate at the budget activity level. The conferees remain concerned over the management of funds within appropriation accounts by the Department of Defense. The Committees will closely monitor compliance by the Department with above guidelines, and will direct the General Accounting Office, in the course of its annual review of procurement programs, to evaluate the impact of these changes. The Committee will not hesitate in the future to revert to appropriation by budget activity if this initiative is abused by the Department.

AIRCRAFT PROCUREMENT, ARMY

Amendment No. 34: Appropriates $2,883,700,000 for Aircraft Procurement, Army as proposed by the Senate instead of $2,828,379,000 as proposed by the House.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Aircraft Procurement, Army				
AH-64 Attack Helicopter (Apache)	773,076	795,076	834,476	863,476
UH-60 Blackhawk (MYP)	251,568	221,568	236,068	231,568
OV-1 Surveillance Airplane (MOHAWK)	12,212		12,212	6,212
CH-47 Cargo Helicopter (MODS)	171,887	166,587	161,887	161,887
SOF Aircraft	82,909	57,100	82,909	70,509
SOF Aircraft (AP-CY)	56,100	50,000	56,100	50,000
Avionics Support Equipment	22,230	60,230	22,230	22,230

AH-64 APACHE ATTACK HELICOPTER

The conference agreement of $863,476,000 includes $841,476,000 to procure 72 aircraft in fiscal year 1989 and $22,000,000 to procure one combat mission simulator. If additional funds are required to carry out this program, a prior approval reprogramming shall be submitted to the Committee on Appropriations.

The conference agreement permits a multiyear contract for procurement of the AH-64 beginning in fiscal year 1990 without specifying a production rate.

UH-60 BLACK HAWK HELICOPTER

The conference agreement of $231,568,000 provides for procurement of 72 aircraft without breaking the current multiyear contract.

The conferees agree with Senate report language concerning protection of the UH-60 from electromagnetic interference.

OV-1 AIRCRAFT MODIFICATIONS

The conference agreement provides $6,212,000 for OV-1 aircraft modifications, the authorization amount. It is the intention of the conferees that this amount be used to carry out the budgeted program in fiscal year 1989. In order to accomplish this, the conferees direct only two sets of long lead components be procured with the remaining advance procurement funding in fiscal year 1988. In addition, activities programmed in procurement for flight data recorder evaluation and testing, engine evolution and testing, and all other testing and evaluation activities, be funded within available resources in the research, development, test, and evaluation appropriation. The conferees expect that the funding provided will procure one aircraft modification along with all publications, training, and provisioning. The Army is directed to reprogram additional funds into this line if the above cannot be accomplished.

The conferees direct that future budget submissions for this program be fully funded, with no advance procurement, and that this program receive the high priority in funding that it has with the users in the field.

CH-47 HELICOPTER MODIFICATIONS

The conference agreement provides $161,887,000 for CH-47 helicopter modifications, the authorized amount and the amount proposed by the Senate. It is the intention of the conferees that this funding level will not result in a break in the current multiyear contract. The Army is directed to reprogram additional funds to this line, if required, rather than break the multiyear contract.

SPECIAL OPERATIONS FORCES AIRCRAFT MODIFICATIONS

The conference agreement provides $70,509,000 for special opeations forces aircraft modifications instead of $57,100,000 as proposed by the House and $82,909,000 as proposed by the Senate. The conference agreement also provides $50,000,000 for advance procurement as proposed by the House instead of $56,100,000 as proposed by the Senate.

The conferees fully expect that tough negotiations by the government and contract savings will allow the budgeted program to be executed within the amounts provided. The conferees reiterate House report language directing the Army to keep the Committees on Appropriations informed on the progress of negotiations and updated program costs.

The conferees expect that five MH-47E aircraft will be modified in fiscal year 1989 as proposed in the budget.

MISSILE PROCUREMENT, ARMY

Amendment No. 35: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert *$2,602,800,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to the following for Missile Procurement, Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
Missile Procurement, Army				
Chaparral	57,907	57,907	49,407	56,907
ADS Hvy Msl System	85,000	85,000		85,000
Laser Hellfire System	180,502	215,502	205,502	205,502
Multiple Launch Rocket System (MYP)	369,441	351,441	406,541	388,541
MLRS Binary Warhead	16,600		16,600	
MLRS Grenades				13,000
Army Tactical Missile SYS (ATACMS)	76,300	68,700	62,700	66,900
Spares and Repair Parts	254,302	225,202	254,302	225,202

CHAPARRAL

The conferees have included $56,907,000 for the Chaparral program, a reduction of $1,000,000 from the budget estimate. The reduction is directed to management support. Management support costs increased from $4,326,000 in 1988 to $6,718,000 in the 1989 budget estimate. The conferees felt that even with the program restructuring this was an excessive increase and consequently have recommended the reduction.

The Chaparral program has experienced great instability recently with several changes in acquisition strategy. As a consequence, the Army advised the Congress this spring that the 1988/1989 program which was supposed to support the purchase of 490 new Rosette Scan Seeker missiles and 126 RSS retrofitted missiles, would only support 117 new missiles and 56 retrofits. A subsequent program restructuring utilizing available prior year funds, denied by Congress as sources for reprogramming, should result in the purchase of 214 new RSS missiles and 106 retrofits. This assumes a facilitization rate of 35 missiles per month for the second source, which the conferees support. The conferees support this program level and urge the Army to procure as many missiles as possible with the funding available. The conferees designate the Chaparral RSS a program of Congressional special interest.

TOW 2 MISSILE

The conference report on the 1988 appropriations act provided multiyear procurement authority for TOW 2 missiles conditioned upon certification by the Secretary of Defense that multiyear procurement would be more economical than second source acquisition. In March 1988, the Department of the Army submitted its economic analysis, which supported a multiyear procurement strategy, to the Office of the Secretary of Defense. The OSD analysis, which had been expected to take two to four weeks, dragged on for nearly five months. In early August 1988 OSD advised the Congress that a second source strategy was most economical. OSD also determined that while a second source was being developed, a multiyear contract with the prime was more economical than annual buys.

Thus, the current OSD directed acquisition strategy calls for (1) a multiyear contract with the prime during second source development, (2) development of the second source beginning in 1989 with an educational buy of 300 missiles followed by a directed buy of 3,000 missiles in 1990 and (3) head to head competition beginning in 1991.

The OSD directed strategy incorporates the following features and assumptions:

(1) Product development testing by the second source is not completed before the directed buy of 3,000 missiles.

(2) The fiscal year 1991 competitive buy occurs before the start of educational buy deliveries and TOW 2B product development testing.

(3) The second source producer can ramp up production from 300 missiles in 1989 to 3,000 in 1990.

(4) Second source delivery times will equal those of the prime, who has produced TOW missiles for fifteen years and has proprietary relationships with many suppliers.

While the conferees support the decision to develop a second source producer as quickly as possible, they believe this high risk acquisition stratgey is fraught with danger. The conferees are especially skeptical of the second source ability to ramp up production to 3,000 missiles by 1990 and be ready for head to head competition in 1991. In addition, the delays in getting 1988 funds on contract caused by the time consuming OSD review has made a 1988–1990 multiyear contract with the prime impossible.

Therefore, the conferees have included language in section 8031 of the Act permitting multiyear procurement for the TOW 2 program beginning in fiscal year 1989. Although significant savings would result from a multiyear contract, it is unlikely they would exceed 12 percent. For this reason, language has only been included which waives the 12 percent multiyear procurement savings requirement.

ARMY TACTICAL MISSILE SYSTEM

The conference agreement provides $66,900,000 for the Army Tactical Missile System, instead of $68,700,000 as proposed by the House and $62,700,000 as proposed by the Senate. The conferees recognize that the lower funding level assumes that the Army will be able to attain savings resulting from a one time buyout of the fuzes required for the 1,000 total missiles in this program. The conferees expect that these efficiencies can be achieved through administrative action or, failing that, by legislative relief proposed to the next Congress.

Amendment No. 36: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows: *: Provided, That funds may be obligated and expended for procurement and advance procurement of the Forward Area Air Defense System, Line-of-Sight Forward-Heavy system without regard to the restrictions contained in section 111(d) of the National Defense Authorization Act for fiscal years 1988 and 1989 (Public Law 100-180): Provided further, That notwithstanding sections 138 and 2366 of title 10 U.S.C., the Secretary of the Army may obligate advance procurement funds provided for the Forward Area Air Defense System, Line-of-Sight Forward-Heavy system*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

Amendment No. 37: Appropriates $2,830,921,000 for Procurement of Weapons and Tracked Combat Vehicles, Army instead of $2,812,521,000 as proposed by the House and $2,886,700,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement of W&TCV, Army				
Bradley Fighting Vehicles (MYP)	682,200	644,050	653,600	644,050
Bradley Fighting Vehicles (MYP)	31,800	30,000	31,800	30,000
Abrams Tank Series Roll (MYP)	1,131,600	1,105,000	1,131,600	1,126,600
Abrams Tank Series Roll (MYP)	212,100	252,100	256,200	252,100
Carrier, MOD	38,500	32,700	38,500	32,700
BFVS Series (MOO)	62,900	33,800	62,900	45,000
Howitzer, MED SP FT 155mm M109 SER(MOD)	30,000	25,500	30,000	25,500
Spares and repair parts	400,500	367,500	340,500	340,500
Production base support (TCV–WTCV)	40,829	28,700	40,829	28,700
Squad Automatic Weapon (SAW) 5.56mm	11,500		11,500	11,500
120mm Mortar		5,000		5,000
VEH Rabid Fire WPN Syst-Bushmaster (MYP)	29,500	28,400	29,500	29,500

BRADLEY FIGHTING VEHICLE

The conference agreement provides $644,050,000 as proposed by the House instead of $653,600,000 as proposed by the Senate. The conferees expect that the amount provided will fund at least the 581 vehicles budgeted and authorized. The conferees direct the Army to procure as many vehicles as possible rather than reprogram funds from this line to other purposes. The amount provided in the conference agreement recognizes savings resulting from a revised acquisition strategy for reactive armor tiles and from lower overhead rates because of additional procurement of M-113 vehicles and MLRS launchers.

M-TANK

The conference agreement provides the Department of the Army $1,126,600,000 for the procurement of 545 tanks for fiscal year 1989 and $252,200,000 for advance procurement for fiscal year 1990 and beyond. Further, the conferees agree to provide the Marine Corps $140,000,000 for the procurement of 66 tanks in fiscal year 1989 and $15,900,000 for advance procurement for fiscal year 1990 and beyond. Finally, the conferees agree to provide $115,000,000 for the procurement of 58 tanks for the Army National Guard for fiscal year 1989.

The conferees' recommendations are based upon their understanding of the current direction of the Army's armor/antiarmor master plan being developed at this time for approval by the Department of Defense. The conferees fully support the Army's decision to continue producing M-1 tanks beyond the current multiyear and have provided advanced funding and approval for the Army to enter into a follow-on multiyear contract for the production of tank chassis.

The conferees further agree with the Senate position on providing M-1A1 tanks to the Army National Guard. The conferees direct that the Army develop a distribution plan which will place at least 58 M-1A1 tanks, without the enhanced armor package, into the National Guard inventory prior to the end of fiscal year 1991.

Finally, the conferees express their very serious reservations with the Army's decision to terminate the M-60 modification program and begin a proposed program to up-gun the current 105mm fleet of M1 tanks. Affordability has been a driving force in this decision and yet the Congress has still not received any analysis showing the up-gun program is more cost effective than expending the same amounts of funds for new production tanks. The conferees direct that this analysis be completed as part of the armor/anti-armor master plan and further direct that no funds may be obligated by the Department of Defense for facilitization, long-lead, or procurement for the up-gun program until the analysis is complete and the armor-anti-armor plan is approved by the committees. The conferees also agree that the up-gun program, if approved, should be fully competed. The Department of the Army may use funds appropriated in fiscal year 1988 and prior to complete this anlaysis and any preliminary design requirements necessary to formulate the proposed competitive acquisition strategy.

In last year's conferees report, the conferees directed that the Army use available funding in the fiscal year 1987 M-1 tank procurement line to buy additional tanks. Since the Army has failed to follow this direction, the conference agreement transfers $26,600,000 of fiscal year 1987 M-1 tank funds and $41,500,000 in fiscal year 1988 M-1 tank funds. These transfers are included in the General Provisions section of the bill.

PROCUREMENT OF AMMUNITION, ARMY

Amendment No. 38: Appropriates $2,012,970,000 for Procurement of Ammunition, Army instead of $2,026,163,000 as proposed by the House and $1,951,549,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement of ammunition, Army

RDX facility			80,000	72,300

XM900 105 MM AMMUNITION

The conferees agree to $30,906,000 for initial production of the improved 105 mm tank round. The conferees further agree with the direction provided in the Senate report, as opposed to the House report. Additionally, the conferees request that the General Accounting Office, as part of its annual review of ammunition procurement, closely examine the testing program, results of tests, and the data supporting the type classification evaluation of this round.

XM762 ELECTRONIC TIME FUZE

The conferees concur with the Senate language that delays obligation of the funds until the Army reports the results of the current test program. The General Accounting Office, as part of its annual review of ammunition procurement, should specifically evaluate the Army's test results for this fuze, and conduct a cost-benefit analysis of the electronic fuze compared to existing mechanical time fuzes. If production of electronic fuzes is delayed, the Army may utilize such funds as are necessary to procure mechanical fuzes to support munitions production.

PROVISION OF INDUSTRIAL FACILITIES

The conference agreement of $164,900,000 for provision of industrial facilities includes $21,900,000 for engineering and design, $13,000,000 for the Musal HMX project, and no funds for sensor fuzed weapon facilities. The conferees agree that, within available funds, $5,900,000 be made available for mobilization work at the Badger Army Ammunition plant. No funding is required for establishment of a second source for M829E1 metal parts.

RDX PRODUCTION FACILITY

The conferees continue to support the construction of an RDX manufacturing facility at the Louisiana Army Ammunition Plant, for which $262,700,000 was appropriated last year. however, concern remains over controlling the costs of this facility. The conference agreement provides $72,300,000, which is last year's estimate of the cost to complete this facility.

The conferees note that there is currently a disagreement between the ammunition community and the Corps of Engineers on the cost of this facility. As a result, prospective contractors are being asked to provide separate cost proposals for essential components of this plant such as a finishing line, acid plant, steam plant, C-4 line, and Comp B line. These separate proposals are being requested because of concern that the above items cannot be funded within the previous total cost estimate. In providing the $335,000,000 estimated for the RDX facility, the conferees expect the Army to carry out its original program within its original program cost projection. There should not be a repeat of recent experience of cost overruns, entailing substantial re-work, at other ammunition facilities. The conferees expect the Army closely to monitor and control costs and to report to the Committees as firm proposals are received and cost estimates are updated.

The current Army acquisition strategy for this facility requires prospective contractors to bid on a turn-key basis with a firm fixed price contract. The conferees believe the Army should consider other contracting mechanisms, including fixed price incentive contracts, allowing the government and the contractor to share the risk of this project, which could lower total project costs.

Amendment No. 39: Deletes language proposed by the Senate which prohibited obligation of appropriations until previously appropriated funds for an RDX facility were made available for obligation.

OTHER PROCUREMENT, ARMY

Amendment No. 40: Deletes House language providing the appropriation at the budget activity level, and appropriates $4,568,011,000 instead of $4,655,837,000 as proposed by the House, and $4,434,696,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Other procurement, Army				
Small unit support vehicle (SUSV)	8,794		8,794	8,794

Simulation network (SIMNET)			20,000	15,000

HEAVY EQUIPMENT TRANSPORTER

The conference agreement denies the $46,489,000 budgeted for the Heavy Equipment Transporter. The denial is based on the existence of $48,300,000 unobligated balances from prior years and the $13,600,000 available under the Host Nation Support program in the accompanying bill. If additional funds are required to execute the HET contract, the Army is directed to submit a reprogramming for the amount required.

SINCGARS FAMILY

The conferees agree to provide $237,877,000 to ensure that options three and four of the current SINCGARS contract will not require renegotiation. This funding level assumes a $29,300,000 procurement of SINCGARS radios by the Navy, as stipulated in the Act accompanying this report, and it adjusts for $15,000,000 in prior year savings that will not be available in fiscal year 1989, because the relevant prior year accounts have expired. The conferees remain concerned about the joint service interoperability of SINCGARS. All services should participate on a permanent basis in the SINCGARS Configuration Control Board. Funding for future Navy, Air Force, and Marine Corps radio procurements will depend on maintaining interoperability with the established SINCGARS standards.

VEHICLE INTERCOMMUNICATIONS SYSTEM

The conferees agree to provide $10,000,000 for the Vehicle Intercommunications System (VIS), as proposed by the House, agree to House language, and direct the Army to report to the Committees on Appropriations by February 15, 1989 a plan for the fielding and procurement of VIS by fiscal year and by appropriation account.

SINGLE CHANNEL OBJECTIVE TACTICAL TERMINAL (SCOTT)

The conferees agree to provide $36,500,000 for SCOTT terminals, and agree that the Army should reprogram, if necessary, to acquire up to 15 new terminals to ensure an adequate number for use with the satellite constellation. The conferees also agree to House language requiring the Army to report to the Committees on Appropriations the results of operational testing prior to obligation of fiscal year 1989 funds.

ARMY COMMAND AND CONTROL SYSTEM

LTACFIRE.—The conferees agree to provide not less than $13,200,000 for LTACFIRE. The conferees understand that the Army has delayed procurement of the Forward Entry Device, and directs the Army to provide fiscal year 1989 LTACFIRE funding from the Forward Entry Device appropriation included in this act.

ACCS-CHS.—The conferees agree with House report direction regarding the Army Command and Control System—Common Hardware Software (ACCS-CHS) program, and further concur that the Army should request future funding for the ACCS-CHS program under research, development, test, and evaluation appropriations until successful completion of established milestones for the programs using this equipment warrants funding under procurement appropriations.

The conferees agree that the program limit for ACCS-CHS procurement in fiscal year 1989 should be $20,000,000, rather than $30,000,000 as proposed by the House.

STARNET/VIABLE

While both the House and Senate agree to a reduction of $7,000,000 for expansion of the Starnet/VIABLE system, the conferees do not object to upgrades of the existing computer network from within available funds.

MANEUVER CONTROL SYSTEM

The conferees agree that the Maneuver Control System is a program of special interest, and that notification to the Committees on Appropriations is required prior to any reductions for any purpose in fiscal year 1989 or prior year appropriations.

SIMULATION NETWORK (SIMNET)

The conferees agree to provide $15,000,000 and further agree that the Army may reprogram an additional $5,000,000 for a program level of $20,000,000 in fiscal year 1989. The conferees also agree with Senate language requiring the Army to consolidate funding for the SIMNET program into one line. The conferees direct the Army to provide an acquisition plan for SIMNET prior to obligation of fiscal year 1989 funds.

HOST NATION SUPPORT

From within the funds provided for Host Nation Support, $1,600,000 will only be available to procure equipment for construction projects funded in the Republic of Korea under the CDIP program. The conferees strongly support the CDIP effort and expect the Army and the Air Force to budget for CDIP unique procurement items in future years.

Amendment No. 41: Deletes the House proviso which would have provided that $413,019,000 could not be obligated until authorized by law.

AIRCRAFT PROCUREMENT, NAVY

Amendment No. 42: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert *$9,415,311,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Aircraft Procurement, Navy				
EA-6B (electronic warfare) Prowler	473,557	399,116	467,557	467,557
EA-6B (electronic warfare) Prowler (AP-CY)	18,331	18,331	24,331	24,331
AV-8B (V/STOL) Harrier (MYP)	479,241	479,241	455,241	479,241
F/A-18 (fighter) Hornet	2,147,304	2,197,304	2,354,304	2,354,304
CH/MH-53E (HELO) Super Stallion (MYP) (AP-/CY)		46,000		46,000
V-22 Osprey	335,332	335,332	280,332	335,332
AH-1W (helicopter) Sea Cobra		55,000		55,000
HH-60H	15,593		15,593	15,593
SH-60 series	501	4,501	501	4,501
P-3 series	131,932	140,647	131,932	131,932
Spares and repair parts	1,162,606	1,287,600	1,162,606	1,162,606
Aircraft industrial facilities	27,605	27,605	77,605	77,605
Special support equipment	36,420	93,169	26,420	36,420

Amendment No. 43: Deletes language proposed by the House which provided that the funds appropriated shall not be obligated or expended until authorized by law.

Amendment No. 44: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that the provisions in Public Laws 100-180 and 100-202 which provide that funds are available in specific dollar amounts only for specific programs, projects, or activities funded by the appropriation "Aircraft Procurement, Navy" shall have no force or effect which would limit the application of a proportionate share of the general reduction of $250,000,000 allocated within the appropriation account against these specific programs, projects or activities as proposed.

A-6G PROGRAM

The confeees agree that in order to expand on the number of candidate aircraft for remanufacture into the A-6G configuration, both KA-6D and EA-6A inventories be considered in addition to A-6Es. The conferees believe that this makes sense in that the forward fuselage structure, which is retained in the remanufacture process, is the same as in the A-6E.

The conferees believe that this approach will add at least fifty-four candidate aircraft (thirty-four KA-6Ds and twenty EA-6As) for conversion to the A-6G, plus some portion of the other thirty-four KA-6Ds.

EA-6B ELECTRONIC WARFARE AIRCRAFT

The conferees agree to provide $467,557,000 to procure 12 EA-6B aircraft instead of $399,116,000 for 9 EA-6B aircraft as proposed by the House. The conferees also agree that the Navy should continue to maintain its current schedule for the Advance Capability program within available funds.

CH/MH-53E HEAVY-LIFT HELICOPTER (ADVANCE PROCUREMENT)

The conferees agree to provide $46,000,000 for CH/MH-53E helicopter advance procurement as proposed by the House instead of no funding as proposed by the Senate. The conferees are concerned that during the course of Department of the Navy internal budget deliberations the out year quantities of CH/MH-53E varied considerably. The conferees agree to provide sufficient advance procurement funding to support the continuation of the current multiyear if the CH/MH-53 helicopter is to be procured in the future. If the Department intends to continue procurement under a multiyear contract formal approval should be requested as part of the fiscal year 1990 budget request.

AH-1W COBRA

The conferees agree to provide $55,000,000 as proposed by the House to be used to complete the procurement of 34 AH-1W aircraft and associated support which was begun in fiscal year 1988.

V-22 OSPREY

The conferees agree to provide $335,332,000 for V-22 advance procurement, as proposed by the House instead of $280,332,000 as proposed by the Senate. The conferees, however, are very concerned that in light of the reduction in the total quantities of V-22's being procured, budgetary constraints, and the current unrealistic five year procurement profile, the Department is continuing to proceed with a questionable procurement strategy which includes head-to-head competition in the early stages of V-22 procurement. Under the original plans, which called for a much larger quantity of V-22's to be procured, the Department's procurement strategy was attractive and cost effective. As the program evolved over the past few years, many changes have taken place. The conferees believe, that this gives cause to reevaluate all aspects of the V-22 procurement strategy, including annual procurement rates and the decision to tool-up both contractors to give them the capability of building the entire V-22 aircraft.

The conferees expect the Department to submit, as part of its fiscal year 1990 five year plan, a realistic and executable procurement ramp-up in fiscal year 1990. The conferees also direct the Under Secretary of Defense for Acquisition to reevaluate the Department of the Navy V-22 competitive procurement strategy, particularly as it relates to requiring both contractors to be capable of building the entire V-22 aircraft, and determine whether more attractive, efficient and economical alternatives are available. The conferees expect a full report on OSD's findings no later than December 31, 1988.

E2-C MULTIYEAR PROCUREMENT

Last year the House Appropriations Committee directed the Department of the Navy to study the savings associated with multiyear procurement of several aircraft. On August 15, 1988 the Navy submitted its report on the multiyear procurement of E-2C aircraft. The Navy study determined that the procurement of E-2C aircraft, using established multiyear criteria, is a viable multiyear candidate. It was estimated that an unnegotiated savings of $383 million, or 15.4 percent could be achieved under a multiyear procurement strategy. Based on the results of the Navy study the conferees strongly encourage the Office of the Secretary of Defense to include the E-2C aircraft program as part of its 1990 multiyear procurement budget submission.

MODIFICATION OF AIRCRAFT S-3 MODIFICATIONS

The conferees agree that the Navy should explore the cost benefits of buying out the ARR-78 Advanced Sonobuoy Communications Link and report its findings to the Committee by December 31, 1988. If it appears that significant savings will accrue by accelerating the purchase of ARR-78 systems, the Committee believes the Navy should proceed to purchase an economical rate beginning in fiscal year 1990.

COMMON ECM EQUIPMENT

The conferees agree to provide $85,335,000 for purchase of common electronic countermeasures equipment. The conferees expect that $35,000,000 of the amount provided is to be used only for ALQ-126B purchases. In addition, the conferees expect that of the remaining funds, at least $25 million are to be used for the purchase of ALR-67 systems.

Weapons Procurement, Navy

Amendment No. 45: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *as follows:*

Ballistic Missile Programs, $1,872,538,000;
Other Missile Programs, $3,245,154,000;
Mark-48 ADCAP Torpedo, $485,000,000;
Mark-50 Torpedo, $198,547,000;
Vertical Launched ASROC, $105,000,000;
Modification of Torpedoes, $3,289,000;
Torpedo Support Programs, $48,652,000;
Other Weapons, $108,440,000;
Spares and Repair Parts, $87,412,000;
In all: $6,154,032,000

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 46: Deletes language proposed by the House which provided that the funds appropriated shall not be obligated or expended until authorized by law.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Weapons Procurement, Navy				
BGM-109 Tomahawk	635,517	635,517	587,003	635,517
AIM/IRIM-7 F/M Sparrow		75,000	40,000	57,500
AMRAAM	59,798	42,768	34,998	34,998
AIM-54A/C (Phoenix)	465,283	325,802	397,700	397,700
Penguin (AP-CY)	3,518		3,518	3,518
Tacit Rainbow	89,965		89,965	89,965
Weapons industrial facilities	10,750	10,750	13,750	13,750
Ordnance support equipment	351,707	240,907	230,000	236,507
Torpedo MK-48 ADCAP	431,014	541,800	431,014	485,000
ADV lightweight torpedo	162,047	210,547	162,047	162,047
Vertical launched ASROC	17,552	17,552		105,000

MK-48 ADCAP TORPEDO

The Conferees agree to provide $485,000,000 to procure 320 MK-48 torpedoes instead of $541,800,000 for 350 torpedoes as proposed by the House and $431,014,000 for 261 torpedoes as proposed by the Senate. The Conferees have been advised that outyear quantities of MK-48 ADCAP torpedoes has been substantially reduced below the Department's fiscal year 1989 five year plan. The quantities being proposed neither adequately support a dual-sourcing procurement strategy nor foster proven cost-efficient competition. It is believed that the Department of the Navy's shortsighted proposal will result in significant unit cost premiums amounting to 15 and 20 percent. Accordingly the conferees direct that the Office of the Secretary of Defense ensure that future budget requests contain quantities that support a dual sourcing MK-48 ADCAP procurement strategy which the conferees have been advised is 320 torpedoes per year.

MK-50 TORPEDO PROGRAM

For the past several years the MK-46 torpedo has been scheduled to be replaced by the MK-50 which will be the Navy's next generation lightweight torpedo which will provide increased range, speed and lethality. As such, it is critical to the Navy's antisubmarine efforts to counter the emerging Soviet submarine threat. The conferees are greatly concerned that the progress on this program has not met expectations; specifically, the poor performance of the prime contractor during the full scale engineering development phase of the program. In view of this concern, the conferees suggest that the Navy take immediate corrective action. The Navy should consider greater involvement of the second source contractor in the full scale engineering development of the torpedo at the earliest possible time. Such involvements should include monitoring developmental and operational tests and participation of the second source in effective design improvements which will favorably impact the critical areas of producibility, reliability, and maintainability of components and systems.

Additionally, prior to both the start of TECHEVAL and the obligation of any procurement funds other than long lead material funding to the prime contractor, the Secretary of Defense must certify that the FSED criteria has been fully and successfully met.

VERTICAL LAUNCHED ASROC (VLA)

The conferees agree to provide $105,000,000 to be used solely for the procurement of 300 VLA missiles instead of $17,552,000 for 90 VLA missiles as proposed by the House and no funding proposed by the Senate. The conferees also direct that all unobligated 1987 VLA funds be used to offset the procurement of the 300 VLA missiles. The conferees express very strong support of the Departments effort to proceed with the development and future deployment of a common ASW standoff weapon. However, it is believed that an interim shipboard ASW defensive capability is an absolute necessity and therefore directs the Department to procure 300 VLA missiles. These missiles should be produced and delivered in a manner that efficiently supports an interim ASW standoff capability. The conferees intend that this appropriation be a one-time buy to solve the interim shipboard ASW shortfall.

Shipbuilding and Conversion, Navy

Amendment No. 47: Appropriates $1,365,100,000 for the SSN-688 attack submarine program as proposed by the Senate instead of $1,417,800,000 as proposed by the House.

Amendment No. 48: Appropriates $62,743,000 for the CV-SLEP program as proposed by the Senate instead of $243,400,000 as proposed by the House.

Amendment No. 49: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment insert: *$2,062,200,000;*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 50: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment insert: *$689,900,000: Provided, That the Navy shall first execute the remaining options for the low bidder's current contract: Provided further, That the remaining funds may not be obligated or expended until the Secretary of the Navy conducts an independent assessment of the shipbuilding mobilization base and determines whether or not the remaining three T-AO fleet oilers should be awarded to a second source shipyard and submits for approval to the Committees on Appropriations its T-AO fleet oiler procurement strategy.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 51: Appropriates Deletes "craft," as proposed by the Senate.

Amendment No. 52: Appropriates $276,800,000 for outfitting and post delivery programs as proposed by the Senate instead of $311,800,000 as proposed by the House.

Amendment No. 53: Appropriates $9,055,543,000 for Shipbuilding and Conversion, Navy instead of $9,396,100,000 as proposed by the House and $9,013,443,000 as proposed by the Senate.

Amendment No. 54: Deletes language proposed by the House which provided that the funds appropriated shall not be obligated or expended until authorized by law.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Shipbuilding and conversion, Navy				
SSN-688 class submarine (nuclear) (AP-CY)	304,300	228,500	175,800	175,800
CV SLEP (AP-CY)	135,400	243,400	62,743	62,743
DDG-51 (MYP)	2,128,900	2,128,900	2,128,900	2,050,900
DDG-51 (MYP) (AP-CY)	78,400	5,500	11,300	11,300
TAO fleet oiler	284,900	689,900	569,800	689,900
Outfitting	214,700	209,700	174,700	174,700

FRIGATE MODERNIZATION

The fiscal year 1988 conference agreement included a discussion of the conferees concerns with the lack of current plans for modernization of Navy frigates. The conferees directed the Navy to review options for frigate modernization and report to the House and Senate Appropriations Committees no later than March 31, 1989. Nonetheless, the report has yet to be received by the Committees. The conferees remain concerned about this issue and the apparent inability of the Navy to address it. Thus, the Navy is directed to provide the requested report in an expeditious manner. Failure to do so will force the Congress to consider its own actions next year without any recommendation from the Navy.

MINE COUNTERMEASURES (MCM) SHIPS

The conferees were advised of the lack of full and final settlements of Requests for Equitable Adjustments from the two shipyards constructing MCMs. It appears that the Navy has been unyielding in an effort to punish the follow-on yard. The conferees do not support any agreement which would cause the shipyard to cease as a going concern.

The conferees are interested in each of the subject shipbuilders emerging from current and future negotiations as a going concern. This would include the ability to enter bids to the RFP issued for three MCMs with options for an additional three.

The Secretary of the Navy is directed to ensure that the two shipyards are treated in a fair and equitable manner during the negotiations on their Requests for Equitable Adjustment and that the conclusion of negotiations is expedited on a priority basis.

YPC-683 MINE COUNTERMEASURE CONVERSION PROGRAM

Last year the conferees directed the Navy to use available FY 1986 funds to outfit a YP-683 class yard craft with a lightweight, off the shelf mine countermeasure system for use in a national emergency. The proposed system includes a forward looking mine detection and classification sonar and other electronics that support the mine detection, classification, and neutralization missions. The conferees are advised that although preliminary steps were taken to comply with this directive, the Navy indicated its intention of proceeding no further.

The conferees repeat their direction of last year and direct that action be taken without further delay. Moreover, the Secretary of Defense shall report in writing not later than December 31, 1988 concerning the progress achieved to comply with this directive.

AO (JUMBO) PROGRAM

The conferees agree that $8,000,000 is to be transferred from available prior fiscal year 1987 shipbuilding and conversion funds for the ammunition variant configuration of the fiscal year 1987 AO (Jumbo) lead ship. The conferees agree that this would increase the ammunition replenishment capability of the fleet, and would improve future logistics supportability by standardizing all five AO-177 class ships on the ammunition variant configuration instead of maintaining two configurations within this class.

SERVICE CRAFT

The conferees agree that since Congress has funded procurement of three of the required four YTT/Torpedo Test Craft the Navy should expeditiously fund its requirement for one additional YTT to end the fleet's operational problems with its existing WWII vintage test craft. The conferees further agree that the Navy transfer $13,500,000 from available prior fiscal year 1987 shipbuilding and conversion funds for this purpose.

VALVE PROCUREMENT

The conferees encourage more U.S. based manufacturing of valves used in government shipbuilding. In acquiring these valves there often exists an inappropriate emphasis on pricing. This results in a lack of quality and reliability provided by foreign manufacturers. The conferees understand the need to protect the United States production base for these valves.

OTHER PROCUREMENT, NAVY

Amendment No. 55: Deletes House language providing the appropriation at the budget activity and specifying a line item amount, and appropriates $4,813,969,000 instead of $4,693,329,000 as proposed by the House, and $4,909,597,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Other procurement, Navy				
Firefighting equipment	14,372	13,790	14,372	13,790
Strategic platform support equipment	56,488	55,588	49,988	49,988
Sealift support equipment	21,779	41,779	21,779	41,779
Revised ship overhaul schedule (ship support)		−19,000		
Inflated cost estimates (ship support)		−3,800		−3,800
AN/SQQ-89 surface ASW combat system	218,359	218,359	218,359	233,359
AN/SQR-17A acoustic processor		10,000		
AN/SQR-18 towed array sonar	320	14,220	320	14,220
Over the horizon radar	163,564	91,064	163,564	163,564
Large screen display		2,000		2,000
Revised ship overhaul schedule (communication and electrical)		−78,800		
Inflated cost estimates (communication and electrical)		−15,200		−15,200
AN/SSQ-53 (DIFAR)	47,695	47,695	47,695	70,195
AN/SSQ-57 (special purpose)	2,835	2,835	2,835	10,335
General increase, sonobouys		56,700	30,000	
General purpose bombs	31,264	96,664	56,264	56,264
Rockeye	914	16,914	914	16,914
Practice bombs	43,024	45,124	53,024	45,124
Cartridges plus cartridge actuated devices	1,927	28,127	1,927	1,927
Bigeye chemical weapon	9,900		5,000	5,000
Inflated cost estimates (aviation support)		−1,900		−1,900
MK-92 cort		78,000		50,100
Revised ship overhaul schedule (ordnance support)		−50,000		
Inflated cost estimates (ordnance support)		−8,900		−8,900
Unallocated increase—ammunition		25,000		
Trucks	29,405	29,405	18,991	18,991
Inflated cost estimates (civil engineer)		−1,000		−1,000
Inflated cost estimates (supply support)		−1,000		−1,000
Intelligence support equipment	58,375	34,979	58,375	53,629
Oceanographic support equipment	19,525	14,525	19,525	19,525
Inflated cost estimates (pers)		−4,700		−4,700
Spares and repair parts	227,196	227,196	200,000	200,000
Revised ship overhaul schedule (spares)		−6,800		
Inflated cost estimates (spares)		−2,200		−2,200
Outfitting equipment			360,000	249,300
Ship outfitting (PY transfer)				(110,700)
Ship overhaul reduction			−150,000	−200,000

PRACTICE BOMBS

In providing $45,124,000 for practice bombs, the conferees direct that none of the funds be used for procurement of laser guided training rounds or practice Rockeye.

MK 92 CORT

The conferees agree to provide the authorized level of $50,100,000 for the MK 92 CORT upgrade to the MK 92 fire control system for surface combatants. The conferees agree that procurement of the MK 92 CORT must be conducted through full and open competition. The conferees further agree that the Navy should evaluate requirements, fielding and procurement plans, and acquisition strategies, including the potential benefits from development of a second source, for the MK 92 CORT upgrade program, and report the results of this evaluation to the Committees on Appropriations prior to obligation of funds but not later than March 15, 1989.

AMPHIBIOUS EQUIPMENT

The conferees agree with language as proposed by the House, rather than language as proposed by the Senate, concerning the Offshore Petroleum Discharge System.

OUTFITTING EQUIPMENT

The conferees agree with the proposal of the Senate to move $360,000,000 from the Operation and Maintenance, Navy appropriation to the Other Procurement, Navy Appropriation for procurement of outfitting equipment related to ship modernization. The conferees further agree to offset partially the new budget authority required to maintain this program level, with a transfer of $110,700,000 in prior year appropriations to the Other Procurement, Navy appropriation.

REVISED SHIP OVERHAULS

The conferees agree on a reduction of $200,000,000 to reflect revised ship overhaul schedules, and agree that the report to the Committees on Appropriations on the impact of revised ship overhauls, as directed by both the House and the Senate, should be submitted by January 15, 1989.

SEALIFT SUPPORT EQUIPMENT

The conferees agree to $41,779,000 as proposed by the House and affirm the House language. The conferees received information from the Navy indicating that the $20,000,000 provided by the conferees above the budget request is necessary to buy out the remaining Sea Shed requirement to complete the inventory as proposed in the budget request. The conferees understand the amount provided for sea sheds supports continued economic order production from two producers, which is expected to achieve lower unit costs through improved efficiencies.

The conferees understand there is a major ongoing review of mobility and sealift requirements which may result in changes in previous inventory acquisition objectives for various types of sealift support equipment, and direct the Navy to report the status and findings of that review to the Committees on Appropriations by February 15, 1989. The conferees reiterate their support for increased efforts to improve mobility capabilities, particularly in light of testimony from field commanders expressing serious concerns about the continuing shortfalls in these areas. The conferees establish this program as an item of interest.

SMALL BOATS

The conferees agree not to earmark $500,000 as proposed by the Senate. The Navy has procured fifteen Septar Target Boats under an existing contract, and can acquire an additional seven Septar Target Boats and Interim Support Items under a remaining option on the existing contract. To take advantage of the prices available under the option on the existing contract, the conferees direct the Navy to reprogram $3,500,000 from funds available in the Other Procurement, Navy appropriation.

SPS-48E RADAR REPLACEMENT

The Navy has developed the SPS-48E as part of the New Threat Upgrade program. The Navy should consider providing this substantial increase in capability compared to the older, less advanced SPS-48C radar, to aircraft carriers as part of their overhaul cycle. This upgrade to the SPS-48E would enhance aircraft control, tactical battle management, and air defense for the carrier.

AN/SQQ-89 SURFACE ASW COMBAT SYSTEM

The conferees agree to provide $244,359,000 for the AN/SQQ-89 Surface ASW Combat System. The conferees understand that lower program risk and significant savings will result from immediate modification of the SQQ-89 system to accept the Acoustic Video Processor (AVP), and from procurement of the AVP in fiscal year 1990 according to the Navy's original schedule. The Navy has estimated the cost of this modification to be $15,000,000. To achieve these savings and lowered risk, and to maintain the integrity of the SQQ-89 schedule, the conferees have provided an additional $15,000,000 to permit the Navy to initiate immediately the required modification to the SQQ-89 system.

The conferees are concerned that a possible production break, or procurement at a very low rate for the Enhanced Modular Signal Processor (EMSP) could result in very significant unnecessary costs. A shut down and re-start of the line alone could cost up to $50,000,000. For fiscal year 1989 the conferees understand the Navy plans to deal with this situation by acquiring major system components, and the conferees concur with this approach for fiscal year 1990 the conferees urge the Navy to support, at least, a minimum economic order buy. For future years the conferees direct the Navy to report to the Committees on Appropriations by March 1, 1989 on unit costs that could be achieved through various procurement strategies, including, at least, a minimum and optimum economic rate on an annual basis, and a multiyear procurement approach.

SIDEKICK

The conferees strongly endorse the Navy's initiative to upgrade the missile defense systems for surface combatants through installation of the "SIDEKICK" upgrade to the AN/SLQ-32 system. Experience gained by the Navy in the Persian Gulf has demonstrated the value of this program, and the Navy has proceeded to initiate the production of these systems. The conferees encourage the Navy to reprogram up to $21,000,000 in fiscal year 1989 to sustain uninterrupted production and installation of the upgrade kits. The Navy should notify the Committee on Appropriations of this action 30 days prior to the transfer of funds. Accompanying this notification, the Navy should also provide a detailed acquisition plan for the program.

OVER THE HORIZON RADAR

The conferees agree to provide $163,564,000 for the Over the Horizon Radar program, and agree with House language requiring the Navy to report to the Committees on Appropriations the results of operational tests prior to obligation of fiscal year 1989 funds.

SONOBUOYS

The conference agreement provides an additional $30,000,000 above the budget for sonobuoy procurement, as provided in authorization and proposed in the Senate bill. The conference agreement has allocated this increase to two specific sonobuoy procurement lines as shown in the above table. This allocation is in accordance with Navy priorities.

ROCKEYE

The Senate recedes to the House funding level for the Rockeye Improvement program. The conferees are concerned over the total cost of this upgrade effort, and prior to the obligation of these funds, the Navy should report to the House and Senate Committees on Appropriations the acquisition strategy for this program and planned future procurements.

COASTAL DEFENSE AUGMENTATION

Amendment No. 56: Provides no funding for Coastal Defense Augmentation as proposed by the Senate instead of $350,000,000 as proposed by the House.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Coastal defense augmentation				
E-2C		120,000		
Patrol boats		70,000		
HH-60 helicopters		90,000		
Secure, command, control, and communications equipment		25,000		
Air surveillance equipment		45,000		

PROCUREMENT, MARINE CORPS

Amendment No. 57: Appropriates $1,297,265,000 for Procuement, Marine Corps instead of $1,311,322,000 as proposed by the House and $1,280,967,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement, Marine Corps				
120MM heat MP-T M830	5,373	10,373	5,373	10,373
120MM TP-T M831	1,400	3,400	1,400	3,400
Unallocated increase—ammunition		131,000		34,788
M-1 A1 main battle tank (MYP) (AP-CY)			15,900	15,900
MK-19 40MM machine gun			4,970	4,970
Hawk (MYP) (AP-CY)	34,205		34,205	34,205
Dragon				20,000
AN/PSG(#) digital comm terminal	23,001		23,001

Modification kits (non-TEL)	8,720		8,720	
Logistics vehicle system (MYP)	5,798	25,798		5,798
Modification kits	2,294		2,294	
Field bath shower unit	3,517		3,517	3,517
Garrison mobile engr equip	5,369		5,369	2,500
Training devices (simulators)	9,467	4,887	9,467	4,887
Shelter family	19,167		19,167	19,167

DRAGON

The conferees agree to provide $20,000,000 to acquire and refurbish Dragon missiles currently in storage and retrofit them to the Dragon II configuration as appropriate in order to help alleviate the training missile inventory shortfall. The Marine Corps should budget sufficient funds in fiscal year 1990 and subsequent budgets to complete the refurbishment of all available assets.

AIRCRAFT PROCUREMENT, AIR FORCE

Amendment No. 58: Appropriates $15,922,499,000 instead of $15,915,397,000 as proposed by the House and $16,093,500,000 as proposed by the Senate.

The conferees agree to the following amounts for Aircraft Procurement, Air Force.

[In thousands of dollars]

	Budget	House	Senate	Conference
Aircraft procurement, Air Force				
F-15 D/E	1,291,605	1,424,505	1,291,605	1,291,605
F-15 D/E (AP-CY)	100,709	123,909	100,709	100,709
F-16 C/D (MYP)	2,853,028	2,466,028	2,685,078	2,685,078

Other production charges	1,105,971	1,057,621	1,085,371	1,075,644
Classified programs	3,287,790	3,100,577	3,150,590	3,100,577

TANKER, TRANSPORT, TRAINER SYSTEM

The conferees have included the budget request of $9,563,000 for the new tanker, transport, trainer system with the understanding that the funds may not be obligated until the Committees on Appropriations of the House of Representatives and Senate have received and reviewed an independent assessment of the United States Air Force Trainer Master Plan to be conducted by the General Accounting Office. Accordingly, the conferees request the GAO to conduct such an assessment as expeditiously as possible and submit a report to the Committees no later than December 15, 1988. The assessment should address the options considered by the Air Force, the validity of the cost comparison data and the soundness of the recommendations.

MH-60G HELICOPTERS

The committee of conference has recommended $75,736,000 for the procurement of nine MH-60G helicopters. The conferees urge the Air Force to locate three of these helicopters with the 67th Aerospace Rescue and Recovery Squadron, to replace their existing aging HH-3 helicopters.

C-135 AIRCRAFT

Included in the total of $784,800,000 for C-135 modifications is $7,500,000 for the EC-135 PACCS and WWABNCP modification program.

The conferees concur in the Senate report language regarding multiyear procurement and the House report language requesting the Air Force to examine all C-135 type aircraft for potential reengining and submit a report by March 1, 1989. The report should include an assessment of whether or not RC-135 aircraft should be given as high or higher priority than KC-135 aircraft in the Department's reengining plans.

OTHER PRODUCTION CHANGES

The conferees have included $1,075,644,000 for other production charges, reflecting the following changes from the budget estimate:

Classified program	−$20,600,000
Classified program	+273,000
NAVSTAR GPS	−10,000,000

SPARES

The committee of conference recommends a total of $2,934,091,000 for aircraft procurement spares and repair parts, reflecting the following changes from the budget estimate:

Classified program	−$2,600,000
Classified program	−11,900,000
ASPJ	−30,100,000
Replenishment	−159,800,000

REVERSE ENGINEERING

The House report accompanying the fiscal year 1985 Appropriations Act directed the Department of Defense to develop a pilot program for reverse engineering replenishment spare parts on a contract basis and submit a report on the results of the program.

The report of the pilot program has been received, and the results are impressive. During the 36 months of the pilot effort, contracts for reverse engineering 494 replenishment spare parts were awarded at a cost of $26 million with projected five-year savings of $378 million, representing an average return on investment of 14 to 1.

Based on the results of the pilot program, the Department of Defense is recommending that reverse engineering replenishment spare parts become a permanent program. The conferees commend the Department for the manner in which the pilot program was conducted and applaud the results and recommendation to make reverse engineering a permanent effort. The Department is requested to maintain statistics on future activity in the reverse engineering program and submit annual status reports to the Committees on Appropriations of the Senate and House of Representatives.

Amendment No. 59: Restores provision maintaining the $20.5 billion cost cap on the B-1B bomber program as proposed by the House.

MISSILE PROCUREMENT, AIR FORCE

Amendment No. 60: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: **$7,219,683,000**

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to the following amounts for Missile Procurement, Air Force:

[In thousand of dollars]

	Budget	House	Senate	Conference
Missile Procurement, Air Force				
Peacekeeper	806,980	806,980	731,980	806,980

PEACEKEEPER MISSILE-MX

The conference agreement provides for $806,980,000 for the procurement of 12 Peacekeeper missiles (MX) in fiscal year 1989. The conferees further agree to the transfer of $75,000,000 in excess fiscal year 1987 funds.

The conferees concur with the Senate's observations of inadequate and late budget justification by the Air Force for the MX missile program. Budget justification backup material routinely submitted for procurement hardware programs provides the detailed information necessary for the Congress to evaluate the services' requests properly. The conferees note that the detail provided by the MX justification material is unusually late and wholly insufficient. In order to ensure Congress receives the data it needs to properly evaluate the Peacekeeper program, the conferees direct the Department of the Air Force to include the following information, starting in fiscal year 1990, within the Congressional backup document, P-12, (a) display of hardware flyaway costs at subcomponent levels, including at a minumum the stage I-IV propulsion, flight termination ordnance system and ordnance initiation sets, missile guidance and control sets, inertial measurement units, specific force integration receivers, third generation gyros, MK21 RV's nosetips, and fuzes, (b) display of command and launch equipment by subsections and quantities, and (c) addition of procurement support/recurring and nonrecurring sections and standard subsections as they appear in Air Force Regulation 172-1, volume V.

The conferees agree to provide $798,730,000 for the procurement of AMRAAM missiles. The conferees acknowledge reports from the Department of Defense of problems encountered by the AMRAAM missile in performance testing. The Director of Operational Test and Evaluation has refused permission for the Air Force to enter into full rate AMRAAM production in fiscal year 1989, which will necessitate a full review by the Air Force and DoD on the fiscal year 1989 funding requirements. Initial indications from the Department are that the production level for AMRAAM in fiscal year 1989 will be lowered from the original projections and, therefore, the funding requirements for fiscal year 1989 may have to be reduced.

The conferees considered further reducing the recommended levels from the amounts in conference, but felt that it would be premature to make an estimated funding decision prior to having the revised fiscal year 1989 funding plan from DoD. The conferees, however, are seriously concerned with the continued problems with this highly important missile program, and what impact these recent testing problems will have on the mandated program cost cap.

In light of the problems being encountered, the conferees direct that no production funds appropriated for fiscal year 1989 for the AMRAAM missile may be obligated until the Committees on Appropriations have received the revised fiscal year 1989 acquisition plan for AMRAAM, certification by the Under Secretary of Defense for Acquisition that the plan has been agreed to by the Director of Operational Test and Evaluation, and an analysis of the impact the revised plan will have on the total program cost.

The conferees are disturbed by a trend in the AMRAAM program toward increasing unit prices. The 1988/1989 biennial budget estimated $875 million for 1750 missiles, for a unit cost of $500,000. The amended 1989 budget contained $825.3 million for 1470 missiles, or $561,000 each. Subsequently, the Air Force advised the Committees on Appropriations that the revised budget request would only procure 1240 missiles at a unit cost of $665,500. It now appears that the budget estimates will not buy many more than 900 missiles in 1989. The unit cost of an AMRAAM missile in 1989 will be nearly $900,000. This trend is unsatisfactory and must be reversed in order to achieve the inventory objective without shattering the cost cap. The conferees therefore, direct the Air Force to take necessary steps to lower the unit cost of AMRAAM missiles in 1989, and the outyears

OTHER PROCUREMENT, AIR FORCE

Amendment No. 61: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: ***; $8,188,638,000***

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference

MOBILE ARMORED RECONNAISSANCE VEHICLE

The conferees deny without prejudice initial procurement funding for the Mobile Armored Reconnaissance Vehicle (MARV). The conferees have the following concerns about this program:

1. Affordability. Initial procurement unit costs for the MARV are close to $1 million. Even if unit costs decrease in future procurements, the total program cost for MARV will likely be in excess of $200 million to procure the stated Air Force requirement of 283 vehicles. The concern about affordability is evidenced by the current procurement profile which funds only a fraction of the requirement at very low annual procurement rates.

2. Explosive Ordnance Disposal Personnel Shortfalls. The Air Force has a significant shortfall of EOD technician and augmentee personnel. Unless this shortfall is corrected, it makes little sense to procure equipment which they are to use.

3. Concurrency. Testing of prototype vehicles is not scheduled to begin until the middle of next year and a production decision is not scheduled until fiscal year 1990.

4. Alternatives. The Air Force is looking at alternative guns to the .50 cal. machine guns included on the prototype vehicles.

The conferees note that the research and development requirements for this program are fully funded. If the concerns raised are satisfactorily addressed and resolved, the Committees will consider a reprogramming to initiate procurement funding.

COMBINED EFFECTS MUNITION (CEM)

The conferees note that dual-sourcing on the Combined Effects Munition (CEM) program has reduced its unit cost from roughly $120,000 in 1982 to about $15,000 today. The result has made the CEM one of the most cost-effective munitions programs within the DoD. The conferees are concerned that a revision in this competition policy for the fiscal year 1989 procurement, particularly in light of an incoming Administration and the need for a reevaluation of overall munitions and ammunition requirements, could harm the industrial mobilization base and increase costs based upon dated fiscal year 1990-94 procurement plans. Therefore, the conferees direct the Air Force to maintain the dual-source competitive procurement of CEM in 1989 and present and justify any future plan to competitively down-select to one manufacturer when presenting the fiscal year 1990 budget before the Congress.

TRAFFIC CONTROL/LANDING

The conferees agree to provide $20,740,000 for Traffic Control Landing, of which $20,000,000 is for initial Air Force procurement of the New Mobile Radar. This action provides the Air Force radar equipment common to the Marine Corps and permits acquisition under advantageous prices under an existing contract option.

MAC COMMAND AND CONTROL

The conferees agree to provide $20,408,000 for MAC Command and Control, as proposed by the House. This funding level supports a low rate of initial production for the Automatic Computer Processor (ACP), which is consistent with timely implementation of the new interoperability standards. The conferees direct the Department of Defense to report to the Committees on Appropriations by March 1, 1989 on the status of the interoperability standard implementation.

DISTANT EARLY WARNING/NORTH WARNING

The conferees agree to provide $203,173,000 for Distant Early Warning/North Warning. The conferees generally agree with the House requirement for the Air Force to report the results of operational tests prior to obligation of fiscal year 1989 appropriations. If, however, after completion of the DT&E phase of acquisition, the Air Force determines that procurement of long lead time items is necessary to achieve the two year completion date incorporated in the MOU and the existing contract, then the Air Force should submit such a request to the Committees on Appropriations.

RANGE IMPROVEMENTS

The conferees agree to provide $119,952,000 for Range Improvements. The conferees agree that the Air Force should proceed with the Crow Valley ACMI program up to a level of $13,500,000 for fiscal year 1989, in addition to available prior year appropriations, and establish this program as an item of interest. No funds shall be available for the NATO ACMI upgrade, and the Air Force should proceed to negotiate a cost sharing arrangement for this initiative with NATO allies that utilize this facility. The Conferees support this upgrade and will consider funding upon presentation of a cost-sharing agreement. Of the funds provided, $13,000,000 will be available only for the Air National Guard air-to-ground training range described in the Senate report. The conferees concur with House language directing the Air Force to report by December 1, 1988 on its acquisition plan for two Ground Jammer Units.

MILSTAR

The conferees agree to provide $73,394,000 for MILSTAR, and agree to House language requiring a report to the Appropriations Committees on the results of operational tests prior to obligation of fiscal year 1989 funds. The conferees recognize the importance of developing and deploying the Milstar Communications System, including Space and Mission Control Segments, and Joint Service terminal programs, and establish this Joint Program involving RDT&E and procurement as a congressional item of interest.

MEDICAL/DENTAL EQUIPMENT

The conferees agree to provide $110,000,000 for Medical/Dental Equipment. The conferees encourage the Air Force to maintain effective obligation rates for the Survivable Collective Protective Systems—Medical (SCPS-M) program, and direct the Air Force to submit to the Committee on Appropriations by February 15, 1989 a plan for fielding and procurement of the SCPS-M equipment.

Amendment No. 62: Deletes the House provision which would have provided that $32,623,000 could not be obligated until authorized by law.

NATIONAL GUARD AND RESERVE EQUIPMENT

Amendment No. 63: Appropriates $1,138,900,000 intead of $1,174,500,000 as proposed by the House and $843,500,000 as proposed by the Senate and deletes earmarking of appropriation by guard and reserve component as proposed by the House and stricken by the Senate.

The conferees agree to the following amounts for National Guard and Reserve Equipment:

[In thousands of dollars]

	Budget	House	Senate	Conference
National Guard and Reserve Equipment, Defense				
Army Reserve				
Miscellaneous equipment		40,000	30,000	30,000
Trucks, commo, and other support equipment		200,000		
Navy Reserve				
Missecllaneous equipment			10,000	20,000
SH-2 block upgrade		62,200		45,000
Seabee equipment			20,000	20,000
P-3 mods		55,000		55,000
SH-3H mods		4,600		4,600
Airborne mine countermeasures		8,000		
Marine Corps Reserve				
Miscellaneous equipment			10,000	10,000
KC-130T aircraft		40,000	45,000	45,000
Tactical air oper module (TAOM)		26,800		26,800
Air Force Reserve				
Miscellaneous equipment			10,000	10,000
C-130 aircraft		163,000		122,000
MH-60G helicopter		72,000	42,000	74,000
H-60 supply equip		6,900		
KC-135 modifications			21,000	21,000
Army National Guard				
Miscellaneous equipment		33,000	50,000	25,000
FIST-V				33,000
5-ton trucks		50,000		
Trucks, commo, and other support equipment		150,000		
M1A1 tank			130,000	115,000
Training devices		25,000		
Small unit support vehicles (SUSV)			8,000	8,000
Air National Guard				
Miscellaneous equipment			20,000	20,000
C-130 aircraft		163,000	326,000	285,000
KC-135				63,000
F-15 A/B MSIP			30,000	15,000
ACMI tier fighter training PH II			16,500	16,500

MISCELLANEOUS EQUIPMENT

The conferees agree to provide $20,000,000 for Naval Reserve Miscellaneous Equipment. Within this amount, the conferees agree to provide $10,000,000 for antisubmarine warfare equipment for the Mobile Inshore Undersea Warfare (MIUW) units of the naval reserve.

P-3 MODERNIZATION PROGRAM

The House provided $55,000,000 to the Navy Reserve to modify P-3A and P-3B aircraft with the Improved Processor and Display System (IPADS). The conferees agree to provide $55,000,000 to modify P-3A and P-3B aircraft to upgrade antisubmarine warfare capability. The conferees did not specify which system should be used to provide the enhanced capability. That decision is left to the discretion of the Navy Reserve.

C-130 TRAINING FACILITIES

The conferees understand that the Air National Guard and Air Force Reserve need to replace their outdated C-130 training simulators with modern facilities. The conferees agree with the need for these facilities on a priority basis. The Air National Guard intends to establish two regional training centers, one east and one west of the Mississippi River. The two site arrangement is designed to make training facilities more accessible, reduce operation and maintenance costs and minimize travel time and costs for Guard and Reserve personnel.

With these criteria in mind, the conferees believe the Department should consult with the Air Force Reserve and Adjutants General of States in which Guard or Reserve C-130's are deployed concerning the best locations for the training simulators. The conferees agree that one site shall be located east and one west of the Mississippi River.

MH-60G HELICOPTERS

The conferees have included $74,000,000 for nine MH-60G helicopters. It is the conferees understanding that six helicopters will be assigned to the 30th Aerospace Rescue and Recovery Squadron and three will be assigned to the 301st Aerospace Rescue and Recovery Squadron.

Amendment No. 64: Deletes provision making certain funds available only after enactment of authorizing legislation as proposed by the House and stricken by the Senate.

PROCUREMENT, DEFENSE AGENCIES

Amendment No. 65: Appropriates $1,186,100,000 instead of $1,207,550,000 as proposed by the House and $1,130,000,000 as proposed by the Senate.

The conferees agree to provide $549,689,000 for classified programs.

UNMANNED AERIAL VEHICLES (UAV)

The conferees also agree that $50,600,000 will be available for procurement of Joint Remotely Piloted Vehicles (Unmanned Aerial Vehicles). The conferees address UAV policy issues in the RDT&E, Defense Agencies section. $14,900,000 will be available only for support equipment for the PIONEER UAV funded in fiscal year 1988. The Joint UAV Program Office has submitted a revised request to initiate procurement of the objective joint service Short Range UAV in fiscal year 1989. The conferees support this objective, and the remaining $35,700,000 shall only be available for this effort.

INF TREATY VERIFICATION SUPPORT

The conferees understand that the Department of Defense faces an urgent requirement for vehicles to support the INF Treaty Verification team in the Soviet Union. The conferees strongly endorse this requirement, and expect the Department of Defense to provide sufficient vehicles to support this mission from within this appropriation.

Amendment No. 66: Deletes language as proposed by the House which prohibited the obligation of funds until authorized by law.

DEFENSE PRODUCTION ACT PURCHASES

Amendment No. 67: Appropriates $33,500,000 for the Defense Production Act, instead of $39,500,000 as proposed by the House and $13,000,000 as proposed by the Senate.

Amendment No. 68: Provides that $27,500,000 shall remain available for obligation until September 30, 1991, as proposed by the House.

Amendment No. 69: Provides $6,000,000 for a project to develop titanium ore from ilemenite to remain available until September 30, 1993, instead of $12,000,000 as proposed by the House and zero as proposed by the Senate.

SPACE AND RELATED ACTIVITIES AUGMENTATION, DEFENSE

Amendment No. 70: Deletes House language proposing the appropriation of $637,000,000 for construction, procurement, and modification of missiles, spacecraft, specialized ground facilities, and associated equipment and services.

TITLE IV—RESEARCH, DEVELOPMENT, TEST AND EVALUATION

JOINT AVIONICS

The conferees do not agree do the bill language proposed in two general provisions (House section 8103 and 8105) concerning joint avionics. The conferees do agree that the Army LHX helicopter, the Navy Advanced Tactical Aircraft, the Air Force Advanced Tractical Fighter, and any variants of these aircraft must incorporate Joint Integrated Avionics Working Group (JIAWG) standard avionics specifications no later than 1998. This has been included in a general provision. The conferees agree with the House report language that these aircraft and their variants must all eventually share a single, highly common avionics architecture as jointly determined by the JIAWG.

While deciding not to earmark funds specifically in bill language, the conferees agree to provide the authorized funding level for the Services' joint avionics projects. Concerning the $34,700,000 provided to the Air Force, the conferees agree to the allocation contained in the authorization conferees report; $5,700,000 for JIAWG avionics; $26,000,000 for integrated communications, navigation, and identification avionics; and $3,000,000 for Army aircraft. Funds provided for integrated communications, navigation, and identification avionics may only be used to develop avionics which conform to JIAWG specifications.

Finally, the conferees agree with the House report language requiring that an individual be appointed in the Office of the Secretary of Defense, who can be held accountable to the Department and to the Congress, to ensure that the joint avionics objectives discussed above are achieved. A revised joint avionics master plan should be submitted to the Congress by March 1, 1989. Additional details are discussed in a classified letter accompanying this report.

AIR-TO-AIR MISSILE TECHNOLOGY

The conferees agree to provide funds for air-to-air missile (AAM) technology programs in Navy and Air Force accounts at the budget request level as proposed by the Senate instead of in a consolidated program at an increased funding level as proposed by the House.

The conferees are concerned about the lack of true progress in coordinating AAM development to minimize duplication. Although some progress has been made, much more remains to be done, and the conferees are not willing to wait another full year to witness adequate coordination. Therefore, the conferees direct that no more than fifty percent of the funds provided for the Navy's Advanced Air-to-Air Missile and for the five Air Force Advanced AAM projects reduced by the House and described on page 174 of House Report 100-681 may be obligated until thirty days after receipt by the Congress of an Air-to-Air Missile Technology Master Plan, which is to be submitted by March 1, 1989. This plan must include a full description of all AAM RDT&E activities funded by each service in budget categories 6.2, 6.3, and 6.4, and must address the issue of compatibility with the Advanced Tactical Fighter. The conferees direct the Air Force and Navy to establish a joint program office for co-development of the AAAM and P^{3}I AMRAAM programs, as required in the Fiscal Year 1989 Defense Authorization Act. Funds for the Air Force Advanced Missile Technology Integration (AMTI) project are specifically denied.

FIBER OPTIC TECHNOLOGY

The conferees are concerned that the "one-of-a-kind" high technology small businesses with proven research and development, engineering and manufacturing expertise are not able to compete with the larger firms for Defense fiber optic production contracts. The domestic fiber optics industry is a critical component of the U.S. defense industrial base. In order to protect the small business segment of the industry and to preserve competition and innovative R&D at the small business level, the Department of Defense is urged to ensure equitable participation by qualified one-of-a-kind fiber optic small business bidders in DoD procurements involving procurement of fiber optic products, devices and technology—i.e., in situations where there is only one fiber optic small business bidder. In addition, the conferees direct the Department of Defense to review this issue and report back to the Committees on Appropriations by 1 March 1989 on what can be done to preserve competition and innovative R&D at the small business level. This report should address, but not be limited to, possible business set-asides for the one-of-a-kind fiber optic small business bidder, a 10 percent preference for a one-of-a-kind fiber optic small business bidder and special consideration in the evaluation of bids by prime contract bidders who include in their proposals plans to subcontract to a fiber optic small business.

ELECTRONIC SURVEILLANCE SYSTEM

Congress has previously provided funds for the Electronic Surveillance System program. The conferees direct that this program proceed in accordance with Congressional direction and funding provided in previous years.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

Amendment No. 71: Reported in technical disagreement. The managers of the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert; *$5,130,166,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Research Development Test and Eval Army				
Materials technology	12,963	12,963	11,038	11,038

Maxi cube cargo handling system				10,000

MILITARY ENGINEERING AND LOGISTICS TECHNOLOGY PROGRAMS

The conferees agree to reductions due to fiscal constraints from the amounts requested in the budget, while allowing moderate growth over fiscal year 1988 funding levels. The conferees expect that no reductions in force be undertaken to achieve the necessary savings. Adverse effects on small and disadvantaged businesses should be minimized. The conferees invite the Army to submit a reprogramming request, if necessary, if it can better justify the need for higher funding levels in fiscal year 1989.

ARMY DEVELOPMENT AND EMPLOYMENT AGENCY (ADEA)

The conferees agree to the House funding and report language on ADEA. The report to be submitted by April 1, 1989 should specifically address the roles, missions, clients, and funding for ADEA in order to assist the Appropriations Committees next year in evaluating its effectiveness and utility to the CINCs. The report should demonstrate that there is no duplication of activities between ADEA and other Army organizations.

MEDICAL IMMUNOLOGICAL RESEARCH

The conferees recommend $2,000,000 for the purpose of expanding the capabilities of medical research in both basic and clinical immunology, in order to improve diagnosis and treatment of a variety of disease states. These funds are to be used to continue the development (including the development of a clinical research immunodiagnostic laboratory and reserch unit) of a medical research institute dedicated to both basic and clinical research in immunology as part of a public 501-3C medical research organization.

ARMY CONCEPTS ANALYSIS AGENCY

The conferees are advised that the Army intends to move the Concepts Analysis Agency from its present site. Relocation of this critical operation should maximize the value of existing Department of Defense and academic computer and training resources. Recognizing the Department of Defense Ada computer language education capabilities and the artificial intelligence laboratory at West Virginia University, the proximity of the Defense Software Engineering Institute, along with the relocation of the U.S. Coast Guard computer operations center, the conferees direct the Army to consider and evaluate potential sites for this evaluation to the Committees on Appropriations prior to any determination of relocation and not later than January 31, 1989.

ROBOTICS

The conferees agree that the Services' robotics programs appear to be fragmented, uncoordinated, and possible too sophisticated in view of the lack of definitive requirements from those organizations which would employ such capabilities in the future in combat. The Deputy Secretary of Defense for Tactical Warfare Programs shoud assume the role of focusing these technology efforts. A master plan should be submitted to the Appropriations Committees by May 1, 1989 which addresses the management structure for robotics technology, a description of each technology base or advanced development robotics project which is funded in the budget along with its five year funding profile, the mission requirements that each project is expected to meet, and the Department's initiatives to advance joint robotics programs or joint developmental efforts. The Committees are most interested in the utility of such projects to the ultimate using commands, the integration of such technology with combat tactics, the coordination and sharing of robotics research between the Services, and the elimination of unnecessary duplication among projects. Due to this enhanced management attention, the conferees expect that at least one current advanced development robotics project will be terminated. The conferees further agree to a general reduction of $1,000,000 in the Army Battlefield Technology Integration program.

EVOLUTIONARY SURFACE-TO-AIR MISSILE

The conferees agree to the Senate language on the Army's Evolutionary Surface-to-Air Missile (ESAM) about pursuing a joint program with NATO allies under an equitable cost sharing arrangement. While providing no new funds, the conferees agree that the program may be financed from within available funds in fiscal year 1989 only for the purpose of advanced planning and not as part of a separate program.

ANTITACTICAL MISSILE

The conferees agree to provide the full budget request of $31,514,000 and expect that a master plan will be submitted as required by the House. The conferees further agree that the coordination and duplication issues between the Army and SDI as discussed in the Senate report. However, the conferees do not agree to obligation restrictions on these programs.

ADVANCED ANTITANK WEAPON SYSTEM—MEDIUM INTERLOCK DEVICE

The conferees are concerned that AAWS-M missiles could at some point be obtained and used by terrorists for purposes counter to the security interests of the United States. Evidence suggests that it may be possible to incorporate an electronic enabling capability, which would prevent unauthorized use of the missile, into AAWS-M at little or no increase in unit flyaway cost if it is included in the original design. The conferees therefore urge the Army, after downselection has occurred, to require AAWS-M to include such a capability unless it would result in substantial program cost increase or delay.

ANTI-ARMOR INITIATIVES

The conferees do not agree to the Senate language which restricts obligation of certain anti-armor funds until submission of information required by the fiscal year 1988 appropriations conference report. However, the conferees are dissatisfied with the justification for the Advanced Anti-Tank Weapon System—Heavy (AAWS-H), the lack of a coherent acquisition strategy for the program, and the tardiness of submission of the required information to the Congress. Therefore, none of the funds appropriated for AAWS-H beyond administrative program management costs may be obligated until the Army has submitted the AAWS-H Operational and Organizational plan described in the Senate's report as well as a business plan describing the Army's proposed acquisition strategy.

M1A1 DEVELOPMENT PROGRAM

The conferees have provided $30,000,000 for design of the block III upgrade to the M1A1 tank. While noting the intentions by the Senate Armed Services and Appropriations Committees in their fiscal year 1989 reports for providing these funds, the conferees agree that the Army should be responsible for defining the exact requirements of the block III design. A report should be submitted to the Armed Services and Appropriations Committees of Congress by March 31, 1989 which describes how these funds will be used, the requirements for block III, a program plan, and an acquisition strategy.

WEAPONS AND MUNITIONS ENGINEERING DEVELOPMENT

The conferees agree to the House language and funding for SADARM and the 120mm mortar. Further, in its action on fiscal year 1986 appropriations, the Committee of Conference imposed certain conditions on SADARM development. These included a demonstration program of well instrumented gun firings of modified advanced development hardware to be conducted simultaneously with engineering development, but to be completed before the final phase of engineering development which is system qualification in development test/operational test II. The intended purpose of this demonstration was, and remains, the gathering of information which will reduce technical risks associated with the remainder of development, and which will help to demonstrate the proof of principle. Such a demonstration need not be tied to a specific number of firings or to a specific hit/miss criterion; such specifics are the subject of system qualification. Consequently, the specific content and conduct of the demonstration firing program are left to the discretion of the Army's program manager for SADARM, who is in the best position to judge the amount and type of data required to accomplish the original intended purpose, with review and approval by his cognizant Program Executive Officer.

AIRCRAFT MODIFICATIONS

The conferees agree to provide $90,697,000 which consists of $45,000,000 for the AH-64, $40,897,000 for the UH-60, and $4,800,000 for a classified program. The conferees share the concerns of the Senate that better justification is necessary for the UH-60 upgrade which more fully examines all available alternatives. Of particular concern is the cost effectiveness of the composite rotor component of the multi-staged improvement program and the methods of lowering overall total program cost. These issues will be scrutinized during Appropriations Committee hearings next year.

IMPROVED TOW VEHICLE—HELLFIRE

The conferees agree to provide $3,000,000 for studies, advanced planning, and proof of principle work on integrating the Hellfire missile into the Improved Tow Vehicle.

DRAGON III

The conferees agree to provide $5,480,000 for Army participation in the Dragon III development program, as explained in the RDT&E, Navy section of this report.

MILAN II/BOFORS BILL

The conferees do not agree to the House report language since this issue will be resolved in the authorization conference.

Amendment No. 72: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *: Provided, That $7,300,000 shall be available only for type classification and operational testing of the 120 millimeter mortar system and development of a family of enhanced 120 millimeter ammunition: Provided further, That $2,500,000 shall be available only for the vehicular intercommunications system: Provided further, That $5,000,000 shall be available only for development of fluidtronics technology for use in ground combat or support vehicles: Provided further, That $2,000,000 shall be made available until ex-*

pended, as a grant, only for continued development of a medical research institute directed at basic and clinical research in immunology, for associated facilities, and for related purposes

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

Amendment No. 73: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$9,382,312,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 74: Restores language proposed by the House and stricken by the Senate which provides $1,000,000 as a grant for the National Center for Physical Acoustics.

Amendment No. 75: Deletes House language which provided a limitation on funds for the SSN-688 Class Vertical Launch System and the AN/BSY-1 Submarine Combat System.

The conferees note that, after a significant delay, the studies required by the House limitation have been submitted to the Congress. The shipbuilders involved are to be commended for producing candid and useful appraisals of possible improvements to SSN-688 class submarines. The Navy is encouraged to consider these improvements on a case-by-case basis as the threat evolves and as future shipbuilding plans change. The Navy is also reminded to advise the Congress prior to the issuance of amplifying instructions which go beyond the scope of Congressional bill or report language directions.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference

MK-48 ADCAP (ENGINEERING)

The conferees agree to provide $27,682,000 for MK-48 ADCAP. Since the work to be conducted is more appropriately budgeted under advanced development, the conferees direct the Navy to re-designate this program element as "MK-48 ADCAP (Advanced)".

ADVANCED TECHNOLOGY TRANSITION

The conferees agree to provide $57,170,000 for Advanced Technology Transition. Within the amount appropriated, $3,000,000 is provided only for the MK-50 Follow-Through Warhead project.

STANDARD AVIONICS DEVELOPMENT

The conferees agree to provide $13,822,000 for Standard Avionics Development. Of the amount appropriated, $4,000,000 is provided only for the AYK-14 project.

IFF SYSTEM DEVELOPMENT

The conferees agree to provide $21,026,000 for IFF System Development. The amount provided above the House recommendation is only for the OSD-sponsored program to develop a noncooperative identification technique with the potential to positively identify hostile and civil aircraft. Further discussion is included in the classified annex to this statement. No funds may be obligated for this project until a report is submitted to the Congress which describes the project's objectives, schedules, and costs. In addition, no funds are provided for the ARTIS project.

WARFARE SUPPORT SYSTEM

The conferees agree to provide $28,285,000 for Warfare Support System. The reduction is based upon significant delays in the Relocatable Over-the-Horizon Radar (ROTHR) project. The conferees do not believe, and do not intend, that this reduction would delay deployment of the initial ROTHR system to Amchitka, Alaska.

CATAPULTS

The conferees agree with language of the Senate that within the amount appropriated for Catapults, $3,500,000 is provided only for development of the Electromagnetic (EM) Catapult. Furthermore, the conferees oppose the reprogramming or reallocation of any of the fiscal year 1988 funds provided for the EM Catapult, and find unacceptable the current Plan of Action and Milestones for this effort. The conferees agree not to restrict obligations for this program as proposed by the Senate, since the required report has been submitted. However, the Navy is strongly encouraged to move out more aggressively on this program and to revise the Plan of Action and Milestones in accord with Congressional intent and directions.

INTERNATIONAL RDT&E

The conferees agree to provide $3,248,000 for International RDT&E. Within the amount appropriated, the budget request level of $1,248,000 is provided only for the SACLANT ASW Research Center.

NAVY INDUSTRIALLY FUNDED ACTIVITY ADJUSTMENTS

The conferees agree to the Navy Industrially Funded Activity Adjustments as proposed by the Senate. These minor adjustments are reflected in the conference agreement for each of the fifteen program elements described on pages 246-247 of Senate Report 100-402.

MARINE CORPS GROUND COMBAT/SUPPORTING ARMS SYSTEMS

The conferees agree to provide $38,371,000 of which $5,481,000 is for development of the Dragon III anti-tank system. The conferees also agree to provide $5,480,000 in RDT&E Army for the same purpose. The sum of these amounts, $10,961,000, is the amount originally requested and authorized for Dragon III. The conferees agree that Dragon III is to be managed jointly by the Marine Corps and the Army, with the Marine Corps as executive agent. Dragon III development funds are not to be used for facilitization, long lead, low rate production, or to otherwise begin production activities. A possible decision in the future to enter into production for Dragon III could only be made with the prior approval of the Congress, and only if the Army's Advanced Antitank Weapon System-Medium (AAWS-M) system encounters excessive cost growth or severe technical difficulties. In allowing Dragon III development to proceed, the conferees note that Congressional support for the Army's AAWS-M program is in no way diminished by this action.

DEFENSE RESEARCH SCIENCE—NAVY

The conferees agree to provide $332,989,000 for Defense Research Sciences-Navy. The conferees direct that, within the amount appropriated, oceanographic research projects are to be allocated funding at the budget request level.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Amendment No. 76: Deletes Senate heading entitled "(Including Transfer of Funds)".

Amendment No. 77: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: ***$14,502,347,000***

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

ADVANCED AVIONICS INTEGRATION

The conferees agree to provide $11,000,000. No reduction was made in the Ultra-Reliable Radar and Concealed Relocatable Target Detection Radar System projects.

B-1B INTEGRATION ACTIVITIES

The conferees agree to provide no funds in fiscal year 1989 to begin an upgrade to the B-1B bomber electronic warfare system. This action is taken because no funds were requested by the Air Force, there are significant unobligated balances remaining in the B-1 development program, and justification to the Congress for a proposed solution and its ultimate cost would first be required. The conferees understand that the Defense Department is currently conducting an evaluation of possible alternatives and should be able to provide recommendations to the Congress as part of the fiscal year 1990 budget. A plan should be submitted to the Armed Services and Appropriations Committees of Congress to accompany the budget submission which provides a detailed analysis of each existing system (e.g. ALQ-135, ALQ-161, ALQ-165, ALQ-172) considered, to include capabilities and costs, and to support any proposed recommendations. The plan should also address how unobligated funds from the ALQ-161 development and testing program, which are now excess due to recent decisions to forgo continued block development upgrades, would be utilized under the Department's proposal.

EC-135 MODIFICATIONS

The conferees agree to provide an additional $7,500,000 as proposed by the Senate as discussed in the Aircraft Procurement, Air Force section of this report.

CHEYENNE MOUNTAIN UPGRADES

The conferees are concerned with the Department of Defense's lack of management attention to computer upgrades at Cheyenne Mountain, which is the nation's primary facility for assessment of a nuclear attack on the United States. The General Accounting Office has recently indicated that the five concurrent computer upgrades, some of which individually will cost in the hundreds of millions of dollars, are not well coordinated. For example, different workload assumptions for determining the speed and size of computers were used in contracts even though the systems are interrelated; standards and protocols between the systems are not common although they must be in order to share information; and wiring standards within the complex are not in place. In addition, the Air Force continues to award new work to contractors on a fixed cost incentive basis even though those contractors have not met contract specifications for existing work. The conferees note that by fragmenting the computer upgrades into separate projects funded in separate line items, the Defense Department has avoided subjecting these important systems to the cost and management discipline inherent in a review from the Defense Acquisition Board. In spite of the very serious problems raised by the GAO, the conferees have decided to make no funding reductions as the House had proposed in the NCMC-TW/AA or CCPDS programs. Instead, the programs may proceed only with the understanding that the Defense Acquisition Board will consolidate the individual upgrades into a single integrated program, consolidate all funding into a single line item for each affected appropriation, conduct a management review of the integrated program in fiscal year 1989, and report the results to the Congress.

A-7 STRIKEFIGHTER

Upon submission of the fiscal year 1990 budget, the Secretary of Defense must certify to the Armed Services and Appropriations Committees of Congress that sufficient production funds are contained in the five year defense plan in a separate funding line to support a production decision. The conferees understand that a production decision would only be made if the development program proves to be successful. The certification should also explain the Air Force's competition and funding strategies that will be used to execute the program.

ELECTRONIC WARFARE DEVELOPMENT

The conferees agree to provide $98,000,000 for electronic warfare development. No reduction was made to the Area Reprogramming Capability (ARC) project. The conferees agree with the other Senate reductions.

TRAFFIC CONTROL AND LANDING SYSTEM (TRACALS)

The conferees agree with House language directing the Air Force to select not more than two of the four competitive prototype development contractors for a competitive procurement of the Tower Restoral Vehicle/Surveillance Restoral Vehicle (SRV/TRV) and establishing this program as an item of special interest.

LIFE SUPPORT SYSTEMS

The House report addressed the Tactical Life Support System (TLSS), which has concentrated on developing new protection equipment for tactical fighter aircrews, especially from the risk posed by "g-induced" unconsciousness or greyout resulting from air combat maneuvers. The conferees are advised that the Air Force has recently approved an expedited program to field enhanced anti-g protection for F-15 and F-16 aircrews, using technologies derived from the TLSS program. This effort, called Combat Edge, is geared towards initial fielding of improved capability by fiscal year 1990. The conferees endorse the Air Force's effort to deal rapidly with this problem.

The $3,700,000 cited in the House report for TLSS should be applied instead to Combat Edge. The conferees are aware these funds will not fully fund fiscal year 1989 requirements, and have been advised that the Air Force is currently examining alternative funding sources in order to execute the planned development, procurement of equipment, and aircraft modifications associated with fielding of Combat Edge technology. The conferees expect that the Air Force will realign resources as necessary to implement the current Combat Edge acquisition strategy on schedule. The conferees further expect the fiscal year 1990 budget will adequately fund Combat Edge. A report should be provided to the Committees on Appropriations to accompany the fiscal years 1990 budget request which describes the fiscal years 1989 to 1991 funding plan.

AEROSPACE CORPORATION

The House recedes from its proposal to require a work plan and financial breakdown for the Aerospace Corporation in fiscal year 1989, since adequate information has recently been provided by the Air Force.

ADVANCED WEAPONS TECHNOLOGY

The conferees agree to provide $89,494,000 for Advanced Weapons Technology instead of $74,494,000 as proposed by both the House and the Senate. The increase involves the transfer of $15,000,000 for the Single-Pulse Excimer Laser, which had been recommended at that funding level by the Senate, but in the Strategic Technology program element of the Defense Advanced Research Projects Agency. The conferees agree that this effort would be more appropriately carried out by the Air Force in conjunction with other related laser programs. Within the amount appropriated, $15,000,000 is provided only for the Single-Pulse Excimer Laser project.

DEFENSE SUPPORT PROGRAM

The conferees agree to provide $101,632,000 for the Defense Support Program instead of $119,132,000 as proposed by the House and $84,132,000 as proposed by the Senate. Within the amount appropriated, $20,000,000 is provided only for DSP Upgrades, as described in the classified annex to this report.

In approving funds for DSP upgrades, the conferees emphasize they are making no commitment to pursue the proposed DSP-Evolved Program and direct the Air Force to take no action which would contractually obligate the department for work beyond the specific activities for which the additional fiscal year 1989 funds are provided.

SATELLITE CONTROL FACILITY

The conferees agree to provide $89,303,000 for Satellite Control Facility instead of $91,903,000 as proposed by the House and $100,803,000 as proposed by the Senate. The appropriation provides a reduction of $7,500,000 for Command and Control Sustaining Engineering (CCSE), which allows funding at the fiscal year 1988 level, and a reduction of $4,000,000 in engineering services and other support. The conferees agree that the CCSE project is more appropriately an Operation and Maintenance activity, and direct that future funding for this effort be budgeted in the O&M, Air Force account.

SPACE BOOSTERS

The conferees agree to provide $483,485,000 for Space Boosters instead of $473,185,000 as proposed by the House and $503,085,000 as proposed by the Senate. The amount provided includes authorized funding of $472,785,000 plus a transfer of $10,700,000 from the Missile Procurement, Air Force account to more properly align costs for the Titan IV Solid Rocket Upgrade (SMRU). The conferees understand and agree that future budget requests for SRMU development will be included in RDT&E appropriations accounts and not missile procurement. With this understanding, the House recedes from its certification requirement regarding the SRMU project.

The conferees also agreed to modify the Senate's restriction on the use of funds in this program until the program until the President submits the National Space Plan requested in the Joint Explanatory Statement of the Conference on the Department of Defense Appropriations Act, 1988. The conferees agree that the obligation and expenditure of more than fifity percent of the fiscal year 1989 funds for the Space Boosters program shall be prohibited until the President submits the previously-requested plan or until the Secretary of Defense submits a Department of Defense plan addressing the same subjects, along with an explanation as to why issues could not be resolved satisfactorily within the Executive Branch to permit submission of the originally-requested document.

Amendment No. 78: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment to read as follows: *: Provided, That $2,000,000 shall be available only for development of high thermal stability and/or endothermic jet fuels, including studies on coal based fuels: provided further, That of the funds appropriated in this paragraph, $890,000,000 shall be available for ICBM modernization programs as follows:*

(1) $40,000,000 shall be available for continued development and flight testing of the MX missile;

(2) $250,000,000 shall be available for the Small ICBM program; and

(3) $600,000,000 shall be available for the MX Rail Garrison program and of the $600,000,000 available for the MX Rail Garrison program, the amoung obligated before February 15, 1989, may not exceed $250,000,000: Provided further, That during the period beginning on January 21, 1989, and ending on Febrauary 15, 1989, the President shall submit to the Committees on Armed Services and the Committees on Appropriations of the Senate and House of Representatives a report on—

(1) anticipated obligations for the remainder of fiscal year 1989 for the small ICBM program, the MX Rail-Garrison program, and other ICBM modernization programs; and

(2) the purposes those obligations are intended to accomplish

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to fund continued development and flight testing of the MX missile at the requested amount, to appropriate $250 million for the small ICBM program, and to appropriate $600 million for the Rail-Garrison MX program. The conferees also agree to restrict the amount that could be obligated before February 15, 1989 for the Rail-Garrison MX program to no more than $250 million. Finally, the conferees ask the President to submit a report to the Committees on Armed Services and Appropriations between January 21, 1989 and February 15, 1989 on how funds for ICBM modernization will be obligated for the remainder of fiscal year 1989.

In the event the President does not choose to spend the balance of unobligated funds for the Rail-Garrison MX program, the conferees will consider a request for reprogramming.

The conferees direct the Secretary of Defense not to terminate either program prior to January 21, 1989. Within these funding limitations, the conferees direct the Secretary to exercise his best management efforts to keep the contractor base for each program as intact as possible, and to continue studies and analyses of other ICBM basing and operational modes. Within the funding limits for the small ICBM program, the conferees also direct the Air Force to carry out the schedule of activities it has planned under the amended budget request, plus any additional activities to facilitate transition to a more rapidly paced program, should the President choose that course.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

Amendment No. 79: Includes a hearing for the transfer of funds as proposed by the Senate.

Amendment No. 80: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$8,427,908,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

Research Development Test & Eval Def AG

Amendment No. 81: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment amended to read as follows: *: Provided, That $95,000,000 shall be made available only for the Advanced Submarine Technology Program as described in section 241 of the National Defense Authorization Act for Fiscal Year 1989 (H.R. 4264), as provided in the conference agreement included in House Report 100-753: Provided further, That the Secretary of Defense shall award the funds made available in this Act for the University Research Initiative Program on the basis of competition; and, that none of the funds may be obligated or expended until the Appropriations and Armed Services Committees of the House and Senate approve a plan submitted by the Secretary of Defense to provide for broader geographic distribution of funds under such program in comparison to the distribution of such funds during fiscal year 1986 and 1987; and sets aside a portion of the funds available for such program for fiscal year 1989 to implement such a plan: Provided further, That section 215(c) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180) is repealed*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 82: Deletes language proposed by the Senate which provides for the transfer and merger of funds for advanced research.

Amendment No. 83: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further, That of funds made available for the Experimental Evaluation of Major Innovative Technologies Program, $34,000,000 is available only for the purposes of research, development, launch, and on-orbit functional demonstrations with military forces of LIGHTSAT systems and their required low-cost transportable space launch vehicles*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 84: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides for a transfer of $96,500,000 to the National Aeronautics and Space Administration for the Advanced Launch System program, provides obligational restrictions on that program, and provides $16,500,000 for bioenvironmental hazards research.

Amendment No. 85: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides for transfer of an additional $100,000,000 to the National Aeronautics and Space Administration.

Amendment No. 86: Deletes language proposed by the Senate which provided for the transfer of funds for Strategic Defense Initiative Antitactical Ballistic Missile programs to the Army.

Amendment No. 87: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further, That of the total amount available for obligation for the Strategic Technology Program, $20,000,000 shall be made available only for the Defense Advanced Research Projects Agency Initiative in Concurrent Engineering*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 88: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and

concur in the amendment of the Senate which provides $3,500,000 for the National Defense Stockpile Transaction Fund for a grant to the South Carolina Research Authority to construct and equip a strategic materials research facility.

Amendment No. 89: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert: *Provided further, That of the amount available for obligation, $20,000,000 is available only for the X-Ray Lithography Program: Provided further, That of the amount available for obligation, $3,000,000 is available only for the Center for the Advancement of Scientists, Engineers, and Technologists to complete the study that was initiated by the Department of Defense in 1985 for the purpose of determining and testing the factors that increase the supply of minority and women scientists, engineers, and technologists needed by defense industries and the Department of Defense to fulfull the national defense mission: Provided further, That of the amount available for obligation, $12,500,000 is available only for the Optoelectronics materials research and development program: Provided further, That of the amount available for obligation, $7,500,000 is available only for the Lehigh University National Center for Industrial Innovation: Provided further, That of the amount available for obligation, $10,000,000 is available only for establishment of the Auburn University Center for the Management of Technology: Provided further, That of the amount available for obligation, $10,000,000 is available only for construction costs of a new academic facility on a university campus in the District of Columbia, where there will be established an Institute for Intercultural Security Studies: Provided further, That of the amount available for obligation, $7,000,000 is available only for the Minnesota Supercomputer Center, Incorporated, which is affiliated with the University of Minnesota, to be matched by local funds for the acquisition, design, testing, integration and advancement of a new supercomputer: Provided further, That of the amount available for obligation, $10,000,000 shall be made available until expended, as a grant, only for a program begun in fiscal year 1988 to develop an engineering sciences and technology complex to promote defense industry involvement in manpower training and education, for associated facilities, and for related purposes: Provided further, That of the amount available for obligation, $1,500,000 is available only for advanced ceramic material fabrication, development, testing and related research at the U.S. Department of Energy's Component Development and Integration Facility.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

STRATEGIC DEFENSE INITIATIVE

The conferees do not agree to bill and report language direction proposed by the Senate which would allocate and govern the use of funds for specific SDI technologies, with the exception of two provisions regarding the Advanced Launch System.

PHYSICAL SECURITY

The conferees agree to provide $35,000,000 in a single program element for development of improved physical security systems, instead of $40,000,000 in three programs as proposed by the House and $36,060,000 in seven programs as proposed by the Senate. The conferees agree to require the Physical Security RDT&E Master Plan as proposed by the House and allow the flexibility to allocate the appropriated amount into separate, OSO-managed program elements for exploratory, advanced, and full-scale development consistent with this plan. All of the appropriated amount is to be under the control of the Assistant Deputy Undersecretary of Defense for Tactical Warfare Programs, in his capacity as Chairman, Physical Security Equipment Action Group. The consolidation is not intended as a prejudicial comment on existing work of the services or the Defense Nuclear Agency; on the contrary, after coordination, prioritization, and review, much of this work may be selected for continuation by OSD. However, the conferees do intend that the consolidated program prioritize and more aggressively pursue both off-the-shelf and advanced development to address validated security requirements.

ADVANCED SUBMARINE TECHNOLOGY PROGRAM

The conferees do not agree to restrictions on the Advanced Submarine Technology Program as proposed by the House in report language.

LIGHTER THAN AIR TECHNOLOGY

The conferees agree to provide $30,000,000 for Lighter Than Air Technology. Of the amount provided, $4,000,000 may be utilized by DARPA for assessment of Lighter Than Air/hybrid technologies.

ADVANCED SATELLITE TECHNOLOGY PROGRAM

The conferees continue to be favorably impressed with the potential of DARPA's Advanced Satellite Technology Program (ASTP) initiative to provide our armed services with new capabilities for research and operational space systems.

The conferees are also impressed with the opportunities afforded by the ASTP initiative to simultaneously offer encouragement to the private sector space commercialization industry. It is therefore recommended that DARPA continue with this program as previously briefed to the Congress and to accentuate involvement of the emerging commercial space industry, in particular private sector launch firms. In that regard, the conferees direct that not less than $13,000,000 be allocated for SSLV.

EXPERIMENTAL EVALUATION OF MAJOR INNOVATIVE TECHNOLOGIES (EEMIT)

The conferees agree to provide $238,896,000 for Experimental Evaluation of Major Innovative Technologies (EEMIT) instead of $234,800,000 as proposed by the House and $162,046,000 as proposed by the Senate. The following Senate changes to the budget request are agreed to: (A) X-29, −$2,000,000; (B) Tactical Airborne Laser Communications, +$25,000,000; (C) Project EE-29, −$2,550,000; (D) unallocated, −$6,600,000. The conferees agree that the services may internally reprogram funds for X-29 testing, but not DARPA, since DARPA's objectives in this effort have been accomplished. Concerning Teal Ruby, the conferees do not agree to language of the House which forbids any reprogramming into the project. Instead, it is agreed that no funds may be obligated for Teal Ruby except through prior approval reprogramming. If such reprogramming request is submitted, it must be accompanied by a certification from the Secretary of Defense that sufficient funds are included in the current five year defense plan to complete the Teal Ruby experiment, to include costs for storage, activation launch on-orbit support, and data analysis. Concerning TALC, it is directed that $25,000,000 be allocated to this project. Further discussion of TALC is included in the classified annex to this statement.

STRATEGIC TECHNOLOGY

The conferees agree to provide $311,490,000 for Strategic Technology instead of $252,361,000 as proposed by the House and $352,140,000 as proposed by the State. The following changes to the budget request are agreed to: (A) gallium arsenide, +$18,000,000; (B) broad area search, −$2,650,000; (C) DARPA Initiative in Concurrent Engineering, +$20,000,000; (D) High Temperature Superconductivity, +$16,000,000; (E) "Smart Skins", +$4,000,000; (F) Advanced Semiconductor Materials, +$20,000,000; (G) Plasma arc/ferrochromium technology, +$3,500,000; and (H) Simulation and Training Technology Transfer, +$5,000,000; The conferees express support for the gallium arsenic project, and in particular the technical insertion activities. It is understood that SDIO will contribute at least $15,000,000 to this project in fiscal year 1989.

The conferees direct that, within the amount appropriated, $20,000,000 shall be provided for a continuing program in advanced microelectronics, superconductivity, optoelectronics, and advanced materials research. The conferees further direct that of the funds provided for this program, $5,000,000 be allocated only for continuation of simulating and training technology transfer activities through the involvement of a university system with a strong base of experience in training and simulation technology transfer that can be quickly mobilized to meet the technology transfer needs of the Defense Department. Such an organization also should be receiving support for training and simulation technology activities from a state and from industry sources and should have facilities, training, and simulation technology research equipment and a full-time, multi-disciplinary staff that includes scientists, engineers, and experts in other appropriate technical and professional disciplines.

CONSOLIDATED DOD SOFTWARE INITIATIVE

The conferees agree to provide $61,642,000 for Consolidated DoD Software Initiatives instead of $64,315,000 as proposed by the House and $45,320,000 as proposed by the Senate. Within the amount appropriated, the following allocations are provided: Ada Technical Insertion Program, $25,000,000, to include $10,000,000 for the Ada Language System—Navy project; Software Engineering Institute, $18,929,000; and STARS $17,713,000.

BALANCED TECHNOLOGY INITIATIVE

The conferees agree to approve reprogramming request FY88-24N, which concerns additional funding of $100,000,000 for the Balanced Technology Initiative out of fiscal year 1988 funds, subject to acceptability of the suggested sources.

SEMICONDUCTOR MANUFACTURING TECHNOLOGY

The conferees agree to provide $100,000,000 for Semiconductor Manufacturing Technology as proposed by the House instead of $44,785,000 as proposed by the Senate. Of the amount appropriated, no more than $25,000,000 may be obligated until a 1989 operating plan for SEMATECH has been submitted by the Defense Advanced Research Projects Agency (DARPA) to the House and Senate Committees on Appropriations, along with DARPA's assessment and approval of the operating plan.

CRITICAL TECHNOLOGY ANALYSIS

The conferees agree to provide $23,250,000 for Critical Technology Analysis instead of $4,400,000 as proposed by the House and $29,100,00 as proposed by the Senate. Changes to the budget request include X-Ray Lithography, + $20,000,000 and Defense Technology Analysis Office, − $1,150,000.

SHORT WAVELENGTH REPETITIVE-PULSE EXCIMER LASER

The Strategic Defense Initiative research program has yielded abundant information about several innovative technologies and their potential applicability to identified military functions. Among these technologies is the short wavelength, repetitive-pulse, excimer laser. Accordingly, the conferees believe that if the Department of Defense is committed to realizing the goal of demonstrating the feasibility and effectiveness of this laser program, it should consider the appropriate exercise of prior approval, discretionary reprogramming authority, if necessary, in FY 1989.

ADVANCED TACTICAL PATRIOT

In view of the possible contributions of the Advanced Tactical Patriot system to implement the evolving Army anti tactical ballistic missile (ATBM) strategy, the conferees would be willing to consider a reprogramming to fund research and development on such a system in fiscal year 1989 once the Army submits its ATBM Master Plan and demonstrates there is no duplication with SDI ATBM activities. Any fiscal year 1989 funding for Advanced Tactical Patriot will be considered subject to a prior approval reprogramming request from the Office of the Secretary of Defense and as long as the ATP program does not interfere with SDI's ATBM program.

DSTAR (INFRARED FOCAL PLANE ARRAY PROGRAM)

Due to funding restrictions and program uncertainties, the Conferees were unable to appropriate the full funding request for the Infrared Focal Plane Array (IRFPA) program in the Defense Advanced Research Projects Agency (DARPA). In view of these uncertainties, the Conferees agree with the language in the Senate Report. In reaching this agreement, however, the Conferees fully support DARPA's actions to develop a viable program to enhance the national capability to manufacture infrared focal plane arrays with military applications. Such a program also could maintain and enhance U.S. competitiveness in this critical technology area. The Conferees strongly encourage DARPA to support fully the IRFPA program in fiscal 1989 with the funds provided, and expect to receive a budget request for fiscal year 1990 for the DSTAR program which resolves the present uncertainties and demonstrates DARPA's firm commitment to carrying out this important initiative.

MEDICAL TECHNOLOGIES

The conferees urge that funds be allocated for medical excimer laser technology activities and available for a laser research program developed, in part, out of collaboration between a government-funded jet propulsion laboratory concentrating on defense projects and a major urban medical center with an already-established, substantial medical excimer laser technology research program using a long-pulse magnetically switched excimer laser. Further, the conferees urge a continuation of proton accelerator research and medical free electron laser research.

BIOENVIRONMENTAL HAZARDS RESEARCH

The conferees agree to provide $16.5 million for bioenvironmental hazards research (sec. 205(d) of PL 100-180)) to complete a project begun last year at Tulane and Xavier Universities.

NATO COOPERATIVE RESEARCH AND DEVELOPMENT

F-16 AGILE FALCON

F/A-18 UPGRADE

The conferees agree that a more complete justification is needed of the proposed F/A-18 upgrade and the F-16 Agile Falcon cooperative programs. They also agree with the concerns expressed in the Senate report regarding the relationship of these programs to other U.S. tactical aircraft developments, their affordability and military-cost effectiveness and the extent to which allied nations will pay significant cost shares, and further agree to examine these issues in the coming year. However the conferees do not wish to slow the entire programs while the assessments are under way. Therefore, the conferees agree with the reporting requirements as proposed by the Senate, and agree that no more than $30 million may be obligated for the F/A-18 Upgrade before March 15, 1989. The $30,000,000 is available only for the proposed radar upgrade for the F/A-18.

Concerning the F-16 Agile Falcon, no funds exceeding $5,000,000 may be obligated before March 15, 1989. In approving funds for the Agile Falcon predevelopment program upgrades, the conferees emphasize they are making no commitment to pursue this program into full scale development. The Air Force is directed to take no action during fiscal year 1989 which would obligate the department for any work beyond the Agile Falcon predevelopment phase. The conferees further direct that of the funds provided for NATO Cooperative Research and Development, $14,300,000 is available only for the Multifunction Information Distribution System.

JOINT STANDOFF WEAPONS

The conferees agree to provide $33,900,000 for the Joint Standoff Weapons program which is composed of $15,900,000 for the Advanced Interdiction Weapon System (AIWS)/Modular Stand Off Weapon (MSOW) and $18,000,000 for the Long Range Conventional Cruise Missile. The conferees are pleased with the quality of the Joint Standoff Weapon Master Plan which the Department submitted in response to the fiscal year 1988 Appropriations conference report. The master plan should be submitted annually and must include all technology base projects that could contribute to fielding standoff weapons. The conferees intend that the Office of the Secretary of Defense take aggressive action to eliminate duplication and foster cooperation between the Services in the technology base.

The conferees are concerned about the Long Range Conventional Cruise Missile (LRCCM) budget request and the need to provide Congress with a formal requirement for the weapon, an acquisition strategy, a program schedule, an estimate of quantities, and a firm estimate of development and procurement costs. The conferees agree to provide limited funding in order to address these issues and to continue technology development including improved cruise missile propulsion and guidance technolgies. The conferees expect that enhanced management attention through the master plan process will eliminate apparently redundant cruise missile technology base projects outside of the LRCCM program as discussed in the Senate report. The conferees further agree with the Senate language concerning obligation of funds.

JOINT REMOTELY PILOTED VEHICLES PROGRAM

(UNMANNED AERIAL VEHICLES

The fiscal year 1988 Defense Appropriations Act merged all Department of Defense non-lethal unmanned aerial vehicle (UAV) efforts into one joint program. At the time of reporting the fiscal year 1989 bill, neither the House or the Senate had received the DoD UAV Masterplan.

The Committees later reviewed the masterplan and subsequent realignment of the budget request for procurement and research and development for fiscal year 1989.

The masterplan presented by DoD partially responds to the direction provided by the Congress for fiscal year 1988. The department has made a good faith effort to create a management structure to avoid redundant development and procurement programs. The Committees recognize the separation of lethal and non-lethal UAV programs, but believe that there remains a significant potential for common air vehicles, guidance systems, data links, and other parameters outlined in the direction last year and incorporated in the DoD masterplan for non-lethal systems. The General Accounting Office, at the request of the Committees, has preliminarily reviewed these efforts, and has also raised issues of duplication between lethal and non-lethal development efforts. The Committees do not accept that the distinction between lethal and non-lethal UAV's precludes utilization of common components and systems.

With respect to the issue of duplication, the Conferees expect that all research and development and procurement efforts for lethal and non-lethal unmanned aerial vehicles will be jointly reviewed by the UAV EXCOM and the Joint Requirements Oversight Council for Stand-off Weapons. These two groups will jointly report their evaluations of all programs, specifically addressing the potential for utilization of common components and systems, to the Secretary of Defense prior to the obligation of not more than fifty percent of any funds for either new or on-going programs included in this act. The composition of these two Committees provides an ideal form for this consolidated review, incorporating representatives of each of of the services, the Joint Chiefs of Staff, and OSD. This review of all programs should monitor and consider cooperative efforts with either NATO or other allies, to further preclude any duplicative development programs.

As part of the annual updates of the UAV and Stand-off Weapons Masterplans, the Secretary of Defense should report on the status of all non-lethal and lethal UAV programs to the House and Senate Committees on Appropriations not later than March 15, 1989. Each report should include a detailed discussion of how duplication among the various components of lethal and non-lethal UAV's has been eliminated for the particular systems addressed in each report. The Committees intend to utilize this comprehensive evaluation in their review of the fiscal year 1990 budget request.

DEVELOPMENTAL TEST AND EVALUATION, DEFENSE

Amendment No. 90: Appropriates $149,900,000 for Developmental Test and Evaluation, Defense instead of $155,900,000 as proposed by the House and $146,587,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Director of Test and Eval Defense				
Space system test capabilities	2,000	2,000	1,500	1,500
Foreign weapons evaluation	12,864	17,864	12,864	15,364
NATO cooperative development testing	42,813	42,813	39,000	39,813

OPERATIONAL TEST AND EVALUATION, DEFENSE

Amendment No. 91: Appropriates $71,234,000 for Operational Test and Evaluation, Defense instead of $12,234,000 as proposed by the House and $143,400,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Director of Operational Test and Evaluation				
OT&E capability improvement	121,166		121,166	59,000
SDS OT&E organization	10,000		10,000	

OT&E CAPABILITY IMPROVEMENT

The conferees agree to provide $59,000,000 for OT&E Capability Improvement instead of no funds as proposed by the House and $121,166,000 as proposed by the Senate. The conferees direct that none of the appropriated amount may be obligated or expended until all of the following occur: (A) 30 days elapse after the Secretary of Defense submits a detailed description of the items to be procured or development with these funds and a certification that similar capability is not currently in use or in development by any component of the Department of Defense; and (B) the Comptroller General of the United States conducts a review of the jurisdiction and mission of the Office of the Director, Operational Test and Evaluation, including a review of the legislative intent for this office, and certifies to the House and Senate Committees on Appropriations that the OT&E Capability Improvement program either is within the scope of that mission or would be more appropriately conducted by another organization within the Department of Defense.

TITLE V—REVOLVING AND MANAGEMENT FUND

ARMY STOCK FUND

Amendment No. 92: Appropriates $291,900,000 instead of $321,900,000 as proposed by the House and $271,900,000 as proposed by the Senate and deletes House language withholding $15,000,000 from obligation until authorized by law.

Amendment No. 93: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks $20,000,000 to pay administrative expenses associated with studies to increase the use of coal by United States Department of Defense facilities in the United States.

NAVY STOCK FUND

Amendment No. 94: Appropriates $184,700,000 as proposed by the Senate instead of $204,700,000 as proposed by the House.

AIR FORCE STOCK FUND

Amendment No. 95: Appropriates $186,900,000 as proposed by the Senate instead of $206,900,000 as proposed by the House.

DEFENSE STOCK FUND

Amendment No. 96: Appropriates $25,000,000 as proposed by the Senate instead of $30,000,000 as proposed by the House and deletes House language which directed that $5,000,000 could not be obligated or expended until authorized.

FOREIGN CURRENCY FLUCTUATION, DEFENSE

Amendment No. 97: Deletes the House provision on the Foreign Currency Fluctuation, Defense account.

TITLE VI—CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

Amendment No. 98: Appropriates a total of $179,500,000 for Chemical Agents and Munitions Destruction, Defense as proposed by the Senate instead of $375,400,000 as proposed by the House.

Amendment No. 99: Appropriates $44,300,000 for procurement as proposed by the Senate instead of $127,400,000 as proposed by the House.

Amendment No. 100: Deletes House language making an appropriation for construction and requiring prior authorization for a portion of the total appropriation.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Chem agents and munitions destruction, def				
Procurement	74,000	127,400	44,300	44,300
Construction		112,800		

Amendment No. : Appropriates

The conferees agree to the Senate position for continuation of the chemical munitions disposal program for fiscal year 1989. The conferees note the provision of construction funds for the baseline facility to Tooele Army Depot and the strong endorsement of a full scale cryofracture facility at Tooele Army Depot in the Military Construction Appropriations conference report.

The conferees reaffirm the support included in both the House and Senate reports for a full scale prototype cryofracture facility to be included as part of the Army's budget request for FY 1990. The conferees believe that the investment made in this effort provides a crucial insurance policy for the safe and expeditious disposal of the aging stockpile of unity chemical munitions. The cryofracture technology could provide the important additional dividend of demonstrating a technique for the disposal of conventional munitions a requirement facing the Army.

Operational verification testing is a critical requirement to ensure safe operation of the disposal facilities. Both the baseline and the cryofracture must meet the most stringent testing standards set by the Army and other federal agencies. Funding for the other munitions disposal centers will be predicated on successful test results and operations of the initial baseline site on Johnston Island, as well as continued testing of both the baseline technology and cryofracture at Tooele. The Committees, in the future, will not hesitate to delay funding for additional disposal facilities if the Department has not vigorously pursued the cryofracture program or if the results of tests and/or operations justify such a delay. The conferees expect the Department to continue evaluation of cryofracture as an alternative technology so that both safety and cost effectiveness are served in this effort.

TITLE VII—RELATED AGENCIES

INTELLIGENCE COMMUNITY STAFF

Amendment No. 101: Appropriates $23,645,000 for the Intelligence Community Staff as proposed by the House instead of $23,745,000 as proposed by the Senate.

DRUG INTERDICTION, DEFENSE

Amendment No. 102: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

DRUG INTERDICTION, DEFENSE

(INCLUDING TRANSFER OF FUNDS)

For the Department of Defense, $210,000,000 and by transfer from Aircraft Procurement, Navy, 1987/89, $90,000,000 for transfer to "Military Personnel" and "Operation and Maintenance" appropriations for operating costs of the Department of Defense related to the detection and monitoring of aerial and maritime transit of illegal drugs into the United States. Not less than $40,000,000 of such amount shall be available only for drug interdiction activities of the Army National Guard and the Air National Guard. Funds appropriated by this paragraph in excess of $30,000,000 may not be obligated or expended until—

(1) the Secretary submits to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on how the funds are proposed to be used; and

(2) a period of 30 days has elapsed after the date on which the report is received by such committees.

Such report shall be submitted not later than 60 days after the date of the enactment of this Act and should set forth in detail the plans of the Secretary for the obligation of such funds, including a statement of the following:

(A) The appropriation account or accounts to which the funds are proposed to be transferred.

(B) The activities proposed to be undertaken using those funds.

(C) The relationship between those activities and the drug interdiction strategy of the United States.

Funds appropriated by this paragraph shall be available for obligation for the same period, and for the same purpose, as the appropriation to which transferred. The transfer authority provided in this paragraph is in addition to any transfer authority contained elsewhere in this Act. The restrictions contained in the third sentence of this paragraph shall not apply to the obligation of any amount not in excess of $30,000,000 which is obligated for drug interdiction activities.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

DRUG INTERDICTION EFFORTS

The conferees agree to provide $300,000,000 ($210,000,000 in new obligational authority, $90,000,000 by transfer from fiscal year 1987/89 appropriations) for operational costs of Department of Defense drug interdiction efforts. The conferees agree to the establishment of a new Drug Interdiction Defense appropriation account as proposed by the Senate for aerial and maritime surveillance operational costs. The conferees further agree that the $40,000,000 set aside for Guard and Reserve component drug interdiction activities is a minimum level and the Department of Defense is encouraged to consider increasing the allocation for Guard and Reserve forces as part of its drug interdiction plan.

Although the conferees have not earmarked specific drug interdiction assets to be used by the Department in carrying out its new surveillance mission, the conferees concur with the conferees on the Department of Defense authorization bill that aerostat radar surveillance systems are a viable option for providing low-flying detection and surveillance of airborne and seaborne drug smugglers. The conferees also concur with the assessment that a significant radar surveillance "gap" exists from Brownsville, Texas to the West Coast of Florida—a gap that must be closed through the deployment of effective and proven surveillance systems, such as aerostats. Therefore, the conferees strongly recommend that the Secretary of Defense consider accelerating the deployment of aerostat radar surveillance systems along the southern border of the United States along the coast of the Gulf of Mexico. The conferees believe that sufficient funds provided within this conference agreement should be considered to be used to address this important drug interdiction problem.

SPECIAL OPERATIONS FORCES FUND

Amendment No. 103: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SPECIAL OPERATIONS FORCES FUND

(INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for equipping and operating Special Operations Forces; $286,000,000, of which $108,000,000 shall be transferred to and merged with Other Procurement, Army; $35,000,000 shall be transferred to and merged with Operation and Maintenance, Navy; $100,000,000 shall be transferred to and merged with Shipbuilding and Conversion, Navy; $25,000,000 shall be transferred to and merged with Other Procurement, Navy; and $18,000,000 shall be transferred to and merged with Operation and Maintenance, Army.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree with the concern expressed by the Senate over the inadequate funding included in the fiscal year 1989 budget request for the Special Operations Forces. Consequently, the conferees agree to provide additional funds as follows:

[In millions of dollars]

	House	Senate	Conference
Army communications procurement	0	150.0	108
Navy operations	0	35.0	35
MH-47E helicopters	0	100.6	0
MC-130H aircraft	0	101.0	0
Navy patrol boats	0	100.0	100
Miscellaneous Navy equipment	0	100.0	25
Army operations	0	40.0	18
AC-130U aircraft	0	242.5	0
Total	0	868.5	286

The conferees agree that the Department should notify the House and Senate Committees on Appropriations of the specific items of equipment being acquired with the above funds prior to obligation of the funds.

Additional conference guidance is contained in the classified annex to this statement of the managers.

INCREASED RESOURCES OR INTELLIGENCE ACTIVITIES

The Senate bill added certain resources above the budget request to meet current and projected future needs to monitor Soviet strategic weapons development and deployment. The House bill did not add these resources.

After careful consideration, the conferees approved some elements of the Senate proposal, reduced funding for other elements, and deferred until certain conditions are met any authority to obligate and expend some funds that were provided.

Details of the conference action are highly classified and are included in the Classified Annex to this Conference Report.

TITLE VIII—GENERAL PROVISIONS

Amendment No. 104: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows: *That except as provided in 10 U.S.C. 2690, the foregoing authority shall not be available for the conversion of heating plants from coal to oil or coal to natural gas at defense facilities in Europe: Provided further,*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 105: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which treats the State of Israel the same as our NATO allies for certain procurement areas within this general provision.

The conferees stipulate, however, that this new language is not intended to disrupt in any way the fragile United States industrial base that this provision is designed to maintain. It is not the intent of the conferees to grant, now or in the future, any country the approval to become a part of the American industrial base or to displace United States companies that constitute that base.

Amendment No. 106: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

No appropriation contained in this Act may be used to pay for the cost of legislative liaison activities of the Department of Defense in excess of $15,000,000: Provided, That costs for military retired pay accrual shall be included within this limitation.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree that at least $180,000 should be used to increase the funding for the Navy Comptroller liaison office.

Amendment No. 107: Provides $3,000,000,000 as proposed by the Senate instead of $2,500,000,000 as proposed by the House as the amount of transfer authority provided for in this Act.

Amendment No. 108: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 8016. Except as provided in 10 U.S.C. 2690, none of the funds available to the Department of Defense in this Act shall be utilized for the conversion of heating plants from coal to oil or coal to natural gas at defense facilities in Europe.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendments Nos. 109 to 111: Retains section numbers.

Amendment No. 112: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that reimbursement to providers should be the lower of the 80th percentile of customary charges.

Amendment No. 113: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires increases to reimbursement rates for physicians to be justified by the Medicare Economic Index.

Amendments Nos. 114 to 118: Retains section numbers.

Amendment No. 119: Places a ceiling of 6,113 full-time personnel in Morale, Welfare and Recreation activities instead of 9,901 as proposed by the House and 6,040 as proposed by the Senate.

Amendment No. 120: Places a ceiling of 1,570 part-time personnel in Morale, Welfare and Recreation activities as proposed by the Senate instead of 2,603 as proposed by the House.

Amendment No. 121: Restores House language which states that all obligations incurred in anticipation of appropriations and authority provided in this Act are hereby ratified and confirmed if otherwise in accordance with the provisions of this Act.

Amendments Nos. 122 to 127: Retains section numbers.

Amendment No. 128: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

UHF follow-on satellite system;
Defense Meteorological Satellite;

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 129: Provides multiyear procurement authority for the AH-64 helicopter program without specifying the duration as proposed by the Senate instead of four years duration as proposed by the House.

Amendment No. 130: Retains punctuation as proposed by the House and deleted by the Senate.

Amendment No. 131: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows: *TOW 2 Missile: Provided, That any requirement that a multiyear contract may not be entered into unless the anticipated cost over the period of the contract is not more than 88 percent of the average cost incurred for the same system procured under an annual contract shall not apply to multiyear contracts for TOW 2.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendments Nos. 132 to 137: Retains section numbers.

Amendment No. 138: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to change "46,622" as follows: *47,292.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section places a floor of 70,325 on (civilian) military technicians and a ceiling of 47,292 on personnel in active Guard or Reserve status (AGR) for certain Reserve and Guard components.

Amendment No. 139: Restores and amends House language which prohibits the management of civilian personnel on the basis of any end-strength. Regarding the Navy Manage to Payroll system, the conferees are concerned with the application of payroll allocation methodologies at industrially funded activities. Problems have been identified, particularly with the Navy's Manage to Payroll system at naval shipyards and engineering stations. As noted in a memorandum dated September 19, 1988 from the Comptroller of the Navy, "It has become apparent that for Industrial Fund activities, which experience considerable fluctuation in funded workload levels based on customer requirements, the procedure for justifying additional payroll requirements has not always been utilized and when utilized, has sometimes been perceived as insufficiently responsive." For instance, requests for adjustments to reflect actual workload took a full six months and forced managers either to risk major layoffs if not approved, or defer funded workload.

In order to provide additional flexibility in the operation of industrially funded activities, the conferees direct the services to provide such major claimants with authority to exceed their assigned payroll allocation figure by up to 5 percent without prior outside approval. Activities would be required to provide justification to the service comptoller for such adjustments within two weeks of their implementation. Any adjustment beyond the 5 percent figure would require outside approval as under current operations.

The conferees intend to oversee the application of this direction closely to determine if additional modifications are required to provide both needed flexibility in management and incentives to limit employment to funded workload levels.

Amendment No. 140: Deletes language proposed by the House which provides for the transfer of appropriations into research, development, test, and evaluation accounts to the extent necessary to meet increased pay costs authorized by law.

Amendments Nos. 141 to 144: Changes section numbers.

Amendment No. 145: Provides a ceiling on commissaries in the contiguous United States of 245 as proposed by the Senate instead of 247 as proposed by the House.

Amendments Nos. 146 to 156: Changes section numbers.

Amendment No. 157: Amends sections number and restores House language which prohibits funds to contract out any activity currently performed by the Defense Personnel Support Center in Philadelphia, Pennsylvania, until the Committees on Appropriations are notified of the results of the cost analysis of contracting out any such activity.

Amendments Nos. 158 to 164: Changes section numbers.

Amendment No. 165: Deletes House language which provides $22,300,000 to the Army for procurement of Tactical Army Combat Service Support Computer Systems from unobligated balances in the Automatic Data Processing Equipment Management Fund.

Amendments Nos. 166 to 170: Changes section numbers.

Amendment No. 171: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows the Department of Defense to grant civilian employees time off in lieu of pay when they are participating in productivity-based incentive award programs.

Amendment No. 172: Amends section number and restores House language which sets civilian personnel strengths at Army communications and electronic depots.

Amendment No. 173: Changes section number.

Amendments Nos. 174 to 176: Restores three classes of machine tools which are to be purchased in the United States or Canada as proposed by the House.

Amendments Nos. 177 to 178: Changes section numbers.

Amendment No. 179: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 8072. Except where specifically increased or decreased elsewhere in this Act, the restrictions contained within appropriations, or provisions affecting appropriations or other funds, available during fiscal year 1989, limiting the amount which may be expended for personnel services, and including pay and allowances of military personnel and civilian employees, or for purposes involving personal services are hereby increased to the extent necessary to meet increased pay costs authorized by or pursuant to law.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendments Nos. 180 to 185: Changes section numbers.

Amendment No. 186: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

(a) None of the funds in this Act may be used to execute a contract for the civilian Health and Medical Program of the Uniformed Services (CHAMPUS) Reform Initiative that exceeds the total fiscal year 1987 costs for CHAMPUS care provided in California and Hawaii, plus normal and reasonable adjustments for price and program growth.

(b) Notwithstanding section 725 of Public Law 100-180, the preemption provisions of title 10, United States Code, chapter 55, section 1103, shall not be limited to contractual provisions relating to coverage of benefits, but shall apply to any and all contracts entered into pursuant to Solicitation Number MDA-903-87-R-0047 and shall preempt any and all State and local laws or regulations which relate to health insurance or to prepaid health care plans

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment limits the funds available to execute the CHAMPUS Reform Initiative contract and provides preemption of laws and regulations relating to health insurance and health care plans.

Amendment No. 187: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which exempts the CHAMPUS Reform Initiative contracts and subcontracts from Hawaii state or local taxes.

Amendments Nos. 188 to 191: Changes section numbers.

Amendment No. 192: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further,* That of the funds appropriated for "Other Procurement, Army" for fiscal year 1988, those funds provided for a supercomputer may only be obligated to purchase a system to be installed at a competitively selected independent academic institution: *Provided further,* That of the funds appropriated for "Other Procurement, Army" in fiscal year 1989, $27,400,000 shall be obligated to purchase a supercomputer system to be installed at the United States Army Engineer Waterways Experiment Station.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees accept the Senate language which reaffirmed the intent of the Congress in fiscal year 1988 to provide a supercomputer system for the Army at a competitively selected academic institution. The conferees have worked closely with the Army on this issue, and have reviewed an initial draft of a plan to provide advanced supercomputing capability to meet critical Army research requirements utilizing state of the art systems and components. The conferees urge the Army to proceed with development and execution of this revised strategy. The systems procured with the funds provided will work in concert with the network of supercomputers located on Army installations, maximizing the benefits and talents of the academic research center. The proposed research center will be responsible for critical evaluation of emerging computer technologies to satisfy the present and future supercomputing needs of the Army. The Center will manage installation, conduct research, develop training programs and undertake special application projects (in collaboration with industry when required) on a continuing basis. The Army should submit its final acquisition, competition, and installation plan for this project to the Committees on Appropriations not later than 30 days prior to any obligation of the funds provided in fiscal year 1988 for supercomputer procurement.

The conferees further agree to provide funds for the Army to procure a supercomputer at its Corps of Engineers Waterways Experiment Station. It will vastly increase the Army's ability to perform numerical investigations necessary for classification research, development, test, and evaluation studies in the Army's military engineering program. This capability will allow the Army to conduct simulations, modeling, analyses and designs in areas such as M1 tank development, missile structure development, projectile penetrations, ground shocks, blast effects, underwater mine effects, and chemical agent movements in water. The additional capability will also save about $4,700,000 in funds now spent by the Corps during the first year of operation and over $50,000,000 over the life of the computer.

Amendments Nos. 193 to 194: Changes section numbers.

Amendment No. 195: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

(c) None of the funds appropriated in this Act are available for procurement of mini- and micro-computers for the Army Reserve Component which duplicates functions to be included in the RCAS contract.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to modify the general provision on the Reserve Component Automation System (RCAS) to allow limited procurement of critical mini and micro computers that are needed for Reserve Component functions which do not partially or fully duplicate the capability which is to be provided by the RCAS contract once it is awarded. Under no circumstances is the authority provided by the general provision to be used to network or expand existing or future information systems between the Army Forces Command and the Reserve Components or within the Reserve Components, including electronic mail. Under all circumstances, written notification to the Appropriations Committees of Congress is required prior to obligation of funds.

Amendment No. 196: Restores language proposed by the House and stricken by the Senate but changes the section number. This provision restricts the obligations of funds for fixed-price type development contracts until a written determination is made regarding program risk, prohibits the delegation of this responsibility below the level of Assistant Secretary of Defense, and provides for Congressional notification prior to the issuance of said detemination.

Amendments Nos. 197 to 199: Changes section numbers.

Amendments Nos. 200 to 201: Changes the name of certain Navy facilities from Naval Air Rework Facilities to Naval Aviation Depots, as proposed by the Senate.

Amendment No. 202: Deletes House language which prohibited funds to procure either directly or indirectly any goods or services from Toshiba Corporation, from Kongsberg Vapenfabrik, or from any of their subsidiaries.

Amendment No. 203: Changes section number.

Amendment No. 204: Specifies the size of welded shipboard anchor and mooring chain to be purchased in the United States at 4 inches in diameter and under as proposed by the Senate instead of 4¼ inches as proposed by the House.

Amendment No. 205: Changes section number.

Amendment No. 206: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

(a) None of the funds available to the Department of Defense shall be used to enter into any agreement or contract to convert a heating facilitiy at military installations in Europe to district heat, direct natural gas, or other sources of fuel until ninety days after a study by the United States Departments of Defense, State, and Commerce on the economic benefits of using United States coal at defense installations in Europe is completed and forwarded to Members of Congress: Provided, That this study should determine the extent of, and justification for, the economic benefits accruing to the Soviet Union from all prior and anticipated conversions of United States military installations in Europe to district heat and direct natural gas systems which utilize Soviet-supplied natural gas: Provided further, That this study should also address the issues raised by the economic analysis prepared by the Ambassador at Large on burdensharing negotiations to be appointed by the President as delineated by subsection (c) of section 8125 of this Act: Provided further, That the study also include a reveiw of the modernization plan for the needed updating of the heating systems in the Kaiserslautern military community and the usage of United States produced coal: Provided further, That this study should be completed no later than July 1, 1989.

(b) Notwithstanding subsection (a) funds available to the Department of Defense may be used to enter into an agreement or contract to convert a heating facility at military installations in Europe to district heat, direct natural gas, or other sources of fuel if the Secretary of Defense certifies in writing and provides a copy to the Committees on Appropriations of the House and Senate that such conversion is in the best interest of the Nation.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to the Senate language requesting the Departments of Defense, State, and Commerce to study the implications of economic benefits to the Soviet Union from all prior and anticipated conversions to district heating using Soviet Union natural gas. The conferees also request that this study address the economic implications of German coal being used in district heating systems, displacing American anthracite. An April 1988 economic analysis prepared by the American Embassy, Bonn, reported that German coal used in district heating systems, because of direct subsidies provided to its own coal and imposed tariffs on imported coal, costs more than American anthracite even after factoring in transport costs to Germany. The American Embassy, Bonn analysis and the report prepared by the Ambassador at Large on burdensharing as addressed in section 8125 should be addressed in the requested joint study.

The conferees agree that subsection (b) should not be used to request blanket authority but to address individual conversion contracts, citing the installations involved in each contract.

Amendment No. 207: Changes section number.

Amendment No. 208: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following: *The Department of Defense may include the hospital and neonatal services identified in subsections (a) and (b) in diagnosis related group regulations during fiscal year 1989 when the Department of Defense has adopted special measures to assure equitable and adequate payment for such services, such special measures including: (1) a "children's hospital differential" adjustment for each discharge of a CHAMPUS patient from a children's hospital that will assure that had the regulations been in effect for fiscal year 1988 they would have resulted in estimated aggregate CHAMPUS payments to children's hospitals not less than estimated aggregate CHAMPUS payments to such hospitals for discharges occurring during that fiscal year under the regulations in effect during fiscal year 1988 (recognizing that payments in subsequent years will vary based on volume, case mix intensity, and other factors); for a transitional period of three years the children's hospital differential will be computed on a hospital specific basis for children's hospitals with 50 or more CHAMPUS discharges in fiscal year 1988 and will be computed in aggregate for children's hospitals with less than 50 discharges in a year; (2) a children's hospital differential hold harmless provision, providing for retrospective and prospective corrections; (3) a special outlier policy for children's hospitals and neonatal services that combines the thresholds in effect under CHAMPUS DRG regulations for fiscal year 1988 with the higher marginal cost factors proposed by 53 Fed. Reg. 20580 (June 3, 1988); (4) a refinement to the DRGs for neonatal services to account for birthweight, surgery, and the presence of multiple, major, and other neonatal problems; (5) incorporation of annual updates to the classification features included in the regulation for neonatal services; (6) a provision for making interim payments for cases that are especially lengthy or expensive; and, (7) a commitment to examine possible further uses of Pediatric Modified DRGs in the future*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment allows the use of DRGs for certain hospital and neonatal services when the Department of Defense has adopted special measures to assure equitable and adequate payment for such services.

Amendment No. 209: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 8092. PROHIBITION ON PURCHASE OF TOSHIBA PRODUCTS FOR RESALE IN MILITARY EXCHANGE STORES.

(a) PROHIBITION.—During the three-year period beginning on the date of the enactment of this Act, no product manufactured or assembled by Toshiba America, Incorporated, or Toshiba Corporation (or any of its affiliates or subsidiaries) may be purchased by the Department of Defense for the purpose of resale of such product in a military exchange store or in any other morale, welfare, recreation, or resale activity operated by the Department of Defense (either directly or by concessionaire).

(b) EXCEPTION.—The prohibition in subsection (a) shall not apply to microwave ovens manufactured or assembled in the United States.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 210: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 8093. Notwithstanding any other provision of law, the Secretary of the Air Force shall, from existing prior year funds, make available $18,000,000 for the next generation trainer (F-109) engine over the next three year period: Provided, That none of the funds may be obligated or expended until the Secretary of the Air Force submits a certification to the Committees on Appropriations which identifies a specific United States military requirement for the F-109 engine or which demonstrates that these funds can be fully recouped under a contractual arrangement with the manufacturer through commercial sales of the engine.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 211: Restores "Transfer of funds" heading as proposed by the House, amends section number, and restores House language which allows transfer of prior year unobligated balances to O&M appropriations of the reserve components to provide military technician pay exemption from sequestration.

Amendment No. 212: Changes section number.

Amendment No. 213: Amends section number and restores House language which directs that naval vessels must be overhauled, repaired and maintained in the United States, except for voyage repairs.

Amendment No. 214: Changes section number.

Amendment No. 215: Restores House language which cites section 104 of the Intelligence Authorization Act, Fiscal Year 1989, dealing with a prohibition on assistance to the Nicaraguan democratic resistance.

Amendment No. 216: Deletes House language which specified the bill number of the Intelligence Authorization Act, Fiscal Year 1989.

Amendment Nos. 217 to 218: Changes section numbers.

Amendment No. 219: Amends section number and restores House language which prohibits the use of funds for product improvements to the M30 (4.2 inch) mortar.

Amendment No. 220: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 8101. The designs of the Army LHX helicopter, the Navy Advanced Tactical Aircraft, the Air Force Advanced Tactical Fighter, and any variants of these aircraft, must incorporate Joint Integrated Avionics Working Group standard avionics specifications no later than 1998.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 221: Changes section number.

Amendment No. 222: Deletes House language which earmarks funds for engineering development of Joint Integrated Avionics Working Group standard avionics modules and supporting advanced avionics architecture elements.

Amendment No. 223: Changes section number.

Amendment No. 224: Deletes Senate language which required that exchange agreements be among United States refiners.

Amendment No. 225: Changes section number.

Amendment No. 226: Deletes House language stricken by the Senate dealing with the funding for a workplace that is not free of illegal controlled substances.

The conferees strongly agree with the intent of the provision included by the House. However, the conferees have agreed to strike this language since this issue was addressed on a government-wide basis in Section 628 of the conference report for the Treasury-Postal Service-General Government Appropriations Act for 1989 (H. Rept. 100-881).

Amendment No. 227: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8105. ALLOWABILITY OF COSTS TO PROMOTE THE EXPORT OF DEFENSE PRODUCTS.

(a) IN GENERAL.—Section 2324(f) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(5) The regulations shall provide that costs to promote the export of products of the United States defense industry, including costs of exhibiting or demonstrating products, shall be allowable to the extent that such costs—

"(A) are allocable, reasonable, and not otherwise unallowable;

"(B) with respect to the activities of the business segment to which such costs are being allocated, are determined by the Secretary of Defense to be likely to result in future cost advantages to the United States; and

"(C) with respect to a business segment which allocates to Department of Defense contracts $2,500,000 or more of such costs in any fiscal year of such business segment, are not in excess of the amount equal to 110 percent of such costs incurred by such business segment in the previous fiscal year.".

(b) REGULATIONS.—The Secretary of Defense shall prescribe final regulations under paragraph (5) of section 2334(f) of title 10, United States Code (as added by subsection (a)), not later than 90 days after the date of the enactment of this Act. Such regulations shall apply with respect to costs referred to in such paragraph that are incurred by a Department of Defense contractor (or a subcontractor of such a contractor) on or after the first day of the contractor's (or subcontractor's) first fiscal year that begins on or after the date on which such final regulations are prescribed.

(c) REPORT.—Not later than two years after the date of the enactment of this Act, the Comptroller General of the United States and the Inspector General of the Department of Defense shall each submit to the Committees on Armed Services and Appropriations of the Senate and House of Representatives a report that includes the following:

(1) An assessment of whether the regulations required by section 2324(f)(5) of title 10, United States Code (as added by subsection (a)), provide the appropriate incentives to stimulate exports by the United States defense industry and provide cost savings to the United States.

(2) An assessment of whether such regulations provide appropriate criteria to ensure that costs allowed are reasonably likely to provide future cost savings to the United States.

(d) TERMINATION.—Section 2324(f)(5) of title 10, United States Code (as added by subsection (a)), shall cease to be effective three years after the date of the enactment of this Act.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 228: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8106. (a) Such sums as may be necessary for fiscal year 1989 pay raises for programs funded by this Act shall be absorbed within the levels appropriated in this Act.

(b) Sums appropriated in Title I of this act, Military Personnel are reduced by $150,000,000 which will be realized by absorbing a portion of the pay raise requirements.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This provision requires that the costs of the fiscal year 1989 pay raise be absorbed within funds provided in this Act. Additionally, the provision requires the Defense Department to absorb $150,000,000 of the military pay raise requirements.

Amendment No. 229: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 8093 named in said amendment, insert: *8107*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The section requires that reimbursement for care to active duty military by civilian providers must be in accordance with CHAMPUS reimbursement rates.

Amendment No. 230: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *8108*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section provides funds for payment of bonuses for nurse anesthetists.

Amendment No. 231: Deletes Senate language which prohibits the Japanese Yen from coverage by the Foreign Currency Fluctuation, Defense fund.

Amendment No. 232: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *8109*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section prohibits the use of funds to convert Naval Industrial Fund activities to appropriated fund activities.

Amendment No. 233: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

(TRANSFER OF FUNDS)

SEC. 8110. Notwithstanding any other provision of law during fiscal year 1989, the Secretary of Defense shall make available to the United States Coast Guard without reimbursement not less than $140,000,000 in supplies, fuel, training, assistance, medical support, and other operations support, exclusive of administrative costs; and from funds made available in this Act, $60,000,000 shall be transferred to Coast Guard "Operating Expenses".

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment provides $140,000,000 of in-kind assistance and $60,000,000 for operating expenses.

The conferees agree this is the final year that the Department of Defense appropriations should fund Coast Guard requirements. In the future, the appropriate committees should ensure adequate funding of the Coast Guard.

The fiscal year 1988 Department of Defense (DoD) ensure adequate funding of the Coast Guard.

The fiscal year 1988 Department of Defense (DoD) Appropriations Act provided $5,000,000 for development of a lightweight, portable sonar for the Coast Guard from within funds provided by DoD. Due to program start-up delays, these funds could not be obligated in fiscal year 1988. The conferees strongly support the Navy/Coast Guard plan to identify and evaluate a suitable lightweight portable sonar, and direct that not less than $5,000,000 of the funds provided by this provision be available to support this initiative.

Amendment No. 234: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 18111. Of the funds appropriated by this Act, not more than $1,163,200,000 may be obligated for morale, welfare, and recreation activities: Provided, That nonappropriated funds may be used to reimburse appropriated funds for expenses of civilian employees employed on January 1, 1987, by revenue-generating recreation activities and such reimbursed expenses shall not be included in the dollar limitation of this section.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 235: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8112*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section places a ceiling on overseas workyears.

Amendment No. 236: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 8100 named in said amendment, insert: *8113*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires the Secretary of Defense to evaluate the Deputy Inspector General's report entitled "Review of Unified and Specified Command Headquarters" and report back to the House and Senate Appropriations Committees by December 1, 1988.

Amendment No. 237: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8111. Of the funds appropriated by this Act, not more thatn $1,163,2000 may be obligated for marale, welfare, and recreation activities; *Provided*, That nonappropriated funds may be used to reimburse appropriated funds for expenses of civilian employees employed on January 1, 1987, by revenue-generating receation activities and such reimbursed expenses shall not be included in the dollar limitation of this section

The managers on the part of the Senate willmove to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 235: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8112*

The managers on the part of the senate willmove to concur in the amendment of the House to the amendment of the Senate.

This section places a ceiling on overseas workyears.

Amendment No. 236: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 8100 named in said amendment, insert: *8113*

The managers on the part of the Senate willmove to concur in the amendment of the House to the amendment of the Senate.

This section requires the Secretary of Defense to evaluate the Deputy Inspector General's report entitled "Review of Unified and Specified Command Headquarters" nd report back to the House and Senate Appropriations Committees by December 1, 1988.

Amendment No. 237: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8114. During the current fiscal year and thereafter, the Secretary of Defense shall notify the House and Senate Committees on Appropriations when salary increases granted to direct and indirect hire foreign national employees are at a rate in excess of the percentage pay increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code or at a rate in excess of the percentage increase provided to National Government employees of the host nation, whichever is higher.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees believe that the Senate proposal to hold foreign national pay raises to the rates provided U.S. citizen employees of the Department of Defense would be difficult to implement, and, in some instances would conflict with existing Status of Forces agreements. The conferees agree, however, that foreign national pay costs need to be closely monitored to ensure that any increases provided above the rates provided to U.S. citizen employees are fully justified. Accordingly, the conferees have amended the Senate bill language to require the Secretary of Defense to notify the House and Senate Committees on Appropriations when foreign national pay raises exceed the level given to either U.S. civilians or by the host nation to its own employees.

Amendment No. 238: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8115*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section transfers funds from the Defense Stock Fund and Navy Industrial Fund into certain operation and maintenance accounts.

The conferees agree that the Air Force Reserve and Air National Guard should obligate sufficient funds to support the KC-135E re-engining program. Any remaining funds should then be directed toward readiness items, such as flying hours, depot maintenance, training, and technician pay.

The conferees further agree to Senate language which requires the Department of Defense to annualize these cash refunds in the 1990 Guard and Reserve budget requests as though they were appropriations.

Amendment No. 239: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

SEC. 8116. During the current fiscal year, the Secretary of Defense may exempt a patient from paying an amount required by section 1079(b)(1) or 1086(b)(3) of title 10, United States Code, if the hospital to which the patient is admitted does not impose a legal obligation on any of its patients to pay for inpatient care: Provided, That the Secretary of Defense may, upon request, make payments under section 1079 or 1086 of title 10, United States Code, for a charge for services (which shall not exceed the average amount paid for comparable services in the *geographic area in which the hospital is located, or if no comparable services are available in that area, in an area similar to the area in which the hospital is located) for which a claim is submitted under a plan contracted for under section 1079(a) or 1086(a) of title 10, United States Code, to a hospital that does not impose a legal obligation on any of its patients to pay for such services: Provided further, That the Secretary of Defense shall periodically review the billing practices of each hospital the Secretary approves for payment under this section, to ensure that the hospital's practice of not billing patients for payment does not result in increased costs to the Government and the Secretary may require each hospital approved for payment under this section to provide evidence that it has sources of revenue to cover un-billed costs.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment exempts CHAMPUS beneficiaries from paying CHAMPUS cost shares if treated at hospitals which do not impose a legal obligation on any of its patients to pay for inpatient care.

Amendment No. 240: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *8117*

The managers on the part of the Senate will move to concur in the amendment of the Senate.

The amendment prohibits funds to carry out the Navy's Electromagnetic Pulse Radiation Environment Simulator for Ships in the Chesapeake Bay area until certain certifications are made concerning the program's military capability and economic, environmental, and social costs.

Amendment No. 241: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8118. Funds provided by this Act for the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) may be used by the Office of CHAMPUS to conduct a pilot project to provide program modifications and efficiencies by amending up to two existing fiscal intermediary contracts: Provided, That the Secretary of Defense conducts a separate health care demonstration project, if it is in the best interests of the Government, in the New Orleans, Louisiana area (the area described in Solicitation Number MDA 903-87-R-0047) that uses a managed health care network, including health care enrollment (as provided for in section 1099, title 10, United States Code): Provided further, That the Secretary shall implement this demonstration project no later than September 30, 1989.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment allows the Department to conduct a CHAMPUS pilot project by amending up to two fiscal intermediary contracts and a demonstration project in New Orleans, Louisiana by September 30, 1989.

Amendment No. 242: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 8106 named in said amendment, insert: *8119*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section prohibits changes to the command structure of military forces in Alaska.

Amendment No. 243 Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *8120*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires local hiring under government contracts in noncontiguous states.

Amendment No. 244: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8121. No more than $183,179,000 of the funds appropriated by this Act shall be available for the payment of unemployment compensation benefits.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment limits the payment of unemployment compensation benefits paid by the Department of Defense.

Amendment No. 245: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8122*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires local procurement of alcoholic beverages for Department of Defense activities in noncontiguous states.

Amendment No. 246: Deletes Senate language which requested a quarterly report on cumulative reprogrammings for procurement and research and development which exceed a certain threshold.

Amendment No. 247: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8123*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Seante.

This Senate expresses the sense of Congress with respect to the composition and direction of the Strategic Defense Initiative program.

Amendment No. 248: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8124. (a) If a reduction in variable housing allowance (VHA) rates was required subsequent to January 1, 1988, to comply with section 8047 of the Department of Defense Appropriations Act, 1988, a member of the uniformed services who received reduced rates and who, on the effective date of this Act, is still a member of the uniformed services, shall be paid the difference between the VHA rate as reduced subsequent to January 1, 1988, and the VHA rate to which the member would have been entitled under the rates established on January 1, 1988: Provided, That such payments shall be made from appropriations provided by this Act.

(b) None of the funds appropriated to the Department of Defense by this or any other Act for fiscal year 1989 shall be available to pay the variable housing allowance authorized members of the uniformed services under section 403a of title 37, United States Code, and the payments authorized by subsection (a) of this section, in a total amount in excess of $1,220,000,000: Provided, That any reduction in the rates of the variable housing allowance necessitated by the foregoing limitation shall be made as provided in section 403a of title 37, United States Code.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 249: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8125. (a)(1) Not later than March 1, 1989, the Secretary of Defense shall submit to Congress a report on the assignment of military missions among the member countries of North Atlantic Treaty Organization (NATO) and on the prospects for the more effective assignment of such missions among such countries.

(2) The report shall include a discussion of the following:

(A) The current assignment of military missions among the member countries of NATO.

(B) Military missions for which there is duplication of capability or for which there is inadequate capability within the current assignment of military missions within NATO.

(C) Alternatives to the current assignment of military missions that would maximize the military contributions of the member countries of NATO.

(D) Any efforts that are underway within NATO or between individual member countries of NATO at the time the report is submitted that are intended to result in a more effective assignment of military missions within NATO.

(b) The Secretary of Defense and the Secretary of State shall (1) conduct a review of the long-term strategic interests of the United States overseas and the future requirements for the assignment of members of the Armed Forces of the United States to permanent duty ashore outside the United States, and (2) determine specific actions that, if taken, would result in a more balanced sharing of defense and foreign assistance spending burdens by the United States and its allies. Not later than August 1, 1989, the Secretary of Defense and the Secretary of State shall transmit to Congress a report containing the findings resulting from the review and their determinations.

(c) The President shall appoint an Ambassador at Large responsible to the President who shall have the responsibility for ensuring a more balanced sharing of defense costs by the NATO members, Japan, the Republic of Korea, and other countries allied to the United States. Such responsibilities shall include negotiations for burdensharing including increased in-kind and financial

support by such countries for Department of Defense military units and personnel assigned to permanent duty ashore outside the United States in support of the security of such countries, and multi-lateral foreign assistance costs: Provided, That the Ambassador at Large should review (1) trade restrictions that require German utilities to purchase German-produced coal to the exclusion of foreign coal, including United States coal, and (2) the extent to which the tax on electricity used to subsidize German coal producers is borne by American military installations, American military dependents, or American civilians who support our military installations. The Ambassador at Large should prepare an economic analysis on the comparison of using German versus United States coal at defense facilities in Europe. This analysis should address the issues of all direct subsidies provided on German coal and restrictions imposed on imported coal and should be submitted to the Departments of Defense, State, and Commerce for use in their study on the economic benefits of using coal at defense facilities in Europe.

(d) The President shall specify (separately by appropriation account) in the Department of Defense items included in the budgets submitted to Congress under section 1105 of title 31, United States Code, for fiscal years after fiscal year 1989 the amounts necessary for payment of all personnel, operations, maintenance, facilities, and support costs for Department of Defense overseas military units, and the costs for all dependents who accompany Department of Defense personnel outside the United States.

(e) Not later than May 1, 1989, the Secretary of Defense shall submit to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report that sets forth the total costs required to support the dependents who accompany Department of Defense personnel assigned to permanent duty overseas.

(f) As of September 30 of each fiscal year after fiscal year 1989, the number of members of the Armed Forces on active duty assigned to permanent duty ashore in Japan and the Republic of Korea may not exceed 94,450 (the number of members of the Armed Forces on active duty assigned to permanent duty ashore in Japan and the Republic of Korea on September 30, 1987). The limitation provided for the preceding sentence may be increased if and when a major reduction of United States forces in the Republic of the Philippines is required because of a loss of basing rights in that nation, and the President determines and certifies to Congress that, as a consequence of such loss, an increase in United States forces stationed in Japan and the Republic of Korea is necessary.

(g)(1) After fiscal year 1990, Department of Defense budget submissions to Congress under section 1105 of title 31, United States Code, shall identify funds requested for Department of Defense personnel and units in permanent duty stations ashore outside the United States that exceed the amount of such costs incurred in fiscal year 1989, and shall detail: (A) a description of the types of expenditures increased, by appropriation account, activity and program; and (B) specific efforts to obtain allied host nations' financing for these cost increases.

(2) The Secretary of Defense shall notify in advance the Committees on Appropriations and Armed Services of the House and Senate through existing notification procedures, when costs of maintaining Department of Defense personnel and units in permanent duty stations ashore will exceed the amounts as defined in the Department of Defense budget as enacted for that fiscal year. Such notification shall describe: (A) the type of expenditures that increased; and (B) the source of funds (including prior year unobligated balances) by appropriation account, activity and program, proposed to finance these costs.

(3) In computing the costs incurred for maintaining Department of Defense personnel and forces in permanent duty stations ashore outside the United States compared with the amount of such costs incurred in fiscal year 1980, the Secretary shall—

(A) exclude increased costs resulting from increases in the rates of pay provided for members of the Armed Forces and civilian employees of the United States Government and exclude any cost increases in supplies and services resulting from inflation; and

(B) include (i) the costs of operation and maintenance and of facilities for the support of Department of Defense overseas personnel, and (ii) increased costs resulting from any decline in the foreign exchange rate of the United States dollar.

(h) The provisions of subsections (f) and (g) shall not apply in time of war or during a national emergency declared by the President or Congress.

(i) In this section—

(1) the term "personnel" means members of the Armed Forces of the United States and civilian employees of the Department of Defense;

(2) the term "Department of Defense overseas personnel" means those Department of Defense personnel who are assigned to permanent duty ashore outside the United States; and

(3) the term "United States" includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate proposed several actions to accomplish a more balanced sharing of defense costs by U.S. allies. The conferees agree that action must be taken to redress the current imbalance in defense spending by the United States and its allies, and specifically tht more needs to be done by NATO members, Japan and South Korea to offset the cost of permanently stationing U.S. troops in these nations.

The conferees agree to several initiatves in the Senate bill: (1) a revies by the Secretry of Defense and State of long-term interests overseas and requirements to station U.S. forces ashore overseas; (2) submission of budget justifications, after the fiscal year 1990 budget, that detail militry personnel, operation and maintenance, and militry construction requested to support forces permanently stationed overseas; (3) a report on the total costs to support dependents of Defense personnel sttioned overseas; (4) an end strength cap on U.S. active duty forces permanently stationed in Japan and South Korea.

The conferees agree that the NATO roles and missions study called for by the Senate should be performed instead by the Secretary of Defense. With respect to the requirement for a chief burdensharing representtive, the conferees have agreed to have an ambassador at large appointed by the President and responsible to the President.

The Senate also proposed establishment of an oversaeas cost cap after fiscal year 1989, with increases allowed only for normal inflation and pay raises; any additional costs would have to come from either increased allied burdensharing payments or from funds available for Defense personnel and forces overseas. The House did not address this issue.

The conferees agree that the cost cap proposed in the Senate bill would be overly restrictive and difficult to implement. The conferees believe that since action must be taken to address the current imbalance in defense spending among allied nations and to control Defense Department costs overseas, the policy of reportin on costs above current overseas expenditures is a good one. Accordingly, the conferees agree that costrs for overseas personnel and units above the level incurred in fiscal year 1989 9except for pay raises and normal inflation) shall be clearly described in budget submissions beginning with the FY 1991 submission. Further, to the extent that overseas costs exceed the level enacted, such increases shall be subject to reprogramming procedures.

Amendment No. 250: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8126. The Secretary of Defense shall take such action as may be necessary to implement at the earliest practicable date and with funds provided for such purpose under the heading "Army Stock Fund" in title V of this Act, the program proposed by the Department of Defense in a letter, dated August 30, 1985, from the Assistant Secretry of Defense for Acquisition and Logistics to rehabilitate and convert current steam generating plants at defense facilities in order to achieve a coal consumption target of 1,600 short tons of coal per year (including at least 300,000 short tons of anthracite coal) above current consumptin levels at Department of Defense facilities in the United States by fiscal year 1994: Provided, That such actin shall be subject to use of only the most cost-effective fuel system in the construction of new plants or the conversion of existing plants; however, this cost-effectiveness requirement is not applicable to a comparison between bituminous and anthracite coal: Provided further, That the requirement to purchase 300,000 short tons of anthracite coal expressed in the Department of Defense Appropriations Act, 1988, section 8113, must be complied with: Provided further, That, if the Department does not execute contracts to purchase the anthracite coal mandated in the fiscal year 1988 Defense Appropriations Act by September 30, 1988, it shall use such funds as are necessary from appropriations made available in this Act to complete this purchase.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 251: Deletes language proposed by the Senate concerning completion of a study regarding the supply of minority and women scientists, engineers, and technologists. Similar language has instead been included in the conference agreement in amendment number 89.

Amendment No. 252: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8127. Not more than $3,000,000 of the funds appropriated in this Act may be used to carry out the provisions of section 430 of title 37, United States code.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 253: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *8128*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section directs that $5,500,000 be used to transfer the smokejumper facility at Fort Wainwright, Alaska, to the Bureau of Land Management.

Amendment No. 254: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

(TRANSFER OF FUNDS)

SEC. 8129. Upon enactment of this Act, the Secretary of Defense shall make the following transfer of funds: Provided, That the amounts transferred shall be available for the same purposes as the appropriations to which transferred, but shall be available only for the time period of the appropriation from which transferred: Provided further, That funds shall be transferred between the following appropriations in the amounts specified:

(1) From: Under the heading, "Shipbuilding and Conversion, Navy, 1985/89":

Trident submarine program, $89,200,000;

T-ACS auxiliary crane ship program, $500,000; and

Outfitting and Post Delivery programs, $7,200,000;

Aircraft Procurement, Navy 1987/89, $28,000,000;

Research, Development, Test, and Evaluation, Navy, 1988/89, $40,000,000; and

Research, Development, Test and Evaluation, Air Force, 1988/89, $31,000,000;

To: Under the heading, "Shipbuilding and Conversion, Navy 1985/89":

T-AO fleet oiler ship program, $54,400,000;

MCM mine countermeasures ship program, $30,500,000;

DDG-51 guided missile destroyer program, $105,000,000; and

T-AGS ocean survey ship program, $6,000,000;

(2) Under the heading, "Shipbuilding and Conversion, Navy, 1986/90":

From: TRIDENT ballistic missile submarine program, $8,900,000;

To: Mine countermeasures ship program, $8,900,000; and

(3) From:

Aircraft Procurement, Army, 1987/89, $14,800,000;

Missile Procurement, Army, 1987/89, $75,200,000;

Weapons and Tracked Combat Vehicles, Army, 1987/89, $77,600,000;

Other Procurement, Army, 1987/89, $43,100,000;

Weapons Procurement, Navy, 1987/89, $71,900,000;

Other Procurement, Navy, 1987/89, $99,900,000;

Other Procurement, Navy, 1988/90, $10,000,000;

Coastal Defense Augmentation, 1988, $20,000,000;

Aircraft Procurement, Air Force, 1987/89, $110,500,000;

Missile Procurement, Air Force, 1987/89, $103,000,000;

Other Procurement, Air Force, 1987/89, $32,500,000;

National Guard and Reserve Equipment, 1988/90, $82,300,000;

Research, Development, Test, and Evaluation, Army, 1988/89, $10,000,000;

Research, Development, Test, and Evaluation, Air Force, 1988/89, $5,300,000;

To: Under the heading, "Shipbuilding and Conversion, Navy, 1987/91":

DDG-51 destroyer program, $666,000,000;

SSN-668 Attack submarine program, $68,600,000;

AO program, $8,000,000;

For craft outfitting and post delivery, $13,500,000; and

(4) From:

National Guard and Reserve Equipment, 1988/90, $110,700,000;

To:

Other Procurement, Navy 1989/91, $110,700,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree with the Senate provision to transfer funds from available prior year procurement and research and development appropriations. Adjustments have been made to various source identified in the Senate report to reflect program changes and obligations that occurred since passage of the Senate bill. The conferees also utilized funds addressed in Sec. 903 of the National Defense Authorization Act Conference Report for fiscal year 1989.

The Conferees suggest these transfers to finance miscellaneous adjustments in the fiscal years 1985, 1986, and 1987 Shipbuilding accounts. In fiscal year 1987, Congress authorized three DDG-51, Aegis destroyers, but only appropriated funds for two. This recommendation transfers $666,600,000 of funds appropriated in fiscal year 1987 to purchase the remaining authorized DDG-51 destroyer. Additionally, $110,700,000 is transferred to the Other Procurement, Navy account for 1989 to offset part of the consolidation of ship outfitting equipment in the procurement account.

The Conferees approve the following adjustments:

Appropriation and line item

[In thousands of dollars]

Appropriation and line item	Recommended transfer
Shipbuilding and conversion, Navy, 1985:	
Trident submarine program	−89,200
T-ACS auxiliary crane ship program	−500
Outfitting and post delivery	−7,200
Total	−96,900

Total	−110,700
Other procurement, Navy 1989: Ship outfitting	+110,700
Total	+110,700

The Conferees have estimated available funds for transfer from these programs with the understanding that the Department of Defense may, based on more recent obligation actions and emergent requirements require the substitution of other resources, with prior approval of the Committees on Appropriations, within the level specified, for the individual accounts.

The Secretary of Defense is requested to report to the House and Senate Committee on Appropriations actual transfers by P-1, R-1 line item no later than December 1, 1988.

Amendment No. 255: Deletes Senate language which rescinds proviously appropriated funds in the Seek Spinner program.

Amendment No. 256: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

(INCLUDING TRANSFER OF FUNDS)

SEC. 8130. In addition to the amounts appropriated or otherwise made available in this Act, $438,800,000 is appropriated for the DDG-51 destroyer program, and in addition, $349,200,000 shall be available by transfer for this program from the following appropriations: Aircraft Procurement, Army, 1988/90, $30,000,000; Missile Procurement, Army, 1988/90, $3,800,000; Weapons and Tracked Combat Vehicles, Army, 1988/90, $71,500,000; Aircraft Procurement, Navy, 1988/90, $61,700,000; Shipbuilding and Conversion, Navy, 1988/92, $126,300,000; Other Procurement, Navy, 1988/90, $53,900,000; and Other Procurement, Air Force, 1988/90, $2,000,000: Provided, That the amounts transferred shall remain available for obligation only for the time period provided when originally appropriated.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to appropriate $438,800,000 for the 1989 DDG-51 program. In addition, the conferees agree to transfer $349,200,000 from prior year procurement programs to be merged with funds provided in the fiscal year 1989 Shipbuilding and Conversion, Navy account for the DDG-51 program.

The conferees approve the following transfers:

[Dollars in thousands]

Aircraft procurement, Army, 1988: AH-64 Apache	−30,000
Total	−30,000
Missile procurement, Army, 1988: Pershing	−3,800
Total	−3,800
Weapons and tracked combat vehicles, Army, 1988:	
Bradley	−30,000
M-1 Tanks	−41,500
Total	−71,500
Aircraft procurement, Navy, 1988:	
EA-6B	−2,500
F-14	−31,800
E-2C	−27,400
Total	−61,700
Shipbuilding and conversion, Navy, 1988:	
Aircraft carrier	−100,000
CG-47	−26,300
Total	−126,300
Other procurement, Navy 1988: Strategic platform support equipment	−53,900
Total	−53,900
Other procurement, Air Force, 1988: OTH-B radar	−2,000
Total	−2,000
Shipbuilding and conversion, Navy, 1989: DDG-51 guided missile destroyer	+349,200

Amendment No. 257: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8131. (a) Of the funds made available in this Act to the Department of the Navy $6,000,000 shall only be available for dredging and emplacement of a portion of dredge material at the critical zone Sandy Hook, New Jersey.

(b) Under the heading entitled "Construction, general", in the Energy and Water Development Appropriations Act of 1988, title I (Public Law 100-202; 101 Stat. 1329, 1329-108), amend the paragraph that begins "The Secretary of the Army" and deals with Saxon Harbor, Wisconsin, by deleting the words "wood cribs as".

(c) Section 628 of "An Act Making Appropriations for the Treasury Department, the United States Postal Service, the Executive Office of the President and Certain Independent Agencies, for the Fiscal Year ending September 30, 1989, and for Other Purposes," is hereby amended to add the follow-

ing at the end thereof: "(c) This section shall be effective on January 16, 1989."

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 258: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8132. In applying any rule of statutory construction, the provisions of Title I through IX of this Act shall be deemed to have been enacted after the provisions of the Department of Defense Authorization Act, Fiscal Year 1989 as set forth in Title X of this Act or as set forth in H.R. 4481 (regardless of the actual dates of enactment concerned).

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 259: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8133*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to Senate language which establishes minimum levels of procurement of polyacrylonitrile (PAN) from domestic sources by year through 1992.

Amendment No. 260: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *8134*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section reduces funds available to the Department of Defense by $30,000,000 and directs the Secretary to allocate the reduction to reflect savings resulting from the increased use of discount air fares.

Amendment No. 261: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8135. None of the funds made available to the Department of Defense in this Act may be used to plan, design, or procure more than one type of Air Force trainer aircraft.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate provision prohibited the obligation of funds for the tanker, transport, trainer system unless requirements for bomber pilot training were also included.

The House did not address this provision.

Amendment No. 262: Deletes Senate language which expresses sense of the Senate that the Congress should pass legislation to provide a military pay raise of 4.1 percent for basic pay and basic allowance for subsistence and 7 percent for basic allowance for housing.

Amendment No. 263: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *8136*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires that statements, press releases, requests for proposals, bid solicitations, and other documents clearly state the dollar amount and the percentage of the total cost of the program or project with Federal funds.

Amendment No. 264: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8137. The total amount appropriated to or for the use of the Department of Defense by this Act is reduced by $150,000,000 to reflect savings resulting from the decreased use of consulting services by the Department of Defense. The Secretary of Defense shall allocate the amount reduced in the preceding sentence and not later than March 1, 1989, report to the Senate and House Committees on Appropriations how this reduction was allocated among the Services and Defense Agencies.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Consulting and Advisory Services.—The conferees agree with the intent of the Senate reduction for consulting and advisory services, however, are unable to determine what impact a cut of 15 percent below fiscal year 1987 levels would have on military readiness.

Whereas extensive hearings have been conducted by other congressional committees, to date none have been held by the Appropriations Committees. The conferees do, however, agree with the Senate's position that the Department of Defense is spending far too much for outside consulting services and that the Department must reduce the over $2,500,000,000 it spends annually on these services. The conferees further agree that they must act now to encourage the Department to reduce these expenditures and begin prioritizing their requirements. The conferees have agreed to a general provision which reduces the total funds appropriated by the Act for the Department of Defense by $150,000,000 and directs the Secretary of Defense to allocate this reduction among the services for consulting and advisory services.

Acquisition Personnel.—The conferees agree with the stated position of the Department of Defense regarding "Bid to Performance"—or the use of performance specifications. This approach seems to offer substantial opportunities for significant savings of time and money in defense acquisition programs by reducing detailed specifications and enabling industry to exercise initiative in developing creative solutions to technical problems. This approach also allows the Department to reduce the number of both military and civilian personnel involved with the acquisition of defense systems. The Department has developed guidelines which identify the personnel involved with the determination of requirements and development of specifications for weapon systems. The Department should achieve savings by reductions in the number of acquisition personnel.

Amendment No. 265: Deletes Senate language which would have transferred funds from several procurement accounts to support the Wartime Host Nation Support agreement between the United States and the Federal Republic of Germany.

Amendment No. 266: Deletes Senate language which provided discretionary authority for the Agency for International Development (AID) to use excess DoD foreign currencies.

The Secretary of State and Administrator of the Agency for International Development (AID) are urged to consider how excess United States-owned foreign currencies could be used to support the education of American dependents abroad. Such use should be addressed in the report requested by the fiscal year 1989 Foreign Operations Appropriation report regarding this issue.

Amendment No. 267: Deletes language proposed by the Senate which provides a cap on Independent Research and Development/Bid and Proposal (IR&D/B&P) costs. However, the Department of Defense is requested to submit to the House and Senate Committees on Appropriations a report on the IR&D/B&P program including long-range objectives and recommendations for IR&D/B&P funding.

Amendment No. 268: Deletes Senate language on close air support. The House and Senate Appropriations Committees will address the issue of close air support aircraft as part of hearings on the fiscal year 1990 budget request next year.

Amendment No. 269: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 8133 named in said amendment, insert: *8138*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section allows the Department to recoup expenses paid on behalf of the Soviet Union in execution of the INF Treaty.

Amendment No. 270: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 8139. Section 3554 of title 31, United States Code, is amended in subsection (a)(1), by striking out "unless the Comptroller General determines and states in writing the reasons that the specific circumstances of the protest require a longer period."

The managers on the part of the Senate will offer a motion to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to Senate language which limits the length of time the Comptroller General can stay a procurement under bid protest to 90 days.

The conferees also agree to delete Senate language which addressed the payment of legal fees, bid preparation cost, and agency notification of non-implementation of payment of costs recommendations since these matters are under the jurisdiction of other committees of the House and Senate.

Amendment No. 271: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number 8135 named in said amendment, insert: *8140*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section amends section 2345 of the Military Construction Authorization Act, 1988/89 concerning the use of sewage facilities at Fort Chaffee, Arkansas.

Amendment No. 272: The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert the following:

Sec. 8141. (a) Not later than 90 days after the date of enactment of this Act, the Administrator of the Office of Federal Procurement Policy shall issue a policy, and not later than 180 days thereafter government-wide regulations shall be issued under the Office of Federal Procurement Policy Act which set forth:

(1) conflict of interest standards for persons who provide consulting services described in subsection (b); and

(2) procedures, including such registration, certification, and enforcement requirements as may be appropriate, to promote compliance with such standards.

(b) The regulations required by subsection (a) shall apply to the following types of consulting services:

(1) advisory and assistance services provided to the government to the extent necessary to identify and evaluate the potential for conflicts of interest that could be prejudicial to the interests of the United States;

(2) services related to support of the preparation or submission of bids and proposals for federal contracts to the extent that inclusion of such services in such regulations is necessary to identify and evaluate the potential for conflicts of interest that could be prejudicial to the interests of the United States; and

(3) such other services related to federal contracts as may be specified in the regulations prescribed under subsection (a) to the extent necessary to identify and evaluate the potential for conflicts of interest that could be prejudicial to the interests of the United States.

(c) The Comptroller General shall report to Congress not later than one year after the date of enactment of this Act his assessment of the effectiveness of the regulations prescribed under this section.

(d) Intelligence activities as defined in section 3.4(e) of Executive Order 12333 or a comparable definitional section in any successor order may be exempt from the regulations required by subsection (a): Provided, That the Director of Central Intelligence shall report to the Intelligence and Appropriations Committees of the Congress no later than January 1, 1990, and annually thereafter delineating those activities and organizations which have been exempted from the regulations required by subsection (a) in accordance with the provisions of this subsection.

(e) The President shall, before issuance of the regulations required by subsection (a), determine if the promulgation of such regulations would have a significantly adverse effect on the accomplishment of the mission of the Department of Defense or other federal government agencies: Provided, That if the President determines that the regulations required by subsection (a) would have such an adverse effect, the President shall so report to the appropriate committees of the Senate and the House of Representatives, stating in full the reasons for such a determination: Provided further, That in the event of submission of a report to the committees containing an adverse effect determination, the requirement for the regulations prescribed by subsection (a) shall be null and void.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees support the intent of the Senate provision which requires the Department of Defense to determine conflict of interest, registration, and appropriate enforcement requirements for and/or companies providing consulting services by contract to the U.S. Government or to contractors doing business with the U.S. Government. The conferees, however, are not prepared, without appropriate hearings and input from the Department of Defense, to enact regulations composed by Congress.

The conferees do, however, feel that regulations should be developed by the appropriate authorities to address these key issues. Because of the unique and complex issues involved, the conferees believe the Administrator of the Office of Federal Procurement Policy (OFPP) should use his authority to issue government-wide policy. From this policy the conferees direct that government-wide regulations shall be issued under the Office of Federal Procurement Policy Act.

Further, the conferees intend that client information and all proprietary information be exempt from the provisions of the Freedom of Information Act. In addition, due to the sensitive nature of their mission, language has been included permitting the exemption of intelligence activities from the regulations required by the conference agreement.

Finally, the conferees have also included a proviso which will negate this section if the President reports to the Congress that the promulgation of such regulations would have a significantly adverse impact on the accomplishment of the mission of federal agencies.

Amendment No. 273: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

Sec. 8142. (a) Of the amounts available to the Department of Defense for fiscal year 1989, not less than $10,000,000 shall be available for National Defense Science and Engineering graduate Fellowships to be awarded on a competitive basis by the Secretary of Defense to United States citizens or nationals pursuing advanced degrees in fields of primary concern and interest to the Department.

(b) Fellowships awarded pursuant to subsection (a) above shall not be restricted on the basis of the geographical locations in the United States of the institutions at which the recipients are pursuing the aforementioned advanced degrees.

(c) Not less than fifty percentum of the funds necessary to carry out this section shall be derived from the amounts available for the University Research Initiative Program in "Research, Development, Test, and Evaluation, Defense Agencies", and the balance necessary shall be derived from amounts available for Defense Research Sciences under title IV of this Act.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree that the Department of Defense should expand its efforts to encourage the training of greater numbers of scientists and engineers to strengthen our nation's capacity to develop the technology necessary to assure our continued security. The Department is urged to closely coordinate its effort with that of the National Science Foundation's similar fellowship program to select, on a nationwide competitive basis, the most promising candidates for this defense fellowship program, and if feasible, to initiate a consolidated application and review process.

The conferees also direct the Department to consider steps in the implementation of this program to promote the award of fellowships to members of minority groups underrepresented in science and technology. In addition, the conferees urge that awardees be encouraged to seek placement in institutions and programs currently participating in the University Research Initiative program to complement that effort.

Amendment No. 274: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8143*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section earmarks funds for testing and evaluation of low profile antenna systems for ground level communications.

Amendment No. 275: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *8144*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section expresses the sense of the Congress that three foreign correspondents should posthumously be awarded the Presidential Medal of Freedom in honor of their brave efforts to document the Afghan struggle for freedom.

TITLE IX—ASSISTANCE FOR THE NICARAGUAN RESISTANCE

Amendment No. 276: The conferees have agreed to provide assistance to the Nicaraguan Resistance as proposed by the Senate, and to include the Appropriations Committees of the House and Senate, along with the Foreign Affairs and Intelligence Committees in the section on congressional oversight. The House had no similar provision.

Amendment No. 277: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

TITLE X—NATIONAL DEFENSE AUTHORIZATIONS

SEC. 10001. ENACTMENT OF FISCAL YEAR 1989 DEFENSE AUTHORIZATION BILL.

The provisions of the bill H.R. 4481 of the One Hundredth Congress, as contained in the conference report filed in the House of Representatives on September 28, 1988, are hereby enacted into law.

SEC. 10002. STATUTORY CONSTRUCTION.

(a) ORDER OF ENACTMENT.—In applying any rule of statutory construction, the provisions of titles I through IX of this Act

shall be deemed to have been enacted after the provisions of this title.

(b) PERMANENCE OF AUTHORIZATION PROVISIONS.—*For the purposes of the application of any rule of statutory construction relating to the permanence (or futurity) of provisions of law enacted in appropriations Acts, the provisions of law enacted by section 10001 shall be treated as having been enacted by a regular authorization Act, rather than an appropriation Act, and shall be construed on their own terms without regard to any such rule of construction.*

SEC. 10003. TERMINATION OF PROVISIONS UPON ENACTMENT OF AUTHORIZATION BILL.

Section 10001 shall not take effect if the bill H.R. 4481 of the One Hundredth Congress is enacted before this Act. If that bill is enacted after this Act, the provisions of section 10001 shall cease to be effective upon the enactment of that bill.

SEC. 10004. LIMITATION ON OBLIGATIONS.

Of the funds appropriated under this Act for the total appropriations accounts entitled:

Aircraft Procurement, Navy
Weapons Procurement, Navy
National Guard and Reserve Equipment

any additional funds may not be obligated or expended which are in excess of the corresponding levels for such accounts set forth in the Department of Defense Authorization Act, Fiscal Year 1989 (H.R. 4481), unless subsequently authorized.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to a provision that would incorporate by reference the provisions of H.R. 4481 of the One Hundredth Congress (the fiscal year 1989 Department of Defense authorization bill) as contained in the conference report filed in the House of Representatives on September 28, 1988. The conferees further agree to incorporate by reference into this joint statement the Joint Statement of Managers accompanying such conference report.

The conferees further agree that the provisions of Section 10004 limiting obligations and expenditures are uniquely related to the incorporation by reference of the Fiscal Year 1989 National Defense Authorization Bill in this Act and therefore shall not be considered a precedent or a guide for the future. Further, such limitation in this Act shall only apply to the total funds in the aggregate appropriations accounts specified and shall not apply to any subdivisions thereof.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1989 recommended by the Committee of Conference, with comparisons to the fiscal year 1988 amount, the 1989 budget estimates, and the House and Senate bills for 1989 follow:

New budget (obligational) authority, fiscal year 1988	$278,982,848,000
Budget estimates of new (obligational) authority, fiscal year 1989	283,159,445,000
House bill, fiscal year 1989	282,602,828,000
Senate bill, fiscal year 1989	282,572,013,000
Conference agreement, fiscal year 1989	282,412,350,000
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1988	+3,429,502,000
Budget estimates of new (obligational) authority, fiscal year 1989	−747,095,000
House bill, fiscal year 1989	−190,478,000
Senate bill, fiscal year 1989	−159,663,000

For all Senate amendments, except Senate Amendment No. 276, and modifications thereto committed to conference:

Bill Chappell,
John P. Murtha,
Norman D. Dicks,
Charles Wilson,
W.G. Bill Hefner,
Les AuCoin,
Martin Olav Sabo,
Jamie L. Whitten,

As exclusive conferees only for consideration of Senate Amendment No. 276 and modifications thereto committed to conference:

David R. Obey,
Charles Wilson,
Jamie L. Whitten,
Mickey Edwards,
Managers on the Part of the House.

John C. Stennis,
Bill Proxmire,
Daniel K. Inouye,
Ernest F. Hollings,
Lawton Chiles,
J. Bennett Johnston,
Robert C. Byrd,
Patrick Leahy,
Jim Sasser,
Dennis DeConcini,
Lowell P. Weicker, Jr.,
Managers on the Part of the Senate.

CONFERENCE REPORT ON H.R. 4637, FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS ACT, 1989

AMENDMENTS IN DISAGREEMENT

The SPEAKER pro tempore (Mr. Gray of Illinois). Pursuant to the order of the House of Tuesday, September 27, 1988, the amendments in disagreement are considered as having been read.

The Clerk will designate the first amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 1: Page 2, strike out all after line 4 over to and including line 21 on page 3 and insert:

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in share portion of the increases in capital stock, for the General Capital Increase, $70,915,283 to remain available until expended: *Provided,* That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code, *Provided further,* That none of these funds shall be made available until S. 2524 or another Act authorizing the appropriation of such funds is enacted into law.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the International Bank for Reconstruction and Development may subscribe without fiscal year limitation to the callable capital portion of the United States share of increases in capital stock in an amount not to exceed $2,292,972,540.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. Obey moves that the House recede from its disagreement to the amendment of the Senate numbered 1 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following:

CONTRIBUTIONS FOR ARREARAGES

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

For payment to the International Development Association by the Secretary of the Treasury, $43,333,334, for the United States contribution to the replenishments, to remain available until expended: *Provided,* That no such payment may be made while the United States Executive Director to the International Bank for Reconstruction and Development is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

CONTRIBUTION TO THE INTERNATIONAL FINANCE CORPORATION

For payment to the International Finance Corporation by the Secretary of the Treasury, $4,891,528 for the United States share of the increase in subscriptions to capital stock, to remain available until expended.

CONTRIBUTION TO THE ASIAN DEVELOPMENT FUND

For the United States contribution by the Secretary of the Treasury to the increases in resources of the Asian Development Fund, as authorized by the Asian Development Bank Act, as amended (Public Law 89-369), $100,000,000, to remain available until expended: *Provided,* That no such payment may be made while the United States Director of the Bank is compensated by the Bank at a rate which, together with whatever compensation such Director receives from the United States, is in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while any alternate United States Director to the Bank is compensated by the Bank in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

ANNUAL CONTRIBUTIONS TO INTERNATIONAL FINANCIAL INSTITUTIONS

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPM•NT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in share portion of the increases in capital stock, for the General Capital Increase, $50,000,795, to remain available until expended: *Provided*, That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the International Bank for Reconstruction and Development may subscribe without fiscal year limitation to the callable capital portion of the United States share of increases in capital stock in an amount not to exceed $2,292,972,540.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 5: Page 5, line 7, strike out all after "expended" down to and including "authorized" in line 9 and insert ": *Provided*, That none of these funds shall be made available until S. 2524 or another Act authorizing the appropriation of such funds is enacted into law".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 5 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert: ".".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 7: Page 6, line 10, strike out "$214,958,666" and insert "$218,219,666".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 7 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following: "$226,115,000, of which $2,650,334 shall be made available for the Organization of American States which amount shall be in addition to funds earmarked elsewhere under this heading for that organization".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

The was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 10: Page 6, line 16, after "Fund" insert "of which $3,000,000 shall be made available to UNICEF as funds in trust for the activities of Childhope".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 10 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: "of which $3,000,000 shall be made available to UNICEF as funds in trust for the activities of Childhope or similar organizations to help homeless or street children".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 11: Page 6, line 20, strike out all after "Act:" down to and including "Treasury;" in line 26.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 11 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following: "*Provided further*, That if the previous proviso has not been complied with, none of the funds appropriated by this Act remaining unobligated or unexpended at that time shall be obligated or expended until funds appropriated under this heading are made available to UNICEF (less amounts withheld pursuant to the previous proviso);".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Mr. OBEY. Mr. Speaker, I ask unanimous consent that Senate amendments No. 14, 28, 29, 32, 36, 37, 38, 40, 42, 61, 75, 78, 79, 80, 83, 106, 107, 108, 118, 120, 123, 125, 127, 128, 129, 130, 132, 136, 143, 155, 156, 157, 160, 163, and 166 be considered en bloc and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The texts of the various Senate amendment referred to in the unanimous-consent request are as follows:

Senate amendment No. 14: Page 7, line 3, after "Women;" insert "$200,000 for the United National International Research and Training Institute for the Advancement of Women;".

Senate amendment No. 28: Page 10, line 9, strike out "made available" and insert "providing directly".

Senate amendment No. 29: Page 10, line 10, strike out "to finance" and insert "for its use financing".

Senate amendment No. 32: Page 10, line 21, after "Institute" insert ": *Provided further*, That not less than $15,000,000 of the funds appropriated under this heading shall be made available for the International Student Exchange Program".

Senate amendment No. 36: Page 16, after line 11, insert:

ASSISTANCE FOR VICTIMS OF WAR

Of the aggregate of the funds appropriated by this Act to carry out part I and chapter 4 of part II of the Foreign Assistance Act of 1961, up to $5,000,000 may be made available, notwithstanding any other provision of law, for assistance for the provision of prostheses for civilians who have been injured as a result of civil strife and warfare.

Senate amendment No. 37: Page 17, after line 3, after "1961" insert ", in addition to funds otherwise available for such purposes,".

Senate amendment No. 38: Page 17, line 5, after "countries" insert ", of which not less than $3,000,000 shall be made available as matching funds to support the activities of the Agency for International Development's field missions to integrate women into their programs, *Provided*, That the Agency for International Development shall seek to ensure that country strategies, projects, and programs are designed so that the percentage of women participants will be demonstrably increased".

Senate amendment No. 40: Page 18, line 2, after "conjunction" insert ", where possible,".

Senate amendment No. 42: Page 19, line 6, after "$25,000,000" insert "of contingent liability for loan principal".

Senate amendment No. 61: Page 23, line 16, after "Honduras" insert ": *Provided further*, That of the funds provided under this heading for Central American countries, not less than $5,000,000 shall be available only to develop energy self-sufficiency, to identify and utilize indigenous resources to improve economic development, and to reduce reliance on imported energy".

Senate amendment No. 75: Page 27, line 22, after "provision" insert ": *Provided further*, That section 505(a)(1) of the International Security and Development Cooperation Act of 1980 is amended by inserting "(including public international organizations)" after "public group".".

Senate amendment No. 78: Page 29, line 23, after "$101,000,000" insert ": *Provided further*, That not less than $15,000,000 of the funds appropriated under this heading shall be available for narcotics interdiction and control programs for Bolivia".

Senate amendment No. 79: Page 29, line 23, after "$101,000,000" insert ": *Provided further*, That in addition to amounts made available pursuant to the previous proviso, not less than $7,000,000 of the funds appropriated under this heading shall be available for Latin America regional programs".

Senate amendment No. 80: Page 29, line 23, after "$101,000,000" insert ": *Provided further*, That in carrying out the provisions of section 481, increased emphasis should be placed on (1) further intensifying United States efforts in the eradication and interdiction of illicit narcotics, and (2) seeking international cooperation on narcotics enforcement matters such as in the areas of extradition treaties, mutual legal assistance to combat money laundering, sharing of evidence, and other initiatives for cooperative narcotics enforcement efforts".

Senate amendment No. 83: Page 30, line 22, after "Hemisphere" insert ": *Provided further*, That of the funds appropriated under this heading not less than $140,000,000 shall be made available for the refugee admissions program, including AIDS screening, of which (1) not less than, $46,000,000 shall be made available for first asylum refugees from East Asia and, (2) not less than $15,000,000 shall be available for costs of the expedited resettlement of Vietnamese Amerasians and their family members eligible for refugee benefits: *Provided further*, That of the funds appropriated under this heading not less than $20,000,000 shall be made available to the United Nations High Commissioner for Refugees for assistance for Afghan refugees: *Provided further*, That of the funds appropriated under this heading not less than $1,500,000 shall be made available for a Thailand-Cambodia border refugee protection program: *Provided further*, That of the funds appropriated under this heading not less than $1,500,000 shall be made available for the anti-piracy program, none of which funds may be used by any government to deny asylum to individuals seeking asylum: *Provided further*, That of the funds appropriated under this heading not less than $1,500,000 shall be made available for a Thailand border refugee education program".

Senate amendment No. 106: Page 53, line 25, strike out "be in the identical format as" and insert "continue to include the same type of information as is contained in".

Senate amendment No. 107: Page 54, line 3, after "1986" insert shall be in a format to be developed in consultation with the appropriate congressional committees: *Provided further*, That any such changes are approved by legislation".

Senate amendment No. 108: Page 58, after line 14, insert:

(b) The Secretary of the Treasury and the Secretary of State, in cooperation with the Administrator of the Agency for International Development, shall conduct bilateral and multilateral discussions with other members of the MDB's to further strengthen the environmental performance of each bank. These discussions shall include, but not be limited to organizational, administrative and procedural arrangements to remove impediments to the efficient and effective management of assistance programs necessary to protect and ensure the sustainable use of natural resources and to carry out such assistance programs in consultation with affected local communities.

Senate amendment No. 118: Page 72, line 15, after "situation" insert "; and

"(G) satisfying Liberia's undisputed debts to United States citizens".

Senate amendment No. 120. Page 76, line 9, strike out all after "That" down to and including "Scholarships" " in line 16, and insert; "the provisos contained in section 564 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, are hereby repealed"

Senate amendment No. 163: Page 97, line 14, after "forces," insert "not to exceed $5,000,000 may be made available for such purpose, and".

Senate amendment No. 166: Page 97, line 23, strike out all after "582." over to and including line 19 on page 98 and insert: It is the sense of the Congress that—

(1) the United Nations, the United Nations Human Rights Commission, and the Chairman of the Commission are to be commended for Decision 1988/106 as interpreted by the Chairman which establishes a working group on Cuba to conduct an onsite investigation on Cuban human rights conditions and prepare a report for consideration under agenda item 12(h) at the 45th session of the Commission in 1989;

(2) the President, the Secretary of State, the Permanent Representative of the United States to the United Nations, and the Representative of the United States to the United Nations Human Rights Commission are to be commended for their efforts to place Cuba on the agenda of the Commission and are strongly encouraged to continue to support and assist the Commission in its implementation of Decision 1988/106;

(3) the following countries are to be commended for their courageous support for an independent investigation of the human rights situation in Cuba under the auspices of the United Nations and consideration of Cuba under agenda item 12 at the 45th session of the Commission: Bangladesh, Belgium, Costa Rica, France, the Gambia, Federal Republic of Germany, Ireland, Japan, Mozambique, Norway, the Philippines, Sao Tome and Principe, Portugal, Senegal, Somalia, Togo, the United Kingdom, and Venezuela.

(4) the following countries, despite overwhelming evidence of serious human rights abuses in Cuba, failed to support the efforts of the United States to establish an inde-

pendent working group on Cuba and to provide for consideration of the report of this group under agenda item 12, a nonconfidential procedure reserved for countries with records of serious human rights violations: Algeria, Argentina, Botswana, Bulgaria, People's Republic of China, Colombia, Cyprus, Ethiopia, German Democratic Republic, India, Iraq, Mexico, Nicaragua, Nigeria, Pakistan, Peru, Rwanda, Spain, Sri Lanka, Union of Soviet Socialist Republics, and Yugoslavia;

(5) in accordance with section 574 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, the United States should continue to take into account whether countries support an independent investigation of human rights violations in Cuba under the auspices of the United Nations and consideration of Cuba under agenda item 12 at the 45th session of the Commission when considering bilateral assistance and the financial contribution to the United Nations;

(6) the Congress strongly objects to the election of Cuba and Panama to the Commission and strongly urges the Secretary General and Chairman, and the other members of the Commission to insure that Cuba and Panama do not in any way interfere with the independence of the pending investigation, the preparation of the resulting report, or the consideration of this report under agenda item 12(h) at the commission's 45th session.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendments of the Senate numbered 14, 28, 29, 32, 36, 37, 38, 40, 42, 61, 75, 78, 79, 80, 83, 106, 107, 108, 118, 120, 123, 125, 127, 128, 129, 130, 132, 136, 143, 155, 156, 157, 160, 163, 166, and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 23: Page 7, line 20, after "Development" insert ": *Provided further,* That of the funds appropriated under this heading for the United Nations Environment Program, $3,500,000 shall be used only for activities to control the global emissions of chlorfluorocarbons (CFC's) through the implementation of the Montreal Protocol and through the development of additional international restraints on the atmospheric release of CFC's; $2,000,000 shall be used only to initiate activities to establish an international agreement limiting the emission of greenhouse gases; $2,000,000 shall be used only to support the Regional Seas Program; and $2,500,000 shall be used only to operate the International Registry of Potential Toxic Chemicals, provide technical assistance to developing countries on the use and treatment of hazardous materials, implement the Cairo Plan, and assist developing countries to develop resource management strategies".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 23 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: ": *Provided further,* That the Department of State shall provide a report to the Committees on Appropriations, not later than June 1, 1989, analyzing the effectiveness of the United Nations Environment Program (UNEP) and detailing how UNEP has spent or intends to spend the funds appropriated under this heading. The State Department shall make this report immediately available to the Appropriations Committees".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 31: Page 10, line 21, after "Institute" insert ": *Provided further,* That not less than $67,270,000 of the funds appropriated under this heading and under the heading "Sub-Saharan Africa, Development Assistance" shall be available only for programs in basic primary and secondary education: *Provided further,* That in each of fiscal years 1989, 1990 and 1991, the Agency for International Development shall initiate three new bilateral projects in basic primary and secondary education, at least two of which in each fiscal year shall be initiated in countries in Sub-Saharan Africa".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 31 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following ": *Provided further,* That not less than $64,770,500 of the funds appropriated under this heading and under the heading "Sub-Saharan Africa, Development Assistance" shall be available only for programs in basic primary and secondary education: *Provided further,* That in fiscal year 1989, the Agency for International Development shall initiate two new bilateral projects in basic primary and secondary education, at least one of which shall be initiated in countries in Sub-Saharan Africa: *Provided further,* That in each of fiscal years 1990 and 1991, such agency shall initiate three new bilateral projects in basic primary and secondary education, at least two of which in each fiscal year shall be initiated in Sub-Saharan Africa".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 33: Page 10, line 21, after "Institute" insert ": *Provided further,* That not less than $1,200,000 of the funds appropriated under this heading shall be made available for the Center for Inter-American Leadership".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 33 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: ": *Provided further,* That not less than $1,200,000 of the funds appropriated under this heading shall be made available for the Leadership Center for the Americas program".

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 35: Page 16, strike out lines 4 to 11.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 35 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following:

ASSISTANCE FOR JAMAICA

Of the aggregate of the funds appropriated by this Act to carry out part I of the Foreign Assistance Act of 1961, not less than $35,000,000 shall be made available, notwithstanding any other provision of law, for relief, rehabilitation and reconstruction assistance, which amount shall be in addition to funds otherwise made available for Jamaica to carry out the provisions of part I of such Act.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. Obey].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 44: Page 19, line 13, strike out all after "ed" down to and including "Africa" in line 15.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. Obey moves that the House recede from its disagreement to the amendment of the Senate numbered 44 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following: ": *Provided*, That not less than $500,000 of funds appropriated under this heading may be made available for assistance for children who have become orphans as a result of natural disasters".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. Obey].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 47: Page 20, line 26, after "law" insert ": *Provided*, That up to three percent of the amount made available under the heading "Operating Expenses of the Agency for International Development" may be transferred to and merged and consolidated with amounts made available under this heading: *Provided further*, That except as may be required by an emergency evacuation affecting the United States diplomatic missions of which they are a component element, none of the funds in this Act, or any other Act, may be used to relocate the overseas Regional Offices of the Inspector General to a location within the United States without the express approval of the Inspector General: *Provided further*, That the total number of positions authorized for the Office of the Inspector General in Washington and overseas shall be not less than 240 at September 30, 1989, of which not less than 93 auditor and investigator positions shall be established in the overseas regional offices of the Inspector General of the Agency for International Development as follows: for the Regional Office of the Inspector General for Latin and Central America and the Caribbean not less than 21; for the Regional Office of the Inspector General for West Africa not less than 16; for the Regional Office of the Inspector General for East Africa, not less than 18; for the Regional Office of the Inspector General for Southeast Asia not less than 11; for the Regional Office of the Inspector General for Southwest Asia not less than 14; and for the Regional Office of the Inspector General for Egypt in Cairo, not less than 13: *Provided further*, That none of the positions established in overseas regional offices of the Inspector General shall be established by reducing other overseas positions of the Agency for International Development".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 47 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: ": *Provided*, That up to three percent of the amount made available under the heading "Operating Expenses of the Agency for International Development" may be transferred to and merged and consolidated with amounts made available under this heading: *Provided further*, That except as may be required by an emergency evacuation affecting the United States diplomatic missions of which they are a component element, none of the funds in this Act, or any other Act, may be used to relocate the overseas Regional Offices of the Inspector General to a location within the United States without the express approval of the Inspector General: *Provided further*, That the total number of positions authorized for the Office of Inspector General in Washington and overseas shall be not less than 240 at September 30, 1989: *Provided further*, That section 103(b) of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 is amended by (1) striking out subsection (b)(3); (2) inserting, in subsection (b)(2), 'or regional inspector general offices under the jurisdiction of the Inspector General, Agency for International Development' after 'commander'; and (3) striking out '; and' at the end of subsection (b)(2) and inserting in lieu thereof a period".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

□ 1215

The SPEAKER pro tempore (Mr. GRAY of Illinois). The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 70: Page 27, line 5, after "Agreement" insert ": *Provided further,* That $2,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for the provision of medical supplies and hospital equipment for Poland through private and voluntary organizations, including for the expenses of purchasing, transporting, and distributing such supplies and equipment".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 70 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: ": *Provided further,* That $1,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for the provision of medical supplies and hospital equipment for Poland through private and voluntary organizations, including the expenses of purchasing, transporting, and distributing such supplies and equipment".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 84: Page 30, line 22, strike out all after "Hemisphere" over to and including "benefits" in line 1 on page 31.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 84 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following: ": *Provided further,* That the provisions of subsection (c) of section 584 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, as contained in section 101(e) of Public Law 100-202, shall apply to an individual who (1) departs from Vietnam after the date of the enactment of this Act and before the end of the two-year period described in subsection (a)(1)(B) of such section, and (2) is described in subsection (b) of such section, but who is issued an immigrant visa under section 201(b) or 203(a) of the Immigration and Nationality Act (rather than under subsection (a) of such section), or would be described in subsection (b) of such section if such section also applied to principal aliens who were citizens of the United States (rather than merely to aliens)".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 86: Page 31, line 11, after "expended" insert ": *Provided,* That all of the funds appropriated under this heading shall be made available only for Afghan refugees: *Provided further,* That the funds made available under this heading are appropriated notwithstanding the provisions contained in section 2(c)(2) of the Migration and Refugee Assistance Act of 1962 which would limit the amount of funds which could be appropriated for this purpose: *Provided further,* That funds appropriated under this heading shall be available for obligation and expenditure for Afghan refugees only after funds appropriated or otherwise earmarked for assistance for the Afghan people under section 537 of this Act and under the heading 'Migration and Refugee Assistance' have been obligated".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 86 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: ": *Provided,* That of the funds appropriated under this heading not less than $23,000,000 shall be made available only for Afghan refugees to be administered by the cross-border humanitarian assistance program: *Provided further,* That the funds made available under this heading are appropriated notwithstanding the provisions contained in section 2(c)(2) of the Migration and Refugee Assistance Act of 1962 which would limit the amount of funds which could be appropriated for this purpose: *Provided further,* That funds appropriated under this heading shall be available for obligation and expenditure for Afghan refugees only after funds appropriated or otherwise earmarked for assistance for the Afghan people under section 537 of this Act and under the heading 'Migration and Refugee Assistance' have been obligated".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 87: Page 31, strike out all after line 17 over to and including line 21 on page 33.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 87 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following:

MILITARY ASSISTANCE

For necessary expenses to carry out the provisions of section 503 of the Foreign Assistance Act of 1961, including administrative expenses and purchase of passenger motor vehicles for replacement only for use outside of the United States, $467,000,000: *Provided*, That of the funds appropriated under this heading not less than $125,000,000 shall be made available only for the Philippines: *Provided further*, That not less than $9,000,000 shall be available for non-lethal military assistance for Guatemala, of which not less than $2,000,000 shall be available only for civic action programs and for the construction of military barracks: *Provided further*, That not less than $15,000,000 shall be available for Kenya: *Provided further*, that if any of the funds appropriated under this heading are made available for Turkey, then not less that $30,000,000 of such funds shall be available for Greece: *Provided further*, That of the funds appropriated under this heading not more than $40,000,000 shall be used for general costs of administering the Military Assistance program: *Provided further*, That any material assistance provided with funds appropriated under this heading for Haiti shall be limited to non-lethal items such as transportation and communications equipment and uniforms: *Provided further*, That funds made available under this heading for Haiti shall be made available only through the regular notification procedures of the Committees on Appropriations: *Provided further*, That funds appropriated under this heading shall be expended at the minimum rate necessary to make timely payment for defense articles and services: *Provided further*, That the proviso under this heading in the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, prohibiting the use of military assistance funds after September 30, 1989, for the purposes of section 503(a)(3) of the Foreign Assistance Act of 1961, is repealed: *Provided further*, That any military assistance funds appropriated by this Act that have not been committed for the payment of any sale under the Arms Export Control Act during the period ending at the end of the second fiscal year after the fiscal year for which such funds were appropriated shall not be committed for such purpose thereafter unless the Committees on Apprpriations are given a fifteen day prior notification of the amount of funds involved, the reasons why no commitment was made thereof, and the proposed sales to be financed with such funds: *Provided further*, That military assistance funds appropriated by this or any other Act that have expended into the account designated in section 503(a)(3) of the Foreign Assistance Act of 1961 to finance particular sales shall be available, subject to all applicable reprogramming provisions, to finance other sales in the event of sales cancellations, reductions, excess funds at case closeout, or other reasons relating to the implementation of sales programs: *Provided further*, That the Committees on Appropriations shall be furnished on March 1 of each year a complete report of the status of military assistance funds appropriated by this or any future Act committed for the payment of any sales under the Arms Export Control Act as regards the individual sale, item description, and estimated sales price.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 89: Page 33, line 24, after "$51,254,750" insert ": *Provided*, That none of the funds appropriated under this heading shall be made available for grant financed military education and training for any country whose annual per capita GNP exceeds $2,349".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 89 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: ": *Provided*, That none of the funds appropriated under this heading shall be made available for grant financed military education and training for any country whose annual per capita GNP exceeds $2,349 unless that country agrees to fund from its own resources the transportation cost and living allowances of its students".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 90: Page 34, line 4, strike out "$3,893,000,000" and insert "$4,779,260,000".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 90 and concur therein with an amendment, as follows: Strike out all of the Senate engrossed amendment that follows: "page 34," and insert in lieu thereof the following: strike out line 1 and all that follows through line 18 on page 35, and insert in lieu thereof the following:

FOREIGN MILITARY FINANCING PROGRAM

For expenses necessary for grants to enable the President to carry out the provisions of section 23 of the Arms Export Control Act, $3,862,750,000: *Provided*, That of the funds appropriated by this paragraph not less than $1,800,000,000 shall be available for grants only for Israel, not less than $1,300,000,000 shall be available for grants only for Egypt, not less than $230,000,000 shall be available for grants only for Pakistan, not less than $52,000,000 shall be available for grants only for Morocco, and not less than $30,000,000 shall be available for grants only for Tunisia: *Provided further*, That to the extent that the Government of Israel requests that funds be used for such purposes, grants made available for Israel by this paragraph shall, as agreed by Israel and the United States, be available for advanced fighter aircraft programs or for other advanced weapons systems, as follows: (1) up to $150,000,000 shall be available for research and development in the United States: and (2) not less than $400,000,000 shall be available for the procurement in Israel of defense articles and defense services, including research and development: *Provided further*, That grants shall be provided with the funds appropriated by this paragraph notwithstanding any requirement in section 23 of the Arms Export Control Act for repayment and shall be implemented by grant documents which do not include a requirement to repay the United States Government with respect to any funds provided under this paragraph.

For expenses necessary for loans to enable the President to carry out the provisions of section 23 of the Arms Export Control Act, $410,000,000: *Provided*, That any funds made available by this paragraph except as otherwise specified, may be made available at concessional rates of interest: *Provided further*, That the concessional rate of interest on foreign military credit sales loans shall be not less than 5 percent per year: *Provided further*, That all country and funding level changes in requested concessional financing allocations shall be submitted through the regular notification procedures of the Committees on Appropriations: *Provided further*, That during fiscal year 1989, gross obligations for the principal amount of direct loans under this heading, exclusive of loan guarantee defaults, shall not exceed $410,000,000.

Of the funds appropriated under both the "Military Assistance" heading and this heading $500,000,000 only shall be available for Turkey and $350,000,000 only shall be available for Greece: *Provided*, That funds previously obligated for the Philippines under the heading "Foreign Military Credit Sales" but uncommitted on the date of enactment of this Act shall be used only to finance sales made under the Arms Export Control Act: *Provided further*, That of the funds appropriated under this heading, not less than $409,750,000 shall be available only for use in financing the procurement of defense articles, defense services, or design and construction services that are sold by the United States Government under the Arms Export Control Act to countries other than Israel and Egypt: *Provided further*, That funds appropriated under this heading shall be expended at the minimum rate necessary to make timely payment for defense articles and services: *Provided further*, That the Department of Defense shall conduct during the current fiscal year nonreimbursable audits of private firms whose contracts are made directly with foreign governments and are financed with funds made available under this heading (as well as subcontractors thereunder) as requested by the Defense Security Assistance Agency: *Provided further*, That any reference in Title V of this Act to "Foreign Military Credit Sales" shall be deemed to be a reference to grants and loans pursuant to the Foreign Military Finance Program under this heading.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 101: Page 41, line 12, after "Program" insert ": *Provided*, That of this amount up to $5,000,000 may be used for joint financing with individual State trade promotion organizations of activities directed at the expansion of trade with developing and middle income countries, including such activities as trade fairs, seminars, targeting and feasibility studies, and activities directed at enhancing the use of exports from the United States in bilateral and multilateral projects".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 101 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: ": *Provided*, That notwithstanding any other provision of law, any funds contained in any previously enacted Act appropriating funds for foreign operations, export financing, and related programs which are transferred or otherwise made available to carry out the purposes of section 661 of the Foreign Assistance Act of 1961 may be deobligated and thereafter reobligated for the purposes for which such funds were originally appropriated: *Provided further*, That of the amounts appropriated under this heading up to $5,000,000 may be used for joint financing with individual State trade promotion organizations of activities directed at the expansion of trade with developing and middle income countries, including such activities as trade fairs, seminars, targeting and feasibility studies, and activities directed at enhancing the use of exports from the United States in bilateral and multilateral projects".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 103: Page 47, line 4, after "funds" insert ": *Provided further*, That the authority of this section shall not be available to reobligate more than $4,000,000 of funds previously obligated to carry out the provisions of sections 103 through 106 of the Foreign Assistance Act of 1961".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 103 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: ": *Provided further*, That the authority of this section may be used to continue the availability of any of the funds deobligated under any of such headings in order to provide relief, rehabilitation, and reconstruction assistance for Jamaica and Bangladesh: *Provided further*, That any such funds reobligated for Jamaica and Bangladesh shall be made available in accordance with the general authorities contained in section 491 of the Foreign Assistance Act of 1961: *Provided further*, That the authority of this section may not be exercised to deobligate and reobligate funds previously obligated for the "Economic Support Fund" ".

Mr. EDWARDS of Oklakoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no obligation.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 111: Page 66, line 8, after "SOMALIA," and insert "GABON,"

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 111 and concur therein with an amendment, as follows: in lieu of the matter inserted by said amendment, insert the following: "BURUNDI, LIBERIA, UGANDA,".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 112: Page 66, line 11, after "Sudan," insert "Gabon,".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 112 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: "Burundi, Liberia, Uganda,".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 115: Page 69, line 5, strike out "None" and insert "Except as otherwise specified in this Act, none".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. Obey moves that the House recede from its disagreement to the amendment of the Senate numbered 115 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following: "Except for programs under section 534(b)(4) or (6) of the Foreign Assistance Act of 1961 to support the efforts of private groups and individuals seeking to develop a national consensus on the importance of an independent judiciary and the administration of justice generally in a democratic society, assistance for which programs may be made available notwithstanding section 726 of the International Security and Development Cooperation Act of 1981, none".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. Obey].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 119: Page 74, line 2, strike out all after "555." down to and including "enacted" in line 4 and insert "Except as otherwise specified in this Act, funds appropriated by this Act may be obligated and expended notwithstanding section 10 of Public Law 91-672 and section 15 of the State Department Basic Authorities Act of 1956".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. Obey moves that the House recede from its disagreement to the amendment of the Senate numbered 119 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following: "Funds appropriatged by this Act may be obligated and expended notwithstanding section 10 of Public Law 91-672 and section 15 of the State Department Basic Authorities Act of 1956: *Provided,* That section 514 of the Foreign Assistance Act of 1961 is amended by amending subsection (b)(2) to read as follows: "(2) The value of such additions to stockpiles in foreign countries shall not exceed $77,000,000 for fiscal year 1989.": *Provided further,* That H.R. 4645 as reported on September 22, 1988 by the Committee on Banking, Finance and Urban Affairs of the House of Representatives is hereby enacted into law: *Provided further,* That title I of H.R. 5263 as passed by the House of Representatives on September 20, 1988 is hereby enacted into law: *Provided further,* That purchases, investments or other acquisitions of equity by the fund created by section 104 of H.R. 5263 as hereby enacted are limited to such amounts as may provided in advance in appropriations Acts".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

POINT OF ORDER

The SPEAKER pro tempore. Without objection, the motion is agreed to.

Mr. BUNNING. Mr. Speaker, I object, and I rise to a point of information. I raise a point of order.

The SPEAKER pro tempore. Does the Chair understand that the gentleman from Kentucky raises a point of order against the motion?

Mr. BUNNING. I do, Mr. Speaker. I make the point of order that the proposed amendment violates rule XVI, clause 17, of the Rules of the House of Representatives, and that the material contained in the proposed amendment to the Senate amendment, including the material authorizing H.R. 4645, as reported by the House Committee on Banking, Finance and Urban Affairs, is not germane to the Senate amendment.

The SPEAKER pro tempore. Does the gentleman from Wisconsin [Mr. Obey] desire to be heard on the gentleman's point of order?

Mr. OBEY. Yes, I do, Mr. Speaker.

The SPEAKER pro tempore. The Chair recognizes the gentleman from Wisconsin for that purpose.

Mr. OBEY. Mr. Speaker, let me simply say in an effort to explain the situation we are in that the House bill contains language which made clear that this appropriation was subject to authorization. The Senate waived authorization. The effort of the committee has been to accommodate the interest of the administration and the interest of the Congress.

If this point of order is upheld, the practical result will be that there will be no authorizations for a good many of the programs that Members assumed they would be supporting today.

I do not assert the parliamentary incorrectness of the gentleman's motion, but I do think it needs to be understood that if that motion is made and if it in fact is upheld, there will be no authorization for virtually every program in this bill.

Mr. MORRISON of Connecticut. Mr. Speaker, will the gentleman from Wisconsin yield?

The SPEAKER pro tempore. Does the gentleman from Connecticut [Mr. Morrison] desire to be heard on the gentleman's point of order? If so, the Chair will hear the gentleman.

Mr. MORRISON of Connecticut. Mr. Speaker, I had an inquiry for the gentleman from Wisconsin, if he would yield, or I could take my own time to ask it.

The SPEAKER pro tempore. The Chair controls the debate, and the Chair would be delighted to hear the gentleman from Connecticut if he desires to be heard for the point of order.

Mr. MORRISON of Connecticut. Mr. Speaker, I want to make an inquiry of the chairman of the subcommittee. As I understand the matter that is objected to, it includes a variety of programs, including the basic foreign assistance programs that are not authorized and several other programs, including the general capital increase of the World Bank, and I was going to inquire of the gentleman from Kentucky, first, whether his objection to this provision is directed at the general capital increase or whether it is directed at some other matter in this amendment.

Mr. BUNNING. Mr. Speaker, I would be glad to respond.

The SPEAKER pro tempore. The Chair will hear the gentleman from Kentucky in a further response.

Mr. BUNNING. Yes, it is directed at the general capital increase. As my vote on the bill prior to this objection shows, I am for all of the authorizations, but I am against the general capital increase for the World Bank.

Mr. Speaker, I would like to say this, if the gentleman from Wisconsin would yield.

Mr. OBEY. Mr. Speaker, I do not have any time to yield. The Chair controls the time.

The SPEAKER pro tempore. The gentleman from Kentucky is being heard on his point of order, and if he has concluded, the Chair would next recognize the gentleman from Wisconsin.

Mr. BUNNING. Mr. Speaker, let me just say, then, that I generally object to the language that authorizes the general capital increase for the World Bank for 6 years. That is my point of order, and that is why I made the point of order.

The SPEAKER pro tempore. Does the gentleman from Wisconsin [Mr. Obey] desire to be heard further?

Mr. OBEY. Yes, I do, Mr. Speaker. Mr. Speaker, I simply say that that may be all the gentleman says he is objecting to, but the fact is if he insists on his motion, he is eliminating all the ability of this House to provide appropriations for a good many items in this bill. All funding for Central America and all funding for the Middle East will come to a halt. If that is what the gentleman desires, he can insist on his motion.

The SPEAKER pro tempore. Does the gentleman from Connecticut [Mr. Morrison] desire to be heard further?

Mr. MORRISON of Connecticut. I do, Mr. Speaker.

As I understand the parliamentary situation, under an amendment that has already been adopted, the House has appropriated $50 million as a contribution for this year to the general capital increase of the World Bank. I certainly support the majority of the material that is in the amendment that is under consideration that would be removed by the gentleman's point of order if the point of order were to be sustained, and I would just inquire of the gentleman from Wisconsin whether there is any possibility of excising the portion that the gentleman from Kentucky has identified as objectionable to him in order to facilitate the passage of the overwhelming majority of these items, including the passage of $50 million in contributions as well as callable capital to reflect that amount for the general capital increase. it would be only the authorizing language that would be affected by it, it would seem to me, that would facilitate the business of the House and would avoid a confrontation that in that could be avoided.

The SPEAKER pro tempore. Is there any other Member who desires to be heard on the point of order?

Mr. BEREUTER. Mr. Speaker, I would like to be heard on the point of order and in the process propound a question.

The SPEAKER pro tempore. The Chair will hear the gentleman.

Mr. BEREUTER. Mr. Speaker, the gentleman from Connecticut, Mr. Morrison, has just indicated that in fact the appropriation for the first year of the general capital increase for the World Bank is provided in another part of the legislation. I would like to have a confirmation of that point in order to know whether to proceed with my statement in respect to the point of order that has been raised, and I would like to yield to the gentleman from Wisconsin and ask if he would address the statement of the gentleman from Connecticut regarding the appropriation of the GCI, the $50 million.

Will the gentleman indicate whether the gentleman's understanding is correct?

The SPEAKER pro tempore. The Chair will be lenient and recognize the gentleman from Wisconsin for a response.

Mr. OBEY. Mr. Speaker, I would simply say that the funding for the amendment was already approved in amendment No. 1, so at this point the House has already approved the funding for the amendment in question.

Let me also say, Mr. Speaker, that this gentleman finds himself in a peculiar position because substantively I agree with the Members making the objection. I have not favored the recapitalization of the World Bank under existing circumstances, but it is my responsibility as chairman of the subcommittee to try to put together a compromise between the administration and both Houses of Congress so we can get a bill.

If this motion were to carry and if the gentleman's intention were in the end to be followed by the House and we were to wind up with no GCI increase, which I personally would be happy about, the fact is that would leave us in a position where we would have no bill because the White House would not accept a bill without that provision. At least that is my understanding, and that means that we would be backing the Congress right into a continuing resolution, which we have all indicated we oppose.

Mr. BEREUTER. Mr. Speaker, I thank the gentleman for his statement. I realize the dilemma the gentleman is in.

Mr. Speaker, I appreciate being recognized on this point of order, and I will not proceed further.

The SPEAKER pro tempore. Does any other Member wish to be heard on the point of order?

Mr. DREIER of California. Mr. Speaker, I desire to be heard.

The SPEAKER pro tempore. The Chair will hear the gentleman.

Mr. DREIER of California. Mr. Speaker, I would like to support the gentleman's point of order and say that it seems to me it is very difficult to believe that if this one particular item in this entire bill were to be excised, the President would not sign it if he is as committed to it as has been said. I would like to add further that just last Thursday, by a vote of 32 to 16, the House Banking Committee reported out this increase, and to have it moved from the Banking Committee directly into this conference report seems to me to be a real miscarriage of justice and a mistake.

Mr. Speaker, I hope very much that if the President does decide to sign this bill, he will sign it without the inclusion of the general capital increase.

□ 1230

The SPEAKER pro tempore (Mr. Gray of Illinois). Are there other Members desiring to be heard on the point of order?

If not, the Chair is ready to rule.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I would only make this comment, and I thank the Speaker for his leniency.

Mr. Speaker, I realize it is a point of order and, therefore, the ruling is going to be based on the correctness of that point of order. But I would not want to leave the impression—I would have to disagree with my chairman on one matter.

I have not had any indication from the administration that they would veto the bill if it did not have this provision in it. They very much want money for the general capital increase. I do not. They do. But they like the rest of the bill, and I do not have any reason to believe they would veto it if this were knocked out.

Mr. MORRISON of Connecticut. Mr. Speaker, could I be heard further?

The SPEAKER pro tempore. The Chair will recognize the gentleman from Connecticut for his comments.

Mr. MORRISON of Connecticut. Mr. Speaker, I would like to make one further suggestion because my objective here is certainly to facilitate the major business of the subcommittee and the passage of the bulk of this legislation and not to allow this point of order, which we have not yet had a ruling on, but to allow the point of order to obviate a whole lot of material for which there is support in favor of one controversial item.

And I make one more suggestion to the gentleman from Wisconsin [Mr. Obey], if we would be willing to consider it, and that is that we could perhaps reach an agreement with the gentleman to structure this so that there would be a vote on the provision, not the rest of the amendment No. 119, but the authorizing language in 119, which could be separated and voted on as an amendment if the gentleman from Wisconsin were willing to agree to that.

Mr. Speaker, that would be another way in which the gentleman from Kentucky could make his point without doing damage to other issues that he does not wish to do damage to.

I realize that would be a departure from the usual procedure, but it is a way out of our particular position we are currently in, and I would just commend that to the gentleman's attention as a possibility to be considered.

Mr. OBEY. Mr. Speaker, I would simply point out that, if there are Members of this House who are opposed to the GCI, if they want to deal with that without bringing down the entire bill, their proper course of action would simply be to oppose the motion which I am making. If they can beat it on the floor, then they have an opportunity to make a motion of their own.

The SPEAKER pro tempore. The Chair is ready to rule.

Mr. DREIER of California. Mr. Speaker, I just would like to take a moment to underscore the fact that nearly every Member who stood, including the chairman and the ranking minority member, are in opposition to the GCI. I think that is a point that the Record should show clearly.

The SPEAKER pro tempore (Mr. Gray of Illinois). Are there additional Members desiring to be heard on the point of order?

If not, the Chair is ready to rule.

The gentleman from Kentucky [Mr. Bunning] has raised a point of order against the motion made by the gentleman from Wisconsin [Mr. OBEY].

The Chair has listened to the arguments advanced on both sides and tried to be liberal with Members espousing their particular cause, and for the reasons advanced by the gentleman from Kentucky [Mr. BUNNING] it is clear that the motion offered by the gentleman from Wisconsin [Mr. OBEY] is not germane to the Senate amendment.

Therefore, under the rules, the Chair must sustain the point of order of the gentleman from Kentucky [Mr. BUNNING].

Mr. OBEY. Mr. Speaker, I ask unanimous consent that amendment No. 119 be passed over and that we proceed to the next amendment in disagreement, amendment No. 124.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 124: Page 78, line 6, after "Act" insert "or if the President determines that the recipient for which funds are earmarked has significantly reduced its military or economic cooperation with the United States since enactment of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 124 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following: "or, with respect to a country with which the United States has an agreement providing the United States with base rights or base access in that country, if the President determines that the recipient for which funds are earmarked has significantly reduced its military or economic cooperation with the United States since enactment of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988; however, before exercising the authority of this section with regard to a base rights or base access country which has significantly reduced its military or economic cooperation with the United States, the President shall consult with, and shall provide a written policy justification to the Committees on Appropriations."

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 133: Page 80, line 20, strike out all after "for" down to and including "regime" in line 22 and insert "Panama."

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 133 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following: "programs, projects, or activities which assist or lend support for the Noriega regime, ministries of government under the control of the Noriega regime, or any successor regime that does not meet the criteria specified in subsection (a) of this section".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 134: Page 85, after line 20, insert:

(d) ILLEGAL ACQUISITION.—Before issuing any letter of offer to sell any defense article or defense service to Qatar, Qatar shall have returned all Stinger antiaircraft missiles illegally acquired or purchased. The President shall notify the Committees on appropriations and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate when all such missiles have been returned.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 134 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

(d) ILLEGAL ACQUISITION.—Effective April 1, 1989, before issuing any letter of offer to sell any defense article or defense service to Qatar, Qatar shall have returned all Stinger antiaircraft missiles illegally acquired or purchased. The President shall notify the Committees on Appropriations and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate when all such missiles have been returned.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there any objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 135: Page 89, line 1, strike out all after "determine," down to and including "if" in line 2 and insert: "with respect to a country eligible for an International Monetary Fund Structural Adjustment Facility or Enhanced Structural Adjustment Facility, notwithstanding the limitation of section 124(c)(1) to relatively least developed countries, if".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 135 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following: "or at any time after September 30, 1989, the President may, if he determines it is in the national interest to do so, use the authority of those paragraphs with respect to such aggregate amounts of outstanding principal and interest payable at any time after that date as the President may determine. The authority provided in this section may be exercised with respect to any country described in the last sentence of this section and may be exercised notwithstanding section 124(c)(2) of that Act. In exercising the authority provided in this section, the President may waive the requirement that equivalent amounts of local currencies be deposited into local currency accounts in accordance with paragraph (A) of section 124(c)(1) of that Act, to the extent that the President determines that sufficient local currencies are otherwise available to achieve development objectives. This section applies with respect to any relatively least developed country, or any country in Sub-Saharan Africa (without regard to whether that country is a relatively least developed country within the meaning of section 124(a) of that Act), if".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 141: Page 90, strike out lines 13 to 20.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 141 and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following:

SOUTH AFRICA—SCHOLARSHIPS

SEC. 576. Of the funds made available by this Act under the heading "Economic Support Fund", not less than $10,000,000 shall be made available for scholarships for disadvantaged South Africans: *Provided*, That these funds shall be in addition to funds earmarked under such heading for Sub-Saharan Africa.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 144: Page 90, line 23, strike out all after "amended" down to and including "Act" " in line 25 and insert: —

(1) in paragraph (2)(A), by striking out "law" and inserting in lieu thereof "joint resolution, as provided for in sections 36(b)(2) and 36(b)(3) of this Act"; and

(2) in paragraph (3), by adding at the end thereof "Such consent shall become effective then only if the Congress does not enact, within the 30-day period after the President has given such consent, a joint resolution, as provided for in section 36(c)(2) and 36(c)(3) of this Act prohibiting the proposed transfer.".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 144 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment insert the following:

(1) in paragraph (2)(A), by striking out "law" and inserting in lieu thereof "joint resolution, as provided for in sections 36(b)(2) and 36(b)(3) of this Act"; and

(2) in paragraph (3), by adding at the end thereof "Such consent shall become effective then only if the Congress does not enact, within a 30-day period, a joint resolution, as provided for in sections 36(c)(2) and 36(c)(3) of this Act prohibiting the proposed transfer."

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 169: Page 99, after line, 7, insert:

ASSISTANCE FOR POLAND

SEC. 580. Up to the equivalent of $500,000 of the nonconvertible and convertible Polish currencies (after satisfaction of preexisting commitments to use such currencies for other purposes specified by law) held by the United States which have been generated by the sale to Poland of United States agricultural products may be made available for the reconstruction, renovation, and maintenance of the Research Center of Jewish History and Culture of the Jagiellonian University of Krakow, Poland, established for the study of events related to the Holocaust in Poland: *Provided*, That such currencies shall be made available notwithstanding 31 U.S.C. 1306.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 169 and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "583".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 170: Page 99, after line 7, insert:

COMPETITIVE INSURANCE

SEC. 581. All Agency for International Development contracts and solicitations, and subcontracts entered into under such contracts, shall include a clause requiring that United States marine insurance companies have a fair opportunity to bid for marine insurance when such insurance is necessary or appropriate.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 170 and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "584".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 171: Page 99, after line 7, insert:

PAY RAISES

SEC. 582. Such sums as may be necessary for fiscal year 1989 pay raises for programs funded by this Act shall be absorbed within the levels appropriated in this Act.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 171 and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "585".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 172: Page 99, after line 7, insert:

FAIR PRICING

SEC. 583. (a) The last sentence of paragraph (3) of section 503(a) of the Foreign Assistance Act of 1961 is amended by inserting immediately after the phrase "under paragraph (3)" the phrase "or from funds made available on a nonrepayable basis under section 23 of the Arms Export Control Act", and by inserting after "Armed Forces of the United States" the phrase "(other than the Coast Guard)".

(b) Section 515(d) of the Foreign Assistance Act of 1961 is amended by striking out "October 1, 1982" and inserting in lieu thereof "October 1, 1989" and by striking out "including" and inserting in lieu thereof "excluding".

(c) Section 43(b) of the Arms Export Control Act is amended by striking out "and" at the end of paragraph (1), by striking out the period at the end of paragraph (2) and by inserting a semicolon in lieu thereof, and (30 by adding the following paragraphs at the end of the subsection:

"(3) such expenses are incurred by offices, activities, or other organizational elements of the Department of Defense dedicated solely to carrying out functions under this Act, or are actual out-of-pocket expenses (other than pay and allowances) of personnel temporarily detailed to carry out such functions incurred while so detailed; and

"(4) such expenses are not salaries of members of the Armed Forces of the United States.".

(d) Section 21(e) of the Arms Export Control Act is amended—

(1) by inserting immediately before the semicolon at the end of paragraph (1)(A) "as specified in section 43(b) and section 43(c) of this Act";

(2) by inserting immediately before the semicolon at the end of paragraph (1)(C) "(except for equipment wholly paid for from funds transferred under section 503(a)(3) of the Foreign Assistance Act of 1961 or from funds made available on a nonrepayable basis under section 23 of this Act)";

(3) by repealing paragraph (1)(B) and relettering paragraphs (1)(C) and (1)(D) as paragraphs (1)(B) and (1)(C), respectively; and

(4) by striking out "paragraphs (1)(B) and (1)(C)" in subsection (e)(2) and inserting in lieu thereof "paragraph (1)(B)".

(e) Paragraph (1) of section 21(h) of the Arms Export Control Act is amended by striking out "or" at the end of subparagraph (A), by striking out the period at the end of subparagraph (B) and inserting in lieu thereof "; or", and by adding the following subparagraph at the end of the paragraph:

"(C) in connection with sales of defense articles of a type that are also procured by the Department of Defense for its own use.".

(f) This section shall be effective on or after October 1, 1989.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 172 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

FAIR PRICING

SEC. 586. (a) The last sentence of paragraph (3) of section 503(a) of the Foreign Assistance Act of 1961 is amended by inserting immediately after the phrase "under paragraph (3)" the phrase "or from funds made available on a non-repayable basis under section 23 of the Arms Export Control Act", and by inserting after "Armed Forces of the United States" the phrase "(other than the Coast Guard)".

(b) The Secretary of Defense shall waive collection of the following amounts of surcharges otherwise due on the letter of offer and acceptance (without amendment) for the sale to Israel of aircraft known as Peace Marble III and on the letter of offer and acceptance (without amendment) for the sale to Egypt of aircraft known as Peace Vector III:

(1) $20,000,000 of administrative surcharges under section 21(e)(1)(A) of the Arms Export Control Act for the letter of the offer and acceptance with Israel and $11,700,000 of administrative surcharges under that section for the letter of offer and acceptance with Egypt: *Provided*, That the Secretary shall reimburse the fund established to carry out section 43(b) of the Arms Export Control Act in the amount of the surcharges waived pursuant to this paragraph from any funds available to the Department of Defense, as he determines; and

(2) $70,000,000 of nonrecurring cost recoupment surcharges under section 21(e)(1)(C) of the Arms Export Control Act for the letter of offer and acceptance with Israel and $38,000,000 of nonrecurring cost recoupment surcharges under that section for the letter of offer and acceptance with Egypt.

(c) This section shall be effective on October 1, 1989.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 173: Page 99, after line 7, insert:

IRELAND

SEC. 584. It is the sense of the Congress that of the funds appropriated or otherwise made available for the International Fund for Ireland, the Board of the International Fund for Ireland should give the greatest weight in the allocation of such funds to projects which will create permanent, full time jobs in the areas that have suffered most severely from the consequences of the instability of recent years. Areas that have suffered most severely from the consequences of the instability of recent years shall be defined as areas that have the highest rates of unemployment.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 173 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

IRELAND

SEC. 587. It is the sense of the Congress that of the funds appropriated or otherwise made available for the International Fund for Ireland, the Board of the International Fund for Ireland should give great weight in the allocation of such funds to projects which will create permanent, full time jobs in the areas that have suffered most severely from the consequences of the instability of recent years. Areas that have suffered most severely from the consequences of the instability of recent years shall be defined as areas that have high rates of unemployment.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 175: Page 99, after line 7, insert:

NOTICE TO CONGRESS REGARDING POSSIBLE MISSILES SALES

SEC. 586. (a) PRICE AND AVAILABILITY REPORTS.—Section 28 of the Arms Export Control Act is amended—

(1) in the first sentence of subsection (a)—

(A) by striking out "or" after "$7,000,000 or more" and inserting in lieu thereof a comma, and

(B) by inserting ", or any missile, rockets, or associated launchers or any artillery projectiles (without regard to the amount of the possible sale)" after "$25,000,000 or more"; and

(2) in clause (2) of subsection (b)—

(A) by striking out "or" after "$7,000,000 or more" and inserting in lieu thereof a comma, and

(B) by inserting ", or of any missiles, rockets, or associated launchers or any artillery projectiles (without regard to the amount of the proposed sale)" after "$25,000,000 or more".

(b) NOTIFICATIONS IN THE ABSENCE OF RECENT PRICE AND AVAILABILITY REPORT LISTING.—

(1) SALES SUBJECTED TO NOTIFICATION REQUIREMENT.—Paragraph (2) of this subsection applies with respect to any letter or offer to sell any missiles, rockets, or associated launchers or any artillery projectiles (without regard to the amount of the sale) if, within the preceding 6 months, a listing

has not been transmittted to the Congress pursuant to section 28 of the Arms Export Control Act with respect to that sale and if section 36(b) of that Act does not apply.

(2) REQUIREMENT FOR NOTIFICATION.—Before issuing any letter of offer described in paragraph (1), the President shall notify the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate. Any such notification shall contain the information required in a certification under section 36(b) of the Arms Export Control Act.

(3) TIME FOR NOTIFICATION.—The notification required by paragraph (2) shall be submitted not less than 30 days before the letter of offer is issued, unless the President states in the notification that an emergency exists which requires the proposed sale in the national security interests of the United States. If the President states that such an emergency exists, he shall include a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate issuance of the letter of offer and a discussion of the national security issues involved.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 175 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

NOTICE TO CONGRESS REGARDING POSSIBLE MISSILES SALES

SEC. 588. (a) PRICE AND AVAILABILITY REPORTS.—Section 28 of the Arms Export Control Act is amended—

(1) in the first sentence of subsection (a)—

(A) by striking out "or" after "$7,000,000 or more" and inserting in lieu thereof a comma, and

(B) by inserting ", or of any Air-to-Ground or Ground-to-Air missiles, or associated launchers (without regard to the amount of the possible sale)," after "$25,000,000 or more"; and

(2) in clause (2) of subsection (b)—

(A) by striking out "or" after "$7,000,000 or more" and inserting in lieu thereof a comma, and

(B) by inserting ", or of any Air-to-Ground or Ground-to-Air missiles or associated launchers (without regard to the amount of the proposed sale)," after "$25,000,000 or more".

(b) NOTIFICATIONS IN THE ABSENCE OF RECENT PRICE AND AVAILABILITY REPORT LISTING.—

(1) SALES SUBJECT TO NOTIFICATION REQUIREMENT.—Paragraph (2) of this subsection applies with respect to any letter or offer to sell any Air-to-Ground or Ground-to-Air missiles, or associated launchers (without regard to the amount of the sale) if, within the preceding 6 months, a listing has not been transmitted to the Congress pursuant to section 28 of the Arms Export Control Act with respect to that sale and if section 36(b) of that Act does not apply.

(2) REQUIREMENT FOR NOTIFICATION.—Before issuing any letter of offer described in paragraph (1), the President shall notify the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate. Any such notification shall contain the information required in a certification under section 36(b) of the Arms Export Control Act.

(3) TIME FOR NOTIFICATION.—The notification required by paragraph (2) shall be submitted not less than 30 days before the letter of offer is issued, unless the President states in the notification that an emergency exists which requires the proposed sale in the national security interests of the United States. If the President states that such an emergency exists, he shall include a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate issuance of the letter of offer and a discussion of the national security issues involved.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 176: Page 99, after line 7, insert:

FUNDING ADJUSTMENTS

SEC. 587. Notwithstanding any other provision of this Act, the following amounts are hereby appropriated in lieu of amounts contained previously herein: for payment to the International Development Association, $952,876,717; for "International Organizations and Programs", $217,219,666, of which not more than $13,500,000 shall be made available for the International Atomic Energy Agency; for administrative expenses of the Export-Import Bank of the United States, not to exceed $20,490,000: *Provided*, That, notwithstanding any other provision of this Act, no funds shall be appropriated or otherwise made available by this Act for payment to the International Finance Corporation or for payment to the African Development Bank: *Provided further*, That the authority contained in section 515 of this Act may not be exercised to reobligate and reobligate funds previously obligated for the "Economic Support Fund", notwithstanding the provisions of that section.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 176 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following:

FUNDING ADJUSTMENTS

SEC. 589. Notwithstanding any other provision of this Act, the following amount is hereby appropriated in lieu of the amount contained previously herein for payment to the African Development Bank, $7,345,371: *Provided*, That notwithstanding any other provision of this Act, during fiscal year 1989, total commitments by Overseas Private Investment Corporation to guarantee loans shall not exceed $175,000,000 of contingent liability for loan principal: *Provided further*, That section 514 of this Act is amended to read as follows:

TRANSFERS BETWEEN ACCOUNTS

SEC. 514. None of the funds made available by this Act may be obligated under an appropriation account to which they were not appropriated.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 177: Page 99, after line 7, insert:

OLD EXECUTIVE OFFICE BUILDING

SEC. 588. (a) ACCEPTANCE OF GIFTS OF MONEY AND PROPERTY.—The Director of the Office of Administration is authorized to—

(1) accept hold, administer, utilize and sell gifts and bequests of property, both real and personal, and loans of personal property other than money; and

(2) accept and utilize voluntary and uncompensated services;

for the purpose of aiding, benefiting, or facilitating the work of preservation, restoration, renovation, rehabilitation, or historic furnishing of Old Executive Office Building and the grounds thereof.

(b) ESTABLISHMENT OF FUND.—There is established in the Treasury a fund for use in accordance with the provisions of this section. Amounts of money and proceeds from the sale of property accepted under subsection (a) shall be deposited in the fund, which shall be available to the Director of the Office of Administration. Such funds shall be held in trust by the Secretary of the Treasury.

(c) USE OF FUND.—Property accepted pursuant to this section or the proceeds from the sale thereof, shall be used as nearly as possible in accordance with the terms of the gift or bequest. The Director of the Office of Administration shall not accept any gift under this section that is expressly conditioned on any expenditure not to be met from the gift itself unless such expenditure has been approved by an Act of Congress.

(d) TAXES.—For the purpose of the Federal income, estate, and gift tax laws, property accepted under this section shall be considered as a gift, bequest, or devise to the United States.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 177 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

OLD EXECUTIVE OFFICE BUILDING

Sec. 590. (a) Acceptance of Gifts of Money and Property.—The Director of the Office of Administration is authorized to—

(1) accept, hold, administer, utilize and sell gifts and bequests of property, both real and personal, and loans of personal property other than money; and

(2) accept and utilize voluntary and uncompensated services;

for the purpose of aiding, benefiting, or facilitating the work of preservation, restoration, renovation, rehabilitation, or historic furnishing of the Old Executive Office Building and the grounds thereof.

(b) Establishment of Fund.—There is established in the Treasury a fund for use in accordance with the provisions of this section. Amounts of money and proceeds from the sale of property accepted under subsection (a) shall be deposited in the fund, which shall be available to the Director of the Office of Administration. Such funds shall be held in trust by the Secretary of the Treasury.

(c) Use of Fund.— Property accepted pursuant to this section or the proceeds from the sale thereof, shall be used as nearly as possible in accordance with the terms of the gift or bequest. Any use or sale of property accepted pursuant to this section, and any use of proceeds from such sale, shall be subject to the disapproval of the Administrator of General Services within 30 days after the Administrator receives notice of such use or sale. The Director of the Office of Administration shall not accept any gift under this section that is expressly conditioned on any expenditure not to be met from the gift itself unless such expenditure has been approved by an Act of Congress.

(d) Taxes.—For the purpose of the Federal income, estate, and gift tax laws, property accepted under this section shall be considered as a gift, bequest, or devise to the United States.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. Obey].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 179: Page 99, after line 7, insert:

EL SALVADOR ECONOMIC SUPPORT FUNDS

Sec. 590. Not less than 25 percent of the Economic Support Funds made available for El Salvador by this Act shall be used for projects and activities in accordance with the provisions applicable to assistance under chapter 1 of part I of the Foreign Assistance Act of 1961.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. Obey moves that the House recede from its disagreement to the amendment of the Senate numbered 179 and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "591".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. Obey].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 180: Page 99, after line 7, insert:

ASSISTANCE TO AFGHANISTAN

Sec. 591. Fund appropriated by this Act may not be made available, directly or through any programs funded under the heading International Organizations and Programs, for assistance to be provided inside Afghanistan if that assistance would be provided through the Soviet-backed Government of Afghanistan.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. Obey moves that the House recede from its disagreement to the amendment of the Senate numbered 180 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

ASSISTANCE TO AFGHANISTAN

Sec. 592. Funds appropriated by this Act may not be made available, directly or for the United States proportionate share of programs funded under the heading "International Organizations and Programs", for assistance to be provided inside Afghanistan if that assistance would be provided through the Soviet-controlled government of Afghanistan. This section shall not be construed as limiting the United States contributions to international organizations for humanitarian assistance.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. Obey].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the last amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 182: Page 99, after line 7, insert:

COSTA RICA ECONOMIC SUPPORT FUNDS

Sec. 593. Of the funds specified in this Act for Costa Rica under the heading Economic Support Fund, $20,000,000 shall be obligated, but shall not be expended, except as provided by the second and fourth provisos of this section, until the Government of Costa Rica and an American citizen, whose property and businesses in the vicinity of Limon Province, Costa Rica were affected by actions of the Government of Costa Rica (Junta de Administracion Portuaria y de Desarrollo Economico de la Vertiete Atlantica, or JAPDEVA, an agency of the Government of Costa Rica) reach a settlement concerning compensation: *Provided*, That in order to facilitate such a settlement the Department of State shall, upon enactment of this Act, request that both parties submit the disagreement to binding international arbitration in accordance with the rules of procedure of the Inter-American Commercial Arbitration Commission. The Commission shall select the arbitrators, and may appoint such experts as it finds necessary in order to establish a base of factual and financial information for the case: *Provided further*, That, if, within 60 days after the enactment of this Act the Government of Costa Rica has agreed to binding international arbitration, then the $20,000,000 shall be made available for expenditure to the Government of Costa Rica: *Provided further*, That, if, within 60 days after enactment of this Act, the Government of Costa Rica has not agreed to binding international arbitration, then the $20,000,000 shall be deobligated and immediately returned to the Treasury of the United States: *Provided further*, That if within 60 days after enactment of this Act, the United States citizen has not agreed to binding international arbitration and has not agreed that the award resulting from the arbitration will constitute a full and final settlement of any and all claims, liabilities and demands, including those which may be directed at the United States, its officers, agents and employees, then the $20,000,000 shall be made available for expenditures to the Government of Costa Rica: *Provided further*, That arbitrators shall consider maintenance costs, interest costs, professional fee costs, land, business and asset valuations and all other matters they deem appropriate: *Provided further*, That nothing in this provision shall prevent the two parties prior to a final arbitration award from reaching a binding full and final written agreement outside the arbitration proceedings; *Provided further*, That funds previously appropriated for the Economic Support Fund shall be used to pay for the reasonable costs of arbitration.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. Obey moves that the House recede from its disagreement to the amendment of the Senate numbered 182 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

COSTA RICA

Sec. 594. The Department of State shall select an independent factfinder to investigate the legal and financial issues related to the case involving the Government of Costa Rica and an American citizen concerning property and businesses in the vicinity of Limon Province, Costa Rica. The Department of State shall report, no later than March 1, 1989, the findings made by the factfinder to the parties involved and to the Committees on Appropriations and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate. The costs of the factfinder shall be paid from unearmarked funds provided under the heading "Economic Support Fund".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. Obey].

The motion was agreed to.

A motion to reconsider the votes by which action was taken on the several motions was laid on the table.

CONFERENCE REPORT ON H.R. 4776, DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 1989

Mr. OBEY submitted the following conference report and statement on the bill (H.R. 4776) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 1989, and for other purposes:

[Conference report will appear in a subsequent issue of the Record.]

Conference Report (H. Rept. No. 100-988)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4776) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 1989, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 5, 8, 10, 11, 13, 14, 18, and 20.

That the House recede from its disagreement to the amendments of the Senate numbered 1, 4, 9, 16, and 17, and agree to the same.

Amendment numbered 2:

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$32,040,000*; and the Senate agree to the same.

Amendment numbered 7:

That the House recede from its disagreement to the amendment of the Senate numbered 7, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$623,924,000*; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 3, 6, 12, 15, 19, 21, 22, 23, 24, 25, 26, 27, 28, and 29.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4776) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 1989, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the actions agreed upon by the managers and recommended in the accompanying conference report.

TITLE I—FISCAL YEAR 1989 APPROPRIATIONS

Amendment No. 1: Inserts title and fiscal year heading to separate fiscal year 1989 appropriations from supplemental appropriations for fiscal year 1988.

Federal Payment for Water and Sewer Services

Amendment No. 2: Appropriates $32,040,000 instead of $36,726,000 as proposed by the House and $27,130,000 as proposed by the Senate. The amount agreed to by the conferees is based on revised estimates submitted by District officials. The conferees note that the President's budget had proposed that the District bill the individual Federal agencies for these services. In denying that request and providing the lump sum payment, the conferees do not express unequivocal opposition to the proposal. However, in an April 1987 letter, the General Accounting Office stated that the proposal was contrary to existing law, and that the District has no statutory authority to bill or to accept payments from agencies. The conferees would encourage the relevant committees to consider the proposed request to change the statute. If such legislation is enacted during the fical year, the Committees on Appropriations will consider a request to adjust the amount provided.

Criminal Justice Initiative

Amendment No. 3: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate amended to read as follows:

In lieu of the matter proposed by said amendment, insert the following: *Provided*, That construction may not commence unless access and parking for construction vehicles are provided solely at a location other than city streets: *Provided further*, That District officials meet monthly with neighborhood representatives to inform them of current plans and discuss problems: *Provided further*, That the District of Columbia shall operate and maintain a free, 24-hour telephone information service whereby residents of the area surrounding the new prison, can promptly obtain information from District officials on all disturbances at the prison, including escapes, fires, riots, and similar incidents: *Provided further*, That the District of Columbia shall also take steps to publicize the availability of that service among the residents of the area surrounding the new prison.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The language agreed to by the conferees requires the District government to take certain steps to mitigate the impact of the proposed new prison on the surrounding neighborhood in Southeast Washington. The conferees have deleted the proviso requiring access and egress on other than 19th Street, Southeast, and the proviso that required a portion of the old D.C. jail site to become a neighborhood shopping center.

Public Safety and Justice

Amendment No. 4: Appropriates $734,207,000 as proposed by the Senate instead of $735,528,000 as proposed by the House.

Metroplitan Police Department—The conference action appropriates $207,157,000 as proposed by the House instead of $207,407,000 as proposed by the Senate. The conferees have not approved the increase of $250,000 proposed by the Senate. These funds would have been used in cooperation with Federal authorities to mount a drug interdiction initiative at the District's Lorton Correctional Complex. This matter is discussed under amendment number 5.

Superior Court—The conference action provides $54,646,000 and 1,173 positions as proposed by the Senate instead of $52,680,000 and 1,137 positions as proposed by the House. The increase of $1,966,000 and 36 positions above the House allowance will fund mandatory pay increases and provide needed staff and resources for various divisions in the Superior Court.

Court System—The conference action provides $20,080,000 and 80 positions as proposed by the Senate instead of $19,875,000 and 75 positions as proposed by the House. The increase of $205,000 consists of $47,000 to fund two exisitng positions in the Equal Employment Opportunity program, $94,000 and five positions for a pilot test of a court-manned security force and $64,000 for liability insurance for the District's judicial officers.

SECURITY AND MAINTENANCE OF COURT BUILDINGS

The increase of $94,000 will fund five positions and will permit the court system to pilot test a court-manned supplemental security force. Court official have testified that they continue to experience severe security problems which they have reported for several years, and instead of improving, the situation has deteriorated. Court officials further reported that the security and maintenance services provided by the District's Department of Administrative Services have not been satisfactory.

Because of these problems, court officials have repeatedly requested the transfer of these responsibilities and the applicable funding to the court. For whatever reasons, this has not been accomplished.

Testimony from court officials indicates that the Department of Administrative Services' responsibility for these services, if properly performed, would be acceptable to the courts. However, in light of the continued dissatisfaction with the obviously less than satisfactory service, the conferees recommend funding a small supplemental security force and evaluating the courts' ability to accomplish improved security in the buildings it occupies.

JUDICIAL INDEMNITY INSURANCE

An increase of $64,000 is provided for professional liability insurance. This increase is unnecessary except for the fact that the Council of the District of Columbia has not yet completed action on legislation amending the D.C. Code to ensure appropriate liability coverage for judicial employees comparable to that provided for medical employees under D.C. Code, sec. 1-1215(b). The need for this legislation results from the liability exposure created by the Supreme Court decision in the case of *Pulliam* v. *Allen* (1984) 104 S. Ct. 1970. This issue was first called to the attention of District officials in House Report 99-223 dated July 24, 1985. The report stated that "* * * the Committee urges the Mayor and Council to pursue the expedited passage of legislation amending the D.C. Code to ensure appropriate coverage for judicial employees thereby eliminating the need for funds to cover insurance premiums in fiscal year 1986."

That was over three years ago. The conferees are deeply concerned with what appears to be inaction on a seemingly innocuous bill that is simply good government as well as cost effective.

Department of Corrections—The conference action provides $193,855,000 instead of $197,347,000 as proposed by the House and $193,605,000 as proposed by the Senate. The reduction of $3,492,000 below the House allowance will provide $29,496,000 for the Federal Bureau of Prisons payment instead of $32,988,000 as proposed by the House and $29,246,000 as proposed by the Senate.

DRUG INTERDICTION TASK FORCE

Amendment No. 5: Deletes language proposed by the Senate concerning the use of funds proposed under amendment number 4 for the drug interdiction task force at the Lorton, Virginia prison complex. The conferees have agreed to delete the $250,000 proposed by the Senate under amendment number 4 for use by the Metropolitan Police Department to establish a drug interdiction task force at the Lorton, Virginia prison complex.

The conferees are concerned, however, that the flow of illicit drugs into the Lorton complex remains a serious problem and may contribute to instability and disturbances at the prison. The conferees direct the District of Columbia government to focus increased resources and effort on drug enforcement activities at Lorton.

The conferees further direct the District of Columbia government to proceed with the establishment of a drug interdiction task force. The District of Columbia Government should seek funding, as appropriate, from other Federal programs such as those being established as part of the omnibus drug legislation presently being considered by the Congress and/or use available funds to pay for police salaries, transportation, communications, drug testing services and equipment, and related expenses necessary to establish and operate a task force at Lorton and throughout the District of Columbia prison system.

The conferees believe that such a task force could greatly reduce the flow of drugs into Lorton and thus help prevent more serious problems. Therefore, the conferees direct the District of Columbia government to report to the Committees on Appropriations of the House and Senate, not later than January 15, 1989, on the effort being made to establish the task force, obtain funding, and on the severity of the drug problem at Lorton and throughout the prison system.

Amendment No. 6: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that the staffing levels of two-piece engine companies within the Fire Department shall be maintained in accordance with the Fire Department's Rules and Regulations until final adjudication by the relevant courts.

PUBLIC EDUCATION SYSTEM

Amendment No. 7: Appropriates $623,924,000 instead of $623,424,000 as proposed by the House and $623,981,000 as proposed by the Senate. The increase of $500,000 above the House allowance is for the Very Special Arts Program founded in 1974 as an educational affiliate of the John F. Kennedy Center for the Performing Arts. The program is dedicated to enriching the lives of people with disabilities through the arts, music, dance, drama, creative writing and the visual arts. These funds will be used to provide interpreters, ramps, needed medical coverage, accessible transportation equipment and signage services in support of the International Very Special Arts Festival scheduled to be held in Washington, D.C. in June 1989.

The conferees have not approved $57,000 proposed by the Senate for the Civil Air Patrol. This matter is discussed under amendment number 8.

Amendment No. 8: Allocates $452,403,000 for the public schools of the District of Columbia as proposed by the House instead of $452,460,000 as proposed by the Senate. The reduction of $57,000 below the Senate allocation reflects the deletion of funds intended for the establishment of a Civil Air Patrol Cadet Program within the District of Columbia Public Schools. This is done without prejudice to the program, and the conferees hope that the Board of Educaiton will seriously consider any proposal from the Civil Air Patrol to establish this program in the D.C. school system.

The Cadet Program is an activity for young men and women between the ages of 13 and 21 years old. The basic program includes training in leadership, aerospace education, moral leadership, and physical fitness. Under the leadership of CAP senior members, cadets progress through a series of structured achievements earning military type promotions in grade. The Cadet Program provides its participants a forum in which they are challenged to perform and rewarded when they do.

Programs such as the Civil Air Patrol Cadet Program are of great value in providing worthwhile activities for youth during the hours after school as a method of combating the temptation of drug abuse.

Public Schools—The conferees are concerned about what the Mayor has described as a crisis of values particularly among school-age children in the District of Columbia. This crisis manifests itself in the apparent insensitivity of youth to the specter of violence and drug use and where being victimized is viewed simply as part of growing up. In response to this type of crisis the Board of Education has established a Values Commission that is to report to the Board on a program that could be implemented in all schools and all grades.

This Commission is a fine first step in recognizing a fundamental problem in our current culture. However, the job will not be completed when the report is received and the program implemented. The conferees hope that the School Board will examine its own operations to ensure that they are sending the proper message to students through their own actions and deeds.

In addition, the conferees hope that the Commission will take into consideration the message that is received by students when the D.C. Public School system ranks last in teacher salaries in the region and by the deteriorated condition of the schools themselves. The conferees are aware that these are not easy questions to address, nor will they be inexpensive to correct, but students will judge our commitment to these goals by our adherence to the principles we establish.

Supplemental budget needs—The conferees are aware of the financial needs of the District of Columbias Public Schools and the possible shortfall of $13,000,000 in the proposed fiscal year 1989 budget. The new Superintendent testified that he hopes that the Mayor will propose and the District Council will enact a supplemental budget that will fully fund the needs of the public schools. The conferees direct that the Board of Education transmit to the Committee on Appropriations of the Senate and House of Representatives its estimate of needed supplemental funding at the same time this request is transmitted to the Mayor.

This request is made so that the Committees can be kept apprised of the budgetary situation in the D.C. Public Schools and not as a promise to fund all amounts requested. The Board of Education should continue to be mindful of possible administrative savings and is requested to detail in its transmittal the steps it has taken that could mitigate the final amount needed.

Amendment No. 9: Allocates $4,192,000 for the Commission on the Arts and Humanities as proposed by the Senate instead of $3,692,000 as proposed by the House. The increase of $500,000 above the House allowance is for the Very Special Arts Program discussed under amendment number 7.

HUMAN SUPPORT SERVICES

Amendment No. 10: Appropriates $744,901,000 as proposed by the House instead of $745,665,000 as proposed by the Senate.

Department of Human Services—The conference action provides $616,555,000 as proposed by the House instead of $617,319,000 as proposed by the Senate. The conferees have deleted the $264,000 proposed by the Senate for a pilot project which would have provided housing and supportive services for mentally disabled mothers. The conferees do so without prejudice to the merits of such a program and encourage the Commission on Mental Health to assess the magnitude of the need in the District of Columbia and report to the Committees on Appropriations of the Senate and House of Representatives not later than December 31, 1988. This report should include the number of such mothers in the District as well as information on how these mothers and infants are currently cared for in the District.

The Committees will consider a supplemental or reprogramming request as early in fiscal year 1989 as the Commission on Mental Health and District government deem appropriate. The conferees have not approved the additional $500,000 proposed by the Senate for Project Volta. An appropriation of $990,000 was included in the District's fiscal year 1988 appropriations act for this project. The conferees have included bill language under "Human Support Services" in amendment number 29 making the $990,000 available solely for Project Volta and extending the availability of those funds until expended.

The conferees are concerned about cuts in the Handicapped Infant Intervention Project (HIIP). This is a program, similar to Project Volta in approach, which provides for early intervention for handicapped infants and toddlers up to age three. This is done through screening of high risk newborn infants for early recognition of mental retardation, minimal brain damage, and overall delay in development skills. The conferees share the concern expressed by others that without this program, deafness in many infants might go undetected and intervention might not occur. The conferees hope that ways can be found to minimize the impact of reductions on this program.

The conferees direct that $36,000 be disbursed within 15 days of the enactment of this Act to the Samaritans of Washington, a nonprofit, nonsectarian largely volunteer tax-exempt organization which operates a round-the-clock hotline to serve persons who are in despair or contemplating suicide. Since the Samaritans' hotline became operational in February 1986 the number of calls has increased from 300 a month to as many as 2,500 a month. The Samaritans' phones are staffed by 45 trained volunteers who are on duty approximately 1,500 hours each month. The cost effectiveness of this program is obvious.

Amendment No. 11: Deletes language proposed by the Senate concerning the payment of funds under amendment number 10 to Project Volta. The conferees did not approve the additional $500,000 proposed by the Senate for this project under amendment number 10.

PUBLIC WORKS

Amendment No. 12: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate, amended to read as follows:

In lieu of the matter proposed by said amendment insert the following: *: Provided further, That the Taxicab Commission shall report to the Committees on Appropriations of the Senate and House of Representatives by January 15, 1989 on a plan as outlined in Senate Report 100-162 to issue and implement regulations including but not limited to the age of vehicles, frequency of inspection, and cleanliness of vehicles*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees remain concerned about the pace of progress of the Taxicab Commission in reaching the goals set out in last year's conference report (House Report 100-498). At that time the conferees requested the submission of a report and stated:

"This report should include a timetable for consideration of a fair, equitable, nondiscriminatory fare structure based on time and mileage; consideration of taxicab vintage; a review of driver standards; a review of methods to provide better monitoring of the industry including the possibility of monthly insurance stickers; and a policy on the types of permitted radio operations."

The conferees are aware of the report of September 1, 1988 by the Taxicab Commission to the Committees which outlines plans for many of the items mentioned in last year's conference report. The conferees are pleased to note that some progress is being made, and continue to strongly believe that all of the information that the Commission should require ought to be available at this time. The conferees also strongly believe that the Commission, after receiving public comment, should take final action not later than January 1, 1989 on a vintage standard as well as on the other matters contained in the September 1, 1988 report, and report the results of that action to the Committees by January 15, 1989. In addition, the Commission is requested to include in its report a schedule for consideration of the other items mentioned in the above directive, including the frequency of taxicab inspections, the age of vehicles used as cabs, the condition of heating and air-conditioning systems, and the cleanliness of vehicles.

The conferees are also aware that the Commission intends to contract for a wide-ranging study of the taxicab industry in the Nation's capital. The conferees support this effort; however, the conferees are concerned about the length of time the study is proposed to take. One of the stated purposes of the study is another information about the economics of the industry to aid in setting rates. It does not seem that this data would be required to make a determination to whether or not the current zone fare system should be replaced by a system of meters. This is an important first step in progressing to a regional uniform taxicab system where fares are uniform and trip origin and destination barriers are removed.

MOTOR TRUCK SAFETY

The conferees note with concern that the District has not become a member of the Motor Carrier Safety Assistance Program (MCSAP). Currently, over 50 of 56 eligible jurisdictions are involved in this program which provides grants to jurisdictions which adopt the Federal Motor Carrier Safety Regulations and Hazardous Materials Regulations and provide their police with sufficient authority to enforce these regulations.

Currently, the District does not have the capacity to enforce regulations governing truck safety and the transportation of hazardous materials. The conferees note that the MCSAP program has been extremely successful in other jurisdictions, increasing annual roadside inspections of trucks from 30,000 in 1984 to over one million this year, and an expected 1.5 million in fiscal year 1989.

The MCSAP program provides Federal funds for training and hiring personnel and would be a direct benefit to the motoring public. By becoming a member of the MCSAP program, the District would greatly enhance the regional effort to ensure that trucks operating in the Washington Metropolitan Region are operating safely.

Accordingly, the conferees strongly encourage the District to join the MCSAP program and adopt local regulations and laws necessary to enforce the program. The conferees direct the District to report back to the House and Senate Committees on Appropriations no later than March 1, 1989, on the status of the District's efforts.

INAUGURAL EXPENSES

The conferees direct that $80,000 of the $2,300,000 appropriated for expenses that the District government expects in connection with the upcoming Presidential inauguration be allocated to the D.C. National Guard for expenses that it incurs in connection with the inauguration activities.

CAPITAL OUTLAY

Amendment No. 13: Appropriates $138,336,000 as proposed by the House instead of $148,336,000 as proposed by the Senate. The conferees have not approved the increase of $10,000,000 proposed by the Senate to finance the construction of the Federal City Communications Center on the campus of Catholic University.

Amendment No. 14: Deletes language proposed by the Senate concerning the availability of funds under amendment number 13 for the Federal City Communications Center. The conferees did not approve the funds proposed by the Senate under amendment number 13.

GENERAL PROVISIONS

Amendment No. 15: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits the use of Federal funds for abortions except to save the life of the mother or such medical procedures necessary for the victims of rape or incest which has been reported promptly to a law enforcement agency or public health service. The Senate amendment agreed to by the conferees also allows use of Federal funds for drugs and devices necessary to prevent implantation of the fertilized ovum and medical procedures necessary for the termination of an ectopic pregnancy. The House language prohibited the use of both local and Federal funds for abortions and allowed no exceptions. The Senate amendment is identical to language that has been carried in District of Columbia Appropriations Acts annually since fiscal year 1980.

Amendment No. 16: Deletes language proposed by the House and stricken by the Senate concerning the expenditure of funds in any workplace that is not free of illegal use or possession of controlled substances. The conferees strongly agree with the intent of the provision included by the House. However, the conferees have agreed to strike this language since this issue was addressed on a government-wide basis in Section 628 of the conference report for the Treasury-Postal Service and General Government Appropriations Act, 1989 (H.R. 4775; H. Rept. 100-881, pp. 33-34). Section 628 of that Act (Public Law 100-440) covers the District of Columbia as well as all Federal entities.

Amendment No. 17: Deletes language proposed by the House and stricken by the Senate concerning the District's residency requirement for employees. This matter is addressed under amendment number 24.

Amendment No. 18: Deletes language proposed by the Senate which would have provided a Federal loan guarantee in an amount not to exceed $20,000,000 to the Washington Center, a nonprofit corporation, for the construction of an educational housing facility.

Amendment No. 19: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

SEC. 135. (a) Section 11-1563(d), D.C. Code is amended—

(A) by inserting "or while receiving retirement salary under this subchapter but before having recouped all contributions," before "the lump-sum credit for retirement"; and

(B) by inserting "or the balance after deduction of retirement salary paid prior to death, if applicable," before "shall be paid,".

(b) The Mayor within 30 days after the enactment of this Act, shall engage an enrolled actuary, to be paid by the District of Columbia Retirement Board, and shall comply fully with the requirements of section 142(d) and section 144(d) of the District of Columbia Retirement Reform Act of 1979 (Public Law 96-122, D.C. Code, secs. 1-722(d) and 1-724(d)).

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate amendment agreed to by the conferees changes the section number and makes a technical correction to D.C. Code, sec. 11-1563(d) concerning the refund of retirement withholdings to judges of the District of Columbia courts. Currently, if a judge who has not elected to participate in the Survivor Annuity Program dies while in active service, the contributions made by the judge to the retirement system are returned to the named beneficiary or the judge's estate. In those cases where a retired judge has not yet recouped the contributions prior to death, there is no provision for a named beneficiary or the estate to recoup the remaining portion of the contributions. The language in Senate amendment number 19 corrects this inequity. The language also requires the Mayor to enagage an enrolled actuary to determine the financial effects of this change on the retirement fund and to comply fully with sections 142(d) and 144(d) of Public Law 96-122.

Amendment No. 20: Deletes language proposed by the Senate concerning the qualification requirements for retirement benefits for persons serving in the position of Executive Officer of the District of Columbia Courts. The proposed language sought to clarify the treatment for the Executive Officer of the District of Columbia Courts under circumstances where the Officer is involuntarily removed from office. Section 11-1703(c) of the District of Columbia Code states that "The Executive Officer shall receive the same compensation as an associate judge of the Superior Court."

The conferees ask that the courts bring back this proposal with a fuller explanation of the need for such clarification.

Amendment No. 21: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate, amended to read as follows:

In lieu of the matter proposed by said amendment, insert the following:

SEC. 136. (a) Within 30 days after the date of enactment of this Act, the United States, acting through a duly authorized official, shall convey to the District of Columbia without consideration, all right, title, and interest of the United States, in the real property described in subsection (b) (and any improvements thereon).

(b) The real property referred to in subsection (a) is that property (commonly known as the District of Columbia Employment Security Building at 500 C Street, Northwest) located in the District of Columbia in Square 491 described in a deed from the District of Columbia to the United States dated April 20, 1961, and recorded on April 26, 1961, as instrument number 11232 in liber 11589, folio 135 of the District of Columbia.

(c) If for any reason the District of Columbia should dispose of the real property described in subsection (b) (and any improvements thereon), such disposition shall be in accordance with procedures established by the Federal Department of Labor as are applicable to any of the 50 states.

SEC. 137. Section 147 of the Surface Transportation and Uniform Reallocation Assistance Act of 1987 (Public Law 100-17, approved April 2, 1987) is repealed.

SEC. 138. Notwithstanding Section 110 of this Act, appropriations in this Act shall not be available, during the fiscal year ending September 30, 1989, for the compensaiton of any person appointed to a permanent position in the District of Columbia government during any month in which the number of employees exceeds 38,512, the number of positions authorized by this Act.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference action inserts language to transfer title of the District's Employment Security Building located at 500 C Street, NW, to the District government. The General Accounting Office, in response to a request from the House and Senate Committees on Appropriations as to how ownership of title to the District's Employment Security Building might equitably be handled if the District were treated as if it were a state under the employment security program, has sent the Committees a letter dated September 14, 1988 stating that the building was paid for from appropriations for employment security grants, and that this use of the grants was consistent with the use of such grants by other states. The letter from the General Accounting Office further states that an official of the Federal Department of Labor told them that the District's Employment Security Building is the only instance they were aware of wherein a state did not hold legal title to similar employment services program property.

The site was originally titled to the District of Columbia and was transferred to the Federal government in April 1961 at no cost. It should be noted that before the District received Home Rule in 1973, the Federal government provided a myriad of municipal services to the District. In a letter dated January 29, 1959 from Robert E. McLaughlin, President of the Board of Commissioners of the District of Columbia, to James E. Dodson, Administrative Assistant Secretary of the Federal Department of Labor, Mr. McLaughlin, in outlining the conditions of the site transfer, stated "... it is hoped that this structure will ultimately become District property ..." (see letter submitted for the record in hearings on the District's fiscal year 1989 budget held on May 10, 1988, before the House Subcommittee on District of Columbia Appropriations, part 1, pp. 410-411).

The conferees have also included language in subsection (c) to ensure that the District abides by procedures established by the Federal Department of Labor in the event the District disposes of the property. These procedures were developed by the Federal Department of Labor for the disposal of facilities used in the various States' Employment Security Agencies Program (SESA). It is the express intent of the conferees that the District of Columbia be treated in the same manner as any of the 50 states.

The conferees have also approved a new section 127 which repeals Section 147 of Public Law 100-17, the Surface Transportation and Uniform Reallocation Assistance Act of 1987. Section 147 was included by the House as part of Public Law 100-17 when the Commonwealth Transportation Board, Commonwealth of Virginia refused to make certain adjustments in the High Occupancy Vehicle (HOV) restrictions on the I-95/I-395 facilities (the Shirley Highway express lanes)—adjustments which would have improved the ingress/egress of the high volume of traffic moving in and out of Washington, D.C. The conferees have been advised that an agreement has since been reached with the Commonwealth Transportation Board whereby in return for repeal of Sec. 147, the state will lower HOV requirements from four persons per vehicle to three persons per vehicle; will keep open to all traffic the Pentagon HOV-lanes access ramp (Ramp G) for as long as is practical; will maintain the current 6:00 p.m. time at which the express lanes are open to all traffic; and will institute certain improvements in HOV-restriction enforcement procedures and programs. These changes will go into effect in January 1989. The language agreed to by the conferees has been cleared with the chairman and ranking member of the Subcommittee on Surface Transportation of the House Committee on Public Works and Transportation .

The conferees have also approved a new section 138 which increases the employment ceiling in section 110 from 38,471 to 38,512. The increase of 41 reflects the changes for the D.C. Superior Court and the Court System agreed to by the conferees.

Amendment No. 22: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate amended to read as follows:

In lieu of the matter proposed by said amendment, insert the following:

SEC. 139. (a) Up to 118 officers or members of the Metropolitan Police Department who were hired before February 14, 1980, and who retire on disability before the end of calendar year 1989 shall be excluded from the computation of the rate of disability retirement under subsection 145(a) of the District of Columbia Retirement Reform Act, as amended, approved September 30, 1983 (97 Stat. 727; D.C. Code, sec. 1-725(a)), for purposes of reducing the authorized Federal payment to the District of Columbia Police Officers and Fire Fighters' Retirement Fund pursuant to subsection 145(c) of the District of Columbia Retirement Reform Act.

(b) The Mayor, within 30 days after the enactment of this Act, shall engage an enrolled actuary, to be paid by the District of Columbia Retirement Board, and shall comply with the requirements of section 142(d) and section 144(d) of the District of Columbia Retirement Reform Act of 1979 (Public Law 96-122, D.C. Code, secs. 1-722(d) and 1-724(d)).

(c) If any of the 118 light duty positions that may become vacant under subsection (a) are filled, a civilian employee shall be hired to fill that position.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference action allows for the retirement of not to exceed 118 police officers and states that their retirements are to be excluded from the computation of the rate of disability retirement under subsection 145(a) of the District of Columbia Retirement Reform Act of 1979 (Public Law 96-122). This rate of disability retirements is used to determine whether to reduce the authorized Federal payment to the Police Officers and Firefighters' Retirement Fund. Testimony from the Mayor and the Chief of Police indicated that a number of officers are in a limited or light duty status or on extended sick leave. The police chief stated that it is important to replace these individuals with able-bodied police officers who can perform on the street.

Prior to the enactment of subsection 145(a) of Public Law 96-122, there was concern that the District's retirement system was being abused with excessive disability retirements. In some years, disability retirements accounted for 99 percent of all police and fire retirements. In order to address the situation, the Congress approved subsection 145(a) as part of the District's Retirement Reform Act to provide some incentive to District managers to reduce the percentage of disability retirements. The conferees believe the District has responded favorably and has included this language which will allow these individuals to retire without reducing the authorized Federal payment to the retirement funds and will permit the Metropolitan Police Department to hire police officers to fill the vacated positions. The conferees direct that these retirements, while exempt from the computation of the rate of disability retirements, be subject to all of the rules and regulations of the District's Board of Surgeons as well as the Policemen and Firemen's Retirement and Relief Board and meet all of the criteria for retirement.

The language agreed to by the conferees requires the Mayor to engage an enrolled actuary to determine the financial effects of this change on the retirement fund and to comply fully with sections 142(d) and 144(d) of Public Law 96-122. The language also requires that if any of the 118 positions that may become vacant because of retirements under subsection (a) are filled, a civilian employee shall be hired to fill that position. The objective of this section is to ensure that the objectives of the Mayor and the Metropolitan Police Chief to hire more able bodied officers for street duty are carried out.

Amendment No. 23: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows for the operation of a home for the dying poor, including those with AIDS. The conference action is consistent with a unanimous ruling by the District's five-member Board of Zoning Adjustment on September 7, 1988, which granted the home a zoning exemption so that it can operate as a community residential facility. This action by the conferees will ensure the continued operation of this much-needed facility for homeless AIDS patients at no cost to District taxpayers.

Amendment No. 24: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate amended to read as follows:

In lieu of the matter proposed by said amendment, insert the following:

Sec. 141. (a) If by May 1, 1989, the District of Columbia government has not adopted, and implemented no later than September 30, 1989, a preference system that does not preclude the hiring of noncity residents, none of the funds provided or otherwise made available by this Act may be used to pay the salary or expenses of any officer, employee, or agent who is engaged in implementing, administering, or enforcing a District of Columbia residency requirement with respect to employees of the Government of the District of Columbia.

(b) After the date of enactment of this section, the District shall not dismiss any employees currently facing adverse job action for failure to comply with the residency requirement.

The managers on the part of the Senate will offer a motion to concur in the amendment of the House to the amendment of the Senate.

The conference action requires the District to adopt by May 1, 1989, and to implement by September 30, 1989, a hiring preference system that allows for the hiring of non-city residents as proposed by the Senate. The conferees have also agreed to prohibit the use of any funds, rather than just Federal funds as proposed by the Senate, to implement, administer or enforce the residency law if either the date for adoption or the date for implementation is not met. The conferees have also agreed to language which prohibits the District from dismissing any employees for failure to comply with the residency requirement.

Amendment No. 25: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate requiring that all fiscal year 1989 pay raises be absorbed within the levels appropriated in this Act. With the adoption of this language, there will not be any additional Federal funds appropriated to finance any pay raises that the District government may provide to employees during fiscal year 1989. This provision applies only to Federal funds and does not apply to local District funds which are not included in the Federal scorekeeping process.

Amendment No. 26: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate amended to read as follows:

In lieu of the matter proposed by said amendment, insert the following:

Sec. 143. None of the Federal funds appropriated by this Act shall be obligated or expended after December 31, 1988, if on that date the District of Columbia has not repealed District of Columbia Law 6-170, the Prohibition of Discrimination in the Provision of Insurance Act of 1986 (D.C. Law 6-170), or amended the law to allow testing for the human immunodeficiency virus as a condition for acquiring all health, life and disability insurance without regard to the face value of such policies. Eligibility for coverage and premium costs shall be determined in accordance with ordinary practices.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The language agreed to by the conferees prohibits the use of Federal funds by the District government after December 31, 1988, if the District has not repealed D.C. Law 6-170, the Prohibition of Discrimination in the Provision of Insurance Act of 1986, or adopted amendments to the Act to allow the testing of individuals as a basis for purchasing all health, life and disability insurance without regard to the face value of the policy. It also provides that eligibility for coverage and premium costs will be determined in accordance with ordinary practices.

Amendment No. 27: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires the mandatory reporting of individual abortions for statistical purposes.

Amendment No. 28: Reported in disagreement.

TITLE II—FISCAL YEAR 1988 SUPPLEMENTAL APPROPRIATIONS

DISTRICT OF COLUMBIA FUNDS

Amendment No. 29: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate amended to read as follows:

In lieu of the matter proposed by said amendment, insert the following:

TITLE II—FISCAL YEAR 1988

SUPPLEMENTAL APPROPRIATIONS

DISTRICT OF COLUMBIA FUNDS

GOVERNMENTAL DIRECTION AND SUPPORT

(INCLUDING RESCISSION)

For an additional amount for "Governmental direction and support", $2,168,000: Provided, That of the funds appropriated under this heading for fiscal year 1988 in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c); 101 Stat. 1329-91 to 1329-92), $3,525,000 are rescinded.

ECONOMIC DEVELOPMENT AND REGULATION

(INCLUDING RESCISSION)

For an additional amount for "Economic development and regulations", $143,000: Provided, That of the funds appropriated under this heading for fiscal year 1988 in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c); 101 Stat. 1329-92), $15,779,000 are rescinded.

PUBLIC SAFETY AND JUSTICE

(INCLUDING RESCISSION)

For an additional amount for "Public safety and justice", $33,253,000: Provided, That of the funds appropriated under this heading for fiscal year 1988 in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c); 101 Stat. 1329-92 to 1329-93), $2,000 are rescinded.

PUBLIC EDUCATION SYSTEM

(INCLUDING RESCISSION)

For an additional amount for "Public education system", $13,900,000 which shall be allocated for the public schools of the District of Columbia: Provided, That of the funds appropriated under this heading for fiscal year 1988 in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c); 101 Stat. 1329-93 to 1329-94), $210,000 for the District of Columbia School of Law, $549,000 for the Public Library, and $355,000 for the Commission on the Arts and Humanities are rescinded.

HUMAN SUPPORT SERVICES

(INCLUDING RESCISSION)

For an additional amount for "Human support services", $24,467,000: Provided, That of the funds appropriated under this heading for fiscal year 1988 in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-

202, sec. 101(c); 101 Stat. 1329-94), $8,578,000 are rescinded: Provided further, That an additional $2,545,000, to remain available until expended, shall be available solely for the District of Columbia employees' disability compensation: Provided further, That the $990,000 appropriated in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c)) shall be solely for Project Volta and shall remain available until expended: Provided further, That $746,054 in funds made available to the District of Columbia pursuant to the Employment Security Administrative Financing Act of 1954, approved August 5, 1954 (68 Stat. 668; 42 U.S.C. 1103), shall be appropriated for the purpose of providing $39,210 toward the purchase of an optical character reader and $706,844 to pay unemployment insurance staff salaries and benefits: Provided further, That the $746,054 referred to in the preceding proviso shall be withdrawn and expenses incurred after the enactment date of this Act and shall not be available for obligation after the close of a 12-month period which begins on the date of the enactment of this Act.

PUBLIC WORKS

(INCLUDING RESCISSION)

For an additional amount of "Public works", $2,783,000: Provided, That of the funds appropriated under this heading for fiscal year 1988 in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c); 101 Stat. 1329-94), $2,625,000, including $241,000 from the school transit subsidy are rescinded.

REPAYMENT OF LOANS AND INTEREST

(RESCISSION)

Of the funds appropriated under this heading for fiscal year 1988 in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c); 101 Stat. 1329-95), $1,005,000 are rescinded.

REPAYMENT OF GENERAL FUND DEFICIT

For an additional amount for "Repayment of general fund deficit", $118,000.

OPTICAL AND DENTAL BENEFITS

For an additional amount for "Optical and dental benefits", $1,080,000.

PERSONAL SERVICES

For "Personal services", for pay increases and related costs, to be transferred by the Mayor of the District of Columbia to the various appropriation titles for fiscal year 1988 from which employees are properly payable, $34,150,000, which includes a 12 percent pay absorption to be apportioned among the various appropriations titles by the Mayor.

ADJUSTMENTS

Of the funds appropriated under the various appropriation titles in the District of Columbia Appropriations Act, 1988, approved December 22, 1987 (Public Law 100-202, sec. 101(c); 101 Stat. 1329-90 to 1329-104), $911,000, as determined by the Mayor, are rescinded.

CAPITAL OUTLAY

For an additional amount for "Capital outlay", $6,340,000, to remain available until expended.

WATER AND SEWER ENTERPRISE FUND

For an additional amount for "Water and sewer enterprise fund", $39,750,000, of which $8,385,000 shall be apportioned and payable to the debt service fund for repayment of loans and interest incurred for capital improvement projects and $31,365,000 shall be for pay-as-you-go capital projects, of which $10,500,000 shall be for new capital project authority for fiscal year 1988 and $20,865,000 shall be for prior-year capital project authority.

For an additional amount for construction projects, $10,500,000, as authorized by an Act authorizing the laying of water mains and service sewers in the District of Columbia, the levying of assessments therefor, and for other purposes, approved April 22, 1904 (33 Stat. 244; Public Law 58-140; D.C. Code, sec. 43-1512 et seq.).

LOTTERY AND CHARITABLE GAMES ENTERPRISE FUND

For an additional amount for "Lottery and charitable games enterprise fund", $764,000.

GENERAL PROVISIONS

SEC. 201. Nothwithstanding any other provision of law, appropriations made and authority granted pursuant to this title shall be deemed to be available for the fiscal year ending September 30, 1988.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference action inserts a new "Title II" and heading for fiscal year 1988 supplemental appropriations as proposed by the Senate and appropriates $135,877,000 instead of $103,938,000 as proposed by the Senate. There are no Federal funds involved in this supplemental; it is funded entirely with increases in local revenue collections above the level projected at the time the District's regular appropriations bill for fiscal year 1988 was considered and approved by the Congress. The District government submitted three separate supplemental requests; none of which was submitted in time to be considered by the House and only one was submitted in time to be considered by the Senate. The three supplemental requests total $180,877,000 and consist of a net increase of $103,938,000 submitted in House Document 100-188, a net increase of $31,939,000 submitted in House Document 100-223, and $45,000,000 in capital budget authority also submitted in House Document 100-223. The increase of $31,939,000 recommended by the conferees above the Senate allowance reflects the second supplemental request. The conferees have denied without prejudice $45,000,000 in additional capital budget authority submitted as the District's third supplemental request. This item is discussed later in this report under the heading "capital outlay".

GOVERNMENTAL DIRECTION AND SUPPORT

The conference action recommends the appropriation of an additional $2,168,000 and rescinds $3,525,000 for a net decrease of $1,357,000 as proposed by the Senate for the appropriation account "Governmental direction and support". A brief description of the conferees' recommendations by office follows:

Office of the Secretary—The conference action provides an additional $117,000 consisting of $27,000 to provide staff for the newly-established controller's unit, and $150,000 to cover the cost of automating the records of the Office of Public Records.

Office of Communications—The conference action provides an additional $32,000 for contractual services and printing costs for publishing and disseminating general information to the public and $7,000 for computer equipment to upgrade and enhance the office's computer system.

Office of Intergovernmental Relations—The conference action provides an additional $559,000 including increases of $162,000 for underfunded positions, $29,000 for office supplies, $22,000 for communications costs, $188,000 for other services and charges, and $158,000 for computer equipment.

Office of Personnel—The conference action rescinds $1,043,000 consisting of $789,000 in personal services due to attrition, position vacancy management, termination of term appointments and curtailment of paid overtime and $254,000 due to reducing the publication and mailings of job bulletins, shared computer usage and executive recruitment costs.

Department of Administrative Services—The conference action provides a net increase of $1,194,000 consisting of an increase of $2,000,000 for increased space rental costs for leased facilities, a rescission of $688,000 in personal services due to underspending resulting from maintaining vacant positions and restructuring positions downward to the entry level as they become vacant and a rescission of $118,000 due to an across-the-board reduction in contractual services.

Deputy Mayor for Finance—The conference action rescinds $52,000 due to savings from positions remaining vacant.

Office of the Budget—The conference action rescinds $139,000 due to position vacancy management and $44,000 due to printing fewer budgets and a reduction in office supplies.

Office of Financial Management—The conference action rescinds $1,700,000 consisting of $700,000 due to a delay in purchasing a laser printer and upgrading the hardware and software for the Share Computer Center and $1,000,000 due to a decrease in contractual services for upgrading various programs.

Department of Finance and Revenue—The conference action rescinds $537,000 consisting of $427,000 due to delays in filling vacant positions and $110,000 due to delays in the purchasing of equipment.

Office of Campaign Finance—The conference action provides an additional $189,000 consisting of $150,000 to provide full funding for current on-board staff and $39,000 to cover the cost of upgrading the computer system.

Office of Employee Appeals—The conference action provides an additional $10,000 for board members' compensation due to an increase in the number of board meetings in order to reduce the backlog in the number of appeals.

Commission on Baseball—The conference action rescinds $10,000 in other services and charges for the promotion of baseball in the District.

ECONOMIC DEVELOPMENT AND REGULATION

The conference action recommends the appropriation of an additional $143,000 and rescinds $15,779,000 for a net decrease of $15,636,000 instead of an additional $143,000 and rescissions of $11,279,000 for a net decrease of $11,136,000 as proposed by the Senate. A brief description by office follows:

Office of the Deputy Mayor for Economic Development—The conference action rescinds $178,000 due to a delay in filling vacant positions in the Office of Banking.

Office of Planning—The conference action rescinds $193,000 due to a delay in filling vacant positions.

Department of Housing and Community Development—The conference action rescinds $3,150,000 as follows: $150,000 in the Mortgage Default Prevention Program,

$2,300,000 in the Citywide Home Purchase Assistance Program, and $700,000 in the Ward 8 Purchase Assistance Program. These rescissions are being made because carryover funds are available for these programs from fiscal year 1987. The conference action also recommends rescissions of $4,500,000 requested in the second supplemental due to certificate holders in the Tenant Assistance Program not being able to find housing during fiscal year 1988.

Department of Employment Services—The conference action rescinds $2,441,000 as follows: $900,000 due to revised projections in the number of participants in the Adults-With-Dependents Program, $681,000 due to revised projections in the number of participants in the Training/Retraining Program, and $860,000 due to the postponed implementation of the Teen PREP Program until fiscal year 1989.

Office of Business and Economic Development—The conference action provides an additional $83,000 for the Commercial Development Assistance Program for loans to start up businesses along the commercial corridors in Ward 8 and rescinds $1,312,000 consisting of $54,000 in personal services due to savings through attrition and delays in hiring, $1,000,000 in the Business Purchase Assistance Program due to the availability of carryover funds from previous fiscal years, $200,000 in the Economic Development Finance Corporation due to the level of private investment in the corporation and $58,000 from positions no longer needed which were created to help implement the Economic Development Finance Corporation.

Minority Business Opportunity Commission—The conference action rescinds $69,000 due to lower than anticipated personal services costs and $68,000 due to the deferral of the preparation of audio/visual displays for community outreach efforts and the purchase and maintenance of equipment.

Housing Finance Agency—The conference action rescinds $69,000 due to positions remaining vacant longer than anticipated and $400,000 due to delays in implementing the Mortgage Loan Guarantee Program which is still in the development stage.

Board of Appeals and Review—The conference action rescinds $10,000 due to personal services costs being less than originally budgeted.

Board of Equalization and Review—The conference action rescinds $35,000 in personal services due to a delay in upgrading staff positions.

Department of Consumer and Regulatory Affairs—The conference action provides an additional $160,000 and 12 positions and rescinds $3,572,000 for a net decrease of $3,412,000. Additional funds are provided for the implementation of the Alcoholic Beverage Control Amendment Act, D.C. Law 6-217, which requires a comprehensive overhaul of the regulation of alcoholic beverage control licensing in the District. Rescissions of $1,357,000 due to delays in filling vacant positions and $2,215,000 due to a reduction in spending for the Abatement of Nuisances Program, the ADP program and equipment purchases.

Public Service Commission—The conference action rescinds $25,000 due to delays in filling positions in the securities regulation area.

Office of the People's Counsel—The conference action provides an additional $39,000 to fully fund on-board staff and $104,000 for space rental costs and legal analysis expenses.

PUBLIC SAFETY AND JUSTICE

The conference action recommends the appropriation of an additional $33,253,000 and rescinds $2,000 for a net increase of $33,251,000 for the appropriation account "Public safety and justice" as proposed by the Senate. A brief description of the conferees recommendations follows:

Metropolitan Police Department—The conference action provides an additional $9,468,000 consisting of $7,080,000 for the increased costs of night differential, terminal leave, holiday pay, and longevity pay, $388,000 for 38 additional police officers and associated overtime for anti-drug enforcement efforts and $2,000,000 for software development and licensing and maintenance contracts for both computer software hardware.

Fire Department—The conference action provides an additional $9,117,000 which includes $5,665,000 for additional overtime; $565,000 for employee health benefits; $406,000 for self-contained underwater breathing apparatus and training; $440,000 to upgrade 11 units to advance life-support ambulances; $204,000 for paramedic physical examinations; and $150,000 for the paramedic recruitment program. Other increases approved by the conferees include $250,000 and 32 paramedic positions to convert the Emergency Ambulance Service to advanced life support service; $436,000 for ambulance and first aid supplies; $504,000 for development of promotional and entrance examinations; $90,000 for outside medical costs; $352,000 for communications equipment and maintenance vehicles; $30,000 for a medical physician position; and $25,000 for personal computers for the recently established Emergency Ambulance Bureau.

Court of Appeals—The conference action provides an additional $120,000 for the judicial pay raise and the senior judges' pay differential in accordance with Public Law 99-190.

Superior Court—The conference action provides an additional $510,000 for the judicial pay raise and the senior judges' pay differential in accordance with Public Law 99-190.

D.C. Court System—The conference action provides an additional $8,000 for the Executive Officer's pay adjustment and $1,265,000 for Criminal Justice Act Program fees. The conferees have also approved three positions for the Equal Employment Opportunity Office. The cost of these positions will be absorbed by the Court System.

Office of the Corporation Counsel—The conference action provides an additional $1,061,000 and 26 positions and rescinds $100,000. The increases include $344,000 for the new Contract Appeals Board, $148,000 for new term full-time positions for the Civil Division to reduce the backlog in cases, $178,000 for support of St. Elizabeths Hospital functions, $135,000 for asbestos litigation, $166,000 for the Juvenile Diversion Program and $90,000 for expert witnesses, depositions, transcripts, terminal leave, library books, and the Citizens' Complaint Center.

Settlements and Judgments—The conference action provides an additional $3,060,000 consisting of $1,530,000 for out-of-court settlements of claims and suits and $1,530,000 for payment of judgments.

Public Defender Service—The conference action provides an additional $25,000 for an improved telephone system, $24,000 for staff support to the Superior Court Single Representation Program, and $9,000 for litigation services in support of the Civil Legal Services Program.

Pretrial Services Agency—The conference action provides an additional $142,000 for the Juvenile Drug Testing Program.

Department of Corrections—The conference action provides an additional $8,012,000 consisting of $2,500,000 for unfunded care factor costs, $2,511,000 for D.C. Code violators housed in other facilities, $1,301,000 for the medical contract at the several detention facilities, $525,000 for the Drug Abatement Program, and $1,175,000 for management of the increasing prison population.

Board of Parole—The conference action provides an additional $115,000 and two positions for expansion of the Board from three to five members and $47,000 for increased office security.

Office of Emergency Preparedness—The conference action provides an additional $300,000 and 11 positions to cover costs in the Executive Command and Communications Center previously funded by intra-District agreements with various District agencies.

Commission on Judicial Disabilities and Tenure—The conference action rescinds $2,000 due to the deferral of the purchase of a computer software package.

Law Revision Commission—The conference action provides an additional $18,000 for underfunded commissioners' stipends.

Office of Criminal Justice Plans and Analysis—The conference action provides a net increase of $52,000 including an increase of $160,000 and rescissions of $108,000. The increase of $160,000 is for use by the Civilian Complaint Review Board to eliminate the backlog of cases. The rescission of $108,000 is due to the delay in filling vacant positions.

PUBLIC EDUCATION SYSTEM

The conference action recommends the appropriation of an additional $13,900,000 and rescinds $1,114,000 for a net increase of $12,786,000 for the appropriation account "Public education system" instead of an additional $10,000,000 and rescission of $1,114,000 for a net increase of $8,886,000 as proposed by the Senate. A brief description of the amount recommended by agency follows:

Board of Education (Public Schools)—The conference action provides an additional $10,000,000 to support the fiscal year 1988 increase for teachers' salary adjustments. The conference action also provides an additional $3,900,000 requested in the District's second supplemental request for other regular pay purposes.

District of Columbia Law School—The conference action rescinds $210,000 due to lower than anticipated costs for personal services and contractual services.

Public Library—The conference action rescinds $579,000 and deletes four positions and provides an additional $30,000 for four security guards at branch libraries. The recissions consist of $290,000 due to projected savings in energy $115,000 due to deferring carpet and vehicle purchases, $95,000 due to a delay in the opening of the new Shephard Park Branch Library, and $79,000 due to various miscellaneous cost-saving measures.

Commission on the Arts and Humanities—The conference action rescinds $355,000 consisting of $20,000 due to a decrease in the funding level for the Capital Children's Museum, $190,000 due to a slow-down in program expansion, $30,000 due to a reduction in cultural arts research and assessment, and $115,000 due to a decrease in program maintenance and delays in implementing new programs.

HUMAN SUPPORT SERVICES

The conference action recommends an additional appropriation of $24,467,000 rescinds $8,578,000 for a net increase of $15,889,000 for the appropriation account "Human support services" instead of an additional $2,550,000 and rescissions of $18,361,000 for a net increase of $15,811,000 as proposed by the Senate. A brief summary by agency follows:

Department of Human Services—The conference action provides an additional $37,072,000 and rescinds $49,355,000 for a net decrease of $12,283,000. The increase of $37,072,000 includes the following: $4,000,000 to cover unbudgeted costs in rent, communications, and energy, $4,782,000 to implement the Comprehensive Homeless Plan, $8,000,000 for the Foster Care Program, $5,600,000 for the implementation of the Jerry M. Consent Decree requirements, $2,000,000 for the Day Care Program, $2,000,000 for the Emergency Assistance Program, $1,200,000 for PCP Clinics, $150,000 to increase the hourly rate of homemaker and chore aides, $1,800,000 for specialized home care and respite services, $900,000 for the Randolph-Sheppard Vending Program, $1,000,000 to reinstate the three percent reimbursement increase for hospitals, and $2,550,000 for drug abuse prevention and treatment services. The conferees also recommend increases of $1,024,000 to implement the Nursing Assignment Act of 1987, $656,000 for the Cancer and Teenage Pregnancy Prevention Program, and $1,410,000 for compliance with the State Medicaid Plan and replacement of equipment. The rescission of $49,355,000 consists of the following: $14,478,000 from administrative savings, $6,322,000 because of a limitation on new hires to fill non-critical positions, $10,041,000 as a result of program adjustments and resizing measures, $12,800,000 as a result of increased revenue collections enhancements, $4,558,000 due to delays in filling vacant positions, $500,000 in the Youth Services Administration due to lower than anticipated inflationary cost estimates, and $656,000 in rental costs of the Preventive Health Services Administration due to lower actual costs.

The conference action also provides an additional $34,200,000 requested in the second supplemental request (H. Doc. 100-223) as follows: (1) $7,606,000 for personal services to fill critical and essential vacant positions, (2) $50,000 for regulatory and legislative services, (3) $659,000 for necessary funding for personal services contracts, (4) $49,000 for the required 100% match for the State Student Incentive Grant Program, (5) $500,000 to upgrade the Office of Information Systems computer capability, (6) $426,000 for relocation costs of the Office of Information Systems to make room for the Department of Corrections Treatment Facility, (7) $19,000 for additional court reporter services to provide legally mandated verbatim transcripts of hearings, (8) $70,000 to purchase computer equipment, (9) $100,000 for administrative support costs in the Office of Inspection and Compliance, (10) $4,088,000 to cover increased costs of emergency shelter for families and other homeless persons, (11) $6,212,000 for the foster care program, (12) $4,978,000 for increases in the costs of settlements of prior years' services, (13) $3,765,000 for increased inpatient and outpatient services at D.C. General Hospital, increased home health care services, and day treatment programs for the mentally retarded and frail elderly, (14) $2,157,000 for increases in mandated and uncontrollable costs of services, and (15) $3,521,000 for increases in contractual services in the Commission on Mental Health.

The conferees have deleted, without prejudice, language allocating $400,000 in fiscal year 1988 and $264,000 in each of the fiscal years ending September 30, 1989, September 30, 1990, and September 30, 1991, for the operation of a residential facility for mentally-disabled mothers and their infants. The subject is addressed earlier in this report under amendment number 10 under the side heading "Department of Human Services".

The conferees have included bill language providing that the $990,000 appropriated in the District's fiscal year 1988 appropriations act be solely for Project Volta and remain available until expended. Project Volta is a joint project of the District and the Alexander Graham Bell Association for the Deaf for early detection and intervention of hearing impaired children in the District of Columbia.

Department of Recreation—The conference action rescinds $1,077,000 consisting of $399,000 due to a reduction in the use of school custodians, $72,000 due to a reduction in the hours of operation for recreation centers and playgrounds, $514,000 due to a reduction in funding for various programs, and $92,000 due to a reduction in nonpersonnel services, terminal leave and leaving two positions vacant.

Office on Aging—The conference action rescinds $1,239,000 consisting oif $1,086,000 due to a delay in the construction of the multi-purpose senior centers, $125,000 due to a delay in the implementation of the Later Life Learning Resouce Center, and $28,000 due to a delay in filling new positions authorized in fiscal year 1988.

D.C. General Hospital—The conference action rescinds $3,500,000 due to management improvements that have increased operational efficiency and improved the hospital's ability to more accurately estimate revenue and to bill and collect that revenue. The conference action also rescinds an additional $21,500,000 contained in the second supplemental request (H. Doc. 100-223) due to improved revenue generation and the transfer of equipment repair and purchase authority from the operating budget to the capital improvements program.

Disability Compensation Fund—The conference action provides an additional $2,545,000 consisting of $2,200,000 for benefit payments due to a cost of living adjustment of 4.2 percent and $345,000 for medical services due to an increase in medical billings.

Office of Human Rights—The conference action rescinds $98,000 and deletes two positions due to a decrease in personal services resulting from positions remaining vacant and $30,000 due to the deferral of the purchase of furniture, equipment and consultant services.

Office on Latino Affairs—The conference action rescinds $13,000 due to a decrease in the purchase of office supplies and equipment and $121,000 due to savings in the Latino Initiative Program due to the lengthy recruitment efforts required to find qualified bilingual personnel.

Energy Office—The conference action provides an additional $5,000 to support the Gasoline Advisory Board established by the Retail Service Station Act of 1976.

PUBLIC WORKS

The Committee recommends an additional appropriation of $2,783,000 and rescinds $2,625,000 for a net increase of $158,000 for the appropriations account "Public works" instead of rescissions of $6,293,000 as proposed by the Senate. A brief summary by agency follows:

Department of Public Works—The conference action provides an increase of $2,098,000 and rescinds $4,650,000 for a net decrease of $2,552,000. The increases approved by the conferees are as follows: $15,000 for the Eastern Market renovation project, $35,000 for the Hazardous Material Study Commission, $30,000 for training programs for blue-collar workers, $676,000 for department-wide rental costs, $125,000 to establish the Office of the Litter and Solid Waste Reduction Commission, $30,000 for the Roadway and City Gateway Beautification Program, $183,000 for electrical energy, $50,000 to establish the Bureau of Recycling and Resource Recovery, and $954,000 for the Residential Parking Permit Program. The rescission of $4,650,000 consists of $1,640,000 due to reduction in personal services cost resulting from leaving positions vacant, $100,000 due to delaying the study to consolidate and link the existing independent data bases for motor vehicle registrations, motor vehicle operator permits, insurance, and traffic tickets, $690,000 due to a department-wide reduction in overtime costs, $100,000 due to a reduction in streetlight and traffic signal electrical energy due to lower fuel costs, $960,000 due to a reduction in streetlight operations and maintenance due to postponing the conversion of streetlights to sodium vapor, $200,000 due to a reduction in contractual park maintenance, and $308,000 due to a reduction in building maintenance. The conferees also recommend rescissions of $127,000 due to a reduction in the mechanical alley cleaning program, $100,000 due to a reduction in underpass electrical testing, $225,000 due to a reduction in the purchase of supplies, vehicle inspection stickers, and contractual services, and $200,000 due to a reduction in the gateway beautification project, public space maintenance and the delay in purchasing a new filing system for the Adjudication Processing Division.

The conference action provides an additional $4,935,000 contained in the second supplemental request (H. Doc. 100-223) consisting of $1,455,000 for snow removal and $3,480,000 for increased dump fee costs at the Lorton landfill.

Department of Public Works (Pay-As-You-Go Capital)—The conference action rescinds $2,384,000 as requested in the second supplemental (H. Doc. 100-233) due to postponement until fiscal year 1989 of the purchase of selected large items of equipment such as packers, sweepers, and dump trucks.

Washington Metropolitan Area Transit Authority—The conference action rescinds $3,500,000 due to a credit resulting from the fiscal year 1987 audit which will be used to offset the District's fiscal year 1988 operating subsidy. The conference action recommends the rescission of $3,254,000 requested in the second supplemental (H. Doc. 100-223) due to increased revenues from ridership growth. The conference action provides an increase of $7,154,000 requested in the second supplemental consisting of $6,644,000 for Metrobus Operations due to increased bus costs, lower audit adjustment credits, and reduced Federal operating grants, and $510,000 for rail construction management due to accelerated rail construction on the Green, Red, and Yellow lines.

School Transit Subsidy—The conference action rescinds $241,000 due to lower-than-anticipated student ridership.

REPAYMENT OF LOANS AND INTEREST

The conference action recommends an additional $3,469,000 as proposed by the Senate for debt service on the District's outstanding long-term capital debt which is higher than previously estimated. As a result, the District will be required to borrow capital funds in mid-spring rather than early summer as planned, and thus incur additional debt service costs.

The conference action rescinds $4,474,000 contained in the second supplemental request due to lower than anticipated interest costs on the new capital funds bond issue.

REPAYMENT OF GENERAL FUND DEFICIT

The conference action appropriates an additional $118,000 as proposed by the Senate for repayment of the District's accumulated general fund deficit.

OPTICAL AND DENTAL BENEFITS

The conference action appropriates an additional $1,080,000 as proposed by the Senate for optical and dental payments for District employees based on the increase in the number of claims.

PERSONAL SERVICES

The conference action appropriates an additional $34,150,000 for the estimated costs of employee pay raises instead of $34,377,000 as proposed by the Senate. These raises represent an increase of approximately 4 percent for police officers, an average increase of 9.66 percent for registered nurses and a 3 percent or $1,000 base increase, whichever is higher, for most other employees.

ADJUSTMENTS

The conference action recommends approval of an unallocated rescission of $911,000 requested in the second supplemental (H. Doc. 100-223) to be taken from various appropriation titles as determined by the Mayor.

CAPITAL OUTLAY

The conference action recommends an additional appropriation of $6,340,000 as proposed by the Senate for the "Capital Outlay" appropriation account. The conference allowance consists of $540,000 for the purchase of a structure to house a halfway house for women, and $5,800,000 to purchase equipment and make renovations at D.C. General Hospital. The conferees have deferred, without prejudice, the additional capital borrowing authority of $45,000,000 for an 800-bed Correctional Housing Development project at Lorton, Virginia, requested in the District's third supplemental request submitted in H. Doc. 100-223.

The proposed additional capacity continues the District's efforts to expand prison capacity to catch-up with rapidly increasing prison population. Since 1974, the year before Home Rule, the District has expanded jail capacity by more than 104 percent and Lorton capacity by approximately 97 percent, yet facilities are more overcrowded than they were a decade ago. The District is also faced with court orders that limit the number of inmates at the jail to 1,694, which is 22 percent above its original design capacity. Courts have also placed a population limitation on the Central Facility at the Lorton Complex.

The District has responded by proposing an 800 bed Correctional Treatment Facility (CTF) in Southeast Washington; 230 halfway house beds in the District; and the proposed 800 bed expansion at Lorton. As responsive as these plans are, there needs to be a more coordinated and comprehensive review of the District's prison capacity needs. In Senate Report 99-367, dated August 5, 1986, the following suggestion was included:

"The department of Corrections should begin to undertake a department-wide analysis of its current prison space. More than one-half of the capacity at the Lorton complex is contained in buildings that are 60 years old or older. During testimony March 26, 1986, the Council Chairman suggested a comprehensive public safety plan. Realistic long-range analysis is overdue and should be undertaken as soon as possible."

That need still exists. The conferees direct that the District undertake such a review and analysis and submit a plan and program addressing capacity issues for the remainder of this century. This report should be submitted to the Council and the Committees on Appropriations of the Senate and House of Representatives not later than April 15, 1989.

The plan should address issues such as the need to replace various current facilities; expected cost savings of new buildings compared to high maintenance cost of antiquated facilities. Also addressed should be the location of any replacement buildings. It should be noted that the total acreage at the District's Lorton Correctional complex is 3,000 acres. However, according to a report of the District in March 1985, actual prison facilities encompass only 201.51 acres. The consolidation of facilities should be examined with an eye toward freeing some of the acreage for non-District, noncorrectional uses. The conferees would expect that the District would address the latter issue of consolidation prior to undertaking any final siting decision on the proposed expansion now requested.

WATER AND SEWER ENTERPRISE FUND

The conference action recommends an additional appropriation of $39,750,000 as proposed by the Senate for "Water and Sewer enterprise fund" appropriation account to pay deferred principal and interest on Potomac Interceptor "C" borrowings and for pay-as-you-go capital projects.

The conference action recommends an additional appropriation of $10,500,000 as proposed by the Senate for capital outlay and includes $5,000,000 for facility rehabilitation, $3,000,000 for major equipment acquisitions, and $2,500,000 for water meter replacements.

LOTTERY AND CHARITABLE GAMES ENTERPRISE FUND

The conference action recommends an additional appropriation of $760,000 as proposed by the Senate for the "Lottery and Charitable Games Enterprise Fund" as follows: $207,000 for the estimated fiscal year 1988 pay adjustment, $120,000 to fund authorized marketing positions, $171,000 for personnel functions and public relations, $40,000 for agency realignments, and $226,000 for automated information services.

GENERAL PROVISIONS

The conference action adds language to the bill which deems the appropriations made in Title II to be available for the fiscal year ending September 30, 1988. This language in effect ratifies all obligations and expenditures made in anticipation of the enactment of the District's fiscal year 1988 supplemental request as approved in Title II of this Act.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1989 recommended by the Committee of Conference, with comparisons to the fiscal year 1988 amount, the 1989 budget estimates, and the House and Senate bills for 1989 follow:

FEDERAL FUNDS

New budget (obligational) authority, fiscal year 1988	$550,000,000
Budget estimates of new (obligational) authority, fiscal year 1989	541,596,000
House bill, fiscal year 1989	541,596,000
Senate bill, fiscal year 1989	532,000,000
Conference agreement, fiscal year 1989	536,910,000
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1988	−13,090,000
Budget estimates of new (obligational) authority, fiscal year 1989	−4,686,000
House bill, fiscal year 1989	−4,686,000
Senate bill, fiscal year 1989	+4,910,000

DISTRICT OF COLUMBIA FUNDS

FISCAL YEAR 1989

New budget (obligational) authority, fiscal year 1988	$3,077,347,000
Budget estimates of new (obligational) authority, fiscal year 1989	3,206,916,000
House bill, fiscal year 1989	3,206,916,000

PROVIDING AMOUNTS FROM CONTINGENT FUND OF THE HOUSE FOR FURTHER EXPENSES OF COMMITTEE ON STANDARDS OF OFFICIAL CONDUCT IN SECOND SESSION OF 100TH CONGRESS

Mr. GAYDOS. Mr. Speaker, by direction of the Committee on House Administration, I call up a privileged resolution (H. Res. 531) providing amounts from the contingent fund of the House for further expenses of investigations and studies by the Committee on Standards of Official Conduct in the second session of the 100th Congress, and ask for its immediate consideration in the House.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read the resolution, as follows:

H. Res. 531

Resolved, That for further expenses of investigations and studies by the Committee on Standards of Official Conduct (hereinafter in this resolution referred to as the "committee"), there shall be paid out of the contingent fund of the House not more than $550,000, any of which may be used for procurement of consultant services under section 202(i) of the Legislative Reorganization Act of 1946.

Sec. 2. Payments under this resolution shall be made on vouchers authorized by the committee, signed by the chairman of the committee, and approved by the Committee on House Administration.

Sec. 3. Amounts shall be available under this resolution for investigations and studies carried out during the period beginning on the date on which this resolution is agreed to and ending immediately before noon on January 3, 1989.

Sec. 4. Amounts made available under this resolution shall be expended in accordance with regulations prescribed by the Committee on House Administration.

Sec. 5. The Committee on House Administration shall have authority to make adjustments in amounts for investigations and studies under the first section of this resolution, if necessary to comply with an order of the President issues under section 252(a) of the Balanced Budget and Emergency Deficit Control Act of 1985 or to conform to any reduction in appropriations for the purposes of such section.

Mr. GAYDOS (during the reading). Mr. Speaker, I ask unanimous consent that the resolution be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The SPEAKER pro tempore. The gentleman from Pennsylvania [Mr. Gaydos] is recognized for 1 hour.

Mr. GAYDOS. Mr. Speaker, I yield the customary 30 minutes to the gentleman from Minnesota [Mr. Frenzel], the ranking minority member of the full committee, for purposes of debate only, pending which I yield myself such time as I may consume with the understanding that any additional time which I may yield will be subject to the specific limitation for debate purposes only.

The resolution provides $550,000 for further expenses of investigations and studies by the Committee on Standards of Official Conduct in the second session of the 100th Congress. Any of this amount may be used for the procurement of consultant services under section 202(i) of the Legislative Reorganization Act of 1946. These additional funds would be available to the Committee on Standards of Official Conduct for the Period beginning on the date on which this resolution is agreed to and ending immediately before noon on January 3, 1989. It should be noted that House Resolution 531 was approved by the Committee on House Administration by unanimous voice vote at its meeting on September 22.

The total amount of additional funds ($550,000) to be provided by this resolution, will be used for the purpose of assuring that the Committee on Standards of Official Conduct has adequate funds to use in discharging its responsibilities during the remainder of this session of Congress. The need for additional funds was unforeseen when that committee submitted its original primary expense resolution and its first supplemental expense resolution for consideration by the Committee on House Administration. Due to the inherent nature of the Committee on Standards of Official Conduct, its workload is not subject to either predictability or its own control. Specifically, the need for the additional $550,000 is based on an analysis by the Committee on Standards of Official Conduct of all expenditures and obligations which it has incurred from January 3, 1988, through August 31, 1988, and its projected costs for the remainder of this session, including the costs of professional services under the committee's contract with the law firm of Phelan, Pope and John, Ltd., the special outside counsel assigned to assist the committee.

Finally, it is imperative for the House to have the necessary resources to police itself and, accordingly, the Committee on Standards of Official Conduct should be authorized sufficient funds to enable it to discharge its important institutional responsibilities without delay or interruption.

Therefore, I urge my colleagues to vote in favor of the resolution.

Mr. Speaker, I yield the customary 30 minutes, one-half of the time, to the minority member, the gentleman from Minnesota [Mr. Frenzel].

However, Mr. Speaker, at this point I would like to spread on the record the fact that the gentleman from Minnesota [Mr. Frenzel] has been very attentive and helpful in this matter. He himself, on behalf of the minority, has been very specific in his inquiries for this extra amount, that it be properly expended and that it be justified, and I feel very confident, and I believe he does, too, that the money is needed.

Mr. FRENZEL. Mr. Speaker, I yield 5 minutes to the gentleman from Georgia [Mr. Gingrich], a distinguished member of the committee.

Mr. GINGRICH. Mr. Speaker, I rise in support of the committee's request. I think that it is a very appropriate request. I think it is a sign of the intensity and the diligence with which they are pursuing this particular investigation, and I commend the committee for taking the time to do that.

But I did want to take this opportunity, since the committee is not often on the floor, to make several observations about how this particular investigation seems to be proceeding.

I found it very strange recently that apparently the Speaker, who is the subject of the investigation, asked to be allowed to come and testify, held what was described in the press as a photo opportunity to show the various things he is bringing to testify, testified various things he is bringing to testify, testified and answered questions for several hours apparently, and then he talked with the press about his version of his testimony. It does seem to me that the committee has a longstanding problem in that the provision for secrecy may now be obsolete, that the problems of the ethics in the House may be powerful enough that there ought to be a standard closer to that held by the Iran-Contra Committee which had, after all, televised hearings and was quite willing to risk embarrassing America's allies and was quite willing to risk leaking America's secrets in order to make sure the public had access to the truth. I think it was strange on the one hand being willing to put the country's problems on television nationally in televised hearings, but we seem to be dramatically more willing to have secret meetings and secret processes when it comes to politicians' secrets and politicians' allies.

Furthermore, I think in this case the secrecy was one-sided about the person who is under investigation, the Speaker, has in effect been able to use the secrecy to project his side of the story and that in a very real sense by holding a photo opportunity and by talking to the press about his testimony he set the stage for people to ask the committee to at a minimum release the transcript of the Speaker's testimony and the Speaker's questions and answers.

□ 1245

Now, I mention that as background because I think there are several other problems here. As I understand it, a formal request has been made to the committee to investigate a question of whether or not the Speaker was involved in leaking secrets. Because of the committee's procedures, which as I understand it involves secrecy about dialog and in the absence of a recorded vote secrecy about whether or not the committee is in fact investigating, I am not sure that Members of the House know today whether or not the Intelligence and the Ethics Committees are in fact investigating the allegations made by the gentleman from Illinois [Mr. MICHEL] and the gentleman from Wyoming [Mr. CHENEY] that secrets have been leaked. I think the Members deserve some system that is more appropriate and more open to understand what is going on inside the Ethics Committee.

Finally, I have mentioned on several occasions that there are several other areas in which we may file charges involving the Speaker, including the question of gemstones, how they were bought and sold and what was involved in the buying and selling of gemstones, including the purchase of a computer system in Fort Worth without approval of House Administration, including the relationship between the Texas savings and loan problems and the Texas savings and loan millionaires who are now indicted, one of whom was the Democratic Congressional Campaign Committee fundraising chairman.

Frankly, if the committee would simply assure, if there were a way for the committee to assure that all of the leads which would normally be followed by an investigator, the leads which in an independent counsel case or in the case of the executive branch would clearly be followed, the leads which in the Iran Contra Committee case would have been followed, that all of those leads would automatically be followed, then it would not be necessary for this Member or any other Member to continue to file charges. One could relax knowing that an investigation has begun and that in fact that investigation will go on at a legitimate pace.

I am going to support the committee today. I do think within the traditions of that committee that it is doing a very diligent job in this case.

I do think, however, when you look at the number of allegations and charges and investigations currently involving Members of the House, when you look at the two convicted felons who have now resigned from the House, when you look at the indictments which involve a Member of the House, when you look at the testimony under oath in a criminal trial involving a Member of the House, clearly we need to think through the standards we are applying and we need to think through how the Ethics Committee in the future is going to follow down the path of cleaning up the House.

Let me close by making this point.

The **SPEAKER** pro tempore. The time of the gentleman from Georgia has expired.

Mr. FRENZEL. Mr. Speaker, I yield 3 additional minutes to the distinguished gentleman from Georgia.

Mr. GINGRICH. The Ethics Committee is a relatively recent innovation of the House. It has been growing and evolving and I think under its chairman and its ranking member it is breaking new ground in the most difficult investigation I suspect that the committee has ever been asked to be involved in; but we have to face the reality that if we are in a House of Representatives in which 98.4 percent of the incombents were reelected last time, if we are in which a House of Representatives in which district lines have been gerrymandered to favor the incumbents of both parties, if we are in a House of Representatives in which Members get $1,200,000 in taxpayer campaign funds, including junk mailings and a whole variety of staff and travel and other values, if we are in a House in which because they are so powerful, incumbents can in effect threaten and blackmail and coerce money out of political action committees, so that in one case a freshman incumbent and a Democrat has raised more PAC money than all the Republican challengers combined, then the burden on the Ethics Committee is going to be vastly, vastly harder, because if the public cannot purge the House of those who have serious ethics problems, then either the Ethics Committee has to very seriously become the policeman of the House, or we run the very, very real danger of corruption becoming a cancer which weaken the entire institution.

I do urge support for this request. I do think it is money that is needed. I do think the Ethics Committee in this case is doing its job, but I think in the long run we are going to need much tougher rules, much more open rules and much more accountable procedures in the Ethics Committee if we are to ever have a House that we can go back home to with a sense of pride and say that we know it is investigating the serious problems it has.

Mr. FRENZEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I invite the attention of the members to the committee report which contains a letter from the chairman of the Standards of Official Conduct Committee and its ranking member to the Honorable FRANK ANNUNZIO chairman of the House Administration Committee.

The first sentence of the second paragraph states:

> The additional $550,000 is necessary to provide sufficient resources for professional services associated with the Preliminary Inquiry undertaken in connection with the certain assertions raised against the Speaker of the House.

The gentleman from Pennsylvania has described the need for the fund. The gentleman from Georgia has indicated his approval of the need for those funds. The minority believes it is important that the Standards of Official Conduct Committee go foward with its examination. We are grateful to the committee for processing the appeal for special funds promptly.

Mr. Speaker, we have no guarantee that other cases are not going to come before the Standards Committee. That has been a committee that is far more active than it would have chosen to be. Unfortunately it has not had its choice in any of these circumstances.

Members should be aware that if we are to police ourselves with any kind of credibility, it is going to take some time and some money. That is one of the unfortunate aspects of undertaking this kind of work.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GAYDOS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The **SPEAKER** pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. FRENZEL. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The **SPEAKER** pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 412, nays 2, not voting 17, as follows:

□ 1311

Mr. BADHAM changed his vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GAYDOS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on House Resolution 531, the resolution just agreed to.

The SPEAKER pro tempore (Mr. GRAY of Illinois). Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4794) "An act making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1989, and for other purposes."

The message also announced that the Senate agrees to the amendments of the House to the amendments of the Senate numbered 20, 22, 38, 48, 50, 76, 77, 87, 100, 104, 122, 126, 127, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, and 153, to the above-entitled bill.

The message also announced that the Senate further insists on its amendment No. 121, to the above-entitled bill.

The message also announced that the Senate recede from its amendment numbered 12, to the above-entitled bill.

CONCURRING IN SENATE AMENDMENT 121 TO DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS ACT, 1989

Mr. LEHMAN of Florida. Mr. Speaker, I move to take from the Speaker's table the bill (H.R. 4794) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1989, and for other purposes, with Senate Amendment No. 121 thereto, and recede from disagreement and concur in the Senate amendment.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida [Mr. LEHMAN].

The motion was agreed to.

A motion to reconsider was laid on the table.

FEDERAL EQUITABLE PAY PRACTICES ACT OF 1988

The SPEAKER pro tempore (Mr. GRAY of Illinois). Pursuant to House Resolution 537, and rule XXIII, the Chair declares the House in the Committee of the Whole House on the Stae of the Union for the further consideration of the bill, H.R. 537.

□ 1315

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 387) to promote equitable pay practices and to eliminate discrimination within the Federal civil service, with Mr. MONTGOMERY [chairman pro tempore] in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore. When the Committee of the Whole rose on Tuesday, September 27, 1988, all time for general debate had expired.

Pursuant to the rule, the committee amendment in the nature of a substitute now printed in the reported bill is considered as an original bill for the purpose of amendment, and each section is considered as having been read.

The clerk will designate section 1.

The text of section 1 is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Equitable Pay Practices Act of 1988".

The CHAIRMAN pro tempore. Are there any amendments to section 1?

If not, the Clerk will designate section 2.

The text of section 2 is as follows:

SEC. 2. STATEMENT OF PURPOSE.

(a) Purpose.—It is the purpose of this Act to determine (1) whether the Government's position-classification system under chapter 51 of title 5, United States Code, and prevailing-rate system under subchapter IV of chapter 53 of such title, are designed and administered in a manner consistent with the general policy, as expressed in title VII of the Civil Rights Act of 1964 and section 6(d) of the Fair Labor Standards Act of 1938, that sex, race, and ethnicity should not be among the factors considered in determining the rate of pay payable to any individual or for any position; and (2) whether the Government's appointment and promotion practices with respect to individuals applying for or occupying positions covered by either of the systems referred to in paragraph (1) are generally consistent with applicable provisions of law prohibiting discrimination on the basis of sex, race, or national origin.

(b) Linkage With General Schedule.—In the performance of any comparisons or analyses pursuant to this Act, subchapter III of chapter 53 of title 5, United States Code, under which General Schedule pay rates are established, shall be considered to be part of the position-classification system referred to in subsection (a)(1).

The CHAIRMAN pro tempore. Are there any amendments to section 2?

PARLIAMENTARY INQUIRY

Mr. BURTON of Indiana. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. BURTON of Indiana. Mr. Chairman, because of confusion in the Chamber, we had a number of amendments to section 1 and the Chair went by so fast that we could not hear because of the confusion.

The CHAIRMAN pro tempore. Is the gentleman sure that his amendments are to section 1? That is the short title of the bill.

Mr. BURTON of Indiana. Mr. Chairman, we had a couple of amendments to that.

Mr. Chairman, I ask unanimous consent to return to section 1 for the purposes of offering those amendments.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Indiana?

Mr. ACKERMAN, Mr. Chairman, I object.

The CHAIRMAN pro tempore. Objection is heard.

Are there other amendments to section 2?

If not, the Clerk will designate section 3.

The text of section 3 is as follows:

SEC. 3. COMMISSION.

(a) Establishment.—There shall be established a commission to be known as the Commission on Equitable Pay Practices.

(b) Composition.—The Commission shall be composed of—

(1) the Director of the Office of Personnel Management;

(2) 5 members appointed by the President, of whom—

(A) 2 shall be appointed upon the recommendation of the Speaker of the House of Representatives in consultation with the minority leader of the House of Representatives, and

(B) 2 shall be appointed upon the recommendation of the majority leader of the Senate in consultation with the minority leader of the Senate; and

(3) 5 members appointed by the Director of the Office of Personnel Management of whom—

(A) 3 shall be appointed to represent the respectic labor organizations representing (as exclusive representatives) the first, second, and third largest numbers of individuals in Government service;

(B) 1 shall be appointed to represent employee organizations having as a purpose promoting the interest of women in Government service and composed primarily of women holding positions covered by either of the systems referred to in section 2(a)(1); and

(C) 1 shall be appointed to represent employee organizations having as a purpose promoting the civil rights of individuals in Government service and composed primarily of minority group members holding position covered by either of the systems referred to in section 2(a)(1).

To the extent practicable, appointments under this section shall be made with a view towards maintaining a fair balance in the interest represented and the functions to be performed by the Commission.

(c) Conditions for Membership.—(1)(A) Members of the Commission appointed under paragraph (2) or (3) of subsection (b) shall not be officers or employees of the United States.

(B) If any member of the Commission referred to in subparagraph (A) becomes an officer or employee of the United States, that individual may continue as such a member for not longer than the 15-day period beginning on the date that such individual becomes such as officer or employee.

(2)(A) A member of the Commission appointed under subsection (b)(3) shall be the highest elected official (other than an officer or employee of the United States)—

(i) of the organization (or 1 of the organizations, if that individual represents 2 or more organizations) which that individual represents;

(ii) who agrees to serve.

(B) If any member of the Commission referred to in subparagraph (A) ceases to be the highest elected official from an organization who is eligible to serve on the Commission, that individual may continue as such a member for not longer than the 15-day period beginning on the first day that such individual ceases to be so eligible.

(3) An individual on leave without pay from the Government shall not, for purposes of this subsection, be considered an officer or employee of the United States.

(d) Compensation.—(1) Members of the Commission shall receive no pay on account of their service on the Commission (except as provided in paragraph (2)), but while away from their homes or regular places of business in the performance of services for the Commission, members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service under section 5703 of title 5, United States Code.

(2)(A) Subject to subparagraph (B), a member of the Commission appointed under subsection (b)(2) may be paid at a rate not to exceed the daily equivalent of the rate of basic pay payable for level IV of the Executive Schedule for each day (including travel time) the member is engaged in the performance of services for the Commission.

(B) A member of the Commission appointed under subsection (b)(2) shall receive no additional pay by reason of service on the Commission for any period during which that individual continues to serve after becoming an officer or employee of the United States.

(e) Timing of Appointments; Qualifications.—All appointments under paragraphs (2) and (3) of subsection (b) shall be made within 20 days after the effective date of this Act and shall be made from among individuals who are especially qualified to serve on the Commission by virtue of their expertise and experience.

(f) Vacancies.—A vacancy in the Commission shall be filled in the manner in which the original appointment was made and shall be subject to any conditions which applied with respect to the original appointment.

(g) Chair and Vice Chair.—The Chair and Vice Chair of the Commission shall be elected by the members of the Commission.

(h) Quorum.—Six members of the Commission shall constitute a quorum.

(i) Meetings.—The Commission shall meet at the call of the Chair or a majority of its members, but at least once every 2 months.

(j) Nonapplicability of Limitation.—Appointments under this section shall not be considered for purposes of section 5311(b) of title 5, United States Code.

(k) Termination of Commission.—The Commission shall cease to exist 90 days after completing the applicable requirements of section 7.

AMENDMENT OFFERED BY MR. ARMEY

Mr. ARMEY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. Armey: Page 4, strike line 10.

Page 5, line 4, strike the period and insert in lieu thereof "; and".

Page 5, after line 4, insert the following new paragraph:

(4) 5 members appointed by the Director of the Office of Personnel Management from among individuals with Federal personnel management experience, of whom—

(A) 1 shall be appointed upon the recommendation of the Secretary of Defense;

(B) 1 shall be appointed upon the recommendation of the Secretary of Health and Human Services;

(C) 1 shall be appointed upon the recommendation of the Secretary of the Treasury;

(D) 1 shall be appointed upon the recommendation of the Secretary of Agriculture; and

(E) 1 shall be appointed upon the recommendation of the Secretary of the Interior.

Page 7, line 7, strike "(2) and (3)" and insert in lieu thereof "(2) through (4)".

Page 7, line 19, strike "Six" and insert in lieu thereof "Nine".

Mr. ARMEY (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. ARMEY. Mr. Chairman, a great deal of the credibility for the case for this bill rests on the proposition we are herein establishing a bipartisan or not partisan objective commission to study the question, and that it is indeed only a study. I have, and several of my colleagues, have concerns about the manner in which the commission is constituted in the bill itself as it is brought before us.

The Commission would be constituted by five members appointed by the President of whom two are on recommendation of the Speaker, and in consultation with the minority leader of the House; two on the recommendation of the Senate majority leader, again consulting with the minority leader of the Senate; and five members appointed by the Director of OPM of whom three are appointed to represent the first, second, third, and largest labor unions in Government service; one appointed to represent employee organizations promoting the interest of women; one appointed to represent the interests of minorities.

Mr. Chairman, as I look at that, recognizing that of course in every market we have both a supply and a demand side, the supply side of this market is more than fairly represented in this Commission. Therefore, I offer this agreement which would accept that formula already in the bill and add an additional five members, five members appointed by the director of the Office of Personnel Management from among the individuals with Federal personnel management experience, of whom one shall be appointed upon recommendation of the Secretary of Defense, one from the Secretary of Health and Human Services, one from the Secretary of Treasury, one from the Secretary of Agriculture, and one from the Secretary of Interior.

Obviously, in this interest of trying to evaluate the work of different employees in different jobs, those people charged with the responsibility of hiring those employees and supervising them in their job would have peculiar information regarding the value of the work and the wages that ought to be paid, and they should be represented in any commission that would be charged with the responsibility of examining the salary structures of those workers.

As a consequence of that and the obvious oversight of this demand of the market by the bill itself, I felt constrained to come to the body and increase the size of the Commission from 11 members to 16 members, represent more fully the demand side, the supervisory side of this market, and therefore hopefully extend the objectivity of the Commission.

Mr. ACKERMAN. Mr. Chairman, I move to strike the last word. Mr. Chairman, the bill authorizes the President to appoint five members to the Commission. Two of those shall be appointed on the recommendations of the Speaker in consultation with the minority leader of the House, and two shall be appointed on the recommendation of the majority and minority leaders of the Senate.

The committee believes that since the leadership of Congress must consult on appointments through the Commission, the resulting recommendations would be fair-minded and objective individuals. As for the gentleman's additions to the Commission, the committee specifically appointed the head of OPM in recognition of that role, that OPM performs in administering personnel policies and programs for civilian employees of the Federal Government.

The bill also allows the Commission to appoint up to five technical experts to serve as a source of technical advise for the Commission.

Because of these reasons and because of the extraneous additional costs that the gentleman's amendments would have in appointing five additional members, we must oppose the amendment.

I believe that it is unnecessary and I urge my colleagues to oppose it.

Mr. DELAY. Mr. Chairman, I move to strike the last word, and I rise in support of the amendment.

Mr. Chairman, you know, I guess when you have been in the majority for so long you lose even the smallest attempt to appear objective and fair in dealing with issues of the day. In the past method of operation as I have given in my speeches back in my district, the method of operation by the liberals of this Congress have always been first you start with a study and then you make sure the study—the conclusion of the study—is written before the study is even started, so that you make sure that the conclusion comes out the way you want it to so that the next step would be to call for a pilot program, just try it in a certain section of the country and make sure the pilot program is successful and then you come back for the whole piece of the pie and the whole program.

Even back then and over a period of time the studies have tried to appear to be objective. They at least have a semblance of equality in the votes on some of these boards. But let us take a look at this bill. They are so blatant as to think that Members of Congress do not have the intelligence to understand what is going on here. The Commission, by H.R. 387 is made up first, and listed in the bill is the Director of Office of Personnel Management. I guess that is the only one that the President is going to get on this Commission; although he gets one more out of five appointed by the President, two will be appointed from suggestions by the Speaker of the House. Now he does consult with the minority leader. Now that is objectivity that is reaching out.

The second, the other two of those five old be appointed on the recommendation of the majority leader of the Senate. Now, he does consult with the minority leader of the Senate, and then the next five are appointed by the Director of the Office of Personnel Management but they are listed and qualified so that those people will be in support of the conclusion of the study that obviously is going to be written before they even attempt to make the study.

It is unbelievable to me, them coming together, in the vote they are going to elect their own Chairman and the Vice Chairman from overweighted numbers of this Commission. At least, Members, at least appear to be objective. At least pass the Armey amendment so that we can go home, so that we go home and look like we are trying to get an objective study done and an objective conclusion to this issue of pay equity, because we are not going to get if the Commission is so overweighted.

We do not even get six and five; we are getting complete overweighted votes on this Commission. At least, at least appear to the American people that we are going to be objective and pass the Armey amendment.

Mr. GONZALEZ. Mr. Chairman, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from Texas.

Mr. GONZALEZ. Mr. Chairman, is the gentleman telling us that he is pessimistic that neither the Senate nor the House will have the chance of becoming the majority body controlled by the gentleman's party after November?

Mr. DELAY. What does that have to do with this bill?

Mr. GONZALEZ. The gentleman is accusing this side of loading the Commission by giving the appointment recommendations to the majority leader in the Senate, the Speaker of the House. What the gentleman is telling Members is that he does not think the Republicans are about to control.

Mr. DELAY. I guess the gentleman from Texas is again trying to cloud the issue because we all know that if there was any semblance of an idea that this side, that the Republican Party would take over a majority of either House, we would not see a bill like this. That is exactly the point that I opened with. They understand, or they are certainly counting on history that they still will control both Houses of this body. They still will abuse any sort of semblance of objectivity, and this study is not objective. It will not be objective; the end result will not be objective. We all know, so do not come out here and say it is just a study. How can Members be against a study?

The CHAIRMAN pro tempore. The time of the gentleman from Texas has expired.

Mr. DELAY. Mr. Chairman, I ask unanimous consent to proceed for 2 additional minutes.

(By unanimous consent, Mr. DELAY was allowed to proceed for 2 additional minutes.)

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. DELAY. I am happy to yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, it is my understanding that the bill should pass both bodies and get to the President for his signature before the Congress adjourns; the appointments of the Commission will be made before the next Congress convenes, and even under those circumstances our newfound majority in one or both bodies would not be relevant to the implementation of the act.

Mr. DELAY. Mr. Chairman, the gentleman brings up a very good point, that this Commission would be formed before there is any chance of Members taking over the majority next year, and I appreciate the gentleman bringing it up.

Mr. GONZALEZ. Mr. Chairman, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from Texas.

Mr. GONZALEZ. Mr. Chairman, obviously I am serious about this. I can recall at least five commissions or committees during the 1960's, and then in the 1970's at least another four, and in the 1980's at least two, where the composition of these committees were very similar in format to what is suggested in this bill, as far as I can remember.

□ 1330

Mr. DELAY. The gentleman is right. He makes my point. I have said in my whole point that this is exactly the type of process that we go through where we load up commissions and make sure that the conclusion is already written. Well, if you are going to write the conclusion before we even appoint the Commission, why go through the expense in giving a commission subpoena power and all these other things if we already know what the conclusion is going to be? We will concede what the conclusion is to that side of the aisle and just let us get on with it and save the taxpayers a bunch of money.

Ms. OAKAR. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I simply want to say that the composition of the Commission was agreed upon in the last Congress, unanimously agreed upon through the committee process. It was a bipartisan agreement on both sides of the aisle.

As a matter of fact, it waits for, in many ways, the Commission appointments to OPM, the Office of Personnel Management.

So this is an objective Commission, and no one is assuming anything about the results. We hope that this amendment will be soundly defeated.

Mr. ACKERMAN. Mr. Chairman, will the gentleman from Ohio yield?

Ms. OAKAR. I yield to the gentleman from New York.

Mr. ACKERMAN. I thank the gentlewoman for yielding.

I just want to make two quick points about the gentleman who spoke prior to the gentlewoman from Ohio's comments. It seems to me that his sense of justice is exceeded only by his sense of math.

The way I read this, it is not a 6-to-5 split here. It seems to me that the only person individually mandated to be on the Commission is the Director of OPM himself or herself. That individual, as I understand it, is also appointed by the President. So those five appointees, if you want to reduce this to the unfortunate partisanship that the gentleman seems to be heading in the direction of, would basically be appointees of the appointee of the President. So if you want to do it again, either using the old math over new math, I think that you would see a completely different ratio of totals. But that is not really the point. Rather than us quibbling over which administration it would be that makes the appointment, I think that the House and the American people would be better served if we basically stick to the issue and discuss the merits of the legislation rather than whether or not some future President is going to be partisan or not or who is going to be in control of either one of the two Houses.

The second quick point that I want to make, just to set the record straight: Today's Legislative Digest put out by the House Republican Conference—and I am sure that this was an error, because I know that the gentleman from Texas is very admirable in all of the dealings certainly that we have had—but I believe that there is a typographical error or mistake that might lead some of us Members who are interested in saving the taxpayer money.

The first amendment that is listed here, which is the one that we are discussing now, states that this amendment by the gentleman from Texas would replace the five commission members appointed by OPM with these five others. In fact it does not.

I am sure that was a typographical error. Indeed what this amendment would do is increase the size of the Commission from 11 commissioners to 16 commissioners which would be too much of a financial hit for even those of us on this side of the aisle to accept.

Mrs. SCHROEDER. Mr. Chairman, will the gentlewomen yield?

Ms. OAKAR. I yield to the gentlewoman from Colorado.

Mrs. SCHROEDER. I thank the gentlewoman for yielding.

Mr. Chairman, one of the things I have found interesting about the gentleman that spoke before the gentlewoman is that he said he knew what the conclusion was. Now, if he knows what the conclusion is, I wish he would tell us what it was because maybe he should just offer that as an amendment and we would move forward. But let me go just a little further. If the gentleman is assuming that there is discrimination against women, then I am very sorry he is not down here helping us move forward. All of the women on the gentleman's side have joined us on this issue. They seem to feel that.

Let me say that the next thing that I think is terribly important is one of the reasons we need the study is while we suspect there may be—and I know of no conclusion that has been written—I would love to see your conclusion if you think it has been written—we think there may be some discrimination in the system setup in the twenties that has not been looked at since. We think there might be. There might not be.

But even if there is some we do not know exactly how to do it in the whole GS scale and how you put that together. That is fairly sophisticated. But if the gentleman knows, if the gentleman can tell us exactly how much sex discrimination and race discrimination there is in each GS scale, offer that. We would be more than happy to help. But we have not seen a conclusion.

We just have a suspicion. And the way I look at that there are going to be more Republicans on the panel than Democrats.

The CHAIRMAN pro tempore (Mr. MONTGOMERY). The time of the gentlewoman from Ohio [Ms. OAKAR] has expired.

(By unanimous consent, Ms. OAKAR was allowed to proceed for 1 additional minute.)

Mr. DELAY. Mr. Chairman, will the gentlewoman yield?

Ms. OAKAR. I yield to the gentleman from Texas.

Mr. DeLAY. I thank the gentlewoman for yielding.

Mr. Chairman, the gentleman from Indiana [Mr. BURTON] is going to show you the number of studies that have already been done if you need the conclusions. But the conclusions are obviously in all the "Dear Colleagues" sent out by the proponents of this issue. That is the conclusion. Just read the "Dear Colleagues".

Ms. OAKAR. If I may reclaim my time, if the gentleman objects to the bill then that is one thing. You know, just vote against it.

But if you are just calling attention to the Commission for the purpose of discussing the gentleman's view, he should have been here for the debate last night. I think that that was where we were in terms of comprehensively discussing the bill.

Mr. DeLAY. I am just discussing the amendment offered by the gentleman from Texas that directly deals with the Commission.

Mrs. MORELLA. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the amendment that was offered to expand the Commission by five members to be appointed by the secretaries of a number of departments.

I do not understand why, if they are talking about expanding it, that these particular departments were chosen.

I mean, why is the Secretary of Education not allowed to appoint someone? How about the Secretary of Housing and Urban Development? Why is the Postmaster General not allowed an appointment?

So I do not see any rhyme nor reason to take this and to end up really making it a partisan panel by putting the weight on the extra appointees.

When the subcommittee in the 99th Congress determined the makeup of the Commission, they tried to make it be a balanced group. As was mentioned, five members appointed by the Director of the Office of Personnel Management; and to pick people who had some expertise and interest in the subject. This indeed is the most efficient way of doing it so that it ends up being a very balanced Commission. The amendment appears ostensibly to be one to destroy a bill which is a good study.

So I certainly would urge a vote against the amendment.

Mr. ARMEY. Mr. Chairman, will the gentlewoman yield?

Mrs. MORELLA. I yield to the gentleman from Texas.

Mr. ARMEY. I thank the gentlewoman for yielding?

Mr. Chairman, with the gentlewoman's permission, I would like to remind the Member that her point is well taken. The Commission ought to be comprised of people who are well informed about the subject under consideration.

The bill's commission has a preponderance of people on the supply side of the market. What this is trying to do is to represent the other side of the market, the buyers. These are experts, they are informed, they do have information.

Any kind of a market transaction that brings to it an imbalance of information from either the supply or the demand side is going to be a market transaction that has within it a bias, especially insofar as the transaction is going to be a negotiated sort of thing.

In this case we are extending this even more into the intellectual realm of the process since we are here talking about doing a study.

Now if I am only a buyer and I want a study that will represent my point of view and you put me on a commission and not somebody from the selling side, I very likely will not ask for information from the other side of the market. Why should I want to have my point of view confused?

To say, for example, the first, second, and third largest labor unions in Government service, if you can tell me that any one of those three labor unions are not at this time already committed to the principles of comparable worth, I would feel somewhat assured. But I also am aware of the fact that you cannot tell me that they are not committed to it. You cannot tell me they are not on your list of outside patrons of the concept.

The bias is there already. To say one appointed to represent an employee organization promoting the interest of women tells me you have already got a person committed to the process.

What I want to say if we are going to be intellectually objective about this is let us let the bias, the demand side, the people who represent the expenditure of the taxpayers side of the money; put their information, their insight, their knowledge, their experience into the process.

It seems to me you only get more of what it is you say you ask for, more complete and totally objective, at least a balanced exchange of information.

Mrs. MORELLA. These appointees that would come from the Cabinet heads, who knows whether they care about the issue? Whether they are willing to make the commitment of time? Whether they come with any knowledge of the situation?

To have these people representing their groups, they are responsible to the entire market, males, females, minorities, ethnics; and they come with an expertise and a desire to make the study be successful.

The gentleman keeps using the term "comparable worth." I really have to, as a former teacher of English, tell you that there is a distinct difference between comparable worth and pay equity and this is simply a study of pay equity.

Mr. ARMEY. If the gentlewoman would yield further, of course I am far more concerned with substance than semantics. The substance is comparable worth.

Let me point out the appointees I am suggesting, it says very clearly, shall be people of personnel management experience. I think the gentlewoman has just acknowledged that yes, in fact, the people on the committee bill's side of this process, already privileged to be on this Commission, do have clearly, as she has indicated, an expressed interest in and commitment to the people from the unions.

The people whom I suggest we add to this Commission are people who are hired and have a commitment to the taxpayers of the United States which is a far broader and more diversified, and I should say, acutely interested group to whom an allegiance ought to be owed.

Mrs. MORELLA. If they are not elected by any particular group.

So when you say they have a commitment to the taxpayers, I do not see why that comes into effect, nor do I have any guarantee that the people who would be appointed would have any interest in doing it.

Mr. ARMEY. I am sure that as a member of this committee so involved with this over the entire process the gentlewomen is not going to suggest that employees of the agencies of Government are not committed to the people whom they are charged to serve.

The CHAIRMAN. The time of the gentlewoman from Maryland [Mrs. MORELLA] has expired.

(By unanimous consent Mrs. MORELLA was allowed to proceed for 1 additional minute.)

Mrs. MORELLA. Mr. Chairman, in terms of the commitment, we are talking about a commitment to a particular goal. They may be committed to their work, but this may not be a prime part of their work. So it depends on the responsibility.

Again, you are making it lean in a partisan fashion; you are expanding and there is no need to. You have left out agencies also.

You have a balanced group that has been arrived at in a very responsible manner for the Commission.

Mr. ARMEY. Then the substance of the gentlewoman's point is that she wants the committee to continue having the Commission staffed only by people who already have a commitment to a particular goal. That is the point we have been trying to make.

Mrs. MORELLA. Someone who is very interested and who has some knowledge to bring to it and the dedication to bring to a study—to a study.

Mr. BURTON of Indiana. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I have no objection to the American Federation of Government Employees being on the Commission, members of the National Federation of Federal Employees being on the Commission, the National Treasury Employees representative being on the Commission, a women's group member on the Commission or a civil rights member being on the Commission as long as there is a balance.

Now the gentleman who is sponsoring the amendment, the gentleman from Texas [Mr. Armey] is trying to bring about that balance so there will be some objectivity.

The fact of the matter is the authors of this legislation want the Commission to be biased and the way it is made up it will be biased.

Now one of the issues that has been raised in this debate is that we need this study so we will know where we are going.

□ 1345

We will need this study so we will know what needs to be done, we are told.

Mr. Chairman, the law already mandates equal pay for equal work. In 1963 Congress approved the Equal Pay Act, and the next year we approved title VII of the Civil Rights Act. Equal pay for equal work is the only objective standard that can be fairly enforced by the Congress and the courts.

In addition, three Government agencies have already conducted over 30 individual studies, examining any pay inequities that may exist as to comparable jobs within the Government and between the Government and the private sector.

I said yesterday that I would bring these studies to the floor. I was going to carry them down to the well, but I was afraid I would get a hernia because they weigh so much. We have here 30 studies that have been conducted on this subject, and yet the proponents of this legislation want to spend another $2.5 million of the taxpayers' money conducting yet another study. Study after study after study has been done, and yet they want to spend another $2.5 million to do more.

Let me just read some of the studies.

Ms. OAKAR. Mr. Chairman, will the gentleman yield?

Mr. BURTON of Indiana. I will be happy to yield in a few moments, but first I want to read some of the studies that have already been conducted at the taxpayers' expense, many of them, and yet Members want to spend another $2.5 million for another study.

Here is one done by the U.S. Office of Personnel Management. This is "Comparable Worth for Federal Jobs." That study was conducted in September of 1987.

Here we have "Federal White Collar Employees, Their Pay and Fringe Benefits," which is another study done in January 1979.

Here we have the "Federal Government's Pay System, Adjustment Procedures and Impacts of Proposed Changes," February 1977.

Here we have "Alternative Approaches to Adjusting Compensation for Federal Blue Collar Employees," November 1988. This is the "Budgetary Treatment of Federal Civilian Agency Pay Raises, a Technical Analysis, a Special Study," January, 1983.

Mr. ACKERMAN. Mr. Chairman, will the gentleman yield?

Mr. BURTON of Indiana. I have to go through all 30 of these studies first, and then I will be happy to yield.

Next we have this: "Reducing Grades of the General Schedule Work Force," September 1984. That is another study.

"Federal Pay-Setting Service Could Be Performed More Efficiently." This is done by the Comptroller General. This was done June 23, 1981.

Here is another one by the Comptroller General of the United States: "A Proposal to Lower the Federal Compensation Comparability Standard Has Not Been Substantiated." This was January 26, 1982.

This is another study by the Comptroller General: "Problems in Developing and Implementing a Total Compensation Plan for Federal Employees," December 5, 1980.

"Wages for Federal Blue Collar Employees Are Being Determined According to the Law, But Improvements Are Needed."

Mr. ACKERMAN. Mr. Chairman, will the gentleman yield?

Mr. BURTON of Indiana. I will yield after I have finished reading all 30 of these studies.

That one was on October 29, 1979.

Mr. Chairman, I think it is important to get these into the Record.

Mr. ACKERMAN. Mr. Chairman, why does the gentleman not just submit them into the Record rather than subjecting the entire House to this waste of time?

Mr. BURTON of Indiana. I must submit them for the Record, and I have the time.

Do I have the time, Mr. Chairman? I did not yield any of my time to anybody.

Mr. ACKERMAN. Mr. Chairman, how much time does the gentleman from Indiana have left?

The CHAIRMAN. The gentleman from Indiana [Mr. Burton] has 30 seconds remaining.

Mr. ACKERMAN. Then he has got to read fast.

Mr. BURTON of Indiana. Mr. Chairman, if the gentleman objects, we are going to have to object to every one of his Members who choose to ask for extensions of time.

Mr. ACKERMAN. I will consider that suggestion of objecting to each and every one of our Members who abuse their time.

Mr. BURTON of Indiana. Do I have the time, Mr. Chairman? The gentleman has used up a minute of my time by interrupting.

The CHAIRMAN. The Chair will state that the gentleman from Indiana [Mr. Burton] has the time. The gentleman may proceed.

Mr. BURTON of Indiana. Mr. Chairman, the reason I am reading these studies is so every Member of this body who is paying attention to the debate will know what these 30 studies are. If I just submit them for the Record, then Members will not know what they are because they may not read the Record, but if I state them publicly for the Record, every Member of Congress who is paying attention to the debate will know that there have been 30 studies conducted, most of them at the expense of the taxpayers of this country, and yet these folks want us to have another study that is going to cost $2.5 million when we have already had 30 of them.

The CHAIRMAN. The time of the gentleman from Indiana [Mr. Burton] has expired.

Mr. BURTON of Indiana. Mr. Chairman, I ask unanimous consent that I be allowed to proceed for 5 additional minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Indiana?

Mr. ACKERMAN. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. BARTLETT. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the amendment.

Mr. Chairman, I am taking this time because I do think it is important that our colleagues and the public hear in some detail the results of the 30 studies that the gentleman from Indiana [Mr. Burton] was attempting to set forth for the Record. So I yield to the gentleman from Indiana so he may continue.

Mr. ACKERMAN. Mr. Chairman, will the gentleman yield to me first for 30 seconds?

Mr. BARTLETT. Not at this time. At the conclusion of the gentleman's presentation of the studies, I will yield.

Mr. ACKERMAN. Mr. Chairman, will the gentleman from Indiana yield?

Mr. BURTON of Indiana. The gentleman from Texas has control of the time.

Mr. ACKERMAN. Will the gentleman from Texas yield to me? Will the gentleman from Indiana yield to me?

Mr. DeLAY. Regular order, Mr. Chairman.

The CHAIRMAN. The gentleman from Texas [Mr. BARTLETT] has yielded to the gentleman from Indiana [Mr. BURTON], and the gentleman from Indiana may proceed.

Mr. BURTON of Indiana. Mr. Chairman, we have here a report to the Congress of the United States from the Comptroller General, "A Study of Federal Compensation Comparability, Need for Congressional Action," July 21, 1978.

"Need for a Comparability Policy for Both Pay and Benefits of Federal Civilian Employees, Report to the Congress," July 11, 1975.

"Reducing Grades of the General Schedule Work Force," November 30, 1984.

All of these studies bear on the issue at hand that we are talking about today.

These are studies of the Federal white collar compensation. There is a summary report here.

"Studies of Federal White Collar Compensation, Redesigning the General Schedule, Locality Pay Study, Rewarding Quality Performance." This was done in October of 1975, and as the Members can see, it is a pretty voluminous study.

Here we have "A Comparison of the Civil Service Classification System and the Hay Method of Job Evaluation." This is another voluminous study. Those studies cost the taxpayers a lot of money.

This is a study of "Total Compensation in the Federal, State, and Private Sectors." This was done by the Committee on Post Office and Civil Service back on December 13, 1984. It was prepared by Hay-Huggins Co. and Hay Management Consultants. We already had a study in 1984 on this same subject.

This is "A Conceptual Framework for Total Compensation Comparability," 1979, U.S. Office of Personnel Management. This is a "Report on Study of Position Classification Accuracy and Executive Branch Occupation Under the General Schedule." This was prepared by the U.S. Civil Service Commission, December 6, 1978.

This is a report on "Study of Position Classification Accuracy in the Executive Branch Occupations Under the General Schedule," December 6, 1978.

"A Report to the Congress, Improving the Pay Determination Process for Federal Blue Collar Employees." This was done by the Civil Service Commission, the Department of Defense, and the Veterans' Administration, and it was completed by the Comptroller General of the United States, June 3, 1975.

Mr. BARTLETT. Mr. Chairman, reclaiming my time briefly, and then I will yield further to the gentleman, I would inquire of the Chair, how much time do I have remaining?

The CHAIRMAN. The gentleman from Texas [Mr. BARTLETT] has 2 minutes remaining.

Mr. BARTLETT. Mr. Chairman, I would ask this of the gentleman as he goes through the studies: I have been listening carefully to the titles of the studies. Does the gentleman know whether any of these 30 studies have studied employment practices with regard to sex discrimination by Congress or the legislative branch as an employer? Have any of these studies addressed discrimination in that regard?

Mr. BURTON of Indiana. Mr. Chairman, if the gentleman will yield, I do not believe any of them have addressed discrimination as to congressional Members' offices, and that is one of the issues we raised last night. The proponents of this bill decided not to include congressional staffs and offices in the study, and we could not understand that as well.

Mr. BARTLETT. From my reading of the bill, it is my understanding that the legislative branch as an employer is not included in the study that is proposed here. It is the gentleman's conclusion from reviewing the other 30 studies that have been done that that is the one agency of the Federal Government apparently that has never been studied or tested with regard to the existing rules of sex discrimination, as I understand it.

If the gentleman would like me to yield, I could yield to him now, but first I would say to the gentleman from New York [Mr. ACKERMAN] that I would pose this question in yielding to him: Does this bill apply to Congress as an employer?

Mr. ACKERMAN. Mr. Chairman, the point I was trying to make when I asked for the time from the gentleman was the fact that with the exception of one out of the 30, which means it is not applicable to the other 29, none of these studies refer to the topic of equitable pay that we are discussing.

But what I wanted to ask, when the gentleman yielded to the gentleman from Indiana, was this: The gentleman stated he wanted to know from him the results of all these studies. What he did was read the titles of all these studies, and I am very impressed, although I have been more impressed by the guy from American Federal Express, who reads a lot faster. I am impressed with the reading of the titles, but I would like to know if the gentleman, in addition to reading to the entire House of Representatives all those titles into the CONGRESSIONAL RECORD, has read any of those studies, and if the gentleman has read any of the 30 studies, what did he do after he became incensed as to what is happening to the Federal work force?

Mr. BARTLETT. Mr. Chairman, I am happy to yield to the gentleman from Indiana for an answer.

Mr. BURTON of Indiana. First of all, Mr. Chairman, I was not incensed. I think rightful indignation is justifiable if one has a reason for it. I have seen some discrimination in congressional offices, but we are not studying that.

The CHAIRMAN. The time of the gentleman from Texas [Mr. BARTLETT] has expired.

Mr. BUNNING. Mr. Chairman, I move to strike the last requisite number of words, and I rise in support of the amendment.

Mr. BURTON of Indiana. Mr. Chairman, will the gentleman yield?

Mr. BUNNING. I yield to my good friend, the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, let me just say in conclusion that studies have, I think, concluded that there is a modicum or more than a modicum of fairness in the Federal work force. Nevertheless, we have conducted 30 studies, and they want to spend another $2.5 million for another study. But this time they want to make sure there is a bias to the study. The bias is that you are having proponents of this particular position stacked on this commission, and that will guarantee that the recommendations of the commission will be in favor of your position. I think that is something that is intolerable.

Let me get back to this and read the rest of these studies because I think it is important to have them in the RECORD.

Here we have a study, "Federal Employees' Compensation Reform." This is a message from the President of the United States that was transmitted back on June 14, 1979. This is a result of a study.

Here we have "Total Compensation Comparability Program, a report in Fiscal Year 1977, Activities." This was done by the U.S. Civil Service Commission.

Here we have one called "The Budgetary Treatment of Federal Civilian Pay Raises, a Technical Analysis." This was done in January 1983.

This is "Total Compensation Comparability Background Method, Preliminary Results." This was done by the Office of Personnel Management in July 1981.

Here we have the "Federal Pay Reform, Questions and Answers," a study done by the Office of Personnel Management in 1979.

This is a "Study of Approaches to Federal Pay," done by the U.S. Office of Personnel Management in December 1982.

"Federal White Collar Position Classification Accuracy," done in March 1983. The Advisory Committee on Federal Pay did this study in June of 1981.

"The Federal Government Pay Systems." This was done by the Congress of the United States, the Congressional Budget Office.

"Adjustments, Procedures, and Impacts of Proposed Changes," done in March 1977.

"Federal White Collar Employees, Their Pay and Fringed Benefits, Trying To Make Sure There Was Equity in the Work Force," done in January 1979.

"Alternative Approaches To Adjusting Compensation for Federal Blue Collar Employees," another study to make sure there was fairness in pay equity, November 1980.

"Compensation Reform for Federal White Collar Employees, the Administration's Proposal on Budgetary Processes in 1981." That was done in May of 1980.

"Adjustments in Federal White Collar Pay, a Technical Review of the Past Proposals in the Economy for October 1983." This was done in March 1983.

This is a report to Congress, "Improving the Pay Determination Process for Federal Blue Collar Employees." This was done in June 1975.

Mr. ACKERMAN. Mr. Chairman, what year was that?

Mr. BURTON of Indiana. June 3, 1975.

Mr. ACKERMAN. That is 14 years ago.

Mr. BURTON of Indiana. Well, if the gentleman had been listening, there have been some all the way up to 1985.

Mr. ACKERMAN. All right. Could the gentleman tell us what any one of them has to do with?

Mr. DELAY. Regular order, Mr. Chairman.

Mr. BURTON of Indiana. Mr. Chairman, do we have control of the time?

The CHAIRMAN. The gentleman from Kentucky [Mr. BUNNING] controls the time.

Mr. BURTON of Indiana. Mr. Chairman, if I may continue, this is "Federal White Collar Pay Systems and the Need for Fundamental Changes." This is in October 1975, and I understand it was acted upon. There were some positive changes made.

"Determining Federal Compensation, Changes Needed To Make the Process More Equitable and Credible." This was done in November 1979.

"Federal White Collar Special Rate Program," March 30, 1984.

"A Description of Selected Systems for Classifying Federal Civilian Positions and Personnel," July 1984.

□ 1400

And then there is a report from the General Accounting Office, "Distribution of Male and Female Employees and Four Federal Classification Systems," done in November 1984; 30 studies, and they want to spend another $2.5 million doing it again, only this time with a biased board? This does not make sense.

Mr. Chairman, I thank the gentleman for yielding.

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. BUNNING. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Chairman, I appreciate the gentleman from Indiana [Mr. BURTON] bringing these studies to the floor and reading the titles because the point is made repeatedly, repeatedly, that no studies have been done.

Now, that is just simply not the case from what I have seen here. I have a list here, and I am perfectly willing, if it is necessary, to read my list of studies that have been done, many of which, at least some of which, were ordered up by the committee itself.

But the fact is that the studies have been done.

The CHAIRMAN. The time of the gentleman from Kentucky [Mr. BUNNING] has expired.

Mr. EDWARDS of California. Mr. Chairman, I move to strike the requisite number of words.

Mr. EDWARDS of California. Mr. Chairman, I rise in strong support of H.R. 387, the Federal Equitable Pay Practices Act. I compliment our distinguished colleague from Ohio, MARY ROSE OAKAR, for her leadership in bringing this legislation before us today.

Mr. Chairman, this legislation would mandate a study of the Federal wage and classification systems. The study provided for in this sound piece of legislation will allow us to answer two critical questions:

Are women and minorities hired fairly by the Federal Government?

Are women and minorities paid fairly for the work they do in the Federal Government?

Since its inception in 1923, there has never been a comprehensive examination of the Federal employment system for race or gender discrimination. Obviously, there have been significant changes in the Federal work force since the 1920's, and we need to understand how the system is working. The study proposed by Congresswoman OAKAR is long overdue, and we should welcome it and its findings.

There is significant evidence that such a study is needed. For example, the General Accounting Office has found extreme occupational segregation in the Federal Civil Service with regard to men and women and minorities.

Pay equity studies done at State levels have proven invaluable in identifying gender and minority based wage discrimination. The highly valued principles of fairness and justice should compel us to move promptly and seriously toward this kind of study for our large and diverse Federal work force.

I strongly urge my colleagues to support the passage of this legislation before us today.

Mr. ACKERMAN. Mr. Chairman, will the gentleman yield?

Mr. EDWARDS of California. I yield to the gentleman from New York.

Mr. ACKERMAN. Mr. Chairman, I thank the gentleman from California [Mr. EDWARDS] very much for yielding to me.

Mr. Chairman, I listened pretty carefully; I would not say very carefully, to the long litany of studies that the gentleman from Indiana [Mr. BURTON] has cited, and I must say that despite the fact that he was able to research the obvious fact that studies do get done around here, I would like to find out from him what any one of these studies had to do with equitable pay. Has the gentleman read any one of the studies, and could he tell us what they have to do with equitable pay?

Mr. BURTON of Indiana. Mr. Chairman, will the gentleman yield?

Mr. EDWARDS of California. I yield to the gentleman from Indiana.

Mr. BURTON of Indiana. Mr. Chairman, I do not intend to try to go through this litany of studies that have been completed.

Mr. ACKERMAN. Just one; I did not ask the gentleman to go through the litany. He has already abused the time of the Members by going through the litany of the list in order to eat up time, which the gentleman threatened to do yesterday, and I must say that I am impressed with the fact that the gentleman found 30 studies.

Being that the gentleman is being assisted, could he find two? How about citing two?

Mr. BURTON of Indiana. Mr. Chairman, I would be happy to——

Mr. ACKERMAN. OK; find one.

Mr. BURTON of Indiana. Time to go through and pick out the studies that I would like to comment on. We have looked at them, but the one that he just handed me was the most recent one.

Mr. Chairman, this was completed in September 1987.

Mr. ACKERMAN. Which one was that?

Mr. BURTON of Indiana. It is entitled "Comparable Work for Federal Jobs, a Wrong Turn Off the Road for Pay Equity and Women's Career Advancement."

Mr. ACKERMAN. Mr. Chairman, was that a study?

Mr. BURTON of Indiana. The gentleman from New York is correct. It is a study——

Mr. EDWARDS of California. Mr. Chairman, I reclaim my time.

Ms. OAKAR. Mr. Chairman, will the gentleman yield?

Mr. EDWARDS of California. I yield to the gentlewoman from Ohio.

Ms. OAKAR. Mr. Chairman, that was done by OPM who has never really attempted to correct the system in the last 8 years.

As a matter of fact, we have seen a regression, and basically what they have done in this incredible faulty study was to pick out the careers of those few women that are in the levels that are very, very high and say that because we have seen some small progression in the upper echelon of Federal employment that that was a sign that women were going into nontraditional jobs.

Basically what it is saying is that we do not need secretaries; we want all the women to be managers. We do not need nurses; we want everybody to be a doctor. We do not need clerks, we do not need any of the kinds of service employees that unfortunately are undervalued, are in the bottom rungs of the classification system.

Mr. Chairman, that is the old argument that, if women go into the field of law, for example, that we do not need to pay nurses, and secretaries and others fairly, and so it was an incredibly faulty study.

If that is the kind of study that the gentleman from Indiana [Mr. BURTON] wants to use, that is his prerogative. But the women who are in minorities who are clustered in the bottom rungs of the classification system did not get truly investigated in terms of whether or not they were being treated fairly, and we have not done a comprehensive study since 1923.

I thank the gentleman from California [Mr. EDWARDS] for yielding.

Mr. EDWARDS of California. Mr. Chairman, I would also point out that the subcommittee of the Committee on the Judiciary that I chair held hearings on women in nontraditional jobs, not in government jobs, and we found that the discrimination in nontraditional jobs, in the general populace of the United States is widespread. Of the women who are able to surmount the obstacles and get a position in a nontraditional job, say as a carpenter or as a laborer, and I might say almost automatically tripling their wages, a third are forced to drop out after a very few weeks of work because of the harassment and the discrimination they experience.

Mr. Chairman, we do not know about the extent of such discrimination in the federal system except the horror stories that we read in the newspaper, and it is in there almost daily. I think the study this bill provides is very, very much needed.

Mr. BALLENGER. Mr. Chairman, I move to strike the requisite number of words, and I rise in favor of the amendment.

Mr. BARTLETT. Mr. Chairman, will the gentleman yield?

Mr. BALLENGER. I yield to the gentleman from Texas.

Mr. BARTLETT. Mr. Chairman, I thank the gentleman for yielding because I think a discussion of the studies has been helpful.

I do want to observe that I listened very carefully to the gentlewoman from Ohio [Ms. OAKAR], and it can be said that we are getting closer to agreement on what the bill does because, if I can paraphrase what she has done and about these other studies is that this is a new kind of a study. This is a study that is a study based on a whole new concept of job classification based on, and I quote from page 11 of the bill, "shall be applied with respect to a representative sample of occupations in which either sex is numerically predominant," and so I think the gentlewoman is correct.

Mr. Chairman, this would be the first time that a comparable worth kind of study, a job content analysis kind of study, would be done as opposed to what we all traditionally think of, equal pay for equal work, and I do think it is a brandnew concept.

Leaving that aside, I would then reinquire of either the gentlewoman from Ohio [Ms. OAKAR], the sponsor of the bill, or the gentleman from New York [Mr. ACKERMAN], my brief question which was: If none of these studies have studied discrimination based on sex by Congress as an employer and if there is some real evidence that that is a very real problem in this body, then I would inquire as to whether they have included Congress as an employer in this legislation for studying discrimination, and if not, why not, and would they be prepared to accept an amendment that would do so?

Mr. ACKERMAN. Mr. Chairman, will the gentleman yield?

Mr. BALLENGER. I yield to the gentleman from New York.

Mr. ACKERMAN. Mr. Chairman, I thank the gentleman for yielding.

This legislation, as the gentleman well knows, does not include the legislative branch because that legislation would not come through this committee, and, if the gentleman on his own would care to submit such legislation, we would be very happy to take a careful look at that, but this is not the proper vehicle for it.

In addition to that, in answer to the question which was raised before, we have a letter from the General Accounting Office, which we will gladly provide a copy of, which says that OPM does not provide any data or analysis to show that the Government's position, classification system in operation, is a system based solely on the objective evaluation of job characteristics. Without proper job content analysis, the extent to which there are pay differentials that could be the results of discrimination——

Mr. BALLENGER. Reclaiming my time, Mr. Chairman——

Mr. ACKERMAN. Will not be known. The studies which the gentleman cites have nothing to do with this topic.

Mr. BALLENGER. Reclaiming my time, Mr. Chairman, I yield again to the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, I thank the gentleman from North Carolina [Mr. BALLENGER] for yielding.

Mr. Chairman, I am trying to understand the answer on why we do not include Congress in this study, and the answer is because, as I heard the gentleman from New York, because it did not come through his committee, but the gentleman or the gentlewoman who is the sponsor could have included it in the bill, as I understand, and had it sequentially referred, as other legislation is routinely done.

Indeed I personally have raised this question on every similar piece of legislation since 1983, when I arrived. It is not the first time I ave asked the question. I asked it the last time this particular bill came up.

I am just curious as to why it is not included. Does the gentleman not believe that discrimination exists in Congress, or does he believe that that discrimination is all right and that we should not try to eradicate it?

Mr. DELAY. Mr. Chairman, will the gentleman yield?

Mr. BALLENGER. I yield to the gentleman from Texas.

Mr. DELAY. Mr. Chairman, I just want to bring us back to the amendment at hand. I mean we are talking about the bill. We are trying to pass an amendment here to bring fairness to this study, and we need to get back to it, and we understand why this study was, and the commission was, designed the way it was.

And, by the way, to the gentleman from New York [Mr. ACKERMAN]: It is a 10-to-1 vote, not a 6-to-5, if the gentleman will read it. It is a 10-to-1 vote in favor of the proponents of this issue.

It was said by the gentlewoman from Maryland and the gentlewoman from Ohio that all of these studies are faulty studies, that they do not have the bias written in that this study has written into it and does not have the conclusion that they want. That is why it is a faulty study. It does not reach the, quote, commitment to the goal of making sure that this study's conclusion comes out the way that they want it to come out, but they have got their goal in the makeup of this commission.

Mr. Chairman, their goal is 10-to-1 vote for their side on whatever they write as the conclusion to this study.

The amendment of the gentleman from Texas [Mr. ARMEY] just brings a little fairness, a little objectivity, and I just ask those cosponsors of this bill that is different from the one they cosponsored: Do they want to appear subjective? Do they want to go back to their constituents and support a study that obviously falls very short of objectivity?

The CHAIRMAN. The time of the gentleman from North Carolina [Mr. BALLENGER] has expired.

For what purpose does the gentleman from Pennsylvania rise?

Mr. WALKER. Mr. Chairman, I move to strike the penultimate word.

Mr. Chairman, the first observation I would like to make is that it is interesting what the House in the waning hours of the session decides that we ought to prioritize and spend time on. Instead of dealing with acid rain, which is a subject matter that the vast majority of the Members of this Congress have indicated that they want to deal with, we are dealing with this subject with a number of controversial amendments, and we will probably be on it for hours so that we do not have the time to get to dealing with the real issues, like acid rain, that many Members feel needs to be addressed out here. I just think that is interesting.

Second, I would point out to the gentleman from California who spoke briefly about all the press reports we have seen on these things. The press reports that I have seen most recently indicating substantive discrimination taking place in pay have been right here in the Congress. The most glaring headlines that we have had in my district have been about how we in Congress discriminate on pay against the women of this country. And yet I heard a couple of minutes ago an explanation that we cannot possibly take that issue up in this bill because, gee, it is not before our committee.

Mr. Chairman, how often do we have to hear that before we understand that that is a true phony? We have set up processes around here that every time we want to include Congress under the laws that we pass we are told we cannot do it because it does not come before our committee.

Mr. Chairman, we know that there is such a thing as joint referral around here. We know that this bill with Congress included could have been sent to the Committee on House Administration and brought to the floor with Congress included, but there was a choice made not to do that.

We also know that we could raise an amendment here, and, if nobody raises a point of order against the amendment, it could, in fact, be included on the floor.

But I suspect when that amendment is raised that there will be someone get up and make a point of order against including the Congress, and then we will know for certain what we want to really do in this bill, that we want to wipe Congress out, but yet we know that we have the major discrimination that has been reported in recent weeks. It has taken place right here in the Congress of the United States.

Mr. ACKERMAN. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from New York.

Mr. ACKERMAN. Mr. Chairman, to allay the concerns of the gentleman from Pennsylvania [Mr. WALKER], I understand that there is a bill that will be coming up next week from the committee of the gentleman from California [Mr. PANETTA] which would do what the gentleman is asking it do.

Mr. WALKER. Mr. Chairman, I thank the gentleman from New York [Mr. ACKERMAN] for that, but here we are out debating that. Do we have any assurance that that piece of legislation is going to get passed? Do we have any assurances that it is going to clear anywhere other than a couple of places in the South?

Mr. BARTLETT. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Texas.

Mr. BARTLETT. Mr. Chairman, that is an interesting piece of legislation. It is a good piece of legislation which I hope will pass, and it ought to, but it does not relate to this study.

The difficulty is that the Committee on Post Office and Civil Service is offering a bill which studies the executive branch of Congress based on discrimination of certain type and refuses to study the legislative branch.

So the bill of the gentleman from California [Mr. PANETTA] which I hope comes up next week would apply EEOC-like laws to the legislative branch for the first time, but it is a different subject.

□ 1415

That bill will help to solve an old problem. The bill that is before us will add to the problem.

I am just inquiring of the sponsors as to why they would not just go ahead and include Congress as an employer in this study.

Mr. WALKER. Mr. Speaker, I think the gentleman makes a good point and I am glad the gentleman clarified that issue, because what I am concerned about is the legislative hypocrisy that we so constantly engage in on the House floor, legislative hypocrisy that always puts the burden on the executive branch or puts the burden on business or puts the burden on somebody else out in society, but it consigns to ourselves the ability to continue to operate our feudal system around here as though we have no need whatsoever to obey the laws that we require of other people. We are little lords and viceroys around here who do not seem to think that Congress should have to live with the things they require of the other sectors of society. That just does not make any sense to this gentleman and I think it is making less and less sense to the country as a whole.

Mr. ARMEY. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I am glad to yield to the gentleman from Texas.

Mr. ARMEY. Mr. Speaker, may I ask the gentleman, the gentleman is on the Government Operations Committee, is that correct?

Mr. WALKER. I certainly am.

Mr. ARMEY. Is it a responsibility of the Government Operations Committee to take into consideration concerns that are raised about the performance of the various agencies of the United States?

Mr. WALKER. It sure is.

Mr. ARMEY. As we have discussed these 30 studies that were done under the circumstances it was alleged that no studies were done, we have then been told that even though the studies were done that they were done by agencies or on behalf of agencies that were not performing their duties properly, and consequently conducted studies that gave the wrong results, that is to say, they did not fulfill that target object for which the studies were directed.

To the gentleman's knowledge, have any questions been raised regarding the performance——

The CHAIRMAN. The time of the gentleman from Pennsylvania has expired.

Mr. WALKER. Mr. Chairman, I ask unanimous consent that I be allowed to proceed for 2 additional minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Pennsylvania?

Mr. ACKERMAN. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. WALKER. A parliamentary inquiry, Mr. Chairman. Is this something that we are going to continue?

The CHAIRMAN. That is not a parliamentary inquiry.

Mr. WALKER. We will proceed that way, then.

Mr. FORD of Michigan. Mr. Chairman, I move to strike the requisite number of words.

I have encouraged our people to ignore this nonsense that has been going on here, until the gentleman from Pennsylvania I think went just a little bit far when he used the term "legislative hypocrisy." That suggests that the gentleman believes that my committee, led by me, is engaging in an act of hypocrisy.

If that is the case, then I am constructively by his definition a hypocrite. I suppose being called something by an expert in the field carries with it some kind of weight.

I would like to suggest the answer to the gentleman's question, will we get to the other legislation? Not if the gentleman keeps wasting the time of the House with nonsense that is not on the floor.

Why does this committee not deal with Members' pay, or the pay Members give to their staffs?

If the gentleman wants to get the rules changed to give my committee that kind of power, all power to the gentleman, but I would not want to serve as the chairman of a committee that substituted his judgment and that of his committee for the 435 Members of this House.

If the gentleman wants to look for problems in Members' offices, look to your colleagues on your right and your left, because what we do is trust that you are mature enough—unfortunately, there are some who demonstrate from time to time they are not—to decide for your district and the interests that you represent how many employees you will have, what kind of employees you will have, whether you will hire them from your own state or from elsewhere, and what you will pay them.

We do not, however, on this committee let Federal agencies pay their employees whatever they want.

The responsibility of this committee is to tell the federal agencies exactly what they shall pay people. Therefore, it is our responsibility if they are paying women or minorities less and a pattern has emerged to correct that. We do not have the power to correct that, if indeed it exists in the gentleman's office, I say to the gentleman from Pennsylvania [Mr. Walker]. We have to trust the gentleman to do it, and I am willing to trust the gentleman to do it and the other 434 of my colleagues as well. We do not want that jurisdiction, but the point is that we do not have it.

Do not come to this floor and call me or any members of my committee who reported this out unanimously "legislative hypocrites" for bringing a serious issue to this floor.

Mr. WALKER. Mr. Chairman, will the gentleman yield?

Mr. FORD of Michigan. No, I do not yield. I do not want to hear anymore nonsense.

Mr. WALKER. The gentleman makes personal attacks without yielding.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. Armey].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. ARMEY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 159, noes 257, not voting 15, as follows:

☐ 1446

The Clerk announced the following pair:

On this vote:

Mr. Boulter for, with Mr. Bonior against.

Messrs. COYNE, LEHMAN of California, and SAVAGE changed their vote from "aye" to "no."

Messrs. YOUNG of Alaska, HALL of Texas, HUTTO, RITTER, and PURSELL changed their vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

Mr. TORRES. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise today in support of the Federal Equitable Pay Practices Act. H.R. 387 would require a study of the Federal wage and classification system to determine whether discrimination based on sex, race, or ethnic origin is present in the Federal workforce. Statistics indicate that women and minorities are underrepresented in management and supervisory positions in the Federal Government.

In fact, a wage gap of nearly $11,000 exists between men and women in Government service. In the private sector minorities are faced with a staggering wage differential. Hispanic men earn 65 cents for every dollar earned by Caucasian men.

Hispanic women are the ones who fare the worst—they earn only 55 cents for every dollar earned by Caucasian males. These figures are appalling and unacceptable. Given the inequities in the private sector, it is very likely a similar problem exists in the public sector.

However, the magnitude of the problem is unknown because a study has not been conducted. That is why the passage of H.R. 387 is so important. We must determine the extent of a wage gap in order to remedy it.

The Federal Equitable Pay Practices Act gives us the opportunity to rectify a terrible injustice experienced by many of our constituents. The Federal Government should be the leader in equitable wage and opportunity policies. In Congress, we often consider legislation to improve opportunities for women and minorities.

How can we espouse policies of nondiscrimination when the Federal Government is not beyond reproach in this area? The answer is quite simple, we cannot. The passage of H.R. 387 is a crucial step in the recognition and correction of a wage gap in the public sector.

I urge my colleagues to vote in favor of this important and much needed legislation.

Mr. GARCIA. Mr. Chairman, I rise today in support of H.R. 387, the Federal pay equity study, and I commend Chairman Ford and Representative Oakar on their efforts to move this bill to the floor.

H.R. 387 is a much needed bill to help eliminate wage discrimination based on race or sex. The goal of pay equity is to insure that women and minority groups are paid equally according to the worth of their jobs. The facts show that this is not the case at this time.

For instance, in 1987, full-time women workers earned, on average, only 64 cents compared to every $1 dollar earned by men. In 1986, the median annual wage for men was $25,256 and $16,232 for women. These types of inequities can no longer be tolerated.

We are experiencing a changing work force, and it is becoming clear that women will constitute a greater share of the Nation's work force and of the income earners in the future. Right now, the average working wife contributes 28 percent of her family's annual income. One in six families is headed by a woman and one in three of these female-headed families is poor. The number of poor families would be cut in half if women were paid at the same rates as men in the same positions.

For minorities, the situation is even worse. On average, black women earn only 57 percent of the salary earned by white men, and Hispanic women make only 53 percent.

Some opponents of this bill will argue that these differences can be explained by factors such as education and work experience. However, the Census Bureau found that 35 to 40 percent of the gap in earnings could not be explained by these factors.

It is time that women and minorities move out of the low-paying, low-responsibility jobs that they have been concentrated in. Women deserve an equal opportunity to work in sectors other than clerical, sales, service, and factory jobs, of which they made up 77 percent of the work force in 1985.

This bill is a step in the right direction to solving these inequities. It establishes a commission to determine whether the Federal pay system is discriminatory in any way, and to make recommendations on its improvement. It does not adjust private sector pay scales or implement a national pay scale. Rather, it would study the existing wage gaps and recommend what can be done in the Federal Government to alleviate such inequities in the future. I urge my colleagues to support this bill.

□ 1445

Mr. ACKERMAN. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. Gray of Illinois] having assumed the chair, Mr. Kildee, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 387) to promote equitable pay practices and to eliminate discrimination within the Federal civil service, had come to no resolution thereon.

GENERAL LEAVE

Mr. ACKERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks, and to include extraneous matter on H.R. 387, the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

SUNDRY MESSAGES FROM THE PRESIDENT

Sundry messages in writing from the President of the United States were communicated to the House by Mr. Kalbaugh, one of his secretaries.

WAIVING CERTAIN POINTS OF ORDER AGAINST THE CONFERENCE REPORT ON H.R. 4481, DEFENSE SAVINGS ACT OF 1988, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. WHEAT, from the Committee on Rules, reported the following privileged resolution (H. Res. 551, Rept. No. 100-987), which was referred to the House Calendar and ordered to be printed:

H. Res. 551

Resolved, That upon the adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 4481) to provide for closing and realigning of certain military installations during a certain period, and all points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

Mr. WHEAT. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 551 and ask for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read the resolution.

The SPEAKER pro tempore. The question is, Will the House now consider House Resolution 551?

The question was taken; and (two-thirds having voted in favor thereof) the House agreed to consider House Resolution 551.

The SPEAKER pro tempore. The gentleman from Missouri [Mr. Wheat] is recognized for 1 hour.

Mr. WHEAT. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Ohio [Mr. Latta] pending which I yield myself such time as I may consume.

Mr. Speaker, House Resolution 551 provides for consideration of the conference report on H.R. 4481 to provide for the closing and realigning of certain military installations. The rule waives all points of order against the conference report and against its consideration. The conference report shall be considered as having been read when called up for consideration.

Mr. Speaker, this bill is the vehicle to return the defense authorization bill to the President. An agreement has been reached which represents the compromise by Members of both parties in both Houses which is thought sufficient to avoid a second veto.

Mr. Speaker, the legislation before us is a matter of concern to all of us. I urge that we adopt the rule so that we may proceed to consideration of the conference report.

Mr. LATTA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Rules Committee met at 11:15 this morning in emergency session to report this rule. The ranking Republican member of the Armed Services Committee, the gentleman from Alabama [Mr. DICKINSON], and the gentleman from Mississippi [Mr. MONTGOMERY], representing the majority side of the Committee on Armed Services, both appeared to request this rule, and express strong support for it.

Since the Rules Committee meeting I have had my staff check with the White House, and they have confirmed that the administration supports this approach.

Mr. Speaker, this rule waives all points of order so that the House may proceed with the consideration of this new defense authorization package which will take the place of the previous Defense authorization bill vetoed by the President. According to testimony in the Rules Committee, the goal is to move this package quickly through the House and the Senate and to the President's desk. Once this is completed there would be an authorization bill in place, and then the defense appropriation legislation can proceed without the complication caused by the lack of an authorization bill.

Mr. Speaker, I will not attempt to get into all the differences between this package and the version vetoed by the President.

However, I would like to note that according to the information I have received, all fences and floors on the funding for the strategic defense initiative have been removed. However, the top-line amount has not been changed.

One other change I would like to note, Mr. Speaker, is that the requirement for a moratorium on the testing of depressed trajectory missiles has been removed.

Mr. Speaker, in the Rules Committee, the gentleman from Alabama [Mr. DICKINSON] explained that the total dollar amount in this bill is the same as the one which was vetoed. What has changed is the ways in which the money can be used.

Based on the assurances of the administration and the support by the gentleman from Alabama, I will support this rule. Mr. Speaker, so that the House may proceed promptly to move this new Defense authorization legislation.

Mr. Speaker, I yield 4 minutes to the gentleman from Texas [Mr. ARMEY].

Mr. ARMEY. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, if I might have the attention of the distinguished chairman of the Armed Services Committee, Mr. ASPIN, there are many Members of the body that are of course concerned about the base closing legislation, and I am constantly being asked about its status. Perhaps if the gentleman from Wisconsin could clarify, as I understand, that we have taken H.R. 4481, we have struck the base-closing language that it contained, and substituted this DOD conference report which is what we are dealing with now?

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. ARMEY. I yield to the gentleman from Wisconsin.

Mr. ASPIN. Mr. Speaker, that is correct.

Mr. ARMEY. Mr. Speaker, I further understand from my conversations with Mr. ASPIN, Mr. NUNN, and others that an agreement has been reached between the chairman and the ranking members of the Senate and House Armed Services Committee and also agreed to by the Speaker, that next week we will bring a separate base closings bill to the floor for a vote, is that correct?

Mr. ASPIN. Mr. Speaker, the question is tentatively correct. Of course what we are dealing with here is a situation under which we would have been dealt the base closing legislation long ago had not the President vetoed the authorization bill. The plan of the House was to pass the authorization bill early and then turn our attention to the conference report on the important base closing bill which the gentleman is so interested in, and I am interested in and the committee on the other side of the House is interested in. We were ready to go on the base closing conference long ago but of course the President vetoed the authorization bill and sidetracked the whole base closing effort.

So between then and now we have been just doing the issue of the authorization conference report, trying to find some way to get a conference report that the President will sign, because we are dealing with 300 billion dollars' worth of spending next year, base closing is important, but compared to the whole DOD bill, what are you going to do.

So we decided we would do this. So our attention is to of course turn our attention next week to the base closing provision but of course if the President should for some reason veto this bill again, we would have to turn our attention back to this bill and in other words, it is sort of out of our hands. Our job is first of all to get a defense bill through this Congress.

If our relations with the White House are such that it takes the whole time we are here to get a conference report acceptable, that is all we will be able to do. If we have some time and we can settle the issues with the White House we certainly want to turn our attention to the base closing legislation.

Mr. ARMEY. If the gentleman would just let me continue for a moment, do I understand correctly that if we now complete the work on DOD through a successful passage of both Houses, signed by the President, we will then take up a bill from the Senate, here in the body, and add the base closing language which was passed in this body to that bill. That will then be turned to conference with an anticipation of a quick turnaround to complete the issue on the floor?

Mr. ASPIN. We do not anticipate any difficulty in the conference, and if that is the case, the gentleman's scenario is correct.

□ 1500

The point is that first of all we have to make sure that the authorization bill is done and that the President signs it and everything is all right with the authorization bill.

If that is the case we will then turn our attention to the base closing legislation and it is my intention, if the President signs the bill, to turn around and appoint conferees on the base closing bill early next week. I have not had a chance to study in depth the material on the base closing, but the staff tells me that the two sides, the House and Senate, are not all that far apart. If everybody cooperates and people work together I think we can probably get a bill in enough time to get it out and get it passed in a conference form before we adjourn.

Of course, that depends on the cooperation of a lot of Members, over which I have no control.

Mr. WHEAT. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana [Mr. SHARP].

Mr. SHARP. I appreciate the remarks of the chairman of the Committee on Armed Services, the gentleman from Wisconsin [Mr. ASPIN]. My concern that I want to followup on is that of Mr. ARMEY's, the gentleman from Texas. That is, it would be a shame if we lose something that has been an uphill battle for years in this Congress in order to make real savings in tax dollars over the next decade or two decades. While the authorization bill obviously had critical importance, and I am certainly supporting the efforts here to get that accomplished, I hope that we will do nothing that jeopardizes, and I hope the White House will do nothing that jeopardizes completion of the base closing legislation, because we have obsolete bases out there. We all know they can be closed. The reality is that politics has always worked against doing that. We have finally reached a point where there may be some real accomplishment. I hope in the closing days here we will not lose that.

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. SHARP. I yield to the gentleman from Wisconsin.

Mr. ASPIN. I thank the gentleman for yielding.

Mr. Speaker, I agree and I think one of the tragedies of the President vetoing the authorization bill the first time around was the jeopardy that it caused to the base closing bill. Let us face it, if we are going to pass a base closing bill, we are going to need a lot of bipartisan cooperation to get that to happen. Injecting politics into the process by a rather political veto of the defense authorization bill did not help things substantively. The second way it jeopardized it is that it took up a lot of time. The time that would have otherwise been devoted to working a conference on the base closing bill has been taken up in reworking the conference on the authorization bill.

So I agree exactly with the sentiments of the gentleman in the well. I wish the President had not put this bill into jeopardy be vetoing the authorization bill. But there it is, and we hope for the best.

Mr. LATTA. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. ARMEY].

Mr. ARMEY. I thank the gentleman for yielding.

Mr. Speaker, I do not wish to delay this debate.

Again, I want to thank the gentleman from Wisconsin for his leadership.

I think it is safe to say that base closing has been one of the most exemplary bipartisan efforts we have had in this body and in this Congress. We have had a good deal of cooperation from everybody and we continue to.

Just last week we had 175 Members from both sides of the aisle sign a letter to the chairman expressing again our commitment to passage of this measure.

I personally remain committed to passage of the legislation.

I certainly understand the problems of dealing with the authorizing bill which have been very complicated. I would not want to interfere with the progress that has been made there. Nevertheless, my commitment to base closing is such that I will resist any effort to go sine die without completing that work.

I will ask the Republican conference to commit to that proposition and I will be asking, again, my 175 or so Members who are committed to this proposition to again commit to that proposition.

That is not in any way meant or construed to be a threat that we would obstruct the matter, but rather as an expression of our commitment to completing this task which in the view of most of us can only be completed at this time as we change administrations.

So it is very firmly believed by both the proponents and opponents alike that if we do not do it now we will not soon again have this opportunity. And we have a commitment to do that before we go sine die.

So let us hope that the package sent to the White House is a package fully agreed upon so the President can act quickly and we can move swiftly on base closing next week and we can all go home to be with our families as soon as possible.

Mr. LATTA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WHEAT. Mr. Speaker, I have no further requests for time.

In order to move expeditiously to consideration of the Department of Defense authorization, I now move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore. (Mr. GRAY of Illinois). The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON H.R. 4481, DEFENSE SAVINGS ACT OF 1988

Mr. ASPIN submitted the following conference report and statement on the bill (H.R. 4481) to provide for the closing and realigning of certain military installations during a certain period.

CONFERENCE REPORT (H. Rept. 100-989)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4481) to provide for the closing and realigning of certain military installations during a certain period, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE

This Act may be cited as the "National Defense Authorization Act, Fiscal Year 1989".

SEC. 2. ORGANIZATION OF ACT INTO DIVISIONS

This Act is organized into two divisions as follows:

(1) Division A—Department of Defense and other National Defense Authorizations.

(2) Division B—Military Construction Authorizations.

SEC. 3. TABLE OF CONTENTS

The table of contents for this Act is as follows:

Sec. 1. Short title.
Sec. 2. Organization of Act into divisions.
Sec. 3. Table of contents.
Sec. 4. Statutory construction.

DIVISION A—DEPARTMENT OF DEFENSE AND OTHER NATIONAL DEFENSE AUTHORIZATIONS

TITLE I—PROCUREMENT

PART A—FUNDING AUTHORIZATIONS

Sec. 101. Army.
Sec. 102. Navy and Marine Corps.
Sec. 103. Air Force.
Sec. 104. Defense Agencies.
Sec. 105. Chemical demilitarization program.
Sec. 106. Reserve components.
Sec. 107. Authorized multiyear contracts.

PART B—PROGRAM REQUIREMENTS, RESTRICTIONS, AND LIMITATIONS

Sec. 111. Army programs.
Sec. 112. Navy programs.
Sec. 113. Air Force programs.
Sec. 114. Interim infantry anti-tank weapon.
Sec. 115. Source selection authority for the palletized loading system.
Sec. 116. BIGEYE binary chemical bomb.
Sec. 117. Management of certain defense procurement programs.
Sec. 118. Modifications in chemical demilitarization program.
Sec. 119. Report on Navy aircraft requirements.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

PART A—AUTHORIZATIONS AND FUNDING FOR SPECIFIC PROGRAMS

Sec. 201. Authorization of appropriations.
Sec. 202. Funding for ICBM modernization programs.
Sec. 203. DARPA nuclear monitoring program.
Sec. 204. Grant for semiconductor cooperative research program.
Sec. 205. Airship program.
Sec. 206. Extended air defense.
Sec. 207. Product evaluation activity.
Sec. 208. Chemical weapons convention compliance monitoring program.
Sec. 209. Optoelectronics Materials Center.

PART B—PROGRAM REQUIREMENTS, RESTRICTIONS, AND LIMITATIONS

Sec. 211. Trident II missile program.
Sec. 212. Balanced Technology Initiative.
Sec. 213. Advanced Tactical Aircraft and Advanced Tactical Fighter programs.
Sec. 214. Air-to-air missile project office.
Sec. 215. Training in advanced manufacturing technologies.
Sec. 216. Prohibition on obligation of funds for cancelled antisatellite weapon program.
Sec. 217. Long-range conventional cruise missile.
Sec. 218. Seek Spinner Missile program.
Sec. 219. Depressed-trajectory ballistic missiles.
Sec. 220. Requirement of competition for award of grants and contracts to colleges and universities for certain purposes.

PART C—STRATEGIC DEFENSE INITIATIVE

Sec. 221. Funding for the Strategic Defense Initiative for fiscal year 1989.
Sec. 222. Report on allocation of SDI funding for fiscal year 1989.
Sec. 223. Development and testing of anti-ballistic missile systems or components.
Sec. 224. Accidental launch protection.

PART D—STRATEGIC PROGRAMS

Sec. 231. B-1B Bomber program.
Sec. 232. Advanced Technology B-2 Bomber program.
Sec. 233. Sense of Congress on strategic missile modernization programs.

PART E—OTHER PROGRAMS

Sec. 241. Advanced Submarine Technology Program.

Sec. 242. Prohibition on testing electromagnetic pulse in Chesapeake Bay.

Sec. 243. Report on space control capabilities.

Sec. 244. Report on competition for development of Advanced Tactical Reconaissance System.

TITLE III—OPERATION AND MAINTENANCE

PART A—AUTHORIZATIONS OF APPROPRIATIONS

Sec. 301. Operation and maintenance funding.

Sec. 302. Working capital funds.

Sec. 303. Humanitarian assistance.

Sec. 304. Tripler Army Medical Center.

Sec. 305. Assistance to the 1990 Goodwill Games.

Sec. 306. Inauguration assistance.

Sec. 307. Enhancement of capability to combat fraud, waste, and abuse.

PART B—LIMITATIONS

Sec. 311. Prohibition on financing certain activities by direct appropriations.

Sec. 312. Prohibition on joint use of Dobbins Air Force Base with civil aviation.

Sec. 313. Prohibition on purchase of Toshiba products for resale in military exchange stores.

Sec. 314. Limitation on funding for United States Southern Command airlift.

Sec. 315. One-year extension of limitation on Army depot maintenance funding.

Sec. 316. Operation of SR-71 depot rework facility.

Sec. 317. Management of civilian personnel during fiscal years 1989 and 1990.

Sec. 318. Limitation on operation of existing Poseidon class submarines U.S.S. James Monroe and U.S.S. Henry Clay.

PART C—PERMANENT LAW CHANGES

Sec. 321. Limitation on private operation of commissary stores.

Sec. 322. Allowable costs with respect to certain service contracts performed overseas.

Sec. 323. Authority to continue support of scouting activities overseas.

Sec. 324. Transfers and exchanges of certain documents, historical artifacts, and condemned and obsolete combat materiel.

Sec. 325. Qualifications for head of auditing function in military departments.

Sec. 326. Prohibition on certain depot maintenance workload competitions.

Sec. 327. Report on manpower, mobility, sustainability, and equipment.

Sec. 328. Lease of aircraft for Fleet Electronic Warfare Support Group activities.

PART D—CONTRACTING OUT

Sec. 331. Requirements for certain circular A-76 procedures.

Sec. 332. Performance of firefighting and security guard functions at Amchitka, Alaska.

PART E—DEFENSE SUPPLIES SECURITY AND CONTROL

Sec. 341. Defense supply management studies and modernization plan.

Sec. 342. Supply security and control improvements.

Sec. 343. Inventory investigations.

Sec. 344. Reports to the Secretary of the Treasury of losses of munitions.

PART F—STUDIES AND REPORTS

Sec. 351. Study of Department of Defense safety standards for transportation of hazardous materials.

Sec. 352. Report on the use of degradable plastic items by Department of Defense.

Sec. 353. Navy participation in feasibility study of Sunset Harbor Project, California.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

PART A—ACTIVE FORCES

Sec. 401. End strengths for active forces.

Sec. 402. Repeal of mandatory reductions in strength of active duty officer corps.

Sec. 403. Temporary reduction in number of Air Force colonels.

PART B—RESERVE FORCES

Sec. 411. End strengths for Selected Reserve.

Sec. 412. End strengths for Reserves on active duty in support of the Reserves.

Sec. 413. Clarification of applicability of prior amendments relating to number of members in certain grades authorized to be on active duty in support of the Reserves.

PART C—MILITARY TRAINING

Sec. 421. Authorization of training student loads.

PART D—AUTHORIZATION OF APPROPRIATIONS

Sec. 431. Authorization of appropriations for military personnel for fiscal year 1989.

TITLE V—MILITARY PERSONNEL POLICY

PART A—OFFICER PERSONNEL POLICY

Sec. 501. Selection boards.

Sec. 502. Removal from promotion list.

Sec. 503. Selective early retirement for certain pre-DOPMA Navy and Marine Corps officers.

Sec. 504. Technical revision of section 638 of title 10, United States Code.

PART B—JOINT OFFICER PERSONNEL POLICY

Sec. 511. Waiver authority with respect to selection of officers for the joint specialty.

Sec. 512. Joint specialty officers in critical joint duty assignments.

Sec. 513. Promotion policy objectives for officers with the joint specialty.

Sec. 514. Length of joint duty assignments.

Sec. 515. Additional transition provisions for implementation of prerequisite for promotion to initial flag and general officer grade.

Sec. 516. Extension of transition to joint duty assignment staffing requirements.

Sec. 517. Counting of officers with critical occupational specialty involving combat operations for purposes of joint duty assignment staffing and tour lengths.

Sec. 518. Service by captains and Navy lieutenants in joint duty assignment to be counted for all officer personnel laws concerning such service.

Sec. 519. Technical amendments.

PART C—MISCELLANEOUS

Sec. 521. Testing of new entrants for drug and alcohol abuse.

Sec. 522. Requirement to accept persons enlisting in the Air Force on gender-free basis.

Sec. 523. Military education for Army National Guard civilian technicians.

Sec. 524. Expansion of military spouse employment preference.

Sec. 525. Manpower estimates for major defense acquisition programs.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

PART A—PAY AND ALLOWANCES

Sec. 601. Military pay raise for fiscal year 1989.

Sec. 602. Allowance for transportation of household goods.

PART B—SPECIAL PAY FOR CRITICAL PERSONNEL

Sec. 611. Aviator retention bonus.

Sec. 612. Medical officer retention bonus.

Sec. 613. Special pay for critically short wartime health specialists in the Selected Reserve.

PART C—OTHER PERSONNEL BENEFITS

Sec. 621. Housing lease indemnity program.

Sec. 622. Retired pay inversions resulting from court-martial punishment.

Sec. 623. Travel and transportation allowances for emergency travel.

Sec. 624. Travel and transportation allowances incident to voluntary extension of overseas tours of duty.

Sec. 625. Civilian clothing allowance.

PART D—BENEFITS RELATING TO INCAPACITATION OF CERTAIN RESERVE MEMBERS IN LINE OF DUTY

Sec. 631. Compensation for certain Reserve members.

Sec. 632. Travel for dependents of certain members.

Sec. 633. Injury, disability, and death compensation coverage for ROTC cadets during military training activities.

PART E—HEALTH CARE MANAGEMENT PROVISIONS

Sec. 641. Requirement to submit end strengths and manpower report for medical personnel.

Sec. 642. Requirements with respect to certain Navy medical personnel.

Sec. 643. Provisions relating to Navy health profession personnel.

Sec. 644. Sharing of health-care resources between the Department of Defense and the Veterans' Administration.

Sec. 645. Extension of termination date for former Public Health Service hospitals and requirement that such hospitals be cost effective.

Sec. 646. Eligibility of certain institutions to receive reimbursement under CHAMPUS.

PART F—MISCELLANEOUS

Sec. 651. Limited extension of certain medical benefits for former spouses.

Sec. 652. Technical correction to Survivor Benefit Plan coverage of former spouses.

Sec. 653. Annuity for certain surviving spouses.

Sec. 654. Report on definition of dependent for certain purposes.

TITLE VII—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

PART A—ORGANIZATION

Sec. 701. Authority to establish position of Assistant Secretary of Defense for Intelligence.
Sec. 702. Designation in each military department of Assistant Secretary with responsibility for financial management.
Sec. 703. General Counsels of military departments.
Sec. 704. Deferral of retirement date for Chairman of the Joint Chiefs of Staff.

PART B—FORCE STRUCTURE

Sec. 711. Assignment of combatant forces.
Sec. 712. Responsibility and authority of Commander of Special Operations Command.
Sec. 713. Strategic air defense alert mission.
Sec. 714. Reports on budgets for unified and specified commands.
Sec. 715. Report on initial review of unified command plan and initial review of service roles and missions.

PART C—PERSONNEL-RELATED PROVISIONS

Sec. 721. Regulations for delivery of military personnel to civil authorities when charged with certain offenses.
Sec. 722. Annuities for judges of United States Court of Military Appeals.

PART D—OTHER

Sec. 731. Annual net assessments.
Sec. 732. Linkage of national military strategy and weapon acquisition programs.
Sec. 733. Report on funding for the ammunition production base.
Sec. 734. Sense of Congress concerning declassification of classified information.
Sec. 735. Advance payment of administrative claims.
Sec. 736. Energy efficiency incentive.

TITLE VIII—ACQUISITION POLICY AND MANAGEMENT

PART A—ACQUISITION MANAGEMENT

Sec. 801. Integrated financing policy.
Sec. 802. Competitive prototype strategies.
Sec. 803. Delegation of authority to approve certain contract justifications.
Sec. 804. Evaluation of contracts for professional and technical services.
Sec. 805. Procurement of critical aircraft and ship spare parts.
Sec. 806. Incentives for innovation.
Sec. 807. Regulations on use of fixed-price development contracts.
Sec. 808. Department of Defense advisory panel on government-industry relations.
Sec. 809. Report on simplification and streamlining of acquisition procedures.

PART B—DEFENSE INDUSTRIAL BASE

Sec. 821. Maintenance and improvement of the defense industrial base.
Sec. 822. Source for procurement of certain valves and machine tools.
Sec. 823. Critical technologies plan.
Sec. 824. Defense memoranda of understanding.
Sec. 825. Department of Defense offset policy.
Sec. 826. Allowability of costs to promote the export of defense products.

PART C—POLICIES RELATING TO DEFENSE CONTRACTORS

Sec. 831. Additional prohibitions on persons convicted of felonies related to defense contracts.
Sec. 832. Limitation on allowability of costs of contractors incurred in certain proceedings.
Sec. 833. Air travel expenses of defense contractor personnel.
Sec. 834. Standards for contractor inventory accounting systems.
Sec. 835. Equal employment opportunities relating to an Army contract.

PART D—MISCELLANEOUS

Sec. 841. Procurement Technical Assistance Cooperative Agreement Program.
Sec. 842. Product evaluation.
Sec. 843. Contract goal for minorities in printing-related services.
Sec. 844. Extension of contract goal for small and disadvantaged businesses.
Sec. 845. Deadline for certain small business regulations.
Sec. 846. Safeguarding of military whistleblowers.

TITLE IX—MATTERS RELATING TO ARMS CONTROL

Sec. 901. Sense of Congress on expanding confidence-building measures.
Sec. 902. Sense of Congress on START talks.
Sec. 903. Sense of Congress concerning role of Congress in arms control and defense policies.
Sec. 904. Sense of Congress on the five-year ABM Treaty review.
Sec. 905. Revision of annual report on Soviet compliance with arms control commitments.
Sec. 906. Annual report on arms control strategy.
Sec. 907. Report on antiballistic missile capabilities and activities of the Soviet Union.
Sec. 908. Analysis of alternative strategic nuclear force postures for the United States under a potential START Treaty.
Sec. 909. On-Site Inspection Agency.
Sec. 910. Coordination of verification policy and research and development activities.

TITLE X—MATTERS RELATING NATO COUNTRIES AND OTHER ALLIES

Sec. 1001. Increase in annual dollar limitation on acquisition and cross-servicing agreements with allied countries.
Sec. 1002. Authority to waive surcharges on certain sales to North Atlantic Treaty Organization.
Sec. 1003. Authority of military departments to loan and borrow from foreign countries materials, supplies, and equipment for research and development purposes.
Sec. 1004. Sense of Congress on need for modernization of theater nuclear capabilities of NATO.
Sec. 1005. Report on NATO Defense Program for fiscal year 1990.
Sec. 1006. Improvement in defense research and procurement liaison with Israel.
Sec. 1007. Modification of requirement concerning designation of major non-NATO allies.
Sec. 1008. Call for continued defense burdensharing discussions with allies.
Sec. 1009. Contributions by Japan to global stability.

TITLE XI—DRUG INTERDICTION AND LAW ENFORCEMENT SUPPORT

Sec. 1101. Annual guidelines to the military departments.
Sec. 1102. Lead agency for detection.
Sec. 1103. Communications Network.
Sec. 1104. Enhanced drug interdiction and law enforcement assistance by the Department of Defense.
Sec. 1105. Enhanced drug interdiction and enforcement role for the National Guard.
Sec. 1106. Funding of activities related to drug interdiction.
Sec. 1107. Reports.

TITLE XII—GENERAL PROVISIONS

PART A—FINANCIAL AND BUDGET MATTERS

Sec. 1201. Transfer authority.
Sec. 1202. Increase in fiscal year 1988 defense funds transfer authorization.

PART B—FISCAL YEAR 1988 UNAUTHORIZED APPROPRIATIONS

Sec. 1211. Authority for obligation of certain unauthorized fiscal year 1988 defense appropriations.
Sec. 1212. Limitation on obligation for certain unauthorized appropriations.
Sec. 1213. Repeal of certain appropriations general provisions.

PART C—NAVAL VESSELS AND SHIPYARDS

Sec. 1221. Naming of Trident submarine the U.S.S. Melvin Price.
Sec. 1222. Naming a Navy ship the U.S.S. Bob Hope.
Sec. 1223. Rate of progress payments on naval ship repair contracts.
Sec. 1224. Limitation on repair of naval vessels in foreign shipyards.
Sec. 1225. Competition between public and private shipyards for overhaul of naval vessels.
Sec. 1226. Depot-level maintenance of ships.
Sec. 1227. Report on effects of naval shipbuilding plans on maritime industries.
Sec. 1228. Report on encouragement of construction in United States shipyards of combatant vessels for allies.
Sec. 1229. Report on small patrol boats of Navy.

PART D—MISCELLANEOUS

Sec. 1231. Report on susceptibility of defense computer assets to computer viruses.
Sec. 1232. Reassessment of Soviet electronic espionage capability from Mount Alto embassy site.
Sec. 1233. Technical and clerical amendments.
Sec. 1234. References to the Canal Zone.

TITLE XIII—FOREIGN RELATIONS MATTERS

Sec. 1301. Sense of Congress concerning the Panama Canal and the United States Southern Command.
Sec. 1302. Limitation on assistance to Panamanian Defense Force.
Sec. 1303. Sense of Congress concerning indictment of General Noriega of Panama on drug-related charges.
Sec. 1304. Sense of Congress on introduction of Armed Forces into Nicaragua for combat.

Sec. 1305. Human rights violations by the government of Poland.
Sec. 1306. Conditions for sale or other transfer of F-15 aircraft to Saudi Arabia.
Sec. 1307. Restriction on sale of defense articles to certain nations.
Sec. 1308. United States bases in the Republic of the Philippines.
Sec. 1309. Annual assessment of security at United States bases in the Philippines.
Sec. 1310. Economic sanctions against Ethiopia.

TITLE XIV—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

Sec. 1401. Operating expenses.
Sec. 1402. Plant and capital equipment.
Sec. 1403. Funding limitations.

PART B—RECURRING GENERAL PROVISIONS

Sec. 1421. Reprogramming.
Sec. 1422. Limits on general plant projects.
Sec. 1423. Limits on construction projects.
Sec. 1424. Fund transfer authority.
Sec. 1425. Authority for construction design.
Sec. 1426. Authority for emergency construction design.
Sec. 1427. Funds available for all national security programs of the Department of Energy.
Sec. 1428. Availability of funds.

PART C—MISCELLANEOUS PROVISIONS

Sec. 1431. Review of the inertial confinement fusion program.
Sec. 1432. Assistance to communities affected by closing of N Reactor.
Sec. 1433. Review of waste isolation pilot plant in New Mexico.
Sec. 1434. Authority to loan personnel and facilities to community development organizations near Hanford Reservation.
Sec. 1435. New production reactor.
Sec. 1436. Nuclear test ban readiness program.

PART D—DOE DEFENSE NUCLEAR FACILITIES SAFETY OVERSIGHT BOARD

Sec. 1441. Establishment of Defense Nuclear Facilities Safety Board.
Sec. 1442. Transfer.

TITLE XV—NATIONAL DEFENSE STOCKPILE

Sec. 1501. Authorized disposals.
Sec. 1502. Authorization of acquisitions.
Sec. 1503. Technical and clarifying amendments.

TITLE XVI—CIVIL DEFENSE

Sec. 1601. Authorization of appropriation.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

Sec. 2001. Short title.

TITLE XXI—ARMY

Sec. 2101. Authorized construction and land acquisition projects.
Sec. 2102. Family housing.
Sec. 2103. Improvements to military family housing units.
Sec. 2104. Defense access roads.
Sec. 2105. Authorization of appropriations, Army.
Sec. 2106. Extension of certain prior year authorizations.

TITLE XXII—NAVY

Sec. 2201. Authorized construction and land acquisition projects.
Sec. 2202. Family housing.
Sec. 2203. Improvements to military family housing units.
Sec. 2204. Defense access roads.
Sec. 2205. Authorization of appropriations, Navy.
Sec. 2206. Acquisition of housing at certain naval air stations.

TITLE XXIII—AIR FORCE

Sec. 2301. Authorized construction and land acquisition projects.
Sec. 2302. Family housing.
Sec. 2303. Improvement to military family housing units.
Sec. 2304. Authorization of appropriations, Air Force.
Sec. 2305. Extension of certain previous authorizations.

TITLE XXIV—DEFENSE AGENCIES

Sec. 2401. Authorized construction and land acquisition projects.
Sec. 2402. Family housing.
Sec. 2403. Improvements to military family housing units.
Sec. 2404. AFCENT School.
Sec. 2405. Conforming storage facilities.
Sec. 2406. Defense access roads.
Sec. 2407. Authorization of appropriations, Defense Agencies.
Sec. 2408. Resiting of overseas contingency medical facility.
Sec. 2409. Extension of certain previous authorizations.
Sec. 2410. Reynolds Army Community Hospital, Fort Sill, Oklahoma, and Seoul Army Community Hospital, Seoul, Korea.

TITLE XXV—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

Sec. 2501. Authorized construction and land acquisition projects.
Sec. 2502. Authorization of appropriations, NATO.

TITLE XXVI—GUARD AND RESERVE FACILITIES

Sec. 2601. Authorized Guard and Reserve construction and land acquisition projects.
Sec. 2602. Aircraft parking ramp/holding pad at Yeager Airport, Charleston, West Virginia.
Sec. 2603. Construction of replacement facilities at O'Hare Air Reserve forces facility, Illinois.

TITLE XXVII—EXPIRATION OF AUTHORIZATIONS; EFFECTIVE DATE

Sec. 2701. Expiration of authorizations and amounts required to be specified by law.
Sec. 2702. Effective date.

TITLE XXVIII—GENERAL PROVISIONS

PART A—PROGRAM CHANGES

Sec. 2801. Long-term facilities contracts.
Sec. 2802. Increase in foreign housing leasing authority.
Sec. 2803. Reports on real property transactions.
Sec. 2804. Notification requirement relating to acquisition of interest in land.
Sec. 2805. Planning assistance for impacted communities.

PART B—MISCELLANEOUS

Sec. 2811. Prohibition of funding for certain military construction contracts on Guam.
Sec. 2812. Brooke Army Medical Center.
Sec. 2813. Community planning assistance.
Sec. 2814. Fort DeRussy, Hawaii.
Sec. 2815. Wurtsmith Air Force Base, Michigan.
Sec. 2816. Location of hazardous waste storage facility at Pearl Harbor Naval Shipyard.
Sec. 2817. Solicitation for proposals for office space for Navy.
Sec. 2818. Third Infantry Division Memorial.
Sec. 2819. Commission on alternative utilization of military facilities.

PART C—REAL PROPERTY TRANSACTIONS

Sec. 2821. Land exchange, Alameda County, California.
Sec. 2822. Land conveyance, Lompoc, California.
Sec. 2823. Land easement, Orange County, California.
Sec. 2824. Land exchange, San Diego, California.
Sec. 2825. Land transfer, Washington, District of Columbia.
Sec. 2826. Land conveyance, Okaloosa County, Florida.
Sec. 2827. Transfer of land, Suitland Federal Center, Maryland.
Sec. 2828. Air Force plant at Columbus, Ohio.
Sec. 2829. Land conveyance, Fort Jackson, South Carolina.

SEC. 4. STATUTORY CONSTRUCTION

(a) ORDER OF ENACTMENT WITH APPROPRIATIONS ACT.—In applying any rule of statutory construction, the provisions of this Act shall be deemed to have been enacted before the provisions of the Department of Defense Appropriations Act, 1989, (regardless of the actual dates of enactment concerned).

(b) TERMINATION OF REFERENCED AUTHORIZATION PROVISION.—If this Act is enacted after the Department of Defense Appropriations Act, 1989—

(1) section 10001 of that Act shall cease to be effective upon the enactment of this Act; and

(2) subject to subsection (a), this Act shall be deemed for all purposes to have been enacted on the date of the enactment of such Act.

DIVISION A—DEPARTMENT OF DEFENSE AND OTHER NATIONAL DEFENSE AUTHORIZATIONS

TITLE I—PROCUREMENT

PART A—FUNDING AUTHORIZATIONS

SEC. 101. ARMY

Funds are hereby authorized to be appropriated for fiscal year 1989 for procurement for the Army as follows:

(1) For aircraft, $2,883,700,000.

(2) For missiles, $2,605,200,000.

(3) For weapons and tracked combat vehicles, $2,915,100,000.

(4) For ammunition, $2,064,036,000.

(5) For other procurement, $4,580,346,000, of which—

(A) $872,671,000 is for tactical and support vehicles;

(B) $2,811,727,000 is for communications and electronics equipment; and

(C) $895,948,000 is for other support equipment.

SEC. 102. NAVY AND MARINE CORPS

(a) AIRCRAFT.—Funds are hereby authorized to be appropriated for fiscal year 1989 for procurement of aircraft for the Navy in the amount of $9,259,253,000.

(b) WEAPONS.—Funds are hereby authorized to be appropriated for fiscal year 1989 for procurement of weapons (including missiles and torpedoes) for the Navy in the amount of $5,972,181,000. Amounts authorized under the preceding sentence are available as follows:

(1) For ballistic missile programs, $1,872,538,000.

(2) For other missile programs, $3,203,737,000.

(3) For torpedo programs, $700,054,000 as follows:

For the MK-48 torpedo program, $431,014,000.

For the MK-50 torpedo program, $198,547,000.

For the Vertical Launched ASROC program, $17,552,000.

For the modification of torpedoes and related equipment, $3,289,000.

For the torpedo support equipment program, $25,988,000.

For the antisubmarine warfare range support program, $22,664,000.

(4) For other weapons, $108,440,000, of which—

(A) $19,449,000 is for the MK-15 close-in weapon system; and

(B) $54,557,000 is for the close-in weapon system modification program.

(5) For spares and repair parts, $87,412,000.

(c) SHIPBUILDING AND CONVERSION.—Funds are hereby authorized to be appropriated for fiscal year 1989 for shipbuilding and conversion for the Navy in the amount of $9,056,100,000. Amounts authorized under the preceding sentence are available as follows:

For the Trident submarine program, $1,368,100,000.

For the SSN-688 nuclear attack submarine program, $1,493,600,000.

For the SSN-21 nuclear attack submarine program, $1,488,000,000.

For the aircraft carrier service life extension program (SLEP), $135,400,000.

For the DDG-51 guided missile destroyer program, $2,207,300,000.

For the LHD-1 amphibious assault ship program, $737,500,000.

For the MHC coastal minehunter program, $197,200,000.

For the TAO-187 fleet oiler program, $284,900,000.

For the AO (Jumbo) conversion program, $84,900,000.

For the TAGOS ocean surveillance ship program, $159,600,000.

For the AOE fast combat support ship program, $363,900,000.

For the landing craft, air cushion (LCAC) program, $192,600,000.

For outfitting and post delivery, $343,100,000.

(d) OTHER PROCUREMENT, NAVY.—Funds are hereby authorized to be appropriated for fiscal year 1989 for other procurement for the Navy in the amount of $4,817,750,000. Amounts authorized under the preceding sentence are available as follows:

(1) For the ship support equipment program, $649,740,000.

(2) For the communications and electronics equipment program, $1,548,164,000.

(3) For aviation support equipment, $550,692,000.

(4) For the ordnance support equipment program, $1,135,671,000.

(5) For civil engineering support equipment, $109,061,000.

(6) For supply support equipment, $126,495,000.

(7) For personnel and command support equipment, $470,731,000.

(8) For spares and repair parts, $227,196,000.

(e) MARINE CORPS.—Funds are hereby authorized to be appropriated for fiscal year 1989 for procurement for the Marine Corps in the amount of $1,297,265,000.

SEC. 103. AIR FORCE

Funds are hereby authorized to be appropriated for fiscal year 1989 for procurement for the Air Force as follows:

(1) For aircraft, $16,125,024,000.

(2) For missiles, $7,716,533,000.

(3) For other procurement, $8,196,782,000, of which—

(A) $605,087,000 is for munitions and associated support equipment;

(B) $279,768,000 is for vehicular equipment;

(C) $1,893,245,000 is for electronics and telecommunications equipment; and

(D) $5,418,682,000 is for other base maintenance and support equipment.

SEC. 104. DEFENSE AGENCIES

Funds are hereby authorized to be appropriated for fiscal year 1989 for procurement for the Defense Agencies in the amount of $1,205,100,000.

SEC. 105. CHEMICAL DEMILITARIZATION PROGRAM

Funds are hereby authorized to be appropriated for fiscal year 1989 for the chemical demilitarization program under section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521) in the amount of $179,500,000, of which—

(1) $44,300,000 is for procurement;

(2) $17,900,000 is for research, development, test, and evaluation; and

(3) $117,300,000 is for operation and maintenance.

SEC. 106. RESERVE COMPONENTS

Funds are hereby authorized to be appropriated for fiscal year 1989 for procurement of aircraft, vehicles, communications equipment, and other miscellaneous equipment for the reserve components of the Armed Forces as follows:

For the Army National Guard, $240,000,000.

For the Air National Guard, $216,500,000.

For the Army Reserve, $30,000,000.

For the Naval Reserve, $75,000,000.

For the Air Force Reserve, $232,000,000.

For the Marine Corps Reserve, $50,000,000.

SEC. 107. AUTHORIZED MULTIYEAR CONTRACTS

(a) ARMY.—Subject to subsections (d) and (e), the Secretary of the Army may enter into multiyear contracts in accordance with section 2306(h) of title 10, United States Code, for procurement of the following:

(1) CH-47D helicopter modification.

(2) Multiple Launch Rocket System (MLRS).

(3) T-700 helicopter engine.

(4) AH-64 Apache helicopters.

(5) M1 Abrams tanks for 3,000 tanks.

(b) NAVY AND MARINE CORPS.—Subject to subsections (d) and (e), the Secretary of the Navy may enter into multiyear contracts in accordance with section 2306(h) of title 10, United States Code, for procurement of the following:

(1) AV-8B aircraft.

(2) UHF Follow-On Satellite System.

(c) AIR FORCE.—Subject to subsections (d) and (e), the Secretary of the Air Force may enter into multiyear contracts in accordance with section 2306(h) of title 10, United States Code, for procurement of the following:

(1) F-16 aircraft.

(2) Defense Meteorological Satellite Program (DMSP).

(d) CONDITIONS.—A multiyear contract authorized by this section may not be entered into unless each of the following conditions is satisfied:

(1) The Secretary of Defense certifies to Congress that the current five-year defense program fully funds the support costs associated with the multiyear program.

(2) The proposed multiyear contract provides for production at not less than minimum economic rates given the existing tooling and facilities.

(3) The proposed multiyear contract—

(A) achieves a 10 percent savings as compared to the cost of current negotiated contracts, adjusted for changes in quantity and for inflation; or

(B) achieves a 12 percent savings as compared to annual contracts if no recent contract experience exists.

(e) NEGOTIATED PRICED OPTIONS.—The Secretary of Defense may instruct the Secretary of the military department concerned to incorporate into a proposed multiyear contract under this section negotiated priced options for varying the quantities of end items to be procured over the period of the contract.

PART B—PROGRAM REQUIREMENTS, RESTRICTIONS, AND LIMITATIONS

SEC. 111. ARMY PROGRAMS

(a) ADATS AIR DEFENSE WEAPON.—(1) The Secretary of the Army may obligate funds appropriated for fiscal year 1989 for procurement of the ADATS Air Defense Weapon system in the amount of $85,000,000 for production of five fire units and 60 missiles to be used specifically for production qualification testing and operational testing. Funds may be obligated for such purpose only after the Director of Operational Test and Evaluation of the Department of Defense certifies to the Committees on Armed Services of the Senate and House of Representatives that he has approved the plan for the qualification testing and operational testing for such system.

(2) The Secretary of the Army may obligate funds for procurement and advanced procurement for such system for any fiscal year after fiscal year 1989 only after—

(A) the operational tests for such system are completed;

(B) the Secretary of Defense certifies to the Committees on Armed Services of the Senate and House of Representatives that the system meets or exceeds the operational performance criteria of the Army;

(C) the Director of Operational Test and Evaluation of the Department of Defense provides to those Committees his evaluation of the performance of the system; and

(D) the Comptroller General of the United States provides to those Committees his evaluation of the performance of the system.

(b) MORTARS.—The Secretary of the Army may not obligate funds appropriated for fiscal year 1989 for procurement of 120-millimeter mortars or 4.2-inch mortars (or for procurement of ammunition for either such mortar) until the Secretary does each of the following:

(1) Submits to Congress a new master plan for Army mortars, including a description of the status of 4.2-inch mortars (and the ammunition for such mortars) and the status of any proposed upgrade of such mortar or ammunition.

(2) Certifies to Congress that the current Five-Year Defense Program provides for funding for the initiatives set forth in such master plan.

(3) Completes the analysis (referred to as an "Arsenal Act analysis") of the cost-effectiveness of using domestic sources (as provided under section 4532 of title 10, United States Code) for manufacture of 120-milli-

meter mortars that was specified in section 122(a)(2) of Public Law 99-661.

(c) 155-MILLIMETER BASE BURN ASSEMBLY UNITS.—(1) If the contractor for low-rate initial production of base burn assembly units for the 155-millimeter M864 artillery projectile certifies to the Secretary of the Army that the contractor is willing to finance the expenses of preparing facilities and equipment at (and otherwise "facilitizing") a Government-owned contractor-operated Army ammunition plant for production of such base burn assembly units, the Secretary shall contract with that contractor for production of not less than 96,000 of such units with funds appropriated for such program for each of fiscal years 1989 and 1990 (for a production rate of not less than 8,000 units per month under the program for those fiscal years).

(2) In carrying out the program for production of such base burn assembly units, the Secretary of the Army, through the use of competitive procedures, shall select a second source producer for such base burn assembly units during fiscal year 1989.

SEC. 112. NAVY PROGRAMS

(a) AH-1W GROUND SUPPORT EQUIPMENT.—Of the amount appropriated pursuant to section 102 for the Navy for procurement, $55,000,000 may be obligated only for the procurement of AH-1W ground support equipment.

(b) TRIDENT II MISSILE PROGRAM.—(1) Of the amounts appropriated pursuant to section 102 for the Navy for the procurement of missiles for fiscal year 1989, $1,865,609,000 may be obligated only for the Trident II missile program.

(2) In achieving any undistributed reduction required to be made in programs, projects, or activities for which funds have been appropriated to the Department of Defense for fiscal year 1989, no reduction may be made in the amount of funds available for the Trident II missile program.

(c) DDG-51 DESTROYER PROGRAM COMPETITION.—Notwithstanding the proviso to the item relating to the DDG-51 destroyer program in the paragraph under the heading "SHIPBUILDING AND CONVERSION, NAVY" in title III of the Department of Defense Appropriations Act, 1988 (as contained in section 101(b) of Public Law 100-202), the Secretary of the Navy may limit competition for the shipbuilding portion of the DDG-51 destroyer program for any fiscal year to the two shipyard contractors to which such competition was limited on December 21, 1987 (the day before the date of the enactment of Public Law 100-202), if the Secretary certifies to the Committees on Armed Services of the Senate and House of Representatives that the limitation of such competition to those contractors either—

(1) would likely result in a lower total cost to the United States for the fiscal year 1989 program than would result from including other shipyard contractors in the competition; or

(2) is necessary to meet the cost, schedule, or performance requirements of the Navy or such other requirements of the Navy as may be determined by the Secretary.

(d) USE OF PRIOR YEAR FUNDS FOR DDG-51 DESTROYER PROGRAM.—(1) There are hereby authorized to be transferred to the shipbuilding and conversion program for the Navy for fiscal year 1988, to the extent provided in appropriation Acts, amounts that were appropriated for the Department of Defense for fiscal year 1988 or any prior fiscal year that remain available for obligation and that are no longer required for the purpose for which originally appropriated. The total amount transferred pursuant to the authority of this section may not exceed $730,000,000. Amounts transferred pursuant to this section shall be used for the procurement of one DDG-51 class guided missile destroyer.

(2) The authority to transfer amounts under this subsection is in addition to any other authority to transfer amounts provided in this or any other Act.

(3) A transfer pursuant to the authority provided by this section shall not extend the period of availability for obligation of the amounts so transferred.

(e) MARINE CORPS TACTICAL RADIOS.—Amounts previously appropriated to the Navy for procurement of TSEC/KY-67 (Bancroft) radios and that are available for obligation may be obligated only for procurement of SINCGARS radios.

(f) 5-INCH SEMIACTIVE LASER-GUIDED PROJECTILE PROGRAM.—Of the funds appropriated or otherwise made available for other procurement for the Navy for fiscal year 1989, the Secretary of the Navy shall make available such funds as necessary for the 5-inch semiactive laser-guided projectile program in order to complete production qualification of 150 of such projectiles, with 50 such projectiles to be produced by each of the three established competitive sources.

SEC. 113. AIR FORCE PROGRAMS

(a) AIR NATIONAL GUARD USE OF CERTAIN AIRCRAFT.—The Secretary of the Air Force may authorize the Air National Guard to use the eight C-130 aircraft (and support equipment related to such aircraft) that are in long-term storage at Air Force plant #6, Marietta, Georgia. Of funds appropriated for the Air Force for fiscal year 1989 for modification of C-130 aircraft, $17,500,000 shall be available only to refurbish such aircraft for full operational use.

(b) AIR FORCE LAUNCH FACILITY.—Funds appropriated or otherwise made available to the Air Force for fiscal year 1989 may not be obligated or expended in connection with the launch facility at Vandenberg Air Force Base, California (designed for the launch of Titan IV expendable launch vehicles), identified as the SLC-7 Launch Facility.

SEC. 114. INTERIM INFANTRY ANTI-TANK WEAPON

(a) DETERMINATION OF INTERIM INFANTRY ANTI-TANK WEAPON.—The Secretary of the Army shall select an interim infantry anti-tank weapon from among the Milan II weapon, the Bofors Bill weapon, Dragon Generation II weapon, and the Marine Corps Dragon Generation III weapon. The selection shall be based on the Secretary's determination of which of such weapons is the most effective weapon on the basis of all of the operational testing and evaluation of those weapons conducted as of June 1, 1989. The Secretary shall manage the program for the weapon selected so that such weapon is ready to enter into low-rate initial production during fiscal year 1990.

(b) OT&E ASSESSMENT.—The Director of Operational Test and Evaluation of the Department of Defense shall conduct an independent assessment of the operational tests and evaluations referred to in subsection (a). The Director shall submit a report on such assessment to the Committees on Armed Services of the Senate and House of Representatives not later than June 1, 1989.

SEC. 115. SOURCE SELECTION AUTHORITY FOR THE PALLETIZED LOADING SYSTEM

Section 259(b) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1068) is amended by striking out "The Under Secretary of Defense for Acquisition" at the beginning of the second sentence and inserting in lieu thereof "The Acquisition Executive for the Department of the Navy".

SEC. 116. BIGEYE BINARY CHEMICAL BOMB

(a) AUTHORIZED PROCUREMENT FOR TESTING.—(1) Except as provided in paragraph (2), funds appropriated or otherwise made available to the Department of Defense for fiscal years before fiscal year 1989 for procurement under the BIGEYE binary chemical bomb program may be obligated or expended in connection with such program only for procurement of production-configured bombs. Any bombs procured under the preceding sentence may be used only in conducting required follow-on operational testing scheduled to be performed during fiscal years 1989 and 1990.

(2) Any such funds not obligated for the purpose described in paragraph (1) may be used for the purpose of maintaining program continuity for the BIGEYE bomb program.

(3) None of the funds referred to in paragraphs (1) and (2) may be used for low-rate initial production.

(b) CONDITIONS FOR OBLIGATION OF FUNDS FOR PROCUREMENT.—Except as provided in subsection (f), funds appropriated or otherwise made available to the Department of Defense after the date of the enactment of this Act may not be obligated or expended for procurement of the BIGEYE binary chemical bomb, or for any component of such bomb or the assembly of such bomb, until the reports required by subsections (c) and (d) have been submitted in accordance with those subsections and only then if neither of those reports includes a certification that one or more of the production certification conditions has not been met.

(c) CERTIFICATION BY DIRECTOR, OT&E.—Upon the completion of operational and developmental tests conducted in connection with the BIGEYE binary chemical bomb program, the Director of Operational Test and Evaluation of the Department of Defense shall submit to Congress a report certifying, with respect to each of the production certification conditions, whether or not, in the judgment of the Director, such condition has been met.

(d) CERTIFICATION BY COMPTROLLER GENERAL.—Upon the submission of the report under subsection (c), the Comptroller General of the United States shall submit to Congress a report certifying, with respect to each of the production certification conditions, whether or not, in the judgment of the Comptroller General, such condition has been met.

(e) PRODUCTION CERTIFICATION CONDITIONS.—For purposes of this section, the term "production certification conditions" means, with respect to the operational and developmental tests of the BIGEYE bomb, each of the following:

(1) That the operational and developmental tests conducted in connection with such program after the date of the enactment of this Act were realistic and adequate.

(2) That the plan and objectives for those tests were clear, well defined, and properly quantifiable.

(3) That the design of those tests supports a valid statistical analysis of data.

(4) That the criteria for a no-test were adequately defined in the plan for those tests.

(5) That the performance of such bomb in those tests met or exceeded the standards established for the tests.

(6) That the BIGEYE bomb program is otherwise ready to proceed into full-scale production.

(f) Fiscal Year 1989 Authorized Activities.—Of amounts appropriated or otherwise made available to the Department of Defense for fiscal year 1989, $15,000,000 may be obligated or expended for procurement for the BIGEYE program without regard to the limitations contained elsewhere in this section, but only for the purposes of maintaining program continuity, maintaining the subcontractor base, and procuring piece parts and components. Such funds may not be obligated or expended for low-rate initial production or for final assembly.

SEC. 117. MANAGEMENT OF CERTAIN DEFENSE PROCUREMENT PROGRAMS

(a) Stretchout Impact Statement.—The Secretary of Defense shall submit to Congress, at the same time the budget for any fiscal year is submitted to Congress under section 1105 of title 31, United States Code, a statement of what the effect would be during the fiscal year for which the budget is submitted of the stretchout of a major defense acquisition program if either of the following applies with respect to that program:

(1) The final year of procurement scheduled for the program at the time the statement is submitted is more than two years later than the final year of procurement for the program as specified in the most recent annual Selected Acquisition Report for that program.

(2) The proposed procurement quantity for that fiscal year is less than 90 percent of the procurement quantity proposed for the same fiscal year in the most recent annual Selected Acquisition Report for that program.

(b) Changes in Certain Costs To Be Included.—A statement under subsection (a) with respect to a major defense acquisition program shall contain an estimate of the projected increase in unit cost and the projected increase in total program cost for the system being procured under the program compared to the program specified in the most recent annual Selected Acquisition Report for that program.

(c) Identification of Stretched Out Programs.—The Secretary shall include in a er subsection (a) identification of all major acquisition programs for which the proposed procurement quantity for that fiscal year is less than 80 percent of the baseline production rate for that fiscal year, as defined by section 2432(c)(3)(C)(i) of title 10, United States Code, and an explanatory statement for the lower procurement rate for each program.

(d) Limitations.—(1) Subsection (a) shall apply only for major defense acquisition programs for which procurement is proposed at a rate of six or more units per year.

(2) Subsection (a) shall not apply if the total procurement quantity has been increased, compared to the program specified in the most recent annual Selection Acquisition Report for that program, and subsection (a)(2) does not apply.

(e) Report on Establishing Maximum Production Rates.—Not later than March 15, 1989, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the feasibility and effect of establishing maximum production rates by December 1990 for certain major defense acquisition programs. The report shall identify and discuss ten programs, of which seven shall be programs for the procurement of conventional, tactical, or dual-capable systems.

(f) Definition.—For purposes of this section, the term "major defense acquisition program" has the meaning given that term in section 2430 of title 10, United States Code.

SEC. 118. MODIFICATIONS IN CHEMICAL DEMILITARIZATION PROGRAM

(a) Extension of Deadline for Completion of Program.—Subsection (b) of section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1512(b)) is amended—

(1) by striking out "September 30, 1994" in paragraphs (1) and (3)(A) and inserting in lieu thereof "the stockpile elimination deadline";

(2) in paragraph (3)(B), by striking out "within 30 days" and all that follows in that paragraph and inserting in lieu thereof "not later than the earlier of (A) 30 days after the date on which the decision to defer is made, or (B) 30 days before the stockpile elimination deadline."; and

(3) by adding at the end the following new paragraphs:

"(4) If the Secretary determines at any time that there will be a delay in meeting the requirement in paragraph (1) for the completion of the destruction of chemical weapons by the stockpile elimination deadline, the Secretary shall immediately notify the Committees on Armed Services of the Senate and House of Representatives of that projected delay.

"(5) For purposes of this section, the term 'stockpile elimination deadline' means April 30, 1997.".

(b) Requirement for Successful Completion of Operational Verification.—Such section is further amended by striking out subsection (k) and inserting in lieu thereof the following:

"(k) Operational Verification.—(1) Until the Secretary of the Army successfully completes (through the prove-out work to be conducted at Johnston Atoll) operational verification of the technology to be used for the destruction of live chemical agents and munitions under this section, the Secretary may not conduct any activity for equipment prove out and systems test before live chemical agents are introduced at a facility (other than the Johnston Atoll facility) at which the destruction of chemical agent and munitions weapons is to take place under this section. The limitation in the preceding sentence shall not apply with respect to the Chemical Agent Munition Disposal System in Tooele, Utah.

"(2) Upon the successful completion of the prove out of the equipment and facility at Johnston Atoll, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report certifying that the prove out is completed.

"(3) If the Secretary determines at any time that there will be a delay in meeting the deadline of December 31, 1990, scheduled by the Department of Defense for completion of the operational verification at Johnston Atoll referred to in paragraph (1), the Secretary shall immediately notify the Committees of that projected delay.".

SEC. 119. REPORT ON NAVY AIRCRAFT REQUIREMENTS

Not later than December 1, 1988, the Secretary of Defense shall submit to Congress a detailed report on the current and projected requirements of the Navy for aircraft. The Secretary shall include in such report the following information:

(1) The plans of the Department of Defense to alleviate existing shortfalls of Navy aircraft.

(2) The plans of the Department of Defense to maintain or reduce the current average age of Navy combat aircraft.

(3) The plans of the Department of Defense to modify Navy aircraft to make such aircraft effective against current and projected threats.

(4) The level of funding required to carry out the plans referred to in paragraphs (1), (2), and (3) during fiscal years 1990 through 1994.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Part A—Authorizations and Funding for Specific Programs

SEC. 201. AUTHORIZATION OF APPROPRIATIONS

Funds are hereby authorized to be appropriated for fiscal year 1989 for the use of the Armed Forces for research, development, test, and evaluation, in amounts as follows:

For the Army, $5,198,444,000.

For the Navy (including the Marine Corps), $9,383,162,000.

For the Air Force, $14,680,825,000.

For the Defense Agencies, $8,707,727,000, of which—

(1) $155,900,000 is authorized for the activities of the Deputy Under Secretary of Defense, Test and Evaluation; and

(2) $123,400,000 is authorized for the Director of Operational Test and Evaluation.

SEC. 202. FUNDING FOR ICBM MODERNIZATION PROGRAMS

(a) Program Funds.—Of the funds appropriated pursuant to section 201 for the Air Force, the amount of $890,000,000 shall be available for ICBM modernization programs.

(b) Allocation.—Of the amounts specified in subsection (a)—

(1) $40,000,000 shall be available for continued development and flight testing of the MX missile;

(2) $250,000,000 shall be available for the small ICBM program; and

(3) $600,000,000 shall be available for the MX Rail-Garrison program.

(c) Limitation on Obligation.—Of the amount specified in subsection (b)(3), the amount obligated before February 15, 1989, may not exceed $250,000,000.

(d) Presidential Report.—During the period beginning on January 21, 1989, and ending on February 15, 1989, the President shall submit to the Committees on Armed Services and the Committees on Appropriations of the Senate and House of Representatives a report on—

(1) anticipated obligations for the remainder of fiscal year 1989 for the small ICBM program, the MX Rail-Garrison program, and other ICBM modernization programs; and

(2) the purposes those obligations are intended to accomplish.

SEC. 203. DARPA NUCLEAR MONITORING PROGRAM

Of the amount appropriated pursuant to section 201 for Defense Agencies, $37,600,000 shall be available only to the Defense Advanced Research Projects Agency for the nuclear monitoring program.

SEC. 204. GRANT FOR SEMICONDUCTOR COOPERATIVE RESEARCH PROGRAM

Of the amount appropriated pursuant to section 201 for Defense Agencies, $100,000,000 shall be available only to make grants under section 272 of Public Law 100-180.

SEC. 205. AIRSHIP PROGRAM

Of the amounts appropriated pursuant to section 201, the Secretary of Defense may make available an amount not to exceed $25,000,000 for the Airship Program.

SEC. 206. EXTENDED AIR DEFENSE

Of the amount appropriated pursuant to section 201 for Defense Agencies, $25,000,000 may be obligated only upon approval of the Director of Defense Research and Engineering for the purpose of research and development in connection with antitactical missile systems. If any such funds are made available to a firm in an allied country, those funds may not be obligated until the Secretary of Defense enters into a cooperative program with that country for that purpose.

SEC. 207. PRODUCT EVALUATION ACTIVITY

Of the amounts appropriated pursuant to section 201, $17,500,000 shall be available only for the product evaluation activity provided for under section 2369 of title 10, United States Code, as added by section 842 of this Act.

SEC. 208. CHEMICAL WEAPONS CONVENTION COMPLIANCE MONITORING PROGRAM

Of the amounts appropriated pursuant to section 201, $6,800,000 shall be available only to conduct a program to develop and demonstrate compliance monitoring capabilities in support of the Convention on the Prohibition of Chemical Weapons proposed by the United States in the Conference on Disarmament.

SEC. 209. OPTOELECTRONICS MATERIALS CENTER

Of the amounts appropriated pursuant to section 201 for Defense Agencies, $14,500,000 shall be available only for the establishment of an Optoelectronics Materials Center at a university in the United States and for the acquisition of associated facilities.

PART B—PROGRAM REQUIREMENTS, RESTRICTIONS, AND LIMITATIONS

SEC. 211. TRIDENT II MISSILE PROGRAM

(a) TRIDENT II MISSILE.—Of the amount appropriated pursuant to section 201 for the Navy, $580,889,000 may be obligated only for the Trident II missile program.

(b) UNDISTRIBUTED REDUCTION.—In achieving any undistributed reduction required to be made in programs, projects, or activities for which funds have been appropriated to the Department of Defense for fiscal year 1989, no reduction may be made in the amount of funds available for the Trident II missile program.

SEC. 212. BALANCED TECHNOLOGY INITIATIVE

(a) AMOUNTS AUTHORIZED.—Of the amounts appropriated pursuant to section 201—

(1) $263,000,000 may be obligated only for research and development in connection with those programs, projects, and activities initiated pursuant to section 222 of the Department of Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3845) or section 215 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 100 Stat. 1050); and

(2) $50,000,000 may be obligated only for research and development under the Balanced Technology Initiative and only for new and innovative programs, projects, and activities that have not been designated for funding under a provision of law referred to in clause (1).

(b) DETERMINATION OF SOURCE OF FUNDS.—The Director of Defense Research and Engineering shall determine the amount of the funds appropriated to the Army, Navy, Air Force, and Defense Agencies pursuant to section 201 that are to be allocated (as provided in subsection (a)) for the Balanced Technology Initiative. The Director shall make such determination on the merits of the programs, projects, and activities referred to in section 215(b) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 that are carried out by the Army, Navy, Air Force, and Defense Agencies, taking into consideration ongoing technology research and exploitation opportunities.

(c) PROHIBITION REGARDING UNDISTRIBUTED REDUCTIONS.—No portion of any undistributed reduction may be applied against the funds allocated under subsection (a) or against any funds made available for the Balanced Technology Initiative that are in addition to the funds specified in subsection (a).

(d) PROHIBITION ON USE OF FUNDS FOR SDI.—None of the funds allocated under subsection (a) may be used in connection with any program, project, or activity in support of the Strategic Defense Initiative.

(e) REPORT.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committees on Armed Services and the Committees on Appropriations of the Senate and House of Representatives a report on the implementation of this section. The report shall include the following:

(1) The amount allocated under subsection (a) for each program, project, or activity and the identification of the source of such amount.

(2) Identification of other ongoing research and development projects not provided for under this section that should be included in the Balanced Technology Initiative in order to improve conventional defense capabilities.

(3) For each program, project, or activity for which funds have been allocated under subsection (a) or which is identified under paragraph (2), a five-year funding plan that is sufficient to maintain significant progress in research and development under such program, project, or activity, including a description of the major milestones for each such program, project, or activity and the projected dates for achieving those milestones.

SEC. 213. ADVANCED TACTICAL AIRCRAFT AND ADVANCED TACTICAL FIGHTER PROGRAMS

(a) ADVANCED TACTICAL AIRCRAFT, NAVY.—Of the amounts made available to the Department of Defense pursuant to section 201 for the Advanced Tactical Aircraft program of the Navy, not more than 50 percent of such amounts may be obligated or expended unless the Secretary of Defense certifies to Congress that the Navy has budgeted sufficient funds for fiscal years 1990 through 1994 to participate in the demonstration and validation program (including source selection) for the Advanced Tactical Fighter of the Air Force.

(b) ADVANCED TACTICAL FIGHTER, AIR FORCE.—Of the amounts appropriated pursuant to section 201, not more than $350,000,000 may be obligated or expended for the Advanced Tactical Fighter program of the Air Force unless the Secretary of Defense certifies to Congress that the Air Force has budgeted sufficient funds for fiscal years 1990 through 1994 to participate in the full scale development of the Advanced Tactical Aircraft of the Navy.

SEC. 214. AIR-TO-AIR MISSILE PROJECT OFFICE

(a) LIMITATION.—Subject to subsection (b), amounts appropriated pursuant to section 201—

(1) may not be obligated in excess of $20,000,000 for the Advanced Air-to-Air Missile (AAAM) program; and

(2) may not be obligated in excess of $10,000,000 for the Advanced Medium-Range Air-to-Air Missile (AMRAAM) program.

(b) JOINT PROGRAM OFFICE.—Subsection (a) shall cease to apply upon the establishment by the Secretary of the Navy and the Secretary of the Air Force of a joint program office, to operate under the guidance of the Office of the Secretary of Defense, for codevelopment of the Advanced Air-to-Air Missile and the product improved Advanced Medium-Range Air-to-Air Missile.

SEC. 215. TRAINING IN ADVANCED MANUFACTURING TECHNOLOGIES

(a) FUNDS FOR PURCHASE AND INSTALLATION OF EQUIPMENT.—Of the amounts appropriated pursuant to section 201, not more than $15,000,000 may be obligated for the purchase of high technology manufacturing equipment and the installation of such equipment in a private, nonprofit center for advanced technologies for the purpose of training, in a production facility, machine tool operators in skills critical to the defense technology base to build, operate, and maintain such equipment.

(b) REQUIREMENTS.—Funds may not be obligated for the purpose described in subsection (a) until—

(1) the Secretary of Defense, the Secretary of Commerce, the Secretary of Labor, and the Secretary of Education enter into a memorandum of understanding concerning the participation of their respective departments in a project to demonstrate the training of machine technicians in a production facility;

(2) the Secretary of Defense approves the obligation of such funds for such purpose; and

(3) a period of 60 days elapses after the Secretary of Defense submits to the Committees on Armed Services of the Senate and House of Representatives a report that sets forth—

(A) a detailed explanation of proposed Federal expenditures,

(B) a description of the cost-sharing arrangements between the Government agencies concerned and the private sector, and

(C) a description of how the proposed program furthers the industrial and technological goals of the Department of Defense.

(c) CONFORMING AMENDMENT.—Section 219(b) of Public Law 100-180 is repealed.

SEC. 216. PROHIBITION ON OBLIGATION OF FUNDS FOR CANCELLED ANTISATELLITE WEAPON PROGRAM

(a) PROHIBITION.—Residual fiscal year 1988 ASAT funds may not be obligated for the ASAT program.

(b) RESIDUAL FISCAL YEAR 1988 ASAT FUNDS DEFINED.—For purposes of this section, the term "residual fiscal year 1988 ASAT funds" means funds in the amount of $16,000,000 which were appropriated to the Department of Defense for fiscal year 1988 for research, development, test, and evaluation for the Air Force which—

(1) were originally made available for the ASAT program; and

(2) which remain available for obligation following cancellation of that program by the Secretary of Defense.

(c) ASAT PROGRAM DEFINED.—For purposes of subsections (a) and (b), the term "ASAT program" means the program of the Air Force to develop an F-15 launched miniature homing vehicle antisatellite weapon.

SEC. 217. LONG-RANGE CONVENTIONAL CRUISE MISSILE

(a) REPORT.—Not later than December 31, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the plans and projected expenditures for the Long-Range Conventional Cruise Missile program of the Department of Defense.

(b) CONTENT OF REPORT.—The Secretary shall include in such report the following:

(1) The 5-year funding plan for the program.

(2) A discussion of how the program might be carried out under a joint entity of the military services.

(3) A discussion of the military missions that a long-range conventional cruise missile would be designed to fulfill.

(4) A list of the validated military requirements prescribed for a long-range conventional cruise missile.

(5) An estimate of when a long-range conventional cruise missile system incorporating the most recent advances in guidance, propulsion, mission planning, and munitions technologies would be ready for full-scale engineering development and testing of initial operating capability.

SEC. 218. SEEK SPINNER MISSILE PROGRAM

Funds appropriated or otherwise made available to the Department of Defense pursuant to this Act or any Act enacted after the date of the enactment of this Act may not be obligated or expended for the Seek Spinner Missile program in any configuration.

SEC. 219. DEPRESSED-TRAJECTORY BALLISTIC MISSILES

(a) ESTABLISHMENT OF DEFINITION.—Not later than April 1, 1989, the Secretary of Defense shall prescribe a definition of what constitutes a depressed trajectory for a strategic ballistic missile. The definition shall be prescribed in coordination with the Director of Central Intelligence. The Secretary shall prescribe such definition in specific quantitative terms so as to clearly distinguish ballistic missile trajectories which are depressed from other ballistic missile trajectories, including minimum-energy ballistic missile trajectories, so that if the United States and the Soviet Union mutually observe a policy of non-flight testing of depressed-trajectory strategic ballistic missiles, the observance of that policy—

(1) would, to the maximum possible degree, reduce the potential for a short-time-of-flight attack on strategic aircraft or other strategic assets the survivability or effectiveness of which depends on timely receipt of adequate warning of attack, but

(2) would not significantly affect present or planned practices of the United States for the testing of ballistic missiles that are not intended for development of a depressed-trajectory capability.

(b) REPORT.—Not later than April 1, 1989, the Secretary of Defense shall submit to Congress a report on depressed-trajectory strategic ballistic missiles (as defined under subsection (a)), which shall be prepared in coordination with the Director of Central Intelligence. The report shall set forth the definition prescribed under subsection (a) and shall include each of the following:

(1) An evaluation of the ability of the United States to monitor flight tests by the Soviet Union of depressed-trajectory strategic ballistic missiles (as defined under subsection (a)) on dedicated or nondedicated test ranges.

(2) A description of any past flight test of a ballistic missile by the United States or by the Soviet Union that would qualify as a test of a depressed-trajectory strategic ballistic missile as defined under subsection (a).

(3) An evaluation of the possibility that the Soviet Union could deploy depressed-trajectory ballistic missiles (as defined under subsection (a)) with sufficient confidence in the reliability of those missiles for use in an attack on the United States without further flight testing.

SEC. 220. REQUIREMENT OF COMPETITION FOR AWARD OF GRANTS AND CONTRACTS TO COLLEGES AND UNIVERSITIES FOR CERTAIN PURPOSES

(a) REQUIREMENT OF COMPETITION.—Chapter 139 of title 10, United States Code, is amended by inserting after section 2360 the following new section:

"§ 2361. Award of grants and contracts to colleges and universities: requirement of competition

"(a) The Secretary of Defense may not make a grant or award a contract to a college or university for the performance of research and development, or for the construction of any research or other facility, unless the grant or contract is made or awarded using competitive procedures.

"(b) A provision of law enacted after the date of the enactment of this section may not be construed as modifying or superseding the provisions of subsection (a) unless that provision of law specifically refers to this section and specifically states that such provision of law modifies or supersedes the provisions of this section.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2360 the following new item:

"2361. Award of grants and contracts to colleges and universities: requirement of competition.".

(c) EFFECTIVE DATE.—The limitation specified in section 2361(a) of title 10, United States Code (as added by subsection (a)), on the authority of the Secretary of Defense to make grants and award contracts shall take effect on October 1, 1989.

PART C—STRATEGIC DEFENSE INITIATIVE

SEC. 221. FUNDING FOR THE STRATEGIC DEFENSE INITIATIVE FOR FISCAL YEAR 1989

(a) AMOUNTS AUTHORIZED.—Of the amounts appropriated pursuant to section 201 or otherwise made available to the Department of Defense for research, development, test and evaluation for fiscal year 1989, not more than $3,738,000,000 may be obligated for the Strategic Defense Initiative.

(b) RESTRICTION ON USE OF FUNDS.—Amounts appropriated to or for the use of the Department of Defense for fiscal year 1989 may not be used to establish a Strategic Defense System Operational Test and Evaluation activity.

(c) REPORT BY SECRETARY OF DEFENSE.—Before the adjournment sine die of the second session of the One-Hundredth Congress, the Secretary of Defense shall submit to the Committees on Armed Services and the Committees on Appropriations of the Senate and House of Representatives a report on the Space-Based Interceptor (SBI) program of the Strategic Defense Initiative. The report shall include a discussion of the following matters with respect to the SBI program:

(1) Role of SBI in the Phase One architecture.

(2) SBI performance in the current system concept.

(3) SBI cost projections.

(4) Technology progress and plans.

(5) Launch requirements.

(6) Other programmatic details.

SEC. 222. REPORT ON ALLOCATION OF SDI FUNDING FOR FISCAL YEAR 1989

(a) REPORT.—The Secretary of Defense shall submit to the Committees on Armed Services and the Committees on Appropriations of the Senate and the House of Representatives a report on the allocation of funds appropriated or otherwise made available for the Strategic Defense Initiative for fiscal year 1989. The report shall specify the amount of such funds allocated for each program, project, or activity of the Strategic Defense Initiative within each appropriation account.

(b) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than 90 days after the date of the enactment of this Act.

SEC. 223. DEVELOPMENT AND TESTING OF ANTI-BALLISTIC MISSILE SYSTEMS OR COMPONENTS

(a) USE OF FUNDS.—(1) Funds appropriated to the Department of Defense for fiscal year 1989, or otherwise made available to the Department of Defense from any funds appropriated for fiscal year 1989 or for any fiscal year before 1989, shall be subject to the limitations prescribed in paragraph (2).

(2) The funds described in paragraph (1) may not be obligated or expended—

(A) for any development or testing of antiballistic missile systems or components except for development and testing consistent with the development and testing described in the March 1988 SDIO Report; or

(B) for the acquisition of any material or equipment (including any long lead materials, components, piece parts, test equipment, or any modified space launch vehicle) required or to be used for the development or testing of antiballistic missile systems or components, except for material or equipment required for development or testing consistent with the development and testing described in the March 1988 SDIO Report.

(3) The limitation under paragraph (2) shall not apply to funds transferred to or for the use of the Strategic Defense Initiative for fiscal year 1989 if the transfer is made in accordance with section 1201 of this Act.

(b) DEFINITION.—As used in this section, the term "March 1988 SDIO Report" means the report entitled, "Report to Congress on the Strategic Defense Initiative", dated March 23, 1988, prepared by the Strategic Defense Initiative Organization and submitted to certain committees of the Senate and House of Representatives pursuant to section 1102 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 10 U.S.C. 2431 note).

SEC. 224. ACCIDENTAL LAUNCH PROTECTION

(a) FINDINGS.—Congress makes the following findings:

(1) The United States is a signatory to the 1972 Anti-Ballistic Missile Treaty.

(2) The Soviet Union has deployed approximately 1,400 land-based intercontinental ballistic missiles and approximately 900 sea-based ballistic missiles.

(3) There have been several accidents involving ballistic missiles, including the loss of a submarine of the Soviet Union due to inadvertent missile ignition and the inad-

vertent landing in China of a test missile of the Soviet Union.

(4) Proliferation of ballistic missile technology, such as the action of the People's Republic of China in providing ballistic missiles to Saudi Arabia, raises the possibility of future nuclear threats.

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the Secretary of Defense should direct the Strategic Defense Initiative Organization to give priority to development of technologies and systems for a system capable of protecting the United States from the accidental launch of a strategic ballistic missile against the continental United States; and

(2) that such development of an accidental launch protection system should be carried out with an objective of ensuring that such system is in compliance with the 1972 Anti-Ballistic Missile Treaty.

(c) REPORT.—Not later than March 1, 1989, the Secretary of Defense shall submit to Congress a report on the status of planning for development of a deployment option for such an accidental launch protection system.

PART D—STRATEGIC PROGRAMS

SEC. 231. B-1B BOMBER PROGRAM

(a) CONDITION ON OBLIGATION OF FUNDS.—The Secretary of Defense may not obligate funds appropriated for fiscal year 1989 for enhancements or mission-specific equipment or modifications for the B-1B aircraft until the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives the report required by section 243(e)(3) of Public Law 100-180 (101 Stat. 1064). After that report is submitted, funds may be obligated for such purposes only as specifically authorized by law.

(b) REPORT ON ENHANCEMENT PROGRAM.—(1) The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report setting forth—

(A) the total cost—

(i) of fixing any discrepancies in the baseline; and

(ii) of the enhancements planned or programmed for the B-1B aircraft; and

(B) a description of each type of such fix or enhancement.

(2) Such report shall be submitted in conjunction with the submission of the President's budget for fiscal year 1990 pursuant to section 1105 of title 31, United States Code.

(c) EXPLORATION OF ALTERNATIVE ELECTRONIC WARFARE SYSTEMS.—Of the amounts appropriated to the Air Force pursuant to section 201, the sum of $15,000,000 shall be available only for the purpose of conducting a preliminary evaluation of whether existing electronic warfare systems could be used to replace portions of the ALQ-161 system of the B-1B aircraft in the event that the current plan of the Air Force for recovery of that system fails to achieve the desired results.

SEC. 232. ADVANCED TECHNOLOGY B-2 BOMBER PROGRAM

(a) PROGRAM MANAGEMENT INITIATIVE.—The Secretary of Defense shall require that the cost, performance, and management initiative for the Advanced Technology B-2 Bomber program established pursuant to section 121 of Public Law 100-180 (101 Stat. 1040) include the creation of a full performance matrix.

(b) GAO COST REVIEW.—(1) The Comptroller General of the United States shall review the costs of the Advanced Technology Bomber program. In reviewing such costs, the Comptroller General shall act independently of the Department of Defense.

(2)(A) The Secretary of Defense shall ensure that the Comptroller General is given direct, full, and timely access to all information and materials specified in subparagraph (B) in order for the Comptroller General to carry out the cost review required by paragraph (1).

(B) Information and materials referred to in subparagraph (A) are information and materials that are held by, or otherwise available to, the Department of Defense (including the Department of the Air Force) or any contractor for the Advanced Technology Bomber program (including any subcontractor) and that are required by the Secretary of the Air Force for the purpose of performing the required Independent Cost Analysis of the Advanced Technology Bomber program and by the Secretary of Defense for the purpose of performing the Cost Analysis Improvement Group review of that program.

(3) The Comptroller General shall submit a report on the program cost review under this subsection to the Armed Services Committees not later than March 1, 1989.

(c) REPORT ON TOTAL PROGRAM COST.—The Secretary of Defense shall submit to Congress a report setting forth the total program cost, in constant and in current dollars, of the Advanced Technology B-2 Bomber program. Such report shall be submitted not later than March 1, 1989.

(d) COST MONITORING AND TRACKING.—The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall conduct an evaluation of the current system for monitoring and tracking costs for the Advanced Technology Bomber program and shall prepare an assessment of that system. Not later than March 1, 1989, the Secretary shall submit to the Armed Services Committees a report setting forth the Secretary's findings, based upon such evaluation and assessment, with respect to that system and any recommendations of the Secretary for improving that system.

(e) DEFINITION.—For purposes of this section, the term "Armed Services Committees" means the Committees on Armed Services of the Senate and House of Representatives.

SEC. 233. SENSE OF CONGRESS ON STRATEGIC MISSILE MODERNIZATION PROGRAMS

It is the sense of Congress that the authorization of funds in this Act for research and development for both the small intercontinental ballistic missile system (the so-called Midgetman system) and for the rail-garrison MX system does not constitute a commitment or express an intent by Congress to provide funds to procure and deploy the Midgetman missile or to deploy any MX missiles in a rail-garrison basing mode or both.

PART E—OTHER PROGRAMS

SEC. 241. ADVANCED SUBMARINE TECHNOLOGY PROGRAM

(a) FISCAL YEAR 1989 FUNDING.—(1) Of the amount appropriated pursuant to section 201 for Defense Agencies, the Secretary of Defense shall make $65,000,000 available only for the purpose of continuing the Advanced Submarine Technology Program initiated in section 211 of Public Law 100-180 (101 Stat. 1048). Amounts appropriated for such purpose for fiscal year 1989 may be used only for that program.

(2) The Secretary of Defense may use funds appropriated for fiscal year 1989 for such program only—

(A) for submarine hull, mechanical, and electrical technologies; and

(B) for nonnuclear propulsion technologies.

(3) Funds appropriated for fiscal year 1989 for such program may be used for research relating to the effect on submarine design of weapons, sensors, or communications equipment, but may not be used for research on weapons, sensors, or communications equipment.

(4) Funds appropriated for fiscal year 1989 for such program may be used only for exploratory development, advanced technology development, and (as necessary) basic research to support the overall objectives of the program.

(b) PURPOSE OF PROGRAM.—(1) Congress established the Advanced Submarine Technology Program in light of the large amount of activity by the Soviet Union in the area of naval submarines and the declining advantage of the United States in submarine technology.

(2) The purpose of the Advanced Submarine Technology Program is to explore innovative state-of-the-art technologies for advanced submarines and to augment the existing United States submarine technology base in order to establish a sound and increasing submarine technology base.

(3) Congress recognizes that research and development activities with respect to submarine weapons and sensors and high density innovative and advanced nuclear plant systems are necessary and important. However, in light of the purpose of the program to augment the submarine technology base, Congress has in this section provided separate authorization for funding to augment the technology base for submarine hull, mechanical, and electrical systems.

(4) Section 211(a) of Public Law 100-180 is amended—

(A) by striking out the second and third sentences of paragraph (1); and

(B) by striking out paragraph (2).

(c) MANAGEMENT OF PROGRAM BY DARPA.—In carrying out the provisions of section 211(a) of Public Law 100-180 that the Advanced Submarine Technology Program be carried out through the Director, Defense Advanced Research Projects Agencies (DARPA), the Secretary of Defense shall provide that the overall management of the execution of such program, including the administration of funds appropriated for the program, be vested in the Director. In managing such program, the Director shall take into consideration the advice of the advisory board established pursuant to congressional direction as part of the fiscal year 1988 budget process.

(d) FIVE-YEAR PLAN.—(1) Not later than October 31, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report setting forth a detailed five-year plan for the Advanced Submarine Technology Program. The plan shall update the report submitted pursuant to section 211(b)(1) of Public Law 100-180.

(2) The report under paragraph (1) shall include the following:

(A) Identification of each of the technologies to be studied or developed under the program.

(B) With respect to each of the technologies to be developed—

(i) identification of responsibility for the execution of the program and the management of the program; and

(ii) milestones for obligating funds under the program and for major program reviews under the program.

(3) Section 211(b)(2) of Public Law 100-180 is repealed.

(e) Annual Reports.—Not later than December 1 of each of the years 1989 through 1994, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the Advanced Submarine Technology Program. Each report shall describe—

(1) the activities carried out under the program during the preceding fiscal year;

(2) the obligation of funds for the program during that fiscal year;

(3) activities accomplished under the program during that fiscal year;

(4) ongoing activities under the program; and

(5) major decisions made by the Director of the Defense Advanced Research Projects Agency that were not supported by the advice of the advisory board referred to in subsection (c) and the reasons why the decisions were so made.

Each such report shall also describe how the matters set forth in paragraphs (1) through (4) meet the criteria established in the five-year plan for the program set out in the report under subsection (d).

(f) Program Duration.—In providing funds under this section for the Advanced Submarine Technology Program for fiscal year 1989, Congress expects that the program will be continued in the five-year defense plan of the Secretary of Defense and that the management of the program will continue to be executed through the Defense Advanced Research Projects Agency for an additional three-to-five years.

(g) Prohibition on Contractor Management.—The Director, Defense Advanced Research Projects Agency, may not carry out the Advanced Submarine Technology Program through obligation of all funding to a single contractor or through the use of management by a single public or private shipyard. The Director, in allocating funds under the program and in light of the purposes of the program, shall seek to obligate funds to a wide variety of recipients.

SEC. 242. PROHIBITION ON TESTING ELECTROMAGNETIC PULSE IN CHESAPEAKE BAY

The Secretary of the Navy may not carry out an electromagnetic pulse program in the Chesapeake Bay area in connection with the Electromagnetic Pulse Radiation Environment Simulator Program for Ships (EMPRESS II).

SEC. 243. REPORT ON SPACE CONTROL CAPABILITIES

(a) Report.—Not later than the date on which the President submits the budget for fiscal year 1990 to Congress under section 1105 of title 31, United States Code, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a comprehensive report on space control capabilities of the Armed Forces.

(b) Content of Report.—The report shall include the following matters:

(1) A description of requirements for space control capabilities related to deterrence and warfighting objectives, including space surveillance and anti-satellite capabilities, that have been validated by the Chairman of the Joint Chiefs of Staff and transmitted to the commander of the United States Space Command.

(2) A net assessment of the space control capabilities of the United States and the Soviet Union.

(3) An assessment of current deficiencies in United States space control capabilities and recommendations for overcoming those deficiencies.

(4) A 5-year plan for improving ground- and space-based surveillance systems and their associated command, control, and communications systems and the cost and schedule for implementing the plan.

SEC. 244. REPORT ON COMPETITION FOR DEVELOPMENT OF ADVANCED TACTICAL RECONNAISSANCE SYSTEM

Not later than 90 days after the date of the enactment of this Act, the Secretary of the Air Force shall submit to Congress a report outlining the plans of the Secretary for establishing, to the maximum extent practicable, competition in the development and production of components for the Advanced Tactical Reconnaissance System.

TITLE III—OPERATION AND MAINTENANCE

Part A—Authorizations of Appropriations

SEC. 301. OPERATION AND MAINTENANCE FUNDING

(a) In General.—Funds are hereby authorized to be appropriated for fiscal year 1989 for the use of the Armed Forces and other activities and agencies of the Department of Defense for expenses, not otherwise provided for, for operation and maintenance in amounts as follows:

For the Army, $22,103,900,000.

For the Navy, $24,852,100,000.

For the Marine Corps, $1,817,000,000.

For the Air Force, $21,855,600,000.

For the Defense Agencies, $7,685,400,000.

For the Army Reserve, $794,900,000.

For the Naval Reserve, $979,200,000.

For the Marine Corps Reserve, $77,500,000.

For the Air Force Reserve, $1,033,900,000.

For the Army National Guard, $1,801,200,000.

For the Air National Guard, $1,971,000,000.

For the National Board for the Promotion of Rifle Practice, $4,300,000.

For the Court of Military Appeals, $3,500,000.

For Environmental Restoration, Defense, $500,000,000.

For Humanitarian Assistance, $13,000,000.

(b) General Authorization for Contingencies.—There are authorized to be appropriated for fiscal year 1989, in addition to the amounts authorized to be appropriated in subsection (a), such sums as may be necessary—

(1) for unbudgeted increases in fuel costs; and

(2) for unbudgeted increases as the result of inflation in the cost of activities authorized by subsection (a).

SEC. 302. WORKING CAPITAL FUNDS

Funds are hereby authorized to be appropriated for fiscal year 1989 for the use of the Armed Forces and other activities and agencies of the Department of Defense for providing capital for working-capital funds in amounts as follows:

For the Army Stock Fund, $291,900,000.

For the Navy Stock Fund, $184,700,000.

For the Air Force Stock Fund, $186,900,000.

For the Defense Stock Fund, $25,000,000.

SEC. 303. HUMANITARIAN ASSISTANCE

(a) Purpose.—The amount authorized in section 301 for humanitarian assistance shall be used for the purpose of providing transportation for humanitarian relief for persons displaced or who are refugees because of the invasion of Afghanistan by the Soviet Union. Of the amount authorized in such section for such purpose, not more than $3,000,000 may be used for distribution of humanitarian relief supplies to the non-Communist resistance organization at or near the border between Thailand and Cambodia.

(b) Authority To Transfer Funds.—The Secretary of Defense may transfer to the Secretary of State not more than $3,000,000 of the funds appropriated pursuant to the authorization in section 301 for humanitarian assistance to provide for (1) paying for administrative costs of providing the transportation described in subsection (a), and (2) the purchase or other acquisition of transportation assets for the distribution of relief supplies in the country of destination.

(c) Transportation Under Direction of the Secretary of State.—Transportation provided with funds appropriated pursuant to the authorization in section 301 for humanitarian assistance shall be under the direction of the Secretary of State.

(d) Means of Transportation To Be Used.—Transportation for humanitarian relief provided with funds appropriated pursuant to the authorization in section 301 for humanitarian assistance shall be by the most economical commercial or military means available, unless the Secretary of State determines that it is in the national interest of the United States to use means other than the most economical means available. Such means may include the use of aircraft and personnel of the reserve components of the Armed Forces.

(e) Availability of Funds.—Amounts appropriated pursuant to the authorization in section 301 for humanitarian assistance shall remain available until expended, to the extent provided in appropriation Acts.

(f) Reports.—The Secretary of Defense shall submit to the Committees on Armed Services and Foreign Relations of the Senate and the Committees on Armed Services and Foreign Affairs of the House of Representatives a report not later than 60 days after the date of the enactment of this Act. The Secretary shall also submit a report to those committees not later than June 1, 1989, and not later than June 1 of each year thereafter, until all funds available under this section have been obligated. Each such report shall contain (as of the date on which the report is submitted) the following information:

(A) The total amount of funds obligated for humanitarian relief under the humanitarian relief laws specified in paragraph (2).

(B) The number of scheduled and completed flights for purposes of providing humanitarian relief under the humanitarian relief laws specified in paragraph (2).

(C) A description of any transfer (including to whom the transfer is made) of excess nonlethal supplies of the Department of Defense made available for humanitarian relief purposes under section 2547 of title 10, United States Code.

(2) The humanitarian relief laws referred to in paragraph (1) are the following:

(A) This section.

(B) Section 331 of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3856).

(C) Section 331 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1078).

SEC. 304. TRIPLER ARMY MEDICAL CENTER

The Secretary of the Army shall establish, during fiscal year 1989, a video teleconferencing center at the Tripler Army Medical Center, Hawaii.

SEC. 305. ASSISTANCE TO THE 1990 GOODWILL GAMES

(a) AUTHORITY TO PROVIDE ASSISTANCE.—The Secretary of Defense may provide logistical support and personnel services to Federal, State, and local governmental entities in connection with the 1990 Goodwill Games to be held at Seattle, Washington. Except as provided in subsection (b), such support and services shall be provided by the Secretary on a reimbursable basis.

(b) REIMBURSEMENT WAIVER.—(1) The Secretary may waive the requirement for reimbursement for logistical support and personnel services provided under this section to ensure the security of persons and property in connection with such games if—

(A) the Attorney General of the United States certifies to the Secretary that there are significant potential threats to the security of persons or property, or both, at such games and that other Federal entities and the State and local entities concerned do not have the capability to deal adequately with such potential threats; and

(B) the Attorney General recommends that the requirement for reimbursement for assistance under this section be waived because—

(i) such assistance is necessary to provide the degree of security that is essential in the national interest; and

(ii) unusual circumstances for such assistance make it impractical for other Federal entities or the State or local entities concerned to reimburse the Secretary for such assistance.

(2) Waivers under paragraph (1) shall be made by the Secretary on a case-by-case basis.

(c) AUTHORIZATION.—There is authorized to be appropriated for fiscal year 1989 the amount of $5,000,000 for the purpose of carrying out this section.

(d) RESTRICTION ON FUNDS.—Funds made available to or for the use of the Department of Defense may not be used to provide logistical support or personnel services in connection with the Goodwill Games referred to in subsection (a) unless such funds have been specifically appropriated for such purpose.

(e) COMPUTATION OF AMOUNTS.—In computing the amount that has been expended in carrying out the provisions of this section, the Secretary shall include the pay and allowances of members of reserve components of the Armed Forces called or ordered to active duty (including active duty for training) to provide support for the Goodwill Games referred to in subsection (a), but shall exclude the pay and nontravel related allowances of other members of the Armed Forces serving on active duty.

SEC. 306. INAUGURATION ASSISTANCE

(a) FURNISHING OF MATERIALS, SUPPLIES, AND SERVICES.—During fiscal year 1989, the Secretary of Defense may, as the Secretary determines to be appropriate and under such conditions as the Secretary may prescribe, lend materials or supplies and provide materials, supplies, or services of personnel to the Inaugural Committee established under the first section of the Presidential Inaugural Ceremonies Act (36 U.S.C. 721 et seq.) or to the joint committee described in section 9 of that Act.

(b) ADDITIONAL AUTHORITY.—The authority provided by subsection (a) is in addition to the authority provided by section 2543 of title 10, United States Code.

SEC. 307. ENHANCEMENT OF CAPABILITY TO COMBAT FRAUD, WASTE, AND ABUSE

In order to enhance the capability of the Department of Defense to combat fraud, waste, and abuse and to assist in restoring public confidence in the defense acquisition process, the Secretary of Defense, not later than September 30, 1989, shall—

(1) increase the number of audit and support personnel assigned within the Office of the Inspector General of the Department of Defense to the Assistant Inspector General for Audit from 550 personnel (as assumed in the President's amended budget request for fiscal year 1989) to not less than 657; and

(2) increase the number of audit and support personnel assigned to the Defense Contract Audit Agency from 6,439 (as assumed in the President's amended budget request for fiscal year 1989) to not less than 7,007.

PART B—LIMITATIONS

SEC. 311. PROHIBITION ON FINANCING CERTAIN ACTIVITIES BY DIRECT APPROPRIATIONS

(a) PROHIBITION.—During fiscal year 1989, the Secretary of the Navy may not take any action with respect to converting or planning the conversion of the operation of an activity specified in subsection (b) from operation as an activity financed by the Naval Industrial Fund (as authorized by section 2208 of title 10, United States Code) to operation as an activity financed by direct appropriations.

(b) ACTIVITIES COVERED.—An activity referred to in subsection (a) is any of the following:

(1) Naval Avionics Center, Indianapolis, Indiana.

(2) Naval Civil Engineering Laboratory, Port Hueneme, California.

(3) Naval Air Engineering Center, Lakehurst, New Jersey.

SEC. 312. PROHIBITION ON JOINT USE OF DOBBINS AIR FORCE BASE WITH CIVIL AVIATION

The Secretary of the Air Force may not enter into an agreement that would provide for or permit the joint use of Dobbins Air Force Base, Marietta, Georgia, by the Air Force and civil aircraft.

SEC. 313. PROHIBITION ON PURCHASE OF TOSHIBA PRODUCTS FOR RESALE IN MILITARY EXCHANGE STORES

(a) PROHIBITION.—During the three-year period beginning on the date of the enactment of this Act, no product manufactured or assembled by Toshiba America, Incorporated, or Toshiba Corporation (or any of its affiliates or subsidiaries) may be purchased by the Department of Defense for the purpose of resale of such product in a military exchange store or in any other morale, welfare, recreation, or resale activity operated by the Department of Defense (either directly or by concessionaire).

(b) EXCEPTION.—The prohibition in subsection (a) shall not apply to microwave ovens manufactured or assembled in the United States.

SEC. 314. LIMITATION ON FUNDING FOR UNITED STATES SOUTHERN COMMAND AIRLIFT

Funds appropriated for operation and maintenance for the Air Force for fiscal year 1989 may not be obligated or expended in connection with any contract for aircraft with short takeoff and landing capability until—

(1) the Secretary of Defense approves a requirements document and an acquisition plan, including costs and schedule information, for an aircraft with short takeoff and landing capability for the United States Southern Command; and

(2) the Secretary of Defense submits both the document and the plan to the Committees on Armed Services of the Senate and the House of Representatives.

SEC. 315. ONE-YEAR EXTENSION OF LIMITATION ON ARMY DEPOT MAINTENANCE FUNDING

(a) ONE-YEAR EXTENSION.—Section 314 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1074) is amended—

(1) in subsection (a), by striking out "fiscal year 1988" and inserting in lieu thereof "fiscal year 1989"; and

(2) in subsection (b)(1)(C), by striking out "fiscal year 1989" and inserting in lieu thereof "fiscal year 1990".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1988.

SEC. 316. OPERATION OF SR-71 DEPOT REWORK FACILITY

The Secretary of the Air Force shall ensure that the facility used for depot support and rework for the SR-71 fleet of aircraft at Palmdale, California, shall remain operational through September 30, 1989.

SEC. 317. MANAGEMENT OF CIVILIAN PERSONNEL DURING FISCAL YEARS 1989 AND 1990

(a) PROHIBITION ON MANAGEMENT BY END-STRENGTH.—During fiscal years 1989 and 1990, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength or any similar or related methodology, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an "end-strength") on the number of such personnel who may be employed on the last day of such fiscal year.

(b) WAIVER OF CIVILIAN PERSONNEL CEILINGS.—Section 115(b)(2) of title 10, United States Code, shall not apply with respect to fiscal years 1989 and 1990 or with respect to the appropriation of funds for that year.

(c) SEMIANNUAL REPORTS.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives semiannual reports on the obligation of funds appropriated for civilian personnel of the Department of Defense for fiscal years 1989 and 1990. Each report shall include—

(1) for each appropriation account, the amounts authorized and appropriated for such personnel for fiscal years 1989 and 1990; and

(2) for each appropriation account and for the entire Department—

(A) the actual number of such personnel employed, and the amount of funds obligated for such personnel, as of the end of each six-month period described in the report; and

(B) the projected number of such personnel to be employed, and amount of funds that will be obligated for such personnel, as of the end of each of fiscal years 1989 and 1990.

SEC. 318. LIMITATION ON OPERATION OF EXISTING POSEIDON CLASS SUBMARINES U.S.S. JAMES MONROE AND U.S.S. HENRY CLAY

Effective as of September 1, 1989, no funds appropriated to the Department of Defense for fiscal year 1989 or a prior year may be obligated or expended—

(1) to overhaul, operate, or deploy the U.S.S. Henry Clay (SSBN 625), except that such funds may be obligated or expended after such date for the operation of such vessel (A) for crew training in port, and (B) for a short underway trial before such vessel proceeds to the inactivating port; or

(2) to overhaul, operate, maintain, or deploy the U.S.S. James Monroe (SSBN 622).

PART C—PERMANENT LAW CHANGES

SEC. 321. LIMITATION ON PRIVATE OPERATION OF COMMISSARY STORES

Section 2482 of title 10, United States Code, is amended by adding at the end the following new sentences: "A contract with a private person for the operation of any commissary store may not require or permit the contractor to carry out functions for the procurement of products to be sold in the store or to engage in functions relating to the overall management of a commissary system or the management of any such store. Such functions shall be carried out by personnel of the Department of Defense under regulations approved by the Secretary of Defense.".

SEC. 322. ALLOWABLE COSTS WITH RESPECT TO CERTAIN SERVICE CONTRACTS PERFORMED OVERSEAS

(a) CERTAIN SEVERANCE PAY COSTS NOT ALLOWABLE.—Section 2324(e)(1) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

"(M) Costs of severance pay paid by the contractor to foreign nationals employed by the contractor under a service contract performed outside the United States, to the extent that the amount of severance pay paid in any case exceeds the amount paid in the industry involved under the customary or prevailing practice for firms in that industry providing similar services in the United States, as determined under regulations prescribed by the Secretary of Defense.".

(b) EFFECTIVE DATE.—Subparagraph (M) of section 2324(e)(1) of title 10, United States Code, as added by subsection (a), shall apply with respect to any contract entered into after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 323. AUTHORITY TO CONTINUE SUPPORT OF SCOUTING ACTIVITIES OVERSEAS

(a) AUTHORITY.—Chapter 155 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2606. Scouting: cooperation and assistance in foreign areas

"(a) Subject to subsection (b), the Secretary concerned may cooperate with and assist qualified scouting organizations in establishing and providing facilities and services for members of the armed forces and their dependents, and civilian employees of the Department of Defense and their dependents, at locations outside the United States.

"(b) Cooperation and assistance under subsection (a) shall be provided under regulations prescribed by the Secretary of Defense and may be provided only if the President determines that such cooperation and assistance is necessary in the interest of the morale, welfare, and recreation of members of the armed forces.

"(c) Personnel of a qualified scouting organization, including officials certified by that organization as representing that organization, who are performing duties in connection with cooperation and assistance provided under subsection (a) may be furnished—

"(1) transportation at the expense of the United States while traveling to and from, and while performing, such duties in the same manner as civilian employees of the United States; and

"(2) available office space (including space for recreational activities for Boy Scouts and Girl Scouts), warehousing, utilities, and a means of communication, without charge.

"(d) Supplies of a qualified scouting organization may be transported at the expense of the United States if the Secretary concerned determines, under regulations prescribed under subsection (b), that the supplies are necessary to the cooperation and assistance provided under this section.

"(e) The Secretary concerned may reimburse a qualified scouting organization for all or part of the pay of an employee of that organization for any period during which the employee was performing services under subsection (a). Any such reimbursement may not be made from appropriated funds and shall be made under regulations prescribed under subsection (b).

"(f) For the purposes of this section, employees of a qualified scouting organization performing services under subsection (a) may not be considered to be employees of the United States.

"(g) In this section, the term 'qualified scouting organization' means the Girl Scouts of the United States of America and the Boy Scouts of America.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2606. Scouting: cooperation and assistance in foreign areas.".

SEC. 324. TRANSFERS AND EXCHANGES OF CERTAIN DOCUMENTS, HISTORICAL ARTIFACTS, AND CONDEMNED AND OBSOLETE COMBAT MATERIEL

(a) AUTHORITY.—Section 2572 of title 10, United States Code, is amended to read as follows:

"§ 2572. Documents, historical artifacts, and condemned or obsolete combat materiel: loan, gift, or exchange

"(a) The Secretary concerned may lend or give items described in subsection (c) that are not needed by the military department concerned (or by the Coast Guard, in the case of the Secretary of Transportation), to any of the following:

"(1) A municipal corporation.

"(2) A soldiers' monument association.

"(3) A museum, historical society, or historical institution of a State or a foreign nation.

"(4) An incorporated museum that is operated and maintained for educational purposes only and the charter of which denies it the right to operate for profit.

"(5) A post of the Veterans of Foreign Wars of the United States or of the American Legion or a unit of any other recognized war veterans' association.

"(6) A local or national unit of any war veterans' association of a foreign nation which is recognized by the national government of that nation (or by the government of one of the principal political subdivisions of that nation).

"(7) A post of the Sons of Veterans Reserve.

"(b)(1) Subject to paragraph (2), the Secretary concerned may exchange items described in subsection (c) that are not needed by the armed forces for similar items held by any individual, organization, institution, agency, or nation.

"(2) The Secretary concerned may not make an exchange under paragraph (1) unless the monetary value of property transferred to the United States under the exchange is not less than the value of the property transferred by the United States. The Secretary concerned may waive the limitation in the preceding sentence in any case in which the Secretary determines that the item to be received by the United States in the exchange will significantly enhance the historical collection of the property administered by the Secretary.

"(c) This section applies to the following types of property held by a military department or the Coast Guard: books, manuscripts, works of art, historical artifacts, drawings, plans, models, and condemned or obsolete combat materiel.

"(d)(1) A loan or gift made under this section shall be subject to regulations prescribed by the Secretary concerned and to regulations under section 205 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 486).

"(2) The United States may not incur any expense in connection with a loan or gift under subsection (a).".

(b) CLERICAL AMENDMENT.—The item relating to such section in the table of sections at the beginning of chapter 153 of such title is amended to read as follows:

"2572. Documents, historical artifacts, and condemned or obsolete combat materiel: loan, gift, or exchange.".

SEC. 325. QUALIFICATIONS FOR HEAD OF AUDITING FUNCTION IN MILITARY DEPARTMENTS

(a) DEPARTMENT OF THE ARMY.—Section 3014(c) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(5) The head of the office or other entity established or designated by the Secretary to conduct the auditing function shall have at least five years of professional experience in accounting or auditing. The position shall be considered to be a career reserved position as defined in section 3132(a)(8) of title 5.".

(b) DEPARTMENT OF THE NAVY.—Section 5014(c) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(5)(A) The head of the office or other entity established or designated by the Secretary to conduct the auditing function shall have at least five years of professional experience in accounting or auditing. The position shall be considered to be a career reserved position as defined in section 3132(a)(8) of title 5.

"(B) The position of regional director within such office or entity, and any other position within such office or entity the primary responsibilities of which are to carry out supervisory functions, may not be held by a member of the armed forces on active duty.".

(c) DEPARTMENT OF THE AIR FORCE.—Section 8014(c) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(5) The head of the office or other entity established or designated by the Secretary to conduct the auditing function shall have at least five years of professional experience in accounting or auditing. The position shall be considered to be a career reserved position as defined in section 3132(a)(8) of title 5.".

(d) EFFECTIVE DATES.—(1) The requirements of sections 3014(c)(5), 5014(c)(5)(A), and 8014(c)(5) of title 10, United States Code (as added by subsections (a), (b), and (c), respectively), shall apply with respect to any person appointed on or after the date of the enactment of this Act as the head of the office or other entity designated for conducting the auditing function in a military department.

(2) Subparagraph (B) of section 5014(c)(5) of title 10, United States Code (as added by

subsection (b)), shall take effect at the end of the one-year period beginning on the date of the enactment of this Act.

SEC. 326. PROHIBITION ON CERTAIN DEPOT MAINTENANCE WORKLOAD COMPETITIONS

(a) In General.—Chapter 146 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2466. Prohibition on certain depot maintenance workload competitions

"The Secretary of Defense may not require the Secretary of the Army or the Secretary of the Air Force, in selecting an entity to perform any depot maintenance workload, to carry out a competition for such selection—

"(1) between or among maintenance activities of the Department of the Army and the Department of the Air Force; or

"(2) between a maintenance activity of either such department and a private contractor.".

(b) Clerical Amendment.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2466. Prohibition on certain depot maintenance workload competitions.".

SEC. 327. REPORT ON MANPOWER, MOBILITY, SUSTAINABILITY, AND EQUIPMENT

(a) Report Requirement.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a comprehensive report on the readiness of the Armed Forces, in terms of manpower, mobility, sustainability, and equipment, to perform their assigned missions. The report shall be based on the manpower and other resources planned for the Armed Forces in the 1990-1991 biennial budget for the Department of Defense.

(b) Matters To Be Included in Report.—The Secretary shall include the following in the report required by subsection (a):

(1) A detailed analysis of trends in readiness and sustainability of the military forces of the United States over the five-year period 1985 to 1989 and, based on the current Five-Year Defense Program or other planning document approved by the Secretary, a projection of such trends over the succeeding five-year period.

(2) A detailed evaluation of the readiness and sustainability of the unified combatant commands and the specified combatant commands of the Armed Forces.

(3) A discussion of—

(A) the readiness and sustainability of the military forces of the United States in terms of the standards approved by the Secretary of Defense;

(B) the readiness and sustainability of allied forces of the United States; and

(C) the readiness and sustainability of potential enemy forces.

(4) A list of all improvements that need to be made in the readiness and sustainability of the manpower, mobility, and equipment of the Armed Forces to correct major shortfalls of the unified combatant commands and the specified combatant commands, the relative priority of each such improvement, and the estimated cost of each such improvement.

(5) Such other information regarding the readiness of the Armed Forces, in terms of manpower, mobility, sustainability, and equipment, as the Secretary considers appropriate.

(c) Priority for Improvements.—The relative priority of the improvements referred to in subsection (b)(4) shall be determined by the Secretary on the basis of the improvements necessary to ensure the ability of the Armed Forces to perform their assigned missions and the ability of the United States to meet its military commitments.

(d) Report Deadline.—The Secretary shall submit the report required by subsection (a), together with such comments and recommendations as the Secretary considers appropriate, not later then February 15, 1989.

SEC. 328. LEASE OF AIRCRAFT FOR FLEET ELECTRONIC WARFARE SUPPORT GROUP ACTIVITIES

The Secretary of the Navy may lease aircraft for Fleet Electronic Warfare Support Group activities in accordance with section 2401 of title 10, United States Code, if the cost of such a lease is less than the cost of operating and maintaining the same number of existing aircraft of the Navy for that purpose.

Part D—Contracting Out

SEC. 331. REQUIREMENTS FOR CERTAIN CIRCULAR A-76 PROCEDURES

(a) In General.—Chapter 146 of title 10, United States Code, as amended by section 326, is further amended by adding at the end the following new section:

"§ 2467. Cost comparisons: requirements with respect to retirement costs and consultation with employees

"(a) Requirement To Include Retirement Costs.—(1) In any comparison conducted by the Department of Defense under Office of Management and Budget Circular A-76 (or any successor administrative regulation or policy) of the cost of performing commercial activities by Department of Defense personnel and the cost of performing such activities by contractor personnel, the Secretary of Defense shall include retirement system costs (as described in paragraphs (2) and (3)) of both the Department of Defense and the contractor.

"(2) The retirement system costs of the Department of Defense shall include (to the extent applicable) the following:

"(A) The cost of the Federal Employees' Retirement System, valued by using the normal-cost percentage (as defined by section 8401(23) of title 5, United States Code).

"(B) The cost of the Civil Service Retirement System under subchapter III of chapter 83 of such title 5.

"(C) The cost of the thrift savings plan under subchapter III of chapter 84 of such title 5.

"(D) The cost of the old age, survivors, and disability insurance taxes imposed under section 3111(a) of the Internal Revenue Code of 1986.

"(3) The retirement system costs of the contractor shall include the cost of the old age, survivors, and disability insurance taxes imposed under section 3111(a) of the Internal Revenue Code of 1986, the cost of thrift or other retirement savings plans, and other relevant retirement costs.

"(b) Requirement To Consult DOD Employees.—(1) Each officer or employee of the Department of Defense responsible for determining under Office of Management and Budget Circular A-76 whether to convert to contractor performance any commercial activity of the Department—

"(A) shall, at least monthly during the development and preparation of the performance work statement and the management efficiency study used in making that determination, consult with civilian employees who will be affected by that determination and consider the views of such employees on the development and preparation of that statement and that study; and

"(B) may consult with such employees on other matters relating to that determination.

"(2)(A) In the case of employees represented by a labor organization accorded exclusive recognition under section 7111 of title 5, United States Code, consultation with representatives of that labor organization shall satisfy the consultation requirement in paragraph (1).

"(B) In the case of employees other than employees referred to in subparagraph (A), consultation with appropriate representatives of those employees shall satisfy the consultation requirement in paragraph (1).

"(3) The Secretary of Defense shall prescribe regulations to carry out this subsection. The regulations shall include provisions for the selection or designation of appropriate representatives of employees referred to in paragraph (2)(B) for purposes of consultation required by paragraph (1).".

(b) Clerical Amendment.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2467. Cost comparisons: requirements with respect to retirement costs and consultation with employees.".

SEC. 332. PERFORMANCE OF FIREFIGHTING AND SECURITY GUARD FUNCTIONS AT AMCHITKA, ALASKA

(a) Authority To Contract.—The Secretary of the Navy may contract for the performance of firefighting and security guard functions required by the Navy at the over-the-horizon radar site at Amchitka, Alaska.

(b) Inapplicability of Limitation on Use of Funds.—Section 2693 of title 10, United States Code, shall not apply with respect to the authority provided in subsection (a).

Part E—Defense Supplies Security and Control

SEC. 341. DEFENSE SUPPLY MANAGEMENT STUDIES AND MODERNIZATION PLAN

(a) Defense Inventory Security and Control Enhancement Study.—(1) The Secretary of Defense shall carry out a study to determine the effectiveness of Department of Defense procedures for ensuring security and control of supplies at Department of Defense depots.

(2)(A) Not later than 18 months after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the results of the study. The Secretary may submit the report in both classified and unclassified forms if the Secretary considers it necessary to do so in the interest of national security.

(B) The Secretary of Defense, at the same time as the Secretary submits the report to Congress under subparagraph (A), shall transmit a copy of the report to the Comptroller General of the United States.

(3) The Comptroller General shall—

(A) review the report transmitted by the Secretary of Defense under paragraph (2)(B); and

(B) submit to the Committees on Armed Services of the Senate and the House of Representatives, within 90 days after the date on which the Comptroller General receives such report, any findings and recommendations on procedures for ensuring the security and control of supplies at Department of Defense depots that the Comptroller General considers appropriate.

(b) Analysis of Sales of Surplus Munitions.—The Secretary of Defense shall—

(1) conduct a cost-benefit analysis of the practice of selling surplus Department of

Defense munitions to the public and to licensed dealers; and

(2) submit to the Committees on Armed Services of the Senate and the House of Representatives, not later than 180 days after the date of the enactment of this Act, a report containing a description and discussion of each such practice.

(c) SUPPLY TRACEABILITY ENHANCEMENT.—The Secretary of Defense shall—

(1) develop improved methods for the identification of and accounting for individual items of ammunition, explosives, and other Department of Defense supplies that are susceptible to pilferage; and

(2) submit to the Committees on Armed Services of the Senate and the House of Representatives, not later than one year after the date of the enactment of this Act, a report containing a description and discussion of each such method.

(d) SUPPLY SYSTEM MODERNIZATION PLAN.—The Secretary of Defense shall—

(1) prepare a plan for the modernization of the supply facilities and supply distribution procedures of each of the military departments and Defense Agencies of the Department of Defense; and

(2) not later than one year after the date of the enactment of this Act, transmit a copy of such plan to the Committees on Armed Services of the Senate and the House of Representatives.

SEC. 342. SUPPLY SECURITY AND CONTROL IMPROVEMENTS

(a) SECURITY AND CONTROL OF SUPPLIES: REPORTS, FUNDING, PROCEDURES.—(1) Part IV of subtitle A of title 10, United States Code, is amended by adding at the end the following new chapter:

"CHAPTER 171—SECURITY AND CONTROL OF SUPPLIES

"Sec.
"2891. Security and control of supplies: annual report.
"2892. Miscellaneous procedures.

"§ 2891. Security and control of supplies: annual report

"(a) The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report for each of fiscal years 1989, 1990, and 1991 on security and control of Department of Defense supplies. Each such report shall be submitted not later than four months after the end of the fiscal year for which the report is submitted.

"(b) Each report shall include the following:

"(1) A summary of each of the physical inventory program plans of the Department of Defense, the Defense Logistics Agency, and the military departments for the fiscal year in which the report is submitted.

"(2) A discussion of the deficiencies, if any, in the security and control of Department of Defense supplies in the fiscal year preceding the year in which the report is submitted and a discussion of the extent to which such deficiencies have been corrected.

"(3) A discussion of—

"(A) research and development projects carried out by the Department of Defense in such preceding fiscal year for the improvement of the inventory and recordkeeping capabilities of the Department;

"(B) any proposals for expeditious application of any new technology resulting from such projects; and

"(C) the budget needs for research and development for such purpose in the fiscal year in which the report is submitted and any subsequent fiscal year for which the budget needs have been determined.

"(4) The budget authority made available to the Department of Defense for inventory control functions in the fiscal year in which the report is submitted and in each of the five fiscal years preceding such fiscal year.

"(5) The budget authority proposed for such purpose in the budget submitted to Congress under section 1105 of title 31 for the fiscal year following the fiscal year in which the report is submitted.

"(6) The budget authority needed for such purpose in each of the five fiscal years following the fiscal year for which such budget is submitted.

"(7) An evaluation of the effectiveness of supply inventory control in the fiscal year preceding the fiscal year in which the report is submitted, the criteria used by the Secretary to make such evaluation, and the information considered by the Department in making the evaluation, including the value of supplies lost or stolen or for which accountability has otherwise been lost.

"(8) The aggregate statistics for all incidents of theft, fraud, or breach of security involving Department of Defense supplies that were investigated by military or civilian law enforcement agencies during the fiscal year preceding the fiscal year in which the report is submitted (including incidents involving munitions), a summary description of all such incidents (including the circumstances under which the incidents occurred), and the lessons learned by the Department of Defense from such incidents.

"§ 2892. Miscellaneous procedures

"(a) The Secretary of Defense shall require an investigation of each discrepancy in an accounting for supplies of the Department of Defense involving an amount exceeding the amount determined under procedures prescribed by the Secretary. The Secretary shall prescribe procedures that provide for random investigation of physical inventory discrepancies, regardless of the value of the property involved in the discrepancy.

"(b) The Secretary shall, to the extent feasible, require that the job function of supply ordering and the job function of supply receiving be performed by different offices and individuals.

"(c) The Secretary shall ensure—

"(1) that the employees of the Department of Defense and members of the armed forces assigned to manage Department of Defense supplies are skilled in the management of such supplies; and

"(2) that no employee of the Department of Defense and no member of the armed forces is assigned to perform such function for disciplinary reasons.".

(2) The tables of chapters at the beginning of such part and such subtitle are each amended by adding at the end the following new item:

"171. Security and Control of Supplies .... 2891".

(b) REPORT EXCEPTION.—The Secretary of Defense may omit in the report for any fiscal year under section 2891 of title 10, United States Code, as added by subsection (a), the information relating to any of fiscal years 1983 through 1988, described in subsection (b)(4) of such section, for which the Secretary determines that there are inadequate records.

SEC. 343. INVENTORY INVESTIGATIONS

(a) UNDERCOVER INVESTIGATIONS.—(1) Congress finds that the use of undercover investigative techniques by the Department of Defense enhances the ability of the Department of Defense to detect and investigate theft of Government property (including munitions) from the Department of Defense supply system.

(2) The Secretary of Defense is urged to continue to conduct undercover investigations to detect and investigate thefts referred to in paragraph (1).

(b) INVENTORY SECURITY INCIDENT REPOSITORY.—The Secretary of Defense shall establish and maintain a centralized computer system for recording and organizing information on theft, fraud, and breach of security and incidents involving the loss of Department of Defense supplies (including munitions).

SEC. 344. REPORTS TO THE SECRETARY OF THE TREASURY OF LOSSES OF MUNITIONS

(a) IN GENERAL.—Chapter 161 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2722. Theft or loss of ammunition, destructive devices, and explosives: report to Secretary of the Treasury

"(a) IN GENERAL.—The Secretary of Defense shall report the theft or other loss of any ammunition, destructive device, or explosive material from the stocks of the Department of Defense to the Secretary of the Treasury within 72 hours, if possible, after the discovery of such theft or loss.

"(b) EXCLUSION FOR CERTAIN ITEMS.—The Secretary of Defense may exclude from the reporting requirement under subsection (a) any item referred to in that subsection if—

"(1) the Secretary determines that the item represents a low risk of danger to the public and would be of minimal utility to any person who may illegally receive such item; and

"(2) the exclusion of such item is specified as being excluded from the reporting requirement in a memorandum of agreement between the Secretary of Defense and the Secretary of the Treasury.

"(c) DEFINITIONS.—In this section:

"(1) The term 'explosive material' means explosives, blasting agents, and detonators.

"(2) The terms 'destructive device' and 'ammunition' have the meanings given those terms by paragraphs (4) and (17), respectively, of section 921 of title 18.".

(b) CLERICAL AMENDMENTS.—(1) Chapter 161 of such title is further amended—

(A) by striking out the chapter heading at the beginning and inserting in lieu thereof the following:

"CHAPTER 161—PROPERTY RECORDS AND REPORT OF THEFT OR LOSS OF CERTAIN PROPERTY"

and

(B) by adding at the end of the table of sections at the beginning of such chapter the following new item:

"2722. Theft or loss of ammunition, destructive devices, and explosives: report to Secretary of the Treasury.".

(2) The tables of chapters at the beginning of part A, and at the beginning of part IV of part A, of such title are each amended by striking out the item relating to chapter 161 and inserting in lieu thereof the following:

"161. Property Records and Report of Theft or Loss of Certain Property........ 2721".

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect with respect to thefts and losses discovered more than 180 days after the date of the enactment of this Act.

Part F—Studies and Reports

SEC. 351. STUDY OF DEPARTMENT OF DEFENSE SAFETY STANDARDS FOR TRANSPORTATION OF HAZARDOUS MATERIALS

Not later than one year after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on the adequacy of Department of Defense safety standards for the transportation of hazardous materials.

SEC. 352. REPORT ON THE USE OF DEGRADABLE PLASTIC ITEMS BY DEPARTMENT OF DEFENSE

(a) Study.—The Secretary of Defense shall conduct a study of the use of disposable plastic items by the Department of Defense during fiscal year 1989 in order to identify the types of such items used by the Department of Defense and to determine the approximate quantity of those items used annually by the Department of Defense and to identify which of those items are degradable and which are not degradable.

(b) Report.—Not later than March 1, 1990, the Secretary shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the results of the study required by subsection (a). The report shall include—

(1) recommendations of the Secretary concerning the feasibility of substituting degradable plastic items for nondegradable plastic items identified in the study that are needed by the Department of Defense; and

(2) a description of—

(A) the availability of degradable plastic items that are suitable substitutes for the nondegradable plastic items identified; and

(B) any additional cost to the United States that would result from conversion to the use of such degradable plastic items over the cost of continued use of the nondegradable plastic items.

SEC. 353. NAVY PARTICIPATION IN FEASIBILITY STUDY OF SUNSET HARBOR PROJECT, CALIFORNIA

(a) Required Funding.—The Secretary of the Navy shall obligate not less than $100,000 as the contribution by the Department of the Navy to the feasibility study by the Army Corps of Engineers of the Sunset Harbor Project, California, which was authorized by Public Law 99-662.

(b) Source of Funds.—For the purpose described in subsection (a), the Secretary of the Navy may use operation and maintenance funds appropriated to or for the use of the Department of the Navy for fiscal year 1989.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

Part A—Active Forces

SEC. 401. END STRENGTHS FOR ACTIVE FORCES

The Armed Forces are authorized end strengths for active duty personnel as of September 30, 1989, as follows:

(1) The Army, 771,800, of which not more than 106,927 may be officers.

(2) The Navy, 593,200, of which not more than 72,610 may be officers.

(3) The Marine Corps, 197,200, of which not more than 20,120 may be officers.

(4) The Air Force, 575,100, of which not more than 105,038 may be officers.

SEC. 402. REPEAL OF MANDATORY REDUCTIONS IN STRENGTH OF ACTIVE DUTY OFFICER CORPS

(a) Public Law 99-661.—Section 403 of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3859) is amended by striking out the last line (relating to September 30, 1989) in the table in subsection (a).

(b) Public Law 100-180.—Section 402(c) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1081) is repealed.

(c) Limitations for Fiscal Year 1990.—(1) The number of officers serving on active duty (excluding officers in categories specified in paragraph (2)) as of September 30, 1990, may not exceed—

(A) in the case of the Army, 106,427; and

(B) in the case of the Air Force, 102,438.

(2) Officers in the categories described in section 403(b) of the National Defense Authorization Act for Fiscal Year 1987 shall be excluded in counting officers under this subsection.

SEC. 403. TEMPORARY REDUCTION IN NUMBER OF AIR FORCE COLONELS

The number of officers that (but for this section) would be authorized under section 523 of title 10, United States Code, and other applicable provisions of law to be serving on active duty in the Air Force in the grade of colonel during fiscal year 1989 is hereby reduced by 125, and the number of such officers that (but for this section) would be so authorized to be serving on active duty during fiscal year 1990 is hereby reduced by 250.

Part B—Reserve Forces

SEC. 411. END STRENGTHS FOR SELECTED RESERVE

(a) Authorization.—The Armed Forces are authorized strengths for Selected Reserve personnel of the reserve components as of September 30, 1989, as follows:

(1) The Army National Guard of the United States, 457,300.

(2) The Army Reserve, 320,600.

(3) The Naval Reserve, 152,600.

(4) The Marine Corps Reserve, 43,600.

(5) The Air National Guard of the United States, 115,200.

(6) The Air Force Reserve, 83,600.

(7) The Coast Guard Reserve, 13,000.

(b) Conforming Amendments.—(1) Section 411(c) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1082) is amended by striking out "or subsection (b)" and inserting in lieu thereof "or section 411(a) of the National Defense Authorization Act, Fiscal Year 1989".

(2) Section 411(d) of such Act is amended by striking out "subsections (a) and (b)" and inserting in lieu thereof "subsection (a) and by section 411(a) of the National Defense Authorization Act, Fiscal Year 1989".

SEC. 412. END STRENGTHS FOR RESERVES ON ACTIVE DUTY IN SUPPORT OF THE RESERVES

Within the strengths prescribed in section 411, the reserve components of the Armed Forces are authorized, as of September 30, 1989, the following number of Reserves to be serving on full-time active duty or, in the case of members of the National Guard, full-time National Guard duty for the purpose of organizing, administering, recruiting, instructing, or training the reserve components:

(1) The Army National Guard of the United States, 25,725.

(2) The Army Reserve, 13,329.

(3) The Naval Reserve, 21,991.

(4) The Marine Corps Reserve, 1,945.

(5) The Air National Guard of the United States, 7,948.

(6) The Air Force Reserve, 657.

SEC. 413. CLARIFICATION OF APPLICABILITY OF PRIOR AMENDMENTS RELATING TO NUMBER OF MEMBERS IN CERTAIN GRADES AUTHORIZED TO BE ON ACTIVE DUTY IN SUPPORT OF THE RESERVES

The provisions of section 5 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1020) may not be construed as applying to the amendments made by subsections (a)(2) and (b)(2) of section 413 of such Act.

Part C—Military Training

SEC. 421. AUTHORIZATION OF TRAINING STUDENT LOADS

(a) In General.—For fiscal year 1989, the components of the Armed Forces are authorized average military training student loads as follows:

(1) The Army, 80,281.

(2) The Navy, 65,925.

(3) The Marine Corps, 18,064.

(4) The Air Force, 36,857.

(5) The Army National Guard of the United States, 19,561.

(6) The Army Reserve, 17,190.

(7) The Naval Reserve, 3,136.

(8) The Marine Corps Reserve, 3,459.

(9) The Air National Guard of the United States, 2,868.

(10) The Air Force Reserve, 1,827.

(b) Adjustments.—The average military student loads authorized in subsection (a) shall be adjusted consistent with the end strengths authorized in parts A and B. The Secretary of Defense shall prescribe the manner in which such adjustment shall be apportioned.

Part D—Authorization of Appropriations

SEC. 431. AUTHORIZATION OF APPROPRIATIONS FOR MILITARY PERSONNEL FOR FISCAL YEAR 1989

There is hereby authorized to be appropriated to the Secretary of Defense for military personnel for fiscal year 1989 a total of $78,461,000,000. The authorization in the preceding sentence supersedes any other authorization of appropriations (definite or indefinite) for such purpose for fiscal year 1989.

TITLE V—MILITARY PERSONNEL POLICY

Part A—Officer Personnel Policy

SEC. 501. SELECTION BOARDS

(a) Information Furnished to Boards.—Section 615 of title 10, United States Code, is amended—

(1) in subsection (a), by striking out clause (4) and inserting in lieu thereof the following:

"(4) information or guidelines relating to the needs of the armed force concerned for officers having particular skills, including guidelines or information relating to the need for either a minimum number or a maximum number of officers with particular skills within a competitive category;"; and

(2) by adding at the end the following new subsection:

"(c) Information or guidelines furnished to a selection board under subsection (a) may not be modified, withdrawn, or supplemented after the board submits the report to the Secretary of the military department concerned pursuant to section 617(a) of this title, except that, in the case of a report returned to a board pursuant to section 618(a)(2) of this title for further proceedings because of a determination by the Secretary of the military department concerned that the board acted contrary to law, regulation, or guidelines, the Secretary may modify, withdraw, or supplement such information or guidelines as part of a written explanation to the board as provided in that section.".

(b) RECOMMENDATIONS FOR PROMOTION.—Section 616(a) of such title is amended by inserting "(as noted in the guidelines or information furnished the board under section 615(a) of this title)" after "particular skills".

(c) REPORTS OF SELECTION BOARD.—Section 617(a)(2) of such title is amended by inserting "(as noted in the guidelines or information furnished the board under section 615(a) of this title)" after "concerned".

(d) ACTION ON REPORTS.—(1) Subsection (a) of section 618 of such title is amended to read as follows:

"(a)(1) Upon receipt of the report of a selection board submitted to him under section 617(a) of this title, the Secretary of the military department concerned shall review the report to determine whether the board has acted contrary to law or regulation or to guidelines furnished the board under section 615(a) of this title. Following such review, unless the Secretary concerned makes a determination as described in paragraph (2), the Secretary shall submit the report as required by subsection (b) or (c), as appropriate.

"(2) If, on the basis of a review of the report under paragraph (1), the Secretary of the military department concerned determines that the board acted contrary to law or regulation or to guidelines furnished the board under section 615(a) of this title, the Secretary shall return the report, together with a written explanation of the basis for such determination, to the board for further proceedings. Upon receipt of a report returned by the Secretary concerned under this paragraph, the selection board (or a subsequent selection board convened under section 611(a) of this title for the same grade and competitive category) shall conduct such proceedings as may be necessary in order to revise the report to be consistent with law, regulation, and such guidelines and shall resubmit the report, as revised, to the Secretary in accordance with section 617 of this title.".

(2) Subsection (c)(1) of such section is amended—

(A) by striking out ", modification,"; and

(B) by adding at the end the following: "If the authority of the President under this paragraph to approve or disapprove the report of a selection board is delegated to the Secretary of Defense, it may not be redelegated except to an official in the Office of the Secretary of Defense.".

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect 60 days after the date of the enactment of this Act and shall apply with respect to selection boards convened under section 611(a) of title 10, United States Code, on or after that effective date.

SEC. 502. REMOVAL FROM PROMOTION LIST

(a) AUTHORITY TO REMOVE.—The first sentence of section 5905(a) of title 10, United States Code, is amended to read as follows: "The President may remove the name of any reserve officer from a promotion list established under this chapter.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to removal actions taken by the President on or after the date of the enactment of this Act.

SEC. 503. SELECTIVE EARLY RETIREMENT FOR CERTAIN PRE-DOPMA NAVY AND MARINE CORPS OFFICERS

(a) CONFORMANCE TO ARMY AND AIR FORCE PROVISIONS.—Subsection (a)(2) of section 613 of the Defense Officer Personnel Management Act (Public Law 96-513; 10 U.S.C. 611 note) is amended—

(1) by striking out "or" at the end of clause (B);

(2) by striking out the period at the end of clause (C) and inserting in lieu thereof "; or"; and

(3) by adding at the end the following new clause:

"(D) selected for early retirement under section 638 of title 10, United States Code.".

(b) TECHNICAL AMENDMENTS.—Such section is further amended—

(1) by striking out "on the effective date of this Act" in the matter in subsection (a)(1) preceding clause (A) and inserting in lieu thereof "on September 15, 1981"; and

(2) by striking out "on the day before the effective date of this Act" each place it appears in such section and inserting in lieu thereof "on September 14, 1981".

SEC. 504. TECHNICAL REVISION OF SECTION 638 OF TITLE 10, UNITED STATES CODE

Subsection (a) of section 638 of title 10, United States Code, is amended to read as follows:

"(a)(1) A regular officer on the active-duty list of the Army, Navy, Air Force, or Marine Corps may be considered for selective early retirement by a selection board convened under section 611(b) of this title if the officer is described in any of subparagraphs (A) through (D) as follows:

"(A) An officer holding the regular grade of lieutenant colonel or commander who has failed of selection for promotion to the grade of colonel or, in the case of an officer of the Navy, captain two or more times and whose name is not on a list of officers recommended for promotion.

"(B) An officer holding the regular grade of colonel or, in the case of an officer of the Navy, captain who has served at least four years of active duty in that grade and whose name is not on a list of officers recommended for promotion.

"(C) An officer holding the regular grade of brigadier general or rear admiral (lower half) who has served at least three and one-half years of active duty in that grade and whose name is not on a list of officers recommended for promotion.

"(D) An officer holding the regular grade of major general or rear admiral who has served at least three and one-half years of active duty in that grade.

"(2) The Secretary of the military department concerned shall specify the number of officers described in paragraphs (1)(A) and (1)(B) which a selection board convened under section 611(b) of this title may recommend for early retirement. Such number may not be more than 30 percent of the number of officers considered in each grade in each competitive category.".

PART B—JOINT OFFICER PERSONNEL POLICY

SEC. 511. WAIVER AUTHORITY WITH RESPECT TO SELECTION OF OFFICERS FOR THE JOINT SPECIALTY

The last sentence of section 661(c)(3)(D) of title 10, United States Code, is amended—

(1) by inserting "for officers in the same pay grade" after "under this paragraph";

(2) by striking out "5 percent" and inserting in lieu thereof "10 percent"; and

(3) by inserting "in that pay grade" after "number of officers".

SEC. 512. JOINT SPECIALTY OFFICERS IN CRITICAL JOINT DUTY ASSIGNMENTS

(a) FLEXIBILITY FOR CRITICAL JOINT DUTY ASSIGNMENT POSITIONS.—Section 661(d)(2) of title 10, United States Code, is amended—

(1) by inserting "(A)" after "(2)";

(2) by striking out the last sentence; and

(3) by adding at the end the following:

"(B) Until January 1, 1994, at least 80 percent of the positions designated by the Secretary under subparagraph (A) shall be held at all times by officers who have the joint specialty. On and after January 1, 1994, each position so designated may (subject to subparagraph (C)) be held only by an officer who has the joint specialty.

"(C) The Secretary of Defense may, on a case-by-case basis, waive the requirement in the second sentence of subparagraph (B) with respect to a particular assignment of an officer to a position designated as a critical joint duty assignment position. The authority of the Secretary to make such a waiver may be delegated only to the Chairman of the Joint Chiefs of Staff.

"(D) During the period beginning on October 1, 1992, and ending on January 1, 1993, the Secretary of Defense shall submit to Congress a report on the operation, to the date of the report, of the first sentence of subparagraph (B) and on the Secretary's projection for the use of the waiver authority provided under subparagraph (C), including the Secretary's estimate of the average annual number of waivers to be provided under subparagraph (C).".

(b) REVISION OF ANNUAL REPORT.—Section 667 of such title is amended—

(1) by redesignating paragraph (16) as paragraph (17); and

(2) inserting after paragraph (15) the following new paragraph:

"(16) During the period of the applicability of the first sentence of subparagraph (B) of section 661(d)(2) of this title, information on critical positions not filled by officers with the joint specialty, including—

"(A) a listing by organization of the joint duty assignment positions which were not filled by officers with the joint specialty;

"(B) an explanation of the reasons such positions were not filled by officers with the joint specialty, described by the categories of such reasons; and

"(C) the percentage of critical joint duty assignment positions held by officers who have the joint specialty.".

SEC. 513. PROMOTION POLICY OBJECTIVES FOR OFFICERS WITH THE JOINT SPECIALTY

Section 662(a) of title 10, United States Code, is amended by inserting "to the next higher grade" in paragraphs (1) and (3) after "promoted".

SEC. 514. LENGTH OF JOINT DUTY ASSIGNMENTS

Section 664 of title 10, United States Code, is amended as follows:

(1) Subsection (a) is amended—

(A) by striking out "three years" in paragraph (1) and inserting in lieu thereof "two years"; and

(B) by striking out "three and one-half years" in paragraph (2) and inserting in lieu thereof "three years".

(2) Subsection (c)(1) is amended—

(A) by striking out "has been" and inserting in lieu thereof "is"; and

(B) by striking out "before such assignment begins".

(3) Subsection (d)(2) is amended by inserting "which is less than the applicable standard prescribed in subsection (a)" after "Hawaii".

(4) Subsection (f) is amended—

(A) by striking out "or" at the end of paragraph (2);

(B) by striking out the period at the end of paragraph (3) and inserting in lieu a semicolon; and

(C) by adding at the end the following new paragraphs:

"(4) a joint duty assignment outside the United States or in Alaska or Hawaii for which the normal accompanied-by-dependents tour of duty is prescribed by regulation to be at least two years in length, if the officer served in the assignment for a period equivalent to the accompanied-by-dependents tour length (except that not more than 6 percent of all joint duty assignments may be considered to be under this paragraph at any time); or

"(5) a joint duty assignment with respect to which the Secretary of Defense has granted a waiver under subsection (b), but only in a case in which the Secretary determines that the service completed by that officer in that duty assignment shall be considered to be a full tour of duty in a joint duty assignment.".

(5) Subsection (g)(3) is amended by striking out "shall be excluded—" and all that follows in that subsection and inserting in lieu thereof "shall be excluded if the officer served less than 10 months in that assignment.".

(6) Such section is further amended by adding at the end the following new subsection:

"(h) CONSTRUCTIVE CREDIT.—(1) The Secretary of Defense may accord constructive credit in the case of an officer (other than a general or flag officer) who, for reasons of military necessity, is reassigned from a joint duty assignment within 60 days of meeting the tour length criteria prescribed in subsection (f)(1), (f)(2), (f)(4), or (g)(2). The amount of constructive service that may be credited to such officer shall be the amount sufficient for the completion of the applicable tour of duty requirement, but in no case more than 60 days.

"(2) For the purpose of computing under subsection (e) the average length of joint duty assignments during a fiscal year, the amount of any constructive service credited under this subsection with respect to a joint duty assignment to be counted in that computation shall be excluded.

"(3) This subsection shall not apply in the case of an officer who serves less than 10 months in the joint duty assignment.".

SEC. 515. ADDITIONAL TRANSITION PROVISIONS FOR IMPLEMENTATION OF PREREQUISITE FOR PROMOTION TO INITIAL FLAG AND GENERAL OFFICER GRADE

(a) NAVY NUCLEAR PROPULSION OFFICERS.—(1) Section 619(e) of title 10, United States Code, is amended—

(A) by striking out "January 1, 1992" in the second sentence of paragraph (1) and inserting in lieu thereof "January 1, 1994"; and

(B) by adding at the end the following new paragraph:

"(5) Not later than March 1 of each year from 1989 through 1994, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the implementation during the preceding calendar year of the transition plan developed by the Secretary pursuant to section 1305(b) of Public Law 100-180 (101 Stat. 1173) with respect to service by qualified nuclear propulsion officers in joint duty assignments.".

(2) Section 1305(b) of Public Law 100-180 is amended by striking out "January 1, 1992" each place it appears and inserting in lieu thereof "January 1, 1994".

(3) The Secretary of Defense, after consultation with the Chairman of the Joint Chiefs of Staff, shall revise the transition plan developed pursuant to section 1305(b) of Public Law 100-180 to take account of the amendments made by paragraphs (1) and (2). The Secretary shall include with the first report of the Secretary under section 619(e)(5) of title 10, United States Code, as added by paragraph (1)(B), a report on the actions of the Secretary in revising such transition plan.

(b) WAIVER AUTHORITY.—(1) Paragraph (2) of section 619(e) of title 10, United States Code, is amended—

(A) by striking out "and" at the end of subparagraph (C); and

(B) by striking out subparagraph (D) and inserting in lieu thereof the following:

"(D) in the case of an officer who served in a joint duty assignment that began before January 1, 1987, if the officer served in that assignment for a period of sufficient duration (which may not be less than 12 months) for his service to have been considered a full tour of duty under the policies and regulations in effect on September 30, 1986; and

"(E) until January 1, 1994, in the case of an officer who—

"(i) served in an assignment (other than a joint duty assignment) that began before October 1, 1986, and that involved significant experience in joint matters (as determined by the Secretary) if the officer served in that assignment for a period of sufficient duration (which may not be less than 12 months) for his service to have been considered a full tour of duty under the policies and regulations in effect on September 30, 1986; or

"(ii) served in a joint duty assignment for not less than two years during which the officer is selected for promotion to the grade of brigadier general or rear admiral (lower half).".

(2) Paragraph (3)(C) of such section is amended by striking out "paragraph (2)(B), (2)(C), or (2)(D)" and inserting in lieu thereof "paragraph (2) (other than under subparagraph (A) of that paragraph)".

SEC. 516. EXTENSION OF TRANSITION TO JOINT DUTY ASSIGNMENT STAFFING REQUIREMENTS

(a) GENERAL EXTENSION.—Subsection (a) of section 406 of the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433; 100 Stat. 1033) is amended to read as follows:

"(a) JOINT DUTY ASSIGNMENTS.—(1) Section 661(d) of title 10, United States Code, shall be implemented as rapidly as possible and (except as provided under paragraph (2)) not later than October 1, 1989.

"(2) The first sentence of section 661(d)(2)(B) of such title shall apply with respect to positions designated under the first sentence of section 661(d)(2)(A) of that title as critical joint duty assignment positions which become vacant after January 1, 1989.".

(b) TRANSITION.—Subsection (b)(1)(B) of such section is amended by striking out clauses (ii) and (iii) and inserting in lieu thereof the following:

"(ii) waive the requirement for the length of a joint duty assignment in the case of a joint duty assignment begun by an officer before January 1, 1987, if the officer served in that assignment for a period of sufficient duration (which may not be less than 12 months) to have been considered a full tour of duty under the policies and regulations in effect on September 30, 1986; or

"(iii) consider as a joint duty assignment any tour of duty begun by an officer before October 1, 1986, that involved significant experience in joint matters (as determined by the Secretary) if the officer served in that assignment for a period of sufficient duration (which may not be less than 12 months) for his service to have been considered a full tour of duty under the policies and regulations in effect on September 30, 1986.".

(c) DEADLINE FOR INITIAL SELECTION OF OFFICERS FOR THE JOINT SPECIALTY.—Subsection (b)(3) of such section is amended by striking out "two years after the date of the enactment of this Act" and inserting in lieu thereof "on October 1, 1989".

SEC. 517. COUNTING OF OFFICERS WITH CRITICAL OCCUPATIONAL SPECIALTY INVOLVING COMBAT OPERATIONS FOR PURPOSES OF JOINT DUTY ASSIGNMENT STAFFING AND TOUR LENGTHS

(a) STAFFING.—Section 661(d)(4) of title 10, United States Code, is amended by striking out "one-third" and inserting in lieu thereof "25 percent".

(b) TOUR LENGTHS.—Section 664(e)(2) of such title is amended by striking out "10 percent" and inserting in lieu thereof "12½ percent".

SEC. 518. SERVICE BY CAPTAINS AND NAVY LIEUTENANTS IN JOINT DUTY ASSIGNMENT TO BE COUNTED FOR ALL OFFICER PERSONNEL LAWS CONCERNING SUCH SERVICE

Section 661 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(f) TREATMENT OF CERTAIN SERVICE.—Any service by an officer in the grade of captain or, in the case of the Navy, lieutenant in a joint duty assignment shall be considered to be service in a joint duty assignment for purposes of all laws (including section 619(e)(1) of this title) establishing a requirement or condition with respect to an officer's service in a joint duty assignment.".

SEC. 519. TECHNICAL AMENDMENTS

(a) AMENDMENTS RELATING TO JOINT DUTY ASSIGNMENTS.—(1) Section 154(b)(1)(B) of title 10, United States Code, is amended by striking out "served in at least one joint duty assignment (as defined under section 668(b) of this title)" and inserting in lieu thereof "completed a full tour of duty in a joint duty assignment (as defined in section 664(f) of this title)".

(2) Section 164(a)(1)(B) of such title is amended by striking out "served in at least one joint duty assignment (as defined under section 668(b) of this title)" and inserting in lieu thereof "completed a full tour of duty in a joint duty assignment (as defined in section 664(f) of this title)".

(3) Sections 3033(a)(2)(B), 5033(a)(2)(B), 5043(a)(2)(B), and 8033(a)(2)(B) of such title are amended by striking out "joint duty assignment" and inserting in lieu thereof "full tour of duty in a joint duty assignment (as defined in section 664(f) of this title)".

(b) CORRECTION OF ERRONEOUS SUBSECTION DESIGNATION.—Section 668 of such title is amended by redesignating subsection (f) as subsection (c).

PART C—MISCELLANEOUS

SEC. 521. TESTING OF NEW ENTRANTS FOR DRUG AND ALCOHOL ABUSE

(a) REVISION OF MANDATORY TESTING PROGRAM.—(1) Section 978 of title 10, United States Code, is amended to read as follows:

"§ 978. Drug and alcohol abuse and dependency: testing of new entrants

"(a)(1) Except as provided in paragraph (2), the Secretary concerned shall require each member of the armed forces under the Secretary's jurisdiction, within 72 hours after the member's initial entry on active duty after enlistment or appointment, to—

"(A) undergo testing (by practicable, scientifically supported means) for drug and alcohol use; and

"(B) be evaluated for drug and alcohol dependency.

"(2) The Secretary concerned shall require an applicant for appointment as a cadet or midshipman to undergo the testing and evaluation described in paragraph (1) during the physical examination given the applicant before such appointment. The Secretary concerned shall require a person to whom a commission is offered under section 2106 of this title following completion of the program of advanced training under the Reserve Officers' Training Corps program to undergo such testing and evaluation during the precommissioning physical examination given such person.

"(b) A person who refuses to consent to testing and evaluation required by subsection (a) may not be retained in the armed forces, and any original appointment of such person as an officer shall be terminated, unless that person consents to such testing and evaluation.

"(c)(1) The enlistment or appointment of a person who is determined, as a result of an evaluation conducted under subsection (a)(1)(B), to be dependent on drugs or alcohol at the time of such enlistment or appointment shall be void.

"(2) A person whose enlistment or appointment is voided under paragraph (1) shall be referred to a civilian treatment facility.

"(d) The testing and evaluation required by subsection (a) shall be carried out under regulations prescribed by the Secretary of Defense in consultation with the Secretary of Transportation. Those regulations shall apply uniformly throughout the armed forces.

"(e) In time of war, or time of emergency declared by Congress or the President, the President may suspend the provisions of subsection (a).".

(2) The item relating to that section in the table of sections at the beginning of chapter 49 of such title is amended to read as follows:

"978. Drug and alcohol abuse and dependency: testing of new entrants.".

(b) REGULATIONS.—The Secretary of Defense shall prescribe regulations for the implementation of section 978 of title 10, United States Code, as amended by subsection (a), not later than 60 days after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—The testing and evaluation program prescribed by that section shall be implemented not later than October 1, 1989.

(d) CONFORMING AMENDMENT.—Section 513(b)(2) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1091) is repealed.

SEC. 522. REQUIREMENT TO ACCEPT PERSONS ENLISTING IN THE AIR FORCE ON GENDER-FREE BASIS

(a) REQUIREMENT.—(1) Chapter 833 of title 10, United States Code, is amended by inserting after section 8251 the following new section:

"§ 8252. Regular Air Force: gender-free basis for acceptance of original enlistments

"(a) Except as provided in subsection (b), in accepting persons for original enlistment in the Regular Air Force, the Secretary of the Air Force may not—

"(1) set a minimum or maximum percentage of persons who may be accepted for such an enlistment according to gender for skill categories or jobs; or

"(2) in any other way base the acceptance of a person for such an enlistment on gender.

"(b) Subsection (a) shall not apply with respect to an enlistment specified as being for training leading to designation in a skill category involving duty assignments to which, under section 8549 of this title, female members of the Air Force may not be assigned.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 8251 the following new item:

"8252. Regular Air Force: gender-free basis for acceptance of original enlistments.".

(b) IMPLEMENTATION.—The Secretary of the Air Force shall develop a methodology for implementing section 8252 of title 10, United States Code, as added by subsection (a), not later than October 1, 1989.

(c) EFFECTIVE DATE.—Such section shall apply with respect to persons accepted for original enlistment in the Regular Air Force after September 30, 1989.

(d) REPEAL OF FY 89 REQUIREMENT FOR SPECIFIED PERCENTAGE OF AIR FORCE ENLISTEES TO BE WOMEN.—Section 551(a) of the Department of Defense Authorization Act, 1985 (10 U.S.C. 8251 note), is repealed.

SEC. 523. MILITARY EDUCATION FOR ARMY NATIONAL GUARD CIVILIAN TECHNICIANS

(a) PHASE-OUT OF PROGRAM REQUIRING OUT-OF-STATE TRAINING.—A civilian technician of the Army National Guard whose military occupational specialty has been approved by the Secretary of the Army in accordance with subsection (b) for training under the Reserve Component Noncommissioned Officers Education Program by an appropriate National Guard school (as defined in subsection (f)) shall, if such technician is not already qualified in that military occupational specialty, receive military training in that military occupational specialty through that school rather than through the Military Education Program.

(b) APPROVAL OF STATE COURSES.—(1) Each National Guard school which receives from the Department of the Army a training program for National Guard training for a military occupational specialty as part of the Reserve Component Noncommissioned Officers Education Program shall implement that training program by the end of the 45-day period beginning on the receipt of such program by the school or as soon thereafter as feasible. The Secretary of the Army shall, not later than 45 days after any such school notifies the Secretary that it has implemented such a training program, determine whether or not such school has properly implemented such program. Upon the approval by the Secretary of the implementation of such program by such school, subsection (a) shall apply with respect to military education of civilian technicians of the Army National Guard of that State in the applicable military occupational specialty.

(2) In the case of a National Guard school for which a program has not been approved under paragraph (1) with respect to a military occupational specialty, the Secretary of the Army may, subject to subsection (d), require a civilian technician of the Army National Guard in that State with that military occupational specialty to receive training through the Military Education Program.

(c) SPECIAL RULE FOR LEADERSHIP TRAINING.—A civilian technician of the Army National Guard who is required by the National Guard Bureau to receive leadership training through courses known as Primary Leadership Development courses shall receive such training through the appropriate State National Guard school.

(d) TRANSITION.—In the case of a civilian technician of the Army National Guard for whose military occupational specialty there is not, as of the date of the enactment of this Act, a program of training approved under subsection (b) for an appropriate National Guard school, the technician shall, at his request, be given the Skill Qualification Test appropriate for his military occupational specialty and skill level. If the technician passes the test and, if necessary for his military occupational specialty, successfully completes the Army National Guard Battle Skills Course for the appropriate grade, the Secretary of the Army may not require the technician to receive training through the existing Military Education Program and may not reduce the technician in military grade, or deny the technician a military promotion, by reason of failure to receive training through the Military Education Program.

(e) REPORT.—The Secretary of the Army shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the implementation of the Reserve Component Noncommissioned Officers Education Program. The report shall discuss the implementation of such program at each State National Guard school and shall explain, in any case in which the implementation of a training program has not been approved under subsection (b), the reasons for the withholding of such approval. Such report shall be submitted not later than December 31, 1988.

(f) DEFINITIONS.—For purposes of this section:

(1) The term "National Guard school", with respect to a civilian technician, means a National Guard school of that technician's State, or (2) a regional National Guard school designated by the Secretary of the Army for the region including that technician's State.

(2) The term "State" includes the District of Columbia and any commonwealth, territory, or possession of the United States.

SEC. 524. EXPANSION OF MILITARY SPOUSE EMPLOYMENT PREFERENCE

Section 806(b)(2) of the Military Family Act of 1985 (10 U.S.C. 113 note) is amended—

(1) by striking out "hiring" the first place it appears;

(2) by inserting "civilian" before "position" the first place it appears; and

(3) by striking out "above Grade GS-1 (or its equivalent)".

SEC. 525. MANPOWER ESTIMATES FOR MAJOR DEFENSE ACQUISITION PROGRAMS

Section 2434 of title 10, United States Code, is amended—

(1) in subsection (a)(2), by striking out "90 days" and inserting in lieu thereof "30 days";

(2) by redesignating subsection (b) as subsection (c) and in paragraph (3)(A) of that subsection striking out "both in total personnel and" and inserting in lieu thereof "in total personnel or in"; and

(3) by inserting after subsection (a) the following new subsection (b):

"(b) EXCEPTIONS.—(1) Subsection (a)(2) shall not apply during time of war or during a national emergency declared by Congress or the President.

"(2) The 30-day period specified in subsection (a)(2) shall be reduced to 10 days in the case of a major defense acquisition program if the manpower estimate submitted by the Secretary of Defense under subsection (a)(2) with respect to that program indicates that no increase in military or civilian personnel end strengths described in subsection (c)(3)(B) will be required.".

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

PART A—PAY AND ALLOWANCES

SEC. 601. MILITARY PAY RAISE FOR FISCAL YEAR 1989

(a) WAIVER OF SECTION 1009 ADJUSTMENT.—Any adjustment required by section 1009 of title 37, United States Code, in elements of compensation of members of the uniformed services to become effective during fiscal year 1989 shall not be made.

(b) INCREASE IN BASIC PAY AND BAS.—The rates of basic pay and basic allowance for subsistence of members of the uniformed services are increased by 4.1 percent effective on January 1, 1989.

(c) INCREASE IN BAQ.—(1) The rates of basic allowance for quarters for members of the uniformed services are increased by 7 percent effective on January 1, 1989.

(2) The President may allocate the increase in the rates of basic allowance for quarters provided in paragraph (1) among pay grades and dependency categories so that the resulting rates of basic allowance for quarters, expressed in the case of each such rate as a percentage determined under paragraph (3), are as nearly as practicable the same.

(3) The percentage of the rate of basic allowance for quarters for any pay grade and dependency status to be applied for the purpose of paragraph (2) is the percentage that results from dividing such rate by the national median cost of housing (as determined by the Secretary of Defense) for members of that pay grade and dependency status.

(4) An allocation under paragraph (2) may not reduce the rate of basic allowance for quarters for members in any pay grade and dependency status below the rate in effect with respect to such members on December 31, 1988.

(5) The Secretary of Defense may establish separate rates of basic allowance for quarters for commissioned officers credited with over four years of active service as enlisted members or warrant officers.

(d) INCREASE IN CADET AND MIDSHIPMAN PAY.—Effective January 1, 1989, section 203(c)(1) of title 37, United States Code, is amended by striking out "$504.30" and inserting in lieu thereof "$525".

SEC. 602. ALLOWANCE FOR TRANSPORTATION OF HOUSEHOLD GOODS

(a) ALLOWANCE.—Section 406(b)(1) of title 37, United States Code, is amended—

(1) by striking out "within such weight allowances prescribed by the Secretaries concerned" in subparagraph (A) and inserting in lieu thereof "within the weight allowances listed in subparagraph (C)"; and

(2) by adding at the end the following new subparagraph:

"(C) Under regulations prescribed by the Secretary of Defense, the weight allowance to which a member is entitled under subparagraph (A) is determined in accordance with the following table:

"Pay Grade	*Without Dependents*	*With Dependents*
O-10 to O-6.	*18,000*	*18,000*
O-5	*16,000*	*17,500*
O-4	*14,000*	*17,000*
O-3	*13,000*	*14,500*
O-2	*12,500*	*13,500*
O-1	*10,000*	*12,000*
W-4........	*14,000*	*17,000*
W-3........	*13,000*	*14,500*
W-2........	*12,500*	*13,500*
W-1........	*10,000*	*12,000*
E-9..........	*12,000*	*14,500*
E-8..........	*11,000*	*13,500*
E-7..........	*10,500*	*12,500*
E-6..........	*8,000*	*11,000*
E-5..........	*7,000*	*9,000*
E-4[1]	*7,000*	*8,000*
E-4[2]	*3,500*	*7,000*
E-3..........	*2,000*	*5,000*
E-2..........	*1,500*	*5,000*
E-1..........	*1,500*	*5,000*

[1] Member with more than two years of service computed under section 205 of this title.

[2] Member with less than two years of service computed under section 205 of this title".

(b) EFFECTIVE DATE.—The weight allowances in section 406(b)(1)(C) of title 37, United States Code (as added by subsection (a)), shall apply with respect to transportation of baggage and household effects occurring after June 30, 1989.

PART B—SPECIAL PAY FOR CRITICAL PERSONNEL

SEC. 611. AVIATOR RETENTION BONUS

(a) BONUS AUTHORIZED.—(1) An aviation officer described in subsection (b) who, during the period beginning on January 1, 1989, and ending on September 30, 1989, executes a written agreement to remain on active duty in aviation service for at least one year may, upon the acceptance of the written agreement by the Secretary concerned, be paid a retention bonus as provided in this section.

(2) The amount of such bonus shall be not more than—

(A) $12,000 for each year covered by the agreement, if the officer agrees to remain on active duty to complete 14 years of commissioned service; or

(B) $6,000 for each year covered by the agreement, if the officer agrees to remain on active duty for one or two years.

(3) The term of the agreement and the amount of payment may be prorated as long as an agreement under this section does not extend beyond the date on which the officer would complete 14 years of commissioned service.

(4) Upon the officer's acceptance of the agreement, the total amount payable becomes fixed and may be paid in either a lump sum or in installments.

(b) COVERED OFFICERS.—(1) This section applies to an officer of a uniformed service who—

(A) is entitled to aviation career incentive pay under section 301a of title 37, United States Code;

(B) is in a pay grade below pay grade O-6;

(C) is qualified to perform operational flying duty;

(D) has completed at least six but less than 13 years of active duty;

(E) has completed any active duty service commitment incurred for undergraduate aviator training; and

(F) is in an aviation specialty designated by the Secretary concerned, and approved by the Secretary of Defense or by the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, as critical.

(2) For purposes of paragraph (1)(F), an aviation specialty shall be considered subject to designation as critical when there exists a current shortage of officers in that specialty.

(c) ADDITIONAL PAY.—A retention bonus under this section is in addition to any other pay and allowances to which an officer is entitled.

(d) REFUNDS.—(1) Refunds shall be required, on a pro rata basis, of sums paid under this section if the officer who has received the payment fails to complete the total period of active duty specified in the agreement, as conditions and circumstances warrant.

(2) An obligation to reimburse the United States imposed under paragraph (1) is for all purposes a debt owed to the United States.

(3) A discharge in bankruptcy under title 11, United States Code, that is entered less than 5 years after the termination of an agreement under this section does not discharge the member signing such agreement from a debt arising under such agreement or under paragraph (1). This paragraph applies to any case commenced under title 11, United States Code, after January 1, 1989.

(e) CERTAIN PAY AGREEMENTS PROHIBITED.—An agreement for special pay under section 301b of title 37, United States Code, may not be accepted by the Secretary of Defense after December 31, 1988.

(f) REGULATIONS.—This section shall be administered under regulations prescribed by the Secretaries concerned and approved by the Secretary of Defense or the Secretary of Transportation, as appropriate.

(g) DEFINITIONS.—In this section:

(1) The term "aviation service" means the service performed by an officer holding an aeronautical rating or designation (except a flight surgeon or other medical officer).

(2) The term "aviation specialty" means a community of pilots or other designated aeronautical officers identified by type of aircraft or weapon system.

(3) The term "operational flying duty" has the meaning given such term by clause (6) of section 301a(a) of title 37, United States Code.

(4) The terms "grade", "member", "pay", "Secretary concerned", and "uniformed services" have the meanings given those terms by section 101 of title 37, United States Code.

(h) REPORTS.—(1) Not later than November 15, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report describing the manner in which the authority provided in this section is to be used. The report shall include a description of the relative level of payments between officers with various amounts of aviation service by aviation specialty.

(2) Not later than December 1, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a comprehensive report on the retention of aviators in the Armed Forces. The report shall include, at a minimum, the following:

(A) An analysis of aviator requirements and inventories (current and projected) of the Armed Forces by grade and years of service, including a list of those aviators who

are assigned to duty other than operational flying duty and a justification for such assignments.

(B) An analysis of current and projected aviator retention rates in the Armed Forces and of those current and projected retention rates actually needed to meet the requirements of the Armed Forces.

(C) Such recommendations as the Secretary considers appropriate regarding—

(i) the initial active duty service commitment of aviators;

(ii) the integration of the aviator career incentive pay under section 301a of title 37, United States Code, and the retention bonus under this section into a structure that more efficiently supports the retention requirements for aviators in the Armed Forces; and

(iii) changes in the aviator management policies of the Armed Forces that would eliminate the disincentives cited by aviators as retention detractors.

(D) Specific proposals for such legislation as the Secretary considers necessary to retain on active duty the aviators required to meet the needs of the Armed Forces.

(i) LIMITATION ON OBLIGATIONS.—The total amount of payments made to officers of the Air Force during fiscal year 1989 under this section may not exceed $36,200,000.

(j) TERMINATION OF AUTHORITY.—If both reports required by paragraphs (1) and (2) of subsection (h) are not received by the committees named in such paragraphs by the respective dates specified in such paragraphs, the authority to make payments under this section shall terminate effective December 2, 1988.

SEC. 612. MEDICAL OFFICER RETENTION BONUS

(a) BONUS AUTHORIZED.—(1) A medical officer described in subsection (b) who, during the period beginning on January 1, 1989, and ending on September 30, 1989, executes a written agreement to remain on active duty for at least two years after completion of any other active-duty service commitment may, upon acceptance of the written agreement by the Secretary concerned, be paid a retention bonus as provided in this section.

(2) The amount of such retention bonus shall be not more than $20,000 for each year covered by the agreement.

(b) COVERED OFFICERS.—This section applies to an officer of a uniformed service who—

(1) is an officer of the Medical Corps of the Army or the Navy or an officer of the Air Force designated as a medical officer;

(2) is in a pay grade below pay grade 0-7;

(3) has at least eight years of creditable service (computed as described in section 302(g) of title 37, United States Code); and

(4) has completed any active-duty service commitment incurred for medical education and training (or will have completed any such commitment before October 1, 1991).

(c) LIMITATION ON TOTAL COMPENSATION.—The Secretary of Defense shall ensure that no officer receives pay under this section which, when added to all other pay and allowances such officer receives pursuant to titles 10 and 37, United States Code, results in such officer receiving total compensation in an amount that exceeds the total compensation paid to comparable physicians (considering age, education, experience, certification, training, and other appropriate criteria), as determined by the Secretary, who are civilian physicians employed in the private sector in employment other than self-employment. The Secretary shall target payments under this section to officers in categories in which the most severe shortages exist in the Department of Defense.

(d) ADMINISTRATION AND IMPLEMENTATION.—The provisions of subsections (a) and (b) of section 303a of title 37, United States Code, shall apply to the administration of this section as if a reference to this section were included in the list of sections referred to in such subsections.

(e) REFUNDS.—(1) Refunds shall be required, on a pro rata basis, of sums paid under this section if the officer who has received the payment fails to complete the total period of active duty specified in the agreement, as conditions and circumstances warrant.

(2) An obligation to reimburse the United States imposed under paragraph (1) is for all purposes a debt owed to the United States.

(3) A discharge in bankruptcy under title 11, United States Code, that is entered less than 5 years after the termination of an agreement under this section does not discharge the member signing such agreement from a debt arising under such agreement or under paragraph (1). This paragraph applies to any case commenced under title 11, United States Code, after January 1, 1989.

(f) DEFINITIONS.—In this section, the terms "grade", "member", "pay", "Secretary concerned", and "uniformed services" have the meanings given those terms by section 101 of title 37, United States Code.

(g) REPORTS.—(1) Not later than November 15, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report describing the manner in which the authority provided in this section is to be used. The report shall include a description of the relative level of payments between officers in various categories.

(2)(A) Not later than December 1, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report containing the following:

(i) An analysis of current and projected requirements of the Armed Forces for health professionals by speciality and years of service, including a list of requirements for physicians who are assigned to duties other than duties consisting primarily of providing patient care and a justification for those requirements.

(ii) The Secretary's assessment of the adequacy of the existing compensation system for such health care professionals.

(iii) Such recommendations for legislation as the Secretary considers necessary to attract and retain on active duty the health care professionals needed to meet the needs of the Armed Forces.

(B) The Secretary shall include in his report a draft of legislation which, if enacted, would establish either—

(i) a compensation system which provides total compensation that is competitive with the compensation paid comparable health care professionals (considering age, education, experience, certification, training, and other appropriate criteria) who are health care professionals employed in the private sector in employment other than self-employment; or

(ii) a single military health care professional incentive compensation program (in lieu of special pay provided under chapter 5 of title 37, United States Code) which provides incentive compensation in sufficient amounts to ensure that the total amount of such compensation to which such health care professionals are entitled under the provisions of titles 10 and 37, United States Code, is competitive with the compensation paid comparable health care professionals (considering age, education, experience, certification, training, and other appropriate criteria) who are health care professionals employed in the private sector in employment other than self-employment.

(h) LIMITATION ON OBLIGATIONS.—The total amount of payments made during fiscal year 1989 under this section may not exceed $30,000,000.

(i) TERMINATION OF AUTHORITY.—If both reports required by paragraphs (1) and (2) of subsection (g) are not received by the committees named in such paragraphs by the respective dates specified in such paragraphs, the authority to make payments under this section shall terminate effective December 2, 1988.

SEC. 613. SPECIAL PAY FOR CRITICALLY SHORT WARTIME HEALTH SPECIALISTS IN THE SELECTED RESERVE

(a) IN GENERAL.—(1) An officer of a reserve component of the Armed Forces described in paragraph (2) who executes a written agreement under which the officer agrees to serve in the Selected Reserve of an armed force for a period of not less than one year nor more than three years, beginning on the date the officer accepts the award of special pay under this section, may be paid special pay at an annual rate not to exceed $10,000.

(2) An officer referred to in paragraph (1) is an officer in a health care profession who is qualified in a specialty designated by regulations as a critically short wartime specialty.

(3) Special pay under this section shall be paid annually at the beginning of each twelve-month period for which the officer has agreed to serve.

(b) REFUND REQUIREMENT.—An officer who voluntarily terminates service in the Selected Reserve of an armed force before the end of the period for which a payment was made to such officer under this section shall refund to the United States the full amount of the payment made for the period on which the payment was based.

(c) INAPPLICABILITY OF DISCHARGE IN BANKRUPTCY.—A discharge in bankruptcy under title 11, United States Code, that is entered less than 5 years after the termination of an agreement under this section does not discharge the person receiving such special pay from the debt arising under the agreement.

(d) TERMINATION OF AGREEMENT AUTHORITY.—No agreement under this section may be entered into after September 30, 1990.

(e) PURPOSE OF PROGRAM.—The authority provided under this section shall be used only for the purpose of establishing and conducting a pilot test program to determine the effect that the program provided for in this section has on the retention of officers who are qualified in specialties designated by regulation as critically short wartime specialties.

(f) REGULATIONS.—(1) This section shall be administered under regulations prescribed by the Secretary concerned and approved by the Secretary of Defense.

(2) As used in paragraph (1), the term "Secretary concerned" has the same meaning as provided in section 101(5) of title 37, United States Code.

(g) LIMITATIONS ON OBLIGATIONS.—The total amount of payments made during fiscal year 1989 as the result of agreements entered into under this section may not exceed $4,000,000.

(h) REPORT.—(1) Not later than September 1, 1988, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a *report containing a description of the manner in which the pilot test program provided for in this section is to be structured, including the minimum periods of service to be required for various levels of special pay under this section.*

(2) Not later than February 1, 1990, the Secretary also shall submit to such committees an evaluation of the effectiveness of the program and recommendations for its continuation or modification.

(i) EFFECTIVE DATE.—The authority to enter into agreements under this section shall take effect 30 days after the date on which the committees referred to in subsection (h)(1) receive the report required by such subsection.

PART C—OTHER PERSONNEL BENEFITS

SEC. 621. HOUSING LEASE INDEMNITY PROGRAM

(a) IN GENERAL.—(1) Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1055. Waiver of security deposits for members renting private housing; authority to indemnify landlord

"(a) The Secretary of Defense may carry out a program under which the Secretary of a military department agrees to indemnify a landlord who leases a rental unit to a member of the armed forces against a breach of the lease by the member or for damage to the rental unit caused by the member. In exchange for agreement for such indemnification by the Secretary, the landlord shall be required to waive any requirement for payment by the member of a security deposit that the landlord would otherwise require.

"(b)(1) For purposes of carrying out a program authorized by subsection (a), the Secretary of a military department, to the extent funds are provided in advance in appropriation Acts, may enter into an agreement with any landlord who agrees to waive the requirement for a security deposit in connection with the lease of a rental unit to a member of the armed forces under the jurisdiction of the Secretary. An agreement under this paragraph shall provide that—

"(A) the term of the agreement shall remain in effect during the term of the member's lease and during any lease renewal periods with the lessor;

"(B) the member shall not pay a security deposit;

"(C) the Secretary (except as provided in subparagraphs (D) and (E)) shall compensate the landlord for breach of the lease by the member and for damage to the rental unit caused by the member or by a guest or dependent of the member;

"(D) the total liability of the Secretary for a breach of the lease or for damage described in subparagraph (C) may not exceed an amount equal to the amount that the Secretary determines would have been required by the landlord as a security deposit in the absence of an agreement authorized in this paragraph;

"(E) the Secretary may not compensate the landlord for any claim for breach of the lease or for damage described in subparagraph (C) until the landlord exhausts any remedies available to the landlord (including submission to binding arbitration by a panel composed of military personnel and persons from the private sector) against the member for the breach or damage; and

"(F) the Secretary shall be subrogated to the rights of the landlord in any case in which the Secretary compensates the landlord for breach of the lease or for damage described in subparagraph (C).

"(2) Any authority of the Secretary of a military department under this section shall be exercised under regulations prescribed by the Secretary of Defense.

"(c)(1) The Secretary of a military department who compensates a landlord under subsection (b) for a breach of a lease or for damage described in subsection (b)(1)(C) may issue a special order under section 1007 of title 37 to authorize the withholding from the pay of the member of an amount equal to the amount paid by the Secretary to the landlord as compensation for the breach or damage.

"(2) Before the Secretary of a military department issues a special order under section 1007 of title 37 to authorize the withholding of any amount from the pay of a member for a breach or damage referred to in paragraph (1), the Secretary concerned shall provide the member with the same notice and opportunity for hearing and record inspection as provided an individual under section 5514(a)(2) of title 5. The Secretary concerned shall prescribe regulations, subject to the approval of the President, to carry out this paragraph. Such regulations shall be as uniform for the military departments as practicable.

"(d) In this section, the term 'landlord' means a person who leases a rental unit to a member of the armed forces.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1055. Waiver of security deposits for members renting private housing; authority to indemnify landlord.".

(b) EFFECTIVE DATE.—Section 1055 of title 10, United States Code, as added by subsection (a), shall take effect on October 1, 1988.

SEC. 622. RETIRED PAY INVERSIONS RESULTING FROM COURT-MARTIAL PUNISHMENT

(a) IN GENERAL.—Section 1401a(f) of title 10, United States Code, is amended by inserting after the second sentence the following: "However, in the case of a member who, after initially becoming eligible for retired pay, is reduced in grade pursuant to a sentence of a court-martial, such computation may not be based on a grade higher than the grade in which the member is retired.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the first day of the first month that begins after the date of the enactment of this Act and shall apply to the computation of the retired or retainer pay of members who initially become entitled to such pay on or after such effective date.

SEC. 623. TRAVEL AND TRANSPORTATION ALLOWANCES FOR EMERGENCY TRAVEL

(a) IN GENERAL.—Section 411e(a) of title 37, United States Code, is amended by striking out "incident to the serious illness or injury or the death of a dependent of the member" and inserting in lieu thereof "incident to a personal emergency of the member".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to travel performed after September 30, 1988.

SEC. 624. TRAVEL AND TRANSPORTATION ALLOWANCES INCIDENT TO VOLUNTARY EXTENSION OF OVERSEAS TOURS OF DUTY

(a) CHANGE FROM MANDATORY TO PERMISSIVE.—Section 411g(a) of title 37, United States Code, is amended by striking out "is entitled" and inserting in lieu thereof "may be paid".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to agreements to extend overseas tours of duty made on and after the date of the enactment of this Act.

SEC. 625. CIVILIAN CLOTHING ALLOWANCE

Section 419 of title 37, United States Code, is amended—

(1) by striking out "member" each place it appears and inserting in lieu thereof "officer";

(2) by striking out "is entitled" and inserting in lieu thereof "may be paid"; and

(3) by striking out "member's" and inserting in lieu thereof "officer's".

PART D—BENEFITS RELATING TO INCAPACITATION OF CERTAIN RESERVE MEMBERS IN LINE OF DUTY

SEC. 631. COMPENSATION FOR CERTAIN RESERVE MEMBERS

(a) AUTHORIZATION OF COMPENSATION.—Subsections (g) and (h) of section 204 of title 37, United States Code, are amended to read as follows:

"(g)(1) A member of a reserve component of a uniformed service is entitled to the pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service whenever such member is physically disabled as the result of an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing active duty;

"(B) in line of duty while performing inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance in an inactive status at an educational institution under the sponsorship of an armed force or the Public Health Service); or

"(C) while traveling directly to or from such duty or training.

"(2) In the case of a member who receives earned income from nonmilitary employment or self-employment performed in any month in which the member is otherwise entitled to pay and allowances under paragraph (1), the total pay and allowances shall be reduced by the amount of such income. In calculating earned income for the purpose of the preceding sentence, income from an income protection plan, vacation pay, or sick leave which the member elects to receive shall be considered.

"(h)(1) A member of a reserve component of a uniformed service who is physically able to perform his military duties, is entitled, upon request, to a portion of the monthly pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for each month for which the member demonstrates a loss of earned income from nonmilitary employment or self-employment as a result of an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing active duty;

"(B) in line of duty while performing inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance in an inactive status at an educational institution under the sponsorship of an armed force or the Public Health Service); or

"(C) while traveling directly to or from such duty or training.

"(2) The monthly entitlement may not exceed the member's demonstrated loss of earned income from nonmilitary or self-employment. In calculating such loss of income, income from an income protection plan, vacation pay, or sick leave which the

member elects to receive shall be considered.".

(b) LIMIT ON TOTAL COMPENSATION.—Such section is further amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection (i):

"(i)(1) The total amount of pay and allowances paid under subsections (g) and (h) and compensation paid under section 206(a) of this title for any period may not exceed the amount of pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for that period.

"(2) Pay and allowances may not be paid under subsection (g) or (h) for a period of more than six months. The Secretary concerned may extend such period in any case if the Secretary determines that it is in the interests of fairness and equity to do so.

"(3) A member is not entitled to benefits under subsection (g) or (h) if the injury, illness, disease, or aggravation of an injury, illness, or disease is the result of the gross negligence or misconduct of the member.

"(4) Regulations with respect to procedures for paying pay and allowances under subsections (g) and (h) shall be prescribed—

"(A) by the Secretary of Defense for the armed forces under the jurisdiction of the Secretary; and

"(B) by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.".

(c) CONFORMING AMENDMENT FOR INACTIVE-DUTY TRAINING.—Section 206(a) of such title is amended by striking out "for a period of 30 days or less" in paragraph (3)(A)(i).

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to persons who, after the date of enactment of this Act, incur or aggravate an injury, illness, or disease, or who die as the result of incurring or aggravating an injury, illness, or disease.

SEC. 632. TRAVEL FOR DEPENDENTS OF CERTAIN MEMBERS

(a) TRAVEL AUTHORIZED.—Paragraph (2) of section 411h(a) of title 37, United States Code, is amended to read as follows:

"(2) A member referred to in paragraph (1) is a member of the uniformed services who—

"(A) is serving on active duty or is entitled to pay and allowances under section 204(g) of this title (or would be so entitled were it not for offsetting earned income described in that section);

"(B) is seriously ill or seriously injured; and

"(C) is hospitalized in a medical facility in or outside the United States.".

(b) TRAVEL TO BURIAL CEREMONIES.—Section 411f(a) of such title is amended by striking out "for a period of 30 days or more in order to" and inserting in lieu thereof "or inactive duty in order that such dependents may".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1988.

SEC. 633. INJURY, DISABILITY, AND DEATH COMPENSATION COVERAGE FOR ROTC CADETS DURING MILITARY TRAINING ACTIVITIES

(a) AUTHORITY TO PRESCRIBE TRAINING.—(1) Subsection (a) of section 2109 of title 10, United States Code, is amended to read as follows:

"(a) For the further practical instruction of members of, and designated applicants for membership in, the program, the Secretary of the military department concerned may prescribe and conduct practical military training, in addition to field training and practice cruises prescribed under section 2104(b)(6) of this title. The Secretary concerned may require that some or all of the training prescribed under this subsection must be completed by a member before the member is commissioned.".

(2) Subsection (b) of such section is amended—

(A) by striking out "may—" and inserting in lieu thereof ", with respect to practical military training prescribed under this section and field training and practice cruises prescribed under section 2104(b)(6) of this title, may—"; and

(B) by striking out "field training" each place it appears and inserting in lieu thereof "such training".

(3)(A) The heading of such section is amended to read as follows:

"§ 2109. Practical military training".

(B) The item relating to such section in the table of sections at the beginning of chapter 103 of such title is amended to read as follows:

"2109. Practical military training.".

(b) COVERAGE FOR INJURY, DISABILITY, AND DEATH.—Section 8140 of title 5, United States Code, is amended—

(1) in subsection (a)—

(A) by striking out "disability or death from an injury" and inserting in lieu thereof "an injury, disability, or death"; and

(B) by striking out "field" before "training";

(2) in subsection (f), by striking out "while attending field training or a practice cruise under chapter 103 of title 10" and inserting in lieu thereof "by a military department in a facility of a military department"; and

(3) by adding at the end thereof the following new subsection:

"(g) For purposes of this section, the term 'applicant for membership' includes a student enrolled, during a semester or other enrollment term, in a course which is part of Reserve Officers' Training Corps instruction at an educational institution.".

(c) TRAINING INCLUDED WITHIN CERTAIN DEFINITIONS.—(1) Paragraph (22)(D) of section 101 of title 38, United States Code, is amended—

(A) by striking out "field"; and

(B) by inserting "for a period of not less than four weeks and which must be completed by the member before the member is commissioned" after "title 10".

(2) Paragraph (23) of such section is amended—

(A) by striking out "and" at the end of clause (A);

(B) by striking out the period at the end of clause (B) and inserting in lieu thereof "; and"; and

(C) by inserting after clause (B) the following new clause:

"(C) training (other than active duty for training) by a member of, or applicant for membership (as defined in section 8140(g) of title 5) in, the Senior Reserve Officers' Training Corps prescribed under chapter 103 of title 10.".

(d) PAY STATUS WHILE IN CERTAIN TRAINING.—Section 209(c) of title 37, United States Code, is amended by striking out "field training or practice cruises under section 2109 of title 10" and inserting in lieu thereof "training or practice cruises under chapter 103 of title 10 if the training or cruise is of at least four weeks duration and must be completed before the cadet or midshipman is commissioned.".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply only with respect to training performed after September 30, 1988.

PART E—HEALTH CARE MANAGEMENT PROVISIONS

SEC. 641. REQUIREMENT TO SUBMIT END STRENGTHS AND MANPOWER REPORT FOR MEDICAL PERSONNEL

(a) END STRENGTH REQUIREMENT.—Section 115(b)(1) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

"(D) At the same time the President submits the budget for any fiscal year to Congress pursuant to section 1105 of title 31, the Secretary of Defense shall submit to Congress recommendations for the end strength levels for medical personnel for each component of the armed forces as of the end of that fiscal year. For purposes of this subparagraph, the term 'medical personnel' includes—

"(i) in the Army, members of the Medical Corps, Dental Corps, Nurse Corps, Medical Service Corps, Veterinary Corps, and Army Medical Specialist Corps;

"(ii) in the Air Force, members designated as medical officers, dental officers, Air Force nurses, medical service officers, and biomedical science officers;

"(iii) in the Navy, members of the Medical Corps, Dental Corps, Nurse Corps, and Medical Service Corps;

"(iv) enlisted personnel engaged in or supporting medically-related activities; and

"(v) such other personnel as the Secretary considers appropriate.".

(b) MANPOWER REPORT REQUIREMENT.—Section 115(b)(3)(B) of such title is amended—

(1) by striking out "and" at the end of clause (ii);

(2) by striking out the period at the end of clause (iii) and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new clause:

"(iv) the manpower required to perform the medical missions of the armed forces and the Department of Defense.".

SEC. 642. REQUIREMENTS WITH RESPECT TO CERTAIN NAVY MEDICAL PERSONNEL

Of the amount appropriated for operation and maintenance for the Navy for fiscal year 1989, $15,000,000 shall be available only for the pay and allowances of those civilian employees of the Navy—

(1) hired after September 30, 1988, to perform duties in support of Navy medical treatment facilities; and

(2) only to the extent that the number of such employees hired after that date results in a greater number of such employees performing those duties for the Navy than were performing those duties for the Navy on September 30, 1988.

SEC. 643. PROVISIONS RELATING TO NAVY HEALTH PROFESSION PERSONNEL

(a) REPEAL.—Section 723 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1116) is repealed.

(b) MINIMUM REQUIREMENTS.—(1) Of the total number of officers authorized to be serving on active duty in the Navy as of September 30, 1989, under section 401(2), 11,940 shall be available only for assignment to duties in health profession specialties.

(2) Of the total number of officers authorized to be serving on active duty in the Navy as of September 30, 1990, 12,240 shall be available only for assignment to duties in health profession specialties.

(3) Of the total number of officers authorized to be serving on active duty in the Navy as of September 30, 1991, 12,510 shall be available only for assignment to duties in health profession specialties.

SEC. 644. SHARING OF HEALTH-CARE RESOURCES BETWEEN THE DEPARTMENT OF DEFENSE AND THE VETERANS' ADMINISTRATION

Of the total amount appropriated for operation and maintenance for the Department of Defense for fiscal year 1989, $20,000,000 shall be available only for sharing health-care resources between the Department of Defense and the Veterans' Administration under section 5011 of title 38, United States Code, or under section 1535 of title 31, United States Code.

SEC. 645. EXTENSION OF TERMINATION DATE FOR FORMER PUBLIC HEALTH SERVICE HOSPITALS AND REQUIREMENT THAT SUCH HOSPITALS BE COST EFFECTIVE

Section 1252(e) of the Department of Defense Authorization Act, 1984 (42 U.S.C. 248d(e)), is amended—

(1) by striking out "1988" in the first sentence and inserting in lieu thereof "1990";

(2) by striking out "which identifies" in the second sentence and all that follows through the end of that sentence and inserting in lieu thereof the following: "which (1) identifies the facility whose status is being terminated, (2) specifies the date on which such status is being terminated, and (3) certifies that more cost-effective medical and dental care for members and former members of the uniformed services or their dependents is available elsewhere in the same geographic area."; and

(3) by inserting after the third sentence the following: "Each such copy of the order shall include a copy of the certification required in clause (3) of the second sentence of this subsection and shall contain cost data substantiating the termination decision and identifying how more cost-effective care could be provided to the affected individuals.".

SEC. 646. ELIGIBILITY OF CERTAIN INSTITUTIONS TO RECEIVE REIMBURSEMENT UNDER CHAMPUS

(a) ACTIVE-DUTY DEPENDENTS.—(1) Section 1079(b) of title 10, United States Code, is amended by adding at the end of paragraph (1) the following: "The Secretary of Defense may exempt a patient from paying such amount if the hospital to which the patient is admitted does not impose a legal obligation on any of its patients to pay for inpatient care.".

(2) Section 1079 of such title is further amended by adding at the end the following new subsection:

"(m)(1) Subject to paragraph (2), the Secretary of Defense may, upon request, make payments under this section for a charge for services for which a claim is submitted under a plan contracted for under subsection (a) to a hospital that does not impose a legal obligation on any of its patients to pay for such services.

"(2) A payment under paragraph (1) may not exceed the average amount paid for comparable services in the geographic area in which the hospital is located or, if no comparable services are available in that area, in an area similar to the area in which the hospital is located.

"(3) The Secretary of Defense shall periodically review the billing practices of each hospital the Secretary approves for payment under this subsection to ensure that the hospital's practices of not billing patients for payment are not resulting in increased costs to the Government.

"(4) The Secretary of Defense may require each hospital the Secretary approves for payment under this subsection to provide evidence that it has sources of revenue to cover unbilled costs.".

(b) RETIREES AND THEIR DEPENDENTS.—(1) Section 1086(b) of title 10, United States Code, is amended in paragraph (3) by adding at the end the following: "The Secretary of Defense may exempt a patient from paying such charges if the hospital to which the patient is admitted does not impose a legal obligation on any of its patients to pay for inpatient care.".

(2) Section 1086 of such title is further amended by adding at the end the following new subsection:

"(h)(1) Subject to paragraph (2), the Secretary of Defense may, upon request, make payments under this section for a charge for services for which a claim is submitted under a plan contracted for under subsection (a) to a hospital that does not impose a legal obligation on any of its patients to pay for such services.

"(2) A payment under paragraph (1) may not exceed the average amount paid for comparable services in the geographic area in which the hospital is located or, if no comparable services are available in that area, in an area similar to the area in which the hospital is located.

"(3) The Secretary of Defense shall periodically review the billing practices of each hospital the Secretary approves for payment under this subsection to ensure that the hospital's practices of not billing patients for payment are not resulting in increased costs to the Government.

"(4) The Secretary of Defense may require each hospital the Secretary approves for payment under this subsection to provide evidence that it has sources of revenue to cover unbilled costs.".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply with respect to medical care received after September 30, 1988.

PART F—MISCELLANEOUS

SEC. 651. LIMITED EXTENSION OF CERTAIN MEDICAL BENEFITS FOR FORMER SPOUSES

(a) MEDICAL COVERAGE.—Section 1076 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(f)(1) A person described in paragraph (2) shall be considered a dependent for purposes of this section for a period of one year after the date of the person's final decree of divorce, dissolution, or annulment. In addition, if such a person purchases a conversion health policy within the one-year period referred to in the preceding sentence, such person shall be entitled, upon request, to medical and dental care prescribed by section 1077 of this title for a period of one year after the purchase of the policy for any condition of the person that existed on the date on which coverage under the policy begins and for which care is not provided under that policy.

"(2) A person referred to in paragraph (1) is a person who would qualify as a dependent under section 1072(2)(G) but for the fact that the person's final decree of divorce, dissolution, or annulment is dated on or after April 1, 1985.

"(3) In this subsection, the term 'conversion health policy' means a health insurance plan with a private insurer, developed through negotiations between the Secretary of Defense and a private insurer, that is available for purchase by or for the use of persons described in paragraph (2).".

(b) CONFORMING AMENDMENT.—Section 645(c) of the Department of Defense Authorization Act, 1985 (10 U.S.C. 1072 note) is repealed effective as of the effective date of section 1076(f) of title 10, United States Code (as added by subsection (a)).

(c) TRANSITION.—Any person who qualified as a dependent under section 645(c) of the Department of Defense Authorization Act, 1985, as in effect before its repeal by subsection (b), shall remain qualified as a dependent as specified in that section and shall become eligible for benefits in accordance with section 1076(f) of title 10, United States Code (as added by subsection (a)), when no longer qualified as a dependent pursuant to such section 645(c).

(d) EFFECTIVE DATE.—Section 1076(f) of title 10, United States Code, as added by subsection (a), shall take effect on the date of enactment of this Act or 30 days after the Secretary of Defense first makes available a conversion health policy (as defined in such section), whichever is later. Such section shall apply to persons whose decree of divorce, dissolution, or annulment becomes final after the date of the enactment of this Act.

SEC. 652. TECHNICAL CORRECTION TO SURVIVOR BENEFIT PLAN COVERAGE OF FORMER SPOUSES

(a) INCLUSION OF FORMER SPOUSES IN SAVINGS PROVISION.—Section 1451(e)(1) of title 10, United States Code, is amended—

(1) by striking out "widow or widower" in subparagraph (A) and inserting in lieu thereof "widow, widower, or former spouse"; and

(2) by inserting "or former spouse" in subparagraph (B) after "A spouse".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to payments under the Survivor Benefit Plan established under subchapter II of chapter 73 of title 10, United States Code, for periods after February 28, 1986.

SEC. 653. ANNUITY FOR CERTAIN SURVIVING SPOUSES

(a) ANNUITY.—(1) The Secretary concerned shall pay an annuity to the qualified surviving spouse of each member of the uniformed services who—

(A) died before November 1, 1953; and

(B) was entitled to retired or retainer pay on the date of death.

(2) A qualified surviving spouse for purposes of this section is a surviving spouse who has not remarried and who is eligible for an annuity under section 4 of Public Law 92-425 (10 U.S.C. 1448 note).

(b) AMOUNT OF ANNUITY.—(1) An annuity payable under this section shall be paid at the rate of $165 per month, as adjusted from time to time under subsection (c).

(2) An annuity paid to a surviving spouse under this section shall be reduced by the amount of dependency and indemnity compensation (DIC) to which the surviving spouse is entitled under section 411(a) of title 38, United States Code.

(c) COST-OF-LIVING INCREASES.—Whenever retired or retainer pay is increased under section 1401a(b)(2) of title 10, United States Code, each annuity that is payable under this section shall be increased at the same time and by the same total percent. The amount of the increase shall be based on the monthly annuity payable before any reduction under this section.

(d) RELATIONSHIP TO OTHER PROGRAMS.—An annuity paid to a surviving spouse under this section is in addition to any pension to which the surviving spouse is entitled under

subchapter III of chapter 15 of title 38, United States Code, or section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978 (38 U.S.C. 521 note), and any payment made under the provisions of section 4 of Public Law 92-425. An annuity paid under this section shall not be considered as income for the purposes of eligibility for any such pension.

(e) DEFINITIONS.—For purposes of this section:

(1) The terms "uniformed services" and "Secretary concerned" have the meanings given those terms in section 101 of title 37, United States Code.

(2) The term "surviving spouse" has the meaning given the terms "widow" and "widower" in paragraphs (3) and (4), respectively, of section 1447 of title 10, United States Code.

(f) EFFECTIVE DATE.—Annuities under this section shall be paid for months beginning after the month in which this Act is enacted. No benefit shall accrue to any person by reason of the enactment of this section for any period before the first month referred to in the preceding sentence. No benefit shall be paid to any person under this section unless an application for such benefit has been filed with the Secretary concerned by or on behalf of such person.

SEC. 654. REPORT ON DEFINITION OF DEPENDENT FOR CERTAIN PURPOSES

(a) REPORT.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the desirability of providing in law a more uniform and consistent definition of the term "dependent" for the purpose of determining the eligibility of a person, based upon the relationship of such person to a member or former member of the uniformed services, for various rights and benefits provided by law, including the following:

(1) Pay and allowances under title 37, United States Code.

(2) Rights and benefits (including eligibility for travel and commissary store privileges) under chapters 53 and 54 of title 10, United States Code.

(3) Medical and dental care under chapter 55 of title 10, United States Code.

(b) DEADLINE FOR REPORT.—The Secretary shall submit the report required by subsection (a) not later than March 15, 1989, together with such comments and recommendations for legislation as he considers appropriate.

TITLE VII—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

PART A—ORGANIZATION

SEC. 701. AUTHORITY TO ESTABLISH POSITION OF ASSISTANT SECRETARY OF DEFENSE FOR INTELLIGENCE

Paragraph (3) of section 136(b) of title 10, United States Code, is amended to read as follows:

"(3)(A) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence. He shall have as his principal duty the overall supervision of command, control, communications, and intelligence affairs of the Department of Defense.

"(B) Notwithstanding subparagraph (A), one of the Assistant Secretaries established by the Secretary of Defense may be an Assistant Secretary of Defense for Intelligence, who shall have as his principal duty the overall supervision of intelligence affairs of the Department of Defense.

"(C) If the Secretary of Defense establishes an Assistant Secretary of Defense for Intelligence, the Assistant Secretary provided for under subparagraph (A) shall be the Assistant Secretary of Defense for Command, Control, and Communications and shall have as his principal duty the overall supervision of command, control, and communications affairs of the Department of Defense.".

SEC. 702. DESIGNATION IN EACH MILITARY DEPARTMENT OF ASSISTANT SECRETARY WITH RESPONSIBILITY FOR FINANCIAL MANAGEMENT

(a) DEPARTMENT OF THE ARMY.—(1) Section 3016(b) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(4) One of the Assistant Secretaries shall be the Assistant Secretary of the Army for Financial Management. The Assistant Secretary shall have as his principal responsibility the exercise of the comptroller functions of the Department of the Army, including financial management functions. The Assistant Secretary shall be responsible for all financial management activities and operations of the Department of the Army and shall advise the Secretary of the Army on financial management.".

(2) Chapter 303 of such title is amended by adding at the end the following new section:

"§ 3022. Financial management

"(a) The Secretary of the Army shall provide that the Assistant Secretary of the Army for Financial Management shall direct and manage financial management activities and operations of the Department of the Army, including ensuring that financial management systems of the Department of the Army comply with subsection (b). The authority of the Assistant Secretary for such direction and management shall include the authority to—

"(1) supervise and direct the preparation of budget estimates of the Department of the Army and otherwise carry out, with respect to the Department of the Army, the functions specified for the Comptroller of the Department of Defense in section 137(c) of this title;

"(2) approve and supervise any project to design or enhance a financial management system for the Department of the Army; and

"(3) approve the establishment and supervise the operation of any asset management system of the Department of the Army, including—

"(A) systems for cash management, credit management, and debt collection; and

"(B) systems for the accounting for the quantity, location, and cost of property and inventory.

"(b)(1) Financial management systems of the Department of the Army (including accounting systems, internal control systems, and financial reporting systems) shall be established and maintained in conformance with—

"(A) the accounting and financial reporting principles, standards, and requirements established by the Comptroller General under section 3511 of title 31; and

"(B) the internal control standards established by the Comptroller General under section 3512 of title 31.

"(2) Such systems shall provide for—

"(A) complete, reliable, consistent, and timely information which is prepared on a uniform basis and which is responsive to the financial information needs of department management;

"(B) the development and reporting of cost information;

"(C) the integration of accounting and budgeting information; and

"(D) the systematic measurement of performance.

"(c) The Assistant Secretary shall maintain a five-year plan describing the activities the Department of the Army proposes to conduct over the next five fiscal years to improve financial management. Such plan shall be revised annually.

"(d) The Assistant Secretary of the Army for Financial Management shall transmit to the Secretary of the Army a report each year on the activities of the Assistant Secretary during the preceding year. Each such report shall include a description and analysis of the status of Department of the Army financial management.".

(3) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"3022. Financial management.".

(b) DEPARTMENT OF THE NAVY.—Section 5016(b) of such title is amended by adding at the end the following new paragraph:

"(3) One of the Assistant Secretaries shall be the Assistant Secretary of the Navy for Financial Management. The Assistant Secretary shall have as his principal responsibility the exercise of the comptroller functions of the Department of the Navy, including financial management functions. The Assistant Secretary shall be responsible for all financial management activities and operations of the Department of the Navy and shall advise the Secretary of the Navy on financial management.".

(2) Chapter 503 of such title is amended by adding at the end the following new section:

"§ 5025. Financial management

"(a) The Secretary of the Navy shall provide that the Assistant Secretary of the Navy for Financial Management shall direct and manage financial management activities and operations of the Department of the Navy, including ensuring that financial management systems of the Department of the Navy comply with subsection (b). The authority of the Assistant Secretary for such direction and management shall include the authority to—

"(1) supervise and direct the preparation of budget estimates of the Department of the Navy and otherwise carry out, with respect to the Department of the Navy, the functions specified for the Comptroller of the Department of Defense in section 137(c) of this title;

"(2) approve and supervise any project to design or enhance a financial management system for the Department of the Navy; and

"(3) approve the establishment and supervise the operation of any asset management system of the Department of the Navy, including—

"(A) systems for cash management, credit management, and debt collection; and

"(B) systems for the accounting for the quantity, location, and cost of property and inventory.

"(b)(1) Financial management systems of the Department of the Navy (including accounting systems, internal control systems, and financial reporting systems) shall be established and maintained in conformance with—

"(A) the accounting and financial reporting principles, standards, and requirements established by the Comptroller General under section 3511 of title 31; and

"(B) the internal control standards established by the Comptroller General under section 3512 of title 31.

"(2) Such systems shall provide for—

"(A) complete, reliable, consistent, and timely information which is prepared on a uniform basis and which is responsive to the financial information needs of department management;

"(B) the development and reporting of cost information;

"(C) the integration of accounting and budgeting information; and

"(D) the systematic measurement of performance.

"(c) The Assistant Secretary shall maintain a five-year plan describing the activities the Department of the Navy proposes to conduct over the next five fiscal years to improve financial management. Such plan shall be revised annually.

"(d) The Assistant Secretary of the Navy for Financial Management shall transmit to the Secretary of the Navy a report each year on the activities of the Assistant Secretary during the preceding year. Each such report shall include a description and analysis of the status of Department of the Navy financial management.".

(3) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"5025. Financial management.".

(c) DEPARTMENT OF THE AIR FORCE.—Section 8016(b) of such title is amended by adding at the end the following new paragraph:

"(3) One of the Assistant Secretaries shall be the Assistant Secretary of the Air Force for Financial Management. The Assistant Secretary shall have as his principal responsibility the exercise of the comptroller functions of the Department of the Air Force, including financial management functions. The Assistant Secretary shall be responsible for all financial management activities and operations of the Department of the Air Force and shall advise the Secretary of the Air Force on financial management.".

(2) Chapter 803 of such title is amended by adding at the end the following new section:

"§ 8022. Financial management

"(a) The Secretary of the Air Force shall provide that the Assistant Secretary of the Air Force for Financial Management shall direct and manage financial management activities and operations of the Department of the Air Force, including ensuring that financial management systems of the Department of the Air Force comply with subsection (b). The authority of the Assistant Secretary for such direction and management shall include the authority to—

"(1) supervise and direct the preparation of budget estimates of the Department of the Air Force and otherwise carry out, with respect to the Department of the Air Force, the functions specified for the Comptroller of the Department of Defense in section 137(c) of this title;

"(2) approve and supervise any project to design or enhance a financial management system for the Department of the Air Force; and

"(3) approve the establishment and supervise the operation of any asset management system of the Department of the Air Force, including—

"(A) systems for cash management, credit management, and debt collection; and

"(B) systems for the accounting for the quantity, location, and cost of property and inventory.

"(b)(1) Financial management systems of the Department of the Air Force (including accounting systems, internal control systems, and financial reporting systems) shall be established and maintained in conformance with—

"(A) the accounting and financial reporting principles, standards, and requirements established by the Comptroller General under section 3511 of title 31; and

"(B) the internal control standards established by the Comptroller General under section 3512 of title 31.

"(2) Such systems shall provide for—

"(A) complete, reliable, consistent, and timely information which is prepared on a uniform basis and which is responsive to the financial information needs of department management;

"(B) the development and reporting of cost information;

"(C) the integration of accounting and budgeting information; and

"(D) the systematic measurement of performance.

"(c) The Assistant Secretary shall maintain a five-year plan describing the activities the Department of the Air Force proposes to conduct over the next five fiscal years to improve financial management. Such plan shall be revised annually.

"(d) The Assistant Secretary of the Air Force for Financial Management shall transmit to the Secretary of the Air Force a report each year on the activities of the Assistant Secretary during the preceding year. Each such report shall include a description and analysis of the status of Department of the Air Force financial management.".

(3) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"8022. Financial management.".

(d) NUMBER OF ASSISTANT SECRETARIES IN THE DEPARTMENT OF THE AIR FORCE.—Section 8016(a) of such title is amended by striking out "three" and inserting in lieu thereof "four".

(e) EFFECTIVE DATES.—(1) The amendments made by subsections (a) and (b) shall take effect on January 20, 1989.

(2) The amendments made by subsections (c) and (d) shall take effect on July 1, 1989, except that such amendments shall take effect on such earlier date, but not before January 21, 1989, as may be prescribed by the President in advance by Executive order.

SEC. 703. GENERAL COUNSELS OF MILITARY DEPARTMENTS

(a) REQUIREMENT FOR ADVICE AND CONSENT OF SENATE.—Sections 3019, 5019, and 8019 of title 10, United States Code, are each amended by inserting ", by and with the advice and consent of the Senate" after "President".

(b) PAY GRADE.—Notwithstanding section 5316 of title 5, United States Code, the General Counsel of each of the military departments shall be paid at the highest rate of basic pay payable under section 5382 of title 5, United States Code, to a member of the Senior Executive Service.

(c) APPLICABILITY.—The amendments made by this section shall apply to appointments made under sections 3019, 5019, and 8019, respectively, of title 10, United States Code, on and after the date of the enactment of this Act.

SEC. 704. DEFERRAL OF RETIREMENT DATE FOR CHAIRMAN OF THE JOINT CHIEFS OF STAFF

Notwithstanding the limitation contained in the first sentence of subsection (b) of section 1251 of title 10, United States Code, the President may defer until October 1, 1989, the retirement of the officer serving as Chairman of the Joint Chiefs of Staff for the term which began on October 1, 1987.

PART B—FORCE STRUCTURE

SEC. 711. ASSIGNMENT OF COMBATANT FORCES

Section 162(a) of title 10, United States Code, is amended—

(1) in paragraph (1), by inserting "or to the United States element of the North American Air Defense Command" in the first sentence after "combatant commands";

(2) in paragraph (2), by inserting "or to the United States element of the North American Air Defense Command" after "combatant commands"; and

(3) in paragraph (3), by inserting "or to the United States element of the North American Air Defense Command" after "combatant command".

SEC. 712. RESPONSIBILITY AND AUTHORITY OF COMMANDER OF SPECIAL OPERATIONS COMMAND

Section 167(e) of title 10, United States Code, is amended—

(1) by striking out "activities, including the following functions:" and inserting in lieu thereof "activities.

"(2) The commander of such command shall be responsible for, and shall have the authority to conduct, the following functions relating to special operations activities (whether or not relating to the special operations command):";

(2) by striking out subparagraphs (F) and (G);

(3) by redesignating subparagraphs (B) through (E) as subparagraphs (D) through (G), respectively;

(4) by inserting after subparagraph (A) the following new subparagraphs:

"(B) Preparing and submitting to the Secretary of Defense program recommendations and budget proposals for special operations forces and for other forces assigned to the special operations command.

"(C) Exercising authority, direction, and control over the expenditure of funds—

"(i) for forces assigned to the special operations command; and

"(ii) for special operations forces assigned to unified combatant commands other than the special operations command, with respect to all matters covered by paragraph (4) and, with respect to a matter not covered by paragraph (4), to the extent directed by the Secretary of Defense.";

(5) by striking out paragraph (2) (as in effect immediately before the enactment of this Act) and inserting in lieu thereof the following:

"(3) The commander of the special operations command shall be responsible for—

"(A) ensuring the combat readiness of forces assigned to the special operations command; and

"(B) monitoring the preparedness to carry out assigned missions of special operations forces assigned to unified combatant commands other than the special operations command.

"(4)(A) The commander of the special operations command shall be responsible for, and shall have the authority to conduct, the following:

"(i) Development and acquisition of special operations- peculiar equipment.

"(ii) Acquisition of special operations-peculiar material, supplies, and services.";

(6) by striking out "(3) Subject to" and inserting in lieu thereof "(B) Subject to";

(7) by striking out "paragraph (1)(G)" and inserting in lieu thereof "subparagraph (A)"; and

(8) by designating the sentence beginning "The staff of the commander" as subparagraph (C).

SEC. 713. STRATEGIC AIR DEFENSE ALERT MISSION

(a) LIMITATION.—Except as provided in subsection (b)(2), the Secretary of the Air Force may not make any change in the alert *status of any Air National Guard unit in the strategic air defense mission in the northern portion of the United States, or in the deployment of units assigned to that mission, from that status and deployment as in effect on April 10, 1988.*

(b) Report.—(1) After the North Warning System and the Over-the-Horizon Backscatter Radar System are deployed and in operation as replacements for the Distant Early Warning (DEW line) system, the Secretary of Defense, acting through the Chairman of the Joint Chiefs of Staff, shall submit to Congress a report on those systems. The report shall—

(A) describe the implementation of those systems and their operational capability and effectiveness as demonstrated up to the time of the report;

(B) describe plans, in light of those new systems, for the forward deployment of the interceptor aircraft from United States bases during periods of heightened international tension; and

(C) clarify the alert status in the strategic air defense mission, under those new systems, of elements of the Air Force (including elements of the reserve components) at Air Force bases in the northern portions of the United States.

(2) The limitation in subsection (a) shall cease to apply 180 days after the date on which Congress receives the report required by paragraph (1).

(c) Interim Report.—Not later than February 1, 1989, the Secretary of Defense, acting through the Chairman of the Joint Chiefs of Staff, shall submit to Congress a report setting forth in detail each of the following:

(1) A description of the radar surveillance system and the alert and non-alert interceptor aircraft which will be available during each of fiscal years 1989, 1990, and 1991 along the northern border of the United States to carry out the strategic air defense mission.

(2) A description of the specific contributions to the strategic air defense mission expected to be made by the units identified in subsection (a) during each of those fiscal years.

(3) A specific recommendation as to whether the limitation in subsection (b) should be renewed and made permanent after fiscal year 1989.

SEC. 714. REPORTS ON BUDGETS FOR UNIFIED AND SPECIFIED COMMANDS

(a) Reports by Commanders of Combatant Commands.—(1) The commander of each of the unified and specified commands shall, not later than April 1, 1989, prepare an independent report on the implementation of the resource allocation provisions of title 10, United States Code, enacted by the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433) that are specified in paragraph (2) and any other resource allocation provision enacted by that Act which the commander concerned considers appropriate.

(2) The sections of title 10, United States Code, referred to in paragraph (1) are the following:

(A) Section 153(a)(4) (A), (B), (C), and (D), relating to advice on requirements, programs, and budget.

(B) Section 163(b)(2), relating to the role of the Chairman as spokesman for the commanders of the unified and specified combatant commands.

(C) Section 166, relating to budget proposals for such commands.

(b) Matters To Be Included.—Each report required by subsection (a) shall address the following matters:

(1) The status of implementation of each of the provisions referred to in subsection (a)(2) and any other related resource allocation provisions.

(2) For any provision referred to in subsection (a)(2) that is not fully implemented and for which the commander is responsible or shares responsibility, the date estimated by the commander concerned for final implementation of such provisions.

(3) An evaluation of the effect that each provision referred to in subsection (a)(2) has had or will have on (A) improving decisions within the Department of Defense with respect to the allocation of resources, and (B) improving the implementation of such decisions.

(4) With respect to section 166 of title 10, United States Code, the assessment by the commander, supported by actual examples, of what the effect would be of a small budget (in an annual amount of not more than $50,000,000) that would be managed by the Chairman of the Joint Chiefs of Staff but which would be controlled for execution by the commander and that would be available for activities to which the commander assigns a high priority, such as—

(A) JCS/non-JCS exercises (including foreign country participation);

(B) on-going contingencies;

(C) command and control;

(D) training; and

(E) selected operations.

(5) The views of the commander on the optimum role of the unified and specified commands in resource allocation decisionmaking and execution within the Department of Defense.

(6) The assessment of the commander concerning the degree to which that optimum role is played, as of the time of the preparation of the report, by his command.

(7) The assessment of the commander of whether current law, regulations, policies, and procedures provide the latitude for his command to play that optimum role.

(c) Report by Chairman of Joint Chiefs of Staff.—(1) The Chairman of the Joint Chiefs of Staff shall, not later than April 1, 1989, prepare a report on the implementation of the resource allocation provisions of title 10, United States Code, enacted by the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433) that are specified in paragraph (2) and any other resource allocation provision enacted by that Act which the Chairman considers appropriate.

(2) The sections of title 10, United States Code, referred to in paragraph (1) are the following:

(A) Section 113(g), relating to annual guidance by the Secretary of Defense to the heads of Department of Defense components.

(B) Section 153(a)(2)(A), relating to the preparation of strategic plans.

(C) Section 153(a)(3)(C), relating to the preparation and review of contingency plans.

(D) Section 153(a)(4), relating to advice by the Chairman to the Secretary of Defense concerning the requirements, programs, and budget of the Department of Defense.

(E) Section 163(b)(2), relating to the role of the Chairman as spokesman for the commanders of the unified and specified combatant commands.

(F) Section 166, relating to budget proposals for such commands.

(d) Matters To Be Included.—The report required by subsection (c) shall address the following matters:

(1) The status of implementation of each of the provisions referred to in subsection (c)(2) and any other related resource allocation provisions.

(2) For any provision referred to in subsection (c)(2) that is not fully implemented, the date estimated by the Chairman for final implementation of such provisions.

(3) An evaluation of the effect that each provision referred to in subsection (c)(2) has had or will have on (A) improving decisions within the Department of Defense with respect to the allocation of resources, and (B) improving the implementation of such decisions.

(4) The views of the Chairman on the optimum role of the unified and specified commands, the Joint Staff, and the Chairman in resource allocation decisionmaking and execution within the Department of Defense .

(5) The assessment of the Chairman concerning the degree to which those optimum roles are played, as of the time of the preparation of the report, by the unified and specified commands, the Joint Staff, and the Chairman.

(6) The assessment of the Chairman of whether current law, regulations, policies, and procedures provide the latitude for the unified and specified commands, the Joint Staff, and the Chairman to play those optimum roles.

(e) Submission of Reports.—The commanders of the unified and specified commands shall each submit the report required by subsection (a) to the Secretary of Defense. The Chairman of the Joint Chiefs of Staff shall submit the report required by subsection (c) to the Secretary. The Secretary shall transmit those reports, without change, to the Committees on Armed Services of the Senate and House of Representatives not later than April 1, 1989, together with such comments on the reports and such recommendations as the Secretary considers appropriate.

SEC. 715. REPORT ON INITIAL REVIEW OF UNIFIED COMMAND PLAN AND INITIAL REVIEW OF SERVICE ROLES AND MISSIONS

(a) Report Requirement.—Not later than April 1, 1989, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the implementation of sections 153(b) and 161(b) of title 10, United States Code.

(b) Initial Review of Service Roles and Missions.—With respect to the initial report of the Chairman of the Joint Chiefs of Staff to the Secretary of Defense under such section 153(b) (relating to the assignment of functions (or roles and missions) to the Armed Forces), the report under subsection (a) shall particularly describe how such report addressed each of the matters that the Chairman was required (under the second sentence of such section) to consider in preparing the report.

(c) Initial Review of the Unified Command Plan.—With respect to the initial review of the Chairman under such section 161(b) (relating to the missions, responsibilities, and force structures of the unified and specified combatant commands), the report under subsection (a) shall particularly describe how such review took into consideration each of the matters specified in paragraphs (1) through (10) of section 212(a) of the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433; 100 Stat. 1017).

(d) Matters To Be Included.—The report under subsection (a) shall describe, with respect to the reports referred to in subsections (b) and (c)—

(1) the Secretary's evaluation of each of the findings and conclusions of the Chairman in each such report;

(2) how the Secretary has implemented (or proposes to implement) each of the recommendations in each such report; and

(3) such recommendations for further legislative and administrative action as the Secretary considers appropriate based on his review of the reports.

PART C—PERSONNEL-RELATED PROVISIONS

SEC. 721. REGULATIONS FOR DELIVERY OF MILITARY PERSONNEL TO CIVIL AUTHORITIES WHEN CHARGED WITH CERTAIN OFFENSES

(a) Not later than 90 days after the date of enactment of this Act, the Secretary of Defense shall ensure that the Secretaries of the military departments have issued uniform regulations pursuant to section 814 of title 10, United States Code, to provide for the delivery of members of the Armed Forces to civilian authority when such members have been accused of offenses against civil authority. Such regulations shall specifically provide for the delivery of such members to civilian authority, in appropriate cases, when such members are accused of parental kidnapping and other similar offenses, including criminal contempt arising from such offenses and from child custody matters, and shall specifically address the special needs for the exercise of the authority contained in section 814 of title 10, United States Code, when members of the Armed Forces assigned overseas are accused of offenses by civilian authorities.

(b) Not later than 120 days after the enactment of this Act, the Secretary of Defense shall transmit to the Committees on Armed Services of the Senate and House of Representatives a copy of all regulations promulgated under section 814 of title 10, United States Code, as a result of this section and any recommendations that the Secretary may have concerning the need for additional legislation related to the amenability of members of the Armed Forces to civil authority.

SEC. 722. ANNUITIES FOR JUDGES OF UNITED STATES COURT OF MILITARY APPEALS

(a) IN GENERAL.—Section 867 of title 10, United States Code (article 67 of the Uniform Code of Military Justice), is amended by adding at the end the following new subsection:

"(i)(1) A judge of the United States Court of Military Appeals who is separated from civilian service in the Federal Government after completing the term of service for which he was appointed as a judge of the court is eligible for an annuity under this subsection. An individual who is a former judge of the court who is separated from civilian service in the Federal Government and who completed the term of service on the court for which he was appointed is eligible for an annuity under this subsection. A judge or former judge who is eligible for an annuity under this subsection shall be paid that annuity if he elects, at the time he becomes eligible to receive that annuity, to receive that annuity in lieu of any other annuity for which he may be eligible at the time of such election (whether an immediate or a deferred annuity) under subchapter III of chapter 83 or chapter 84 of title 5 or any other retirement system for civilian employees of the Federal Government. Such an election may not be revoked.

"(2) The annuity of a judge or former judge under this subsection is 80 percent of the rate of pay for a judge in active service on the United States Court of Military Appeals as of the date on which the judge or former judge is separated from civilian service.

"(3) Nothing in this subsection affects any right of a judge or former judge to participate in the thrift savings plan under subchapter III of chapter 84 of title 5.

"(4) The Secretary of Defense shall prescribe by regulation a program to provide annuities for survivors and former spouses of judges and former judges who receive an annuity under this subsection. That program shall, to the maximum extent practicable, provide benefits and establish terms and conditions that are similar to those provided under survivor and former spouse annuity programs under retirement systems for civilian employees of the Federal Government. The program may include provisions for the reduction in the annuity paid the judge or former judge as a condition for the annuity. An election by a judge or former judge to receive an annuity under this subsection terminates any right or interest which any individual may have to an annuity under any other retirement system for civilian employees of the Federal Government based on the service of the judge or former judge.

"(5) The Secretary of Defense shall periodically increase annuities and survivor annuities paid under this subsection in order to take account of changes in the cost of living. The Secretary shall prescribe by regulation procedures for increases in annuities under this subsection. Such system shall, to the maximum extent appropriate, provide cost-of-living adjustments that are similar to those that are provided under other retirement systems for civilian employees of the Federal Government.

"(6) A retired judge or former judge of the court who is receiving an annuity under this subsection and who is appointed to a position in the Federal Government shall, during the period of such retired judge's or former judge's service in such position, be entitled to receive only the annuity under this subsection or the pay for that position, whichever is paid at the higher rate.

"(7) A retired judge or former judge who is entitled to an annuity under this subsection and who later is appointed as a justice or judge of the United States to hold office during good behavior and who retires from that office, or from regular active service in that office, shall be paid either (A) the annuity under this subsection, or (B) the annuity or salary to which he is entitled by reason of his service as such a justice or judge of the United States, as determined by an election by the judge or former judge at the time of such retirement from the office, or from regular active service in the office, of justice or judge of the United States. Such an election may not be revoked.

"(8) Annuities and survivor annuities paid under this subsection shall be paid out of the Department of Defense Military Retirement Fund.".

(b) DEADLINE FOR ESTABLISHMENT OF SURVIVOR PROGRAM.—The Secretary of Defense shall establish the program required by paragraph (4) of section 867(i) of title 10, United States Code, as added by subsection (a), not later than one year after the date of the enactment of this Act.

(c) TECHNICAL AMENDMENT.—Section 867(a)(4) of title 10, United States Code, is amended by inserting "or an annuity under subsection (i) or subchapter III of chapter 83 or chapter 84 of title 5" after "retired pay" both places it appears.

(d) EFFECTIVE DATE.—Subsection (i) of section 867 of title 10, United States Code, as added by subsection (a), shall apply with respect to judges of the United States Court of Military Appeals whose term of service on such court ends on or after the date of the enactment of this Act and to the survivors of such judges.

PART D—OTHER

SEC. 731. ANNUAL NET ASSESSMENTS

Section 113(j) of title 10, United States Code, is amended—

(1) by inserting "(1)" after "(j)";

(2) by striking out the second sentence; and

(3) by adding at the end the following:

"(2) Each such report shall—

"(A) include a comparison of the defense capabilities and programs of the armed forces of the United States and its allies with the armed forces of potential adversaries of the United States and allies of the United States;

"(B) include an examination of the trends experienced in those capabilities and programs during the five years immediately preceding the year in which the report is transmitted and an examination of the expected trends in those capabilities and programs during the five years covered by the Five-Year Defense Program submitted to Congress during that year pursuant to section 114(g) of this title;

"(C) reflect, in the overall assessment and in the strategic and regional assessments, the defense capabilities and programs of the armed forces of the United States specified in the budget submitted to Congress under section 1105 of title 31 in the year in which the report is submitted and in the five-year defense program submitted in such year; and

"(D) identify the deficiencies in the defense capabilities of the armed forces of the United States in such budget and such five-year defense program.

"(3) The Secretary shall transmit to Congress the report required for each year under paragraph (1) at the same time that the President submits the budget to Congress under section 1105 of title 31 in that year. Such report shall be transmitted in both classified and unclassified form.".

SEC. 732. LINKAGE OF NATIONAL MILITARY STRATEGY AND WEAPON ACQUISITION PROGRAMS

(a) FINDINGS.—Congress makes the following findings:

(1) The Final Report to the President by the President's Blue Ribbon Commission on Defense Management (the "Packard Commission"), the Defense Acquisition Study of the Center for Strategic and International Studies, and the Report of the Commission on Integrated Long-Term Strategy (referred to as "Discriminate Deterrence") have separately identified significant deficiencies in the integration of weapon acquisition programs of the Department of Defense with national military strategy.

(2) There is no established process involving the Office of the Secretary of Defense and the Joint Staff in which strategy, policy, operational concepts, and resource constraints are fully debated, coordinated, and translated into weapon acquisition programs. The dominant role of setting requirements for new weapon systems remains with the headquarters staffs of the military departments, and the requirements developed by those departments often do not appear to have been rigorously evaluated in terms of their overall contribution to national military strategy.

(3) The requirements and planning process of the Department of Defense is not constrained by realistic projections of future defense budgets. Consequently, the process is fiscally unrealistic and, therefore, largely ignored in the subsequent planning and budgeting process. This process often results in disparate plans that do not optimize the potential contribution of the acquisition programs of each military department to the objectives of national military strategy.

(b) Sense of Congress.—In light of the findings in subsection (a), it is the sense of Congress that—

(1) to ensure that the United States develops and acquires the proper mix of weapon systems to support national military strategy most effectively and efficiently, the Office of the Secretary of Defense and the Joint Staff should better define the links between national military strategy and specific acquisition programs;

(2) the Office of the Secretary of Defense, the Joint Staff, and the headquarters of the unified and specified combatant commands should more clearly define the necessary operational capabilities and concepts of operations as part of the requirements process and should explicitly consider alternative acquisition programs based on probable levels of resources likely to be approved by Congress and trade-offs among the acquisition programs of the military departments;

(3) the Secretary of Defense should ensure that resulting acquisition programs clearly reflect the objectives of national military strategy; and

(4) the Secretary of Defense should commission an independent study to assess the degree to which the development and acquisition of weapon systems is currently linked to and determined by the national military strategy and to recommend improvements where necessary or desirable.

SEC. 733. REPORT ON FUNDING FOR THE AMMUNITION PRODUCTION BASE

(a) Sense of Congress.—It is the sense of Congress—

(1) that the maintenance of the inactive portion of the Government-owned ammunition production base is critical to the defense of the United States; and

(2) that sufficient funding should be provided to maintain this base to meet surge requirements and mobilization requirements of the military departments.

(b) Study of Alternatives.—The Secretary of Defense shall study alternatives to the current method of providing funds for maintenance of the ammunition production base in order to determine if there are methods other than the current one which would better ensure that appropriate levels of funds are used for the maintenance of that production base.

(c) Report.—The Secretary shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the alternative methods considered by the Secretary under subsection (b) for providing funds for the ammunition production base. The Secretary shall include in the report such comments and recommendations with respect to such methods, including recommendations for legislation, as the Secretary considers appropriate. The report shall be submitted not later than December 1, 1988.

SEC. 734. SENSE OF CONGRESS CONCERNING DECLASSIFICATION OF CLASSIFIED INFORMATION

It is the sense of Congress that the Secretary of Defense should take all reasonable measures to declassify classified material under the control of the Department of Defense that the Secretary determines to be no longer required in the interest of national security to be protected from unauthorized disclosure.

SEC. 735. ADVANCE PAYMENTS OF ADMINISTRATIVE CLAIMS

(a) Increase in Maximum Payment.—Subsection (a) of section 2736 of title 10, United States Code, is amended to read as follows:

"(a)(1) In the case of a person who is injured or killed, or whose property is damaged or lost, under circumstances for which the Secretary of a military department is authorized by law to allow a claim, the Secretary of the military department concerned may make a payment to or for the person, or the legal representatives of the person, in advance of the submission of such a claim or, if such a claim is submitted, in advance of the final settlement of the claim. The amount of such a payment may not exceed $100,000.

"(2) Payments under this subsection are limited to payments which would otherwise be payable under section 2733 or 2734 of this title or section 715 of title 32.

"(3) The Secretary of a military department may delegate the authority to make payments under this subsection to the Judge Advocate General of an armed force under the jurisdiction of the Secretary. The Secretary may delegate such authority to any other officer or employee under the jurisdiction of the Secretary, but only with respect to the payment of amounts of $25,000 or less.

"(4) Payments under this subsection shall be made under regulations prescribed by the Secretary of the military department concerned.".

(b) Effective Date.—The amendment made by subsection (a) shall apply to any claim which would otherwise be payable under section 2733 or 2734 of title 10, United States Code, or under section 715 of title 32, United States Code, and which has not been finally settled on or before the date of the enactment of this Act.

SEC. 736. ENERGY EFFICIENCY INCENTIVE

(a) Energy Conservation Incentive.—In order to provide additional incentive for the Secretary of a military department to enter into contracts under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), the Secretary may use the first-year energy cost savings (as defined in subsection (d)) realized under any such contract in the manner provided in subsection (b). The amount of savings available for use under subsection (b) shall be determined as provided in subsection (c) and shall remain available for obligation until expended.

(b) Authorized Uses of Savings.—First-year energy cost savings may be used as follows:

(1) One-half of the amount of such savings may be used for the acquisition of energy conserving measures at a military installation in addition to any such energy conserving measures provided for that installation under a contract entered into under title VIII of the National Conservation Energy Policy Act.

(2) One-half of the amount of such savings may be used for any morale, welfare, or recreation facility or service that is normally provided with appropriated funds, or for any minor military construction project (as defined in section 2805(a) of title 10, United States Code), that will enhance the quality of life of members of the Armed Forces at the military installation at which the energy cost savings were realized.

(c) Determination of Amount of Savings.—Not more than 90 days after the end of the first year during which energy savings measures have been in operation under a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act, the Secretary of the military department concerned shall determine the amount of first-year energy cost savings realized under the terms of the contract during that year by the military department concerned by reason of the energy savings measures acquired and installed at that installation pursuant to that contract.

(d) Definition.—For purposes of this section, the term "first-year energy cost savings" means the savings realized by the United States during the first year of a contract entered into by the Secretary of a military department under title VIII of the National Energy Conservation Policy Act.

TITLE VIII—ACQUISITION POLICY AND MANAGEMENT

Part A—Acquisition Management

SEC. 801. INTEGRATED FINANCING POLICY

(a) In General.—(1) Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2330. Integrated financing policy

"(a) Plan.—(1) The Secretary of Defense shall develop and keep current a plan that ensures that Department of Defense policies referred to in paragraph (2) are structured to meet the long-term needs of the Department of Defense for industrial resources and technology innovation.

"(2) This section applies to the following policies applicable to Department of Defense contracts:

"(A) Policies relating to progress payments or other financing by the Department of Defense under such contracts.

"(B) Policies relating to the return on contractor investment under such contracts.

"(C) Policies relating to the allocation of contract risk between the Department of Defense and a contractor.

"(b) Matters To Take Into Consideration.—In developing the plan under subsection (a) and keeping such plan current, the Secretary shall take into consideration the following:

"(1) The Five-Year Defense Program submitted to Congress under section 114(g) of this title each year.

"(2) Department of Defense mobilization plans.

"(3) The different characteristics of separate segments and tiers of private industry.

"(4) The profitability of contracts negotiated by the Department of Defense in each fiscal year.

"(c) Review.—Each year the Secretary of Defense shall review the plan developed under subsection (a) and shall report the results of such review to the Committees on Armed Services of the Senate and the House of Representatives in conjunction with the submission of the Five-Year Defense Program in such year.

"(d) Use of Information on Profitability.—The Secretary of Defense, in negotiating any contract, shall use the most current information on profitability developed or obtained by the Secretary of Defense. The Secretary shall submit a report to Congress each year in conjunction with the submission of the Five-Year Defense Program on the extent to which contracts negotiated during the preceding fiscal year have prevented excessive contractor profits, deter-

mined on the basis of information obtained by the Secretary of Defense.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following:

"2330. Integrated financing policy.".

(b) ADVISORY COMMITTEE ON STUDY METHODOLOGY.—(1) The Secretary of Defense shall appoint, in accordance with paragraph (3), an advisory committee consisting of five members for the purpose of recommending to the Secretary a financial analysis methodology for any return on investment study conducted by the Secretary.

(2) In recommending a financial analysis methodology under paragraph (1), the advisory committee shall provide recommendations on the desirability of using separate calculations for—

(A) the return on assets;

(B) the return on sales;

(C) capital-to-labor ratios;

(D) asset turnover;

(E) total investment in research and development; and

(F) such other measures of rate of return on investment as the Secretary determines to be appropriate.

(3) Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall appoint the members of the committee, with representation from both the public and private sectors.

(4) The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the advisory committee appointed under this subsection.

(5) Not later than November 1, 1989, the advisory committee shall submit to the Secretary of Defense a report containing the financial analysis methodology recommended for use in the conduct of the study referred to in paragraph (1). The committee shall cease to exist 90 days after submission of its report.

(6) Not later than 90 days after receipt of the report from the advisory committee, the Secretary of Defense shall transmit the report to Congress, together with the Secretary's views on the committee's report.

SEC. 802. COMPETITIVE PROTOTYPE STRATEGIES

Section 2365 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(e) TERMINATION.—This section shall cease to be effective on September 30, 1991.".

SEC. 803. DELEGATION OF AUTHORITY TO APPROVE CERTAIN CONTRACT JUSTIFICATIONS

Section 2304(f) of title 10, United States Code, is amended—

(1) in paragraph (1)(B)(ii), by striking out "or a delegate" and all that follows through the semicolon and inserting in lieu thereof "(or the head of the procuring activity's delegate designated pursuant to paragraph (6)(A));";

(2) in paragraph (1)(B)(iii), by inserting "or in the case of the Under Secretary of Defense for Acquisition, acting in his capacity as the senior procurement executive for the Department of Defense, the Under Secretary's delegate designated pursuant to paragraph (6)(B)" after "(without further delegation)"; and

(3) by adding at the end the following:

"(6)(A) The authority of the head of a procuring activity under paragraph (1)(B)(ii) may be delegated only to an officer or employee who—

"(i) if a member of the armed forces, is a general or flag officer; or

"(ii) if a civilian, is serving in a position with a grade under the General Schedule (or any other schedule for civilian officers or employees) that is comparable to or higher than the grade of brigadier general or rear admiral (lower half).

"(B) The authority of the Under Secretary of Defense for Acquisition under paragraph (1)(B)(iii) may be delegated only to—

"(i) an Assistant Secretary of Defense; or

"(ii) with respect to the element of the Department of Defense (as specified in section 111(b) of this title), other than a military department, carrying out the procurement action concerned, an officer or employee serving in or assigned or detailed to that element who—

"(I) if a member of the armed forces, is serving in a grade above brigadier general or rear admiral (lower half); or

"(II) if a civilian, is serving in a position with a grade under the General Schedule (or any other schedule for civilian officers or employees) that is comparable to or higher than the grade of major general or rear admiral.".

SEC. 804. EVALUATION OF CONTRACTS FOR PROFESSIONAL AND TECHNICAL SERVICES

(a) ESTABLISHMENT OF CRITERIA.—Within 120 days after the date of the enactment of this Act, the Secretary of Defense shall establish criteria to ensure that proposals for contracts for professional and technical services are evaluated on a basis which does not encourage contractors to propose mandatory uncompensated overtime for professional and technical employees. In establishing such criteria, the Secretary shall consider the recommendations of the advisory committee established under subsection (b). The Secretary shall, before implementing such criteria, transmit to the Committees on Armed Services of the Senate and House of Representatives a report containing such criteria and the recommendations made by the advisory committee.

(b) ADVISORY COMMITTEE.—(1) Within 30 days after the date of the enactment of this Act, the Secretary of Defense shall establish an advisory committee to make recommendations on the criteria to be adopted by the Secretary. The advisory committee shall be composed, at a minimum, of such representatives as the Secretary considers appropriate from the Office of the Under Secretary of Defense for Acquisition, the Office of the Comptroller of the Department of Defense, the Acquisition Executives of the military departments, the Defense Contract Audit Agency, the Office of the Inspector General of the Department of Defense, and professional and technical services industries.

(2) In developing the recommendations, the advisory committee shall address the following issues:

(A) How the Department of Defense can best be assured that it receives the best quality services for the amounts expended and that the contractors supplying such services follow sound personnel management practices and observe established labor-management policies and regulations.

(B) Whether contract competitions should be structured in a manner that requires offerors to compete on the basis of factors other than the number of hours per week its professional and technical employees of similar annual salaries work.

(C) Whether the Department of Defense can allow contractors to maintain different accounting systems (for example, 40-hour work week, full time accounting) and still allow the Department to evaluate proposals on the basis of a work rate of 40 hours per week and 2,080 hours per year.

SEC. 805. PROCUREMENT OF CRITICAL AIRCRAFT AND SHIP SPARE PARTS

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by inserting after section 2382 the following:

"§ 2383. Procurement of critical aircraft and ship spare parts: quality control

"(a) In procuring any spare or repair part that is critical to the operation of an aircraft or ship, the Secretary of Defense shall require the contractor supplying such part to provide a part that meets all appropriate qualification and contractual quality requirements as may be specified and made available to prospective offerors. In establishing the appropriate qualification requirements, the Secretary of Defense shall utilize those requirements, if available, which were used to qualify the original production part, unless the Secretary of Defense determines in writing that any or all such requirements are unnecessary.

"(b) In this section, the term 'spare or repair part' has the meaning given such term by section 2323(f) of this title.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2382 the following new item:

"2383. Procurement of critical aircraft and ship spare parts: quality control.".

(b) EFFECTIVE DATE.—Section 2383 of title 10, United States Code, as added by subsection (a), shall apply with respect to contracts entered into after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 806. INCENTIVES FOR INNOVATION

(a) IN GENERAL.—(1) Section 2305(d) of title 10, United States Code, is amended by adding at the end the following:

"(4)(A) Whenever the head of an agency requires that proposals described in paragraph (1)(B) or (2)(B) be submitted by an offeror in its offer, the offeror shall not be required to provide a proposal that enables the United States to acquire competitively in the future an identical item if the item was developed exclusively at private expense unless the head of the agency determines that—

"(i) the original supplier of such item will be unable to satisfy program schedule or delivery requirements; or

"(ii) proposals by the original supplier of such item to meet the mobilization requirements are insufficient to meet the agency's mobilization needs.

"(B) In considering offers in response to a solicitation requiring proposals described in paragraph (1)(B) or (2)(B), the head of an agency shall base any evaluation of items developed exclusively at private expense on an analysis of the total value, in terms of innovative design, life-cycle costs, and other pertinent factors, of incorporating such items in the system.".

(2) Section 2305(d)(3) of such title is amended by adding at the end the following: "Such objectives may not impair the rights of prospective contractors or subcontractors otherwise provided by law.".

(b) CLARIFYING AMENDMENT.—Paragraphs (1)(B) and (2)(B) of section 2305(d) of such title are each amended by striking out "The proposals" and all that follows through "contract are" and inserting in lieu thereof "Proposals referred to in the first sentence of subparagraph (A) are".

SEC. 807. REGULATIONS ON USE OF FIXED-PRICE DEVELOPMENT CONTRACTS

(a) IN GENERAL.—(1) Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall revise the Department of Defense regulations that provide for the use of fixed-price type contracts in a development program. The regulations shall provide that a fixed-price contract may be awarded in such a program only if—

(A) the level of program risk permits realistic pricing; and

(B) the use of a fixed-price contract permits an equitable and sensible allocation of program risk between the United States and the contractor.

(2)(A) The regulations also shall provide that if a contract for development of a major system is to be awarded in an amount greater than $10,000,000, the contract may not be a firm fixed-price contract.

(B) A waiver of the requirement prescribed in regulations under subparagraph (A) may be granted by the Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, but only if the Secretary determines and states in writing that the award is consistent with the criteria specified in clauses (A) and (B) of paragraph (1) and the regulations prescribed under such paragraph. The Secretary may delegate the authority in the preceding sentence only to a person who holds a position in the Office of the Secretary of Defense at or above the level of Assistant Secretary of Defense.

(b) DEFINITIONS.—In this section, the term "major system" has the meaning given such term by section 2302(5) of such title.

(c) EXPIRATION.—Paragraph (2) of subsection (a) shall cease to be effective two years after the date of the enactment of this Act.

SEC. 808. DEPARTMENT OF DEFENSE ADVISORY PANEL ON GOVERNMENT-INDUSTRY RELATIONS

(a) ESTABLISHMENT OF ADVISORY PANEL.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall establish an advisory panel to study and make recommendations to the Secretary on ways to enhance cooperation between the Department of Defense and industry regarding matters of mutual interest, including—

(1) procedures governing the debarment and suspension of contractors from doing business with the Department of Defense;

(2) the role of self-governing oversight programs established by defense contractors;

(3) expanded use of alternative dispute resolution procedures; and

(4) the desirability of establishing a permanent advisory panel on government-industry relations.

(b) MEMBERSHIP OF ADVISORY PANEL.—The Secretary of Defense shall appoint persons to the advisory panel who are especially qualified to serve on such panel by virtue of their education, training, and experience in defense acquisition matters. The Secretary shall include on the membership of such panel an appropriate balance of persons from government, private industry, and academia.

(c) REPORT DEADLINE.—(1) The Secretary shall require the advisory panel to submit its findings and recommendations to him not later than 180 days after the date on which the panel is appointed.

(2) The Secretary shall transmit a copy of the report of the advisory panel to Congress, together with such comments and recommendations thereon as the Secretary determines appropriate, within 30 days after the date on which the report is submitted to the Secretary.

SEC. 809. REPORT ON SIMPLIFICATION AND STREAMLINING OF ACQUISITION PROCEDURES

(a) REPORT ON ACQUISITION SIMPLIFICATION PROGRAMS.—The Under Secretary of Defense for Acquisition shall submit to Congress a report on the current programs of the Under Secretary regarding simplification of procedures governing the acquisition process of the Department of Defense. The report shall include an assessment of the results of those programs.

(b) MATTERS TO BE INCLUDED.—The report under subsection (a) shall include the following:

(1) A timetable to effectuate regulation reform measures based on the lessons learned from the conduct of the programs referred to in subsection (a).

(2) In the case of a program referred to in subsection (a) which has not been completed—

(A) the methodology to be used in evaluating such program; and

(B) a timetable for completing an assessment of the results of the program.

(3) A comprehensive analysis of the effects that existing laws, regulations, and guidelines applicable to procurement by the Department of Defense have on the capability of the Department of Defense efficiently and effectively to meet the national defense needs of the United States, including any recommendations for legislation that the Under Secretary considers appropriate to improve that capability.

(4) A description of the results of the studies undertaken by the Under Secretary in conjunction with the Inspector General of the Department of Defense and the Comptroller of the Department of Defense regarding the responsibilities of the Under Secretary under section 133(d) of title 10, United States Code, to prescribe policies for the prevention of duplicative audit and oversight of contractor activities by different elements of the Department of Defense.

(5) A discussion of the feasibility and desirability of each of the following:

(A) Structuring the audit and oversight of a contractor by the Department of Defense in a manner that reasonably relates to the extent of the risk assumed by the contractor in the type of contract that is subject to the audit and oversight.

(B) Granting authority to a senior official of the Department of Defense to receive and promptly resolve complaints of acquisition officials and contractors of the Department of Defense regarding allegations of duplicative oversight activities.

(C) Establishing a formal independent means within the Department of Defense to ensure quality, integrity, and professionalism in the performance of audit and oversight activities.

(D) Establishing and implementing a policy that prohibits an organization within the Department of Defense with responsibility for oversight of contractor activities from conducting an audit or review of an activity in the Department of Defense if another such oversight organization of the Department of Defense has conducted an audit or review of that activity within a fixed period of time preceding the proposed audit or review, unless the audit or review proposed to be conducted is substantially different in type and scope from the prior audit or review and there is a compelling reason not to rely on the prior audit or review.

(c) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than December 1, 1988.

(d) COORDINATION OF ANNUAL AUDIT PLANS BY AUDIT AND OVERSIGHT ELEMENTS OF DOD.—Section 133(d)(1) of title 10, United States Code, is amended by adding at the end the following new sentence: "Such policies shall provide for coordination of the annual plans developed by each such element for the conduct of audit and oversight functions within each contracting activity.".

PART B—DEFENSE INDUSTRIAL BASE

SEC. 821. MAINTENANCE AND IMPROVEMENT OF THE DEFENSE INDUSTRIAL BASE

(a) FINDINGS.—Congress finds the following:

(1) A strong defense industrial base in the United States is essential to the national security and significantly enhances the capability of United States manufacturers and producers—

(A) to develop technologically superior defense material rapidly and to produce such material efficiently in cost-effective quantities during peacetime; and

(B) to expand productive capacity rapidly to meet the demands of a national emergency.

(2) A strong and responsive defense industrial base is a basic deterrent to aggression and, thus, helps to preserve peace.

(3) Studies conducted over a 10-year period by Congress, the General Accounting Office, the Department of Defense, and others have consistently shown a steady, unchecked erosion of the defense industrial base in the United States.

(4) Despite the uniformly adverse findings contained in the reports on such studies, the United States still lacks a coherent industrial base policy that is directly linked to national security strategy.

(5) Reliable methods for assessing the weaknesses and strengths of the defense industrial base have not been utilized.

(6) The development and implementation of an effective program for the restoration and maintenance of the defense industrial base is unlikely to occur without improved centralized policy direction and management.

(7) Existing programs and authorities designed to restore and maintain the defense industrial base have received inconsistent and, frequently, inadequate allocations of resources and management attention from the military departments and the Defense Agencies because the Office of the Secretary of Defense has not exercised strong leadership in defense industrial base management.

(8) Procurement policies, regulations, and practices of the Department of Defense do not sufficiently encourage—

(A) investment in advanced manufacturing technology and modernization of manufacturing facilities and equipment;

(B) the entry of efficient commercial producers into the defense procurement market; and

(C) continued participation of efficient producers in defense procurement competitions.

(b) AMENDMENTS TO TITLE 10.—(1) Chapter 148 of title 10, United States Code, is amended—

(A) by redesignating sections 2501 and 2502 as sections 2506 and 2507, respectively; and

(B) by striking out the chapter heading and the table of sections and inserting in lieu thereof the following:

"CHAPTER 148—DEFENSE INDUSTRIAL BASE

"Sec.
"2501. Centralized guidance, analysis, and planning.
"2502. Policies relating to defense industrial base.
"2503. Defense industrial base office.
"2504. Defense memoranda of understanding.
"2505. Offset policy; notification.
"2506. Limitation on use of funds: procurement of goods which are other than American goods.
"2507. Miscellaneous procurement limitations.

"§ 2501. Centralized guidance, analysis, and planning

"The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall—

"(1) provide overall policy guidance and direction to the military departments and the Defense Agencies on matters relating to the maintenance, expansion, and readiness of the defense industrial base of the United States;

"(2) analyze the capabilities of the defense industrial base of the United States to fulfill the requirements of national defense strategy in time of peace and the expanded requirements of national defense strategy in time of war or national emergency;

"(3) develop clear standards for assessing military mobilization requirements and the manner in which those requirements will be met;

"(4) develop and direct the implementation of plans, programs, and policies that promote the ability of the defense industrial base of the United States to fulfill the requirements of the Department of Defense; and

"(5) identify and plan for the procurement of items of supply that—

"(A) are suitable substitutes for military standard items of supply, or suitable substitutes for subsystems or components of military standard items of supply, that are anticipated to be unavailable from existing sources in quantities that are sufficient to meet planned requirements in time of war or national emergency; and

"(B) are commercially available from domestic sources.

"§ 2502. Policies relating to defense industrial base

"(a) ACQUISITION POLICIES.—The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall establish and implement policies requiring—

"(1) for each major defense acquisition program, an analysis of the capabilities of the defense industrial base to develop, produce, maintain, and support such program;

"(2) the consideration of requirements for efficient manufacture during the design and production of the systems to be procured under the major defense acquisition program;

"(3) the use of advanced manufacturing technology, processes, and systems during the research and development and production phases of the acquisition of a weapon system under a major defense acquisition program;

"(4) to the maximum extent practicable for each major defense acquisition program, the development of an acquisition plan that provides for contract solicitations which encourage competing offerors to acquire, for use in the performance of the contract, modern technology, production equipment, and production systems (including hardware and software) that increase the productivity of the offerors and reduce life-cycle costs;

"(5) the encouragement of domestic source investment in advanced manufacturing technology production equipment and processes through—

"(A) recognition of the contractor's investment in advanced manufacturing technology production equipment and processes in the development of the contract objective; and

"(B) increased emphasis in source selections to the efficiency of production;

"(6) the expanded use of commercial manufacturing processes rather than processes specified by the Department of Defense;

"(7) elimination of barriers to, and facilitation of, the integrated manufacture of commercial items and items being produced under defense contracts; and

"(8) the expanded use of commercial products as set forth in section 2325 of this title.

"(b) ANALYSIS.—(1) In the conduct of any analysis required under subsection (a)(1), the following factors, as appropriate, may be considered:

"(A) The availability of essential raw materials, special alloys, and composite materials.

"(B) The availability of components, subsystems, production equipment, and facilities that are essential for—

"(i) the sustained production of a system that is fully capable of performing its purpose;

"(ii) the uninterrupted maintenance and repair of such system; and

"(iii) the sustained operation of such system.

"(C) The availability of required special tooling and production test equipment.

"(D) The identification of components or subsystems that are available solely from sources outside the United States.

"(E) Planned alternatives, if appropriate, for fulfilling requirements that during peacetime are fulfilled by sources outside the United States.

"(2) In the conduct of the analysis required under subsection (a)(1), the Under Secretary shall minimize the paperwork burden on the contractor, its subcontractors, and suppliers.

"(c) ASSESSMENTS.—(1) The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall ensure that, for each major defense acquisition program—

"(A) the capability of the domestic defense industrial base to meet requirements for that program has been assessed by the military department or Defense Agency carrying out such program; and

"(B) the capability of the domestic defense industrial base to meet the aggregate requirements for all such programs has been assessed in the Office of the Secretary of Defense.

"(2) For purposes of this subsection, the term 'domestic defense industrial base' means firms engaged in production in the United States and Canada.

"§ 2503. Defense industrial base office

"The Under Secretary of Defense for Acquisition may establish within the Office of the Under Secretary of Defense for Acquisition a defense industrial base office to be the principal office in the Department of Defense for the development of policies and plans regarding the conduct of programs for the improvement of the defense industrial base of the United States. Such an office shall, at a minimum—

"(1) develop and propose plans and programs for the maintenance and fostering of defense industrial readiness in the United States;

"(2) develop and propose plans and programs to encourage the use by the defense industries of the United States of advanced manufacturing technology and processes and investment in improved productivity;

"(3) propose, consistent with existing law, the repeal or amendment of the regulations of the Department of Defense prescribed as part of the Federal Acquisition Regulation (the single system of Government-wide procurement regulation as defined in section 4(4) of the Office of Federal Procurement Policy Act) and such other regulations and policies as may be necessary to eliminate any adverse effect that the regulations and policies may have on investment in improved productivity; and

"(4) evaluate and propose for testing innovative ideas for improving defense industrial readiness in the United States, including ideas for improving—

"(A) manufacturing processes; and

"(B) the acquisition procedures of the Department of Defense.".

(2) The items relating to chapter 148 in the tables of chapters at the beginning of part IV of subtitle A of title 10, United States Code, and at the beginning of such subtitle, are each amended to read as follows:

"148. Defense Industrial Base .... 2501".

(c) ANALYSIS OF DEFENSE INDUSTRIAL BASE CAPABILITY.—(1) The Under Secretary of Defense for Acquisition shall require the Secretary of each military department to provide to the Under Secretary at least one analysis of the type described in section 2502(a)(1) of title 10, United States Code (as added by subsection (b)) for an acquisition program carried out by such department. The Under Secretary shall compile and analyze the data obtained from such analysis in order to ascertain whether the industrial base is capable of supporting each such program.

(2) A program may not be selected for an analysis under this subsection if production of the system to be acquired under such program has begun.

(3) All analyses required under this subsection shall be completed not later than September 30, 1990.

(4) Not later than February 1, 1991, the Under Secretary of Defense for Acquisition shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the analyses required under this subsection.

SEC. 822. SOURCE FOR PROCUREMENT OF CERTAIN VALVES AND MACHINE TOOLS

Section 2507 of title 10, United States Code, as redesignated by section 821, is amended by adding at the end the following new subsection:

"(d) VALVES AND MACHINE TOOLS.—(1) During fiscal years 1989, 1990, and 1991, funds appropriated or otherwise made available to the Department of Defense may not be used to enter into a contract for the procurement of items described in paragraph (2) that are not manufactured in the United States or Canada.

"(2) Items covered by paragraph (1) are the following:

"(A) Powered and non-powered valves in Federal Supply Classes 4810 and 4820 used in piping for naval surface ships and submarines.

"(B) Machine tools in the Federal Supply Classes for metal-working machinery numbered 3405, 3408, 3410 through 3419, 3426, *3433, 3438, 3441 through 3443, 3445, 3446, 3448, 3449, 3460, and 3461.*

"(3) The Secretary of Defense may waive the requirement of paragraph (1) with respect to the procurement of an item if the Secretary determines that any of the following apply with respect to that item:

"(A) The restriction would cause unreasonable costs or delays to be incurred.

"(B) United States producers of the item would not be jeopardized by competition from a foreign country and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.

"(C) Satisfactory quality items manufactured in the United States or Canada are not available.

"(D) The restriction would impede cooperative programs entered into between the Department of Defense and a foreign country and that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.

"(E) The procurement is for an amount less than $25,000 and simplified small purchase procedures are being used.

"(F) The restriction would result in the existence of only one United States or Canadian source for the item.

"(4) The provisions of this section may be renewed with respect to any item by the Secretary of Defense at the end of fiscal year 1991 for an additional two fiscal years if the Secretary determines that a continued restriction on that item is in the national security interest.".

SEC. 823. CRITICAL TECHNOLOGIES PLAN

(a) In General.—(1) Chapter 139 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2368. Critical technologies plan

"(a) Annual Plan.—(1) Not later than March 15 of each year, the Under Secretary of Defense for Acquisition, in consultation with the Assistant Secretary of Energy for Defense Programs, shall submit to the Committees on Armed Services of the Senate and the House of Representatives a plan for developing the 20 technologies considered by the Secretary of Defense and the Secretary of Energy to be the technologies most essential to develop in order to ensure the long-term qualitative superiority of United States weapon systems.

"(2) In selecting the technologies to be included in the plan, the Secretary of Defense and the Secretary of Energy shall consider both product technologies and process technologies.

"(3) Such plan shall be submitted in both classified and unclassified form.

"(b) Content of Plan.—Each plan submitted under subsection (a) shall include, with respect to each technology included in the plan, the following matters:

"(1) The reasons for selecting such technology.

"(2) The milestone goals for the development of such technology.

"(3) The amounts contained in the budgets of the Department of Defense, the Department of Energy, and other departments and agencies for the support of the development of such technology for the fiscal year beginning in the year in which the plan is submitted.

"(4) A comparison of the positions of the United States and the Soviet Union in the development of such technology.

"(5) The potential contributions that the allies of the United States can make to meet the needs of the alliance for such technology.

"(6) With respect to the development of such technology, a comparison of the relative positions of the United States and other industrialized countries that are prominent in the development of such technology and the extent to which the United States should depend on other countries for the development of such technology.

"(7) The potential contributions that the private sector can be expected to make from its own resources in connection with development of civilian applications for such technology.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2368. Critical technologies plan.".

(b) First Report.—The first report under section 2368 of title 10, United States Code (as added by subsection (a)), shall be submitted in 1989.

SEC. 824. DEFENSE MEMORANDA OF UNDERSTANDING

Chapter 148 of title 10, United States Code, as amended by section 821, is further amended by inserting after section 2503 the following new section:

"§ 2504. Defense memoranda of understanding

"In the negotiation and renegotiation of each memorandum of understanding between the Secretary of Defense, acting on behalf of the United States, and one or more foreign countries (or any instrumentality of a foreign country) relating to research, development, or production of defense equipment, the Secretary of Defense shall—

"(1) consider the effect of such proposed memorandum of understanding on the defense industrial base of the United States; and

"(2) regularly solicit and consider information or recommendations from the Secretary of Commerce with respect to the effect on the United States industrial base of such memorandum of understanding.".

SEC. 825. DEPARTMENT OF DEFENSE OFFSET POLICY

(a) Findings.—Congress makes the following findings:

(1) Many contracts entered into by United States firms for the supply of weapon systems or defense-related items to foreign countries and foreign firms are subject to contractual arrangements under which United States firms must agree—

(A) to have a specified percentage of work under, or monetary amount of, the contract performed by one or more foreign firms;

(B) to purchase a specified amount or quantity of unrelated goods or services from domestic sources of such foreign countries; or

(C) to invest a specified amount in domestic businesses of such foreign countries.

Such contractual arrangements, known as "offsets", are a component of international trade and could have an impact on United States defense industry opportunities in domestic and foreign markets.

(2) Some United States contractors and subcontractors may be adversely affected by such contractual arrangements.

(3) Many contracts which provide for or are subject to offset arrangements require, in connection with such arrangements, the transfer of United States technology to foreign firms.

(4) The use of such transferred technology by foreign firms in conjunction with foreign trade practices permitted under the trade policies of the countries of such firms can give foreign firms a competitive advantage against United States firms in world markets for products using such technology.

(5) A purchase of defense equipment pursuant to an offset arrangement may increase the cost of the defense equipment to the purchasing country and may reduce the amount of defense equipment that a country may purchase.

(6) The exporting of defense equipment produced in the United States is important to maintain the defense industrial base of the United States, lower the unit cost of such equipment to the Department of Defense, and encourage the standardized utilization of United States equipment by the allies of the United States.

(b) Amendment to Title 10.—Chapter 148 of title 10, United States Code, as amended by sections 821 and 824, is further amended by inserting after section 2504 the following new section:

"§ 2505. Offset policy; notification

"(a) Establishment of Offset Policy.—The President shall establish, consistent with the requirements of this section, a comprehensive policy with respect to contractual offset arrangements in connection with the purchase of defense equipment or supplies which addresses the following:

"(1) Transfer of technology in connection with offset arrangements.

"(2) Application of offset arrangements, including cases in which United States funds are used to finance the purchase by a foreign government.

"(3) Effects of offset arrangements on specific subsectors of the industrial base of the United States and for preventing or ameliorating any serious adverse effects on such subsectors.

"(b) Technology Transfer.—(1) No official of the United States may enter into a memorandum of understanding or other agreement with a foreign government that would require the transfer of United States defense technology to a foreign country or a foreign firm in connection with a contract that is subject to an offset arrangement if the implementation of such memorandum or agreement would significantly and adversely affect the defense industrial base of the United States and would result in a substantial financial loss to a United States firm.

"(2) Paragraph (1) shall not apply in the case of a memorandum of understanding or agreement described in paragraph (1) if the Secretary of Defense, in consultation with the Secretary of Commerce and the Secretary of State, determines that a transfer of United States defense technology pursuant to such understanding or agreement will result in strengthening the national security of the United States and so certifies to Congress.

"(3) If a United States firm is required under the terms of a memorandum of understanding, or other agreement entered into by the United States with a foreign country, to transfer defense technology to a foreign country, the United States firm may protest the determination to the Secretary of Defense on the grounds that the transfer of such technology would adversely affect the defense industrial base of the United States and would result in substantial financial loss to the protesting firm. The Secretary of Defense, in consultation with the Secretary of Commerce and the Secretary of State, shall make the final determination of the validity of the protesting firm's claim.

"(c) Notification Regarding Offsets.—If at any time a United States firm enters into a contract for the sale of a weapon system or defense-related item to a foreign country or foreign firm and such contract is subject to an offset arrangement exceeding $50,000,000 in value, such firm shall notify the Secretary of Defense of the proposed sale. Notification shall be made under this subsection in accordance with regulations prescribed by the Secretary of Defense in consultation with the Secretary of Commerce.

"(d) Definitions.—In this section:

"(1) The term 'United States firm' means a business entity that performs substantially all of its manufacturing, production, and research and development activities in the United States.

"(2) The term 'foreign firm' means a business entity other than a United States firm.".

(c) Negotiations.—(1) The President shall enter into negotiations with foreign countries that have a policy of requiring an offset arrangement in connection with the purchase of defense equipment or supplies from the United States. The negotiations should be conducted with a view to achieving an agreement with the countries concerned that would limit the adverse effects that such arrangements have on the defense industrial base of each such country.

(2) Every effort shall be made to achieve such agreements within two years after the date of the enactment of this Act.

(d) Reports.—(1) Not later than November 15, 1988, the President shall submit to Congress a comprehensive report on contractual offset arrangements required of United States firms for the supply of weapon systems or defense-related items to foreign countries or foreign firms. Such report shall include, at a minimum, the following:

(A) An analysis of the amount and type of contractual offsets required of United States firms by the governments of foreign countries or by foreign firms.

(B) An assessment of the benefits for and costs to United States manufacturers of defense products at all tiers that result from requirements of foreign governments for contractual offset arrangements in the case of products procured from United States firms.

(C) An assessment of the benefits for and the costs to United States manufacturers of defense products at all tiers that would result from restriction of the ability of foreign governments or foreign firms to require contractual offsets in the case of defense products procured from United States firms.

(D) An assessment of the benefits and costs of a United States policy that requires reciprocal offsets in the procurement of defense products from those countries whose governments have a policy of requiring contractual offsets in the case of defense products procured from United States firms.

(E) An assessment of the impact that elimination of contractual offset requirements in international sales of defense products would have on the national security of the United States.

(F) Recommendations for a national policy with respect to contractual offset arrangements.

(G) A preliminary discussion of the actions referred to in paragraph (2).

(2) Not later than March 15, 1990, the President shall transmit to Congress a report containing a discussion of appropriate actions to be taken by the United States with respect to purchases from United States firms by a foreign country (or a firm of that country) when that country or firm requires an offset arrangement in connection with the purchase of defense equipment or supplies in favor of such country. The report shall include a discussion of the following possible actions:

(A) A requirement for an offset in favor of the United States or United States firms in any case in which the Department of Defense or any other department or agency of the United States purchases goods from such foreign country or a firm of such country.

(B) A demand for offset credits from such foreign country to be used, to the extent practicable, to meet offset obligations of United States firms to such foreign country or to a firm of such country.

(C) A reduction in assistance furnished such foreign country by the United States.

(D) A requirement for alternative equivalent advantages in the case of any such foreign country or a firm of such country if the United States does not purchase a sufficient volume of goods from such country or firm for a requirement described in subparagraph (A) to be effective.

(3) The President shall report to Congress at least once each year, for a period of 4 years, on the progress of the negotiations referred to in subsection (c). The first such report shall be submitted not later than one year after the date of the enactment of this Act.

(4) In this subsection, the terms "United States firm" and "foreign firm" have the same meanings as are provided in section 2505(d) of title 10, United States Code, as added by subsection (b).

SEC. 826. ALLOWABILITY OF COSTS TO PROMOTE THE EXPORT OF DEFENSE PRODUCTS

(a) In General.—Section 2324(f) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(5) The regulations shall provide that costs to promote the export of products of the United States defense industry, including costs of exhibiting or demonstrating products, shall be allowable to the extent that such costs—

"(A) are allocable, reasonable, and not otherwise unallowable;

"(B) with respect to the activities of the business segment to which such costs are being allocated, are determined by the Secretary of Defense to be likely to result in future cost advantages to the United States; and

"(C) with respect to a business segment which allocates to Department of Defense contracts $2,500,000 or more of such costs in any fiscal year of such business segment, are not in excess of the amount equal to 110 percent of such costs incurred by such business segment in the previous fiscal year.".

(b) Regulations.—The Secretary of Defense shall prescribe final regulations under paragraph (5) of section 2324(f) of title 10, United States Code (as added by subsection (a)), not later than 90 days after the date of the enactment of this Act. Such regulations shall apply with respect to costs referred to in such paragraph that are incurred by a Department of Defense contractor (or a subcontractor of such a contractor) on or after the first day of the contractor's (or subcontractor's) first fiscal year that begins on or after the date on which such final regulations are prescribed.

(c) Report.—Not later than two years after the date of the enactment of this Act, the Comptroller General of the United States and the Inspector General of the Department of Defense shall each submit to the Committees on Armed Services of the Senate and House of Representatives a report that includes the following:

(1) An assessment of whether the regulations required by section 2324(f)(5) of title 10, United States Code (as added by subsection (a)), provide the appropriate incentives to stimulate exports by the United States defense industry and provide cost savings to the United States.

(2) An assessment of whether such regulations provide appropriate criteria to ensure that costs allowed are reasonably likely to provide future cost savings to the United States.

(d) Termination.—Section 2324(f)(5) of title 10, United States Code (as added by subsection (a)), shall cease to be effective three years after the date of the enactment of this Act.

PART C—POLICIES RELATING TO DEFENSE CONTRACTORS

SEC. 831. ADDITIONAL PROHIBITIONS ON PERSONS CONVICTED OF FELONIES RELATED TO DEFENSE CONTRACTS

(a) In General.—Section 2408(a) of title 10, United States Code, is amended to read as follows:

"(a) Prohibition.—(1) An individual who is convicted of fraud or any other felony arising out of a contract with the Department of Defense shall be prohibited from each of the following:

"(A) Working in a management or supervisory capacity on any defense contract.

"(B) Serving on the board of directors of any defense contractor.

"(C) Serving as a consultant to any defense contractor.

"(D) Being involved in any other way, as determined under regulations prescribed by the Secretary of Defense, with a defense contract.

"(2) Except as provided in paragraph (3), the prohibition in paragraph (1) shall apply for a period, as determined by the Secretary of Defense, of not less than five years after the date of the conviction.

"(3) The prohibition in paragraph (1) may apply with respect to an individual for a period of less than five years if the Secretary determines that the five-year period should be waived in the interests of national security. If the five-year period is waived, the Secretary shall submit to Congress a report stating the reasons for the waiver.".

(b) Effective Date.—Section 2408(a) of title 10, United States Code, as amended by subsection (a), shall apply with respect to individuals convicted after the date of the enactment of this Act.

SEC. 832. LIMITATION ON ALLOWABILITY OF COSTS OF CONTRACTORS INCURRED IN CERTAIN PROCEEDINGS

(a) Limit on Costs.—Section 2324(e) of title 10, United States Code, is amended—

(1) by adding at the end of paragraph (1), as amended by section 322(a), the following:

"(N) Except as provided in paragraph (2), costs incurred in connection with any civil, criminal, or administrative action brought by the United States that results in a determination that a contractor has violated or failed to comply with any Federal law or regulation if the action results in any of the following:

"(i) In the case of a criminal action, a conviction (including a conviction pursuant to a plea of nolo contendere).

"(ii) In the case of a civil or administrative action, (I) a determination by the Secretary of Defense that the violation or failure to comply was knowing or willful, and (II) the imposition of a monetary penalty.

"(iii) A final decision by an appropriate official of the Department of Defense to debar or suspend the contractor or to rescind, void, or terminate a contract awarded to such contractor if such decision is based on a determination by the Secretary of Defense that the violation or failure to comply was knowing or willful.";

(2) by redesignating paragraph (2) as paragraph (3); and

(3) by inserting after paragraph (1) (as amended by paragraph (1)) the following:

"(2) If a civil, criminal, or administrative action referred to in paragraph (1)(N) is resolved by consent or compromise pursuant to an agreement entered into by a contractor and the United States, the contractor's costs that are otherwise not allowable under paragraph (1)(N) may be allowed to the extent provided in such agreement.".

(b) Regulations.—The Secretary of Defense shall prescribe regulations to implement section 2324(e)(1)(N) of title 10, United States Code, as added by subsection (a), not later than 90 days after the date of the enactment of this Act.

SEC. 833. AIR TRAVEL EXPENSES OF DEFENSE CONTRACTOR PERSONNEL

(a) Air Fare Discount Agreements.—The Administrator of General Services shall enter into negotiations with commercial air carriers with a view to achieving agreements that permit personnel of contractors who are traveling solely in the performance of covered contracts to be transported by such carriers at the same discount air passenger transportation rates as such carriers charge for travel by Federal Government employees traveling at Government expense.

(b) Allowable Costs.—Not later than 120 days after the first agreement goes into effect between the Administrator of General Services and a commercial air carrier under subsection (a), the Secretary of Defense shall prescribe regulations that provide that costs for travel by commercial air carrier by an employee of a defense contractor that exceed the air passenger transportation rates established under the agreement are not allowable costs under section 2324 of title 10, United States Code, under a covered contract if—

(1) the rate was available; and

(2) travel could have reasonably been performed under the conditions required by the air carrier to qualify for such rate.

(c) Covered Contract.—In this section, the term "covered contract" has the meaning given such term by section 2324(k) of title 10, United States Code.

(d) Expiration.—This section shall cease to be effective three years after the date of the enactment of this Act.

SEC. 834. STANDARDS FOR CONTRACTOR INVENTORY ACCOUNTING SYSTEMS

(a) In General.—(1) Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2410b. Contractor inventory accounting systems: standards

"The Secretary of Defense shall prescribe in regulations—

"(1) standards for inventory accounting systems used by contractors under contract with the Department of Defense; and

"(2) appropriate certification and enforcement requirements with respect to such standards.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2410b. Contractor inventory accounting systems: standards.".

(b) Regulations.—(1) The Secretary of Defense shall prescribe the regulations required by paragraph (1) of section 2410b of title 10, United States Code, as added by subsection (a), not later than 30 days after the date of the enactment of this Act.

(2) The Secretary of Defense shall prescribe the regulations required by paragraph (2) of section 2410b of title 10, United States Code, as added by subsection (a), not later than 180 days after the date of the enactment of this Act.

SEC. 835. EQUAL EMPLOYMENT OPPORTUNITIES RELATING TO AN ARMY CONTRACT

No funds appropriated pursuant to any authorization in this Act or in any previous Act may be expended or obligated for the performance of contract number DA AJ09-88-C-A093 by a contractor outside the United States unless the Secretary of the Army secures a commitment from the contractor that it will support equal employment opportunities for all individuals irrespective of race, color, religion, sex, or national origin in its employment practices.

Part D—Miscellaneous

SEC. 841. PROCUREMENT TECHNICAL ASSISTANCE COOPERATIVE AGREEMENT PROGRAM

(a) Limitation.—Section 2414 of title 10, United States Code, is amended to read as follows:

"§ 2414. Limitation

"(a) In General.—The value of the assistance furnished by the Secretary to any eligible entity to carry out a procurement technical assistance program under a cooperative agreement under this chapter during any fiscal year may not exceed—

"(1) in the case of a program operating on a Statewide basis, $300,000; or

"(2) in the case of a program operating on less than a Statewide basis, $150,000.

"(b) Determinations on Scope of Operations.—A determination of whether a procurement technical assistance program is operating on a Statewide basis or on less than a Statewide basis shall be made in accordance with regulations prescribed by the Secretary of Defense.".

(b) Procurement Technical Assistance for Indian Tribal Organizations.—(1) Section 807(a)(2) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1128) is amended by striking out "for fiscal year 1988," and inserting in lieu thereof "for fiscal years 1988 and 1989,".

(2) Section 2411(1)(D) of title 10, United States Code, is amended by striking out the period at the end and inserting in lieu thereof ", whether or not such economic enterprise is organized for-profit or nonprofit purposes.".

SEC. 842. PRODUCT EVALUATION

(a) In General.—Chapter 139 of title 10, United States Code, as amended by section 823, is further amended by adding at the end the following new section:

"§ 2369. Product evaluation activity

"(a) Establishment.—The Secretary of Defense, acting through the Under Secretary of Defense for Acquisition, shall establish a program for the supervision and coordination of product evaluation activities within the Department of Defense.

"(b) Conduct of Product Evaluation.—(1) The Secretary of each military department and the head of each Defense Agency may, subject to supervision and coordination by the Under Secretary of Defense for Acquisition, establish and conduct appropriate product evaluation activities.

"(2) The purpose of each product evaluation activity established under paragraph (1) is to evaluate products developed by private industry independent of any contract or other arrangement with the United States in order to determine the utility of such products to the Department of Defense.

"(c) Cost Sharing.—As a condition to conducting an evaluation of any product under this section, the producer of the product shall be required to pay one half of the cost of conducting such evaluation. For product development proposed by a small business concern (within the meaning of section 3 of the Small Business Act (15 U.S.C. 632)), the Secretary of Defense may pay up to 85 percent of the cost of product evaluation if the small business concern agrees to a not-for-profit contract.".

(b) Clerical Amendment.—The table of sections at the beginning of such chapter, as amended by section 823, is further amended by adding at the end the following new item:

"2369. Product evaluation activity.".

SEC. 843. CONTRACT GOAL FOR MINORITIES IN PRINTING-RELATED SERVICES

(a) Test Program.—The Public Printer shall establish and, during fiscal years 1989 and 1990, carry out a test program for increasing its award of contracts to small and disadvantaged businesses for the printing, binding, and related services needed by the Department of Defense. The program shall have a goal of procuring in each such fiscal year from such businesses printing, binding, and related services equivalent to not more than 5 percent of the value of the printing, binding, and related services which were procured in the preceding fiscal year by the Government Printing Office from non-Government sources for the Department of Defense. The Public Printer may use such procurement procedures as he considers necessary to facilitate achievement of such goal.

(b) Covered Entities.—In this section, the term "small and disadvantaged businesses" means the small business concerns, historically Black colleges and universities, and minority institutions described in section 1207(a) of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3973).

(c) Enforcement.—Any person who, for the purpose of securing a contract under subsection (a), misrepresents the status of any concern or person as a small business concern referred to in subsection (b), is subject to the penalties set forth in section 1207(f) of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3974).

(d) Section 1207 Goals.—For the purpose of determining whether the Department of Defense has attained the goals set forth in section 1207 of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3973), the Secretary of Defense may count any procurements by the Public Printer in the program established under subsection (a).

SEC. 844. EXTENSION OF CONTRACT GOAL FOR SMALL AND DISADVANTAGED BUSINESSES

Section 1207 of the National Defense Authorization Act for Fiscal Year 1987 (Public Law 99-661; 100 Stat. 3973) is amended in subsections (a) and (h) by striking out "and 1989" and inserting in lieu thereof "1989, and 1990".

SEC. 845. DEADLINE FOR CERTAIN SMALL BUSINESS REGULATIONS

Section 3(a)(4)(C) of the Small Business Act (15 U.S.C. 632) is amended by inserting at the end the following: "Such regulations shall apply with respect to contracts entered into on or after October 1, 1988.".

SEC. 846. SAFEGUARDING OF MILITARY WHISTLEBLOWERS

(a) MILITARY WHISTLEBLOWER PROTECTION.—(1) Section 1034 of title 10, United States Code, is amended to read as follows:

"§ 1034. Communicating with a Member of Congress or Inspector General; prohibition of retaliatory personnel actions

"(a) RESTRICTING COMMUNICATIONS WITH MEMBERS OF CONGRESS AND INSPECTOR GENERAL PROHIBITED.—(1) No person may restrict a member of the armed forces in communicating with a Member of Congress or an Inspector General.

"(2) Paragraph (1) does not apply to a communication that is unlawful.

"(b) PROHIBITION OF RETALIATORY PERSONNEL ACTIONS.—No person may take (or threaten to take) an unfavorable personnel action, or withhold (or threaten to withhold) a favorable personnel action, as a reprisal against a member of the armed forces for making or preparing a communication to a Member of Congress or an Inspector General that (under subsection (a)) may not be restricted. Any action prohibited by the preceding sentence (including the threat to take any action and the withholding or threat to withhold any favorable action) shall be considered for the purposes of this section to be a personnel action prohibited by this subsection.

"(c) INSPECTOR GENERAL INVESTIGATION OF CERTAIN ALLEGATIONS.—(1) If a member of the armed forces submits to the Inspector General of the Department of Defense (or the Inspector General of the Department of Transportation, in the case of a member of the Coast Guard) an allegation that a personnel action prohibited by subsection (b) has been taken (or threatened) against the member with respect to a communication described in paragraph (2), the Inspector General shall expeditiously investigate the allegation.

"(2) A communication described in this paragraph is a communication to a Member of Congress or an Inspector General that (under subsection (a)) may not be restricted in which the member of the armed forces makes a complaint or discloses information that the member reasonably believes constitutes evidence of—

"(A) a violation of a law or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.

"(3) The Inspector General is not required to make an investigation under paragraph (1) in the case of an allegation made more than 60 days after the date on which the member becomes aware of the personnel action that is the subject of the allegation.

"(4) If the Inspector General has not already done so, the Inspector General shall commence a separate investigation of the information that the member believes evidences wrongdoing as described in subparagraph (A) or (B) of paragraph (2). The Inspector General is not required to make such an investigation if the information that the member believes evidences wrongdoing relates to actions which took place during combat.

"(5) Not later than 30 days after completion of an investigation under this subsection, the Inspector General shall submit a report on the results of the investigation to the Secretary of Defense and the member of the armed forces concerned. In the copy of the report submitted to the member, the Inspector General may exclude any information that would not otherwise be available to the member under section 552 of title 5.

"(6) If, in the course of an investigation of an allegation under this section, the Inspector General determines that it is not possible to submit the report required by paragraph (5) within 90 days after the date of receipt of the allegation being investigated, the Inspector General shall provide to the Secretary of Defense and to the member making the allegation a notice—

"(A) of that determination (including the reasons why the report may not be submitted within that time); and

"(B) of the time when the report will be submitted.

"(7) The report on the results of the investigation shall contain a thorough review of the facts and circumstances relevant to the allegation and the complaint or disclosure and shall include documents acquired during the course of the investigation, including summaries of interviews conducted. The report may include a recommendation as to the disposition of the complaint.

"(d) CORRECTION OF RECORDS WHEN PROHIBITED ACTION TAKEN.—(1) A board for the correction of military records acting under section 1552 of this title, in resolving an application for the correction of records made by a member or former member of the armed forces who has alleged a personnel action prohibited by subsection (b), on the request of the member or former member or otherwise, may review the matter.

"(2) In resolving an application described in paragraph (1), a correction board—

"(A) shall review the report of the Inspector General submitted under subsection (c)(5);

"(B) may request the Inspector General to gather further evidence; and

"(C) may receive oral argument, examine and cross-examine witnesses, take depositions, and, if appropriate, conduct an evidentiary hearing.

"(3) If the board elects to hold an administrative hearing, the member or former member who filed the application described in paragraph (1)—

"(A) may be provided with representation by a judge advocate if—

"(i) the Inspector General, in the report under subsection (c)(5), finds that there is probable cause to believe that a personnel action prohibited by subsection (b) has been taken (or threatened) against the member with respect to a communication described in subsection (c)(2);

"(ii) the Judge Advocate General concerned determines that the case is unusually complex or otherwise requires judge advocate assistance to ensure proper presentation of the legal issues in the case; and

"(iii) the member is not represented by outside counsel chosen by the member; and

"(B) may examine witnesses through deposition, serve interrogatories, and request the production of evidence, including evidence contained in the investigatory record of the Inspector General but not included in the report submitted under subsection (c)(5).

"(4) The Secretary concerned shall issue a final decision with respect to an application described in paragraph (1) within 180 days after the application is filed. If the Secretary fails to issue such a final decision within that time, the member or former member shall be deemed to have exhausted the member's or former member's administrative remedies under section 1552 of this title.

"(5) The Secretary concerned shall order such action, consistent with the limitations contained in sections 1552 and 1553 of this title, as is necessary to correct the record of a personnel action prohibited by subsection (b).

"(6) If the Board determines that a personnel action prohibited by subsection (b) has occurred, the Board may recommend to the Secretary concerned that the Secretary take appropriate disciplinary action against the individual who committed such personnel action.

"(e) REVIEW BY SECRETARY OF DEFENSE.—Upon the completion of all administrative review under subsection (d), the member or former member of the armed forces who made the allegation referred to in subsection (c)(1), if not satisfied with the disposition of the matter, may submit the matter to the Secretary of Defense. The Secretary shall make a decision to reverse or uphold the decision of the Secretary of the military department concerned in the matter within 90 days after receipt of such a submittal.

"(f) POST-DISPOSITION INTERVIEWS.—After disposition of any case under this section, the Inspector General shall, whenever possible, conduct an interview with the person making the allegation to determine the views of that person on the disposition of the matter.

"(g) REGULATIONS.—The Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, shall prescribe regulations to carry out this section.

"(h) DEFINITIONS.—In this section:

"(1) The term 'Member of Congress' includes any Delegate or Resident Commissioner to Congress.

"(2) The term 'Inspector General' means—

"(A) an Inspector General appointed under the Inspector General Act of 1978; and

"(B) an officer of the armed forces assigned or detailed under regulations of the Secretary concerned to serve as an Inspector General at any command level in one of the armed forces.".

(2) The item relating to such section in the table of sections at the beginning of chapter 53 of such title is amended to read as follows:

"1034. Communicating with a Member of Congress or Inspector General; prohibition of retaliatory personnel actions.".

(b) DEADLINE FOR REGULATIONS.—The Secretary of Defense and the Secretary of Transportation shall prescribe the regulations required by subsection (g) of section 1034 of title 10, United States Code, as amended by subsection (a), not later than 180 days after the date of the enactment of this Act.

(c) REPORT.—(1) The Inspector General of the Department of Defense (and the Inspector General of the Department of Transportation with respect to the Coast Guard) shall submit to Congress a report on the activities of the Inspector General under section 1034 of title 10, United States Code, as amended by subsection (a). The report shall include, in the case of each case handled by the Inspector General under that section, a description of—

(A) the nature of the allegation described in subsection (c) of that section;

(B) the evaluation and recommendation of the Inspector General with respect to the allegation;

(C) any action of the appropriate board for the correction of military records with respect to the allegation;

(D) if the allegation is determined to be meritorious, any corrective action taken; and

(E) the views of the member or former member of the armed forces making the allegation (determined on the basis of the interview under subsection (f) of that section) on the disposition of the case.

(2) The Inspector General shall include with the report under this subsection copies of the individual case reports for each such allegation.

(3) The report under this subsection shall be submitted not later than February 1, 1990.

(d) EFFECTIVE DATE.—The amendment to section 1034 of title 10, United States Code, made by subsection (a)(1), shall apply with respect to any personnel action taken (or threatened to be taken) on or after the date of the enactment of this Act as a reprisal prohibited by subsection (b) of that section.

TITLE IX—MATTERS RELATING TO ARMS CONTROL

SEC. 901. SENSE OF CONGRESS ON EXPANDING CONFIDENCE-BUILDING MEASURES

(a) FINDINGS.—Congress makes the following findings:

(1) Approximately two years have passed since the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) adjourned in Stockholm following the adoption of measures designed to increase openness and predictability of military activities in Europe.

(2) To date, there have been seven formal observations and challenge inspections which have been conducted in accordance with the Stockholm agreements.

(3) The military leaders of the North Atlantic Treaty Organization have concluded that the Stockholm observations and inspections have positively contributed to an improved understanding of Warsaw Pact forces and capabilities.

(4) The Conventional Stability Talks (CST), which may begin before the end of 1988, will likely require careful and potentially prolonged negotiation.

(5) New negotiations will also begin under the auspices of the Conference on Security and Cooperation in Europe (CSCE) as a follow-on to the Stockholm conference.

(6) The confidence-building measures established at Stockholm could, if expanded, contribute significantly to the success of the CDE follow-on conference and also to the establishment of a procedural framework for verifying a future CST agreement.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President should give high priority to developing, in coordination with the North Atlantic Treaty Organization allies of the United States, stabilizing and verifiable proposals for expanding the regime of confidence-building measures in conjunction with the follow-on to the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) and the new Conventional Stability Talks (CST).

SEC. 902. SENSE OF CONGRESS ON START TALKS

It is the sense of Congress that any agreement negotiated by the President to achieve a reduction and limitation on strategic arms (through the strategic arms reduction talks in Geneva or otherwise)—

(1) should not prevent the United States from deploying a force structure under the agreement which emphasizes survivable strategic systems and, in particular, should not in any way compromise the security of the United States ballistic-missile carrying submarine force, and

(2) should not prohibit or limit the deployment of non-nuclear cruise missiles.

SEC. 903. SENSE OF CONGRESS CONCERNING ROLE OF CONGRESS IN ARMS CONTROL AND DEFENSE POLICIES

It is the sense of Congress—

(1) that Congress, in exercising its authority under the Constitution "to raise and support Armies" and "provide and maintain Navies" and, in the case of the Senate, to advise and consent to the ratification of treaties, has a role to play in formulating arms control and defense policies of the United States, but

(2) that Congress, in exercising that authority, should not usurp, undermine, or interfere with the authority of the President under the Constitution to negotiate and implement treaties, especially in the case of treaties which affect arms control and defense policies of the United States.

SEC. 904. SENSE OF CONGRESS ON THE FIVE-YEAR ABM TREATY REVIEW

(a) FINDINGS.—Congress makes the following findings:

(1) The Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, With Associated Protocol (hereinafter in this section referred to as the "ABM Treaty" or the "Treaty") in Article XIV, Paragraph 2, reads as follows: "Five years after entry into force of this Treaty, and at five-year intervals thereafter, the Parties shall together conduct a review of this Treaty.".

(2) Such Treaty entered into force on October 3, 1972, and the third five-year anniversary date specified for the conduct of the review contemplated in the Treaty, therefore, was October 3, 1987.

(3) As a fundamental principle of the canons of legal construction, a specified number of years after a specific and determinable date means the specified anniversary of such date and therefore the third five-year review of the ABM Treaty should have begun on or about October 3, 1987.

(4) The Parties to the Treaty have not met as required by the Treaty because the United States refused to meet on the date specified in the Treaty for such meeting (October 3, 1987) and has refused since such date to propose a date for the meeting.

(b) SENSE OF CONGRESS.—In light of the findings in subsection (a), it is the sense of Congress that the President should, without any further delay, propose an early date to conduct the overdue five-year review of the ABM Treaty. The President shall inform Congress of the results of that review immediately after it takes place.

SEC. 905. REVISION OF ANNUAL REPORT ON SOVIET COMPLIANCE WITH ARMS CONTROL COMMITMENTS

(a) AMENDMENT TO PUBLIC LAW 99-145.—The text of section 1002 of the Department of Defense Authorization Act, 1986 (22 U.S.C. 2592a), is amended to read as follows:

"(a) ANNUAL REPORT.—Not later than December 1 of each year, the President shall submit to Congress a report containing the findings of the President with respect to the compliance of the Soviet Union with its arms control commitments and any additional information necessary to keep Congress currently informed.

"(b) MATTERS TO BE INCLUDED.—The President shall specifically include in each such report the following:

"(1) A summary of the current status of all arms control agreements in effect between the United States and the Soviet Union.

"(2) An assessment of all violations by the Soviet Union of such agreements and the risks such violations pose to the national security of the United States and its allies.

"(3) A net assessment of the aggregate military significance of all such violations.

"(4) A statement of the compliance policy of the United States with respect to violations by the Soviet Union of those agreements.

"(5) What actions, if any, the President has taken or proposes to take to bring the Soviet Union into compliance with its commitments under those agreements.

"(c) CONTINGENT ADDITIONAL INFORMATION.—If the President in any second consecutive report submitted to Congress under this section reports that the Soviet Union is not in full compliance with all arms control agreements between the United States and the Soviet Union, the President shall include in such report an assessment of what actions are necessary to compensate for such violations.

"(d) CLASSIFICATION OF REPORTS.—Each report under this section shall be submitted in both classified and unclassified versions.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect beginning with the report to be submitted under section 1002 of the Department of Defense Authorization Act, 1986, in 1990.

SEC. 906. ANNUAL REPORT ON ARMS CONTROL STRATEGY

(a) IN GENERAL.—The President shall submit to Congress each year, not later than December 1, a report containing a comprehensive discussion and analysis of the arms control strategy of the United States. The President shall include in each such report the following:

(1) A description of the nature and sequence of the future arms control efforts of the United States.

(2) A net assessment of the current effects of arms control agreements on the status of, and trends in, the military balance between the United States and the Soviet Union and between the North Atlantic Treaty Organization (NATO) and the Warsaw Pact.

(3) A comprehensive data base on the military balance of forces of the United States and the Soviet Union, and the balance of forces of NATO and the Warsaw Pact countries, that are affected by arms control agreements in existence as of the time of the report between the United States and the Soviet Union and between NATO and the Warsaw Pact, including an explanation of the methodology used to analyze the effects on such forces.

(4) A net assessment of the effect that proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact would likely have on United States force plans and contingency plans, including an assessment of the effect that such proposed agreements would have on the risks and costs to the United States.

(5) An assessment of the effect that proposed treaty sub-ceilings, asymmetries, and other factors or qualifications affecting a treaty or arms control proposal would have on the military balance between the United States and the Soviet Union and between NATO and the Warsaw Pact, including an assessment of how such factors increase deterrence and reduce the risk and cost of war.

(6) A statement of the strategy the United States and NATO will use to verify and deter noncompliance with proposed arms control treaties between the United States and the

Soviet Union and between NATO and the Warsaw Pact.

(7) A discussion of the extent to which and the manner in which the United States intends to consult with its allies regarding proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact.

(8) A discussion of how the United States proposes to tailor its defense structure in order to ensure that the national security can be preserved with or without arms control agreements.

(b) Explanation of Methodology.—In reporting on the current effect of arms control agreements on the status of, and trends in, the military balance of power between the United States and the Soviet Union and between NATO and the Warsaw Pact (required under paragraphs (2) and (3) of subsection (a)), the President shall—

(1) specify the methodology used in analyzing the military balance between the United States and the Soviet Union and express the results of such analyses in terms of (A) static comparisons, and (B) comparisons that include dynamic factors; and

(2) discuss all major scenarios, assumptions, and contingencies, including political confrontation, full-scale war, and serious confrontations not involving full-scale war.

(c) Form of Report.—The President shall submit such report in both classified and unclassified form.

SEC. 907. REPORT ON ANTIBALLISTIC MISSILE CAPABILITIES AND ACTIVITIES OF THE SOVIET UNION

(a) Study.—The President shall conduct a study regarding the antiballistic missile capability and activities of the Soviet Union. In conducting the study, the President shall assess each of the following:

(1) The military capabilities and significance of the extensive network of large-phased array radars of the Soviet Union.

(2) Whether the Soviet Union is developing or producing mobile or transportable engagement radars in violation of the 1972 Antiballistic Missile Treaty.

(3) The ability of the Soviet Union to develop an effective exoatmospheric antiballistic missile defense without using widespread deployments of traditional engagement radars.

(4) The ability of air defense interceptor missiles of the Soviet Union, now and in the future, to destroy warheads of ballistic missiles in flight.

(5) Whether silos or other hardened facilities of the Soviet Union located outside of the existing antiballistic missile site permitted near Moscow under the terms of the 1972 Antiballistic Missile Treaty are or could be associated with antiballistic missile defenses not permitted under that Treaty.

(6) Whether the Soviet Union is developing terminal antiballistic missile defenses.

(7) Whether the existing antiballistic missile site near Moscow that is permitted under the terms of that Treaty conceals or could conceal development, testing, or deployment by the Soviet Union of a widespread antiballistic missile system.

(8) Activities of the Soviet Union regarding boost-phase intercepts of ballistic missiles.

(9) The status of laser programs, particle-beam programs, and other advanced technology programs of the Soviet Union comparable to programs conducted by the United States under the Strategic Defense Initiative.

(10) The consequences for the United States of a successful effort by the Soviet Union to deploy an effective nationwide or limited antiballistic missile system.

(b) Assessment of Ability of United States To Counter a Soviet ABM System.—In conducting the study required by subsection (a), the President shall also assess the ability of the United States to counter effectively an effective antiballistic missile system deployed by the Soviet Union. Such assessment shall consider both the deployment by the Soviet Union of a nationwide, and of a limited, antiballistic missile system. In assessing the ability of the United States to counter effectively such a system, the President—

(1) shall consider the ability of the United States to modify (A) existing strategic offensive forces (including modifications involving the development of additional penetration aids), and (B) current strategic doctrine and tactics; and

(2) shall consider whether the actions of the United States described in paragraph (1) could be accomplished over the same period of time that the Soviet Union would require to deploy such an antiballistic missile system.

(c) Report.—Not later than January 1, 1989, the President shall submit to Congress a report, in both a classified and an unclassified version, specifying the results of the study conducted pursuant to this section. The report shall include such recommendations as the President considers appropriate, including recommendations with regard to maintaining the deterrent value of the strategic forces of the United States in light of the antiballistic missile capability and activities of the Soviet Union described in the report.

SEC. 908. ANALYSIS OF ALTERNATIVE STRATEGIC NUCLEAR FORCE POSTURES FOR THE UNITED STATES UNDER A POTENTIAL START TREATY

(a) Findings.—Congress makes the following findings:

(1) The United States and the Soviet Union are currently engaged in talks regarding the reduction of strategic nuclear arms.

(2) Such talks could result in a treaty requiring deep reductions in the strategic forces of the United States.

(3) Any such Strategic Arms Reduction Treaty (START) cannot be ratified without the advice and consent of the Senate.

(4) Any such START Treaty should result in a stable balance of strategic forces between the United States and the Soviet Union which enhances the security of the United States.

(5) Congress should provide funds for the forces permitted under such a treaty that are required to ensure the stability of the force balance under such a treaty.

(6) Congress faces critical resource choices for fiscal year 1989 and subsequent fiscal years, and the resource choices made by Congress for those years could substantially influence the strategic force posture of the United States in the period after such a treaty goes into effect.

(b) Presidential Report.—Before entering into any Strategic Arms Reduction Treaty or other agreement with the Soviet Union for the reduction of strategic arms, but not later than September 15, 1988, the President shall submit to Congress a comprehensive report on the implications such a treaty or agreement might have on the strategic force postures of the United States during the 1990s. The report shall include the following:

(1) A description of alternative force postures that might be permitted for the United States under such an arms reduction agreement, including the posture recommended by the President.

(2) The estimated costs, over at least a seven-year period, associated with each alternative force posture.

(3) The damage limitation capability, the survivability, and the retaliatory potential of such force posture, and the implications for strategic stability, assessed with regard to the likely force postures of the Soviet Union under such an agreement and the first-strike potential of such force postures.

(4) The likely effect of a breakout by the Soviet Union from such an arms control agreement on the survivability and of the force posture of the United States under such an agreement recommended by the President under paragraph (1).

(c) Form of Report.—The President shall submit the report under subsection (b) in both classified and unclassified form.

SEC. 909. ON-SITE INSPECTION AGENCY

(a) Report Requirements.—(1) Not later than six months after the date of the enactment of this Act, the officers named in paragraph (2) shall each submit to the Committee on Armed Services, the Committee on Foreign Affairs, and the Permanent Select Committee on Intelligence of the House of Representatives and the Committee on Armed Services, the Committee on Foreign Relations, and the Select Committee on Intelligence of the Senate an unclassified report, with classified annexes as necessary, on the responsibility of each such officer for the monitoring and verification of arms control agreements. Each such report—

(A) shall address specifically any responsibility the officer submitting the report has with respect to on-site inspections (whether inspections of facilities of the United States or inspections of facilities of another party to the agreement); and

(B) shall set forth the organizational elements of each department or agency over which the officer submitting the report has jurisdiction which have functions related to the monitoring or verification of arms control agreements.

(2) Officers referred to in paragraph (1) are the following:

(A) The Secretary of Defense.

(B) The Secretary of State.

(C) The Director of Central Intelligence.

(D) The Director of the United States Arms Control and Disarmament Agency.

(b) Matters To Be Included.—Each report under subsection (a) shall—

(1) describe in detail the monitoring and verification activities carried out with respect to the INF Treaty,

(2) evaluate the effectiveness with which these functions have been implemented, and

(3) include recommendations for any future organizational or policy changes that may be necessary in view of the experience of implementing the INF Treaty.

(c) INF Treaty Defined.—For purposes of subsection (b), the term "INF Treaty" means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter-Range Missiles (signed at Washington on December 9, 1987).

(d) Budget Requests.—Any request submitted to Congress by the Executive Branch for authorization of appropriations for the On-Site Inspection Agency for any fiscal year shall, as a separate activity, provide details of all funding and of all military and civilian personnel requested for that Agency for that fiscal year, including the number of

such personnel of the Department of Defense and other agencies that will be assigned to on-site inspection activities and to support such activities during that fiscal year.

SEC. 910. COORDINATION OF VERIFICATION POLICY AND RESEARCH AND DEVELOPMENT ACTIVITIES

(a) REPORT.—Not later than June 30, 1989, the President shall submit to Congress a report reviewing the relationship of arms control objectives of the United States with research and development of improved monitoring systems for arms control verification. The review shall include the participation of the Secretaries of Defense, State, and Energy, the Director of Central Intelligence, and the Director of the United States Arms Control and Disarmament Agency.

(b) FINDINGS AND RECOMMENDATIONS.—The report shall include the findings of the President, and such recommendations for improvements as the President considers appropriate, with respect to the following:

(1) The status of coordination among the officers named in subsection (a) in the formulation of the policy of the United States regarding arms control verification.

(2) The status of efforts to ensure that such policy is formulated in a manner which takes into account available monitoring technology.

(3) The status of efforts to ensure that research and development on monitoring technology evolves concurrently with such policy.

TITLE X—MATTERS RELATING TO NATO COUNTRIES AND OTHER ALLIES

SEC. 1001. INCREASE IN ANNUAL DOLLAR LIMITATION ON ACQUISITION AND CROSS-SERVICING AGREEMENTS WITH ALLIED COUNTRIES

Section 2347(a)(1) of title 10, United States Code, is amended by striking out "$100,000,000" and inserting in lieu thereof "$150,000,000".

SEC. 1002. AUTHORITY TO WAIVE SURCHARGES ON CERTAIN SALES TO NORTH ATLANTIC TREATY ORGANIZATION

Section 21(e) of the Arms Export Control Act (22 U.S.C. 2761(e)) is amended by adding at the end the following:

"(3)(A) The President may waive the charges for administrative services that would otherwise be required by paragraph (1)(A) in connection with any sale to the Maintenance and Supply Agency of the North Atlantic Treaty Organization in support of—

"(i) a weapon system partnership agreement; or

"(ii) a NATO/SHAPE project.

"(B) The Secretary of Defense may reimburse the fund established to carry out section 43(b) of this Act in the amount of the charges waived under subparagraph (A) of this paragraph. Any such reimbursement may be made from any funds available to the Department of Defense.

"(C) As used in this paragraph—

"(i) the term 'weapon system partnership agreement' means an agreement between two or more member countries of the Maintenance and Supply Agency of the North Atlantic Treaty Organization that—

"(I) is entered into pursuant to the terms of the charter of that organization; and

"(II) is for the common logistic support of a specific weapon system common to the participating countries; and

"(ii) the term 'NATO/SHAPE project' means a common-funded project supported by allocated credits from North Atlantic Treaty Organization bodies or by host nations with NATO Infrastructure funds.".

SEC. 1003. AUTHORITY OF MILITARY DEPARTMENTS TO LOAN AND BORROW FROM CERTAIN ALLIES MATERIALS, SUPPLIES, AND EQUIPMENT FOR RESEARCH AND DEVELOPMENT PURPOSES

(a) IN GENERAL.—Chapter 6 of the Arms Export Control Act (22 U.S.C. 2796c) is amended by adding at the end the following new section:

"SEC. 65. LOAN OF MATERIALS, SUPPLIES, AND EQUIPMENT FOR RESEARCH AND DEVELOPMENT PURPOSES.—(a)(1) Except as provided in subsection (c), the Secretary of Defense may loan to a country that is a NATO or major non-NATO ally materials, supplies, or equipment for the purpose of carrying out a program of cooperative research, development, testing, or evaluation. The Secretary may accept as a loan or a gift from a country that is a NATO or major non-NATO ally materials, supplies, or equipment for such purpose.

"(2) Each loan or gift transaction entered into by the Secretary under this section shall be provided for under the terms of a written agreement between the Secretary and the country concerned.

"(3) A program of testing or evaluation for which the Secretary may loan materials, supplies, or equipment under this section includes a program of testing or evaluation conducted solely for the purpose of standardization, interchangeability, or technical evaluation if the country to which the materials, supplies, or equipment are loaned agrees to provide the results of the testing or evaluation to the United States without charge.

"(b) The materials, supplies, or equipment loaned to a country under this section may be expended or otherwise consumed in connection with any testing or evaluation program without a requirement for reimbursement of the United States if the Secretary—

"(1) determines that the success of the research, development, test, or evaluation depends upon expending or otherwise consuming the materials, supplies, or equipment loaned to the country; and

"(2) approves of the expenditure or consumption of such materials, supplies, or equipment.

"(c) The Secretary of Defense may not loan to a country under this section any material if the material is a strategic and critical material and if, at the time the loan is to be made, the quantity of the material in the National Defense Stockpile (provided for under section 3 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b)) is less than the quantity of such material to be stockpiled, as determined by the President under section 3(a) of such Act.

"(d) For purposes of this section, the term 'NATO or major non-NATO ally' means a member country of the North Atlantic Treaty Organization (other than the United States) or a foreign country other than a member nation of NATO designated as a major non-NATO ally under section 1105 of the National Defense Authorization Act for Fiscal Year 1987 (22 U.S.C. 2767a).".

(b) CLERICAL AMENDMENT.—The heading for such chapter is amended to read as follows:

"CHAPTER 6—LEASES OF DEFENSE ARTICLES AND LOAN AUTHORITY FOR COOPERATIVE RESEARCH AND DEVELOPMENT PURPOSES".

SEC. 1004. SENSE OF CONGRESS ON NEED FOR MODERNIZATION OF THEATER NUCLEAR CAPABILITIES OF NATO

(a) FINDINGS.—Congress makes the following findings:

(1) The security of the North Atlantic Treaty Organization (NATO) alliance will continue for the foreseeable future to rely on a modern and credible nuclear deterrent.

(2) NATO should make every effort to achieve the goal of raising the threshold for the use of nuclear weapons in the event of a conflict in Europe.

(3) While recognizing that there is a critical need for improvements in conventional forces, Congress also recognizes that the United States will have to devote defense resources in the future to the continuing modernization of the theater nuclear capabilities of NATO.

(4) The modernization of the theater nuclear capabilities of NATO is a continuing process and stems from the 1983 Montebello decision by NATO to reduce the stockpile of nuclear weapons in Europe while taking steps to ensure that the remaining nuclear weapons of the alliance are responsive, survivable, and effective.

(5) Programs to modernize theater nuclear forces, which had a high priority for NATO before the ratification of the Intermediate-range Nuclear Forces (INF) Treaty, are at least as important following the ratification of that treaty in May 1988.

(6) The NATO Nuclear Planning Group recently reaffirmed its endorsement of development by the United States of a new missile for delivery of theater nuclear weapons as a follow-on to the current Lance missile, with a view toward an eventual decision on deployment of such a follow-on missile.

(b) SENSE OF CONGRESS.—In light of the findings in subsection (a), it is the sense of Congress that—

(1) modernization of the theater nuclear capabilities of the North Atlantic Treaty Organization is essential to the deterrence strategy of the NATO alliance, particularly in light of the requirements of the Intermediate-range Nuclear Forces (INF) Treaty for the destruction of intermediate-range nuclear weapons;

(2) continued modernization by the United States of theater nuclear capabilities should be undertaken in close consultation with other NATO member nations; and

(3) the United States should proceed with ongoing activities to meet the identified requirement of the NATO alliance for development of a new missile for delivery of theater nuclear weapons as a follow-on to the Lance missile.

SEC. 1005. REPORT ON NATO DEFENSE PROGRAM FOR FISCAL YEAR 1990

(a) REPORT.—The Secretary of Defense shall submit to Congress a report setting forth in detail the programs of the Department of Defense in support of the North Atlantic Treaty Organization (referred to as the "NATO Defense Program") for fiscal year 1990. The report shall include—

(1) an identification of each such program by program element; and

(2) a description of each such program and the level of funding requested by the President for each such program in the budget for fiscal year 1990.

(b) SUBMISSION OF REPORT.—The report under subsection (a) shall be submitted in conjunction with the submission to Congress of the President's budget for fiscal year 1990 pursuant to section 1105 of title 31, United States Code.

SEC. 1006. IMPROVEMENT IN DEFENSE RESEARCH AND PROCUREMENT LIAISON WITH ISRAEL

The Secretary of Defense, in consultation with the Under Secretary of Defense for Acquisition, shall designate for duty in Israel an individual or individuals to serve as the primary liaison between the procurement and research and development activities of the United States Armed Forces and those of the State of Israel.

SEC. 1007. MODIFICATION OF REQUIREMENT CONCERNING DESIGNATION OF MAJOR NON-NATO ALLIES

Section 1105(f) of the National Defense Authorization Act for Fiscal Year 1987 (22 U.S.C. 2767a) is amended—

(1) by striking out "Not later than January 1 of each year, the Secretary" and inserting in lieu thereof "The Secretary";

(2) by inserting ", whenever they consider such action to be warranted," after "Secretary of State"; and

(3) by inserting "to be added to or deleted from the existing designation of countries" in paragraph (1) after "countries".

SEC. 1008. CALL FOR CONTINUED DEFENSE BURDEN-SHARING DISCUSSIONS WITH ALLIES

It is the sense of Congress that the President should continue the discussions (called for by Congress in section 1254(b)(1) of Public Law 100-204) with countries which participate in mutual defense alliances with the United States, especially the member nations of the North Atlantic Treaty Organization and Japan, for the purpose of reaching an agreement for a more equitable distribution of the burden of financial support for the alliances.

SEC. 1009. CONTRIBUTIONS BY JAPAN TO GLOBAL STABILITY

(a) FINDINGS.—The Congress makes the following findings:

(1) As noted by Congress in section 1012(a)(1) of Public Law 100-180 and in section 812(a)(1) of Public Law 99-93, the alliance of the United States and Japan is the foundation for the security of Japan and peace in the Far East and is a major contributing factor to the democratic freedoms and the economic prosperity enjoyed by both the United States and Japan.

(2) In keeping with the declaration made at the 1983 meeting in Williamsburg, Virginia, of the leaders of the leading industrialized democracies that "the security of our countries is indivisible and must be approached on a global basis", the Government of Japan, in actions welcomed by the United States—

(A) continues to fulfill the pledge made by the Prime Minister of Japan in May 1981 to develop the capabilities to defend the territory of Japan and the airspace and sealanes around Japan to a distance of 1,000 nautical miles by 1990,

(B) has increased the amount of assistance provided to other countries during fiscal year 1988 by 6.5 percent over the amount of such assistance provided during fiscal year 1987, and

(C) is, according to recent reports, actively involved in increasing its contributions to the stability of the Republic of the Philippines.

(3) Japan could, because of its recent history and economic status, best fulfill a politically acceptable and significant role in maintaining the security of the leading industrialized democracies by increasing spending for its Official Development Assistance program in the manner described by Congress in section 1012(b) of Public Law 100-180.

(4) The failure of the United States and Japan to agree on the appropriate level of the contribution by Japan to maintaining the security of the leading industrialized democracies could weaken the long-term vitality, effectiveness, and cohesion of the alliance between the United States and Japan.

(b) ANNUAL REPORT.—The Secretary of Defense shall include with the annual report submitted pursuant to section 1003 of Public Law 98-525 (22 U.S.C. 1928 note) a report on the Official Development Assistance program of the Government of Japan. Such report shall be prepared each year in coordination with the Secretary of State and the Administrator of the Agency for International Development and shall include a description of the amount and nature of spending under such program by recipient, including distinguishing between grant aid, loans, and credits.

(c) POLICY ON DISCUSSIONS WITH JAPAN.—It is the sense of Congress that in the discussions with Japan referred to in section 1008 for the purpose of reaching a more equitable distribution of the burden of financial support for the security of the leading industrialized democracies, the objective of such discussions should include the establishment of a schedule for increases in spending under Japan's Official Development Assistance program and its defense programs so that, by 1992, the level of spending on those programs (stated as a percentage of gross national product) will approximate the average of the levels of spending by the member nations of the North Atlantic Treaty Organization on official development assistance and defense programs (stated as a percentage of their respective gross national products).

(d) REPORT.—Not later than 180 days after the date of the enactment of this Act, the President shall submit to Congress a report on the progress of the discussions described in subsection (c) with respect to Japan.

(e) FURTHER CONGRESSIONAL ACTION.—It is the sense of Congress that if, in the judgment of Congress, the report of the President under subsection (d) does not reflect substantial progress toward a more equitable distribution of the burden of maintaining the security of the leading industrialized democracies, Congress should review the extent of the distribution of the mutual security burden between the United States and Japan and should consider whether additional legislation is appropriate.

TITLE XI—DRUG INTERDICTION AND LAW ENFORCEMENT SUPPORT

SEC. 1101. ANNUAL GUIDELINES TO THE MILITARY DEPARTMENTS

Section 113 of title 10, United States Code, is amended by adding to the end the following new subsection:

"(1) The Secretary of Defense, with the advice and assistance of the Chairman of the Joint Chiefs of Staff, shall provide annually to the Secretaries of the military departments and to the commanders of the combatant commands written guidelines to direct the effective detection and monitoring of all potential aerial and maritime threats to the national security of the United States. Those guidelines shall include guidance on the specific force levels and specific supporting resources to be made available for the period of time for which the guidelines are to be in effect.".

SEC. 1102. LEAD AGENCY FOR DETECTION

(a) DEPARTMENT OF DEFENSE TO SERVE AS LEAD AGENCY.—The Department of Defense shall serve as the single lead agency of the Federal Government for the detection and monitoring of aerial and maritime transit of illegal drugs into the United States.

(b) PRESIDENTIAL DETERMINATION.—Not later than 15 days after the date of the enactment of this Act, the President may designate an agency other than the Department of Defense as the single lead agency for the purpose stated in subsection (a). Before making such a designation, the President shall notify the Committees on Armed Services of the Senate and House of Representatives of the proposed designation and shall submit to those committees a detailed report setting forth the reasons for such designation.

SEC. 1103. COMMUNICATIONS NETWORK

(a) INTEGRATION OF C3I ASSETS.—(1) The President shall direct that command, control, communications, and technical intelligence assets of the United States that are dedicated to the interdiction of illegal drugs be integrated by the Secretary of Defense into an effective communications network.

(2) Not later than 90 days after the date of the enactment of this Act, the President shall submit to Congress a report setting forth the plan of the President for the integration of assets by the Secretary of Defense under paragraph (1).

(b) PLAN FOR RESPONSIBILITY FOR OPERATING C3I NETWORK.—Not later than 120 days after submission of the report required by subsection (a)(2), the President shall develop a plan for the assignment of responsibility for operating the communications network described in subsection (a)(1) and shall submit to Congress a report on such plan. The plan shall ensure that assignment of the responsibility for operating the communications network referred to in subsection (a)(1) is made not later than 60 days after the date on which the report required by this subsection is submitted to Congress.

SEC. 1104. ENHANCED DRUG INTERDICTION AND LAW ENFORCEMENT SUPPORT BY THE DEPARTMENT OF DEFENSE

(a) REVISION OF SUPPORT FOR CIVILIAN LAW ENFORCEMENT AGENCIES.—Chapter 18 of title 10, United States Code, is amended to read as follows:

"CHAPTER 8—MILITARY SUPPORT FOR CIVILIAN LAW ENFORCEMENT AGENCIES

"Sec.
"371. Use of information collected during military operations.
"372. Use of military equipment and facilities.
"373. Training and advising civilian law enforcement officials.
"374. Maintenance and operation of equipment.
"375. Restriction on direct participation by military personnel.
"376. Support not to affect adversely military preparedness.
"377. Reimbursement.
"378. Nonpreemption of other law.
"379. Assignment of Coast Guard personnel to naval vessels for law enforcement purposes.
"380. Enhancement of cooperation with civilian law enforcement officials.

"§ 371. Use of information collected during military operations

"(a) The Secretary of Defense may, in accordance with other applicable law, provide to Federal, State, or local civilian law enforcement officials any information collected during the normal course of military training or operations that may be relevant to a violation of any Federal or State law within the jurisdiction of such officials.

"(b) The needs of civilian law enforcement officials for information shall, to the maximum extent practicable, be taken into account in the planning and execution of military training or operations.

"(c) The Secretary of Defense shall ensure, to the extent consistent with national security, that intelligence information held by the Department of Defense and relevant to drug interdiction or other civilian law enforcement matters is provided promptly to appropriate civilian law enforcement officials.

"§ 372. Use of military equipment and facilities

"The Secretary of Defense may, in accordance with other applicable law, make available any equipment (including associated supplies or spare parts), base facility, or research facility of the Department of Defense to any Federal, State, or local civilian law enforcement official for law enforcement purposes.

"§ 373. Training and advising civilian law enforcement officials

"The Secretary of Defense may, in accordance with other applicable law, make Department of Defense personnel available—

"(1) to train Federal, State, and local civilian law enforcement officials in the operation and maintenance of equipment, including equipment made available under section 372 of this title; and

"(2) to provide such law enforcement officials with expert advice relevant to the purposes of this chapter.

"§ 374. Maintenance and operation of equipment

"(a) The Secretary of Defense may, in accordance with other applicable law, make Department of Defense personnel available for the maintenance of equipment for Federal, State, and local civilian law enforcement officials, including equipment made available under section 372 of this title.

"(b)(1) Subject to paragraph (2) and in accordance with other applicable law, the Secretary of Defense may, upon request from the head of a Federal law enforcement agency, make Department of Defense personnel available to operate equipment (including equipment made available under section 372 of this title) with respect to—

"(A) a criminal violation of a provision of law specified in paragraph (4)(A); or

"(B) assistance that such agency is authorized to furnish to a State, local, or foreign government which is involved in the enforcement of similar laws.

"(2) Department of Defense personnel made available to a civilian law enforcement agency under this subsection may operate equipment for the following purposes:

"(A) Detection, monitoring, and communication of the movement of air and sea traffic.

"(B) Aerial reconnaissance.

"(C) Interception of vessels or aircraft detected outside the land area of the United States for the purposes of communicating with such vessels and aircraft to direct such vessels and aircraft to go to a location designated by appropriate civilian officials.

"(D) Operation of equipment to facilitate communications in connection with law enforcement programs specified in paragraph (4)(A).

"(E) Subject to joint approval by the Secretary of Defense, the Attorney General, and the Secretary of State, in connection with a law enforcement operation outside the land area of the United States—

"(i) the transportation of civilian law enforcement personnel; and

"(ii) the operation of a base of operations for civilian law enforcement personnel.

"(3) Department of Defense personnel made available to operate equipment for the purpose stated in paragraph (2)(C) may continue to operate such equipment into the land area of the United States in cases involving the pursuit of vessels or aircraft where the detection began outside such land area.

"(4) In this subsection:

"(A) The term 'Federal law enforcement agency' means an agency with jurisdiction to enforce any of the following:

"(i) The Controlled Substances Act (21 U.S.C. 801 et seq.) or the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.).

"(ii) Any of sections 274 through 278 of the Immigration and Nationality Act (8 U.S.C. 1324-1328).

"(iii) A law relating to the arrival or departure of merchandise (as defined in section 401 of the Tariff Act of 1930 (19 U.S.C. 1401) into or out of the customs territory of the United States (as defined in general headnote 2 of the Tariff Schedules of the United States) or any other territory or possession of the United States.

"(iv) The Maritime Drug Law Enforcement Act (46 U.S.C. App. 1901 et seq.).

"(B) The term 'land area of the United States' includes the land area of any territory, commonwealth, or possession of the United States.

"(c) The Secretary of Defense may, in accordance with other applicable law, make Department of Defense personnel available to any Federal, State, or local civilian law enforcement agency to operate equipment for purposes other than described in paragraph (2) only to the extent that such support does not involve direct participation by such personnel in a civilian law enforcement operation unless such direct participation is otherwise authorized by law.

"§ 375. Restriction on direct participation by military personnel

"The Secretary of Defense shall prescribe such regulations as may be necessary to ensure that the provision of any support (including the provision of any equipment or facility or the assignment or detail of any personnel) to any civilian law enforcement official under this chapter does not include or permit direct participation by a member of the Army, Navy, Air Force, or Marine Corps in a search and seizure, an arrest, or other similar activity unless participation in such activity by such member is otherwise authorized by law.

"§ 376. Support not to affect adversely military preparedness

"Support (including the provision of any equipment or facility or the assignment or detail of any personnel) may not be provided to any civilian law enforcement official under this chapter if the provision of such support will adversely affect the military preparedness of the United States. The Secretary of Defense shall prescribe such regulations as may be necessary to ensure that the provision of any such support does not adversely affect the military preparedness of the United States.

"§ 377. Reimbursement

"(a) To the extent otherwise required by section 1535 of title 31 (popularly known as the 'Economy Act') or other applicable law, the Secretary of Defense shall require a civilian law enforcement agency to which support is provided under this chapter to reimburse the Department of Defense for that support.

"(b) An agency to which support is provided under this chapter is not required to reimburse the Department of Defense for such support if such support—

"(1) is provided in the normal course of military training or operations; or

"(2) results in a benefit to the element of the Department of Defense providing the support that is substantially equivalent to that which would otherwise be obtained from military operations or training.

"§ 378. Nonpreemption of other law

"Nothing in this chapter shall be construed to limit the authority of the executive branch in the use of military personnel or equipment for civilian law enforcement purposes beyond that provided by law before December 1, 1981.

"§ 379. Assignment of Coast Guard personnel to naval vessels for law enforcement purposes

"(a) The Secretary of Defense and the Secretary of Transportation shall provide that there be assigned on board every appropriate surface naval vessel at sea in a drug-interdiction area members of the Coast Guard who are trained in law enforcement and have powers of the Coast Guard under title 14, including the power to make arrests and to carry out searches and seizures.

"(b) Members of the Coast Guard assigned to duty on board naval vessels under this section shall perform such law enforcement functions (including drug-interdiction functions)—

"(1) as may be agreed upon by the Secretary of Defense and the Secretary of Transportation; and

"(2) as are otherwise within the jurisdiction of the Coast Guard.

"(c) No fewer than 500 active duty personnel of the Coast Guard shall be assigned each fiscal year to duty under this section. However, if at any time the Secretary of Transportation, after consultation with the Secretary of Defense, determines that there are insufficient naval vessels available for purposes of this section, such personnel may be assigned other duty involving enforcement of laws listed in section 374(b)(4)(A) of this title.

"(d) In this section, the term 'drug-interdiction area' means an area outside the land area of the United States (as defined in section 374(b)(4)(B) of this title) in which the Secretary of Defense (in consultation with the Attorney General) determines that activities involving smuggling of drugs into the United States are ongoing.

"§ 380. Enhancement of cooperation with civilian law enforcement officials

"(a) The Secretary of Defense, in cooperation with the Attorney General, shall conduct an annual briefing of law enforcement personnel of each State (including law enforcement personnel of the political subdivisions of each State) regarding information, training, technical support, and equipment and facilities available to civilian law enforcement personnel from the Department of Defense.

"(b) Each briefing conducted under subsection (a) shall include the following:

"(1) An explanation of the procedures for civilian law enforcement officials—

"(A) to obtain information, equipment, training, expert advice, and other personnel support under this chapter; and

"(B) to obtain surplus military equipment.

"(2) A description of the types of information, equipment and facilities, and training and advice available to civilian law enforcement officials from the Department of Defense.

"(3) A current, comprehensive list of military equipment which is suitable for law enforcement officials from the Department of Defense or available as surplus property from the Administrator of General Services.

"(c) The Attorney General and the Administrator of General Services shall—

"(1) establish or designate an appropriate office or offices to maintain the list described in subsection (b)(3) and to furnish information to civilian law enforcement officials on the availability of surplus military equipment; and

"(2) make available to civilian law enforcement personnel nationwide, tollfree telephone communication with such office or offices.".

(b) Clerical Amendment.—The item relating to such chapter in the tables of chapters at the beginning of subtitle A, and at the beginning of part I of subtitle A, of title 10, United States Code, is amended to read as follows:

"18. Military Support for Civilian Law Enforcement Agencies .... 371".

SEC. 1105. ENHANCED DRUG INTERDICTION AND ENFORCEMENT ROLE FOR THE NATIONAL GUARD

(a) Funding Assistance.—(1) The Secretary of Defense may provide to the Governor of a State who submits a plan to the Secretary under paragraph (2) sufficient funds for the pay, allowances, clothing, subsistence, gratuities, travel, and related expenses of personnel of the National Guard of such State used—

(A) for the purpose of drug interdiction and enforcement operations; and

(B) for the operation and maintenance of the equipment and facilities of the National Guard of such State used for such purposes.

(2) The Secretary may provide funds under paragraph (1) to the Governor of a State who submits to the Secretary a plan specifying how personnel of the National Guard of that State are to be used in drug enforcement and interdiction operation by a National Guard of a State if—

(A) such operations are conducted at a time when personnel of the National Guard of the State are under the command and control of State authority and are not in Federal service; and

(B) participation by a National Guard personnel in such operations is service in addition to annual training required under section 502 of title 32, United States Code.

(3) Before funds are provided to the Governor of a State under this section, the Secretary of Defense shall consult with the Attorney General of the United States regarding the adequacy of the plan submitted by the Governor to the Secretary.

(4) Of the amounts appropriated pursuant to section 1106, the Secretary shall, for the purposes of paragraph (1), make available—

(A) not more than $30,000,000 for operations and maintenance for the National Guard, and

(B) not more than $30,000,000 for National Guard personnel.

(5) Nothing in this subsection shall be construed as a limitation on the authority of any unit of the National Guard of a State, when such unit is not in Federal service, to perform law enforcement functions authorized to be performed by the National Guard by the laws of the State concerned.

(b) Training Criteria.—The Secretary of Defense shall prescribe and enforce training criteria for the National Guard to enhance the capability of the National Guard to assist in drug abuse control activities.

(c) Presidential Report.—Not later than 120 days after the date of the enactment of this Act, the President shall submit to Congress a report on the past effectiveness of using members of the National Guard for drug interdiction efforts, consistent with applicable law, along the borders and at the ports of entry of the United States and on the potential for the effective use of such members for such purpose in the future.

SEC. 1106. FUNDING OF ACTIVITIES RELATED TO DRUG INTERDICTION

(a) Authorization of Appropriations.—(1) In addition to the amounts otherwise authorized to be appropriated by this Act, there is hereby authorized to be appropriated to the Department of Defense for fiscal year 1989 the sum of $210,000,000. Amounts appropriated pursuant to the preceding sentence shall be available only for transfer to other appropriations available to the Department of Defense and may be used only for the purposes stated in paragraph (2).

(2) Funds transferred under paragraph (1) may be used only for the mission of the Department of Defense set forth in section 113(1) of title 10, United States Code, as added by section 1101, for the activities of the Department of Defense under section 1103, and for National Guard drug interdiction activities described in section 1105. Such funds shall be available for obligation for the same period, and for the same purpose, as the appropriation to which transferred.

(b) Transfer of Fiscal Year 1987 Funds.—Of the amounts appropriated for the Navy for procurement of aircraft for fiscal year 1987, and which remain unobligated on the date of the enactment of this Act, the sum of $90,000,000 shall be available only for the purposes set forth in subsection (a)(2). Such amount may be transferred to any appropriation made for the Department of Defense for fiscal year 1989 and shall be merged with, and be available for the same purpose as, the appropriation to which transferred. The period of the availability for obligation of any amount so transferred shall not be extended as a result of such transfer.

(c) Notice to Congress.—(1) The Secretary of Defense may not transfer any funds appropriated pursuant to subsection (a) to another appropriation for obligation pursuant to this section and may not transfer or obligate any funds made available under subsection (b) until—

(A) the Secretary submits to the Committees on Armed Services of the Senate and the House of Representatives a report with respect to that transfer described in paragraph (2); and

(B) a period of 60 days elapses after the report is received by those committees.

(2) A report under paragraph (1) with respect to a transfer of funds shall set forth in detail the Secretary's proposal for the obligation of such funds, including a statement of the following:

(A) The appropriation account or accounts to which the funds are proposed to be transferred.

(B) The activities proposed to be undertaken using those funds.

(C) The relationship between those activities and the drug interdiction strategy of the United States.

SEC. 1107. REPORTS

(a) Proposals.—Not later than December 1, 1988, the President shall submit to Congress a report containing—

(1) legislative proposals to enhance the capability of the Department of Defense to perform the functions provided for in this title and in the amendments made by this title; and

(2) estimates of the amounts necessary to carry out such proposals.

(b) Radar Coverage and Southern Border.—(1) The President shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report assessing the potential effect on drug interdiction and on the drug abuse problem in the United States of—

(A) carrying out radar coverage along the southern border of the United States; and

(B) pursuing drug smugglers detected by such radar coverage with rotor-wing and fixed-wing aircraft of the Department of Defense and of civilian law enforcement agencies.

(2) The President shall include in such report an assessment of the relative effectiveness—

(A) of carrying out the operations described in clauses (A) and (B) of paragraph (1) on a full-time basis;

(B) of carrying out such operations only during the hours of darkness; and

(C) the feasibility and cost of carrying out such operations under each of the conditions specified in clauses (A) and (B).

(3) The report under paragraph (1) shall be submitted not later than 30 days after the date of the enactment of this Act.

(c) Pursuit by Aircraft.—(1) Not later than 15 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report containing the following information:

(A) The total number of times suspected drug smugglers flying aircraft into the United States have been pursued by aircraft operated by or with the support of personnel of the Department of Defense under the authority of section 374(c)(2)(B) of title 10, United States Code, as in effect on the day before the date of the enactment of this Act.

(B) The number of times civilian law enforcement officials were present at the location and at the time the suspected drug smugglers were forced to land their aircraft in the United States as a result of the pursuit of the aircraft operated by or with the support of Department of Defense personnel.

(C) The number of times such officials were not present at the location and at the time such suspected smugglers were forced to land their aircraft in the United States.

(2) Not later than one year after the date of the enactment of this Act, the Secretary of Defense shall submit to such committees a report containing the following information:

(A) The total number of times suspected drug smugglers described in paragraph (1) have been pursued into the United States by aircraft operated by or with the support of Department of Defense personnel under the authority of section 374(b)(2)(C) of title 10, as amended by section 1104.

(B) The number of times civilian law enforcement officials were present at the location and at the time the suspected drug smugglers were forced to land their aircraft in the United States as a result of the pursuit of the aircraft operated by or with the support of Department of Defense personnel.

(C) The number of times such officials were not present at the location and at the time such suspected smugglers were forced to land their aircraft in the United States as a result of the pursuit of the aircraft operated by or with the support of Department of Defense personnel.

(D) Such other information and such recommendations as the Secretary considers appropriate regarding the use of Department of Defense personnel for purposes authorized in section 374(b) of title 10, United States Code, as amended by section 1104.

TITLE XII—GENERAL PROVISIONS

PART A—FINANCIAL AND BUDGET MATTERS

SEC. 1201. TRANSFER AUTHORITY

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—(1) Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in title I, II, or III for any fiscal year between any such authorizations for that fiscal year (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) The total amount of authorizations for any fiscal year that the Secretary of Defense may transfer under the authority of this section may not exceed $3,000,000,000.

(b) LIMITATIONS.—The authority provided by this section to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

(2) may not be used to provide authority for an item that has been denied authorization by Congress.

(c) NOTICE TO CONGRESS.—The Secretary of Defense shall promptly notify Congress of transfers made under the authority of this section.

SEC. 1202. INCREASE IN FISCAL YEAR 1988 DEFENSE FUNDS TRANSFER AUTHORIZATION

Section 1201 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1153) is amended—

(1) in subsection (a)—

(A) by inserting "of this Act or any prior defense authorization Act" in paragraph (1) before "for any fiscal year"; and

(B) by striking out "$2,000,000,000" in paragraph (2) and inserting in lieu thereof "$4,000,000,000"; and

(2) by striking out subsection (d) and inserting in lieu thereof the following:

"(d) SPECIFIED PURPOSES.—In determining the purposes for which the authority provided by subsection (a) will be used, the Secretary of Defense shall ensure that to the extent that the total dollar amount of transfers under such authority exceeds $2,000,000,000, an appropriate portion of that authority is used to transfer to military personnel accounts and operation and maintenance accounts of the Department of Defense for fiscal year 1988 (1) funds for depot maintenance activities in amounts sufficient to reduce service backlogs which would otherwise occur, (2) funds for pay of civilian personnel in amounts sufficient to reduce furloughs, reductions-in-force, or release of on-call employees into a nonpay status which would otherwise be required due to insufficient funding for civilian personnel of the Department of Defense for fiscal year 1988, and (3) funds for pay of military personnel.

"(e) NOTICE TO CONGRESS.—The Secretary of Defense shall submit to Congress notice of each transfer made under the authority of this section. After the total dollar amount of such transfers equals or exceeds $2,000,000,000, the notice required by the preceding sentence with respect to any transfer shall be submitted not less than 15 days before the transfer is made, and any such notice shall then include identification of specific actions that the Secretary is taking in order to ensure that the transfer is made in compliance with subsection (f).

"(f) CONTROL OF OUTLAYS.—In the case of any transfer under the authority of this section after the total dollar amount of such transfers equals or exceeds $2,000,000,000, the Secretary of Defense may carry out such transfer only to the extent that such transfer, and the expenditure of funds so transferred, do not result in an increase in outlays by the Department of Defense during fiscal year 1988.".

PART B—FISCAL YEAR 1988 UNAUTHORIZED APPROPRIATIONS

SEC. 1211. AUTHORITY FOR OBLIGATION OF CERTAIN UNAUTHORIZED FISCAL YEAR 1988 DEFENSE APPROPRIATIONS

(a) AUTHORITY.—The amounts described in subsection (b), totaling $10,624,600,000, may be obligated and expended for programs, projects, and activities of the Department of Defense in accordance with fiscal year 1988 defense appropriations except as otherwise provided in section 1212.

(b) COVERED AMOUNTS.—The amounts referred to in subsection (a) are the amounts provided for programs, projects, and activities of the Department of Defense in fiscal year 1988 defense appropriations that are in excess of the amounts provided for such programs, projects, and activities in fiscal year 1988 defense authorizations.

(c) DEFINITIONS.—For the purposes of this part:

(1) FISCAL YEAR 1988 DEFENSE APPROPRIATIONS.—The term "fiscal year 1988 defense appropriations" means amounts appropriated or otherwise made available to the Department of Defense for fiscal year 1988 in the Department of Defense Appropriations Act, 1988 (as contained in section 101(b) of Public Law 100-202).

(2) FISCAL YEAR 1988 DEFENSE AUTHORIZATIONS.—The term "fiscal year 1988 defense authorizations" means amounts authorized to be appropriated for the Department of Defense for fiscal year 1988 in the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180).

SEC. 1212. LIMITATION ON OBLIGATION FOR CERTAIN UNAUTHORIZED APPROPRIATIONS

(a) PROGRAMS NOT AVAILABLE FOR OBLIGATION.—Amounts described in section 1211(b) may not be obligated or expended for the following programs, projects, and activities of the Department of Defense (for which amounts were provided in fiscal year 1988 defense appropriations):

(1) Satellite Systems Survivability program under research, development, test, and evaluation for the Air Force in the amount of $5,300,000.

(2) Maxicube Cargo System under research, development, test, and evaluation for the Army in the amount of $10,000,000.

(3) Coastal Defense Augmentation in the amount of $20,000,000.

(4) Defense Meteorological Satellite program under research, development, test, and evaluation for the Navy in the amount of $40,000,000.

(5) P-3C aircraft under procurement of National Guard and Reserve equipment in the amount of $193,800,000.

(6) AN/SQR-17 Acoustic Processors for the Mobile Inshore Undersea Warfare group under procurement of National Guard and Reserve equipment in the amount of $10,000,000.

(b) LIMITATION ON CERTAIN PROGRAMS.—

(1) FORWARD AREA AIR DEFENSE HEAVY SYSTEM.—Funds appropriated or otherwise made available for the Army for procurement of missiles for fiscal year 1988 may not be obligated for advance procurement for the Forward Area Air Defense Line-of-Sight Forward-Heavy (LOS-F-H) system until—

(A) the Secretary of Defense certifies to the Committees on Armed Services of the Senate and House of Representatives that it is responsible to obligate funds for such purpose before operational testing of such system; and

(B) the Director of Operational Test and Evaluation of the Department of Defense certifies to those committees that he has approved the issues and criteria associated with the operational testing of such system.

(2) A-6 AIRCRAFT CONFIGURATION.—None of the funds appropriated for the procurement of aircraft for the Navy for fiscal year 1988 or 1989 may be obligated or expended for procurement of any A-6 aircraft configured in the F model configuration (as described in connection with the A-6E/A-6F aircraft program in the Selected Acquisition report submitted to Congress for the quarter ending December 31, 1986).

(3) TANK PROCUREMENT.—Funds appropriated for procurement of weapons and tracked combat vehicles for the Army for modification of M60 tanks in the amount of $90,000,000 may be used only for procurement or modification of M1 Abrams tanks, of which $30,000,000 shall be used for facilitization of Anniston Army Depot and initiation of the retrograde and modification programs for M1 tanks.

(c) PROGRAM LIMITATIONS.—All limitations and requirements set forth in division A of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180) shall apply to the obligation of funds authorized by section 1211(a) in the same manner as if the funds made available for obligation by such section had been authorized in that Act.

(d) TRANSFER AUTHORITY.—For the purposes of section 1201 of the National Defense Authorization Act for Fiscal Years 1988 and 1989, authorizations in section 1211(a) shall be deemed to have been made available to the Department of Defense in such Act.

(e) For purposes of section 1201 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1153), the amount of $279,100,000 (the sum of the amounts described in subsection (a) of this section) shall be deemed to have been authorized by such Act in equal amounts for the Army, Navy, and Air Force for the following purposes:

(1) Depot maintenance activities in amounts sufficient to reduce service backlogs which would otherwise occur.

(2) Pay of civilian personnel in amounts sufficient to reduce furloughs, reductions-in-force, or release of on-call employees into a nonpay status which would otherwise be required due to insufficient funding for civilian personnel of the Department of Defense for fiscal year 1988.

(3) Pay of military personnel in amounts sufficient to provide necessary costs of maintaining authorized end strengths.

SEC. 1213. REPEAL OF CERTAIN APPROPRIATIONS GENERAL PROVISIONS

Sections 8040, 8098, and 8122 of the Department of Defense Appropriations Act, 1988 (as contained in section 101(b) of Public Law 100-202), are repealed.

PART C—NAVAL VESSELS AND SHIPYARDS

SEC. 1221. NAMING OF TRIDENT SUBMARINE THE U.S.S. MELVIN PRICE

(a) FINDINGS.—The Congress finds that—

(1) the late Honorable Melvin Price served the people of the United States and the 21st Congressional District of Illinois as a

Member of the House of Representatives for 44 consecutive years with loyalty, dedication, and warm personal friendship until his death on April 22, 1988;

(2) Melvin Price served as a member of the Committee on Armed Services of the House of Representatives for 40 years and did so with total dedication to the goal of maintaining a strong national defense;

(3) in 1964, Melvin Price became the first chairman of the Research and Development Subcommittee of the Committee on Armed Services of the House of Representatives, and in 1975 became the first military veteran to serve as chairman of that committee, a position he held for 10 years;

(4) Melvin Price was a member of the Joint Committee on Atomic Energy from its establishment in 1946 until 1977 and served as the first chairman of that committee;

(5) Melvin Price played a major role in successfully advocating the peaceful use of nuclear energy and the military application of nuclear power for Navy ships and submarines; and

(6) Melvin Price has left an indelible mark on the history of the Nation as a result of his 44 years of unselfish efforts to maintain the strength and readiness of the Armed Forces.

(b) SENSE OF CONGRESS.—In light of the findings expressed in subsection (a), it is the sense of Congress that the Secretary of the Navy should name the next Trident ballistic missile submarine to be named after the enactment of this Act the U.S.S. Melvin Price.

SEC. 1222. NAMING A NAVY SHIP THE U.S.S. BOB HOPE

(a) FINDINGS.—The Congress finds that—

(1) Bob Hope has unselfishly dedicated his time and efforts for over 50 years to the morale and welfare of the men and women of the Armed Forces;

(2) Bob Hope has served his Nation in three wars by entertaining members of the Armed Forces aboard ships at sea and in combat zones ashore;

(3) Bob Hope has during peacetime entertained the men and women of the Armed Forces in all regions of the world and at every season of the year;

(4) Bob Hope has placed his own safety and convenience second to that of improving the morale of the members of the Armed Forces; and

(5) Bob Hope has earned the undying respect and fond esteem of all of his countrymen for his dedicated and patriotic endeavors.

(b) SENSE OF CONGRESS.—In light of the findings expressed in subsection (a), it is the sense of Congress that the Secretary of the Navy should name an appropriate ship of the United States Navy the U.S.S. Bob Hope.

SEC. 1223. RATE OF PROGRESS PAYMENTS ON NAVAL SHIP REPAIR CONTRACTS

Section 7312(a) of title 10, United States Code, is amended by inserting "not less than" after "shall be".

SEC. 1224. LIMITATION ON REPAIR OF NAVAL VESSELS IN FOREIGN SHIPYARDS

(a) IN GENERAL.—Section 7309 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c)(1) A naval vessel (or any other vessel under the jurisdiction of the Secretary of the Navy) the homeport of which is in the United States may not be overhauled, repaired, or maintained in a shipyard outside the United States.

"(2) Paragraph (1) does not apply in the case of voyage repairs.".

(b) CLERICAL AMENDMENTS.—(1) The heading of that section is amended to read as follows:

"§ 7309. Restrictions on construction or repair of vessels in foreign shipyards".

(2) The item relating to such section in the table of sections at the beginning of chapter 633 of such title is amended to read as follows:

"7309. Restrictions on construction or repair of vessels in foreign shipyards.".

(c) EFFECTIVE DATE.—Subsection (c) of section 7309 of title 10, United States Code, as added by subsection (a), shall apply with respect to any contract for overhaul, repair, or maintenance of a vessel that is entered into after the end of the 30-day period beginning on the date of the enactment of this Act.

SEC. 1225. COMPETITION BETWEEN PUBLIC AND PRIVATE SHIPYARDS FOR OVERHAUL OF NAVAL VESSELS

(a) IN GENERAL.—(1) Chapter 633 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 7313. Overhaul of naval vessels: competition between public and private shipyards

"The Secretary of the Navy should ensure, in any case in which the Secretary awards a project for repair, alteration, overhaul, or conversion of a naval vessel following competition between public and private shipyards, that each of the following criteria is met:

"(1) The bid of any public shipyard for the award includes—

"(A) the full costs to the United States associated with future retirement benefits of civilian employees of that shipyard consistent with computation methodology established by Office of Management and Budget Circular A-76; and

"(B) in a case in which equal access to the Navy supply system is not allowed to public and private shipyards, a pro rata share of the costs of the Navy supply system.

"(2) Costs applicable to oversight of the contract by the appropriate Navy supervisor of shipbuilding, conversion, and repair are added to the bid of any private shipyard for the purpose of comparability analysis.

"(3) The award is made using the results of the comparability analysis.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"7313. Overhaul of naval vessels: competition between public and private shipyards.".

(b) EFFECTIVE DATE.—Section 7313 of title 10, United States Code, as added by subsection (a), applies to any award by the Secretary of the Navy made after the end of the 30-day period beginning on the date of the enactment of this Act for repair, alteration, overhaul, or conversion of a naval vessel following competition between public and private shipyards.

SEC. 1226. DEPOT-LEVEL MAINTENANCE OF SHIPS

(a) REQUIREMENT THAT CERTAIN WORK BE CARRIED OUT IN THE UNITED STATES.—The Secretary of the Navy shall require that, to the extent feasible and consistent with policies of the Navy regarding family separations, not less than one-half of the depot-level maintenance work described in subsection (b) (measured in cost) shall be carried out in the United States.

(b) WORK COVERED.—Depot-level maintenance work referred to in subsection (a) is depot-level maintenance work for naval vessels that is scheduled as of October 1, 1988, to be carried out in Japan during fiscal years 1989, 1990, and 1991.

SEC. 1227. REPORTS ON EFFECTS OF NAVAL SHIPBUILDING PLANS ON MARITIME INDUSTRIES

(a) ANNUAL REPORT.—The Secretary of Defense shall submit to Congress in 1989, 1990, and 1991 a report on how, under the current Five-Year Defense Program of the Department of Defense, programs for naval shipbuilding and conversion, for naval vessel repair, and for procurement of support equipment for naval vessels could be expected to affect the private-sector shipbuilding and ship repair industries of the United States in terms of the effectiveness and preparedness of those industries for mobilization in their role in the sealift component of the conventional deterrent of the United States.

(b) TIME FOR SUBMISSION.—The report under subsection (a) for any year shall be submitted to Congress at the same time that the Secretary submits his annual report to Congress for that year under section 113(c) of title 10, United States Code.

SEC. 1228. REPORT ON ENCOURAGEMENT OF CONSTRUCTION IN UNITED STATES SHIPYARDS OF COMBATANT VESSELS FOR ALLIES

(a) REPORT REQUIREMENT.—The Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on—

(1) the manner in which the Secretary has complied, as of the date of the report, with the provisions of section 1455 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 761); and

(2) plans of the Secretary for such compliance in the future.

(b) MATTERS TO BE INCLUDED.—The report shall include information regarding the following:

(1) Instances in which the Secretary has encouraged United States shipyards to construct combatant vessels for nations friendly to the United States.

(2) Steps taken by the Secretary to ensure that no effort has been made by any element of the Department of the Navy to inhibit, delay, or halt the provision of any United States naval system which has been approved for export to an allied nation.

(3) Instances in which the Secretary has encouraged United States firms to participate in construction programs outside of the United States in shipyards of allied nations.

(4) Future plans of the Secretary for complying with the requirements of each of subsections (a)(1) through (a)(3) of that section.

(c) SUBMISSION OF REPORT.—The report required by subsection (a) shall be submitted not later than 90 days after the date of the enactment of this Act.

SEC. 1229. REPORT ON SMALL PATROL BOATS OF NAVY

(a) REPORT REQUIREMENT.—The Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report regarding the capability of the Navy to carry out missions requiring the use of small patrol boats. The Secretary shall include in the report—

(1) a discussion of the contingencies that would require the use of small patrol boats rather than larger warships;

(2) an evaluation of the existing capability of the Navy to carry out missions requiring the use of small patrol boats;

(3) a discussion of any plans the Navy has for eliminating the Navy's shortage of such boats; and

(4) such recommendations as the Secretary considers appropriate to strengthen the capabilities of the Navy to carry out effective-

ly missions that would require the use of such boats.

(b) Small Patrol Boat Defined.—For purposes of this section, a small patrol boat is a patrol boat that is less than 150 feet in length.

(c) Deadline for Submission of Report.—The report required by subsection (a) shall be submitted not later than 90 days after the date of the enactment of this Act.

Part D—Miscellaneous

SEC. 1231. REPORT ON SUSCEPTIBILITY OF DEFENSE COMPUTER ASSETS TO COMPUTER VIRUSES

The Secretary of Defense shall submit to Congress a report on the susceptibility of vital Department of Defense computer systems to so-called computer viruses and shall describe the steps which have been taken and are planned to be taken to protect the Department of Defense computer systems and records against computer viruses. Such report shall be submitted not later than March 1, 1989, in classified and unclassified form.

SEC. 1232. REASSESSMENT OF SOVIET ELECTRONIC ESPIONAGE CAPABILITY FROM MOUNT ALTO EMBASSY SITE

(a) Finding.—The Congress finds that the report submitted by the Secretary of Defense pursuant to section 1122 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180)—

(1) contains insufficient detail (even in the classified portion) for a review and assessment of the present and potential capabilities of the Government of the Soviet Union to intercept United States communications involving diplomatic, military, and intelligence matters from facilities on Mount Alto in the District of Columbia, as required by subsection (a) of that section; and

(2) does not contain a determination of the Secretary of Defense as to whether or not the present and proposed occupation of facilities on Mount Alto by the Soviet Union is consistent with the national security of the United States, as required by subsection (b) of that section.

(b) Submission of New Report.—Not later than 60 days after the date of the enactment of this Act, the President shall submit a report to Congress which meets the requirements of section 1122 of the National Defense Authorization Act for Fiscal Years 1988 and 1989.

SEC. 1233. TECHNICAL AND CLERICAL AMENDMENTS.

(a) Repeal of Obsolete Reference.—Section 1552 of title 10, United States Code, is amended—

(1) in subsection (b), by striking out "therefor before October 26, 1961, or within three years after he discovers the error or injustice, whichever is later" and inserting in lieu thereof "for the correction within three years after he discovers the error or injustice"; and

(2) in subsection (c), by striking out "The department concerned" and inserting in lieu thereof "The Secretary concerned".

(b) Date of Enactment References.—(1) Section 305a(d)(2) of title 37, United States Code, is amended by striking out "on or after the effective date specified in section 621(e)(1) of the National Defense Authorization Act for Fiscal Year 1988" and inserting in lieu thererof "after December 31, 1988,".

(2) Section 3(c)(1) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b(c)(1)) is amended by striking out "the date of the enactment of the National Defense Stockpile Amendments of 1987" and inserting in lieu thereof "December 4, 1987".

(c) Correction of Misspelled Word.—The table in section 1406(b) of title 10, United States Code, is amended by striking out "satisfactory" in the matter in the second column relating to section 1331 and inserting in lieu thereof "satisfactorily".

(d) Repeal of Surplus Word.—Section 2343(b) of title 10, United States Code, is amended by striking out "section" before "2306a".

(e) Punctuation Corrections.—(1) Section 1101(c) of title 10, United States Code, is amended by striking out "(1)" after "Regulations.—".

(2) Paragraph (3) of section 7430(b) of such title is amended—

(A) by aligning the paragraph flush to the margin; and

(B) by striking out the comma at the end and inserting in lieu thereof a period.

(f) Capitalization Corrections.—(1) Section 801(1) of title 10, United States Code, is amended by striking out "judge" and inserting in lieu thereof "Judge".

(2) Section 101(5) of title 37, United States Code, is amended by striking out "secretary" and inserting in lieu thereof "Secretary".

(g) Cross-Reference Amendments.—(1) Section 401(c)(2) of title 10, United States Code, is amended by striking out "subsection (a)" and inserting in lieu thereof "paragraph (1)".

(2) Section 2133(b)(1) of title 10, United States Code, is amended by striking out "section 1431(e)" and inserting in lieu thereof "section 1431(f)".

(3) Section 7427 of title 10, United States Code, is amended by striking out "section 17(j)" and "30 U.S.C. 226(j)" and inserting in lieu thereof "section 17(m)" and "30 U.S.C. 226(m)", respectively.

(4) Section 1013 of title 37, United States Code, is amended by striking out "section 1051" and inserting in lieu thereof "section 1032".

(h) Repeal of Expired Reporting Requirement.—Section 179 of title 10, United States Code, is amended by striking out subsection (e).

(i) Section Headings.—(1)(A) The heading of section 3965 of title 10, United States Code, is amended to read as follows:

"§ 3965. Restoration to former grade: retired warrant officers and enlisted members".

(B) The item relating to that section in the table of sections at the beginning of chapter 369 of such title is amended to read as follows:

"3965. Restoration to former grade: retired warrant officers and enlisted members.".

(2)(A) The heading of section 8965 of title 10, United States Code, is amended to read as follows:

"§ 8965. Restoration to former grade: retired warrant officers and enlisted members".

(B) The item relating to that section in the table of sections at the beginning of chapter 869 of such title is amended to read as follows:

"8965. Restoration to former grade: retired warrant officers and enlisted members.".

(j) Subsection Heading.—Section 2329(d) of title 10, United States Code, is amended by inserting after "(d)" the following: "Treatment of Certain Costs as Direct Costs.—".

(k) Definitions.—(1) Section 2141(c) of title 10, United States Code, is amended by inserting "the term" after "In this chapter,".

(2) Section 9511(1) of such title is amended by striking out "The term" and inserting in lieu thereof "The terms".

(l) Amendments to Public Law 100-180.—(1) Section 623(a) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1101) is amended by inserting "in paragraphs (1) and (2)" before "and inserting".

(2) Section 717(c) of such Act (101 Stat. 1114) is amended by striking out "on" in the quoted matter in paragraph (2) and inserting in lieu thereof "upon".

(3) Paragraph (1) of section 802(a) of such Act (101 Stat. 1123) is amended by inserting end quotation marks and a period after "section." at the end.

(4) Section 803(a) of such Act (101 Stat. 1125) is amended by inserting "the first place it appears" before "and inserting".

(5) The amendments made by this subsection shall apply as if included in the enactment of Public Law 100-180.

SEC. 1234. REFERENCES TO THE CANAL ZONE.

(a) Title 10.—Title 10, United States Code, is amended as follows:

(1) Sections 101(3), 101(10), 101(12), 269(g), 281, 594(b), 672(d), 771a(c), 802(a)(11), 802(a)(12), 936(a), 1002(c), 3040(a), 3218, 3225, 3259, 3352(a), 3363(b), 3390(a), 3392, 3500 (first sentence), 3501(a), 3501(b), 3845, 3848(c)(1), 3851(a), 3851(d)(1), 3852(a), 4301(c), 8218, 8225, 8259, 8352(a), 8360(b), 8363(a), 8381(a), 8392, 8500 (first sentence), 8501(a), 8501(b), 8845, 8851(a), 8852(a), and 9301(c) are each amended by striking out "the Canal Zone," each place it appears.

(2) Sections 270(c) and 672(b) are each amended by striking out ", Puerto Rico, or the Canal Zone," and inserting in lieu thereof "or Puerto Rico".

(3) Sections 312(a)(2), 3500, and 8500 are each amended by striking out "Puerto Rico, and the Canal Zone" and inserting in lieu thereof "and Puerto Rico".

(4) Sections 3364(g) and 3364(j) are each amended by striking out ", Puerto Rico, the Canal Zone," and inserting in lieu thereof "or Puerto Rico".

(5) Section 3370(d) is amended by striking out "Puerto Rico, the Canal Zone" and inserting in lieu thereof "or Puerto Rico".

(6) Section 7308(a)(2) is amended by striking out "or the Canal Zone".

(b) Title 32.—Title 32, United States Code, is amended as follows:

(1) Sections 101(4), 101(6), 103, 104(c), 104(d), 107(b), 109, 304, 314(a), 314(d), 315(a), 315(b), 333, 501(b), 503(b), 504(b), 702(b), 702(c), 702(d), 703, 704, 708(d), 710, 711, and 712 are each amended by striking "the Canal Zone,".

(2) Section 104(a) is amended by striking out "Each State and Territory, Puerto Rico, and the Canal Zone" and inserting in lieu thereof "Each State or Territory and Puerto Rico".

(3) Section 331 is amended by striking out "the governor of the State or Territory, Puerto Rico, or the Canal Zone," and inserting in lieu thereof "the Governor of the State or territory or Puerto Rico,".

(4) Sections 327(a), 505(a), and 702(a) are each amended by striking out "Territory, Puerto Rico, or the Canal Zone," and inserting in lieu thereof "Territory or Puerto Rico".

(5) Section 314(b) is amended—

(A) by striking out ", the Canal Zone," in the first sentence; and

(B) by striking out "or the Canal Zone" in the second sentence.

(6) Sections 324(b) and 325(a) are each amended by striking out ", the Canal Zone,".

TITLE XIII—FOREIGN RELATIONS MATTERS

SEC. 1301. SENSE OF CONGRESS CONCERNING THE PANAMA CANAL AND THE UNITED STATES SOUTHERN COMMAND

(a) FINDINGS.—The Congress finds that—

(1) the security of, and the free flow of shipping through, the Panama Canal are vital interests of the United States; and

(2) the continued ability of the United States Southern Command (which currently has its headquarters in the Republic of Panama) to carry out assigned missions, especially the mission of defense of the Panama Canal, is essential to protecting and promoting the interests of the United States.

(b) SENSE OF CONGRESS.—In light of the findings in subsection (a), it is the sense of Congress that the President should take all steps necessary to ensure the continued ability of the United States Southern Command (or any successor command) to carry out assigned missions, especially the mission of defense of the Panama Canal.

SEC. 1302. LIMITATION ON ASSISTANCE TO PANAMANIAN DEFENSE FORCE

(a) LIMITATION.—The President may not use any funds appropriated to or for the use of any department, agency, or other entity of the United States for the purpose of providing assistance to the Panamanian Defense Force. The limitation in the preceding sentence shall cease to apply upon the submission by the President to Congress of a certification by the President—

(1) that no armed forces of the Soviet Union, the Republic of Cuba, or the Republic of Nicaragua are present in the Republic of Panama (other than military attachés accredited to the Republic of Panama); and

(2) that General Manuel Noriega has relinquished command of the Panamanian Defense Force and no longer holds any official position of leadership (either military or civilian) in the Republic of Panama.

(b) CLARIFICATION.—Subsection (a) does not prohibit the President from obligating or expending any funds necessary for—

(1) the defense of the Panama Canal,

(2) the collection of intelligence,

(3) the maintenance of United States Armed Forces in the Republic of Panama, or

(4) the protection of United States interests in the Republic of Panama.

(c) REPORT.—Not later than 30 days after the date of the enactment of this Act, the President shall submit to Congress a detailed report, in both classified and unclassified form, indicating—

(1) whether (and to what extent) military, paramilitary, or intelligence personnel of the Soviet Union, Cuba, or Nicaragua are present in the Republic of Panama; and

(2) whether (and to what extent) the Panamanian Defense Force has coordinated with, cooperated with, supported, or received support from, any such personnel.

SEC. 1303. SENSE OF CONGRESS CONCERNING INDICTMENT OF GENERAL NORIEGA OF PANAMA ON DRUG-RELATED CHARGES

(a) FINDINGS.—The Congress finds that—

(1) General Manuel Noriega, the commander of the Panamanian Defense Force, was indicted on February 5, 1988, in the United States District Courts for the Southern District and for the Middle District of Florida on a number of serious drug-related charges against the laws of the United States, including charges involving trafficking in illegal drugs, protecting and supporting drug traffickers, and laundering of drug-related money; and

(2) there have been reports in the news media and from other sources that discussions between officials of the United States and General Noriega may have occurred concerning arrangements under which General Noriega would give up political power and leave the Republic of Panama in exchange for which the United States would file a motion to dismiss the indictments referred to in paragraph (1).

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the United States should not conduct or authorize any negotiations or discussions, and should not make any arrangements, with General Manuel Noriega which would involve any effort by the United States to dismiss the indictments referred to in subsection (a)(1); and

(2) that any such negotiation, discussion, or arrangement—

(A) would be incompatible with the high priority that the United States places on the war on drugs;

(B) would not further the prospects for restoring noncorrupt, democratic government to the Republic of Panama; and

(C) would not serve the interests of the United States.

SEC. 1304. SENSE OF CONGRESS ON INTRODUCTION OF ARMED FORCES INTO NICARAGUA FOR COMBAT

Congress hereby reaffirms the sense of Congress expressed in the first session of the 99th Congress (in section 1451 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 760)), that United States Armed Forces should not be introduced into or over Nicaragua for combat. However, nothing in this section shall be construed as affecting the authority and responsibility of the President or Congress under the Constitution, statutes, or treaties of the United States in force.

SEC. 1305. HUMAN RIGHTS VIOLATIONS BY THE GOVERNMENT OF POLAND

(a) FINDINGS.—Congress makes the following findings:

(1) The government of Poland, headed by General Wojciech Jaruzelski, has violated internationally recognized human rights of the people of Poland, including the right to peaceably assemble, the right to strike, the right to freely associate, and the right to due process.

(2) The Jaruzelski government has retaliated against the justified, peaceful protests of workers at Nowa Huta, Poland, through the use of violence and force.

(3) The Jaruzelski government has prosecuted and imprisoned a number of persons for politically related offenses.

(4) The Jaruzelski government has to date refused to take steps which would guarantee the right of the people of Poland to participate in the management of the economy of Poland and has refused to accept the principle of pluralism in the national life of Poland.

(b) SENSE OF CONGRESS.—It is, therefore, the sense of Congress—

(1) that the use of force against the workers of Nowa Huta and intimidation against other strikers in Poland should be condemned; and

(2) that improvement in relations between the United States and Poland must be predicated on an improvement in internationally recognized human rights in Poland, including the release of political prisoners, steps toward trade union pluralism and the rights of independent trade unions to organize, and steps toward genuine national reconciliation and dialogue.

SEC. 1306. CONDITIONS FOR SALE OR OTHER TRANSFER OF F-15 AIRCRAFT TO SAUDI ARABIA

(a) Notwithstanding any other provision of law, any sale or other transfer to Saudi Arabia by the United States of F-15 aircraft shall be subject to the following conditions:

(1) Any such F-15 aircraft sold or otherwise transferred to Saudi Arabia shall be limited to models A, B, C, and D.

(2) The United States shall not sell or otherwise transfer to Saudi Arabia the F-15-E with a ground attack capability and shall not upgrade existing Saudi aircraft to that capability.

(3) Saudi Arabia shall not possess more than 60 F-15 aircraft at any time, except that additional replacement F-15 aircraft may be held in the United States, at the expense of Saudi Arabia, for shipment to Saudi Arabia only after the President notifies Congress that the existing inventory of F-15 aircraft held by Saudi Arabia is less than 60 and, then, only on a one-for-one replacement basis as each F-15 aircraft is totally removed from the inventory of Saudi Arabia.

(b) The President may waive subsection (a) if the President certifies to Congress that such action is in the national interest.

SEC. 1307. RESTRICTION ON SALE OF DEFENSE ARTICLES TO CERTAIN NATIONS

(a) RESTRICTION.—During fiscal year 1989, the United States may not make any sale of defense articles subject to section 36(b) of the Arms Export Control Act (22 U.S.C. 2776(b)) to any nation which has acquired intermediate-range ballistic missiles made by the People's Republic of China.

(b) PRESIDENTIAL CERTIFICATION.—(1) The restriction in subsection (a) shall cease to apply with respect to any nation which has acquired such missiles upon certification by the President to Congress that that nation does not have chemical, biological, or nuclear warheads for those missiles.

(2) If the President makes a certification under paragraph (1) in the case of any nation, the President shall notify Congress promptly of any evidence that, after the date of such certification, such nation has acquired chemical, biological, or nuclear warheads for those missiles.

SEC. 1308. UNITED STATES BASES IN THE REPUBLIC OF THE PHILIPPINES

(a) CONGRESSIONAL FINDINGS.—Congress makes the following findings:

(1) The United States has maintained military bases in the Philippines since 1947 pursuant to the United States-Philippine Military Bases Agreement and maintained military bases in the Philippines for many years before that under other arrangements.

(2) Clark Air Force Base, Subic Bay Naval Base, and the other United States military installations in the Philippines significantly promote the mutual interests of the United States and the Philippines and contribute to regional and global security.

(3) These installations are also important to the development of democratic institutions and to economic progress in the Western Pacific and Southeast Asia.

(4) The United States military installations in the Philippines employ a loyal and highly skilled cadre of Filipinos and make a substantial contribution to the Philippine economy.

(5) The Military Bases Agreement as currently in effect has a fixed term lasting until September 16, 1991, after which it continues in effect subject to termination by either party on one year's notice.

(6) Pursuant to a 1979 amendment to that agreement, the President of the United States pledged to the Government of the Republic of the Philippines to undertake "best efforts" to obtain security assistance for the Philippines, and such pledge was reiterated by the President of the United States in 1983 as part of a five-year review of the agreement.

(7) The United States and the Republic of the Philippines are currently engaged in a second five-year review of the Military Bases Agreement.

(8) Officials of the Government of the Republic of the Philippines have indicated to officials of the United States that the United States should significantly increase compensation for the use by the United States of military bases in the Philippines.

(9) The provision of multilateral economic assistance to the Republic of the Philippines should be considered separately from the provision of security assistance by the United States to the Republic of the Philippines in return for United States basing rights in the Philippines.

(b) REPORT ON FACILITIES.—(1) The Secretary of Defense shall submit to Congress a report on the existing United States military facilities in the Republic of the Philippines. The report shall include analysis of the following:

(A) The costs and benefits of maintaining those facilities, including the costs to the United States of the operation and maintenance of those facilities and any other costs associated with those facilities and the economic and social benefits and other benefits of those facilities to the Republic of the Philippines.

(B) Potential alternative locations for those facilities.

(C) The strategic value to the United States of having military facilities located in the Philippines and of having such facilities at the potential alternative locations considered.

(D) The costs and benefits of relocating those facilities to the potential alternative locations, including—

(i) the cost to the United States of operation and maintenance and other costs,

(ii) the economic, social, and other costs to the Philippines, and

(iii) the economic, social, and other benefits to the government and community at each alternative location.

(E) The availability of skilled indigenous personnel at the potential alternative locations and the cost of training such personnel to work at such installations.

(2) The report shall be prepared in consultation with the Secretary of State and shall be submitted to Congress not later than six months after the date of the enactment of this Act.

SEC. 1309. ANNUAL ASSESSMENT OF SECURITY AT UNITED STATES BASES IN THE PHILIPPINES

The Secretary of Defense shall submit to Congress an annual report assessing security at United States military facilities in the Republic of the Philippines. Each such report shall include an assessment of the cooperation provided by the Philippine Government, at both the national and local level, in improving such security. The report required by this subsection shall be submitted to Congress not later than May 1 each year.

SEC. 1310. ECONOMIC SANCTIONS AGAINST ETHIOPIA

(a) STATEMENTS OF POLICY.—The Congress—

(1) condemns the Government of Ethiopia for its blatant disregard for human life as demonstrated by its use of food as a weapon, its forced resettlement program, and its human rights record;

(2) in the strongest terms possible, urges the Government of Ethiopia to allow foreign relief personnel to return to the north and to allow the international relief campaign to resume operations at its own risk, while retaining full control over its assets and having access to adequate aircraft and fuel;

(3) in the strongest terms possible, urges rebel groups to cease attacks upon relief vehicles and relief distribution points and to respect the impartiality of the international relief campaign;

(4) urges the President and the Secretary of State (through direct representations to the Government of Ethiopia and certain rebel groups and through sustained multilateral initiatives involving other Western donors, the United Nations, and the Organization of African Unity) to focus world pressure and opinion upon the combatants in northern Ethiopia, to press for an "open roads/own risk" policy that will facilitate the resumption of international relief efforts in the north, to press the Government of Ethiopia and the rebel groups to reach a pragmatic, enduring political settlement, and to press the Government of Ethiopia to implement genuine and effective reform of its failed agricultural policies; and

(5) urges the President and the Secretary of State to engage in direct discussion with the Soviet Union in order that the peaceful resolution of the crisis in northern Ethiopia becomes a high priority of the Soviet Union and that the approach of the Soviet Union is consistent with that of the West.

(b) SANCTIONS.—(1) Notwithstanding any other provision of law, the President is authorized to, and is hereby strongly urged to, impose such economic sanctions upon Ethiopia as the President determines to be appropriate (subject to paragraphs (2) and (3)) if, at any time after the date of the enactment of this Act, the Government of Ethiopia engages in any of the following outrages:

(A) Forced resettlement.

(B) Forced confinement in any resettlement camp.

(C) Diversion of international relief to the military.

(D) Denial of international relief to any persons at risk because of famine.

(E) Seizure of international relief assets provided by the United States.

(F) Prohibition of end-use monitoring of food distribution by international relief personnel.

(2) In imposing sanctions pursuant to paragraph (1) on imports from Ethiopia, the President shall give priority consideration to those products which constitute major imports from Ethiopia, unless the President determines that sanctions against such products would have an adverse effect on economic interests of the United States.

(3) If a sanction imposed pursuant to paragraph (1) involves the prohibition or curtailment of exports to Ethiopia, that sanction may only be imposed under the authority and subject to the requirements of section 6 of the Export Administration Act of 1979.

(c) REPORTS TO CONGRESS.—Not more than 15 days after the date of the enactment of this Act and at the end of each 90-day period thereafter, the President shall submit to Congress a report stating whether or not, during the 90-day period preceding the date of the report, the Government of Ethiopia engaged in any conduct described in subsection (b). Each such report shall describe the response of the United States to any such conduct.

(d) REGULATION AUTHORITY.—The President shall issue such regulations, licenses, and orders as are necessary to implement any sanction imposed under this section.

(e) EXPIRATION.—The authority provided by subsection (b) shall expire on June 1, 1990.

TITLE XIV—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

SEC. 1401. OPERATING EXPENSES

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1989 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For weapons activities, $3,567,629,000, to be allocated as follows:

(A) For research and development, $1,052,546,000.

(B) For weapons testing, $524,238,000.

(C) For production and surveillance, $1,909,445,000.

(D) For program direction, $81,400,000.

(2) For defense nuclear materials production, $1,556,772,000 to be allocated as follows:

(A) For uranium enrichment for naval reactors, $169,000,000.

(B) For production reactor operations, $587,976,000.

(C) For processing of defense nuclear materials, including naval reactors fuel, $511,717,000, of which $72,300,000 shall be used for special isotope separation.

(D) For supporting services, $259,679,000.

(E) For program direction, $28,400,000.

(3) For environmental restoration and management of defense waste and transportation, $739,624,000, to be allocated as follows:

(A) For environmental restoration, $170,925,000. Such funds may also be used for plant and capital equipment.

(B) For waste operation and projects, $532,042,000.

(C) For waste research and development, $58,460,000.

(D) For hazardous waste process planning, $8,377,000.

(E) For transportation management, $9,720,000.

(F) For program direction, $3,100,000.

(4) For verification and control technology, $146,200,000.

(5) For nuclear materials safeguards and security technology development program, $75,400,000.

(6) For security investigations, $40,000,000.

(7) For naval reactors development, $555,400,000.

SEC. 1402. PLANT AND CAPITAL EQUIPMENT

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1989 for plant and capital equipment (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 89-D-101, general plant projects, various locations, $26,500,000.

Project 89-D-121, general plant projects, various locations, $29,194,000.

Project 89-D-122, production waste storage facilities, Y-12 Plant, Oak Ridge, Tennessee, $2,000,000.

Project 89-D-125, plutonium recovery modification project, Rocky Flats Plant, Golden, Colorado, $4,000,000.

Project 89-D-126, environmental, safety, and health upgrade, Phase II, Mound Plant, Miamisburg, Ohio, $800,000.

Project 88-D-102, sanitary wastewater systems consolidation, Los Alamos National Laboratory, Los Alamos, New Mexico, $7,600,000.

Project 88-D-103, seismic upgrade, Building 111, Lawrence Livermore National Laboratory, Livermore, California, $5,400,000.

Project 88-D-104, safeguards and security upgrade, Phase II, Los Alamos National Laboratory, Los Alamos, New Mexico, $7,300,000.

Project 88-D-105, special nuclear materials research and development laboratory replacement, Los Alamos National Laboratory, Los Alamos, New Mexico, $22,000,000.

Project 88-D-106, nuclear weapons research, development, and testing facilities revitalization, Phase II, various locations, $72,352,000.

Project 88-D-122, facilities capability assurance program, various locations, $79,341,000.

Project 88-D-123, security enhancements, Pantex Plant, Amarillo, Texas, $7,500,000.

Project 88-D-124, fire protection upgrade, various locations, $6,500,000.

Project 88-D-125, high explosive machining facility, Pantex Plant, Amarillo, Texas, $13,000,000.

Project 88-D-126, personnel radiological monitoring laboratories, various locations, $5,000,000.

Project 87-D-104, safeguards and security enhancement, Phase II, Lawrence Livermore National Laboratory, Livermore, California, $8,500,000.

Project 87-D-122, short-range attack missile II (SRAM II) warhead production facilities, various locations, $26,000,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $12,000,000.

Project 86-D-104, strategic defenses facility, Sandia National Laboratories, Albuquerque, New Mexico, $3,237,000.

Project 86-D-123, environmental hazards elimination, various locations, $5,203,000.

Project 86-D-130, tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $31,800,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, Phase I, various locations, $6,800,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Nevada, $12,200,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $1,281,000.

Project 84-D-124, environmental improvements, Y-12 Plant, Oak Ridge, Tennessee, $4,775,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $2,775,000.

(2) For materials production:

Project 89-D-140, additional separations safeguards, Savannah River, South Carolina, $5,300,000.

Project 89-D-141, M-area waste disposal, Savannah River, South Carolina, $3,600,000.

Project 89-D-142, reactor effluent cooling water thermal mitigation, Savannah River, South Carolina, $1,000,000.

Project 89-D-146, general plant projects, various locations, $35,260,000.

Project 89-D-148, improved reactor confinement system, design only, Savannah River, South Carolina, $2,000,000.

Project 88-D-153, additional reactor safeguards, Savannah River, South Carolina, $5,700,000.

Project 88-D-154, new production reactor, design only, site to be determined, $35,000,000.

Project 87-D-152, environmental protection plantwide, Savannah River, South Carolina, $2,224,000.

Project 87-D-159, environmental, health, and safety improvements, Phases I, II, and III, Feed Materials Production Center, Fernald, Ohio, $50,000,000.

Project 86-D-148, special isotope separation project, Idaho Falls, Idaho, $28,000,000.

Project 86-D-149, productivity retention program, Phases I, II, III, and IV, various locations, $72,140,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $6,000,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $12,800,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory, Idaho, $65,000,000.

Project 84-D-134, safeguards and security improvements, plantwide, Savannah River, South Carolina, $11,584,000.

Project 82-D-124, restoration of production capabilities, Phases II, III, IV, and V, various locations, $5,879,000.

(3) For defense waste and environmental restoration:

Project 89-D-170, general plant projects, waste operations and projects, and waste research and development, various locations, $28,000,000.

Project 89-D-171, Idaho National Engineering Laboratory road renovation, Idaho, $4,000,000.

Project 89-D-172, Hanford environmental compliance, Richland, Washington, $12,000,000.

Project 89-D-173, tank farm ventilation upgrade, Richland, Washington, $1,800,000.

Project 89-D-174, replacement high level waste evaporator, Savannah River, South Carolina, $3,520,000.

Project 89-D-175, hazardous waste/mixed waste disposal facility, Savannah River, South Carolina, $3,500,000.

Project 88-D-173, Hanford waste vitrification plant, Richland, Washington, $22,500,000.

Project 87-D-173, 242-A evaporator crystallizer upgrade, Richland, Washington, $1,944,000.

Project 87-D-177, test reactor area liquid radioactive waste cleanup system, Phase III, Idaho National Engineering Laboratory, Idaho, $911,000.

Project 87-D-180, burial ground expansion, Savannah River, South Carolina, $2,068,000.

Project 87-D-181, diversion box and pump pit containment buildings, Savannah River, South Carolina, $6,371,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho, $2,084,000.

Project 83-D-148, nonradioactive hazardous waste management, Savannah River, South Carolina, $13,000,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $92,462,000.

(4) For naval reactors development:

Project 89-N-101, general plant projects, various locations, $7,000,000.

Project 89-N-102, heat transfer test facility, Knolls Atomic Power Laboratory, Niskayuna, New York, $2,800,000.

Project 89-N-103, advanced test reactor modifications, Test Reactor Area, Idaho National Engineering Laboratory, Idaho, $1,600,000.

Project 89-N-104, power system upgrade, Naval Reactors Facility, Idaho, $600,000.

Project 88-N-102, expended core facility receiving station, Naval Reactors Facility, Idaho, $5,900,000.

Project 88-N-103, material handling and storage modifications, Knolls Atomic Power Laboratory, Niskayuna, New York, $2,700,000.

Project 88-N-104, prototype availability facilities, Knolls Atomic Power Laboratory, Kesselring Site, West Milton, New York, $6,000,000.

(5) For capital equipment not related to construction:

(A) For weapons activities, $272,254,000, including $8,240,000 for the defense inertial confinement fusion program.

(B) For materials production, $102,500,000.

(C) For defense waste and environmental restoration, $52,716,000.

(D) For verification and control technology, $8,400,000.

(E) For nuclear safeguards and security, $4,800,000.

(F) For naval reactors development, $48,000,000.

SEC. 1403. FUNDING LIMITATIONS

(a) PROGRAMS, PROJECTS, AND ACTIVITIES OF THE DEPARTMENT OF ENERGY RELATING TO THE STRATEGIC DEFENSE INITIATIVE.—Of the funds appropriated to the Department of Energy for fiscal year 1989 for operating expenses and plant and capital equipment, not more than $262,000,000 may be obligated or expended for programs, projects, and activities of the Department of Energy relating to the Strategic Defense Initiative.

(b) INERTIAL CONFINEMENT FUSION.—Of the funds appropriated to the Department of Energy for fiscal year 1989 for operating expenses and plant and capital equipment, $163,770,000 shall be obligated or expended for the defense inertial confinement fusion program.

(c) SRAM II.—Funds appropriated to the Department of Energy for fiscal year 1989 for facilities for production of the warhead for the short-range attack missile II (SRAM II) (project 87-D-122) may be obligated only—

(1) for facilities which are suitable for production of a warhead compatible with both the SRAM-A and the SRAM II; and

(2) after the Nuclear Weapons Council certifies that the design of the warhead is compatible with both the SRAM-A and the SRAM II.

(d) SPECIAL ISOTOPE SEPARATION PROJECT.—Funds appropriated or otherwise made available to the Department of Energy for the special isotope separation project, Idaho Falls, Idaho, may not be obligated or expended for site preparation for such project before March 1, 1989.

(e) PLUTONIUM RECOVERY MODIFICATION PROJECT.—Funds appropriated or otherwise made available for the plutonium recovery modification project (project 89-D-125),

Rocky Flats Plant, Golden, Colorado, may not be obligated or expended until the later of—

(1) 60 days after the President submits the report (relating to modernization of the nuclear weapons complex) required by section 3132 of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1988 (title I of division C of Public Law 100-180; 101 Stat. 1239); or

(2) February 15, 1989.

PART B—RECURRING GENERAL PROVISIONS

SEC. 1421. REPROGRAMMING

(a) NOTICE TO CONGRESS.—(1) Except as otherwise provided in this part—

(A) no amount appropriated pursuant to this title may be used for any program in excess of the lesser of—

(i) 105 percent of the amount authorized for that program by this title; or

(ii) $10,000,000 more than the amount authorized for that program by this title; and

(B) no amount appropriated pursuant to this title may be used for any program which has not been presented to, or requested of, the Congress.

(2) An action described in paragraph (1) may be taken after a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and on Appropriations of the Senate and House of Representatives of notice from the Secretary of Energy containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

(b) LIMITATION ON AMOUNT OBLIGATED.—In no event may the total amount of funds obligated pursuant to this title exceed the total amount authorized to be appropriated by this title.

SEC. 1422. LIMITS ON GENERAL PLANT PROJECTS

(a) IN GENERAL.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this title if the total estimated cost of the construction project does not exceed $1,200,000.

(b) REPORT TO CONGRESS.—If at any time during the construction of any general plant project authorized by this title, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives explaining the reasons for the cost variation.

SEC. 1423. LIMITS ON CONSTRUCTION PROJECTS

(a) IN GENERAL.—(1) Except as provided in paragraph (2), construction on a construction project may not be started or additional obligations incurred in connection with the project above the total estimated cost, whenever the current estimated cost of the construction project, which is authorized by section 1402 of this title, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(A) the amount authorized for the project; or

(B) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress.

(2) An action described in paragraph (1) may be taken after a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and on Appropriations of the Senate and House of Representatives of notice from the Secretary of Energy containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

(b) EXCEPTION.—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than $5,000,000.

SEC. 1424. FUND TRANSFER AUTHORITY

(a) IN GENERAL.—Funds appropriated pursuant to this title may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

(b) SPECIFIC TRANSFER.—The Secretary of Defense may transfer to the Secretary of Energy not more than $100,000,000 of the funds appropriated for fiscal year 1989 to the Department of Defense for research, development, test, and evaluation for the Defense Agencies for the performance of work on the Strategic Defense Initiative. Funds so transferred—

(1) may be used only for research, development, and testing for nuclear directed energy weapons, including plant and capital equipment related thereto;

(2) shall be merged with the appropriations of the Department of Energy; and

(3) may not be included in calculating the amount of funds obligated or expended for purposes of the funding limitation in section 1403(a).

SEC. 1425. AUTHORITY FOR CONSTRUCTION DESIGN

(a) IN GENERAL.—(1) Within the amounts authorized by this title for plant engineering and design, the Secretary may carry out advance planning and construction designs (including architectural and engineering services) in connection with any proposed construction project if the total estimated cost for such planning and design does not exceed $2,000,000.

(2) In any case in which the total estimated cost for such planning and design exceeds $300,000, the Secretary shall notify the Committees on Armed Services and on Appropriations of the Senate and House of Representatives in writing of the details of such project at least 30 days before any funds are obligated for design services for such project.

(b) SPECIFIC AUTHORITY REQUIRED.—In any case in which the total estimated cost for advance planning and construction design in connection with any construction project exceeds $2,000,000, funds for such design must be specifically authorized by law.

SEC. 1426. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN

In addition to the advance planning and construction design authorized by section 1402, the Secretary may perform planning and design utilizing available funds for any Department of Energy defense activity construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 1427. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY

Subject to the provisions of appropriation Acts and section 1421, amounts appropriated pursuant to this title for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 1428. AVAILABILITY OF FUNDS

When so specified in an appropriation Act, amounts appropriated for operating expenses or for plant and capital equipment may remain available until expended.

PART C—MISCELLANEOUS PROVISIONS

SEC. 1431. REVIEW OF THE INERTIAL CONFINEMENT FUSION PROGRAM

(a) ESTABLISHMENT.—(1) Within 30 days after the date of the enactment of this Act, the Secretary of Energy shall establish a review body to be known as the Program Review Group on Inertial Confinement Fusion (hereafter in this section referred to as the "Review Group").

(2) It shall be the function of the Review Group to review thoroughly the accomplishments, management, goals, and anticipated contributions of the defense inertial confinement fusion program, for both the civilian and military sectors. Such review shall include—

(A) an assessment of the most promising technologies for continuation of the program; and

(B) an assessment of the potential contributions of the program under a prohibition of underground nuclear testing and under a limitation of underground nuclear testing to levels of 1 kiloton, 5 kilotons, and 10 kilotons.

(3) The Secretary of Energy shall appoint to serve on the Review Group only persons who, because of experience in the scientific disciplines associated with the development and testing of nuclear weapons, are most qualified to make findings of fact and recommendations to Congress and the Secretary concerning that program.

(b) REPORTS.—The Review Group shall submit to the Secretary and the Committees on Armed Services and on Appropriations of the Senate and House of Representatives an interim report and a final report containing the results of its review, together with such recommendations regarding priorities for future work in the inertial confinement fusion program as it determines appropriate. The interim report shall be submitted before January 15, 1990, and the final report shall be submitted before September 15, 1990.

(c) REVIEW AND COMMENT BY THE SECRETARY.—(1) The Secretary of Energy shall review both the interim and final reports of the Review Group and submit to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives the following:

(A) An assessment of the budgetary priority, under current and anticipated budget restraints, that should be given to the inertial confinement fusion program of the Department of Energy in relation to the budgetary priority that should be given to core defense research and development programs of the Department to carry out the defense missions of the Department.

(B) Such additional comments regarding such reports as the Secretary considers appropriate.

(2) The Secretary shall submit his assessment and comments on each report referred

to in subsection (b) not later than 30 days after receiving such report.

(d) Termination.—Upon the submission of its final report, the Review Group shall cease to exist.

SEC. 1432. ASSISTANCE TO COMMUNITIES AFFECTED BY CLOSING OF N REACTOR

The Secretary of Defense may make grants, conclude cooperative agreements, and supplement funds made available under Federal programs administered by agencies other than the Department of Defense in order to assist the State of Washington and local communities near Hanford Reservation, Washington, in planning community adjustments required by the closure of the N Reactor.

SEC. 1433. REVIEW OF WASTE ISOLATION PILOT PLANT IN NEW MEXICO

(a) Contract Requirement.—The Secretary of Energy shall enter into a contract with the New Mexico Institute of Mining and Technology (hereafter in this section referred to as the "Institute") to conduct independent reviews and evaluations of the design, construction, and operations of the Waste Isolation Pilot Plant in New Mexico (hereafter in this section referred to as the "WIPP") as they relate to the protection of the public health and safety and the environment. The contract shall be for a period of one year, beginning on March 31, 1989, and shall be renewable for four additional one-year periods with the consent of the Institute and subject to the authorization and appropriation of funds for such purpose.

(b) Content of Contract.—A contract entered into under subsection (a) shall require the following:

(1) The President of the Institute shall appoint a Director and Deputy Director, who shall be scientists of national eminence in the field of nuclear waste disposal, shall be free from any biases related to the activities of the WIPP, and shall be widely known for their integrity and scientific expertise. The Director shall carry out the work under the contract through a group known as the Environmental Evaluation Group and shall report directly to the President of the Institute.

(2) The Director shall appoint staff. The professional staff shall consist of scientists and engineers of recognized integrity and scientific expertise who represent scientific and engineering disciplines needed for a thorough review of the WIPP, including such disciplines as geology, hydrology, health physics, environmental engineering, probability risk analysis, mining engineering, and radiation chemistry. The disciplines represented in the staff shall change as may be necessary to meet changed needs in carrying out the contract for expertise in any certain scientific or engineering discipline. Scientists employed under the contract shall have qualifications and experience equivalent to the qualifications and experience required for scientists employed by the Federal Government in grades GS-13 through GS-16.

(3) Scientists employed under the contract shall have an appropriate support staff.

(4) The Director and Deputy Director shall each be appointed for a term of 5 years, subject to contract renewal, and may be removed only for misconduct or incompetence. The staff shall be appointed for such terms as the Director considers appropriate.

(5) The rates of pay of professional staff and the procedures for increasing the rates of pay of professional staff shall be equivalent to those rates and procedures provided for the General Schedule pay system under chapter 53 of title 5, United States Code. The fringe benefits available to the professional staff of the Institute shall also be available to professional staff under the contract.

(6) To the maximum extent practicable, preference in the hiring of staff for the Environmental Evaluation Group shall be given to persons involved in the scientific evaluation group for WIPP immediately before the date of the enactment of this Act.

(7) Offices of the Environmental Evaluation Group shall be established in Carlsbad, New Mexico, and in Albuquerque, New Mexico, for carrying out the contract. The Director shall designate one of the offices as the administrative headquarters for carrying out the contract.

(8) The results of reviews and evaluations carried out under the contract shall be published.

(c) Administration.—The contract entered into under subsection (a) shall be administered under the direction of the President of the Institute. Such President shall establish general policies and guidelines to be used by the Director in carrying out the work under the contract. The Director shall be solely responsible for determining reviews and evaluations to be conducted by the Environmental Evaluation Group.

(d) Funding.—Funding for the contract shall be from amounts appropriated under section 1401. The amount of the initial one-year contract shall be not less than $1,060,000.

(e) Construction.—Nothing in this section shall be construed as affecting actions undertaken before the date of the enactment of this Act in furtherance of the requirements of this section.

SEC. 1434. AUTHORITY TO LOAN PERSONNEL AND FACILITIES TO COMMUNITY DEVELOPMENT ORGANIZATIONS NEAR HANFORD RESERVATION

(a) Authority to Loan Personnel.—(1) The Secretary of Energy shall allow each contractor and subcontractor of the Department of Energy carrying out operating, engineering, research and development, or construction management at the Hanford Reservation, Washington, to loan personnel in accordance with this section to the community development organization known as the Tri City Industrial Development Council serving Benton and Franklin counties, Washington. Any such loan shall be for the purpose of assisting in the diversification of the local economy by reducing reliance by local communities on national security programs at Hanford Reservation.

(2) A contractor shall continue to compensate any personnel loaned by the contractor under paragraph (1). Any such compensation shall be allowed as a cost for which the Department of Energy may reimburse the contractor under the contract.

(3) The Secretary of Energy may not obligate or expend more than $500,000 in each of fiscal years 1989 and 1990 for loans of personnel under this section. The amount of such obligations or expenditures shall be measured by the cost of compensation paid to such personnel by the contractor and reimbursed by the Department of Energy.

(b) Authority To Loan Facilities.—The Secretary of Energy may loan facilities of the Federal Government being used by contractors of the Department of Energy at Hanford Reservation, Washington, to any community-based organization. However, any loan of a facility under this subsection may be made only if use of the facility by such an organization would not adversely affect Department of Energy programs, as determined by the Secretary.

(c) Duration of Program.—The authority to loan personnel and facilities under this section, and the loan of any personnel or facilities pursuant to such authority, shall terminate on September 30, 1990.

SEC. 1435. NEW PRODUCTION REACTOR

(a) Recommendations Regarding New Production Reactor.—Not later than July 31, 1988, the Secretary of Energy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report containing the Secretary's recommendation for the site for construction of a new production reactor and the Secretary's recommendation for the preferred technology for a new production reactor.

(b) Report Containing Information Pertaining to New Production Reactor.—At the same time the budget for fiscal year 1990 is submitted to Congress pursuant to section 1105 of title 31, United States Code, the Secretary of Energy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report containing—

(1) a discussion of the administrative and legislative changes that would be necessary to shorten the time period necessary to attain the initial operational date of a new production reactor; and

(2) any recommendations for such additional action that the Secretary considers appropriate.

SEC. 1436. NUCLEAR TEST BAN READINESS PROGRAM

(a) Findings.—The Congress makes the following findings:

(1) On September 17, 1987, the United States and the Soviet Union announced that they would resume full-scale, stage-by-stage negotiations on issues relating to nuclear testing, including further intermediate limitations on nuclear testing leading to the ultimate objective of a comprehensive nuclear test ban.

(2) It was agreed that the first step in these negotiations would be to reach agreement on verification measures that will make possible the ratification of the Threshold Test Ban Treaty of 1974 and the Peaceful Nuclear Explosions Treaty of 1976.

(3) To achieve the agreement on verification measures, the United States and the Soviet Union have agreed to design and conduct a Joint Verification Experiment at the test sites of each country during the summer of 1988.

(4) At the Moscow summit in May 1988, President Reagan and General Secretary Gorbachev reaffirmed their commitment to negotiations on "effective verification measures which will make it possible to ratify the Threshold Test Ban Treaty of 1974 and Peaceful Nuclear Explosions Treaty of 1976, and proceed to negotiating further intermediate limitations on nuclear testing leading to the ultimate objective of the complete cessation of nuclear testing as part of an effective disarmament process".

(b) Establishment of Program.—The Secretary of Energy shall establish and support a program to assure that the United States is in a position to maintain the reliability, safety, and continued deterrent effect of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive ban on nuclear explosives testing is negotiated and ratified within the framework agreed to by the United States and the Soviet Union.

(c) Purposes of Program.—The purposes of the program under subsection (b) shall be the following:

(1) To assure that the United States maintains a vigorous program of stockpile inspection and non-explosive testing so that, if a low-threshold or comprehensive test ban is entered into, the United States remains able to detect and identify potential problems in stockpile reliability and safety in existing designs of nuclear weapons.

(2) To assure that the specific materials, components, processes, and personnel needed for the remanufacture of existing nuclear weapons or the substitution of alternative nuclear warheads are available to support such remanufacture or substitution if such action becomes necessary in order to satisfy reliability and safety requirements under a low-threshold or comprehensive test ban agreement.

(3) To assure that a vigorous program of research in areas related to nuclear weapons science and engineering is supported so that, if a low-threshold or comprehensive test ban agreement is entered into, the United States is able to maintain a base of technical knowledge about nuclear weapons design and nuclear weapons effects.

(d) CONDUCT OF PROGRAM.—The Secretary of Energy shall carry out the program provided for in subsection (b). The program shall be carried out with the participation of representatives of the Department of Defense, the nuclear weapons production facilities, and the national nuclear weapons laboratories.

(e) ANNUAL REPORT.—The Secretary of Energy shall submit to Congress each year an unclassified report (with a classified annex as necessary) that describes the progress made to the date of the report in achieving the purposes of the program required to be established under subsection (b).

PART D—DOE DEFENSE NUCLEAR FACILITIES SAFETY OVERSIGHT BOARD

SEC. 1441. ESTABLISHMENT OF DEFENSE NUCLEAR FACILITIES SAFETY BOARD

(a) ESTABLISHMENT.—(1) The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) is amended by adding at the end the following new chapter:

"CHAPTER 21. DEFENSE NUCLEAR FACILITIES SAFETY BOARD

"SEC. 311. ESTABLISHMENT.

"(a) ESTABLISHMENT.—There is hereby established an independent establishment in the executive branch, to be known as the 'Defense Nuclear Facilities Safety Board' (hereafter in this chapter referred to as the 'Board').

"(b) MEMBERSHIP.—(1) The Board shall be composed of five members appointed from civilian life by the President, by and with the advice and consent of the Senate, from among United States citizens who are respected experts in the field of nuclear safety with a demonstrated competence and knowledge relevant to the independent investigative and oversight functions of the Board. Not more than three members of the Board shall be of the same political party.

"(2) Any vacancy in the membership of the Board shall be filled in the same manner in which the original appointment was made.

"(3) No member of the Board may be an employee of, or have any significant financial relationship with, the Department of Energy or any contractor of the Department of Energy.

"(4) Not later than 180 days after the date of the enactment of this chapter, the President shall submit to the Senate nominations for appointment to the Board. In the event that the President is unable to submit the nominations within such 180-day period, the President shall submit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives a report describing the reasons for such inability and a plan for submitting the nominations within the next 90 days. If the President is unable to submit the nominations within that 90-day period, the President shall again submit to such committees and the Speaker such a report and plan. The President shall continue to submit to such committees and the Speaker such a report and plan every 90 days until the nominations are submitted.

"(c) CHAIRMAN AND VICE CHAIRMAN.—(1) The President shall designate a Chairman and Vice Chairman of the Board from among members of the Board.

"(2) The Chairman shall be the chief executive officer of the Board and, subject to such policies as the Board may establish, shall exercise the functions of the Board with respect to—

"(A) the appointment and supervision of employees of the Board;

"(B) the organization of any administrative units established by the Board; and

"(C) the use and expenditure of funds.

"(3) The Chairman may delegate any of the functions under this paragraph to any other member or to any appropriate officer of the Board.

"(4) The Vice Chairman shall act as Chairman in the event of the absence or incapacity of the Chairman or in case of a vacancy in the office of Chairman.

"(d) TERMS.—(1) Except as provided under paragraph (2), the members of the Board shall serve for terms of five years. Members of the Board may be reappointed.

"(2) Of the members first appointed—

"(A) one shall be appointed for a term of one year;

"(B) one shall be appointed for a term of two years;

"(C) one shall be appointed for a term of three years;

"(D) one shall be appointed for a term of four years; and

"(E) one shall be appointed for a term of five years,

as designated by the President at the time of appointment.

"(3) Any member appointed to fill a vacancy occurring before the expiration of the term of office for which such member's predecessor was appointed shall be appointed only for the remainder of such term. A member may serve after the expiration of that member's term until a successor has taken office.

"(e) QUORUM.—Three members of the Board shall constitute a quorum, but a lesser number may hold hearings.

"SEC. 312. FUNCTIONS OF THE BOARD.

"The Board shall perform the following functions:

"(1) REVIEW AND EVALUATION OF STANDARDS.—The Board shall review and evaluate the content and implementation of the standards relating to the design, construction, operation, and decommissioning of defense nuclear facilities of the Department of Energy (including all applicable Department of Energy orders, regulations, and requirements) at each Department of Energy defense nuclear facility. The Board shall recommend to the Secretary of Energy those specific measures that should be adopted to ensure that public health and safety are adequately protected. The Board shall include in its recommendations necessary changes in the content and implementation of such standards, as well as matters on which additional data or additional research is needed.

"(2) INVESTIGATIONS.—(A) The Board shall investigate any event or practice at a Department of Energy defense nuclear facility which the Board determines has adversely affected, or may adversely affect, public health and safety.

"(B) The purpose of any Board investigation under subparagraph (A) shall be—

"(i) to determine whether the Secretary of Energy is adequately implementing the standards described in paragraph (1) of the Department of Energy (including all applicable Department of Energy orders, regulations, and requirements) at the facility;

"(ii) to ascertain information concerning the circumstances of such event or practice and its implications for such standards;

"(iii) to determine whether such event or practice is related to other events or practices at other Department of Energy defense nuclear facilities; and

"(iv) to provide to the Secretary of Energy such recommendations for changes in such standards or the implementation of such standards (including Department of Energy orders, regulations, and requirements) and such recommendations relating to data or research needs as may be prudent or necessary.

"(3) ANALYSIS OF DESIGN AND OPERATIONAL DATA.—The Board shall have access to and may systematically analyze design and operational data, including safety analysis reports, from any Department of Energy defense nuclear facility.

"(4) REVIEW OF FACILITY DESIGN AND CONSTRUCTION.—The Board shall review the design of a new Department of Energy defense nuclear facility before construction of such facility begins and shall recommend to the Secretary, within a reasonable time, such modifications of the design as the Board considers necessary to ensure adequate protection of public health and safety. During the construction of any such facility, the Board shall periodically review and monitor the construction and shall submit to the Secretary, within a reasonable time, such recommendations relating to the construction of that facility as the Board considers necessary to ensure adequate protection of public health and safety. An action of the Board, or a failure to act, under this paragraph may not delay or prevent the Secretary of Energy from carrying out the construction of such a facility.

"(5) RECOMMENDATIONS.—The Board shall make such recommendations to the Secretary of Energy with respect to Department of Energy defense nuclear facilities, including operations of such facilities, standards, and research needs, as the Board determines are necessary to ensure adequate protection of public health and safety. In making its recommendations the Board shall consider the technical and economic feasibility of implementing the recommended measures.

"SEC. 313. POWERS OF BOARD.

"(a) HEARINGS.—(1) The Board or a member authorized by the Board may, for the purpose of carrying out this chapter, hold such hearings and sit and act at such times and places, and require, by subpoena or otherwise, the attendance and testimony of such witnesses and the production of such evidence as the Board or an authorized member may find advisable.

"(2)(A) Subpoenas may be issued only under the signature of the Chairman or any member of the Board designated by him and shall be served by any person designated by *the Chairman, any member, or any person as otherwise provided by law. The attendance of witnesses and the production of evidence may be required from any place in the United States at any designated place of hearing in the United States.*

"(B) Any member of the Board may administer oaths or affirmations to witnesses appearing before the Board.

"(C) If a person issued a subpoena under paragraph (1) refuses to obey such subpoena or is guilty of contumacy, any court of the United States within the judicial district within which the hearing is conducted or within the judicial district within which such person is found or resides or transacts business may (upon application by the Board) order such person to appear before the Board to produce evidence or to give testimony relating to the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt of the court.

"(D) The subpoenas of the Board shall be served in the manner provided for subpoenas issued by a United States district court under the Federal Rules of Civil Procedure for the United States district courts.

"(E) All process of any court to which application may be made under this section may be served in the judicial district in which the person required to be served resides or may be found.

"(b) STAFF.—The Board may, for the purpose of performing its responsibilities under this chapter—

"(1) hire such staff as it considers necessary to perform the functions of the Board, but not more than the equivalent of 100 full-time employees; and

"(2) procure the temporary and intermittent services of experts and consultants to the extent authorized by section 3109(b) of title 5, United States Code, at rates the Board determines to be reasonable.

"(c) REGULATIONS.—The Board may prescribe regulations to carry out the responsibilities of the Board under this chapter.

"(d) REPORTING REQUIREMENTS.—The Board may establish reporting requirements for the Secretary of Energy which shall be binding upon the Secretary. The information which the Board may require the Secretary of Energy to report under this subsection may include any information designated as classified information, or any information designated as safeguards information and protected from disclosure under section 147 or 148 of this Act.

"(e) USE OF GOVERNMENT FACILITIES, ETC.—The Board may, for the purpose of carrying out its responsibilities under this chapter, use any facility, contractor, or employee of any other department or agency of the Federal Government with the consent of and under appropriate support arrangements with the head of such department or agency and, in the case of a contractor, with the consent of the contractor.

"(f) ASSISTANCE FROM CERTAIN AGENCIES OF THE FEDERAL GOVERNMENT.—With the consent of and under appropriate support arrangements with the Nuclear Regulatory Commission, the Board may obtain the advice and recommendations of the staff of the Commission on matters relating to the Board's responsibilities and may obtain the advice and recommendations of the Advisory Committee on Reactor Safeguards on such matters.

"(g) ASSISTANCE FROM ORGANIZATIONS OUTSIDE THE FEDERAL GOVERNMENT.—The Board may enter into an agreement with the National Research Council of the National Academy of Sciences or any other appropriate group or organization of experts outside the Federal Government chosen by the Board to assist the Board in carrying out its responsibilities under this chapter.

"(h) RESIDENT INSPECTORS.—The Board may assign staff to be stationed at any Department of Energy defense nuclear facility to carry out the functions of the Board.

"(i) SPECIAL STUDIES.—The Board may conduct special studies pertaining to adequate protection of public health and safety at any Department of Energy defense nuclear facility.

"(j) EVALUATION OF INFORMATION.—The Board may evaluate information received from the scientific and industrial communities, and from the interested public, with respect to—

"(1) events or practices at any Department of Energy defense nuclear facility; or

"(2) suggestions for specific measures to improve the content of standards described in section 312(1), the implementation of such standards, or research relating to such standards at Department of Energy defense nuclear facilities.

"SEC. 314. RESPONSIBILITIES OF THE SECRETARY OF ENERGY.

"(a) COOPERATION.—The Secretary of Energy shall fully cooperate with the Board and provide the Board with ready access to such facilities, personnel, and information as the Board considers necessary to carry out its responsibilities under this chapter. Each contractor operating a Department of Energy defense nuclear facility under a contract awarded by the Secretary shall, to the extent provided in such contract or otherwise with the contractor's consent, fully cooperate with the Board and provide the Board with ready access to such facilities, personnel, and information of the contractor as the Board considers necessary to carry out its responsibilities under this chapter.

"(b) ACCESS TO INFORMATION.—The Secretary of Energy may deny access to information provided to the Board to any person who—

"(1) has not been granted an appropriate security clearance or access authorization by the Secretary of Energy; or

"(2) does not need such access in connection with the duties of such person.

"SEC. 315. BOARD RECOMMENDATIONS.

"(a) PUBLIC AVAILABILITY AND COMMENT.—Subject to subsections (g) and (h) and after receipt by the Secretary of Energy of any recommendations from the Board under section 312, the Board promptly shall make such recommendations available to the public in the Department of Energy's regional public reading rooms and shall publish in the Federal Register such recommendations and a request for the submission to the Board of public comments on such recommendations. Interested persons shall have 30 days after the date of the publication of such notice in which to submit comments, data, views, or arguments to the Board concerning the recommendations.

"(b) RESPONSE BY SECRETARY.—(1) The Secretary of Energy shall transmit to the Board, in writing, a statement on whether the Secretary accepts or rejects, in whole or in part, the recommendations submitted to him by the Board under section 312, a description of the actions to be taken in response to the recommendations, and his views on such recommendations. The Secretary of Energy shall transmit his response to the Board within 45 days after the date of the publication, under subsection (a), of the notice with respect to such recommendations or within such additional period, not to exceed 45 days, as the Board may grant.

"(2) At the same time as the Secretary of Energy transmits his response to the Board under paragraph (1), the Secretary, subject to subsection (h), shall publish such response, together with a request for public comment on his response, in the Federal Register.

"(3) Interested persons shall have 30 days after the date of the publication of the Secretary of Energy's response in which to submit comments, data, views, or arguments to the Board concerning the Secretary's response.

"(4) The Board may hold hearings for the purpose of obtaining public comments on its recommendations and the Secretary of Energy's response.

"(c) PROVISION OF INFORMATION TO SECRETARY.—The Board shall furnish the Secretary of Energy with copies of all comments, data, views, and arguments submitted to it under subsection (a) or (b).

"(d) FINAL DECISION.—If the Secretary of Energy, in a response under subsection (b)(1), rejects (in whole or part) any recommendation made by the Board under section 312, the Board shall either reaffirm its original recommendation or make a revised recommendation and shall notify the Secretary of its action. Within 30 days after receiving the notice of the Board's action under this subsection, the Secretary shall consider the Board's action and make a final decision on whether to implement all or part of the Board's recommendations. Subject to subsection (h), the Secretary shall publish the final decision and the reasoning for such decision in the Federal Register and shall transmit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives a written report containing that decision and reasoning.

"(e) IMPLEMENTATION PLAN.—The Secretary of Energy shall prepare a plan for the implementation of each Board recommendation, or part of a recommendation, that is accepted by the Secretary in his final decision. The Secretary shall transmit the implementation plan to the Board within 90 days after the date of the publication of the Secretary's final decision on such recommendation in the Federal Register. The Secretary may have an additional 45 days to transmit the plan if the Secretary submits to the Board and to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives a notification setting forth the reasons for the delay and describing the actions the Secretary is taking to prepare an implementation plan under this subsection. The Secretary may implement any such recommendation (or part of any such recommendation) before, on, or after the date on which the Secretary transmits the implementation plan to the Board under this subsection.

"(f) IMPLEMENTATION.—(1) Subject to paragraph (2), not later than one year after the date on which the Secretary of Energy transmits an implementation plan with respect to a recommendation (or part thereof) under subsection (e), the Secretary shall carry out and complete the implementation plan. If complete implementation of the plan takes more than 1 year, the Secretary of Energy shall submit a report to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives setting forth the reasons for the delay and when implementation will be completed.

"(2) If the Secretary of Energy determines that the implementation of a Board recommendation (or part thereof) is impracticable because of budgetary considerations, or that the implementation would affect the Secretary's ability to meet the annual nuclear weapons stockpile requirements established pursuant to section 91 of this Act, the Secretary shall submit to the President, to the Committees on Armed Services and on Appropriations of the Senate, and to the Speaker of the House of Representatives a report containing the recommendation and the Secretary's determination.

"(g) IMMINENT OR SEVERE THREAT.—(1) In any case in which the Board determines that a recommendation submitted to the Secretary of Energy under section 312 relates to an imminent or severe threat to public health and safety, the Board and the Secretary of Energy shall proceed under this subsection in lieu of subsections (a) through (d).

"(2) At the same time that the Board transmits a recommendation relating to an imminent or severe threat to the Secretary of Energy, the Board shall also transmit the recommendation to the President and for information purposes to the Secretary of Defense. The Secretary of Energy shall submit his recommendation to the President. The President shall review the Secretary of Energy's recommendation and shall make the decision concerning acceptance or rejection of the Board's recommendation.

"(3) After receipt by the President of the recommendation from the Board under this subsection, the Board promptly shall make such recommendation available to the public and shall transmit such recommendation to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives. The President shall promptly notify such committees and the Speaker of his decision and the reasons for that decision.

"(h) LIMITATION.—Notwithstanding any other provision of this section, the requirements to make information available to the public under this section—

"(1) shall not apply in the case of information that is classified; and

"(2) shall be subject to the orders and regulations issued by the Secretary of Energy under sections 147 and 148 of this Act to prohibit dissemination of certain information.

"SEC. 316. REPORTS.

"(a) BOARD REPORT.—(1) The Board shall submit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives each year, at the same time that the President submits the budget to Congress pursuant to section 1105(a) of title 31, United States Code, a written report concerning its activities under this chapter, including all recommendations made by the Board, during the year preceding the year in which the report is submitted. The Board may also issue periodic unclassified reports on matters within the Board's responsibilities.

"(2) The annual report under paragraph (1) shall include an assessment of—

"(A) the improvements in the safety of Department of Energy defense nuclear facilities during the period covered by the report;

"(B) the improvements in the safety of Department of Energy defense nuclear facilities resulting from actions taken by the Board or taken on the basis of the activities of the Board; and

"(C) the outstanding safety problems, if any, of Department of Energy defense nuclear facilities.

"(b) DOE REPORT.—The Secretary of Energy shall submit to the Committees on Armed Services and on Appropriations of the Senate and to the Speaker of the House of Representatives each year, at the same time that the President submits the budget to Congress pursuant to section 1105(a) of title 31, United States Code, a written report concerning the activities of the Department of Energy under this chapter during the year preceding the year in which the report is submitted.

"SEC. 317. JUDICIAL REVIEW.

"Chapter 7 of title 5, United States Code, shall apply to the activities of the Board under this chapter.

"SEC. 318. DEFINITION.

"As used in this chapter, the term 'Department of Energy defense nuclear facility' means any of the following:

"(1) A production facility or utilization facility (as defined in section 11 of this Act) that is under the control or jurisdiction of the Secretary of Energy and that is operated for national security purposes, but the term does not include—

"(A) any facility or activity covered by Executive Order No. 12344, dated February 1, 1982, pertaining to the Naval nuclear propulsion program;

"(B) any facility or activity involved with the assembly or testing of nuclear explosives or with the transportation of nuclear explosives or nuclear material; or

"(C) any facility that does not conduct atomic energy defense activities.

"(2) A nuclear waste storage facility under the control or jurisdiction of the Secretary of Energy, but the term does not include a facility developed pursuant to the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.) and licensed by the Nuclear Regulatory Commission.

"SEC. 319. CONTRACT AUTHORITY SUBJECT TO APPROPRIATIONS.

"The authority of the Board to enter into contracts under this chapter is effective only to the extent that appropriations (including transfers of appropriations) are provided in advance for such purpose.

"SEC. 320. ANNUAL AUTHORIZATION OF APPROPRIATIONS.

"Authorizations of appropriations for the Board for fiscal years beginning after fiscal year 1989 shall be provided annually in authorization Acts.".

(2) The table of contents at the beginning of the Atomic Energy Act of 1954 is amended by adding at the end the following:

"CHAPTER 21. DEFENSE NUCLEAR FACILITIES SAFETY BOARD

"Sec. 311. Establishment.
"Sec. 312. Functions of the Board.
"Sec. 313. Powers of Board.
"Sec. 314. Responsibilities of the Secretary of Energy.
"Sec. 315. Board recommendations.
"Sec. 316. Reports.
"Sec. 317. Judicial review.
"Sec. 318. Definition.
"Sec. 319. Contract authority subject to appropriations.
"Sec. 320. Annual authorization of appropriations.".

(b) SALARY FOR BOARD MEMBERS AT EXECUTIVE SCHEDULE LEVEL III.—Section 5314 of title 5, United States Code, is amended by inserting after "Members, Nuclear Regulatory Commission." the following: "Members, Defense Nuclear Facilities Safety Board.".

(c) REQUIREMENTS FOR FIRST ANNUAL REPORT.—(1) Before submission of the first annual report by the Defense Nuclear Facilities Safety Board under section 316(a) of the Atomic Energy Act of 1954 (as added by subsection (a)), the Board shall conduct a study on whether nuclear facilities of the Department of Energy that are excluded from the definition of "Department of Energy defense nuclear facility" in section 318(1)(C) of such Act (hereafter in this subsection referred to as "non-defense nuclear facilities") should be subject to independent external oversight. The Board shall include in such first annual report the results of such study and the recommendation of the Board on whether non-defense nuclear facilities should be subject to independent external oversight.

(2) If the Board recommends in the report that non-defense nuclear facilities should be subject to such oversight, the report shall include a discussion of alternative mechanisms for implementing such oversight, including mechanisms such as a separate executive agency and oversight as a part of the Board's responsibilities. The discussion of alternative mechanisms of oversight also shall include considerations of budgetary costs, protection of the security of sensitive nuclear weapons information, and the similarities and differences in the design, construction, operation, and decommissioning of defense and non-defense nuclear facilities of the Department of Energy.

(d) REQUIREMENTS FOR FIFTH ANNUAL REPORT.—The fifth annual report submitted by the Defense Nuclear Facilities Safety Board under section 316(a) of the Atomic Energy Act of 1954 (as added by subsection (a)) shall include—

(1) an assessment of the degree to which the overall administration of the Board's activities are believed to meet the objectives of Congress in establishing the Board;

(2) recommendations for continuation, termination, or modification of the Board's functions and programs, including recommendations for transition to some other independent oversight arrangement if it is advisable; and

(3) recommendations for appropriate transition requirements in the event that modifications are recommended.

SEC. 1442. TRANSFER

The Secretary of Energy, to the extent provided in appropriations Acts, shall transfer to the Defense Nuclear Facilities Safety Board established by section 311 of the Atomic Energy Act of 1954 (as added by section 1441) from sums available for obligation for national security programs such sums as may be necessary, as determined by such Board, for the operation of the Board during fiscal year 1989, but in no case may more than $7,000,000 be transferred for such purpose. Sums transferred shall be available to such Board to carry out its responsibilities under chapter 21 of the Atomic Energy Act of 1954 (as added by section 1441) and shall remain available until expended.

TITLE XV—NATIONAL DEFENSE STOCKPILE

SEC. 1501. AUTHORIZED DISPOSALS

(a) AUTHORITY.—Notwithstanding section 5(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(b)) but subject to subsection (c), the President may during fiscal year 1989 dispose of materials in the National Defense Stockpile in accordance with this section. The value of the materials disposed of may not exceed $180,000,000 and may only be made as specified in subsection (b).

(b) MATERIALS AUTHORIZED TO BE DISPOSED.—Any disposal pursuant to the authority in subsection (a) shall be made from materials in the National Defense Stockpile previously authorized for disposal by law and from the following materials in the Na-

tional Defense Stockpile, such materials having been determined to be excess to stockpile requirements:

Material	Quantities
Asbestos, chrysotile	2,100 short tons
Asbestos, crocidolite	36 short tons
Celestite	13,500 short dry tons
Iodine	772,000 pounds
Kyanite	1,200 short dry tons
Manganese dioxide, battery grade, natural ore	65,000 short dry tons
Mercury	7,500 flasks
Mica, muscovite block (S&L)	181,000 pounds
Mica, muscovite splittings	750,000 pounds
Mica, phlogopite splittings	589,000 pounds
Quartz	1,249,000 pounds
Silicon Carbide	44,000 short tons
Talc, block and lump	990 short tons
Talc, ground	1,100 short tons
Thorium nitrate	6,520,000 pounds
Tin	5,000 metric tons
Tungsten ores and concentrates	1,000,000 pounds
Vegetable tannin chestnut	3,500 long tons
Vegetable tannin quebracho	77,000 long tons.

(c) DISPOSALS DURING FISCAL YEAR 1989.—The President may dispose of materials under this section during fiscal year 1989 only to the extent that the total amount received (or to be received) from such disposals does not exceed the amount expended from the National Defense Stockpile Transaction Fund during fiscal year 1989 for purposes authorized under section 9(b)(2) of such Act.

SEC. 1502. AUTHORIZATION OF ACQUISITIONS

(a) ACQUISITIONS.—During fiscal year 1989, the President shall obligate $180,000,000 out of the funds of the National Defense Stockpile Transaction Fund (subject to such limitations as may be provided in appropriations Acts) for the following purposes:

(1) The acquisition of strategic and critical materials under section 6(a)(1) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98e(a)(1)).

(2) Transportation, storage, and other incidental expenses related to such acquisition.

(3) The upgrading of stockpile materials under section 6(a)(3) of such Act (50 U.S.C. 98e(a)(3)) and evaluations, tests, and other incidental expenses related to such upgrades.

(4) Other authorized uses of such funds under section 9(b)(2) of such Act (50 U.S.C. 98h(b)(2)).

(b) NEW UPGRADE PROGRAMS.—Of the amount specified in subsection (a), at least $20,000,000 shall be obligated to initiate new programs for upgrading stockpile materials. The Stockpile Manager shall submit to Congress by October 1, 1988, a report containing a plan for the use of such $20,000,000 for upgrading stockpile materials.

SEC. 1503. TECHNICAL AND CLARIFYING AMENDMENTS

(a) SEMI-ANNUAL REPORT.—Section 11(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h-2(a)) is amended—

(1) by redesignating paragraphs (3) and (4) as paragraphs (5) and (6), respectively; and

(2) by inserting after paragraph (2) the following new paragraphs:

"(3) information with respect to the activities by the Stockpile Manager to encourage the conservation, substitution, and development of strategic and critical materials within the United States;

"(4) information with respect to the research and development activities conducted under sections 2 and 8;".

(b) ANNUAL MATERIALS PLAN.—Section 11(b) of such Act (50 U.S.C. 98h-2(b)) is amended—

(1) in the first sentence, by striking out "such fiscal year" and inserting in lieu thereof "the next fiscal year";

(2) in the second sentence, by striking out "planned" and all that follows through "critical materials" and inserting in lieu thereof "all planned expenditures from the National Defense Stockpile Transaction Fund"; and

(3) by adding at the end the following new sentence: "Any proposed expenditure or disposal detailed in the annual materials plan for any such fiscal year, and any expenditure or disposal proposed in connection with any transaction submitted for such fiscal year to the appropriate committees of Congress pursuant to section 5(a)(2), that is not obligated or executed in that fiscal year may not be obligated or executed until such proposed expenditure or disposal is resubmitted in a subsequent annual materials plan or is resubmitted to the appropriate committees of Congress in accordance with section 5(a)(2), as appropriate.".

TITLE XVI—CIVIL DEFENSE

SEC. 1601. AUTHORIZATION OF APPROPRIATION

There is hereby authorized to be appropriated $147,893,000 for fiscal year 1989 for the purpose of carrying out the Federal Civil Defense Act of 1950 (50 U.S.C. App. 2251 et seq.).

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

SEC. 2001. SHORT TITLE.

This division may be cited as the "Military Construction Authorization Act, 1989".

TITLE XXI—ARMY

SEC. 2101. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

ALABAMA

Anniston Army Depot, $6,000,000.
Fort McClellan, $7,900,000.
Redstone Arsenal, $14,800,000.
Fort Rucker, $2,110,000.

ALASKA

Fort Wainwright, $29,740,000.
Fort Richardson, $6,250,000.

ARIZONA

Fort Huachuca, $1,200,000.

ARKANSAS

Pine Bluff Arsenal, $7,500,000.

CALIFORNIA

Fort Ord, $13,050,000.
Sierra Army Depot, $380,000.

COLORADO

Pueblo Army Depot, $3,200,000.

DISTRICT OF COLUMBIA

Walter Reed Army Medical Center, $1,600,000.

GEORGIA

Fort Benning, $24,350,000.

HAWAII

Fort Shafter, $7,200,000.
Schofield Barracks, $8,500,000.

ILLINOIS

Rock Island Arsenal, $10,980,000.
Savanna Army Depot, $2,270,000.
Fort Sheridan, $3,280,000.

KENTUCKY

Fort Campbell, $20,500,000.
Lexington-Bluegrass Depot, $770,000.

MARYLAND

Aberdeen Proving Ground, $17,000,000.
Fort Detrick, $6,500,000.
Fort Ritchie, $9,100,000.

NEW JERSEY

Fort Dix, $6,200,000.

NEW YORK

United States Military Academy, West Point, $11,150,000.

NORTH CAROLINA

Fort Bragg, $36,602,000.

OKLAHOMA

Fort Sill, $3,700,000.

OREGON

Umatilla Army Depot, $3,600,000.

PENNSYLVANIA

Letterkenny Army Depot, $1,900,000.

TEXAS

Fort Bliss, $3,800,000.
Corpus Christi Army Depot, $7,400,000.
Fort Hood, $15,900,000.
Red River Army Depot, $88,400,000.
Fort Sam Houston, $3,250,000.

UTAH

Dugway Proving Ground, $12,800,000.
Tooele Army Depot, $92,300,000.

VIRGINIA

Fort A.P. Hill, $9,900,000.
Fort Eustis, $5,000,000.
Fort Lee, $4,800,000.
Fort Pickett, $4,000,000.
Vint Hill Farms Station, $800,000.

WASHINGTON

Fort Lewis, $19,800,000.

WISCONSIN

Fort McCoy, $2,100,000.

VARIOUS LOCATIONS

Classified Locations, $3,600,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

GERMANY

Ansbach, $15,000,000.
Friedberg, $1,300,000.
Giessen, $6,300,000.
Grafenwoehr Training Area, $7,000,000.
Hohenfels Training Area, $36,960,000.
Karlsruhe, $2,550,000.

Mainz, $19,550,000.
Mannheim, $14,400,000.
Rheinberg, $12,400,000.
Schweinfurt, $9,700,000.
Stuttgart, $3,350,000.
Vilseck, $44,600,000.
Wiesbaden, $13,900,000.
Worms, $1,300,000.
Wuerzburg, $33,650,000.
Various Locations, $18,000,000.

HONDURAS

Site 5, $3,050,000.

ITALY

Various Locations, $1,250,000.

JAPAN

Various Locations, $7,900,000.
Various Locations, $5,300,000.

KOREA

Camp Casey, $3,700,000.
Camp Gary Owen, $1,150,000.
Camp Greaves, $1,540,000.
Camp Hovey, $3,200,000.
Camp Kittyhawk, $1,350,000.
Camp Libby, $1,150,000.
Camp Page, $670,000.
Camp Sears, $1,100,000.
Camp Stanley, $1,200,000.
Camp Stanton, $1,400,000.
K-16 Army Airfield, $670,000.
Taegu, $990,000.
Yongsan, $1,400,000.
Various Locations, $6,200,000.
Various Locations, $9,200,000.

KWAJALEIN

Kwajalein, $15,490,000.

VARIOUS LOCATIONS

Various Locations, $9,750,000.

SEC. 2102. FAMILY HOUSING

(a) CONSTRUCTION AND ACQUISITION.—The Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(6)(A), construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Fort Wainwright, Alaska, one hundred and fifty units, $27,000,000.

Fort Irwin, California, two hundred and sixty-three units, $24,000,000.

Helemano, Hawaii, one hundred units, $11,400,000.

Schofield Barracks, Hawaii, forty units, $4,450,000.

Fort Leavenworth, Kansas, two hundred and seventy-two units, $20,000,000.

Fort Drum, New York, one hundred units, $10,000,000.

Fort Bliss, Texas, one hundred and eight units, $9,100,000.

Augsburg, Germany, thirty-four units, as described in section 2103(b).

Hohenfels, Germany, eighty-eight units, $8,400,000.

(b) PLANNING AND DESIGN.—The Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(6)(A), carry out architectural and engineering services and construction design activities with respect to the construction or improvement of family housing units in an amount not to exceed $10,628,000.

SEC. 2103. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) IN GENERAL.—Subject to section 2825 of title 10, United States Code, the Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(6)(A), improve existing military family housing units in an amount not to exceed $72,300,000.

(b) WAIVER OF MAXIMUM PER COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Army may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Pearl Harbor, Hawaii, eight units, $550,000.

Augsburg, Germany, convert unused attic space and upgrade fourteen units into forty-eight adequate units, as authorized in section 2102(a), $3,360,000.

Taegu, Korea, ninety-six units, $4,450,000.

SEC. 2104. DEFENSE ACCESS ROADS

The Secretary of the Army may, using amounts appropriated pursuant to section 2105(a)(4), make advances to the Secretary of Transportation for the construction of defense access roads under section 210 of title 23, United States Code, at Fort Belvoir, Virginia, in the amount of $1,000,000.

SEC. 2105. AUTHORIZATION OF APPROPRIATIONS, ARMY

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of the Army in the total amount of $2,417,701,000 as follows:

(1) For military construction projects inside the United States authorized by section 2101(a), $463,182,000.

(2) For military construction projects outside the United States authorized by section 2101(b), $299,620,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,200,000.

(4) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $1,000,000.

(5) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $98,328,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing facilities, $197,278,000;

(B) for support of military family housing (including the functions described in section 2833 of title 10, United States Code), $1,340,093,000, of which not more than $52,190,000 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $183,600,000 may be obligated or expended for the leasing of military family housing units in foreign countries; and

(C) for the Homeowners Assistance Program as authorized by section 2832 of title 10, United States Code, $2,000,000, to remain in effect until expended.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2101 of this Act may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a); and

(2) $78,000,000 (the balance of the amount authorized for the construction of the Central Distribution Center, Red River Army Depot, Texas).

SEC. 2106. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), authorizations for the following projects authorized in section 101 of that Act, as extended by section 2107(a) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661) and section 2105(a) of the Military Construction Authorization Act, 1988 and 1989 (division B of Public Law 100-180) shall remain in effect until October 1, 1989, or the date of enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) Barracks modernization in the amount of $660,000 at Argyroupolis, Greece.

(2) Barracks modernization in the amount of $660,000 at Perivolaki, Greece.

(3) Barracks with dining facility in the amount of $11,400,000 at Presidio of San Francisco, California.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1986 PROJECTS.—Notwithstanding the provisions of section 603(a) of the Military Construction Authorization Act, 1986 (Public Law 99-167), authorizations for the following projects authorized in sections 101 and 102 of that Act as extended by section 2105(b) of the Military Construction Authorization Act, 1988 and 1989 (division B of Public Law 99-180), shall remain in effect until October 1, 1989, or the date of enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) Child care center in the amount of $470,000 at Karlsruhe, Germany.

(2) Modified record fire range in the amount of $2,850,000 at Nuernberg, Germany.

(3) Flight simulator building in the amount of $2,900,000 at Wiesbaden, Germany.

(4) Air conditioning upgrade in the amount of $5,900,000 at Schofield Barracks, Hawaii.

(5) Child care center in the amount of $1,350,000 at Camp Darby, Italy.

(6) Dining facility modernization in the amount of $4,350,000 at Fort Leavenworth, Kansas.

(7) Family housing, new construction, 6 units, in the amount of $596,000 at Fort Myer, Virginia.

(c) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1987 PROJECTS.—Notwithstanding the provisions of section 2701(a) of the Military Construction Authorization Act, 1987, (division B of Public Law 99-661), authorizations for the following projects authorized in sections 2101, 2102, and 2103 of that Act shall remain in effect until October 1, 1989, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) Primary water supply connection in the amount of $2,150,000 at Fort Riley, Kansas.

(2) Material test facility in the amount of $9,700,000 at Dugway Proving Ground, Utah.

(3) Barracks modernization in the amount of $3,700,000 at foreign various location 276.

(4) Dining facility in the amount of $2,100,000 at Giessen, Germany.

(5) Aircraft maintenance hangar in the amount of $7,100,000 at Hanau, Germany.

(6) Seventy manufactured home spaces in the amount of $1,100,000 at Aberdeen Proving Ground, Maryland.

(7) Family housing, new construction, 40 units in the amount of $4,100,000 at Crailsheim, Germany.

TITLE XXII—NAVY

SEC. 2201. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

ALABAMA

Naval Station, Mobile, $19,700,000.

ALASKA

David Taylor Research Center Detachment, Ketchikan, $12,000,000.

Naval Air Station, Adak, $29,000,000.

ARIZONA

Marine Corps Air Station, Yuma, $11,770,000.

CALIFORNIA

Marine Corps Air-Ground Combat Center, Twentynine Palms, $26,630,000.

Marine Corps Air Station, Camp Pendleton, $9,450,000.

Marine Corps Air Station, El Toro, $3,970,000.

Marine Corps Air Station, Tustin, $10,990,000.

Marine Corps Base, Camp Pendleton, $64,460,000.

Marine Corps Logistics Base, Barstow, $1,190,000.

Mountain Warfare Training Center, Bridgeport, $3,200,000.

Naval Air Station, Moffett Field, $650,000.

Naval Air Station, North Island, $6,150,000.

Naval Amphibious Base, Coronado, $870,000.

Naval Amphibious School, San Diego, $10,100,000.

Naval Aviation Depot, Alameda, $8,290,000.

Naval Aviation Depot, North Island, $2,110,000.

Naval Construction Battalion Center, Port Hueneme, $7,000,000.

Naval Construction Training Center, Port Hueneme, $10,080,000.

Naval Hospital, Lemoore, $2,160,000.

Naval Ocean Systems Center, San Diego, $8,660,000.

Naval Post Graduate School, Monterey, $3,140,000.

Naval Civil Engineer Corps Officers School, Port Hueneme, $7,420,000.

Naval Security Group Detachment, San Diego, $1,950,000.

Naval Shipyard, Mare Island, $6,450,000.

Naval Space Surveillance Field Station, San Diego, $3,760,000.

Naval Station, Treasure Island, San Francisco, $5,000,000.

Naval Submarine Base, San Diego, $3,150,000.

Naval Supply Center, Oakland, $1,550,000.

Naval Supply Center, San Diego Annex, North Island, $1,695,000.

Naval Training Center, San Diego, $7,980,000.

Naval Weapons Center, China Lake, $12,260,000.

Naval Weapons Station, Seal Beach, $13,890,000.

Navy Public Works Center, San Diego, $500,000.

Navy Public Works Center, San Francisco, $15,810,000.

Pacific Missile Test Center, Point Mugu, $20,470,000.

Personnel Support Activity, San Diego, $1,180,000.

Shore Intermediate Maintenance Activity, San Diego, $10,720,000.

Submarine Training Facility, San Diego, $10,301,000.

CONNECTICUT

Naval Security Group Activity, Groton, $1,170,000.

Naval Submarine Base, New London, $6,660,000.

DISTRICT OF COLUMBIA

Commandant, Naval District Washington, $38,100,000.

Naval Research Laboratory, Washington, $19,800,000.

FLORIDA

Naval Air Station, Cecil Field, $340,000.

Naval Air Station, Jacksonville, $8,810,000.

Naval Air Station, Key West, $850,000.

Naval Air Station, Pensacola, $25,600,000.

Naval Aviation Depot, Jacksonville, $14,180,000.

Naval Hospital, Pensacola, $2,250,000.

Naval Legal Service Office, Mayport, $1,450,000.

Naval Station, Mayport, $3,060,000.

Naval Supply Center, Pensacola, $2,640,000.

Naval Technical Training Center, Pensacola, $2,840,000.

Naval Training Center, Orlando, $23,810,000.

GEORGIA

Marine Corps Logistics Base, Albany, $5,740,000.

Naval Submarine Base, Kings Bay, $56,330,000.

HAWAII

Marine Corps Air Station, Kaneohe Bay, $24,270,000.

Naval Legal Service Office, Pearl Harbor, $2,380,000.

Naval Station, Pearl Harbor, $8,370,000.

Naval Submarine Base, Pearl Harbor, $11,250,000.

Naval Submarine Training Center, Pacific, Pearl Harbor, $1,780,000.

Naval Supply Center, Pearl Harbor, $8,350,000.

Navy Public Works Center, Pearl Harbor, $3,760,000.

ILLINOIS

Naval Training Center, Great Lakes, $3,440,000.

Naval Public Works Center, Great Lakes, $1,930,000.

KENTUCKY

Naval Ordnance Station, Louisville, $19,000,000.

LOUISIANA

Naval Station, Lake Charles, $3,700,000.

MAINE

Naval Air Station, Brunswick, $530,000.

MARYLAND

David Taylor Naval Ship Research Development Center, Annapolis, $1,860,000.

Naval Academy, Annapolis, $540,000.

Naval Air Test Center, Patuxent River, $1,250,000.

Naval Explosive Ordnance Disposal Technology Center, Indian Head, $7,380,000.

Naval Intelligence Command Headquarters, Suitland, $114,000,000.

Naval Medical Data Services Center, Bethesda, $5,930,000.

Naval Ordnance Station, Indian Head, $1,270,000.

Naval Surface Warfare Center Detachment, White Oak, $2,540,000.

MISSISSIPPI

Naval Air Station, Meridian, $3,100,000.

Naval Construction Training Center, Gulfport, $4,070,000.

Naval Station, Pascagoula, $25,700,000.

Supervisor of Shipbuilding, Pascagoula, $6,000,000.

NEVADA

Naval Air Station, Fallon, $9,470,000.

NEW JERSEY

Naval Weapons Station, Earle, $30,400,000.

NEW MEXICO

Naval Ordnance Missile Test Station, White Sands, $8,090,000.

NEW YORK

Naval Station, New York, $23,395,000.

NORTH CAROLINA

Marine Corps Air Station, Cherry Point, $32,380,000.

Marine Corps Air Station, New River, $8,400,000.

Marine Corps Base, Camp Lejeune, $23,450,000.

OKLAHOMA

Naval Air Detachment, Tinker Air Force Base, $38,080,000.

PENNSYLVANIA

Naval Air Development Center, Warminster, $1,270,000.

Naval Shipyard, Philadelphia, $10,300,000.

Navy Aviation Supply Office, Philadelphia, $1,400,000.

Navy Ships Parts Control Center, Mechanicsburg, $2,050,000.

RHODE ISLAND

Naval Education and Training Center, Newport, $11,560,000.

Naval Justice School, Newport, $2,060,000.

Surface Warfare Officers School Command, Newport, $4,750,000.

SOUTH CAROLINA

Naval Hospital, Beaufort, $2,260,000.

Naval Shipyard, Charleston, $640,000.

Naval Supply Center, Charleston, $1,090,000.

Naval Weapons Station, Charleston, $22,250,000.

TENNESSEE

Naval Air Station, Memphis, $10,090,000.

TEXAS

Naval Station, Galveston, $8,110,000.

Naval Station, Ingleside, $31,850,000.

VIRGINIA

Atlantic Fleet Headquarters Support Activity, Norfolk, $1,700,000.

Fleet Combat Training Center, Atlantic, Dam Neck, $4,700,000.

Marine Corps Combat Development Command, Quantico, $14,290,000.

Marine Corps Detachment, Camp Elmore, $1,690,000.

Marine Environmental Systems Facility, Dam Neck, $5,000,000.

Naval Air Station, Oceana, $2,690,000.

Naval Amphibious Base, Little Creek, $8,270,000.

Naval Amphibious School, Little Creek, $640,000.

Naval Aviation Depot, Norfolk, $8,950,000.

Naval Guided Missiles School, Dam Neck, $4,450,000.

Naval Legal Service Office, Norfolk, $1,080,000.

Naval Medical Clinic, Norfolk, $2,470,000.

Naval Ophthalmic Support and Training Activity, Yorktown, $1,970,000.

Naval Security Group Activity, Northwest, Chesapeake, $5,400,000.

Naval Supply Center, Norfolk, $6,660,000.

Naval Supply Center, Williamsburg, $3,300,000.

Naval Surface Warfare Center, Dahlgren, $25,442,000.

Naval Weapons Station, Yorktown, $12,360,000.

Navy Public Works Center, Norfolk, $4,410,000.

WASHINGTON

Naval Air Station, Whidbey Island, $11,010,000.

Naval Station, Everett, $38,400,000.

Naval Supply Center, Bremerton, $5,740,000.

Strategic Weapons Facility, Pacific, Silverdale, $15,060,000.

Trident Refit Facility, Bangor, $990,000.

VARIOUS LOCATIONS

Land Acquisition, $36,895,000.

(b) Outside the United States.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

ANTIGUA

Naval Support Facility, $6,470,000.

GUAM

Fleet Surveillance Support Group, $20,972,000.

Naval Security Group Detachment, $400,000.

Naval Supply Depot, $7,660,000.

Navy Public Works Center, $6,720,000.

ICELAND

Naval Air Station, Keflavik, $12,000,000.

ITALY

Naval Air Station, Sigonella, $7,950,000.

Naval Support Activity, Naples, $4,750,000.

JAPAN

Marine Corps Air Station, Futenma, Okinawa, $3,280,000.

Marine Corps Base, Camp Butler, Okinawa, $2,840,000.

PHILIPPINES

Navy Public Works Center, Subic Bay, $28,340,000.

SPAIN

Naval Communication Station, Rota, $400,000.

VARIOUS LOCATIONS

Classified Location, $4,990,000.

Host Nation Infrastructure Support, $500,000.

SEC. 2202. FAMILY HOUSING

(a) Construction and Acquisition.—The Secretary of the Navy may, using amounts appropriated pursuant to section 2205(a)(6)(A), construct or acquire family housing units (including land acquisition), at the following installations in the number of units shown, and in the amount shown, for each installation:

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, one hundred units, $9,470,000.

Marine Corps Air Station, El Toro, California, one hundred units and eighty mobile home spaces, $10,120,000.

Marine Corps Base, Camp Pendleton, California, three hundred and thirty-two units and access roads, $28,510,000.

Naval Station, Long Beach, California, three hundred units, $26,110,000.

Naval Public Works Center, San Diego, California, three hundred and fifty-six units, $31,830,000.

Navy Public Works Center, San Francisco, California, three hundred units, $35,736,000.

Naval Submarine Base, Kings Bay, Georgia, two hundred and fifty units, $19,860,000.

Naval Air Station, Glenview, Illinois, two hundred and sixty units, $23,000,000.

Naval Station, New York, New York, one hundred and fifty units, $14,900,000.

Naval District Washington, District of Columbia, two units at 2,100 square feet each, $330,000.

(b) Planning and Design.—The Secretary of the Navy may carry out architectural and engineering services and construction design activities, using amounts appropriated pursuant to section 2205(a)(6)(A), with respect to the construction or improvement of military family housing units in an amount not to exceed $2,315,000.

SEC. 2203. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) In General.—Subject to section 2825 of title 10, United States Code, the Secretary of the Navy may, using amounts appropriated pursuant to section 2205(a)(6)(A), improve existing military family housing units in an amount not to exceed $61,589,000.

(b) Waiver of Maximum Per Unit Cost for Certain Improvement Projects.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Navy may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Navy Public Works Center, San Diego, California, six units, $284,400.

Navy Public Works Center, Pensacola, Florida, one unit, $34,900.

Navy Public Works Center, Great Lakes, Illinois, three hundred and fifty-six units, $17,214,000.

Navy Public Works Center, Great Lakes, Illinois, one hundred and two units, $6,181,200.

Naval Security Group Activity, Winter Harbor, Maine, thirty units, $2,920,600.

Naval Security Group Activity, Winter Harbor, Maine, twenty units, $920,000.

Naval Air Station, Fallon, Nevada, one hundred and six units, $8,129,300.

Marine Corps Air Station, Cherry Point, North Carolina, two units, $94,300.

Marine Corps Air Station, Cherry Point, North Carolina, two hundred and eighty-two units, $11,957,200.

Navy Ships Parts Control Center, Mechanicsburg, Pennsylvania, seventy-five units, $5,415,500.

Naval Air Station, Whidbey Island, Washington, eleven units, $632,600.

Navy Public Works Center, Guam, two hundred and twelve units, $18,473,800.

SEC. 2204. DEFENSE ACCESS ROADS

The Secretary of the Navy may, using amounts appropriated pursuant to section 2205(a)(5), make advances to the Secretary of Transportation for the construction of defense access roads under section 210 of title 23, United States Code, at the following locations and in the following amounts:

Marine Corps Air Ground Center, Twentynine Palms, California, $2,900,000.

Navy Public Works Center, San Diego, California, $719,000.

Navy Public Works Center, San Francisco, California, $800,000.

Naval Station, Everett, Washington, $4,400,000.

Naval Submarine Base, Kings Bay, Georgia, $3,000,000.

SEC. 2205. AUTHORIZATION OF APPROPRIATIONS, NAVY

(a) In General.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of the Navy in the total amount of $2,369,875,000 as follows:

(1) For military construction projects inside the United States authorized by section 2201(a), $1,296,450,000.

(2) For military construction projects outside the United States authorized by section 2201(b), $101,272,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,300,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $138,276,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $11,819,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $250,770,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $554,988,000 of which not more than $18,434,000 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $23,982,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) Limitation on Total Cost of Construction Projects.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2201 of this Act may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a); and

(2) $55,048,000 (the balance of the amount authorized for the construction of the Headquarters Building, Naval Intelligence Command Headquarters, Suitland, Maryland).

(c) Restriction on Certain Funding.—None of the funds appropriated pursuant to subsection (a)(1) may be obligated for use or expended at Hunters Point Annex, Naval Station, Treasure Island, San Francisco, California, until the Secretary of the Navy has transmitted to the Committees on Armed Services of the Senate and the House of Representatives a report containing (1) a description of the activities planned by the Department of the Navy at such location during fiscal years 1989 through 1993, and (2) a statement explaining the environmental impact of such activities, especially with respect to the planned porting of ships and the development of the land at such location during such fiscal years.

SEC. 2206. ACQUISITION OF HOUSING AT CERTAIN NAVAL AIR STATIONS

(a) Authority To Acquire.—(1) The Secretary of the Navy may, using funds appropriated pursuant to section 2205(a)(6)(A), acquire all right, title, and interest in and to 264 family housing units situated on the Naval Air Station at Glenview, Illinois, and constructed in 1956 with financing provided under title VIII of the National Housing Act.

(2) The Secretary of the Navy may, using funds that remain available from savings realized in carrying out military family housing projects of the Department of the Navy during any fiscal year before fiscal year 1990, acquire all right, title, and interest in and to 72 family housing units at Sunnyvale, California, near the Naval Air Station, Moffett Field, which were constructed in

1952 with financing provided under title VIII of the National Housing Act, except that no such funds may be obligated for such purpose until the expiration of 30 days after the date on which the Secretary transmits to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on the proposed obligation of such funds.

(3) The Secretary may also acquire the leasehold interests in the housing units referred to in paragraphs (1) and (2) which are held in private ownership.

(4) The amount paid by the Secretary for such units and leasehold interests may not exceed an amount equal to the fair market value of such units and interests.

(5) The authority to acquire the housing units referred to in paragraphs (1) and (2) shall include the authority to acquire other real property improvements related to such units.

(b) Occupancy Charges.—(1) Notwithstanding any other provision of law and except as provided in paragraph (2), a charge may be made against the basic allowances for quarters of any member of the Armed Forces to whom a housing unit referred to in subsection (a) is leased after the acquisition of the privately held leasehold interest in such unit by the Secretary. Such a charge may not exceed an amount equal to 75 percent of the amount of the basic allowances for quarters to which the member is entitled.

(2) A member of the Armed Forces who, on the date on which the privately held leasehold interest referred to in subsection (a) is acquired by the Secretary, has in effect an unexpired lease on one of the housing units described in subsection (a) shall be charged rent on such unit (after such acquisition) in accordance with the terms of the lease until the lease expires.

(c) Expiration of Acquisition Authority.—The authority under this section for the Secretary to acquire the leasehold interests referred to in subsection (a) shall expire on October 1, 1994.

TITLE XXIII—AIR FORCE

SEC. 2301. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) Inside the United States.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the installations and locations inside the United States:

ALABAMA

Gunter Air Force Base, $8,150,000.
Maxwell Air Force Base, $17,800,000.

ALASKA

Eielson Air Force Base, $7,650,000.
Elmendorf Air Force Base, $20,540,000.
King Salmon Airport, $2,850,000.
Shemya Air Force Base, $14,860,000.

ARIZONA

Davis-Monthan Air Force Base, $980,000.
Luke Air Force Base, $4,550,000.
Williams Air Force Base, $11,130,000.

ARKANSAS

Blytheville Air Force Base, $2,150,000.
Little Rock Air Force Base, $4,550,000.

CALIFORNIA

Beale Air Force Base, $8,900,000.
Castle Air Force Base, $20,400,000.
Edwards Air Force Base, $5,200,000.
George Air Force Base, $23,550,000.
March Air Force Base, $4,900,000.
Mather Air Force Base, $2,740,000.
McClellan Air Force Base, $3,080,000.
Onizuka Air Force Base, $4,300,000.
Travis Air Force Base, $10,400,000.
Vandenberg Air Force Base, $8,550,000.

COLORADO

Buckley Air National Guard Base, $25,800,000.
Cheyenne Mountain Complex, $6,500,000.
Lowry Air Force Base, $12,000,000.
Peterson Air Force Base, $13,300,000.
United States Air Force Academy, $10,240,000.

DELAWARE

Dover Air Force Base, $1,000,000.

FLORIDA

Avon Park, $3,700,000.
Cape Canaveral Air Force Station, $19,380,000.
Eglin Air Force Base, $11,020,000.
Eglin Air Force Base, Auxiliary Field 9, $27,400,000.
Homestead Air Force Base, $6,200,000.
MacDill Air Force Base, $4,580,000.
Patrick Air Force Base, $1,126,000.
Tyndall Air Force Base, $6,000,000.

GEORGIA

Moody Air Force Base, $800,000.
Robins Air Force Base, $31,500,000.

HAWAII

Hickam Air Force Base, $4,250,000.

IDAHO

Mountain Home Air Force Base, $1,400,000.

ILLINOIS

Chanute Air Force Base, $6,500,000.
Scott Air Force Base, $14,500,000.

INDIANA

Grissom Air Force Base, $1,850,000.

KANSAS

McConnell Air Force Base, $680,000.

LOUISIANA

Barksdale Air Force Base, $7,300,000.
England Air Force Base, $3,100,000.

MAINE

Loring Air Force Base, $3,000,000.

MARYLAND

Andrews Air Force Base, $2,550,000.

MASSACHUSETTS

Hanscom Air Force Base, $12,400,000.

MICHIGAN

Wurtsmith Air Force Base, $10,690,000.

MISSISSIPPI

Columbus Air Force Base, $2,950,000.
Keesler Air Force Base, $4,550,000.

MISSOURI

Whiteman Air Force Base, $64,300,000.

MONTANA

Malmstrom Air Force Base, $19,470,000.

NEBRASKA

Offutt Air Force Base, $2,450,000.

NEVADA

Indian Springs, $3,150,000.
Nellis Air Force Base, $6,700,000.

NEW HAMPSHIRE

New Boston Air Force Station, $4,500,000.
Pease Air Force Base, $10,950,000.

NEW JERSEY

McGuire Air Force Base, $3,550,000.

NEW MEXICO

Cannon Air Force Base, $4,100,000.
Holloman Air Force Base, $2,900,000.
Kirtland Air Force Base, $13,000,000.

NEW YORK

Griffiss Air Force Base, $700,000.

NORTH CAROLINA

Seymour Johnson Air Force Base, $3,050,000.

NORTH DAKOTA

Grand Forks Air Force Base, $13,290,000.
Minot Air Force Base, $6,250,000.

OHIO

Wright-Patterson Air Force Base, $11,455,000.

OKLAHOMA

Altus Air Force Base, $2,300,000.
Tinker Air Force Base, $12,650,000.

SOUTH CAROLINA

Charleston Air Force Base, $5,000,000.

SOUTH DAKOTA

Ellsworth Air Force Base, $8,650,000.

TENNESSEE

Arnold Engineering Development Center, $213,800,000.

TEXAS

Bergstrom Air Force Base, $2,800,000.
Brooks Air Force Base, $2,750,000.
Carswell Air Force Base, $3,500,000.
Dyess Air Force Base, $3,470,000.
Goodfellow Air Force Base, $2,350,000.
Kelly Air Force Base, $29,300,000.
Lackland Air Force Base, $14,039,000.
Laughlin Air Force Base, $1,910,000.
Randolph Air Force Base, $6,150,000.
Reese Air Force Base, $990,000.
Sheppard Air Force Base, $10,700,000.

UTAH

Hill Air Force Base, $10,740,000.

WASHINGTON

Fairchild Air Force Base, $17,580,000.
McChord Air Force Base, $13,100,000.

WYOMING

F.E. Warren Air Force Base, $6,000,000.

VARIOUS LOCATIONS

Base 80, $987,000.
Base 81, $2,800,000.
Classified, $4,000,000.

(b) Outside the United States.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

BELGIUM

Kleine Brogel, $1,900,000.

CANADA

Forward Operation Locations, $600,000.

GERMANY

Bitburg Air Base, $1,060,000.
Einsiedlerhof Air Base, $1,500,000.
Hahn Air Base, $16,650,000.
Hessich-Oldendorf Air Station, $740,000.
Norvenich Air Base, $2,300,000.
Pruem Air Station, $620,000.
Ramstein Air Base, $6,000,000.
Rhein-Main Air Base, $5,000,000.
Sembach Air Base, $3,550,000.
Spangdahlem Air Base, $10,270,000.
Wenigerath Air Base, $1,700,000.
Zweibrucken Air Base, $1,300,000.

GREENLAND

Sondrestrom Air Base, $5,950,000.
Thule Air Base, $1,830,000.

GUAM

Anderson Air Force Base, $900,000.

ICELAND

Naval Air Station, Keflavik, $1,100,000.

ITALY

Aviano Air Base, $7,600,000.

JAPAN

Kadena Air Base, $1,850,000.
Misawa Air Base, $4,550,000.
Yokota Air Base, $500,000.

KOREA

Camp Humphreys, $3,350,000.
Kunsan Air Base, $17,330,000.
Osan Air Base, $10,750,000.

NETHERLANDS

Camp New Amsterdam, $10,300,000.
Volkel Air Base, $2,300,000.

OMAN

Masirah Air Base, $2,800,000.

Seeb Air Base, $7,100,000.

PANAMA

Howard Air Force Base, $2,600,000.

PHILIPPINES

Clark Air Base, $28,940,000.

PORTUGAL

Lajes Field, $4,850,000.

TURKEY

Incirlik Air Base, $9,590,000.

Pirinclik Air Station, $1,500,000.

UNITED KINGDOM

RAF Alconbury, $2,650,000.

RAF Bentwaters, $5,430,000.

RAF Feltwell, $500,000.

RAF Lakenheath, $10,170,000.

RAF Mildenhall, $7,150,000.

RAF Upper Heyford, $3,830,000.

RAF Welford, $3,720,000.

VARIOUS LOCATIONS

Base 30, $3,850,000.

Base 79, $1,900,000.

Base 82, $2,800,000.

Classified Locations, $16,473,000.

SEC. 2302. FAMILY HOUSING

(a) Construction and Acquisition.—The Secretary of the Air Force may, using amounts appropriated pursuant to section 2304(a)(5)(A), construct or acquire two hundred sixty family housing units (including land acquisition) at Clark Air Base, Philippines, in the amount of $19,920,000.

(b) Planning and Design.—The Secretary of the Air Force may, using amounts appropriated pursuant to section 2304(a)(5)(A), carry out architectural and engineering services and construction design activities with respect to the construction or improvement of military family housing units in an amount not to exceed $7,000,000.

SEC. 2303. IMPROVEMENT TO MILITARY FAMILY HOUSING UNITS

(a) In General.—Subject to section 2825 of title 10, United States Code, the Secretary of the Air Force may, using amounts appropriated pursuant to section 2304(a)(5)(A), improve existing military family housing units in an amount not to exceed $153,765,000.

(b) Waiver of Maximum Per Unit Cost for Certain Improvement Projects.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Air Force may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Gunter Air Force Station, Alabama, twenty-three units, $1,136,000.

Maxwell Air Force Base, Alabama, fifty units, $2,722,000.

Eielson Air Force Base, Alaska, ninety-six units, $7,943,000.

Elmendorf Air Force Base, Alaska, forty-eight units, $3,818,000.

Davis-Monthan Air Force Base, Arizona, one unit, $60,000.

Luke Air Force Base, Arizona, one hundred and fifty-two units, $5,975,000.

McClellan Air Force Base, California, thirty units, $3,207,000.

Peterson Air Force Base, Colorado, one unit, $74,000; eighty units, $3,527,000.

Bolling Air Force Base, District of Columbia, one hundred and ten units, $4,018,000.

Eglin Air Force Base, Florida, fifty units, $2,138,000.

MacDill Air Force Base, Florida, four units, $279,000.

Robins Air Force Base, Georgia, one hundred and sixty units, $6,861,000.

Scott Air Force Base, Illinois, four units, $184,000.

Grissom Air Force Base, Indiana, one hundred and eighty-six units, $6,788,000.

Barksdale Air Force Base, Louisiana, two units, $185,000; one hundred and fourteen units, $6,200,000.

England Air Force Base, Louisiana, one hundred and six units, $5,830,000.

Andrews Air Force Base, Maryland, five units, $338,000.

Pease Air Force Base, New Hampshire, one unit, $121,000.

McGuire Air Force Base, New Jersey, one hundred units, $4,921,000.

Kirtland Air Force Base, New Mexico, four units, $240,000; one hundred and fifteen units, $4,894,000.

Plattsburgh Air Force Base, New York, one hundred and seventy-four units, $10,600,000.

Minot Air Force Base, North Dakota, one unit, $65,000.

Shaw Air Force Base, South Carolina, one hundred and thirty units, $4,703,000.

Carswell Air Force Base, Texas, one hundred and eighty-one units, $7,869,000; sixteen units, $600,000.

Dyess Air Force Base, Texas, one unit, $64,000.

Kelly Air Force Base, Texas, one hundred and one units, $3,381,000.

Randolph Air Force Base, Texas, two units, $199,000.

Reese Air Force Base, Texas, one hundred and eighty-eight units, $6,816,000.

Ramstein Air Base, Germany, two hundred and forty units, $16,000,000; eight units, $706,000; nine units, $1,039,000.

Andersen Air Force Base, Guam, one unit, $167,000; one hundred and twenty units, $8,000,000.

Misawa Air Base, Japan, one hundred and eighty units, $8,707,000.

Yokota Air Base, Japan, eighty-one units, $5,629,000.

Osan Air Base, Korea, ten units, $447,000.

Clark Air Base, Philippines, eighty-two units, $4,203,000.

RAF Alconbury, United Kingdom, twenty-five units, $1,119,000.

RAF Greenham Common, United Kingdom, one hundred and nineteen units, $5,588,000.

SEC. 2304. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE

(a) In General.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of the Air Force in the total amount of $2,143,981,000, as follows:

(1) For military construction projects inside the United States authorized by section 2301(a), $855,877,000.

(2) For military construction projects outside the United States authorized by section 2301(b), $229,353,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,500,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $119,800,000.

(5) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $180,685,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $741,766,000 of which not more than $16,612,500 may be obligated or expended for leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam; and not more than $74,268,500 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) Limitation on Total Cost of Construction Projects.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2301 of this Act may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a); and

(2) $133,000,000 (the balance of the amount authorized for the construction of the J-6 facility, Arnold Engineering Development Center, Tennessee).

(c) Restriction on Certain Funding.—None of the funds appropriated pursuant to subsection (a)(2) may be obligated for use or expended in Panama until the Secretary of Defense transmits to the Committees on Armed Services of the Senate and the House of Representatives a copy of the plans of the activities to be carried out by the Department of Defense in Panama during the five-year period beginning on the date of the enactment of this Act.

SEC. 2305. EXTENSION OF CERTAIN PREVIOUS AUTHORIZATIONS

Notwithstanding the provisions of section 2301(a) of the Military Construction Authorization Act, 1987, (division B of Public Law 99-661), authorizations for the following projects authorized in sections 2301 and 2302 of that Act shall remain in effect until October 1, 1989, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1990, whichever is later:

(1) KC-135 CPT Simulator facility, in the amount of $890,000 at Minot Air Force Base, North Dakota.

(2) Add to and alter Avionics Maintenance Shop, in the amount of $1,150,000 at Pease Air Force Base, New Hampshire.

(3) KC-135 CPT Simulator facilities in the amount of $660,000 at Robins Air Force Base, Georgia.

(4) Land acquisition in the amount of $230,000 at the United States Air Force Academy, Colorado Springs, Colorado.

(5) Land acquisition Auxiliary Field in the amount of $3,700,000, at Laughlin Air Force Base, Texas.

(6) KC-135 CPT Simulator facility in the amount of $3,500,000, at Beale Air Force Base, California.

(7) KC-135 CPT Simulator facility in the amount of $3,000,000 at Plattsburgh Air Force Base, New York.

(8) Bitburg, Germany, three hundred and thirty-two units of family housing, $26,414,000.

(9) La Junta, Colorado, forty units of family housing $4,000,000.

(10) GEODSS Site 5, Portugal, Composite Support Facility in the amount of $2,250,000 and Spacetrack Observation Facility in the amount of $12,400,000.

TITLE XXIV—DEFENSE AGENCIES

SEC. 2401. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) Inside the United States.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

DEFENSE COMMUNICATIONS AGENCY

Arlington Service Center, Virginia, $742,000.

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Adak, Alaska, $19,000,000.

Defense Depot, Tracy, California, $590,000.

Defense Fuel Support, Pearl City, Hawaii, $1,900,000.

Defense Reutilization and Marketing Office, Fort Campbell, Kentucky, $1,600,000.

Defense Reutilization and Marketing Office, Offutt Air Force Base, Nebraska, $430,000.

Defense Depot, Mechanicsburg, Pennsylvania, $460,000.

Defense Reutilization and Marketing Office, Carswell Air Force Base, Texas, $350,000.

Defense Depot, Ogden, Utah, $6,000,000

Cheatham Annex, Virginia, $450,000.

DEFENSE MAPPING AGENCY

Hydrographic/Topographic Center, Brookmont, Maryland, $5,209,000.

DEFENSE MEDICAL FACILITIES OFFICE

Marine Corps Base, Camp Pendleton, California, $5,000,000.

March Air Force Base, California, $3,000,000.

Naval Station, North Island, California, $7,200,000.

Naval Station, Treasure Island, California, $11,000,000.

Tyndall Air Force Base, Florida, $800,000.

Fort Benning, Georgia, $700,000.

Robins Air Force Base, Georgia, $3,600,000.

Fort Leonard Wood, Missouri, $1,450,000.

Kirtland Air Force Base, New Mexico, $2,550,000.

Seymour Johnson Air Force Base, North Carolina, $3,700,000.

Fort Sill, Oklahoma, $54,000,000.

Marine Corps Recruit Depot, Parris Island, South Carolina, $4,100,000.

Corpus Christi, Texas, $6,100,000.

Dyess Air Force Base, Texas, $950,000.

NATIONAL DEFENSE UNIVERSITY

Fort McNair, District of Columbia, $28,000,000.

NATIONAL SECURITY AGENCY

Fort Meade, Maryland, $2,230,000.

Classified Locations, $20,000,000.

OFFICE OF THE SECRETARY OF DEFENSE

Fort Belvoir, Virginia, $3,000,000.

Classified Location, $4,200,000.

STRATEGIC DEFENSE INITIATIVE ORGANIZATION

Falcon Air Force Station, Colorado, $65,000,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

DEFENSE COMMUNICATIONS AGENCY

Yokota Air Base, Japan, $785,000.

DEFENSE LOGISTICS AGENCY

Defense Reutilization and Marketing Office, Bitburg, Germany, $800,000.

Defense Reutilization and Marketing Office, Kaiserslautern, Germany, $500,000.

DEFENSE MEDICAL FACILITIES OFFICE

Downs Barracks, Germany, $4,200,000.

Geilenkirchen Air Base, Germany, $450,000.

Hahn Air Base, Germany, $18,500,000.

Patch Barracks, Germany, $4,700,000.

Rhein-Main Air Base, Germany, $14,200,000.

Smith Barracks, Germany, $5,100,000.

Spangdahlem Air Base, Germany, $1,250,000.

Wildflecken, Germany, $4,800,000.

Camp Howze 2nd Infantry Division, Korea, $780,000.

Seoul, Korea, $55,000,000.

Taegu Air Base, Korea, $4,400,000.

Royal Air Force, High Wycombe, United Kingdom, $720,000.

Royal Air Force, Lakenheath, United Kingdom, $41,000,000.

Base 54, $12,800,000.

Classified Locations, $19,500,000.

DEFENSE NUCLEAR AGENCY

Headquarters, Field Command, Johnston Island, $2,644,000.

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

Aschaffenburg, Germany, $8,151,000.

Bad Kissingen, Germany, $1,620,000.

Baumholder, Germany, $1,940,000.

Erlangen, Germany, $3,890,000.

Gelnhausen, Germany, $1,482,000.

Giessen, Germany, $7,627,000.

Wildflecken, Germany, $2,752,000.

Keflavik, Iceland, $5,434,000.

Aviano, Italy, $9,450,000.

Pusan, Korea, $1,980,000.

Seoul, Korea, $7,332,000.

Brunssum, the Netherlands, $8,863,000.

DEPARTMENT OF DEFENSE SECTION VI SCHOOLS

Fort Buchanan, Puerto Rico, $9,110,000.

NATIONAL SECURITY AGENCY

Classified Locations, $11,250,000.

STRATEGIC DEFENSE INITIATIVE ORGANIZATION

Pacific Missile Range, Kwajalein, $16,000,000.

SEC. 2402. FAMILY HOUSING

The Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(10)(A), construct or acquire three family housing units (including land acquisition) at classified locations in the total amount not to exceed $400,000.

SEC. 2403. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

Subject to section 2825 of title 10, United States Code, the Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(10)(A), improve existing military family housing units in an amount not to exceed $113,000.

SEC. 2404. AFCENT SCHOOL

The Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(2), contribute funds in the amount of $8,863,000 to the Government of the Netherlands (in its capacity as construction agent) for the United States share of the cost of the International Elementary and High School project in Brunssum, the Netherlands.

SEC. 2405. CONFORMING STORAGE FACILITIES

Section 2404(a) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661), is amended to read as follows:

"(a) AUTHORITY TO CONSTRUCT.—The Secretary of Defense may, using not more than $10,000,000 appropriated for fiscal year 1987, not more than $5,000,000 appropriated for fiscal year 1988, and not more than $9,300,000 appropriated for fiscal year 1989, carry out military construction projects not otherwise authorized by law for conforming storage facilities.".

SEC. 2406. DEFENSE ACCESS ROADS

The Secretary of Defense may, using amounts appropriated pursuant to section 2407(a)(5), make advances to the Secretary of Transportation for the construction of defense access roads under section 210 of title 23, United States Code, at Fort Meade, Maryland, in the amount of $12,000,000.

SEC. 2407. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for military construction, land acquisition, and military family housing functions of the Department of Defense (other than the military departments), in the total amount of $711,550,000, as follows:

(1) For military construction projects inside the United States authorized by section 2401(a), $236,311,000.

(2) For military construction projects outside the United States authorized by section 2401(b), $262,010,000.

(3) For military construction projects at Fort Sam Houston, Texas, authorized by section 2401(a) of the Military Construction Authorization Act, 1987, $23,000,000.

(4) For military construction projects at Fort Lewis, Washington, authorized by section 101(a) of the Military Construction Authorization Act, 1985, $72,000,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $12,000,000.

(6) For unspecified minor construction projects under section 2805 of title 10, United States Code, $6,000,000.

(7) For contingency construction projects of the Secretary of Defense under section 2804 of title 10, United States Code, $8,000,000.

(8) For architectural and engineering services and for construction design under section 2807 of title 10, United States Code, $62,229,000.

(9) For conforming storage facilities constructed under the authority of section 2404 of the Military Construction Authorization Act, 1987, $9,300,000.

(10) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $513,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $20,187,000, of which not more than $17,179,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) LIMITATION OF TOTAL COST OF CONSTRUCTION PROJECTS.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2401 may not exceed—

(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a);

(2) $27,000,000 (the balance of the amount authorized under section 2401(a) for the construction of a medical facility at Fort Sill, Oklahoma); and

(3) $27,500,000 (the balance of the amount authorized under section 2401(b) for the construction of a medical facility at Seoul, Korea).

(c) RESTRICTION ON CERTAIN FUNDING.—Of the amounts appropriated pursuant to this section or otherwise made available to the Department of Defense for fiscal year 1989, not more than $65,000,000 may be obligated or expended for use in planning and construction of a National Test Facility for the Strategic Defense Initiative at Falcon Air Force Base, Colorado.

SEC. 2408. RESITING OF OVERSEAS CONTINGENCY MEDICAL FACILITY

Section 2141(b) of the Military Construction Authorization Act, 1988 and 1989 (division B of Public Law 100-180; 101 Stat. 1201) is amended by striking out "RAF Wethersfield, United Kingdom, $740,000." under the heading "DEFENSE MEDICAL FACILITIES OFFICE" and inserting in lieu thereof "Boscombe Downs, United Kingdom, $740,000.".

SEC. 2409. EXTENSION OF CERTAIN PREVIOUS AUTHORIZATIONS

Notwithstanding the provisions of section 2401(a) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661), authorizations for the following project authorized in section 2401 of that Act shall remain in effect until October 1, 1989, or the date of the enactment of an Act authorizing appropriations for military construction for fiscal year 1990, whichever is later:

DECCO Computer Center and Administrative Facility in the amount of $7,600,000 at Scott Air Force Base, Illinois.

SEC. 2410. REYNOLDS ARMY COMMUNITY HOSPITAL, FORT SILL, OKLAHOMA, AND SEOUL ARMY COMMUNITY HOSPITAL, SEOUL, KOREA

Subject to section 2401, the Secretary of Defense may enter into one or more contracts, in advance of appropriations therefor, for the construction of the military construction projects authorized by section 2401 at Reynolds Army Community Hospital, Fort Sill, Oklahoma, and the Seoul Army Community Hospital, Seoul, Korea, if each such contract limits the amount of payments that the Federal Government is obligated to make under such contracts to the amount of appropriations available, at the time such contract is entered into, for obligation under such contract.

TITLE XXV—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

SEC. 2501. AUTHORIZED CONSTRUCTION AND LAND ACQUISITION PROJECTS

The Secretary of Defense may make contributions for the North Atlantic Treaty Organization Infrastructure Program as provided in section 2806 of title 10, United States Code, in an amount not to exceed the sum of the amount authorized to be appropriated for this purpose in section 2502 and the amount collected from the North Atlantic Treaty Organization as a result of construction previously financed by the United States.

SEC. 2502. AUTHORIZATION OF APPROPRIATIONS, NATO

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1988, for contributions by the Secretary of Defense under section 2806 of title 10, United States Code, for the share of the United States of the cost of projects for the North Atlantic Treaty Organization Infrastructure Program, as authorized by section 2501, in the amount of $492,000,000.

TITLE XXVI—GUARD AND RESERVE FACILITIES

SEC. 2601. AUTHORIZED GUARD AND RESERVE CONSTRUCTION AND LAND ACQUISITION PROJECTS

There are authorized to be appropriated for fiscal years beginning after September 30, 1988, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of title 10, United States Code (including the cost of acquisition of land for those facilities), the following amounts:

(1) For the Department of the Army—

(A) for the Army National Guard of the United States, $203,859,000; and

(B) for the Army Reserve, $84,411,000.

(2) For the Department of the Navy, for the Naval and Marine Corps Reserves, $54,900,000.

(3) For the Department of the Air Force—

(A) for the Air National Guard of the United States, $154,758,000; and

(B) for the Air Force Reserve, $63,600,000.

SEC. 2602. AIRCRAFT PARKING RAMP/HOLDING PAD AT YEAGER AIRPORT, CHARLESTON, WEST VIRGINIA

There is authorized to be constructed, with funds remaining available as the result of savings on construction projects of the Air National Guard of the United States for which funds were appropriated for fiscal year 1987, an aircraft parking ramp/holding pad for the Air National Guard of the United States at Yeager Airport at Charleston, West Virginia, in the amount of $3,300,000, except that no such funds may be obligated for such purpose until the expiration of 30 days after the date on which the Secretary of the Air Force transmits to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on the proposed obligation of such funds.

SEC. 2603. CONSTRUCTION OF REPLACEMENT FACILITIES AT O'HARE AIR RESERVE FORCES FACILITY, ILLINOIS

(a) General Rule.—(1) The Secretary of the Air Force may use funds received from the transaction described in paragraph (3) for the construction of reserve component facilities on land under the jurisdiction of the Department of Defense at O'Hare International Airport, Chicago, Illinois.

(2) The Secretary may provide for the construction of such reserve component facilities with funds received from the transaction referred to in paragraph (1) or may permit the City of Chicago to construct such facilities and, upon completion of the construction, have the ownership of such facilities transferred to the United States.

(3) The transaction referred to in paragraph (1) is an exchange of lands and facilities owned by the United States and under the jurisdiction of the Department of Defense at O'Hare International Airport, Chicago, Illinois, for interests in lands owned by the City of Chicago, Illinois, at such airport. The market value of the interest in lands and the amount of funds received by the United States in such transaction shall be at least equal to the market value of the lands and facilities conveyed by the United States in such transaction.

(b) Additional Use of Funds.—The Secretary may also use the funds from the transaction referred to in subsection (a)(1) to meet expenses, other than construction expenses, incurred by the Secretary in connection with the construction of the facilities referred to in such subsection.

(c) Excess Funds.—Funds received from the transaction described in subsection (a)(3) and not expended for purposes specified in this section shall be paid into the miscellaneous receipts of the Treasury.

(d) Reporting Requirement.—The Secretary shall transmit a report to the Committees on Armed Services of the Senate and the House of Representatives at least 21 days before taking any action under paragraph (1) or (2) of subsection (a) or under subsection (b). Such report shall contain a description of the action which the Secretary plans to take under such paragraph or subsection.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions as the Secretary considers appropriate to protect the interest of the United States with respect to any action carried out under this section.

TITLE XXVII—EXPIRATION OF AUTHORIZATIONS; EFFECTIVE DATE

SEC. 2701. EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

(a) Expiration of Authorizations After Two Years.—Except as provided in subsection (b), all authorizations contained in titles XXI, XXII, XXIII, XXIV, and XXV for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor) shall expire on October 1, 1990, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1991, whichever is later.

(b) Exception.—The provisions of subsection (a) do not apply to authorizations for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor), for which appropriated funds have been obligated before October 1, 1990, or the date of the enactment of an Act authorizing funds for military construction for fiscal year 1991, whichever is later, for construction contracts, land acquisition, family housing projects and facilities, or contributions to the NATO Infrastructure Program.

SEC. 2702. EFFECTIVE DATE

Except as otherwise specifically provided, this division shall take effect on October 1, 1988, or the date of enactment of this Act, whichever is later.

TITLE XXVIII—GENERAL PROVISIONS

Part A—Program Changes

SEC. 2801. LONG-TERM FACILITIES CONTRACTS

Section 2809(a)(3) of title 10, United States Code, is amended by striking out "20 years" and inserting in lieu thereof "32 years".

SEC. 2802. INCREASE IN FOREIGN HOUSING LEASING AUTHORITY

Section 2828(e)(2) of title 10, United States Code, is amended by striking out "36,000" and inserting in lieu thereof "38,000".

SEC. 2803. REPORTS ON REAL PROPERTY TRANSACTIONS

Subsections (a), (b), and (e) of section 2662 of title 10, United States Code, are amended by striking out "$100,000" each place it appears and inserting in lieu thereof "$200,000".

SEC. 2804. NOTIFICATION REQUIREMENT RELATING TO ACQUISITION OF INTEREST IN LAND

Section 2672 of title 10, United States Code, is amended—

(1) in subsection (a)(1), by striking out "Subject to subsection (b), the" and inserting in lieu thereof "The";

(2) by striking out subsection (b); and

(3) by redesignating subsection (c) as subsection (b).

SEC. 2805. PLANNING ASSISTANCE FOR IMPACTED COMMUNITIES

(a) Modification of Authority.—Paragraph (1) of section 2391(b) of title 10, United States Code, is amended to read as follows:

"(1) The Secretary of Defense may make grants, conclude cooperative agreements, and supplement funds available under Federal programs administered by agencies other than the Department of Defense in order to assist State and local governments in planning community adjustments and economic diversification required (A) by the proposed or actual establishment, realignment, or closure of a military installation, (B) by the cancellation or termination of a Department of Defense contract or the failure to proceed with an approved major weapon system program, (C) by a publicly-announced planned major reduction in Department of Defense spending that would directly and adversely affect a community, or (D) by the encroachment of a civilian community on a military installation, if the Secretary determines that an action described in clause (A), (B), or (C) is likely to have a direct and significantly adverse consequence on the affected community or, in the case of an action described in clause (D), if the Secretary determines that the encroachment of the civilian community is likely to impair the continued operational utility of the military installation.".

(b) CONDITION ON ASSISTANCE.—Section 2391(b) of such title is further amended—

(1) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(2) by inserting after paragraph (3) the following new paragraph:

"(4) In the case of a publicly-announced planned major reduction in Department of Defense spending that will directly and adversely affect a community, assistance may be made under paragraph (1) only if the publicly-announced planned major reduction will result in the loss of 1,000 or more full-time Department of Defense and contractor employee positions over a five-year period in the locality of the affected community.".

PART B—MISCELLANEOUS

SEC. 2811. PROHIBITION OF FUNDING FOR CERTAIN MILITARY CONSTRUCTION CONTRACTS ON GUAM

(a) IN GENERAL.—Except as provided in subsection (b), no funds appropriated pursuant to authorizations made by this division may be obligated or expended with respect to any contract for a military construction project on Guam if any work is carried out on such project by any person who is a nonimmigrant alien described in section 101(a)(15)(H)(ii) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(ii)).

(b) EXCEPTION.—In any case in which there is no acceptable bid made in response to a solicitation by the Secretary of a military department for bids on a contract for a military construction project on Guam and the Secretary concerned makes a determination that the prohibition contained in subsection (a) is a significant deterrent to obtaining bids on such contract, the Secretary concerned may make another solicitation for bids on such contract and the prohibition contained in subsection (a) shall not apply to such contract after the 21-day period beginning with the date on which the Secretary concerned transmits a report concerning such contract to the Committees on Armed Services of the Senate and the House of Representatives.

(c) EFFECTIVE DATE.—The provisions of this section shall apply to contracts entered into, amended, or otherwise modified on or after the date of the enactment of this Act.

SEC. 2812. BROOKE ARMY MEDICAL CENTER

(a) INCREASE IN PROJECT AUTHORITY.—(1) Section 2401(a) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661; 100 Stat. 4034), is amended by striking out "$241,000,000" in the item relating to Fort Sam Houston, Texas, under the heading relating to Defense Medical Facilities Office and inserting in lieu thereof "$275,000,000".

(2) The limitation on the total cost of projects carried out under section 2401 of such Act is hereby increased by $34,000,000.

(b) CONFORMING AMENDMENT.—Section 2403(a)(2) of such Act is amended by striking out ", but the" and all that follows through "beds".

SEC. 2813. COMMUNITY PLANNING ASSISTANCE

(a) ADDITIONAL AUTHORITY.—In addition to the authority under any other provision of law, the Secretary of Defense may provide community planning assistance under section 2391(b) of title 10, United States Code, in the following amounts:

(1) Not to exceed $350,000 for communities located near newly established light infantry division posts.

(2) Not to exceed $250,000 for communities located near newly established Navy strategic dispersal program homeports.

(3) Not to exceed $150,000 for communities located near Whiteman Air Force Base, Knob Noster, Missouri.

(b) EXPIRATION OF AUTHORITY.—The authority to provide community planning assistance under subsection (a) expires on September 30, 1991.

SEC. 2814. FORT DERUSSY, HAWAII

(a) USE.—The Secretary of the Army shall administer Fort DeRussy, Hawaii, as the primary rest and recreation area for members of the Armed Forces in the Pacific.

(b) PROHIBITION.—Notwithstanding any other provision of law, funds appropriated or otherwise available to the Department of Defense may not be used in any way, directly or indirectly, for the purpose of selling, leasing, renting, excessing, or otherwise disposing of any portion of the land constituting Fort DeRussy, Hawaii (as constituted on the date of the enactment of this Act).

(c) IMPLEMENTATION OF PLAN.—(1) Section 2740(d) of the Military Construction Authorization Act, 1987 (division B of Public Law 99-661; 100 Stat. 4051), is amended—

(A) by striking out "PAYMENT OF EXCESS INTO TREASURY" in the subsection heading and inserting in lieu thereof "EXCESS AMOUNT"; and

(B) by striking out "shall deposit" and all that follows through the period and inserting in lieu thereof "may use such amount for the implementation of the plan established by the Secretary of the Army on March 1, 1988, for the future use and development of Fort DeRussy, Hawaii, except that such amount may not be used to pay for the construction of nonappropriated-fund projects identified in such plan. The Secretary shall deposit any part of such amount not used for such purpose at the end of the ten-year period beginning on the date of the enactment of the Military Construction Authorization Act, 1989, into the Treasury as miscellaneous receipts.".

(2) Section 2332(d) of the Military Construction Authorization Act, 1988 and 1989 (division B of Public Law 100-180; 100 Stat. 1223), is amended—

(A) by striking out "PAYMENT OF EXCESS INTO TREASURY" in the subsection heading and inserting in lieu thereof "EXCESS AMOUNT"; and

(B) by striking out "shall deposit" and all that follows through the period and inserting in lieu thereof "may use such amount for the implementation of the plan established by the Secretary of the Army on March 1, 1988, for the future use and development of Fort DeRussy, Hawaii, except that such amount may not be used to pay for the construction of nonappropriated-fund projects identified in such plan. The Secretary shall deposit any amount not used for such purpose at the end of the ten-year period beginning on the date of the enactment of the Military Construction Authorization Act, 1989, into the Treasury as miscellaneous receipts.".

SEC. 2815. WURTSMITH AIR FORCE BASE, MICHIGAN

The library building located on the Wurtsmith Air Force Base, Michigan, is hereby designated as the "General Earl T. O'Loughlin Library". Any reference to such building in a law, rule, map, document, record, or other paper of the United States shall be considered to be a reference to the "General Earl T. O'Loughlin Library".

SEC. 2816. LOCATION OF HAZARDOUS WASTE STORAGE FACILITY AT PEARL HARBOR NAVAL SHIPYARD

The Secretary of the Navy may not construct a hazardous waste storage facility for the Pearl Harbor Naval Shipyard at a location closer than 600 feet to a public school.

SEC. 2817. SOLICITATION FOR PROPOSALS FOR OFFICE SPACE FOR NAVY

(a) IN GENERAL.—The Administrator of General Services, in coordination with the Secretary of the Navy, shall issue a solicitation for proposals for the acquisition of such office and related space within the National Capital Region as the Secretary determines necessary to meet the needs of the Navy within such region.

(b) REPORT.—The Secretary, after consultation with the Administrator, shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report regarding the proposals received in response to the solicitation issued pursuant to subsection (a). Such report shall include a comparative cost analysis of meeting the office and related space needs of the Navy within the National Capital Region by means of lease, lease-purchase, and military construction, respectively. The report shall identify, and include recommendations for meeting, the current and long-term office and related space needs of the Navy within the National Capital Region.

(c) DEADLINE FOR REPORT.—The report required by subsection (b) shall be submitted not later than 90 days after the date established by the Administrator for receiving responses to the solicitation for proposals issued pursuant to subsection (a).

SEC. 2818. THIRD INFANTRY DIVISION MEMORIAL

(a) IN GENERAL.—The Society of the Third Infantry Division may establish, on grounds in Arlington National Cemetery selected pursuant to subsection (b)(1), a memorial in honor and in commemoration of the members of the "Rock of the Marne" of the Third Infantry Division, United States Army, who bravely served their country in World War I, World War II, and the Korean conflict.

(b) ADMINISTRATIVE PROVISIONS.—(1) The Secretary of the Army may select a suitable site on grounds in Arlington National Cemetery upon which may be established the memorial authorized in subsection (a).

(2) The design and plans for such memorial shall be subject to the approval of the Secretary of the Army, the American Battle Monuments Commission, the National Capital Planning Commission, and the Commission of Fine Arts.

(3) The United States shall not be liable for any expense in connection with the con-

struction of the memorial authorized by subsection (a).

(4) The maintenance and care of the memorial authorized under this section shall be the responsibility of the Secretary of the Army.

(c) Expiration of Authority.—The authority provided in this section shall expire at the end of the 5-year period beginning on the date of the enactment of this Act unless—

(1) construction of the memorial authorized in subsection (a) is commenced within such period; and

(2) before construction of the memorial begins, the Society of the Third Infantry Division certifies to the Secretary of the Army the amount available for the construction of the memorial and the Secretary determines that such amount is sufficient to complete the memorial.

SEC. 2819. COMMISSION ON ALTERNATIVE UTILIZATION OF MILITARY FACILITIES

(a) Establishment of Commission.—Within 30 days after the date of the enactment of this Act, the President shall establish a Commission on Alternative Utilization of Military Facilities. The Commission shall be composed of representatives from the Department of Defense, the Bureau of Prisons of the Department of Justice, the National Institute on Drug Abuse of the Department of Health and Human Services, and the General Services Administration.

(b) Report Requirements.—The Commission shall, on a biannual basis—

(1) prepare a report listing active and nonactive military facilities that the Secretary of Defense has identified as subjects for closure, as being underutilized in whole or part, or as being excess to the needs of the Department of Defense;

(2) identify those facilities, or parts of facilities, that could be effectively utilized or renovated to serve as minimum security facilities for nonviolent prisoners;

(3) identify those facilities, or parts of facilities, that could be effectively utilized or renovated to serve as drug treatment facilities for nonviolent drug abusers; and

(4) transmit a list of such facilities to the President and to the Congress.

(c) Deadline for Reports.—The first report required by subsection (b) shall be submitted to the President and Congress not later than October 1, 1988. Subsequent reports under such subsection shall be submitted not later than September 1 of every second year after submission of the first report through fiscal year 1996.

Part C—Real Property Transactions

SEC. 2821. LAND EXCHANGE, ALAMEDA COUNTY, CALIFORNIA

(a) In General.—(1) Subject to subsections (b) through (d), the Secretary of the Army may convey to the County of Alameda, California, and to the City of Dublin, California, the real properties referred to in paragraph (2) in exchange for conveyance to the United States of approximately 445 acres of real property, together with improvements thereon, of the property described in paragraph (3).

(2) The properties authorized to be conveyed by the Secretary are as follows:

(A) Approximately 35 acres of real property, together with improvements thereon, at the Reserve Forces Training Center, County of Alameda, California, to the County of Alameda, California.

(B) Approximately 12 acres of real property, together with improvements thereon, at such center to the City of Dublin, California.

(3) The property to be conveyed to the United States is a parcel of land consisting of approximately 445 acres, together with improvements thereon, located in the County of Alameda, California, which is under the jurisdiction of the East Bay Regional Park District, County of Alameda, California, and which was conveyed to such district by the United States by a deed dated February 2, 1973.

(4) The instrument of conveyance conveying the property referred to in paragraph (3) to the United States may, at the option of the East Bay Regional Park District—

(A) include a right of reversion on behalf of such district in the event that the property conveyed to the United States is no longer needed by the Department of the Army (as determined by the Secretary of the Army); and

(B) reserve to such district an easement consisting of not more than 25 acres along the most eastern boundary of the property for use by such district as a part of the Regional Trail System of such district.

(b) Additional Consideration.—If the fair market value of the properties conveyed by the United States pursuant to subsection (a) exceeds the fair market value of the property conveyed to the United States pursuant to such subsection, the County of Alameda, California, the City of Dublin, California, or the East Bay Regional Park District, as appropriate, shall pay the difference to the United States. Any such payment shall be covered into the Treasury as miscellaneous receipts.

(c) Legal Description and Surveys.—The exact acreage and legal description of the real property to be conveyed pursuant to this section (including the easement referred to in subsection (a)(4)) shall be determined by surveys that are satisfactory to the Secretary. The cost of such surveys shall be borne by the County of Alameda or the City of Dublin.

(d) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with the conveyances made pursuant to this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2822. LAND CONVEYANCE, LOMPOC, CALIFORNIA

(a) In General.—Subject to subsections (b) through (d), the Secretary of the Army may convey, without reimbursement, to the City of Lompoc, California, all right, title, and interest of the United States in and to a tract of real property (including improvements thereon) of approximately 100 acres located adjacent to the real property conveyed to the City pursuant to section 834 of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1526).

(b) Use of Property.—(1) The conveyance authorized by subsection (a) shall be subject to the condition that the real property conveyed shall be used only for educational purposes or the purposes provided in section 834 of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1526), or both.

(2) If the property conveyed pursuant to subsection (a) is not used for the purposes described in paragraph (1), all right, title, and interest in and to such property shall revert to the United States, which shall have the right of immediate entry thereon.

(c) Legal Description and Surveys.—The exact acreage and legal description of the property to be conveyed under subsection (a) shall be determined by surveys that are satisfactory to the Secretary. The cost of any such survey shall be borne by the City.

(d) Other Terms and Conditions.—The Secretary may require such other terms and conditions with respect to the conveyance under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2823. LAND EASEMENT, ORANGE COUNTY, CALIFORNIA

(a) In General.—Subject to subsections (b) through (e), the Secretary of the Navy may grant an easement to Orange County, California, for the construction and maintenance of flood control improvements (hereafter in this section referred to as "county improvements") on a tract of land owned by the United States, consisting of approximately 32 acres, located at the northern boundary of the Marine Corps Air Station, El Toro, California, and may grant such temporary rights to Orange County as the Secretary determines necessary for the construction of such improvements.

(b) Consideration.—(1) In consideration for the conveyance by the Secretary under subsection (a), Orange County shall convey to the United States a parcel of real property consisting of approximately one and one-half acres located adjacent to the Marine Corps Air Station, Tustin, California.

(2) The United States shall also be entitled to such flood control improvements at the Marine Corps Air Station, El Toro, California, as the Secretary and Orange County shall agree upon.

(3) The county improvements and additional flood control improvements shall be constructed at no cost to the United States.

(c) Payment of Excess Into Treasury.—If the fair market value of the easement described in subsection (a) exceeds the fair market value of the real property conveyed to the United States under subsection (b), Orange County shall pay the difference to the United States. Any such payment shall be covered into the Treasury as miscellaneous receipts.

(d) Legal Description of Property.—The exact acreages and legal descriptions of the real property to be conveyed under this section shall be determined by surveys which are satisfactory to the Secretary. The cost of any such survey shall be borne by Orange County.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2824. LAND EXCHANGE, SAN DIEGO, CALIFORNIA

(a) Exchange Authorized.—Subject to subsections (b) through (e), the Secretary of the Navy may convey to the San Diego Unified Port District of San Diego, California, such real property under the jurisdiction of the Navy in the City of San Diego, California, as the Secretary determines appropriate in exchange for one or more parcels of land, together with improvements thereon and consisting of approximately 32 acres, located adjacent to the San Diego Naval Station, San Diego, California, and owned by the San Diego Unified Port District.

(b) Limitation on Value of Property Exchanged.—The fair market value of the real property conveyed by the Secretary under subsection (a) may not exceed the fair market value of the real property received by the Secretary under such subsection, as determined by the Secretary.

(c) Notice to Committees.—The Secretary may not enter into an exchange under this section until the Secretary has notified the Committees on Armed Services and on Appropriations of the Senate and the House of

Representatives of the details of the proposed exchange and a period of 21 days has elapsed following the day on which the committees receive the notification.

(d) Legal Description of Property.—The exact acreages and legal descriptions of the real property to be conveyed under this section shall be determined by surveys which are satisfactory to the Secretary. The cost of any such survey shall be borne by San Diego Unified Port District.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2825. LAND TRANSFER, WASHINGTON, DISTRICT OF COLUMBIA

(a) In General.—The Administrator of General Services shall transfer, without consideration, to the Secretary of the Navy approximately 6 acres of real property (including Building 197 located thereon) located at a site referred to as the Southeast Federal Center near the Washington Navy Yard, Washington, D.C., and bounded on the east by Isaac Hull Avenue, on the north by Tingey Street, on the west by Buildings 116 and 118, and on the south by property owned by the Department of the Navy.

(b) Design of Building.—The Secretary of the Navy shall use not more than $9,200,000 of the amount appropriated pursuant to section 2205(a)(4) to initiate the redesign of Building 197 referred to in subsection (a).

SEC. 2826. LAND CONVEYANCE, OKALOOSA COUNTY, FLORIDA

Section 809(c) of the Military Construction Authorization Act, 1979 (Public Law 95-356; 92 Stat. 587), is amended by inserting before the period the following: "and a third parcel containing forty-two acres".

SEC. 2827. TRANSFER OF LAND, SUITLAND FEDERAL CENTER, MARYLAND

The Administrator of General Services shall transfer, without consideration, to the Secretary of the Navy such parcel of vacant land located at the Suitland Federal Center, Suitland, Maryland, as the Administrator, after consultation with the Secretary, determines—

(1) to be excess to the present and anticipated future needs of the General Services Administration at the Suitland Federal Center; and

(2) adequate to accommodate the needs of the Navy for the construction and operation of a facility to serve as the Naval Intelligence Command Headquarters authorized by section 2201.

SEC. 2828. AIR FORCE PLANT AT COLUMBUS, OHIO

(a) In General.—The Secretary of the Air Force may sell or lease, or issue a permit to another agency within the Department of Defense for use of, all or any portion of Air Force Plant No. 85 located in Columbus, Ohio. Any such action shall be carried out in accordance with applicable law except to the extent that such law is inconsistent with this section.

(b) Authority of Secretary.—(1) The Secretary shall provide that each deed entered into for the transfer of such property shall contain a covenant warranting that all remedial action necessary to protect human health and the environment with respect to any environmental contamination at the plant at the time of the sale, including any remedial action found to be necessary with respect to such contamination after the date of such transfer, has been or will be conducted by the United States. Such covenant shall be in lieu of any other covenant or other action required by any applicable law with respect to environmental restoration to be taken by the Federal Government at the plant before such transfer.

(2) In any case in which the Secretary provides a permit to another agency within the Department of Defense to use any portion of the plant, the Secretary may provide for the environmental restoration of such portion by such other agency with funds available to the Department of the Air Force for environmental restoration.

(3) To the extent that the Secretary decides to take remedial action with respect to environmental contamination in any portion of the plant before the sale or lease of such portion, the Secretary may use funds provided by the purchaser or lessor for such purpose.

(c) Deduction of Expense From Proceeds of Sale or Lease.—The Secretary may use the proceeds of any sale or lease of the property described in subsection (a) to credit the accounts from which funds were expended by the Secretary for reasonable and necessary expenses, other than for environmental restoration, incurred in connection with the sale or lease. The Secretary may also use the proceeds of such sale or lease directly for the purpose of environmental restoration at the plant. The remaining proceeds of the sale or lease shall be credited to the general fund of the Treasury.

(d) Additional Terms.—The Secretary may require such additional terms and conditions in connection with any sale or lease entered into under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2829. LAND CONVEYANCE, FORT JACKSON, SOUTH CAROLINA

(a) Authority To Sell.—Subject to subsections (b) through (e), the Secretary of the Army may sell and convey all right, title, and interest of the United States in and to a parcel of land, consisting of a total of approximately 32 acres, that comprises a portion of Fort Jackson, South Carolina, and is excess to the needs of the Army.

(b) Competitive Bid Requirement; Minimum Sale Price.—(1) The Secretary shall use competitive procedures for the sale of land referred to in subsection (a).

(2) In no event may any of the land referred to in subsection (a) be sold for less than the fair market value of the land, as determined by the Secretary.

(c) Use of Proceeds of Sale.—(1) The Secretary may use the proceeds from the sale of the land referred to in subsection (a) for the rehabilitation of military family housing at Fort Jackson, South Carolina.

(2) Any proceeds of the sale not used for such purpose shall be covered into the Treasury as miscellaneous receipts.

(d) Legal Description of Lands.—The exact acreage and legal description of the property to be conveyed under subsection (a) shall be determined by a survey that is satisfactory to the Secretary.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with any transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

And the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the bill and agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4481) to provide for the closing and realigning of certain military installations during a certain period, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment to the text of the bill struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

Except with respect to the discussion of the actions of the conferees regarding base closure and realignment, all references in this joint statement to provisions of the House bill refer to the provisions of H.R. 4264 (the National Defense Authorization Act for fiscal year 1989), as passed by the House on May 11, 1988, and all references to provisions of the Senate amendment refer to the provisions of the Senate amendment to the text of H.R. 4264, as passed by the Senate on May 27, 1988.

All references to provisions of the House bill on base closure and realignment refer to such provisions in H.R. 4481 (the Defense Savings Act of 1988) as passed by the House on July 12, 1988. All references to provisions of the Senate amendment on base closure and realignment refer to the provisions on base closure and realignment contained in the Senate amendment to H.R. 4481, as passed by the Senate on September 15, 1988.

The text of H.R. 4481, as amended and passed by the Senate on September 15, 1988, is identical to the text of H.R. 4264 (the National Defense Authorization Act for fiscal year 1989) as amended and passed by the Senate on May 27, 1988.

Summary Statement of Conference Action

The conferees recommend authorization for the Department of Defense for procurement, research and development, test and evaluation, operation and maintenance, working capital funds, military construction and family housing, weapons programs of the Department of Energy, and civil defense totaling $221.1 billion. This figure is $0.1 billion above the amount requested by the President, $0.1 billion above the Senate amendment, and $0.1 billion below the House bill.

The budget summit between the President and the Congress in November 1987 resulted in an agreement that national defense spending for fiscal year 1989 would be $299.5 billion. This agreement was reflected in the Budget Resolution.

The authorizations included in this Act are substantially less than the functional ceiling of $299.5 billion for national defense provided in the Budget Resolution. The primary reason for this difference is that, although the military end strengths and pay raise are authorized in this Act, the actual funding for military pay and benefits (approximately $78.5 billion) is not reflected in this Act.

SUMMARY TABLE OF AUTHORIZATIONS

The defense authorization act provides authorizations for appropriations but does not provide budget authority. Budget authority is provided in appropriations acts.

In order to relate the conference recommendations to the Budget Resolution, matters in addition to the dollar authorizations contained in this Act must be taken into account. A number of programs in the defense function are authorized permanently or, in certain instances, authorized in other annual legislation. In addition, the authorization act establishes personnel levels and includes a number of legislative provisions affecting military compensation.

The table below summarizes authorizations included in the Act for fiscal year 1989 and, in addition, summarizes the implication of the conference action for the budget totals for National Defense (Budget Function 050).

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATIONS AND OTHER NATIONAL DEFENSE AUTHORIZATIONS

TITLE I—PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,791.5 million for Army aircraft procurement. The House bill would authorize $2,959 million. The Senate amendment would authorize $2,794.9 million. The conferees recommend authorization of $2,883.7 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Strengthening the armor-antiarmor balance

Both the House report (H. Rept. 100-563) and the Senate report (S. Rept. 100-326) emphasized the need to strengthen conventional defenses, especially in light of ratification of the INF treaty. Both reports note the deterioration of the armor-antiarmor balance and the need to reverse that deterioration in order to preserve an effective deterrent in NATO. To that end, the conferees recommend numerous changes to the budget request to strengthen conventional defense capabilities.

The conferees recommend multiyear procurement contracts for the two primary antiarmor systems, the M1 tank and the AH-64 helicopter, based on comprehensive master plans developed during the past year. The conferees provided additional procurement and R&D funds for urgent improvements to existing antitank missiles, including the Hellfire and TOW 2 missiles. The conferees recommended increased production rates for the Hellfire and Maverick missiles. The conferees also recommend acceleration of the development of future promising antiarmor systems, including a Block .3 version of the M1 tank, the fiber optic guided missile, the hypervelocity missile, and the sense and destroy armor (SADARM) program.

The conferees note that the serious deterioration of the armor-antiarmor balance cannot be reversed in one year and will require sustained investment by the Department of Defense. The conferees emphasize the urgent nature of the current problem, especially in the immediate post-INF security environment in Europe, and direct the Secretary to insure that these programs receive sufficient funds in the upcoming Five Year Defense Program for fiscal years 1990 to 1994.

Guardrail/Common Sensor Aircraft

The amended budget request included $69.4 million for six RC-12K GUARDRAIL/Common Sensor (GRCS) aircraft.

The House bill would authorize the requested amount.

The fiscal year 1989 Intelligence Authorization Act (H.R. 4387), would prohibit the procurement of more than three aircraft and sensors until the Army had presented a plan that includes the contribution of Remotely Piloted Vehicles (RPVs) and other reconnaissance assets to support Army airborne signal intelligence (SIGINT) requirements. Other studies that would be required by H.R. 4387 include the Army plans for a new aircraft develpment program and its relationship to RC-12K procurement, and the modeling and simulation tools used to certify the GRCS.

The conferees endorse these reporting requirements and the program contingency. The conferees believe that this report can be completed by November 1, 1988, and will not adversely affect contract plans. The conferees further agree that the Army must carefully consider all available SIGINT assets, current and future, in setting GRCS force levels, but note that since the termination of the Precision Location Strike System (PLSS), the GRCS is integral to supporting follow-on force attack targeting requirements.

AH-64 Attack Helicopter

The amended budget request contained $773.1 million for procurement of 72 aircraft and $36 million for advance procurement to continue production in fiscal year 1990.

The House bill would authorize $813.1 million for 72 aircraft for fiscal year 1989 and $40 million for procurement of two combat mission simulators. The House bill would also authorize $92 million for advance procurement, and would direct the Army to enter into a multiyear contract if certain criteria (specified in Section 114 of the House bill) were satisfied.

The Senate amendment would authorize $813.1 million for this program. The increase of $40 million would be authorized because it is not possible to procure 72 aircraft with the funds requested by the Army. The Senate amendment would also authorize $76 million for advance procurement, and would direct the Army to enter into a multiyear contract for 72 aircraft over a three-year period if certain conditions could be satisfied. The Senate amendment would also specify that none of the $40 million authorized to properly price the request in fiscal year 1989 could be obligated unless the Army does enter into a multiyear contract and the unit price for helicopters in fiscal year 1989 does not exceed the unit price negotiated under the terms of the multiyear contract.

The conferees recommend an authorization of $813.1 million, with not less than $20 million to be provided to procure a mission simulator. The remaining $20 million in additional authorization may be used to properly price the AH-64 procurement in fiscal year 1989, subject to the same conditions specified by the Senate report (S. Rept. 100-326). If the funds are not required, they may be used to procure an additional mission simulator.

The conferees recommend an authorization of $76 million for advance procurement and direct the Army to negotiate a multiyear contract, subject to the restrictions outlined in section 107. The conferees note that the Army has developed two alternative approaches to a multi-year contract: a three-year multiyear contract for 72 aircraft per year, and a four-year multiyear contract for 60 aircraft per year. The Army may pursue either approach, subject to the conditions specified in section 107. The conferees do believe, however, that it would be desirable to retain the highest practical production rate consistent with overall Army budget resources.

The conferees direct that not less than one battalion of AH-64 helicopters be provided to the Reserve Component each year.

OV-1 Surveillance Aircraft

The amended budget request contained $12.2 million for the modification of OV-1 surveillance aircraft.

The House bill would deny all funding for the modification program.

The Senate amendment would approve the program at the requested level.

The conferees recommend an authorization of $6.212 million. The conferees express concern over the overall affordability of the OV-1 modification program. The conferees doubt that it is appropriate or affordable to modify the entire fleet of OV-1 aircraft.

Army helicopter improvement program

The amended budget request contained $161 million for the Army Helicopter Improvement Program (AHIP).

The House bill would authorize $204 million for 36 aircraft.

The Senate amendment would authorize the requested amount.

The Senate recedes.

The conferees have learned of the Army's plans to modify 16 existing AHIPs to the armed reconnaissance configuration and understand the cost to perform the modification could have been lowered if the modification were performed during the baseline AHIP upgrade. The conferees are concerned that if the Army has a requirement to modify additional AHIP aircraft to the armed configuration, additional funding will be required. This does not seem prudent in the existing budget environment. The conferees direct that the 36 AHIP aircraft authorized in fiscal year 1989 and future AHIP aircraft have the structural and electrical modifications (required for the armed reconnaissance configuration) installed during the baseline AHIP modification. This will allow the Army to equip cost-effectively fiscal year 1989 and future AHIPs with armament in the event the Army chooses to do so at a later date.

MISSILE PROCUREMENT, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,586.6 million for Army missile procurement. The House bill would authorize $2,686.7 million. The Senate amendment would authorize $2,541.8 million. The conferees recommend authorization of $2,605.2 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Army tactical missile system

The amended budget request contained $76.3 million to procure 66 Army Tactical Missiles Systems (ATACMS) in fiscal year 1989 and $4.3 million for advance procurement in fiscal year 1990.

The House bill would authorize the requested levels, but included a provision (Sec. 111(b)) that would restrict the obligation of certain funds until the Secretary of Defense certified that the total requirement for ATACMS had been established and submitted a report outlining the requirement and the associated acquisition strategy.

The Senate amendment would authorize the requested levels and would impose no obligation restrictions.

The House recedes.

The conferees support the ATACMS program, but believe that the Department of the Army should conduct an analysis of total requirements for the system. The Department is directed to conduct that analysis and provide the results to Congress with the submission of the fiscal year 1990 budget request.

The conferees understand that the Army could save approximately $12 million in future budgets if all of the fuzes for ATACMS submunitions could be procured at economic production rates. The conferees invite the Army to proceed with any administrative actions possible to achieve those savings. If legislative relief is required, the conferees direct the Army to propose such changes at the time the fiscal year 1990 budget request is submitted.

WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,960.6 million for Army weapons and tracked combat vehicles. The House bill would authorize $2,966.1 million. The Senate amendment would authorize $2,959.2 million. The conferees recommend authorization of $2,915.1 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

M1 tanks

The amended budget request contained $1,131.6 million to procure 545 M1 tanks and $212.1 million for advance procurement for fiscal year 1990. Subsequent to the budget submission, the Army determined that it intends to keep the M1 tank in production, to replace all current M60 tanks in the National Guard with M1s, and to retrofit early model M1s with the 120mm cannon.

The House bill would endorse this plan, authorize $1,131.6 million for tank procurement for the Army and $252.1 million for advance procurement, and direct the Army to enter into a five-year multiyear contract for 3,000 tanks, subject to the restrictions specified in section 114 of the House bill. The House report (H. Rept. 100-563) directed the Secretary of Army to report on the plan to equip the National Guard with M1 tanks. The House report further specified that the Army may not enter into the multiyear contract until the Secretary of Defense certifies that sufficient funds have been budgeted in the Five Year Defense Program for fiscal years 1990 to 1994 to support the new acquisition strategy.

The Senate amendment would authorize $1,131.6 million for procurement in fiscal year 1989 an $256.2 million for advance procurement. It would also specify that the Army should consider a multiyear contract for continued production. The Senate amendment would also endorse the Army's plans for modernizing the National Guard and would authorize $15 million to modify facilities to initiate modification of early model M1 tanks with the 120mm smoothbore cannon.

The conferees recommend an authorization of $1,131.6 million for procurement in fiscal year 1989 and $252.1 million for advance procurement. The conferees direct the Army to proceed with a multiyear contract for up to 3,000 tanks, subject to the conditions specified in section 102. The conferees also support the directive certification requirements associated with the M1 tank multiyear program as outlined in the House report (H. Rept. 100-563).

Prior year funding availability

The conferees recommend a reduction of $56.6 million in Weapons and Tracked Combat Vehicles because of the availability of prior year funds which are no longer required for their original purpose. The conferees understand that $26.6 million appropriated to procure M1 tanks and $30 million to procure M2 fighting vehicles is excess to original requirements and is available either to be transferred or rescinded.

AMMUNITION, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $2,007.8 million for Army ammunition. The House bill would authorize $2,051.6 million. The Senate amendment would authorize $2,035.5 million. The conferees recommend authorization of $2,064 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

OTHER PROCUREMENT, ARMY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $4,774 million for Army other procurement. The House bill would authorize $4,242.8 million. The Senate amendment would authorize $4,781.2 million. The conferees recommend authorization of $4,580.3 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Motorcycles

The amended budget request contained $4.3 million for motorcycles for the Army.

The House bill would authorize the amount requested. The House report (H. Rept. 100-563) also directed that the competition for motorcycles be concluded and a contract awarded by March 1, 1989.

The Senate amendment would deny any procurement for motorcycles.

The Senate recedes. The conferees acknowledge that the Army has had ample opportunity to conduct the competition and directs that it be resolved, and a contract awarded, not later than March 1, 1989.

High mobility multi-purpose wheeled vehicle

The amended budget request contained $158.4 million to procure high mobility multi-purpose wheeled vehicles..

Both the House bill and the Senate amendment would authorize the requested amount.

The conferees note that the Army was authorized last year to enter into a five-year multiyear contract for the high mobility multi-purpose wheeled vehicle program. The conferees understand that fiscal pressures within the Army have raised questions on whether it is possible to proceed with that multiyear contract. The conferees remain committed to the previous multiyear contract and expect the Army to proceed with that acquisition approach.

TRI-TAC equipment

The amended budget request contained $115.7 million for procurement of TRI-TAC equipment.

The House bill would reduce the request to $43.6 million and delete the fiscal year 1988 authorization of $33.3 million.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $79.531 million for the procurement of TRI-TAC equipment in fiscal year 1989 and retention of the $33.3 million authorized in fiscal year 1988.

The conferees question the Army's current plan to introduce competition in the program, and encourage the Under Secretary of Defense of Acquisition to review the plan for competition. The conferees also note that much of the equipment planned for procurement under the TRI-TAC program is equipment currently being procured under the Mobile Subscriber Equipment (MSE) contract. The conferees direct that the Army may not procure any item of equipment under the TRI-TAC program that is also being procured under the MSE program at a price higher than permitted under the MSE contract if it is to be procured from the same vendors.

SINCGARS

The amended budget request contained $267.2 million for 16,000 SINCGARS radios, including 9,500 radios with embedded communication security (ICOM).

The House bill would reduce the request to $154 million.

The Senate amendment would authorize the requested amount.

The House recedes with an amendment.

The conferees agree to authorize $222.8 million to purchase SINCGARS radios. The conferees also direct the Marine Corps (sec. 112) to obligate $29.3 million in prior year funds to procure SINCGARS radios. Finally, the conferees agree to reduce the request by $10 million due to availability of prior-year funds resulting from contract savings. Therefore, options three and four of the current procurement contract for SINCGARS will not require renegotiation.

The amended budget request for fiscal year 1989 is based on full-rate production of 16,000 SINCGARS radios. The conferees want to ensure that testing demonstrates that SINCGARs radios meet operational requirements before the Army enters full-rate production. The conferees understand that a review by the Defense Acquisition Board will occur prior to award of the full-rate production option. Consistent with the Defense Department's proposed review, the conferees direct that fiscal year 1989 procurement funds not be obligated until the Committees on Armed Services of the Senate and House of Representatives receive a certification by the Director of Operational Test and Evaluation that testing has demonstrated that each version of the radio meets all operational reliability requirements. The required certifications for the two versions of SINCGARs may be submitted independently.

The conferees also understand that the Army has selected a second source producer of SINCGARs radios. The radio design of the second source producer is substantially different from the current production design. The conferees emphasize that the Army may not obligate funds for any second source SINCGARs radio that is not fully and completely interoperable with the existing SINCGARs radio, to include the embedded secure communication operations.

Single channel objective tactical terminal

The amended budget request contained $55.1 million for procurement of 15 Single Channel Objective Tactical Terminals (SCOTT) and refurbishment of 15 engineering models to production line quality.

The House bill would deny authorization of the requested amount.

The Senate amendment would authorize the full request.

The conferees recommend authorization of $36.5 million for production of at least 13 production SCOTT AN/TSC-124 MILSTAR terminals, logistics support of engineering development models (EDMs), and continued MILSTAR sytstem engineering support.

Although the conferees support the total MILSTAR program, they are concerned about the relative priority accorded these systems by the Services and the total number of terminals required. The conferees direct that the Secretary of Defense submit with the next budget submission a report to the Committees on Armed Services of the Senate and House of Representatives describing the total Department of Defense requirement for SCOTT terminals and the priority for those systems.

Commanders' Tactical Terminals

The amended budget request contained $22.98 million for the Commanders' Tactical Terminals (CTT).

The House bill would deny the requested amount due to concerns expressed about the conduct and results of recent multi-Service tests on the system, and because of apparent Air Force reticence in supporting the program.

The Senate amendment would authorize the requested amount.

The conferees understand that the Air Force has reduced its planned procurement quantities of the CTT, but note that Air Force support has not otherwise changed. However, it makes sense for the Army to take the lead in the program due to its much larger buy and the fact that it will be responsible for supporting the system once fielded. The conferees believe the test results support a low-rate initial production (LRIP) decision to support an initial operational test and evaluation (IOT&E). The terminals requested by the Army will also permit the Army to replace units in Europe to provide a limited operational capability, which is desirable given the delivery schedule of the GUARDRAIL Common Sensor, the availability of the TR-1 aircraft, and the pressing need to advance follow-on forces attack (FOFA) capabilities.

The conferees recommend an authorization of $19.07 million for this program.

Army data distribution system

The amended budget request contained $75.5 million for procurement of Army Data Distribution System (ADDS) equipment.

The House bill would authorize $17.5 million for this program.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $54.5 million for procurement of ADDS equipment. The $20 million reduction is made without prejudice and the conferees continue to support this program.

Night vision equipment

The amended budget request contained $55.1 million for AN/PVS-7 ground night vision goggles and $23.56 million for AN/AVS-6 aviator night vision systems.

The House bill would add $38 million for AN/AVS-6 aviator night vision goggles and would approve the budget request for ground night vision goggles.

The Senate amendment would add $83 million for the AN-PVS-7 ground night vision goggles and would approve the request for AN/AVS-6 aviator night vision goggles.

The conferees recommend authorization of the budget request for aviation night vision goggles, and recommend an additional authorization of $83 million for AN/PVS-7 ground night vision goggles to ensure that the Army can fulfill its contractual obligations to fund the fifth year of awarded multiyear contracts in fiscal year 1989. Although initial deliveries under these contracts were delayed, it now appears that contractors may be delivering night vision goggles in compliance with their current contract delivery schedules.

The conferees direct, however, that the additional $83 million not be obligated until the Secretary of the Army certifies to the Congress that obligation of these funds is required based on actual contractor performance in meeting all contractually required delivery schedules and performance specifications within total contract costs.

If such a certification cannot be made, the Secretary of the Army may obligate up to $38 million of these additional funds to purchase AN/AVS-6 aviation night vision goggles. Prior to obligating these additional funds for the AN/AVS-6 goggles, the Secretary shall notify the Committees on Armed Services of the Senate and House of Representatives.

Army tactical communications

The House report (H. Rept. 100-563) expressed concern over the Army's tactical communication and automation programs, and directed the Army to provide an analysis of total battlefield voice and data requirements by June 30, 1988.

The Senate report (S. Rept. 100-326) contained no similar direction.

The conferees concur that the Army should outline its requirements and plans, and direct that the report be submitted with the fiscal year 1990 budget request.

Army trucks

The House report (H. Rept. 100-563) directed the Secretary of the Army to provide to the Committees on Armed Services of the Senate and House of Representatives a master plan for modernizing the truck fleet over the next decade.

The Senate report (S. Rept. 100-326) contained no similar direction.

The Senate recedes. The conferees endorse the direction included in the House report.

Logistics support vessels

In fiscal year 1987, the Army received authorization of $40 million to procure four logistics support vessels. The Army requires one additional vessel.

The House bill would authorize one additional vessel, but would authorize no funds for that purpose.

The Senate amendment would authorize the Army to procure a fifth vessel within the funds originally authorized and appropriated.

The conferees support an authorization of an additional logistics support vessel and direct that it be procured with prior-year funds that are not required for their original purpose. The Army is expected to submit a reprogramming through normal procedures.

AIRCRAFT PROCUREMENT, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $8,980 million for Navy aircraft procurement. The House bill would authorize $9,271.5 million. The Senate amendment would authorize $9,076.2 million. The conferees recommend authorization of $9,259.3 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

EA-6B jammer aircraft

The amended budget request contained $473.557 for procurement of nine EA-6B jammer aircraft and $18.331 million for advance procurement of nine aircraft in fiscal year 1990.

The House bill would authorize $399.116 million for these aircraft, a reduction of $74.441 million. The House bill would make this reduction on the basis that the Navy had requested excess funds for the Advanced Capability upgrade.

The Senate amendment would authorize $534.257 million for procurement of 12 aircraft and $24.331 million for advance procurement for 12 aircraft in fiscal year 1990.

The conferees recommend an authorizaton of $467.557 million and $24.331 million for advance procurement for 12 EA-6B aircraft in fiscal year 1990. The conferees direct the Navy to procure not less than 12 aircraft with the funds appropriated pursuant to authorization.

F-14 modification program

The amended budget request contained no funds to initiate modification of existing F-14 aircraft into the new "D" model configuration.

The Senate amendment would authorize $29.5 million for advance procurement of six F-14D upgrade kits. The Senate report (S. Rept. 100-326) directs the Navy to incorporate a signficant remanufacutre program in its plans for the Five Year Defense Program for fiscal years 1990 to 1994.

The House bill contained no similar provision.

The conferees recommend authorization of $29.5 million for six upgrade kits, and direct the Navy to provide an acquisition strategy to the Committees on Armed Services of the Senate and House of Representatives for the long-term modernization of the existing fleet of F-14 aircraft.

F-18 aircraft/reconnaissance modifications

The amended budget request contained $2,287.3 million to procure 72 F-18 aircraft, including $82.9 million to purchase equipment and modify aircraft to function as reconnaissance aircraft.

The House bill would reduce the request by $49.7 million, based on a restructuring of the reconnaissance program, but would provide an increase of $99.7 million to procure 12 additional aircraft.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $2,494.3 million, which is sufficient to procure 84 aircraft in fiscal year 1989 and to proceed with the reconnaissance variant at the requested level. The conferees concur with the concern expressed in the Senate report (S. Rept. 100-326) that serious attention must be devoted to Navy aviation in future budget submissions. The conferees also note that budget data concerning the reconnaissance program was inconsistent and incomplete, and not supportive of a well-planned and stable acquisition strategy. The conferees expect that future budget submissions for the F-18 reconnaissance program will include complete and consistent cost estimates.

CH-53E helicopters

The amended budget request included $241.7 million for procurement of CH/MH-53E helicopters.

The House bill would reduce this request by $12.1 million while adding $9.642 million for advance procurement, a net reduction of $2.5 million from the program. The adjustment would allow the program to continue the planned procurement of four helicopters in fiscal year 1990.

The Senate amendment would authorize the amount in the budget request.

The Senate recedes.

SH-60B helicopters (Seahawk)

The amended budget request included $117.9 million for procurement of 6 SH-60B helicopters (which, combined with the procurement of SH-60F helicopters, would allow for a production run of 24 SH-60 series helicopters in fiscal year 1989).

The House bill would reduce this amount by $5.3 million.

The Senate amendment would authorize the amount in the budget request.

The Senate recedes.

SH-60F helicopter (CV ASW)

The amended budget request included $344.1 million for procurement of 18 SH-60F helicopters.

The House bill would reduce this amount by $51.9 million.

The Senate amendment would authorize the amount in the budget request.

The House authorization would continue the previous year's authorization for this aircraft, with an additional amount for inflation. However, the fiscal year 1989 request includes funding for two training systems that must be procured this year under the terms of the fixed-price procurement contract.

The House recedes, with the understanding that the increased funding in fiscal year 1989 will be used to procure the trainers.

TACAMO

The amended budget request contained $334.476 million for 7 E-6A TACAMO aircraft.

The House bill would authorize $105.841 million for 3 aircraft and would authorize $78.695 million in advance procurement for fiscal year 1990.

The Senate amendment would authorize the requested amount.

The conferees agree to authorize the amount requested for this program and stress that this authorization marks the completion of TACAMO procurement.

P-3 series modifications

The amended budget request included $131.9 million for modifications to the P-3 series aircraft, consisting of procurement of Update III kits for P-3Cs.

The House bill would add $50 million to the request for procurement of additional Update III kits.

The Senate amendment contained no similar provision.

The House recedes.

Navy common electronic countermeasures equipment

The amended budget request contained $35.335 million for Navy common electronic countermeasures (ECM) equipment.

The House bill would authorize an additional $50 million for this purpose.

The Senate amendment would authorize the requested amount.

The conferees recommend authorization of an additional $30 million for a total of $65.335 million for common ECM equipment. The Secretary of the Navy is directed to utilize the additional funding as required to reduce existing shortfalls in common ECM equipment.

WEAPONS PROCUREMENT, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $6,271.8 million for Navy weapons procurement. The House bill would authorize $5,823.8 million. The Senate amendment would authorize $6,193.1 million. The conferees recommend authorization of $5,972.2 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Advanced medium range air to air missile

The amended budget request contained $59.8 million for procurement of 50 Advanced Medium Range Air to Air Missiles (AMRAAM).

The Senate amendment would authorize the amount requested.

The House bill would provide no authorization for Navy AMRAAMs.

The conferees agreed to provide $35 million for the procurement of 30 AMRAAMs for the Navy. The conferees direct that these missiles be utilized for conducting Navy operational test and evaluation.

AIM-54C Phoenix missile

The amended budget request contained $465.3 million to procure 560 Phoenix missiles.

The House bill would authorize $325.8 million to procure 350 missiles.

The Senate amendment would authorize the amount requested.

The conferees recommend authorization of $405.3 million to procure 450 missiles. The conferees understand that this authorization is sufficient to maintain the competition established in the program.

Further, the conferees direct the Navy to install production FSU-10A fuzes on all AIM-54C Phoenix missiles stored at the contractor's facility as of June 1, 1988, before increasing production beyond the fiscal year 1988 level.

Penguin

The conferees agree that the reduction for procurement of Penguin missiles is taken without prejudice and for budgetary reasons in recognization of the program's contracting schedule for fiscal year 1989 procurements.

Vertical launched anti-submarine rocket program

The amended budget request included $17.6 million for procurement and $30.3 million for RDT&E for the Vertical Launched ASROC (VLA) program.

The House bill would authorize the requested amounts, and the House report (H. Rept. 100-563) directed the Navy to proceed with initial production of the MK-46 version of VLA as soon as possible.

The Senate amendment would authorize the requested amounts and the Senate report (S. Rept. 100-326) noted that the Department of Defense was considering cancellation of the program in favor of making SEA LANCE a surface as well as a sub-surface launched weapon. The Senate report directed the Department of Defense to report on its decision promptly.

The conferees affirm the language contained in the House report and agree that the long-term strategy for procurement of a quick reaction, long-range ASW weapon should be based on a system common to surface ships and submarines. However, to avoid having many ships with launchers empty of quick reaction ASW weapons for at least several years, the conferees believe that the production of VLA armed with MK 46 torpedoes is essential to the near-term antisubmarine warfighting ability of the fleet.

Expendable mobile antisubmarine warfare training target

The conferees agree that accelerated availability of the Expendable Mobile Antisubmarine Warfare Training Target (EMATT) would provide important training in the critical area of antisubmarine warfare. Accordingly, the conferees recommend authorization of $1 million and invite the Navy to reprogram from authorization made available elsewhere up to an additional $6 million to begin procurement of EMATT.

SHIPBUILDING AND CONVERSION, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $9,130.1 million for Navy shipbuilding and conversion. The House bill would authorize $9,126.1 million. The Senate amendment would authorize $9,056.1 million. The conferees recommend authorization of $9,056.1 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

FF 1052 service life extension program

The conferees affirm the position noted in the Senate report (S. Rept. 100-326) regarding planning limitations for any contemplated service life extension (SLEP) of the FF-1052 class frigates.

OTHER PROCUREMENT, NAVY

OVERVIEW

The amended budget request for fiscal year 1989 contained authorization of $4,789.7 million for other procurement, Navy. The House bill would authorize $5,213.4 million. The Senate amendment would authorize $4,836.2 million. The conferees recommend authorization of $4,817.8 million, as delineated in the following table. Unless noted explicitly in the statement of managers, all changes are made without prejudice.
